Merry Christmas
and
A Happy New Year
Dec '57
To All Jefferson
Alumni and Their Dear Ones—
Greetings:

Because we hold you in deep affection and good fellowship, we are sending you this message to let you know that we are thinking of you at this Christmas Season. Even those who are very far away seem near to us at this time, so feeling your presence we want to wish you and yours a Very Merry Christmas and a Happy New Year, which we trust will bring you everything good and all your hearts' desire. God bless you everyone.
My Dear Fellow Alumni:

At this time of the year I have another opportunity to exchange greetings with the Alumni of Jefferson Medical College and, believe me, it is a delightful experience.

May you have the good fortune to spend several peaceful hours with your respective families and have the pleasure of sharing the Christmas joys with children, your own, your friends' children or the children in your neighborhood. In their hearts you will find the genuine happiness of the season because in their minds will be found joy, faith and hope—the great restoratives for the troubled and tired hearts of adults.

May your mind be filled with the pleasant memories of your practice and particularly those occasions when you rendered a service, with a gracious sacrifice, to the personal satisfaction and appreciation of a grateful patient. Everyone of you have had these experiences in your lifetime of practice, and you deserved them.

And finally may you renew your faith in and loyalty to Jefferson so you may express your attitude by supporting the work of the college and the hospital so these two institutions may fulfill their merciful functions of teaching and healing. Please read the Jefferson Alumni Bulletin for announcements and dates of meetings where you can meet your fellow Alumni to talk over problems and, when possible, to share a sorrow or double a joy.

If you can bring such thoughts to your mind and heart, I know you will have a Merry Christmas as you share your happiness with your family and your friends. This is my earnest and sincere wish to all of you for a Merry Christmas and a Happy New Year.

Sincerely yours,

President, The Alumni Association
My Dear Friends:

Once again it's Christmas—a time for greeting old friends and renewing ties of fellowship and brotherhood.

Christmas is a time for gaiety and laughter—a time when, for a bit, our cares are forgotten and our hearts are young again.

Christmas also marks a time for reviewing the year past and of planning for the year to come. We, of Jefferson, can look back on a year during which we moved closer to our goal of building and expansion. We can look back on a year during which you, as Alumni, generously supported your Annual Giving Fund Drive, thereby enabling the high teaching standards of the College to be maintained. We can look back on happy occasions when many of you returned for Graduate Assembly, for Commencement and for Class Reunions. I have enjoyed meeting and talking with you at these functions and I have appreciated your invitations to speak at various of your Chapter meetings. It seems to me that by getting to know one another better through these personal contacts we will all gain a deeper understanding of our individual and mutual problems, and thus will be better able to build for Jefferson.

Most of you know of our plans for the College, and we have the strongest hopes that 1958 will see the fruition of some of them. I know that, as Alumni, your pride is seeing Jefferson progress is even greater than mine.

I hope that your own plans for the coming year will include visits to the College, for you are assured always of a warm welcome. While it gives me great pleasure to take this means of extending my most cordial greetings, it is much more satisfactory to be able to sit down and talk personally with you, and I welcome every opportunity to do so.

Until we can meet again, however, may I extend to each and every one of you my sincere best wishes for a very Merry Christmas and a Happy and Successful New Year.

Sincerely yours,

George R. Bennett
Dean
On Saturday, November 9, 1957, passengers converged upon the State Docks of Wilmington, North Carolina, from trains, planes and automobiles. Those who drove enjoyed free State-supervised parking. The time of embarkation was 3:00 P.M. and at 3:30 P.M., amidst the playing of an excellent, large High School Band complete with majorettes, the Mayor of Wilmington, Mr. James R. Benson, gave Dr. George A. Bennett, Dean, a Key to the City. At the same time, Mr. Harrison A. Allen, President of the Allen Travel Service, Inc., and Mr. C. W. Jonsson, Captain of the M. S. Stockholm, were given a plaque and flowers respectively.

The Stockholm lay glistening white and clean in the bright sunlight at the dock. At 4:30 P.M. two tugs guided it from its berth and the Cruise had begun. The staterooms were lovely and the meals bountiful and well-prepared. Swedish Smorgasbord each evening at 11 provided a delicious, eye-appealing bedtime snack.

There were 118 doctors aboard representing 32 medical schools and 23 states. Of these, 52 were Jefferson graduates.

Doctor George A. Bennett acted as Moderator of the Medical Program which was well-attended and well-received. The following Faculty Members participated in the Scientific Meetings and a copy of the program appears below:

Gerald E. Callery, M.D., Instructor in Orthopedic Surgery.

Mario A. Castallo, M.D., Clinical Professor of Obstetrics and Gynecology.

Theodore R. Fetter, M.D., Professor of Urology and Head of the Department.

Hans G. Keitel, M.D., Professor of Pediatrics and Head of the Department.

William A. Sodeman, M.D., Magee Professor of Medicine and Head of the Department.

Frederick B. Wagner, Jr., M.D., Clinical Professor of Surgery.
MEDICAL PROGRAM

SUNDAY, November 10
2:30 p.m.—Use and Abuse of Steroids in Therapy:
   Dr. William A. Sodeman
3:30 p.m.—Special Problems of Fluid Therapy in Infancy and Childhood:
   Dr. Hans G. Keitel

MONDAY, November 11

SYMPOSIUM ON INFECTIONS IN GENERAL PRACTICE
9:00 a.m.—Pyogenic Joints and Osteomyelitis:
   Dr. Gerald E. Callery
9:30 a.m.—Treatment of Vaginal Discharges:
   Dr. Mario A. Castallo
10:00 a.m.—The Present Status of Management of Urinary Infections:
   Dr. Theodore R. Fetter

10:30 a.m.—New Respiratory Tract Diseases: Their Recognition and Treatment:
   Dr. Hans G. Keitel
11:00 a.m.—Gastroenteric Infections and Their Treatment:
   Dr. William A. Sodeman
11:30 a.m.—Use and Abuse of Antibiotics in General Practice from the Surgeon's Standpoint:
   Dr. Frederick B. Wagner, Jr.

WEDNESDAY, November 13

SYMPOSIUM ON CARDIOVASCULAR DISEASE
9:00 a.m.—(a) The Role of the Kidney in Hypertension:
   (b) Hypertension and Unilateral Renal Disease:
   Dr. Theodore R. Fetter
10:00 a.m.—Treatable Forms of Hypertension In Infants and Children:
   Dr. Hans G. Keitel
11:00 a.m.—Therapy of Heart Failure with Special Reference to Fluid and Electrolyte Balance:
   Dr. William A. Sodeman

SYMPOSIUM ON CARDIOVASCULAR DISEASE CONTINUED
2:30 p.m.—Arteriography as an Aid in Management of Peripheral Vascular Diseases:
   Dr. Frederick B. Wagner, Jr.
3:30 p.m.—Panel Discussion
   Drs. Fetter, Keitel, Sodeman, Wagner, Jr.
FRIDAY, November 15

CANCER SYMPOSIUM

9:00 a.m.—Malignant Bone Tumors:
   Dr. Gerald E. Callery
9:30 a.m.—Value of Cytology and Detection of CA of Female Generative Organs:
   Dr. Mario A. Castallo
10:00 a.m.—Cancer of the Bladder and Prostate:
   Dr. Theodore R. Fetter
10:30 a.m.—Cancer in the Pediatric Age Group:
   Dr. Hans G. Keitel
11:00 a.m.—CA of the Lung and Its Recognition:
   Dr. William A. Sodeman
11:30 a.m.—Polyps and Cancer of the Colon:
   Dr. Frederick B. Wagner, Jr.
12:00 NOON—LUNCH
2:30 p.m.—Management of Venous Disorders of the Lower Extremities:
   Dr. Frederick B. Wagner, Jr.

MONDAY, November 18

3:00 p.m.—Management of Sterility in the Female:
   Dr. Mario A. Castallo
4:00 p.m.—Management of the Female Climacteric:
   Dr. Mario A. Castallo

WEDNESDAY, November 20

9:00 a.m.—Calculous Disease of the Urinary Tract:
   Dr. Theodore R. Fetter
10:00 a.m.—Diagnosis and Management of Low Back Disorders:
   Dr. Gerald E. Callery

11:00 a.m.—Modern Management of Acute Pancreatitis:
   Dr. Frederick B. Wagner, Jr.
12:00 NOON—LUNCH
2:30 p.m.—New Treatable Metabolic Diseases of Infancy:
   Dr. Hans G. Keitel

THURSDAY, November 21

9:00 a.m.—Shoulder and Knee Joint Disorders:
   Dr. Gerald E. Callery
10:00 a.m.—Surgical Aspects of Thyroid Disease:
   Dr. Frederick B. Wagner, Jr.
11:00 a.m.—Newer Concepts in Infant Feeding
   Dr. Hans G. Keitel
12:00 NOON—LUNCH
2:30 p.m.—Management of Common Urinary Obstructions:
   Dr. Theodore R. Fetter
3:30 p.m.—Evaluation of Liver Function Tests:
   Dr. William A. Sodeman

Faculty and Members of Guadalupe Medical Society

Guests Enjoy Entertainment on
The many available extracurricular activities aboard the Stockholm were very popular: trap shooting, dance orchestra, gymnasium, deck sports, Swedish massage, vapor room, indoor and outdoor swimming pools and afternoon teas with music. In the evenings as well as during classes, the faculty members and postgraduate physician students had many opportunities to become acquainted and to learn from each other. It is certain that Jefferson’s public relations have been improved and its reputation enhanced by this cruise.

Stops were made at the following ports: Havana, Cap Haitien, San Juan, Pointe-a-Pitre and Charlotte Amalie. There were many memorable highlights to these visits. The horseback ride up the mountain from the ruins of Sans Souci Palace to the famous Citadel Laferriere of King Henri Christophe will never be forgotten. At San Juan the cruise alumni and their wives were entertained at a meeting with the Puerto Rican Chapter Members. The local doctors of Pointe-a-Pitre met with the Faculty and Administration members and escorted them on a local tour. Individual excursions, shopping for native wares and interesting experiences in the picturesque ports contributed to the general impression that all had a very enjoyable time.

The importance of private financial support for medical education has been much in the news during the last month.

On October 22, 1957 Mr. Percival E. Foerderer, Chairman of the Board of Trustees of the College and Hospital, Admiral James L. Kauffman, President and Dr. George A. Bennett, Dean, attended the dinner of the National Fund for Medical Education at which President Dwight D. Eisenhower was the principal speaker. At the dinner, which was held at the Waldorf-Astoria, the Frank H. Lahey Memorial Award for service as a layman to the cause of medical education was presented to Mr. Alfred P. Sloan, Jr., former Chairman of the Board of General Motors Corporation and President of the Alfred P. Sloan Foundation. The award was presented jointly by former President Herbert Hoover, Honorary Chairman of the Fund, Dr. David B. Allman, President of the American Medical Association (Jefferson, Class of 1914) and Dr. John B. Youmans, President of the Association of American Medical Colleges.

Some 1400 corporation executives and medical educators heard President Eisenhower speak on behalf of the National Fund for Medical Education. He said "The rapid accumulation of new medical knowledge is flooding in like a tide in the Bay of Fundy. There is on all sides a mounting demand for health services by our communities. Under these demands, the medical schools in America today face inherited responsibilities beyond what they are financially able to meet. The medical progress of which we are so justly proud has involved them in a struggle for solvency and survival.

"The constantly widening scope and complexity of medical education has, within the space of a few decades, quadrupled the cost of producing a qualified doctor. Tuition now pays but one-fifth of the student's total education cost.

"Accordingly, there is — today — a great gap to close; the gap between the ceiling of medical school receipts from all sources and the racing increase in costs of teaching, research and medical care. But the gap which the United States will face tomorrow will be still wider and deeper.

"Our nation is on the threshold of unprecedented population growth. I am told by the Bureau of the Census that in 1975—only eighteen years ahead—it is reasonable to assume that there will be 228,000,000 of us Americans.

"Our eighty-three medical schools today are turning out scarcely enough physicians annually to care for America's present population of 172,000,000, to safeguard the health of our young men in the armed services and to keep abreast of the overpowering forward sweep of medical research and knowledge.

GOAL IS TO FORTIFY MEDICAL TEACHING

"Toward closing today's gap between the annual needs of medical schools and their annual resources, the National Fund for Medical Education has made a start. Its goal from inception has been to fortify and sustain all our existing medical teaching institutions—both those which depend on voluntary support and the other half which receive tax subsidies from the states.

"Since 1951, the fund has provided to our medical schools over $12,000,000 in unrestricted moneys. Each year, as the word has spread, the fund has received larger gifts from more givers and has been able to make larger allocations. Recently I learned that a foundation gave to the fund $10,000,000 for use, on a matching basis, to attract new unrestricted gifts—one added dollar for every new dollar raised by the fund beyond its present effort. This is great news.

"But the total need of America's present medical schools is far above what the National Fund has yet been able to do. I am told that America's eighty-three approved schools still require $10,000,000 more a year to balance their fiscal budgets—and many
more dollars to meet their existing academic deficits. Adding to the magnitude of this problem, it is clear that, in the near future—if the United States is to provide enough doctors to meet a population increase of one-third by 1975—many new schools of medicine must soon be put into operation.

"How shall we go about satisfying so essential and so great a need?"

"Of one thing I am sure, this problem of financing medical education must be met as we meet so many other problems: through the leadership of citizens who are aroused to a crucial need and who will arouse others.

"The resources are available. Ours is a $440,000,000,000 country today. Our incomes, even after taxes, never totaled so great a sum as they now do. The only question is this: will enough citizens become concerned enough? Will enough citizens think a little more deeply about what they do with what they earn?"

Heads of Local Colleges Meet with Leaders of Industry

Many of the thoughts expressed in the preceding excerpts from President Eisenhower's speech in New York were echoed on October 24, 1957 in Philadelphia, when the heads of 20 local colleges and universities in the area were hosts to leaders in the fields of business, industry and communications at a luncheon at the Barclay Hotel. Mr. Percival E. Foerdener, Mr. Edwin King Daly, Mr. D. Hays Solis-Cohen, and Mr. Albert J. Nesbit, members of the Board of Trustees of the College and Hospital attended.

Admiral Kauffman Signs Joint News Release

Previously, a news release had been signed jointly by the heads of these 20 colleges and universities, Admiral James L. Kauffman, President, signing the release on behalf of The Jefferson Medical College.

The release said in part—"We believe that support of higher education should be the concern of every responsible citizen. It is for this reason that we are endeavoring to implement locally the advertising campaign now being conducted nationally by the Advertising Council and sponsored by the Council for Financial Aid to Education.

"Colleges and universities in the United States now enroll an average of three out of ten college-age youth. The proportion is rising with the increase in our college-age population, and enrollments are expected to double by 1967.

"Locally—as well as nationally—the situation is critical. Our colleges, universities, technological and professional schools face serious problems of overtaxed facilities, shortage of teachers, and inadequate salary scales. Increased financial support from all sources must be forthcoming. Without this, it will be impossible to maintain the quality of higher education, characteristic of our local institutions, let alone make any provision for expansion."

Dr. Frank W. Abrams, former Chairman of the Standard Oil Company (N. J.) gave the principal address at the luncheon, and he emphasized the need for increased support by industrial corporations as well as individuals. He said that the 1953 Annual Fund Survey of the American Alumni Council had shown that only 20.5% of alumni contributed, at an average rate of $35.60, to the 442 institutions which reported. Yet, he continued, if all of the 8,000,000 alumni from the 1870 colleges and universities in the country gave at the same average rate, the annual income would be $285,000,000.

While Jefferson alumni have every right to be proud of their support of the Annual Giving Fund Drives, it would seem that in view of the rapidly increasing financial needs of medical education, our sights should be raised and our goals substantially advanced in this and coming years.

By Invitation
The expansion program formulated long ago for the orthodontic department of the Emerson R. Sausser Clinic at Jefferson, to give added facilities to the children of the community, has become a reality now.

Since September, the clinic has been opened to the public for the benefit of a larger number of children patients. The orthodontic division has now 125 active cases, treating public and parochial school children who are not able to pay for private dental care and yet are not eligible for charity clinics.

The department continues to be one of the most active and vital centers of treatment, education and clinical in-

Clinical Activities in the Operative Department. Four Dentists and two Dental Hygienists are Always in Attendance in this Clinic
Clinical Supervisor is Available at all Times for Consultation.

Dr. R. F. A. Colella, Director of the Clinic, Examines a Young Patient as Dr. Edward Kerner and Mrs. Harriet Lewis Observe.

Investigation. Established in September 1950, through a grant by the Samuel H. Kress Foundation of New York, the clinic has aimed not only to maintain the health of the oral structure of children, but also to teach the principles of mouth hygiene and to further studies leading to prevention of dental diseases.

Last year, 17,600 treatments, in all phases of dentistry, were given to more than 3,500 patients, including medical students and student nurses.

The Clinic is headed by Dr. R. F. A. Colella, and his staff consists of a chief orthodontist, five orthodontists, four full time dentists, two dental hygienists, two dental assistants and a part-time secretary.

A Cephalometric X-Ray is Being Taken by Miss Francine O'Neil Under the Supervision of Dr. Colella.
Editor’s note: The following is a reprint of an editorial by Dr. Hugh Robertson, Class of 1925, which appeared in the October 25, 1957 issue of PHILADELPHIA MEDICINE. With the approaching new year, it seemed to us to warrant more than local readership.

ANAPHRONTISOGENETESTHESIA WEEK

"PHILADELPHIA MEDICINE humbly suggests a week of anaphrontisogenesthesia.

"This could very well be sandwiched between 'Be Kind to Your Rich Uncle Week' and 'See your Psychiatrist Week'.

"'Anaeltc.' is a dandy new word, and you might like to use it once you learned its meaning. It is derived from the Greek ana (no) phrontis (fear) gignesthai (to be produced) esthesia (feeling). We could call it 'Let's Not Get Scared Even Once This Week,' but 'Anaetc. Week' is much more scientific.

"Evolution has betrayed man. Now that he can fly to the stratosphere, live comfortably under water, project his voice and image to the stars, and launch artificial moons, is he happy? No! Homo sapiens has evolved to homo hystericus. Instead of standing erect and proud, he crouches timidly, tail between legs, head cocked over his shoulder in dread of some new terror.

"Modern science has made him cancer-conscious. Research laboratories have proven beyond all doubt that all good things are bad. Our Thanksgiving dinner will do all sorts of things to our cholesterol level and hasten our early demise with coronary disease. Tobacco is downright poison. Crowds and intimate association with fellow-beings are dangerous. Even the gorgeous blue skies of autumn are laden with atomic fallout and lethal smog.

"How can the pregnant wife of modern man give birth to any semblance of normal child in the midst of such peril? We don't know, but we bet she will."

HUGH ROBERTSON, M.D.

Jefferson Faculty Members
Hold Chamber Music Recital

The first Chamber Music Recital of The Jefferson Medical College Faculty was held in McClellan Hall on November 1, 1957. The faculty members who participated in the musicale were Dr. F. William Sunderman, violin; Dr. F. William Sunderman, Jr., viola; Dr. Frederick Wagner, organ; and Dr. Hans Keitel, oboe.

The program, which included chamber works by Bach, Mozart, and Telemann, was warmly received by an audience of Jefferson students, alumni, house staff, nurses and faculty. The first Chamber Music Recital has received much acclaim as a contribution to the cultural life of Jefferson.

Six Students Receive Honorable Mention in Schering Competition

The following six Jefferson Medical College students have been awarded Honorable Mention in the 1957 Schering Award Contest, and each will receive a gift: John A. Craig, Jr., Robert A. Cooper, Jr., Joseph T. English, Joel L. Seres, Harry E. LeFever, Jr., and Donald E. Willard, Jr.

The topic on which the competition was based this year was "Recent Advances in the Bio-Chemical Aspects and Treatment of Mental Disease."

The 1958 competition began in November and the Schering Corporation advises that there are innovations which will make the award more appealing and profitable to the participating students.

Dr. Frank R. Slaughter, Novelist, Addresses Osler Historical Society

Over 200 members and guests attended the November 4th meeting of the Osler Historical Society in the Auditorium at the College, at which the distinguished novelist, Dr. Frank G. Slaughter, was the speaker. Dr. Slaughter is a graduate of Johns Hopkins, and for a number of years was a very successful surgeon in Jacksonville, Florida. He began writing as a hobby and, after five years of little or no recognition, his book “That None Should Die”, became a best seller in 1941, thus launching a successful literary career. Dr. Slaughter spent four years as a Surgeon in the Armed Forces, and his books are invested with personal experience and authenticity. His latest work, “Sword and Scalpel”, is a recent Literary Guild selection.

Excerpts from Dr. Slaughter’s talk, entitled "The Physician’s Heritage", to the Osler Historical Society follow:

“As we meet here today, in one of our country’s oldest and most respected medical schools, it is startling to think that both the cultural and professional traditions of the profession of which we are all a part go back beyond the recorded history of man, roughly 50,000 years. No other profession has such deep roots in history, no other has been such an intimate and important factor in human development. Disease has been on the earth longer than man, the bones of pre-historic animals prove that fact. The witch doctor, or shaman, of primitive peoples, muttering his incantations, was using some of the same techniques as modern psychiatry and psychoanalysis. And the man who first dared to scrape a hole in his brother’s skull many thousands of years ago was definitely the ancestor of the modern surgeon. No other profession has such a heritage and such traditions; it behooves us to wear this heritage proudly.

“For at least 49,950 years physicians have fought against man’s greatest enemy—the microbe, the disease germ that causes death. Yet the past fifty years have seen more progress in that fight than in all the years that went before. The story of what went before modern discovery, the patient men of medical science who worked to do what might be called the basic research without which our spectacular modern day progress could not have been made, is as thrilling as any saga of adventure and exploration. It is a story of martyrdom, as well, for medicine has had more than its share of them.

“Priscillian, a Spanish monk, was burned at the stake for daring to think disease was more than a punishment for sin. Michael Servetus, brilliant and erratic, postulated theoretically the existence of the pulmonary circulation many decades before Harvey, yet lost his life in flames at the hands of John Calvin. Vesalius, father of anatomy, was hounded from Venice and Padua because of his dissections. Gaspar Tagliacozzi, father of plastic surgery, was persecuted and finally buried in an unhallowed grave because of his work. Semmelweis died insane, not realizing that the world was already beginning to acclaim him for discovering the truth of infection and antisepsis, twenty years before Pasteur became immortal. Benjamin Waterhouse, in Boston, proved that the smallpox vaccination of Edward Jenner was safe by trying it on his own children, and was denounced from the pulpit of his own church. So it has gone down through the ages when men have dared to discover truth that could save their fellows from death.

“There have been many bright eras in medical history, some of them startlingly modern in character. Hippocrates advocated washing wounds with water and wine, draining the chest for em-
pyeuma, and other remarkably modern practices. Verro postulated the germ theory of disease over two hundred years before the Christian era. In Alexandria, a thriving medical school taught students from all over the world long before Christ was born. And hundreds of years before that Indian surgeons had been treating cataract by the theory of disease over two hundred years, teaching students from all over the world and extensive abdominal surgery. They used dried seaweed for goiter, an excellent source of iodine.

"In more recent times, the story of antisepsis reads like a detective story. With the lying-in hospitals of Europe turned into veritable death traps by the recurring epidemics of puerperal fever that raged through them in the sixteenth, seventeenth and eighteenth centuries, doctors sought, mostly in vain, for some way to control it. Here and there, real progress was already being made. Charles White, of Manchester, preaching cleanliness and fresh air, got excellent results as early as 1773, using actually only Hippocrates' theory of cleanliness. In 1829, Collins used chloride of lime in the Dublin Rotunda to stop an epidemic, scrubbing walls, instruments, bedding, etc., with the pungent chemical, without ever knowing how or why it worked.

"In America, Dr. Oliver Wendell Holmes traced the source of infection in childbed fever to doctors and midwives who carried it from one case to another. He even predicted who would die by discovering who had engaged what physician or midwife to attend them. In the resulting hullabaloo, Holmes was roundly cursed by some of the leading doctors of New England. In Vienna, at much the same time, a crazy Hungarian named Semmelweis learned that his friend Kolletschka had died of a knife wound during an autopsy. He was struck by the fact that the effects of the resulting infection in Kolletschka's body were the same as in the bodies of mothers dying with the septicemia of puerperal fever, the only difference being in the point of entry. Correctly deducing that something was being brought to these mothers while in labor and in the delivery room, he called the agent 'cadaveric particles' and made students and doctors wash their hands in lime water to remove the stink. In the process he removed puerperal fever almost completely from the Student's Clinic of the Allegemeines Krankenhaus, where it had been a pestilence. But Semmelweis was hounded out of Vienna for ordering doctors to wash their hands, although Holmes had already laid down the dictum that 'a gentleman with clean hands can carry the disease'. Semmelweis moved to Budapest, there put his methods into operation with remarkable success and was soon performing antiseptic surgery, more than twenty years before Lister popularized the smell of phenol in operating rooms.

"These and hundreds of other tales of heroism, sacrifice and life saving discovery are a part of the physician's heritage, a source of pride to all who seek the coveted M.D. Let me counsel you not to forget them in the stress of getting your degree and practicing your profession. The people look to the medical profession for leadership in many other fields than medicine alone. With the consciousness of our great historical and humanitarian traditions, we are obligated not to fail in providing that leadership.'"
MR. FOERDERER AMONG FOUR HONORED BY REPUBLIC OF CUBA

Mr. Percival E. Foerderer, Chairman of the Board of Trustees of the Jefferson Medical College and Hospital, was among three Pennsylvanians who were honored on October 14, 1957 by the Republic of Cuba for their part in the recent commemoration of the 100th anniversary of the graduation from Jefferson of Dr. Carlos Finlay, famed medical research worker.

Cuban Ambassador Miguel Angel Campa initiated Mr. Foerderer as a grand officer of the Order of Finlay. State Senators Leroy E. Chapman, M.D. and Israel Stiefel were made commanders of the Order of Finlay. Governor George M. Leader also was to receive the Grand Officer's Medal but was unable to attend, and Dr. Chapman, who is Chairman of the Appropriations Committee of the State Senate, was designated to make the award to the Governor later at his office in Harrisburg.

In making the presentation of the medals and ornate certificates, the Ambassador termed Dr. Finlay "Perhaps one of the most outstanding men of science produced during the last 100 years."

The Ambassador explained that the Order of Finlay was created by the Government of Cuba to honor the merits and scientific achievements of Dr. Finlay, who was graduated from Jefferson in 1855 at the age of 22.

Ambassador Campa said the award goes to persons who either in the field of medicine or in public service have rendered assistance "In the progress and well-being of humanity and of international relations."

Mr. Foerderer said that he accepted the honor on behalf of the Board of Trustees of the College. "I wish to express the appreciation of the entire Board", he said in accepting the medal.

DR. FRANCIS J. BRACELAND APPOINTED TO NATIONAL ADVISORY MENTAL HEALTH COUNCIL

Dr. Francis J. Braceland, Class of 1930, of Hartford, Connecticut, has been appointed to the National Advisory Mental Health Council, the announcement of his appointment having been made by Surgeon General Leroy E. Burney of the U. S. Public Health Service.

Dr. Braceland, Psychiatrist-In-Chief at the Institute of Living in Hartford, will sit with the Council three times a year, three days at a time, to assist in reviewing grant applications to the National Institute of Mental Health. The Council has twelve members, and is one of seven such Councils attached to various institutes of the National Institutes of Health.

Dr. Braceland's picture appears on page 30 of this issue of the BULLETIN.
THE JEFFERSON GRADUATE ASSEMBLY

The Jefferson Graduate Assembly will be held February 5, 6 and 7, 1958 (Wednesday, Thursday and Friday). The presentations will run from 9:30 A.M. to 4:30 P.M. A recess will be taken between 12:30 and 2:00 P.M., when luncheon will be served, at which Dean Bennett and The Alumni Association will be hosts. The presentations will be resumed from 2:00 P.M. until 4:30 P.M.

The Annual Business Meeting and Alumni Dinner will be held Thursday Evening, February 6, 1958, at The Barclay, 18th Street and Rittenhouse Square.

Wednesday, February 5, 1958
9:25 to 2:00 P.M.
(McClellan Hall)
9:25 to 9:30 A.M.
Dr. George A. Bennett, Dean
Welcome.
9:30 to 9:45 A.M.
9:45 to 10:00 A.M.
James E. Clark, M.D., Clinical Aspects of Aldosterone.
10:00 to 10:30 A.M.
John N. Lindquist, M.D., Treatment of the Chronically Ill.
10:30 to 11:00 A.M.
John J. Walsh, M.D., Current Concepts Regarding Treatment of Rheumatic States.
11:00 to 11:15 A.M.
Recess.
11:15 to 12:30 P.M.
Panel—Congenital Heart Disease.

JOHN R. GRIFFITH, M.D., Moderator
Medical Aspects
Daniel W. Lewis, M.D.
Physiological Aspects
Richard T. Cathcart, M.D.
Surgical Aspects
John Y. Templeton, III, M.D.
12:30 to 2:00 P.M.
Dean's Luncheon.
2:00 P.M. to 4:30 P.M.

ELLiot L. GOODMAN, M.D., Moderator
2:00 to 2:30 P.M.
Charles W. Semisch, III, M.D., Diet and Atherosclerosis.
2:30 to 3:00 P.M.
Charles Fineberg, M.D., Surgery and Coronary Artery Disease.
3:00 to 3:15 P.M.
Recess.
3:15 to 4:30 P.M.
Panel—Management of the Patient with Inoperable Cancer.

Thursday, February 6, 1958
9:30 A.M. to 12:30 P.M.
JOHN J. O'KEEFE, M.D., Moderator
9:30 to 10:00 A.M.
Bernard J. Alpers, M.D., Management of Convulsive Disorders.
10:00 to 10:30 A.M.
Martin J. Sokoloff, M.D., Home Treatment of Tuberculosis.
10:30 to 11:00 A.M.
Dr. John H. Gibbon, Jr., M.D., Surgery and Pulmonary Neoplasms
11:00 to 11:15 A.M.
Recess.
11:15 to 12:30 P.M.
Panel—Problems in Obstetrics and Gynecology

JOHN B. MONTGOMERY, M.D., Moderator
Recent Advances in Hormonal Therapy
Abraham E. Rakoff, M.D.
Endometriosis
Joseph P. Long, M.D.
Toxemia of Pregnancy
Joseph L. Finn, M.D.
12:30 to 2:00 P.M.
Luncheon.
2:00 P.M. to 4:30 P.M.
JOHN T. FARRELL, JR., M.D., Moderator
2:00 P.M. to 4:30 P.M.
ELMER H. FUNK, JR., M.D.,
Moderator

2:00 to 2:30 P.M.
Felix E. Karpinski, Jr., M.D., Management of the Jaundiced Newborn.

2:30 to 3:00 P.M.
Leandro M. Tocantins, M.D.,
Treatment of Lymphomas and Leukemias.

3:00 to 3:15 P.M.
Recess.

3:15 to 4:30 P.M.
General Panel
WILLIAM A. SODEMAN, M.D.,
Moderator
Kenneth E. Fry, M.D., General Surgery
Aaron Capper, M.D., Pediatrics
Paul A. Bowers, M.D., Obstetrics and Gynecology
Robert A. Matthews, M.D., Psychiatry
F. William Sunderman, Sr., M.D., Laboratory Medicine

DR. TOCANTINS MODERATES TRANS-ATLANTIC PANEL

On December 4, 1957 Dr. Leandro M. Tocantins, Professor of Clinical and Experimental Medicine, moderated a panel discussion between doctors in United States and doctors in England, which was transmitted by a new trans-Atlantic underwater cable. The subject of the hour-and-fifteen minute conference was "Advances in the Chemotherapy of Cancer with Special Reference to the Leukemias", and it was sponsored by the American Medical Association and the Royal Society of Medicine in cooperation with Smith, Kline & French Laboratories. It was the second trans-Atlantic medical meeting in history.

Three world medical centers were linked—Philadelphia, where the American Medical Association was convened in its 11th annual Clinical Meeting; London, where a special panel met in Barnes Hall of the Royal Society of Medicine, and Washington, D. C., where the program was heard in both the National Institutes of Health and the Army's Walter Reed Hospital.

In Philadelphia, physicians attending the Clinical Meeting heard the discussions which started at 3 p.m. over a special high-fidelity system in the Grand Ballroom of Convention Hall, scene of the winter A.M.A. meetings' scientific programs. Similar arrangements were made in London and Washington.

The conference honored the 125th anniversary of the description of lymphadenoma, a cancerous condition affecting the lymph glands, by Thomas Hodgkin (1798-1866), pathologist to Guy's Hospital, London.

In United States, the panel consisted of Dr. Tocantins, as moderator, Dr. Joseph Burchnel, Professor of Medicine, Cornell University Medical College; Dr. R. Philip Custer, Associate Professor of Pathology, University of Pennsylvania School of Medicine; Dr. Sidney Farber, Professor of Pathology, Harvard Medical College; Dr. Emil Frei, Head of the Chemotherapy Service, National Cancer Institute, and Howard Skipper, Ph.D., Professor of Experimental Pathology, University of Alabama Medical College.

The British panel included Mr. A. Dickson Wright, of St. Mary's and Prince of Wales Hospitals, London; Professor A. Haddow, Professor of Experimental Pathology, London University, and Director of the Chester Beatty Research Institute, Institute of Cancer Research, Royal Cancer Hospital; Dr. R. Bodley Scott, Physician to Her Majesty, the Queen; Dr. John F. Wilkinson, Hematology Lecturer, Medical University of Manchester, and Consultant Physician to the Manchester Royal Infirmary, and Dr. Eve Wiltshaw, formerly of Boston City Hospital, and now associated with the Institute of Cancer Research, Royal Marsden Hospital, London.
March 6, 1933 stands out in the annals of United States history because on that date the newly inaugurated President, Franklin D. Roosevelt, closed all the banks in the country.

This date also stands out as a landmark in the history of The Jefferson Medical College. On March 6, 1933 the first All-College dance, called the "Black and Blue Ball", was inaugurated at Jefferson under the auspices of Kappa Beta Phi and sponsored by the author. The Ball is called "Black and Blue" for Jefferson's colors.

The first dance was held in the Ballroom of the old building of the Penn Athletic Club at 225 South 18th Street. This same ballroom was used until 1942 when the Government took over the entire building for the Securities and Exchange Commission. During the years 1942, 1943 and 1944 the ballrooms at the Broadwood Hotel and Town Hall were used for the dances. During these years two extra dances were held because of the accelerated curriculum at the medical schools because of the war emergency. Since 1945 all of the dances have been held in the ballroom of the Bellevue-Stratford Hotel.

The Ball for 1958 will be held on February 28th in the ballroom of the new Sheraton Hotel on 17th Street and Pennsylvania Boulevard. We hope that everyone will make an effort to attend.

The Black and Blue Ball has become a tradition at Jefferson and has, I feel, contributed a great deal to the social welfare of the students and their families, as well as to the College. It has had its ups and downs, as does any new, uncharted adventure. Those who are old enough will remember that in 1933 we were still in the prohibition era. Immediately after the influence of this era on the habits of the people subsided, the war era began. However, shortly after the cessation of the war, the majority of the youths of the country resumed their sober habits, and we are in that phase now. The dances are well and carefully planned and have always been well attended. On an average we have about 800 every year, and this year we expect to have 1000 or more.

It has been a great source of pleasure and satisfaction to me over the past 25 years to have sponsored these dances, and I have attended all but one since they began in 1933. The sight of so many attractively dressed, charming young people having a good time has indeed been rewarding.

Because of the good attendance by students (over 50%) and the support we receive every year from the Faculty, Alumni, parents and the Board of Trustees we have always been financially solvent. All of the expenses are carefully supervised and scrutinized and after defraying all expenses, we have some money left.

To make worthwhile use of the net proceeds, I established the "Jefferson Student Aid Fund" in 1940. The money in this Fund is invested and managed by the Board of Trustees of the College and Hospital. The Fund will be augmented annually by the proceeds from the dances and contributions by those who are interested in this worthy cause. The purpose of the Fund is to provide money as loans to needy students, and to render indirect aid for student welfare and education. The money in the Fund now amounts to in excess of $20,000, and is growing annually at a gratifying rate.

In 1956, legal documents drawn by the College's attorney, providing for the permanent establishment and administration of the Fund, were signed by Officers of the College and Hospital, by Dean Bennett and myself. Applications for loans from the Fund should be made through the Dean's office.
Naturally to make these affairs a success has required organization, team work, loyalty and interest in the project. Through the years I have been most fortunate in having fine groups of students to work with, and the members of Kappa Beta Phi deserve a great deal of credit for the success of the dances.

I wish to express my thanks to all who have worked with me on the Black and Blue Balls and who have worked to make the Student Aid Fund a reality. Also, I wish to express my special thanks and appreciation to the members of the Faculty and to the splendid men who have occupied the Dean’s Chair, namely: Doctors Ross V. Patterson, Henry K. Mohler, Randle C. Rosenberger, Acting Dean; Louis H. Clerf, Acting Dean; William Harvey Perkins and our present and capable Dean George A. Bennett. These men gave me encouragement and support to carry on.

Finally, I wish to express my sincere thanks to the members of Kappa Beta Phi for their whole-hearted support and cooperation through the years. Their trust and confidence in me are greatly appreciated.

I hope that there will be no cessation of interest in the Black and Blue, and that contributions will continue in increasing amounts to the Jefferson Student Aid Fund (tax deductible) by the Trustees, Alumni, parents and friends. All gifts will be greatly appreciated and wisely used.

Please don’t forget that February 28th is the date for the next Black and Blue Ball. Come and see for yourself what an impressive affair it has become.

ELI R. SALEEBY, M.D.
*Grand Swipe Kappa Beta Phi*

**CLASS OF 1930 HOLDS COCKTAIL PARTY “GET-TOGETHER”**

The Class of 1930 held a cocktail party on Sunday, November 10, 1957 at the home of Dr. and Mrs. Leib J. Golub. It was fun to be together again, and to greet former classmates whom we hadn’t seen for a couple years.

Kenneth Crothers made an impression in absentia. He is Chief of Urology at both Chester and Taylor Hospitals. Another absentee who rang the bell is Dave Findley, now serving with the State Board of Health in Montana.

Dave Zipin recently moved his offices to St. Luke’s and Children’s Medical Center.

We hope that the Marks and Staileys, both of whom spent that particular day in California, got together. Sorry there wasn’t anyone in the Canal Zone to visit with George Bland.

At least two members of our class have sons who are now students at Jeff: John Helmick and Don Weems; and at least two—the Boltons and the Weems—are proud grandparents.

We are all looking forward to another get-together after the first of the year at the home of Dr. and Mrs. Gerald Beatty in Wilmington, Del.

**Committee**

**CLASS OF 1930 HOLDS COCKTAIL PARTY “GET-TOGETHER”**
NEW JERSEY SHRINERS HONOR

DR. DAVID B. ALLMAN, '14

PRESIDENT OF THE A.M.A.

Dr. David B. Allman, President of the American Medical Association, and an alumnus of Jefferson in the Class of 1914, was honored by his fellow Shriners of the State of New Jersey at a dinner at Hackney's Restaurant in Atlantic City, New Jersey, on October 25, 1957. The affair was sponsored by the Atlantic City Shrine Club and the Crescent Temple Shrine, and some five hundred guests attended, among whom were Dr. George A. Bennett, Dean, and Dr. William T. Lemmon, Professor of Surgery at the College.

Dr. Bennett lauded Dr. Allman as a medical educator, a physician and as a humanitarian. He said that it was a combination of great achievements which brought Dr. Allman the recognition of being the first doctor from New Jersey to be elected President of the American Medical Association. He described Dr. Allman as intensely devoted to the furthering of medical education.

Dr. Bennett said "From Thomas Lindberg, administrator of the Atlantic City Hospital, I have learned of the great amount of work he has done as a physician in the resort."

"Tonight," he added, "I have seen further evidence of Dr. Allman as a humanitarian as I witnessed the persons who have approached him with thanks for special services in the past."

Dr. Aldrich C. Crowe, Class of 1921, of Ocean City, was appointed Chairman of the evening by Thomas H. Lawley, president of the Atlantic City Shrine Club. He presented Dr. Allman with a plaque in recognition of the fame that is reflected upon the resort and the Shriners by having in their midst the 111th President of the AMA.

Dr. Allman was also presented with a jeweled fez and a silver combination lighter and cigarette case.

Dr. Allman told the group that he is proud of his hometown and the people with whom he works there. "They helped me to achieve the great honor bestowed upon me," he declared.

In describing the AMA, Dr. Allman said, "The American Medical Association is the largest and best medical organization in the World, now having over one hundred sixty-eight thousand members.

"The Association was organized in the City of Philadelphia in the year of 1847, and the sole purpose of the American Medical Association at that time was, and still continues to be 'to promote the science and art of medicine and the betterment of public health'.

"The headquarters of the American Medical Association are located in a nine story brick and stone building which occupies one-half of a city block at Dearborn and Grand Avenues in Chicago, and where we have over seven hundred and fifty full time employees.

"The American Medical Association is now 'big business' and we operate upon an annual budget of slightly over eleven million dollars.

"About one-third of this money comes from our annual membership dues. Approximately forty-one percent is obtained from the advertising in our various medical journals. The Journal of the American Medical Association, which is our largest publication, is issued weekly and goes to
every member and to practically every library in this country, as well as all the other countries not behind the Iron Curtain. In addition to our official Journal, we publish nine other specialty journals, and the subscription from these journals amounts to about twenty percent of our income.

"Of the eleven million dollars which is taken in annually, over sixty percent of it is spent on scientific activities on research and on evaluation of new drugs. Approximately nineteen percent of our income is spent on health education and public information, and about eight percent on administrative expense. None of the officers, trustees, or members of the various councils receive any compensation for their services other than knowing that they are carrying out the objectives of the Association in promoting the science and the art of medicine and the betterment of public health.

"Each year the American Medical Association, in addition to what the individual physicians contribute, gives one-half a million dollars to medical education.

"In addition to our main building in Chicago, we maintain a 'Listening Post' in Washington, where we have twenty-four full time employees. The purpose of this office is to be ever vigilant for any proposed legislation which might prove detrimental to the health and welfare of the American public or the interests of the American physician."
TENTH ALUMNI FUND SHOWS GOOD PROGRESS

JOHN H. GIBBON, JR., M.D., Chairman

Our wish as the Holiday Season nears is for the welfare of each Jefferson alumnus and his family, and for a New Year abundant with the blessings of health, opportunity, and courage for the future.

Jefferson has progressed notably in later years, and this advance is due largely to you alumni who have made an "investment in Jefferson"—through your inspiration, leadership, and your gifts.

The Tenth Roll Call for the Alumni Annual Giving Fund is well along now and I am pleased to report we have made a good start in our campaign to exceed the goal of $110,000 and to top the amount secured in the five preceding years.

The response to the Class Agents’ requests for alumni gifts has been encouraging. Jefferson has received 796 gifts amounting to $27,682.67 to this date. There have been some welcome individual increases in amounts, but success can be measured also in terms of percent participation . . . and the Fund’s aim is to increase the number of givers to 3,500 this year.

Contributed funds will continue to be used to help support pre-clinical teachers’ salaries, thus aiding the College in maintaining the quality of teaching and to continue producing excellent graduates.

Alumni support has not only accomplished this primary purpose of furthering the basic teaching program but has served as an incentive to other progress.

Jefferson has won recognition nationally for the percent of the alumni contributing. This splendid result reflects a voluntary contribution from an Alumni body well informed of the need of the College for their support.

Other sources of support, especially that of the Commonwealth, have increased substantially. Additional aid has also come from foundations. The Alumni Fund provides necessary Funds to meet the relatively high operating costs that Jefferson, like all medical colleges, faces today. Medical education now depends greatly on alumni funds to help meet rising costs. The "living endowment" contributions of Jefferson alumni are equal to the annual income which the College would receive from additional endowment of more than two and one-half million dollars.

"Regular" giving has become a meaningful aspect of alumni support. Under the leadership of the able Class Agents, the number of alumni givers, as well as the level of giving, has risen. If alumni support of Jefferson will assume its proper perspective in relation to the continuous effort for freedom—academic and personal, Jefferson will be able to maintain its outstanding contribution.

In planning gifts to medical education, it is hoped that alumni continue direct support of Jefferson through the Annual Giving Program, and their classes. As one Class Agent stated it, "We, who are physicians, have a responsibility for the training of our successors. It was given us by the Physicians who taught us." Again this year, all direct gifts to Jefferson will be reported to national A.M.E.F.

At this special time of year, we send our warm wishes for a happy Christmas and a joyous New Year to every alumnus. The Alumni Fund organization looks forward to a year of achievement for the Fund, made possible through generous alumni assistance.

Leading classes are shown in the facing summary.

NOMINATIONS FOR STATE AND SERVICE VICE-PRESIDENTS

At the Executive Committee Meeting May 28, 1953, by resolution it was decided that the Nominating Committee would offer names for election of Vice-Presidents for States, Territories, Foreign Countries and Services, for the list of names to be presented and voted on by all qualified members of the Alumni Association at the Annual Business Meeting February 6, 1938. Nominations from the floor will also be accepted at that time.

In 1909 Dr. Coley moved to Oklahoma City where he felt the climate would be helpful to the severe case of hay fever he had developed. Before taking his Oklahoma State Board examinations, however, he took a short refresher course at Jefferson and passed his examinations with flying colors.

Dr. Coley built up a thriving practice in Oklahoma City, and finally closed his office there in May 1947, after 67 years of uninterrupted labor in the practice of medicine.

He was blessed with a large family of one daughter and eight sons. One of his sons, Dr. Joe H. Coley, is a graduate of Jefferson in the Class of 1934.

Dr. Coley's life was rich and filled with splendid accomplishments; all who knew him loved and respected him and he will be greatly missed.

---

Dr. Joseph O. Crider, Emeritus Professor of Physiology, died at his home in Greenwood, Mississippi, on November 5, 1957. He is survived by his wife, Mrs. Sue DeLoach Crider.

Dr. Crider became a member of the teaching staff at The Jefferson Medical College in 1930, and was successively Assistant Professor of Physiology and Assistant Dean, and then Professor of Physiology. He was appointed Emeritus Professor on July 1, 1953.

Dr. Crider received his medical degree from the University of Virginia in 1912 and was subsequently on the teaching staff of that College until 1913, at which time he became Associate Professor of Physiology and Histology at the University of Mississippi School of Medicine, where he remained until 1930, having been appointed Dean and Professor of Physiology in 1924.

He was a member of the American Association for the Advancement of Science; Physiological Society of Philadelphia, Alpha Omega Alpha, Theta Kappa Psi and the Raven Society of the University of Virginia.

Though Dr. Crider has been away from the College for some years, those who were his colleagues and students here remember him well, and profited by their association with him.

Promotions, New Appointments, and Resignations

PROMOTIONS

W. Paul Havens, Jr., M.D., from Associate Professor of Medicine to Professor of Medicine (with no seat on the Executive Faculty).

John Y. Templeton, III, M.D., from Associate Professor to Clinical Professor of Surgery.

Roland W. Manthei, Ph.D., from Assistant Professor to Associate Professor of Pharmacology.

James Joseph Koceis, Ph.D., from Instructor to Assistant Professor of Pharmacology.

Eugene Aserinsky, Ph.D., from Instructor in Physiology to Assistant Professor of Physiology.

Vincent P. Mahoney, M.D., from Instructor to Associate in Clinical Psychiatry.

William R. O'Brien, M.D., from Instructor in Psychiatry to Associate in Clinical Psychiatry.

Charles W. Semisch, III, M.D., from Assistant in Pediatrics to Associate in Cardiology in Pediatrics.

Walter F. Ballinger, M.D., from Assistant to Instructor in Surgery.

George J. Haupt, M.D., from Assistant to Instructor in Surgery.

Lester E. McGeary, M.D., from Assistant to Instructor in Pediatrics.

Henry A. Kane, M.D., as Associate in Clinical Pediatrics.

Ihasib Tanyol, M.D., as Research Associate in Physiology.

Paul T. Carrigan, M.D., as Instructor in Pathology (without stipend).

Domenic Anthony DeBias, Ph.D., as Instructor in Physiology.

Wesley W. Parke, Ph.D., as Instructor in Anatomy (effective August 1, 1957).

Khushdarshan S. Thind, M.S., as Instructor in Microbiology.

Jerome M. Cotler, M.D., as Assistant in Orthopedic Surgery.

William R. Davison, M.D., as Assistant in Orthopedic Surgery.

Gerald Marks, M.D., as Assistant in Surgery.

Randall Stedman Naden, Jr., M.D., as Assistant in Medicine (Cooper Hospital).

Harold Rovner, M.D., as Assistant in Surgery.

Henry Keen Shoemaker, M.D., as Assistant in Neurosurgery.

Gabriel Tatarian, M.D., as Assistant in Obstetrics and Gynecology.

Jacob Yanoff, M.D., as Assistant in Medicine (Methodist Hospital).

NEW APPOINTMENTS

Rolf Freter, Ph.D., as Assistant Professor of Microbiology.

Gloria L. Freter, M.S., as Research Associate (Department of Bacteriology) effective September 1, 1957.

Bernard Charles Gettes, M.D., as Associate in Ophthalmology.

RESIGNATIONS

Lawrence S. Carey, M.D., as Assistant Professor of Medicine.

Chiu T. Ling, M.D., Sc.D., as Assistant Professor of Biochemistry (effective November 16, 1957).

Dr. Wirt's Elected President of American College of Gastroenterology

Dr. C. Wilmer Wirt's, Associate Professor of Medicine, was elected President of the American College of Gastroenterology at the annual meeting, October 22, 1957, in Boston.

Dr. Wirt's participated in postgraduate courses under the auspices of the Academy of General Practice at the Wilmington General Hospital, Wilmington, Delaware, October 30th, and at the Sacred Heart Hospital, Norristown, Pennsylvania, November 13th, and discussed evaluation and management of the diseases of the pancreas. He also attended a Board of Governors Meeting of The American Gastroscopic Society in Chicago, November 2nd, where it was decided that the annual program would be given in conjunction with the World Congress of Gastroenterology, Washington, D. C., in May 1958.
The Annual Meeting of the Connecticut Chapter of the Alumni Association of The Jefferson Medical College was held on October 10, 1957 at the Hotel Statler in Hartford, Connecticut. Seventy-one attended the dinner, including 33 Alumni and their wives and six single Alumni. Dr. George A. Bennett, Dean, and Dr. Martin J. Sokoloff, Associate Professor of Medicine and Director of the Barton Memorial Division, were guest speakers at the dinner. Dr. Bennett spoke about the future plans for the College and Dr. Sokoloff brought greetings on behalf of the Alumni Association. The gathering was warm and enjoyed by all present.

Chapter members were also most pleased that Dr. Francis J. Braceland, Class of 1930, was able to attend the dinner.

In the absence of Dr. Arthur Landry, who was not able to be present, Dr. William H. Ryder presided, and the following officers were elected for the coming year:

President
Dr. Reginald C. Edson, '31, Cedar Crest Hospital, Newington, Conn.

Vice President
Dr. George A. F. Lundberg, Sr., '19, 242 Trumbull St., Manchester, Conn.

Secretary
Dr. Maxwell Hagedorn, '45, 55 W. Main Street, New Britain, Conn.

Treasurer
Dr. Robert R. McDonnell, '45, 67 Trumbull Street, New Haven, Conn.
The following officers were elected for the year 1957-58:

**President**
Norman B. Shepler, M.D., '10, Harrisburg, Pa.

**Vice-Presidents**
Philip M. Minnich, M.D., S-'44, York, Pa.
Meade D. Schaffner, M.D., '25, Lancaster, Pa.

**Secretary-Treasurer**
Raymond C. Grandon, M.D., '45, New Cumberland, Pa.

**Assistant Secretary**
Herbert V. Jordan, Jr., M.D., '46, Camp Hill, Pa.

**Public Relations and Official Photographer**
Louis W. Wright, M.D., '13, Harrisburg, Pa.

**Raymond C. Grandon, M.D. Secretary**

Seated left to right: Dr. Norman B. Shepler, Mrs. Hamma, Mrs. Grandon,
Dr. John T. Farrell, Jr.; Standing left to right: Dr. J. Arthur Dougherty,
Dr. John F. Wilson, Mrs. Albright, Dr. Raymond C. Grandon,
Dr. Herbert F. Jordan

---

**WASHINGTON, D. C. CHAPTER**

The Annual Formal Dinner Meeting with wives will be held by the Washington, D. C. Chapter on Saturday, December 7, 1957, at the Army-Navy Club in Washington. Cocktails will precede the dinner which is scheduled for 7:30 P.M. and following the business meeting and speeches the guests may use the dance floor of the Club.

Dr. William A. Sodeman, Magee Professor of Medicine and Head of the Department at The Jefferson Medical College, and Dr. John E. Livingood, President of the Alumni Association will be guest speakers.

A full account of the meeting will appear in the February issue of the BULLETIN.

---

**WE ARE SORRY . . .**

We offer sincere apologies to Dr. M. Henry Speck, Class of 1919, 218 Mahoning Bank Building, Youngstown, Ohio, for the inadvertent omission of his name from the list of Century and Five Hundred Donors in the October issue of THE BULLETIN.
The Annual Meeting of the Connecticut Chapter of the Alumni Association of The Jefferson Medical College was held on October 10, 1957 at the Hotel Statler in Hartford, Connecticut. Seventy-one attended the dinner, including 33 Alumni and their wives and six single Alumni. Dr. George A. Bennett, Dean, and Dr. Martin J. ---

**Dr. Bennett and Dr. Sokoloff**

are Greeted by Dr. Louis Antupit

and Dr. Francis J. Braceland
DR. LOUIS H. CLERF, Professor of Laryngology and Broncho-Esophagology, Emeritus, addressed some 150 doctors and nurses at the sixth annual Pittsburgh Hospital Day, Pittsburgh, Pennsylvania. He stressed the point that Mothers had better be "foreign body conscious" when raising children.

DR. DAVID M. DAVIS, Professor of Urology, Emeritus, was guest speaker at the annual meeting of the South Central Section of the American Urological Association in Oklahoma City, Oklahoma, October 21st to 24th, 1957. His subject was "Urinary Tract Obstruction: What we Have Learned and What we Still Have to Learn".

DR. ANTHONY F. DEPALMA, James Edwards Professor of Orthopedic Surgery, was recently honored by the Alberones Society of Orange, New Jersey, as one of its "Outstanding Citizens of 1957". They presented him with a plaque praising his eminent career as orthopedic surgeon, teacher, author and administrator.

On November 19, 1957 DR. JOHN H. GIBBON, JR., SAMUEL D. GROSS Professor of Surgery and Head of the Department, Moderated a Panel on "Hypothermia and Open Heart Surgery" at the 7th Congress of the Pan-Pacific Surgical Association, held in Honolulu, Hawaii, and on November 20th he spoke on "Pulmonary Ventilation During Anesthesia".

On October 18, 1957 during the Annual Clinical Session of the American College of Surgeons held in the Hotel Shelbourne, Atlantic City, New Jersey, DR. GEORGE A. HAHN, Assistant Professor of Obstetrics and Gynecology presented a paper on "Present Day Management of Abnormal Presentations—Face Presentations".

On November 4, 1957 DR. PERRY S. MACNEAL, Clinical Professor of Clinical Medicine, presented the Stanley R. Truman lecture under a Wyeth Grant on "Common Disturbances of the Adrenal Gland" at the meeting of the California Academy of General Practice.

DR. PAUL J. POINSARD, Associate Professor of Psychiatry, attended the Philadelphia Industrial Medical Society Meeting, held in the Penn-Sherwood Hotel, October 23, 1957. He spoke on "Psychiatry in Industry".

DR. HERMAN L. RUDOLPH, Assistant Professor of Physical Medicine, was enrolled in the postgraduate course on Arthritis and the allied rheumatic diseases at the New York Hospital for Joint Diseases October 23rd to 26th, 1957.

DR. HAMMELL P. SHIPPS, Assistant Professor of Clinical Obstetrics and Gynecology, who is also Chief of Gynecology, Cooper Hospital, Camden, New Jersey, and Chief of Obstetrics and Gynecology, Zurbrugg Memorial Hospital, Riverside, New Jersey, was awarded an Honorary Doctor of Science Degree from Asbury College, Wilmore, Kentucky.

Due to the illness of DR. JOHN H. GIBBON, JR., his following speaking engagements were filled by DR. JOHN Y. TEMPLETON, III:

October 11, 1957—New York Academy of Medicine, New York City. Presentation: The Present Status and the Probable Direction of Future Developments in Open Cardiotomy in the Correction of Cardiac Defects.

October 16, 1957—American College of Surgeons, Atlantic City, N. J. Presiding Officer, Postgraduate Course on Surgical Aspects of Pulmonary Disease. Presentation: Contraindications to the Surgical Treatment of Bronchogenic and Carcinoma and Summary.

DR. WILLIAM H. WHITELEY, III, Associate in Neurosurgery, addressed the Luzerne County Medical Society on October 2, 1957, on the subject of "Surgical Relief of Intractable Pain".

DR. HAMMELL P. SHIPPS
For the sixth year Jefferson Medical College will participate in WFIL’s television program, UNIVERSITY OF THE AIR. Jefferson has been the only medical school in the area privileged to take part in this series of programs which weekly reaches over two million viewers in the greater Delaware Valley area.

The program is divided into two semesters, roughly corresponding with the academic year, and is presented on each Tuesday morning, beginning at 9 A.M. Jefferson has been allotted 25 minutes of the hour program, while various Liberal Arts and specialized schools will present lectures and demonstrations during the remaining 20 minutes.

Dr. Anthony F. DePalma, James Edwards Professor of Orthopedic Surgery, is in charge of programming for the College and the following presentations have been given, and are scheduled to be given, through the first semester of the course:

**DEPARTMENT OF PREVENTIVE MEDICINE**

October 1, 1957

"How You and Your Doctor Prevent Disease"

Dr. J. W. Savacool, Assistant Professor of Preventive Medicine

October 8, 1957

"What is a Health Checkup?"

Dr. W. Bernard Kinal, Instructor and Clinical Assistant in Preventive Medicine

October 15, 1957

"The Air Around Us"

Dr. Heinrich Breiger, Professor of Industrial Medicine in the Department of Preventive Medicine

October 22, 1957

"Your Health and Your Job"

Dr. Heinrich Breiger

**Dr. John J. O'Keefe Presents “The Role of Bronchoscopy in Modern Medical Practice”**
DEPARTMENT OF OTO-RHINO-LARYNGOLOGY AND BRONCHO-ESOPHAGOGY

October 29, 1957
“Modern Surgical Treatment of Deafness”
Dr. Fred Harbert, Professor of Oto-Rhino-Laryngology and Broncho-Esophagogy and Head of the Department

November 5, 1957
“Medical Management of Deafness”
Dr. Joseph Sataloff, Assistant Professor of Otology

November 12, 1957
“The Larynx in Health and Disease”
Dr. F. Johnson Putney, Associate Professor of Laryngology and Broncho-Esophagogy

November 19, 1957
“The Role of Bronchoscopy in Modern Medical Practice”
Dr. John J. O’Keefe, Associate Professor of Otology, Laryngology and Broncho-Esophagogy

November 26, 1957
“The Sinuses and Sinusitis”
Dr. Kelvin A. Kasper, Associate Professor of Oto-Laryngology

December 3, 1957
“Tonsils and Adenoids”
Dr. Lawrence J. McStravog, Assistant Professor of Oto-Laryngology

DEPARTMENT OF MEDICINE

December 10, 1957
(a) “Heart Disease; To Operate or Treat Medically, That is the Question”.
(b) “What is in a Murmur?”
(c) “Palpitations, Flutterings, and Heart Burn”
All by Dr. Daniel W. Lewis, Associate in Medicine

December 17, 1957
“The Liver and Hepatitis (Inflammation of the Liver.)”
Dr. W. Paul Havens, Jr., Professor of Clinical Microbiology and Professor of Medicine

January 7, 1958
“Indigestion and Stomach Ulcer”
Dr. C. Wilmer Wirts, Associate Professor of Medicine

January 14, 1958
“From the Workshop of Medical Research”
Dr. Karl E. Paschkis, Associate Professor of Medicine and Physiology

January 21, 1958
“Causes and Treatment of Anemia”
Dr. Leandro Tocantins, Professor of Clinical and Experimental Medicine, and Director of the Division of Hematology of the Cardeza Foundation

January 28, 1958
“Pneumonia”
Dr. Robert I. Wise, Associate Professor of Medicine

AMERICAN SOCIETY OF TROPICAL MEDICINE AND AMERICAN SOCIETY OF PARASITOLOGISTS HOLD JOINT MEETING IN PHILADELPHIA

The American Society of Tropical Medicine and Hygiene and the American Society of Parasitologists held their respective annual meetings jointly in Philadelphia on October 30 through November 2 with headquarters at the Benjamin Franklin Hotel. The Society of Parasitologists held one of their meetings in McClellan Hall of the Jefferson Medical College. This meeting on Friday morning, November 1, was devoted to original papers on the human blood flukes (Schistosoma). The highlight of the morning and one of the most important events of the convention, was the Presidential Address, “Some Reflections on the Ecology of Parasitism”, by Dr. Gilbert F. Otto. The excellent facilities of the auditorium were fully realized. Approximately 300 persons attended this part of the program.

Doctor William G. Sawitz, Professor of Parasitology until his untimely death in April, 1957, was Chairman of the Local Committee and was responsible for the initial organization of and arrangements for the convention.

Doctors William A. Sodeman and John H. Hodges, of the Department of Medicine, and Frank F. Katz, of the Department of Microbiology, served on the Local Committee on Arrangements and participated in the events of the meetings of both societies. Their respective wives served on the Committee for Ladies’ Entertainment and were active in the program for the women attending the convention.
ACTIVITIES OF MEMBERS
OF THE DEPARTMENT
OF MEDICINE

Over the past few months, several members of the Department of Medicine have taken part in various programs and activities in areas relative to their particular interests.

Dr. William A. Sodeman, recently appointed Magee Professor of Medicine, has taken part in the post-graduate seminar of the North Carolina State Medical Society which took place in October at Morgantown and Asheville, North Carolina. He has also given an address on cardiology to the Jefferson City, Missouri, Medical Society and is currently a member of the post-graduate instruction group of the Jefferson post-graduate cruise. During the recent meeting of the American Society of Tropical Medicine, he presented a paper on Arachnid Bites and Their Complications.

Dr. F. William Sunderman, Clinical Professor of Research Medicine, has given a workshop in clinical hemoglobinuria to the pathologists and medical technologists which was held at the Bayamon District Hospital, San Juan, in mid-November. He remained there long enough to speak at a meeting of the Puerto Rican Medical Association.

Dr. Robert I. Wise, Associate Professor of Medicine in the Division of Infectious Diseases, has been extremely active and has spoken, in the last two months, at the antibiotics symposium in Washington, D. C.; to the Council on Research of the American Medical Association, Cleveland, Ohio; and addressed the Monroe County Medical Society meeting in Stroudsburg on November 21, 1957. His subject, in general, has been a discussion of the development and usage of antibiotics with particular reference to the current problem of resistant staphylococcal infections. His knowledge and continuing efforts have certainly placed him among the outstanding men in this field.
Dr. James E. Clark, who has been pursuing research on the measurement and significance of aldosterone excretion, spoke to the Philadelphia Chapter of the American Federation for Clinical Research in late November regarding aldosterone excretion levels in pregnancy.

During the summer months, Dr. Robert L. Evans of the Department staff has taken part in a program of the American Medical Association designed to assist in the training of those men interested in medical education. During this period, Doctor Evans visited some forty-five hospitals where he reviewed over one hundred residency and internship programs as a field consultant in graduate education for the American Medical Association. He plans to continue as an active participant in this program in the future.

The American College of Surgeons held its 43rd Annual Clinical Congress in Atlantic City, New Jersey from October 14 through October 18, 1957. Members of the Faculty of The Jefferson Medical College presented papers and participated in panels as follows:

George A. Hahn, M.D., Associate Professor of Obstetrics and Gynecology, presented a paper entitled "Present Day Management of Abnormal Presentations—Face Presentations". This was one of three papers under the general heading "Modern Management of Face, Brow & Transverse Presentations".

Adolph A. Walking, M.D., Clinical Professor of Surgery, gave a paper entitled "Splenectomy—Indications, Technique, Complications", during one of the sessions on Spleen, Liver and Pancreas.

John Y. Templeton, III, M.D., Clinical Professor of Surgery, was the presiding officer at the Postgraduate Course on Surgical Aspects of Pulmonary Disease. He also presented a paper "Contraindications to the Surgical Treatment of Bronchogenic Carcinoma".

Thomas F. Nealon, Jr., M.D., Instructor in Surgery, presented "The Importance of Measuring Ventilation During Steady States".

Warren R. Lang, M.D., Assistant Professor of Obstetrics and Gynecology, and Paul Zimskind, M.D. (interne) presented "The Immediate Postpartum Cervix, A Colposcopic Study", and

Bernard J. Miller, M.D., Assistant in Surgery, and David M. Farell, M.D., Associate Professor of Obstetrics and Gynecology, discussed "The Changes in the Serum Proteins and Lipoproteins of Patients Experiencing a Remission from Ovarian Carcinoma Induced by Thiotepa".
Jefferson Medical College participated in an Extension Course for the Delaware Chapter of the American Academy of General Practice at the Wilmington General Hospital, Wilmington, Delaware.

The Postgraduate Committee, under the Chairmanship of Doctor Theodore R. Fetter, Professor of Urology and Head of the Department, was in charge of arrangements, and the program, which follows, consisted of papers and discussions by:

Bernard J. Alpers, M.D., Professor of Neurology and Head of the Department
Robert L. Brent, M.D., Associate Professor of Pediatrics.
Theodore R. Fetter, Professor of Urology and Head of the Department.
W. Paul Havens, Jr., M.D., Professor of Clinical Microbiology and Professor of Medicine.
Edmund L. Housel, M.D., Associate in Clinical Medicine.
Henry A. Kane, M.D., Associate in Clinical Pediatrics.
Felix E. Karpinski, M.D., Clinical Professor of Pediatrics.
Hans G. Keitel, M.D., Professor of Pediatrics and Head of the Department.
Baldwin L. Keyes, M.D., Professor of Psychiatry and Head of the Department.
William T. McLean, Jr., M.D., Associate in Pediatrics.
Charles W. Semisch, III, M.D., Associate in Cardiology in Pediatrics.
Leandro M. Tocantins, M.D., Professor of Clinical and Experimental Medicine and Director of the Division of Hematology of the Cardeza Foundation.

C. Wilmer Wirts, M.D., Associate Professor of Medicine.
September 18—The Recognition and Treatment of Metabolic Disorders in Infancy and Childhood.
   Doctors Hans G. Keitel and Robert L. Brent.
   Hypertension.
   Dr. Edmund L. Housel.
September 25—The Treatment of Coronary Disease.
   Dr. Charles W. Semisch, III.
October 2—The Treatment of Urinary Infection.
   Dr. Theodore R. Fetter.
October 9—Pediatric Cardiology. Pediatric Neurology. Pediatric Fluid Therapy.
October 16—The Treatment of Hepatitis and Cirrhosis.
   Dr. W. Paul Havens, Jr.
October 23—Headache.
   Dr. Bernard J. Alpers.
October 30—Therapy in Gastrointestinal Diseases.
   Dr. C. Wilmer Wirts.
November 6—Ataraxic Drugs.
   Dr. Baldwin L. Keyes.
   Dr. Leandro M. Tocantins.

MEMBERS OF OB-GYN DEPARTMENT ATTEND INTERNATIONAL CYTOLOGY MEETING

Five members of the Department of Obstetrics and Gynecology attended the Fifth Annual Meeting of the Inter-Society Cytology Council held November 14th to 16th at the Bon Air Hotel, Augusta, Georgia. These were: Doctors Lewis C. Scheffey, Professor of Obstetrics and Gynecology, Emeritus, Abraham E. Rakoff, Clinical Professor of Obstetric and Gynecologic Endocrinology, Hammell Pierce Shipp, Assistant Professor of Clinical Obstetrics and Gynecology, Warren R. Lang, Assistant Professor of Obstetrics and Gynecology, and Miss Dorothy Meyers, Cytotechnologist.

Dr. Scheffey is Past President of the organization. Dr. Rakoff is Vice-President (Cytology Representative); he moderated an afternoon program at the meeting. Doctors Warren R. Lang, Abraham E. Rakoff and Gabriel Tatarian presented a paper "The Ectocervic in Pregnancy, Cytologic-Colposcopic Observations".

Dr. Bennett Reports on Expansion Program

At a recent meeting of the Executive Committee of the Alumni Association, Dr. George A. Bennett, Dean, told the members in attendance that the expansion program for the College is progressing.

The firm of George M. Ewing Company has been selected as the architects for the overall area, with other firms being assigned to individual projects. The firm of Roy F. Larson, for example, will be the architects for the new Nurses Home. It is hoped that ground for this new building will be broken in February or March of 1958.
Class Notes

1894
JOHN J. BARCLAY, JR., M.D., Grinnell, Kansas, writes that he is feeling fine for a man of 87 and enjoying life. He said that his wife, who is 80, slipped and broke her hip and although it was a terrible shock for both of them they believe she will eventually be able to walk again.

JOHN S. McCCELY, M.D., 804 S. 11th Street, Temple, Texas, states that he was 87 on July 15th, well and very active. He still goes to his office in the hospital for 5 hours every day, acting in an advisory manner.

1901
EDWIN STEINER, M.D., 33 Lincoln Park, Newark, New Jersey, writes that he is working by appointment and still does surgery. He attends medical meetings and is active in the Essex County Medical Society as its Treasurer.

1903
ANDREW F. AKERS, M.D., 1941 Green St., Harrisburg, Pennsylvania, was named the 1957 recipient of the “Physician of the Year” Award by the Dauphin County Medical Society.

Dr. Akers was a “horse and buggy doctor” in the best tradition. Because the roads were bad in winter he was sometimes unable even to use a horse and sleigh and had to walk to many of his calls.

Although at 81 Dr. Akers continues to have a large and active practice, he admits that he is tapering off a little and reducing the number of patients he treats.

1904
EMERY A. RUST, M.D., Webb, Iowa, writes: “I still practice, doing most everything any General Practitioner does, but have stopped doing Obstetrics for the past two years.

My wife is still in good health, and we travel about one fourth of the time, work the rest. Hope to get to our 55th Graduation Anniversary.”

1906
JOHN S. LAMBIE, M.D., 280 Aspen Road, Birmingham, Michigan, is the 1957 winner of the award for distinguished service to medicine presented annually by the Oakland County Medical Society.

Dr. Lambie, Health Coordinator of the Oakland County Health Department, was an industrial physician for the Fisher Body Company in Pontiac from 1928 through 1949 where he pioneered in the field of industrial medicine.

The 8th person to receive the award, Dr. Lambie also is in charge of all medical aspects of civilian defense in Oakland County.

1915
JOSEPH A. PEZSSOLANO, M.D., 369½ State Street, Albany 10, New York writes that after graduating from Jefferson he served overseas in World War I. Upon his return he practiced for a year or so and was appointed A. A. Surgeon in the United States Public Health Service in Philadelphia.

He then moved to Albany, New York, and became associated with Memorial Hospital as a staff surgeon.

Dr. Pessolano is a qualified Fellow of the International College of Surgeons, Fellow of the Industrial Medical Association, has a specialty rating, S A, with the New York Compensation Board. He is a member of the New York State Appeal Board for the Selective Service System in Northern Judicial District and a member of the advisory council of New York State College for Teachers.

He is married and has one daughter, Kathy Jo.

1918
BENJAMIN J. LAWRENCE, M.D., 503 Professional Bldg., Raleigh, North Carolina, was recently appointed to the courtesy medical staff of Community Hospital, South Boston, Virginia.

Dr. Lawrence, a Fellow of the American College of Surgeons since 1926, is a past president of the Raleigh Academy of Medicine and was senior surgeon at Rex Hospital in Raleigh.

He has also been a member of the North Carolina State Board of Medical Examiners and has held other important positions in the state.

1921
FRANK H. KRUSEN, M.D., Mayo Clinic, 102 110 2nd Ave. S. W., Rochester, Minn. who is presently head of the Section of Physical Medicine and Rehabilitation in the Mayo Clinic, Rochester, Minnesota, and professor of physical medicine and rehabilitation in the Mayo Foundation, Graduate School, University of Minnesota, was elected vice president of the staff of the Mayo Clinic at the annual meeting of the staff on November 18, 1957.

1926
D. GEORGE BLOOM, M.D., 320 Market St., Johnstown, Pennsylvania, was appointed by Governor George M. Leader to the State Board of Medical Education and Licensure. Dr. Bloom is chief of Gynecology in Cone- Guina during World War II and resumed practice about 1946. In 1948 he was admitted to the International College of Surgeons, and last December he was named President-elect of the Cambria County Medical Society last January.

He practiced in Johnstown from 1927 until he was commissioned in the Army Medical Corps in September 1942. He served in New Guinea during World War II and resumed practice about 1946. In 1948 he was admitted to the International College of Surgeons, and last December he was named to the committee on medical economics of the State Medical Society.
Elmer J. Elias, M.D., Class Agent for 1928, Whose Class is Aiming High in the Fund for its 30th Reunion Year

1928
William Thomas Lampe, M.D., 4207 Tyson Street, Philadelphia, Pennsylvania, was elected chairman of the Northeast Branch of the Philadelphia County Medical Society.

Jo Ono, M.D., 75 Zaimokucho Azabu, Minato-ku, Tokyo, Japan.
The Alumni Association, and most particularly Dr. Ono's classmates, send their sympathy to him on the death of his wife, who passed away on September 11, 1957.

Juan A. Pons, M.D., 1413 Broad Street, Durham, N. C., for 11 years Secretary of Health in Puerto Rico, is presently studying Geriatric Psychiatry, a relatively new field in medicine at Duke University. He hopes that his training in internal medicine and his experience in public health administration will help him to translate into practical language understandable to many mental hygiene for the aged.

Dr. Pons hopes to be able to attend his Class’ 30th Reunion in June.

1929
Yen Pui Chang, M.D., 2235 Seaview Avenue, Honolulu, Hawaii, in sending his check for the Tenth Roll Call, writes: “I hope this drive will be a great success and that every living member of our class will make a contribution in appreciation for what Jefferson has done for us to make us successful men.”

1932
Morris A. Silver, M.D., 914 N. 2nd St., Harrisburg, Pennsylvania, was elected a Fellow in the International College of Surgeons at that group’s recent convention in Chicago.

He is also a Fellow in the American College of Surgeons and a Fellow in the International Academy of Proctology, a member of the Dauphin County Medical Society, Academy of Medicine and the Harrisburg Chamber of Commerce.

Dr. Silver is married to the former Mollie Chaitt and they have three children.

1933
Robert P. Kemble, M.D., was recently appointed Psychiatrist-director of the Morris County (New Jersey) Guidance Center. Dr. Kemble brings to the Center a long experience in interdisciplinary psychiatry. He was director of the York County (Pennsylvania) Mental Health Center and prior to that served as psychiatrist to the Lancaster Guidance Clinic, the Harrisburg Child Guidance Clinic and did private practice with a clinic team.

He is a charter member of the American Academy of Child Psychiatry, a Fellow of the American Psychiatric Association and of the American Orthopsychiatric Association. He has memberships in the American Association for the Advancement of Science, and the Operations Research Society of America. He has been particularly active in the study of statistical information relating to clinic operations.

Dr. Kemble’s wife, the former Luella North, is a social worker in the children’s field and has been in charge of adoption work in Lancaster County. They have four children ages 9 to 19, the oldest a sophomore at Mt. Holyoke College.

Edmund V. Matys, M.D., 215 Chestnut Street, Du pont, Pennsylvania, has taken over the office and practice of Dr. B. J. McGuire in X-ray, medicine and surgery at Room #212, Kehoe Building, Pittston. He has practiced in the Greater Pittston area for the past 23 years.

Dr. Matys has done X-ray and other postgraduate work at New York University—Bellevue Medical Center.

He served three years with the United States Navy Medical Corps during World War II as a Lieutenant Commander.

1934
Frank D. Conole, M.D., 76 Front Street, Binghamton, New York, has been admitted to membership in the International College of Surgeons.

Dr. Conole was one of 300 candidates to receive recognition as a qualified Fellow at the organization’s recent 22nd annual meeting in Chicago.

A veteran of the Army Medical Corps during World War II, Dr. Conole also is a Fellow of the American College of Surgeons, a Diplomate of the American Board of Surgery and a member of the staffs of Binghamton City, Binghamton State and Lourdes Hospitals.

A recent issue of the NEW YORK JOURNAL AMERICAN carried a column about Dr. Kandle, a Deputy Commissioner of Health for the City of New York who, in the absence of the Commissioner, has been Acting Health Commissioner for the City. After graduation from Jefferson, Dr. Kandle received the degree of Master of Public Health from Johns Hopkins University in 1938. He practiced medicine and served as health officer in New Mexico, Louisiana and New Jersey and was appointed Deputy Health Commissioner for New York City in 1954. He has conducted many surveys on public health problems and the work of the departments of health in a number of states and cities. Surveys and recommendations which he made on the problems of public health administration led to changes and modernization of the work of both the Philadelphia and Pennsylvania health departments.

Dr. Kandle is married and the father of three children.

For the past several months he has been engaged, as the Acting Health Commissioner, in combating the epidemic of Asian flu.

Dr. Kandle pays special tribute to the teaching, adroit stimulation, wise counsel and sustained support of Dr. Henry B. Decker, Professor of Dermatology and Head of the Department.

1935

Arthur N. Erickson, M.D., Broadcasting Road, Sinking Spring, Pennsylvania, Medical Director of Wyomingis Indusries, was guest speaker at a recent meeting of the Reading Chapter, National Association of Accountants. Dr. Erickson's theme was “Your Health and Your Job.”

Dr. Erickson had a private practice until entering the military service in 1941. He was released from active duty as a Colonel in 1946 and assumed his present duties with the Wyomingis Industries.

He is a member of the Berks County Medical Society, the Pennsylvania State Medical Society, a Fellow of the American Medical Association and a Fellow of the Industrial Medical Association. In addition to his duties with the industries, he is an associate in the department of medicine at the Reading Hospital.

1939

Edward Shaen, M.D., 111 Kenwood Ave., Ann Arbor, Michigan, has entered the field of Industrial Medicine with the Ford Motor Company.

William L. White, M.D., 237 Morrison Drive, Pittsburgh, Pennsylvania, was guest speaker at the first fall meeting of the Belmont County (Ohio) Medical Society. His subject was “Acute Injuries of the Hand”. Dr. White presently holds the title of Assistant Professor of Surgery at the University of Pittsburgh.

1943

Alvin P. Wenger, Jr., M.D., 1100 N. Charles St., Baltimore 1, Maryland, is specializing in Otolaryngology at the Johns Hopkins Hospital and is Assistant Professor of Otolaryngology at that institution. He is also Chief of Staff at the Presbyterian Ear, Nose and Throat Hospital, Chief Consultant at the Baltimore City Hospitals and President of the Otolaryngological Section of the Baltimore City Medical Society.

1948

Donald A. Cornely, 126 S. Carol Blvd., Upper Darby, Pennsylvania, Clinical Director of Pediatrics at Philadelphia General Hospital, has been awarded a $10,000.00 Federal Fellowship to study for his master's degree at Johns Hopkins University, Baltimore.

Dr. Cornely completed his pediatric training at Philadelphia General Hospital in 1952 and has played an important role in developing plans for the premature nursery center at the hospital. After a year's study at Johns Hopkins, where he will specialize in maternal and child welfare, Dr. Cornely will return to Philadelphia General.

1949

Francis E. Gilbertson, St. Vincent's Hospital, New York City, New York, was recently appointed to the surgical staff of Monmouth Memorial Hospital, Long Branch, New Jersey.

Dr. Gilbertson is a teaching fellow in surgery at St. Vincent's Hospital and an instructor in surgery at New York Medical College.
1950

EUGENE W. BEAUCHAMP, JR., M.D., has become associated with his father in the practice of surgery at 1570 Main Street, Springfield 3, Massachusetts.

BERNARD A. KIRSHBAUM, M.D., has opened an office at Suite D-128, Madison House, The Presidential Apartments, City Line Avenue and Presidential Boulevard, Philadelphia 31, Pennsylvania for the practice of Dermatology.

JAMES B. COX, M.D., Class Agent for 1951, Whose Class Finished 4th in Percent Last Year

1951

GEORGE M. MEIER, M.D., 11 High Street, Butler, New Jersey, was guest speaker at a recent meeting of the Butler Rotary Club. His topic was "Jobs and Heart Disease".

1952

GABRIEL TATARIAN, M.D., has opened an office in the Medical Tower, 255 S. 17th Street, Philadelphia 3, Pennsylvania, for the practice of Obstetrics and Gynecology. Dr. Tatarian completed his residency at Jefferson last July and was appointed a member of its Obstetrics and Gynecology staff.

1953

RICHARD W. HILL, M.D., 1138—5th Ave., S.E., Rochester, Minnesota, has been awarded the degree of Master of Science at the University of Minnesota.

In 1954 Dr. Hill was awarded the Klemmer Memorial Prize as the intern at Lancaster General Hospital, Lancaster, Pennsylvania, writing the best paper on Internal Medicine.

1954

MARVIN DANNENBERG, M.D., 1349 President Street, Brooklyn, New York, is taking a Postgraduate Course in Dermatology and Syphilology at the Skin and Cancer Unit of New York University Postgraduate Medical School.

CHARLES H. GREENBAUM, M.D., 1237 Imperial Road, Rydal, Pennsylvania, writes: "My wife, Julia, and I have a son, Steven, who was one year old November 13th. I am a senior Resident in Dermatology at the Hospital of the University of Pennsylvania, and expect to practice in Jenkintown, beginning next fall.

I hope to attend the banquet in June."

C. W. HASSEL, JR., M.D., Pouch A, Rochester, Minn., writes that he has been doing Dermatology consultations at the State Hospital in Rochester and taking a few calls. He will finish a three year fellowship in Dermatology at the Mayo Clinic July 1st of next year.

Dr. and Mrs. Hassel expect to come East over the Christmas holidays, at which time he will look around for a good location in which to set up practice as a Dermatologist. The Hassels have two boys, Eric 2 and Kurt 2 months.

W. ROBERT JACOBS, M.D., recently opened an office at 461 Corliss Avenue, Phillipsburg, New Jersey, for the general practice of medicine.

In 1955 Dr. Jacobs was appointed a commissioned officer with the rank of senior assistant surgeon in the United States Public Health Service. He was assigned to the Public Health Service Hospital at Santa Fe, New Mexico, where he served as a staff physician for two years.

PIERCE D. SAMUELS, M.D. and his wife are doing missionary work in East Pakistan. His address is: P.O. Box #137, Chittagong, East Pakistan.

MARTIN D. SHICKMAN, M.D., 12035 Stanford Drive, Los Angeles, California, writes: "I am quite satisfied with California Medicine and particularly with my residency. I expect to take my third year in Medicine, concentrating in cardiology. I'll be doing the cardiac catheterizations, and be the resident responsible for the cardiac surgical patients."

ALFRED P. SPIVACK, Lt. MC USNR, United States Naval Radiological Defense Laboratory, San Francisco 24, California, writes: "The service finally caught up with me; I'll be spending the next two years in research at the above lab. The place is excellent and the work being done here is first class, so I can consider myself quite fortunate. Added to all this, San Francisco is a very pleasant place in which to be.

If any of my classmates plan to be out this way look me up at the above address or at 3155 Octavia Street, San Francisco."

GERALD TANNENBAUM, M.D., 67-52 - 150th Street, Flushing, New York, writes: "Enclosed is my usual check for the Alumni Fund.

This time next year I hope to be in private practice. I'm presently in my third year of residency at the Bronx Municipal Hospital Center, the hospital of the Albert Einstein Medical College. I'm taking a Psychiatric residency there under public health fellowship. Several hours a week are spent teaching third year medical students Clinical Psychiatry, and it's quite a thrill for me. In the evenings I go to Psychoanalytic School, so I'm kept quite busy.

RONALD TOCANTINS, M.D., 3323 Clay St., San Francisco 18, California, writes: "We're well settled in a very nice flat in the northern end of town. The Urology residency seems to be everything it was cracked up to be so far. This is a wonderful town to live in, as you probably know. I've only run into one Jeff man here in town, he's Al Spivack, a classmate."
ENGAGEMENTS AND WEDDINGS

1950

The engagement of Dr. Eugene W. Beauchamp, Jr., and Miss Martha Laframboise of Ottawa, Ontario, Canada, was recently announced.

Miss Laframboise is an alumna of Notre Dame convent and the University of Ottawa. She did postgraduate work at Laval University, Quebec, where she received a degree of bachelor of economics. A tennis and ski enthusiast, she was a champion of both these sports in Ottawa and Quebec.

Dr. Beauchamp recently finished his surgical residency at Temple University in Philadelphia and will start practice shortly in association with his father.

1953

Charles G. Heil, Jr., M.D., and Miss Kathleen Mary Waldron were married on September 28, 1957 in Holy Name Church, Camden, New Jersey.

Mrs. Heil is a graduate of St. Joseph’s Hospital School of Nursing in Philadelphia.

Dr. Heil is presently serving a residency at Misericordia Hospital.

1956

Edwin Leonard Rothfeld, M.D., and Miss Rena Kanefsky were married on Sunday, September 1, 1957, at the Drake Hotel in Philadelphia.

Mrs. Rothfeld attended Temple University Teachers' College and will continue her studies as a senior at New Jersey State Teachers' College.

Dr. Rothfeld served his internship at Newark Beth Israel Hospital where he is now a resident in Internal Medicine.

BIRTHS

1948

Dr. and Mrs. Edward L. Lancaster, Jr., 1422 Quarry Lane, Lancaster, Pennsylvania, became the proud parents of a son, Edward Lee, III, born October 9, 1957.

1956

Dr. and Mrs. Kenneth N. Beers, 685 Delaware Avenue, Bethlehem, Pennsylvania, announce the birth of a second son, Richard Thomas, born October 24, 1957.

COMMENCEMENT WEEK

Check the following dates on your calendar:

CLINICS

Tuesday, June 10, 1958
Wednesday, June 11, 1958

Alumni Dinner — Wednesday
Evening, June 11, 1958

Commencement — Forrest Theater
Thursday, June 12, 1958

10th REUNION
CLASS OF 1948

Arrangements have been made for a Dinner-Dance on Tuesday, June 10, 1958, in the Adams Room and Terrace of the Warwick Hotel. The Committee, whose Chairman is Dr. Browneller, will give further details as to the orchestra and time in the near future.
