Mrs. Joseph J. Mulone, Executive Secretary
Alumni Office of The Jefferson Medical College
1025 Walnut Street, Philadelphia 7, Pa.
More than 150 alumni and guests attended the Annual Business Meeting and Dinner of the Alumni Association on February 4, 1959 at the Barclay Hotel. Dr. Robert B. Nye, President, presided and after greeting the guests, introduced those seated at the speakers' table. He also expressed the regrets of Mr. Percival E. Foerderer, Chairman of the Board of Trustees at his inability to be present. Admiral Kauffman extended greetings and best wishes to the alumni and thanked them sincerely for their continued support of the College. Dean Sodeman spoke briefly of happenings at the College, such as the lengthened school year, and introduced Dr. Robert I. Wise, the newly appointed Magee Professor of Medicine and Head of the Department.

Reports by the Chairmen of the various Standing Committees of the Alumni Association had been prepared in advance and copies distributed to those present at the Dinner, so that only brief reports were given verbally. Dr. Edmund L. Housel, Chairman of the Committee on Graduate Assembly, reported that 105 had registered for the course and that scientific exhibits by faculty members were a new feature of the Assembly this year. Dr. Nye congratulated Dr. Housel on the work of his committee in arranging for this three-day program.

In the absence of Dr. William Harvey Perkins, Necrologist, the list of alumni who have passed away during the past year was read by Dr. Marshall C. Rumbaugh. A moment of silence was observed in their memory.
Dr. Kenneth E. Fry, Chairman of the Nominating Committee then presented the slate of officers and members of the Executive Committee for the year 1959-1960. The nominations were unanimously accepted and the new President-Elect, Dr. John H. Gibbon, Jr. was escorted to the podium. Other officers for the coming year are Vice-Presidents—Dr. John B. Montgomery, Dr. Benjamin F. Haskell, Dr. William H. Ryder, and Dr. Leandro M. Tocantins. Dr. Herbert A. Luscombe is the new Treasurer and Dr. Paul A. Bowers the new Recording Secretary, while Dr. J. Wallace Davis remains as Corresponding Secretary.

Dr. Nye then turned the meeting over to Dr. Anthony F. DePalma, the in-coming President, who, after asking for any further business, declared the meeting adjourned.

Dr. David B. Allman, Past President of the American Medical Association and Dr. John T. Farrell, Jr., President of the Medical Society of Pennsylvania attended the Dinner, and it was most gratifying that alumni came from as far as Minnesota, Ohio, North Carolina, Virginia, West Virginia, Maryland and Connecticut to be present.

ELEVENTH GRADUATE ASSEMBLY

One hundred and five alumni and guests registered for the Eleventh Jefferson Graduate Assembly which was held in the College on February 4, 5, and 6, and comments on questionnaires turned in by the registrants at the end of the three-day sessions indicated that the program had been very well received.

The December Issue of the Alumni Bulletin carried the full program, features of which were panels on Dermatology, Orthopedics, Infertility, and Hypertension, a Clinico-Pathological Conference, a Medical Clinic and a final general panel to which questions submitted throughout the sessions were discussed by representatives of the Departments of Psychiatry, Surgery, Medicine, Obstetrics and Gynecology and Pediatrics.

Following discussions of "The Stroke Problem" and "Rehabilitation of the Stroke Patient" the visitors were taken by bus to the Anna Magee Memorial Hospital where they were taken on a tour through this center to observe the newest devices and techniques in therapy for the rehabilitation of such patients.

The following scientific exhibits were on display in the hallways of the College during the Assembly: "Anthracosilicosis" Richard T. Cathcart, M.D., Director, Cardiorespiratory Laboratory, William Fraimow, M.D., Assistant in Medicine, Peter A. Theodos, M.D., Assistant Professor of Clinical Medicine; "Diagnostic Uses of Transplenic Portal Venography and Portal Pressure Measurement" Franz Goldstein, M.D., Instructor in Medicine, Robert G.
Johnston, M.D., Instructor in Surgery; "Transplantation of Osteochondral Grafts, Both of the Homogenous and Autogenous Variety", Anthony F. DePalma, M.D., James Edwards Professor of Orthopaedic Surgery and Head of the Department; "Clinical Application of Ion Exchange Resins" John H. Gibbon, Jr., M.D., Samuel D. Gross Professor of Surgery and Head of the Department, Thomas F. Nealon, Jr., M.D., Assistant Professor of Surgery, Edward D. McLaughlin, M.D., Resident in Surgery; "Treatment of Ventricular Aneurysm by Open Cardiotomy" John Y. Templeton, III, M.D., Clinical Professor of Surgery; "Carcinoma of the Bladder" Theodore R. Fetter, M.D., Professor of Urology and Head of the Department.

(below) Guests Enjoy Luncheon in McClellan Hall, at which Dean Sodeman was Host
The only non-scientific exhibit was that of the Squibb Company which had been prepared by them in conjunction with the Navy Department and Jefferson. The exhibit depicted a century of Naval medicine and had various panels showing old time ships on which Dr. Edward Squibb, founder of the Squibb Company, had served as ship’s surgeon. Since Dr. Squibb was an alumnus of Jefferson, having graduated in 1845, one entire panel is devoted to pictures of the professors who taught Dr. Squibb and facsimiles of his “lecture tickets”, all of which were supplied by Jefferson for the exhibit.

Dean Sodeman was host for luncheon on the opening day and he and President Kauffman greeted the guests. The luncheons on Thursday and Friday were served by the Alumni Association.

(right) Panel from Squibb Exhibit, the Material for which was Supplied by Jefferson
The new President of the Alumni Association, Dr. Anthony F. DePalma, needs little introduction since he has long been active in Alumni affairs as well as having been an outstanding member of the Jefferson Medical College Faculty.

Dr. DePalma was born in Philadelphia and attended Central High School here. He received his pre-medical education at the University of Maryland and graduated in Medicine from Jefferson in 1929. He served his internship at Philadelphia General Hospital and his training in orthopedic surgery was at the New Jersey Orthopedic Hospital in Orange, New Jersey. Following his certification by the American Board of Orthopedics in 1939, he became Orthopedic Surgeon to five hospitals in Northern New Jersey.

From 1942 to 1946 Dr. DePalma served with the United States Navy, holding the rank of Commander. He was Chief Orthopedic Surgeon first at Parris Island Naval Hospital, then aboard the U.S.S. Rixey and finally at the U. S. Naval Hospital in Philadelphia.

In 1946 Dr. DePalma returned to Jefferson as Assistant Professor of Orthopedic Surgery. Almost simultaneously he became attached to five other hospitals in the area and began his initial research on the shoulder joint which subsequently won for him and his associates the Gold Medal Award of the American Academy of Orthopedic Surgeons in 1948 and the Second Prize by the same organization in 1950.

Dr. DePalma was appointed the James Edwards Professor of Orthopedic Surgery and Head of the Department in 1950.

He is a nationally recognized authority in the field of Orthopedic Surgery and has published 25 articles and four books, the latest of which, an Atlas on the Management of Fractures and Dislocations, was released by W. B. Saunders, Publishers, in January, 1959.

Dr. DePalma is a member of twenty professional societies, being a Fellow of the American Academy of Orthopedic Surgeons and of the Association of Bone and Joint Surgeons. He is also a member of the International College of Surgeons, the Pan American Surgical Association, the American College of Surgeons, the Philadelphia Academy of Surgeons, and the New York Academy of Sciences. His local memberships include those in the College of Physicians of Philadelphia, the Philadelphia County Medical Society, and the Philadelphia Orthopedic Club. He is a member of the World Medical Association, the American Association of Physical Anthropologists, the American Fracture Association, and other organizations having to do with his specialty.
PROMOTIONS AND NEW APPOINTMENTS

PROMOTIONS

ROBERT I. WISE, M.D., from Associate Professor of Medicine to Magee Professor of Medicine and Head of the Department.

GONZALO ENRIQUE APONTE, M.D., from Instructor to Assistant Professor of Pathology.

JAMES VALENTINE MACKELL, M.D., from Associate in Pediatrics to Assistant Professor of Clinical Pediatrics (part-time, without stipend).

HOWARD C. LEOPOLD, M.D., from Assistant in Medicine to Associate in Medicine (Division of Allergy) part-time, without stipend.

ALBERT A. BOCKMAN, M.D., from Instructor in Medicine to Associate in Clinical Medicine (part-time, without stipend).

WILLIAM M. MCFADDEN, M.D., from Instructor in Pediatrics to Associate in Clinical Pediatrics (Germantown Hospital).

SAUL STEINBERG, M.D., from Instructor in Neurology to Associate in Clinical Neurology (part-time, without stipend).

ARTHUR G. BAKER, M.D., from Assistant to Instructor in Medicine (Division of Allergy) part-time, without stipend.

ARTHUR L. BOLDEN, M.D., from Assistant to Instructor in Medicine (Division of Allergy) part-time, without stipend.

EDMUND EHRLICH, M.D., from Assistant to Instructor in Medicine (Division of Allergy) part-time, without stipend.

SAMUEL E. RYNES, M.D., from Assistant to Instructor in Medicine (Division of Allergy) part-time, without stipend.

JERRY E. SCHMITTHENNER, M.D., from Assistant to Instructor in Medicine (Lankenau Hospital) part-time, without stipend.

GEORGE W. TRUTT, M.D., from Assistant to Instructor in Medicine (Division of Allergy) part-time, without stipend.

MARTIN M. MANDEL, M.D., from Assistant to Instructor in Clinical Neurology, without stipend.

NEW APPOINTMENTS

THEODORE R. FETTER, M.D., as Nathan Lewis Hatfield Professor of Urinary Surgery.

ROY RICHARD GREENING, M.D., as Professor of Radiology.

JOHN H. KILLOUGH, M.D., as Associate Professor of Medicine.

JACK EDEIKEN, M.D., as Assistant Professor of Radiology.

PHILIP DARRELL GILBERT, M.D., as Assistant Professor of Clinical Radiology (part-time).

ALBERT EDWARD O'HARA, M.D., as Associate in Radiology.

HARRY R. DRAPER, M.D., as Associate in Clinical Psychiatry (half-time).

JAMES WILLIAM GODDARD, M.D., as Research Associate in Medicine (Industrial Medicine).

JOHN CAPUTI, M.D., as Instructor in Surgery (part-time, without stipend).

ROBERT S. GAMON, M.D., as Instructor in Surgery (part-time, without stipend—Cooper Hospital).

FRANK J. ROWE, M.D., as Instructor in Pathology (without stipend).

DANIEL SHADE ROWE, M.D., as Instructor in Pediatrics (part-time, without stipend).

JAMES EDWARD BRENNAN, M.D., as Assistant in Otolaryngology.

TED W. S. CHONG, M.D., as Assistant in Obstetrics and Gynecology, part-time, without stipend. (Cooper Hospital).

FRANK J. GILDAY, M.D., as Assistant in Medicine (Division of Allergy) part-time without stipend.

CARL M. HIGH, M.D., as Assistant in Medicine (Division of Allergy) part-time without stipend.

JAMES DOMINIC RIEPEE, M.D., as Assistant in Neurology, part-time, without stipend.

F. LEELAND ROSE, M.D., as Assistant in Obstetrics and Gynecology, part-time (Cooper Hospital).

KARL HENRY BOYER, M.D., as Professorial Lecturer (Physiology) part-time, without stipend.

GIANCARLO RABOTTI, M.D., as Visiting Research Assistant (Hematology).

RESIGNATIONS

JOSEPH P. CONCANNON, M.D., as Associate Professor of Radiology.

VAUGHN C. GARNER, M.D., as Clinical Professor of Dermatology.

L. LEVENBOOK, Ph.D., as Assistant Professor of Biochemistry.

NICHOLAS R. MUSULIN, M.D., as Instructor in Surgery.

EDWARD G. OSBORN, M.D., as Instructor in Surgery.

LEONARD W. PARKHURST, M.D., as Instructor in Medicine.

HAROLD L. BITMAN, M.D., as Assistant in Psychiatry.

ROBERT J. DERHAM, M.D., as Assistant in Surgery.

HARRY W. TAYLOR, M.D., as Clinical Assistant in Obstetrics and Gynecology.
NEW PUBLIC INFORMATION
OFFICER APPOINTED

On January 5, 1959, Mr. Leo Riordan was appointed to the newly created position of Public Information Officer. Mr. Riordan has had wide newspaper experience, having served as a reporter, feature writer, and in an editorial capacity on the late Public and Evening Ledger and the Philadelphia Inquirer. He has also written for various national magazines.

RUSSIAN SURGEON VISITS
JEFFERSON

Pictured at the right with Dr. John H. Gibbon, Jr., is Dr. A. Vishnevskii, Director of the Institute of Surgery in Moscow, who has been visiting the United States under the sponsorship of the American Friends Service Committee for the purpose of studying our uses of extra-corporeal apparatus in cardiac surgery.

While at Jefferson he observed Drs. Gibbon and Templeton performing thoracic operations and observed the heart—lung machine during an animal experiment in the laboratory. He was also interested in ion-exchange resin work and dye dilution technique of measuring cardiac output.

Dr. Vishnevskii was accompanied on his visit by Dr. Samuel Corson of the Department of Physiology of the University of Arkansas, and they were guests at a luncheon attended by Dr. William A. Sodeman, Dr. Ellsworth R. Browneller, Dr. Robert Matthews, Dr. M. A. F. Friedman, Dr. Richard Cathcart, Dr. Thomas F. Nealon, Dr. Walter F. Ballinger, Dr. Edward McLaughlin and Dr. Victor Sencindiver.

(above) Dr. Vishnevskii is Pictured with Dr. Gibbon as he Observes Operation Using Heart Lung Machine
Dr. Fetter Appointed Nathan Lewis Hatfield Professor of Urinary Surgery

The Board of Trustees of Jefferson Medical College and Hospital has announced the appointment of Dr. Theodore R. Fetter as Nathan Lewis Hatfield Professor of Urinary Surgery. This Professorship, which was established in 1946 under the bequest of Henry Reed Hatfield as a memorial to his father, was last held by Dr. David M. Davis, now Professor Emeritus.

Dr. Fetter received his undergraduate education at Lafayette College and was graduated from Jefferson in 1926. He served his internship and residency in this Hospital and was Special Assistant to Professor Hiram Rittenhouse Loux, Professor of Genito-urinary Surgery to 1930, after which he continued until 1935 as Special Assistant to Dr. Thomas C. Stellwagon, Professor of Urology.

In 1951 Dr. Fetter was appointed Professor of Urology and Head of the Department at Jefferson Medical College and Hospital, succeeding Dr. Davis, who retired at that time. Dr. Fetter is also President of the Hospital Staff and Chief Attending Neurologist.

A nationally recognized authority in his field, Dr. Fetter has served as President of the Philadelphia Urological Society, the Mid-Atlantic Section of the American Urological Association and as a Director of the American Urological Association.

He serves as Consulting Urologist at Wills Eye Hospital and Grand View Hospital, Sellersville and as Attending Urologist at St. Joseph’s Hospital and Veterans Administration Hospital in Philadelphia.

In addition to his activities in organizations associated with his specialty, Dr. Fetter has been President of the Jefferson Alumni Association, the Medical Society of the State of Pennsylvania, the Philadelphia County Medical Society, the Medical Club of Philadelphia and the Jefferson Society for Clinical Investigation.

Dr. Fetter is a member of Theta Kappa Psi Medical Fraternity, the Maroon Club of Lafayette College, the Union League and the Philadelphia Country Club.

The Fetters and their five children live at 232 Beech Hill Road, in Wynnewood.
DR. ROBERT I. WISE APPOINTED MAGEE PROFESSOR OF MEDICINE AND HEAD OF THE DEPARTMENT

The Board of Trustees of Jefferson Medical College and Hospital has announced the appointment of Dr. Robert I. Wise as Magee Professor of Medicine and Head of the Department, succeeding Dr. William A. Sodeman, who, until Dr. Wise's appointment, had been carrying on the duties of both the Dean's Office and the Head of the Department of Medicine.

Dr. Wise has been associated with Jefferson since September, 1955, when he accepted a position as Assistant Professor of Medicine. He was made Associate Professor on July 1, 1957. In September, 1955 he became Attending Physician at Jefferson Hospital and continued to serve in that capacity until his appointment to the Professorship on January 7, 1959. He continues as Attending Chief, Medical Service at Philadelphia General Hospital.

Dr. Wise came to us from the University of Minnesota, where he had been Assistant Professor, Departments of Medicine and Bacteriology, and Director of the Microbiological Laboratories, University of Minnesota Hospitals. Dr. Wise first became associated with that University in 1951 as a Research Associate in the Department of Bacteriology, after having held the position of Director of the Bacteriological and Serological Laboratories of the University of Texas Hospitals from 1946 to 1950. From 1943 to 1946 Dr. Wise was Assistant Professor, Department of Bacteriology, University of Texas Medical Branch in Galveston and he began his academic career as a Research Assistant, later becoming an Assistant Instructor, at the University of Illinois.

It was at the University of Illinois that Dr. Wise obtained his graduate training in Bacteriology, receiving his M.S. degree in 1939 and his Ph.D. in 1942. He received his degree in Medicine in 1950 from the University of Texas Medical Branch, and was Valedictorian of his class. Dr. Wise served his internship at the United States Public Health Service Hospital in New Orleans and his residency in Internal Medicine at the University of Minnesota Hospitals in Minneapolis.

In addition to his academic positions, Dr. Wise has been Director of the Wichita City County Health Laboratory in Wichita Falls, Texas, Director of the Houston, Texas Public Health Laboratory, Internist to Student Health Service, and Director of Bacteriological Laboratories at the University of Minnesota Hospitals.

Dr. Wise is a Diplomate of the American Board of Internal Medicine and an Associate of The American College of Physicians. In addition, he is a member of the Philadelphia County Medical Society, the Medical Society of the State of Pennsylvania, The American Medical Society, the New York Academy of Science, The American Federation for Clinical Research, and the Pennsylvania Society of Bacteriologists. He is a member of Alpha Omega Alpha, Sigma Xi and has been President of the Illinois chapters of Phi Sigma and Phi Eta Fraternities. He was also President of the Texas Chapter of Mu Sigma Mu.

One of Dr. Wise's deepest interests is the study and control of infectious diseases and he is a nationally known authority on the problems of the control of staphylococcal infections in hospitals. He has been requested by hospitals, medical associations, and many other organizations to deliver addresses on the subject and to participate in panels. During the year 1958 he spoke at the Post-Graduate Institute for Medical Technologists in Kansas City, at the Presbyterian Hospital in Charlotte, North Carolina, at the Minnesota Medical Technologists Association, the Post-Graduate Institute of the Philadelphia County Medical Society, and at seven hospitals in this area.

During the same year he participated in panels on infectious diseases and the use of antibiotics at the Industrial Health Conference in Atlantic City, the Annual Symposium on Infectious Diseases of the American Academy of General Practice in Kansas City, the American Society for Clinical Pathology, the American Medical Association, and the World Medical Association.

Dr. Wise has worked with the Communicable Disease Center of the United States Public Health Service, and in this connection he helped in preparing visual aids for use in programs for control of hospital-acquired infections. Dr. Wise was a keynote speaker at regional conferences on the Control of Staphylococcal Disease at Charlottesville, Virginia, Worcester, Mass. and Princeton, N. J. He also participated in the National Conference on Staphylococcal Disease in Atlanta, Georgia. Dr. Wise has also served as panel moderator during 1958 for the American College of Physicians, the American College of Chest Physicians, and at an Antibiotic Symposium in Washington, D. C.

In addition, he has served on the following committees: Associate member of the Commission on Streptococcal
Diseases of the Armed Forces Epidemiological Board, the Committee for Standardization of Methods for Diagnosis of Staphylococcal Infections (Preparation of chapter on Diagnostic Procedures and Reagents), American Public Health Association, and the Subcommittee of Bacteriophage Typing of the American Public Health Association.

He is a member of the Board of Trustees of the Magee Memorial Hospital of Philadelphia, where he also holds the title of Honorary Physician. He serves on the Medical Advisory Board of the publication the MEDICAL LETTER.

In 1954 Dr. Wise delivered the Minnesota Medical Foundation Lecture in Duluth, Minnesota.

In the short time during which he has been associated with Jefferson, he has gained not only the respect and admiration, but the sincere affection of his colleagues and under his leadership the continued progress and development of the Department of Medicine is assured.

Dr. Wise is married to the former Mary Catherine Dosterschill and they have three children, ages 17, 15, and 10.

**GRANTS FOR RESEARCH AWARDED TO JEFFERSON**

Dean Sodeman has announced that during the last six months of 1958, grants totaling $441,795 have been awarded for faculty research projects at Jefferson.

Among these is a United States Public Health grant in excess of $50,000 for graduate training in gastroenterology under the directorship of Dr. C. Wilmer Wirtz, Associate Professor of Medicine.

Dr. William T. McLean, Jr., Associate in Pediatrics has received a grant of $5,089 for the study of children with retarded speech, and Dr. Milton A. Toporek, Assistant Professor of Biochemistry, has received $10,090 for a cancer research project. Both of these grants were received from the National Institutes of Health, Public Health Research Center, Bethesda, Md.

**MR. BARRINGER TO CHAIR HOSPITAL TRUSTEES INSTITUTE**

Mr. Brandon Barringer, long-time member of the Board of Trustees will serve as Chairman of the Second Annual Hospital Trustees Institute which will study “Trends in Hospital Finance” on March 31 at Franklin Institute.

**DR. GIBBON OPENS AREA HEART FUND DRIVE**

The Heart Fund appeal for a five-county area was launched on February 2 by the Mayor's Proclamation read by Dr. Norman R. Ingraham, Deputy Health Commissioner, and received by Dr. John H. Gibbon, Jr., President of the Heart Association of Southeastern Pennsylvania.

Dr. Gibbon is pictured with 1959’s “Sweet Hearts”, 11-year old identical twins who were born with pulmonary stenosis.

Dr. Gibbon also spoke at the kick-off luncheon for the Drive on February 3.
NECROLOGY

DEATHS REPORTED DURING THE LAST YEAR
1957-1958

"ALUMNI'S AIMS"

Successive, fleeting years keep rolling in—
Grim combers from the past's forgetful sea—
Relentlessly erasing memories
Of missing groups which with us used to be,
So let's commemorate these fading names,
And have alumni's strong, trustworthy hands
Refresh remembrances of every class
By tracing them anew upon time's sands.

Ferdinand P. Herff, M.D. '05

1884—Wyatt Hefflin, died February 28, 1958.
1886—Chevalier Jackson, died August 16, 1958.
1889—Warren B. Beckler, died September 29, 1930.
    William J. Hottingstein, died July 31, 1941.
    D. Hunter Marrow, died February 23, 1958.
1890—Robert D. Frey, died October 10, 1958.
    Harry P. Lakin, died March 16, 1958.
    Charles A. Hottingstein, died April 8, 1958.
    Charles F. Lehnkering, died January 8, 1958.
    George H. B. Terry, died March 4, 1958.
1897—Calvin J. Balliet, died April 29, 1958.
    Willets P. Haines, died September 11, 1958.
1898—Saylor J. McGhee, died August 9, 1958.
    George T. Tracy, died October 12, 1958.
1900—Curtis A. Atkinson, died February 16, 1957.
    Swan Wilmer Brown, died February 26, 1958.
    George Lee Fosque, died November 29, 1958.
    Francis W. Goddard, died March 16, 1958.
    Franklin M. Nice, Jr., died March 4, 1958.
    Acheson Stewart, died January 2, 1958.

1904—Charles H. Bryant, died February 28, 1958.
    Marsden D. Campbell, died February 20, 1958.
    Lucius L. Hopwood, died April 3, 1958.
    A. Spencer Kaufman, died March 30, 1958.
1905—William Henry Glick, died February 3, 1958.
    Alfred F. Luhr, died August 4, 1958.
    Herbert N. Scheetz, died April 14, 1958.
    Richard F. Taylor, died Date Unknown.
    Gabriel F. Tucker, died April 17, 1958.
    Roy L. Young, died September 11, 1958.
1906—James M. Boce, died December 1, 1957.
    William P. Evans, died August 16, 1958.
1907—George T. Fox, died May 8, 1958.
    Clarence M. Mercer, died April 11, 1958.
    Frank D. Zimmerman, died September 27, 1958.
1908—John G. Patterson, died June 23, 1958.
1909—Maxwell Herman, died May 16, 1958.
    Frank V. McConkey, died March 8, 1958.
    Frederick W. Wohlwend, died December 4, 1957.
    Wayne R. Beardsley, died December 9, 1957.
    Chester E. Joss, died April 22, 1958.
    Thomas J. Lynch, died October 29, 1957.
PAUL OAKES CHATFIELD, M.D.

Dr. Paul Oakes Chatfield, Assistant Professor of Neurology, died on November 19, 1958 at the age of 41. Dr. Chatfield had been Assistant Professor since 1956. He was well known for his work in neurophysiology, having been the author of a textbook "Fundamentals of Clinical Neurophysiology". He had also published some 38 papers on this and related subjects. Dr. Chatfield had done a great deal of work in nerve muscle physiology and delivered a paper on the subject "Hypothermia and its Effects on the Sensory and Peripheral Motor Systems" at the New York Academy of Sciences.

Dr. Chatfield received his undergraduate training at Harvard and his medical degree from Johns Hopkins University in 1943. During World War II he served as a surgeon in Europe, and from 1946 to 1953 was Assistant Professor of Physiology at the Harvard Medical School. In 1953 he became Chief of the section of clinical neurophysiology at the National Institute of Neurological Diseases and Blindness in Bethesda, Maryland.

Dr. Chatfield is survived by his widow, a son, a daughter, and his mother.
Dr. Samuel Aaron Loewenberg, a renowned physician, scholar, teacher and author, was born in Libau, Latvia on January 1, 1881, and died in Philadelphia, Pennsylvania, on Thursday, December 4, 1958, at the age of 77 years. He was active in medical affairs and teaching up to the time of his death, for he died suddenly while on his way to a class at the Jefferson Medical College. He came from a family of physicians which could be traced back to the 16th century. In addition to their medical practice of their day, they were known to be scholars well versed in the Bible and Talmudic law.

Dr. Loewenberg received his early education abroad through private tutors. His application to his studies in this country enabled him to graduate with honors from the Medico Chirurgical College in 1903. He early displayed a great zeal for fundamental knowledge and was appointed instructor in his Alma Mater in 1904. He rose to the position of assistant professor of medicine in 1910 and in 1914, when the Medico Chirurgical College was absorbed by the medical school of the University of Pennsylvania, he continued in the latter institution as assistant professor of physical diagnosis. In his early years of practice he had a desire to do surgery and was an assistant surgeon to the late Dr. Francis Stewart at the Philadelphia Polyclinic and College for Graduates, now the Post-Graduate School of the University of Pennsylvania.

Dr. Loewenberg started his practice in a neighborhood where he thought he was most needed, the former Mt. Sinai Hospital district. There is no doubt that he had some influence with his colleagues and friends in helping to establish both the Mt. Sinai Hospital and the North Liberties Hospitals.

He married Miss Bessie Silberman of Baltimore, Maryland in 1907. His devotion to her during her chronic illness was a great influence in directing him to the study of tuberculosis. He became visiting physician at the Eaglesville Sanitorium for consumptives in 1908 and continued with interest until 1937. In 1909, he was appointed visiting physician to the department of tuberculosis at the Philadelphia General Hospital. During World War I, he was contract surgeon at Camp Dix, New Jersey, then Captain in the medical corps of the United States Army, assigned to the U. S. General Hospital #16, and then promoted as Commanding Officer to the patients detachment service. He also served in the U. S. General Hospital #10 and in 1919 he was made Chief of the heart and lungs examining demobilization board.

Upon his return to civilian practice, he became associated with the late Dr. Solomon Solis-Cohen at the Jefferson Medical College, where in 1937 he rose to the position of Clinical Professor of Medicine. In 1927 he became visiting physician to the medical department of the Philadelphia General Hospital which position he held until 1948, following which he became consulting physician. In 1921 he was appointed attending physician to the North Liberties Hospital and gave active service until 1951 when the latter institution was amalgamated with the Albert Einstein Medical Center. In 1940 he became consulting physician to the Philadelphia General Hospital for contagious diseases, and consulting physician to the Philadelphia Psychiatric Hospital.

In 1923, Dr. Loewenberg studied with Dr. Ferdinand Widal in Paris and with Drs. Wenkbach, Eppinger and Erdheim in Vienna, Sir James Makenzie and Thomas Lewis in London and Dr. Gohn in Prague.

He was a keen student, devoted to diagnostic clinical medicine with special interests in tuberculosis, cardiology and endocrinology. His vast experiences in these fields culminated in the writing of several text books of national and international reputation, some of which have gone through eight editions. These text books are: (1) Clinical Endocrinology; (2) Diagnostic Methods of Internal Medicine; (3) Medical Diagnosis and Symptomatology; (4) Medical and Physical Diagnosis. He likewise contributed extensively to the various journals of medicine on subjects relating to the heart, lungs and endocrine system. He was a member of many learned societies, including the American College of Physicians, the Philadelphia County Medical Society, the Trudeau Society, National Tuberculosis Association, American Heart Association, Association for the Study of Internal Secretions, and the Solomon Solis-Cohen Medical Literature Society, of which he was a founder. He was an alumnus member of Alpha Omega Alpha Society and a Diplomate of the American Board of Internal Medicine.

In 1918 he married Miss Zena Blanc. Their son, Dr. Leopold Loewenberg, is their only child and is now doing post-graduate work in obstetrics and gynecology. Dr. Samuel Loewenberg was a humble person. He will forever be remembered as a gentleman and a scholar, dedicated to the oath of Hippocrates, the teachings of Maimonides, with the ideals of his former Chiefs, Drs. James Anders, Solomon Solis-Cohen and Thomas McCrea. He has imbued his many students and colleagues with the ideals of, and a love for, medicine. One feels that the present world needs more men like Dr. Loewenberg, whose exemplary life has made this world a better place in which to live.

"He still lives on earth in the acts of goodness he performed and in the hearts of those who cherish his memory. The beauty of his life abides among us as a loving benediction."

Harold L. Goldburgh, M.D.
The Department of Neurological Surgery at Jefferson Medical College was started May 25, 1943, by an order of the Board of Trustees on the recommendation of the executive Faculty, and through the vigorous, persuasive efforts of Dean Harvey Perkins and Professor Thomas Shallow. Actually the initial stimulus appears to have been provided by persistent prodding from the faithful alumni of Jefferson, who have so often over the many past years clearly visualized our staff needs and offered constructive suggestions, even before the administrative faculty has been fully cognizant of our deficiencies.

To initiate and direct the project, Dr. Rudolph Jaeger, Chief of the Department of Neurosurgery at Colorado University Medical College, was asked to inspect the available facilities at Jefferson for the purpose of building a first class Department of Neurosurgery and to make recommendations in regard to the physical plant and staff changes necessary to that end. A long range plan was outlined by Dr. Jaeger for attaining this goal and he was invited to head the Department and to place in operation the recommendations as made. This plan included a number of specific suggestions, the first and most important of which was that he be permitted to give his full undivided time to Jefferson, and that he be provided with adequate office space, operating rooms, a laboratory, and patient bed facilities where the various activities of the Department might function efficiently. It was agreed that certain privileges would be granted to the Department which were known to be peculiar to Neurological surgery, so as to attract sufficient patients of all types for adequate teaching material.

Among Jefferson’s enviable heritages and inestimable assets for developing this specialty was included the first successful operation for the permanent cure of a brain tumor ever recorded. The operation, performed in 1887 at St. Mary’s Hospital by Doctor W. W. Keen, Professor of Surgery at Jefferson, under the then new Listerian carbolic acid spray technique, has been universally acclaimed by medical historians as a significant milestone in the development of brain surgery. The patient not only lived but complete removal of the tumor was proven by autopsy some 30 years later. The tumor—removed at operation—and the patient’s brain, are now specimens in the Museum of Pathology at Jefferson. With such tradition in brain surgery already established to point the way for organizing a Department of Neurosurgery the high objectives to be achieved were apparent and challenging.
Headquarters for the Department was provided in the Hospital at its present location, across the hallway from the Administrative Offices, by making a few changes in the rooms formerly occupied by the Department of Radium Therapy. Two efficient secretaries are in daily attendance (Misses Nadine Ganley and Barbara Colvin) to help with the many problems in the care of the patients referred for attention and to aid in the many details related to the teaching program. Prompt, courteous service to the patient and members of the staff or referring physician is our constant aim.

(right) Secretarial Office of Department of Neurological Surgery (Dr. Jaeger, Miss Ganley and Miss Colvin)

Assisting with the administrative duties and teaching is Dr. William H. Whiteley, who joined the staff as resident very soon after his graduation from Jefferson in 1943. His early devotion to Jeff is attested to by the fact that he managed to start the very first day of his life at Jefferson Hospital. At an early date in its formative period the Department was again fortunate in having Dr. Stacy Rollins—now of Georgetown University—and Dr. Richard Tozer—now at the Menninger Clinic at Topeka, Kansas serve as Neurosurgical residents in the Department. Both are graduates of Jefferson and are now illustrious members of the Alumni Society. Also assisting in student teaching is Dr. Joseph A. Brady of Philadelphia formerly a resident from the Mayo Clinic. Additional staff members are Dr. Henry Keen Shoemaker, Jefferson 1949, and Dr. David LaFia, Jefferson 1947. The present resident staff consists of Doctors Laurence J. Adams, Raymond M. Joson, and Luis A. Oliva. Joining our resident staff, as of July 1, 1959, will be Dr. Temple F. Prahar, graduate of Jefferson 1958, and Dr. Samuel J. Mackall, Intern at Jefferson 1958 and graduate of Temple University.

Operating room facilities are located on the 5th floor in the new pavilion. They have been especially constructed to fit the peculiar highly specialized intricate mechanical needs for Neurosurgery only. Neurosurgery is a highly technical specialty requiring complicated and personally designed instruments and equipment; for this reason all operative work must necessarily be performed in quarters designed for the purpose. Equally important is the strict maintenance of asepsis, and a nursing staff thoroughly trained, not only in the care of the patient, but in the use of all the unusual instruments and electrical equipment peculiar to its operation. Neurosurgery operations are often long and arduous, and wound exposure is often much longer than in other surgical procedures; therefore it is mandatory that all operative maneuvers be carefully planned and expeditiously carried out in surroundings kept as free of contaminating organisms as is possible.
We are fortunate in having as head nurse in charge of the Neurosurgery Operating Room, Mrs. Patricia Verbinski, without whose help we would be hopelessly crippled. Nursing and technical operating personnel remains an ever-present critical problem.

Diagnostic radiologic techniques are extremely important to the neurosurgeon. Most surgical lesions can now be demonstrated visually, as well as suspected from the case history and physical examination. The discovery by Walter Dandy in 1918 whereby one can demonstrate a brain lesion by injecting air into the ventricles of the brain and by spinal puncture, has revolutionized the technique of and expanded the possibilities for cures by brain surgery. In the last 20 years we have seen developed additional contrast media techniques for diagnosing spine and brain lesions through the use of angiograms of the brain (using Hypaque and Thorotrast) and myelograms of the spinal canal (using removable Pantopaque). The former has been developed to a high state of perfection in the Neurosurgery Department at Jefferson by introducing the radiopaque material through a polyethylene tube dangling inside the carotid artery. It is now possible to visualize the arterial, capillary and venous phases of dye passing through the vascular system of the brain by taking from 6 to 8 films—a second apart—after injecting only a single tiny dose of the dye. Aneurysms of the brain—formerly unsuspected—
and brain tumors can be precisely pinpointed by this method with a very minimal risk.

For cerebral angiography and air injection, two special rooms equipped with x-ray equipment designed for these tests have been in operation in the Department of Radiology for some years. For myelography there is a specially designed table so the radiopaque oil (Pantopaque) can be followed through the entire length of the spine by tilting the table to any angle, between the horizontal and vertical, at the touch of a button. These procedures are carried out by surgeons trained in neurosurgery, with the full cooperation of personnel from the Department of Radiology.

We are extremely fortunate in having Miss Gertrude Lynch, as our experienced technical expert. She has painstakingly supervised these complicated radiologic maneuvers and has aided in the perfection of the required intricate technical details.

The staff of the Neurosurgery Department keeps constantly in mind that Jefferson's two primary reasons for existing are for the care of those persons suffering from complicated, difficult illnesses and the dissemination of medical knowledge to all who wish to seek it. Therefore, a large part of our activities are occupied with teaching and in the preparation and improvement of teaching methods. Throughout the Junior and Senior years, didactic orientation lectures are given to the entire class group. These admittedly must be minimal since in recent years we believe it is best to follow the teaching plan, inaugurated by the influence of Osler, of taking the student to the patient rather than to a book for a direct observation and demonstration of clinical problems. Small groups of students are given adequate opportunity by this method through assigning each student to a patient for detailed study of his illness. Such opportunities exist in the wards, private pavilions and outpatient department where staff supervision is at hand for checking and rechecking the numerous laboratory and physical examinations. Emphasis is placed on the early recognition of neurosurgical problems and the method by which they can safely, painlessly, and expeditiously be relieved by modern neurosurgical techniques. The neurosurgery staff participates in the teaching program carried out by the nursing staff at both the student and graduate level. We can well be proud of the devo-

(above) DRs. WHITELEY and LAFlA Demonstrating a Patient to Students on Ward Rounds
tion to duty, high intellectual caliber and dedication to highest ideals of the nursing staff at Jefferson.

Staff conferences are held in the administrative office on Tuesdays and Thursdays at 10:30 A.M. All patients presenting unusual problems—before and after operation—are discussed in detail. Medical students, interns, nursing and medical staff members are invited to attend. Ward rounds follow these conferences so the patient’s clinical problem can be observed in detail. Additional clinical material for teaching is available through the Department affiliation with Wills Eye Hospital, Methodist Hospital, and the Veterans Administration Hospitals in Philadelphia and Coatesville, Pa.

The Experimental Laboratory of Neurosurgery is available on the 11th floor of the Medical College for the detailed study of problems related to surgical disorders of the nervous system. It is operated under the direction of Dr. Jaeger with Dr. David LaFia as chief assistant. New methods for curing the ill are sought for and old methods are checked for their continued usefulness. New drugs and techniques are carefully checked on animals for verification of their safety and efficacy before being tried on the patient. This is extremely important in this present day mania for recognition of claims of spectacular cures made through radio, television, newspapers and magazines that may be unsubstantiated by actual testing in the experimental laboratory.

Professor Jaeger with the assistance of his staff in the laboratory and clinical department has made substantial contributions to the advancement of the science of neurosurgery. Each of the problems studied, with the discovery of new methods or improvement of old ones, has been documented in the medical literature. The most important ones to come from the Department have been: (1) A new technique for performing angiography of the cerebral vessels by introduction of radiopaque substances into the carotid artery by insertion of a small polyethylene tubing through a needle inside this vessel. (2) Treatment of aneurysms of the brain by craniotomy and direct elimination of the lesion. (3) A study of the hazards and safety factors in the use of radiopaque drugs in cerebral vessels.
(right) Experiment in Progress in the Laboratory of Neurological Surgery. Personnel, from left to right: Dr. Jaeger, Miss Rosemarie Tomaselio, Dr. Harold Chase (Anesthesiologist), Dr. LaFia, Miss Barbara Howard, and Mearl Kilmore (Physiologist)

(4) A cure for carotid-cavernous fistula (pulsating exophthalmos) by plugging the fistulous opening with a muscle fragment and ligation of the internal carotid on either side of the fistula. (5) Quantitative, progressive tranquilization of mentally disturbed patients by injecting hot water into the frontal lobes. (6) A new technical method for curing the back and leg pain of disc injury (traumatic sciatica) by complete and thorough removal of the useless irritating remaining disc substance. (7) The cure of the pain of tic douloureux and cancer of the face, by partially or completely destroying the gasserian ganglion through the injection of boiling water, under pentothal anesthesia and radiologic visualization (over 250 patients treated without a death or facial paralysis.) (8) A method

(left) Dr. Jaeger Performing Injection of the Gasserian Ganglion with Hot Water for Permanent Relief from the Pain of Tic Douloureux. Miss Gertrude Lynch (Neurosurgery Radiologic Technician) and Miss Mau (Anesthetist) Assisting
to reduce intracranial pressure during operation on the brain by continuous drainage of cerebrospinal fluid through a tiny spinal catheter. (9) An improved method for consistently obtaining relief from intractable pain (largely from cancer) by crushing the pain and temperature tracts in the cervical spinal cord.

To aid in the teaching of old "time tested" and new technical procedures there have been many new, extremely useful instruments and "gadgets" built and improved, for both experimental studies and operating room use, in a surgical instrument shop entirely devoted to the special problems of neurosurgical technique. For many years an artist was employed for illustrating all unusual lesions and improvements in techniques for teaching purposes. Unfortunately funds are no longer made available for maintenance of such departments, to the detriment of much of our scientific investigative work. It is to be hoped that the deficiency will be rectified in the very near future by the installation of a first-class art department in suitable quarters.

Fortunately for the teaching of neurosurgery we have had available a very large colored motion picture library of neurosurgery operations, most of them completed by Dr. Jaeger before coming to Jefferson. There are at present fully completed 16 mm. movies on the following subjects which are used by our staff and distributed to those outside Jefferson who may be in need of such a medium for medical meetings:

1. Frontal Lobe Tumor—Diagnosis and Operative Removal (500 ft., 20 min.)

2. Intracranial Meningioma (350 ft., 15 min.)
3. Diagnosis of Brain Disorders by Air Injection (Pneumoencephalography and Ventriculography) (500 ft., 20 min.)
4. Pearly Tumor (Epidermoid) of Cerebellopontile Angle (700 ft., 30 min.)
5. Prefrontal Lobotomy for the Treatment of Mental Disease (500 ft., 20 min.)
6. Lumbar Sympathectomy for Chronic Neuritis of Leg (350 ft., 20 min.)
7. Spinal Cord Tumor (400 ft., 18 min.)
8. Diagnosis and Surgical Treatment of Intervertebral Disc Herniation Causing Sciatic Neuritis (500 ft., 20 min.)
9. Craniopharyngioma (Rathke’s Tumor) of Hypophyseal Region (500 ft., 20 min.)
10. Diagnosis of Intraspinal Lesion by Injection of Pantopaque (600 ft., 30 min.)
11. Removal of Subdural Hematoma (500 ft., 20 min.)
12. Treatment of a Compound Depressed Fracture of the Skull (400 ft., 15 min.)
13. Repair of Bone Defect of the Skull. (400 ft., 18 min.)
14. Anatomy, Diagnosis and Treatment of Tic Douloureux (1000 ft., 40 min.)
15. Brain Abscess (450 ft., 20 min.)
16. Removal of Intraorbital Tumor Causing Unilateral Exophthalmos (500 ft., 20 min.)
17. Treatment of Depressed Fracture of Skull (400 ft., 15 min.)
18. Treatment of Fracture of the Spine with Spinal Cord Compression (700 ft., 30 min.)
19. Chordotomy for the relief of intractable pain (600 ft., 23 min.)
20. Temporal lobectomy for psychomotor epilepsy (600 ft., 23 min.)

Our constant objectives have been: To make good doctors out of medical students, to instruct the nursing staff in the proper scientific, spiritual and professional care of the neurosurgical patient, to disseminate knowledge pertaining to the surgical care of neurological disorders to our medical staff and other physicians wherever they may be contacted, to train and inspire young surgeons on the resident level to become superior neurosurgeons, to discover new, simpler methods for caring for patients, and last, but not the least, to conscientiously and skillfully treat the many ill persons with diseases of the nervous system who are entrusted to our care.

The department’s specific message to our loyal and illustrious alumni is: “Our latchstring hangs on the outside”. We hope to see you soon. Without your encouragement, assistance, and devotion we can not function in the long established glorious tradition of Jefferson.
Dear Fellow Alumni:

It is with much humility and a deep sense of gratitude that I accept the post as President of the Alumni Association of the Jefferson Medical College. I am cognizant of the heavy responsibility that this post imposes and I sincerely hope that I can execute the functions of this office to your satisfaction.

I am sure that all of you will agree that an alumni association is more than a social gathering, but rather it is an active, live nucleus which is keenly interested in the functions, plans, developments and future of its parent institution. This interest will and should lead us into many areas which at first glance may appear unrelated but which on critical survey reveal a close-knit relationship. As alumni of one of the world's greatest medical schools we must concern and intimately acquaint ourselves with the many facets which pertain to Jefferson: its faculty; its physical plant; its research departments and their achievements; changes in methods of medical education; enhancement and maintenance of leadership; selection of students whose motivation, integrity and high intellectual capacity will assure us of a true physician as an end product; cost of medical education; time expended for a medical education, is it too long? is it too short? and preparation of our students to meet equally the new sociologic and economic trends and still remain true physicians; all these and many other problems should be an integral part of the life of every alumnus of Jefferson.

I am sure that each and every one of you has given these problems much thought; also I am confident in saying that the complexity of the whole pattern of the physician, his education and his survival often becomes so overwhelming that many of us are prone to take the path of least resistance and relegate the solution to someone else. This is wrong, and it is my hope that during the coming year interest and participation in the general problems related to our welfare as physicians and as alumni of Jefferson will be stimulated to a high level and shared by all. Realization of such a goal will mean cooperation of every son of Jefferson. It will mean more concerted effort, more work and strong interest; the stakes are high, but the reward is great.

Sincerely yours,

[Signature]

President
Dear Fellow Alumni:

It was my pleasure and privilege to introduce to you on Wednesday, February 4th, at the Annual Business meeting and Dinner your new President for the coming year, Dr. Anthony Frederick DePalma; and it is my purpose in this last message to you to encourage your cooperation with your new President during the coming year.

I would also like to take this opportunity of extending my thanks to the various committees of our Alumni Association for their help, consideration and cooperation in making the last year a most successful year for the Alumni Association as a whole. I would like to especially thank the various State Vice Presidents and their committees for their courtesy and hospitality at the various meetings I attended during the past year. I hope Dr. DePalma will find the time to attend more of the meetings than I did. Finally I wish to thank Mrs. Joseph J. Mulone and her assistants in the Alumni Office for their splendid cooperation at all times.

I feel that the spirit of cooperation between our Board of Trustees, Executive Faculty and Alumni Association is at the highest level in the history of our institution. It is beneficial to all of us that all efforts should be expended in making our school a "Greater Jefferson".

Sincerely yours,

Robert Prince Hyl.
Once again, as in past years, Jefferson Alumni have responded generously to our appeal for the funds necessary to maintain our high standing among medical schools.

At this point in the Drive it is most gratifying to be able to report that the total stands at $80,116.75 which is slightly more than at the same time last year. The number of contributors has dropped, however, from 2,408 last year to 2,279 at present. It is apparent, therefore, that the Class Agents' appeals for larger gifts have produced good results.

Indeed, it is through the hard work and enthusiasm of these Class Agents, many of whom have served for a long time, that the success of our Annual Drives is achieved. While I know that all Jefferson graduates take great pride in their Alma Mater, the tangible evidence of their loyalty is forthcoming usually as a result of the periodic "reminders" by the Class Agents. These reminders serve another purpose, too, for they keep alive the vital contacts between classmates, and between alumni and the College itself. These contacts weld us into the strong and active organization which our Alumni Association has become.

Since all of you have been an integral part of Jefferson's illustrious past, not only through your financial support, but through your individual achievements in medicine, her continued growth is, of course, a matter of the utmost concern to you. Those of you who attended the Annual Business Meeting and Dinner heard members of the Administration tell of progress in our academic program and in our physical facilities. You know of the outstanding additions to our teaching staff and it is, I am sure, a source of great satisfaction to you to know of the part each of you plays in making this growth and progress possible.

Probably at no time in recent years has the need for facilities and faculty in medical education been so acute. You know of the thousands of applications for admission which are of necessity not accepted each year by all medical schools and you know of the ever increasing costs of educating a medical student. With these rising costs, the need for Alumni funds as a supplement to income from other sources becomes more vital. Only through maintaining our teaching standards can we produce the outstanding alumni who have been characteristic of Jefferson through the years. The use of Alumni funds for this specific purpose seems particularly appropriate.

From the summary on the facing page it will be seen that the Class of 1928 leads in amount at this time, the non-graduates in number of givers and the Class of 1936 in percentage. We are pleased to be able to report also a high percentage of contribution among our more recent classes which would indicate that our young graduates are keenly aware of Jefferson's needs.

While we can feel justly pleased with the results of the Drive to date, it is obvious that further work is needed if we are to reach our goal of $110,000 and concentrated and enthusiastic effort is required if we are to exceed that figure.

* $60.00 of class total contributed by 34 members of Omega Upsilon Phi, in memory of Linton March.

**Joseph P. Reath, sale and dividends of shares of stock.
Chapter Notes

OHIO CHAPTER

The 9th Annual Jefferson Alumni-Ohio Dinner will be held Tuesday, 21 April, 1959 in conjunction with the annual meeting of the Ohio State Medical Association (21-23 April) in Columbus.

This year the meeting will be held again at the University Club, 40 South Third Street, beginning with a social hour at 7 p.m. Dinner will be served at 8 p.m., followed by (short) speeches about Jefferson.

Reservations may be secured through Dr. Carey B. Paul, '54, Arrangements Chairman, 466 North Cassady Avenue, Columbus 9, Ohio.

WASHINGTON, D. C. CHAPTER

The Washington, D. C. Chapter of the Jefferson Medical College Alumni Association held its regular December meeting at the Army-Navy Club on December 4, 1958. The members were addressed by Mr. Bob Wolfe, the nationally known sports caster who broadcasted the World Series recently, speaking on topics of interest in sports. An unusual degree of enthusiasm and interest was manifested in his remarks.

NORTHERN NEW JERSEY CHAPTER

On February 25, 1959, the Jefferson Medical College Alumni Association of Northern New Jersey held its Annual Meeting at the Essex Club in Newark, New Jersey. There were 30 active members present at this meeting. We had two very distinguished guests with us, namely, Dr. William A. Sodeman, Dean, and Dr. Robert I. Wise, Magee Professor of Medicine.

After a congenial hour of cocktails and hors d'oeuvres, a splendid dinner was served. After the dinner, Dr. A. Sellitto, President, introduced first Dr. Wise, then Dr. Sodeman to the members of the meeting. Both Dr. Wise and Dr. Sodeman gave splendid informal talks as to what is new at Jefferson. The meeting adjourned after the following officers had been nominated and unanimously elected for the coming two years: President, Dr. Oscar Deutel; Vice-President, Dr. Ferdinand Dingé; Secretary-Treasurer, Dr. Fred De Troia.

HAWAII CHAPTER

Dr. Peter T. J. Yap, of the Class of 1940, has been elected President of the Hawaii Chapter of the Alumni Association for the year 1959-1960. He succeeds Dr. Francis T. Kaneshiro, who has served ably as President for the past two years. Dr. Bernard W. D. Fong is the Secretary-Treasurer of the Chapter.

William A. R. Stecher,
M.D., '29, Secretary
Faculty Notes

J. Lawrence Angel, Associate Professor of Anatomy and Physical Anthropology participated in the recent dinner meeting of the American Institute of Human Paleontology. He also attended the Annual Meeting of the American Anthropological Association.

Dr. John B. Atkinson, Associate in Clinical Medicine recently spoke before the Salem County Medical Society at Penns Grove, N. J. on "Irradiation Hazards and the Present Status of Bone Marrow Transplantation".

Dr. Richard G. Berry, Associate Professor of Neurology with Dr. Lewis Wiener spoke on "Cerebral Lipidosis: Biopsy Diagnosis" before a meeting of the Philadelphia Neurological Society on Friday, February 6, 1959.

Dr. Paul A. Bowers, Assistant Professor of Obstetrics and Gynecology recently outlined "Present Obstetric Trends" before the Delaware County Medical Society.

Dr. Heinrich Breger, Professor of Industrial Medicine in the Department of Preventive Medicine, spoke on "New Aspects of Ancient Occupational Diseases" at the Tri-Section Meeting of the American Industrial Hygiene Association in Philadelphia on December 12, 1958.

Dr. Breger has been appointed Chairman of the Subcommittee on Education and Training for the Thirteenth International Congress on Occupational Health to be held in New York in 1960. He also has been appointed a consultant to the Sub-Committee on Drug and Chemical Aspects and an expert witness in the Impartial Medical Testimony Plan of the Medical Society of the State of Pennsylvania.

Dr. Mario A. Castallo, Clinical Professor of Obstetrics and Gynecology, gave a talk on the "Surgical Management of Tubal Infertility" before the MacFadyen Gynecological Society of Hahnemann Medical College, Philadelphia, Pennsylvania.

Dr. Castallo also inaugurated a series of lectures on "Modern Concepts of Gynecology", by giving a paper on "The Psychosomatic Aspects of Gynecology." The lectures are sponsored by the Seton Hall College of Medicine and presented at the Alexian Brothers Hospital in Elizabeth, New Jersey.

Dr. Richard J. Chodoff, Instructor in Surgery, spoke on "Interesting Cases in Thoracic Surgery" at the Staff Meeting of the Haverford Hospital on Tuesday, December 9, 1958.

Dr. James E. Clark, Assistant in Medicine was invited to open a discussion on "Primary Aldosteronism—Report of a Case" presented before the Section on General Medicine, College of Physicians of Philadelphia on Monday, January 26, 1959.

Dr. Louis H. Clerf, Professor of Laryngology and Bronchoesophagology, addressed the Pinellas County Medical Society on Feb. 2, 1959 at the Doctors' Motel, St. Petersburg, Fla. and his talk on "Tumors of the Neck" was well received by over 150 members of the Medical Society. Dr. Rowland Wood of the Class of 1940 is President of the Medical Society and Dr. Clerf was introduced by Dr. C. A. Young, of Clearwater, Fla., member of the Class of 1923.

Dr. Abraham Cohen, Instructor in Medicine took part in a round table discussion on steroids at a meeting held in conjunction with the Western Society for Clinical Investigation, January 29, 1959 at Carmel, California.

In the December Issue of the Alumni Bulletin, an item under Faculty Notes stated that Dr. Abraham Cohen had been appointed National Medical Director of the City of Hope, Duarte, Calif. This item was misleading, inasmuch as Dr. Cohen is actually the Director of the Philadelphia Plan of the City of Hope, which has for its purpose the prevention of indigency. It is their purpose in catastrophic disease, such as comes within the framework of the type treated at the City of Hope in Duarte, Calif. to aid the patient financially and medically, if the need arises. The patient at all times is in the care of the private family physician. The aid must of necessity be of short-term duration and the patient must be economically and medically eligible.

The diseases treated at the City of Hope in Duarte, Calif. consist of all types of malignancies, leukemias, pulmonary tuberculosis and certain other blood dyscrasias and hereditary diseases.

Dr. Joseph P. Concannon, formerly Associate Professor of Radiology and Dr. Simon Kramer, Associate Professor of Radiology recently participated in panel discussions at the Southeastern States Cancer Seminar, for which the Hillsborough County Medical Association, Hillsborough, Florida, acted as host. This biennial meeting is supported by the Florida Division of the American Cancer Society and the Florida State Board of Health.

DR. JOSEPH L. FINN, Associate Professor of Clinical Obstetrics and Gynecology has been elected President of the medical staff of the new Holy Redeemer Hospital, Huntingdon Pike, Meadowbrook.

The 200 bed general hospital began admitting patients the latter part of February. It is administered by the Daughters of the Most Holy Redeemer.

DR. JOHN H. GIBBON, JR., Samuel D. Gross Professor of Surgery and Head of the Department spent the period from March 10th to March 14th as Taub Visiting Professor of Surgery at Baylor University in Houston, Texas.

DR. FRED HARBERT, Professor of Oto-Rhino-Laryngology and Broncho-Esophagology and Head of the Department, spoke to the Detroit Otolaryngological Society on "Problems of Masking and Recruitment," and to the Washington, D. C. Otolaryngological Society, January 13, on "Lesions about the Orbit."

DR. W. PAUL HAVENS, JR., Professor of Clinical Microbiology and Professor of Medicine and DR. FARID HAURANI, Assistant in Medicine, participated in a discussion on "The Effect of Total Body Irradiation on the Production of Antibody in Man" at a meeting of the Section on General Medicine, College of Physicians, Monday, November 24, 1958.

DR. PHILIP J. HODES, Professor of Radiology and Head of the Department attended the 6th Annual Cancer Seminar at Tucson, Arizona, where he participated in a panel discussion having to do with brain tumors. During his trip to Arizona, he also addressed the State Nurses Association on the "Attitude toward Thermonuclear Fallout".

During February he addressed the Annual Teachers Conference in Chicago on Radiology and its Place in the Medical Curriculum. Dr. Hodes is Chairman of the Commission on Education of the American College of Radiology, which sponsors this Conference.

The Philadelphia Division of the American Cancer Society has recently appointed Dr. Hodes as a member of its Board of Directors.

DR. BALDWIN L. KEYES, Professor of Psychiatry Emeritus has been made Vice-President Elect of the Philadelphia County Medical Society.

DR. SIMON KRAMER, Associate Professor of Radiology, spoke on "The Use of Radioisotopes and Radiotherapy in the Management of Thyroid Carcinoma" at the second of the 1958-59 special lecture series at the State University of New York Downstate Medical Center in Brooklyn, New York.

DR. WILLIAM T. LEMMON, Professor of Surgery, was recently elected treasurer of Doctors Hospital for 1959.

DR. HOWARD C. LEOPOLD, Associate in Medicine, was appointed Chief of the Allergy Clinic of the Jefferson Medical College Hospital, and promoted to the rank of Associate in Medicine.

PATRICK A. MCCARTHY, M.D., Associate in Surgery, was honored by St. Mary's Hospital at its Annual Dinner on February 7th at the Sylvania Hotel. Dr. McCarthy is the former Director of the Department of Surgery at St. Mary's and has been practicing for over 50 years. Dr. McCarthy, who was graduated from Jefferson in the Class of 1908, is one of the Founders of the American Board of Surgery, and is a member of the American College of Surgeons.

DR. NICHOLAS A. MICHELCS, Professor of Anatomy, spoke at the Fourth Annual Strasburger-Perella Conference dealing with cancer of the liver, gallbladder, and bile duct on November 7 and 8, 1958, at the Memorial Center for Cancer and Allied Diseases, New York City. Dr. Michels presented a paper on the "Ever Varied Blood Supply of the Liver and Its Collateral Circulation." One of the speakers on the same program was HAROLD L. STEWARD, M.D., Class of 1926, of the National Institutes of Health, Bethesda, Maryland.

DR. THOMAS F. NEALON, JR., Assistant Professor of Surgery, was one of the speakers at a statewide seminar held in Birmingham, Alabama on January 28 and 29. The seminar was sponsored by the American Cancer Society, Alabama Division in cooperation with the Medical Association of Alabama, American College of Surgeons, Alabama Academy of General Practice, Medical College of Alabama, Jefferson County Medical Society, and the Jefferson County Dental Society, and featured a number of nationally recognized authorities in the cancer field.

HENRY H. PERLMAN, M.D., Clinical Professor of Pediatrics spoke before the residents, interns and clinical clerks at Howard University-Freedmen's Hospital, and Department of Pediatrics, on the morning of Friday, February 13th. His subjects were "The Diagnosis and Treatment of Fungal Infections in Children" and "The Management of the Acute Inflammatory Exudative Dermatoses". In the
afternoon Dr. Perlman addressed the members of the Junior and Senior classes at the Howard University Medical School in Washington, D. C. on "The Diagnosis and Treatment of Common Dermatological Conditions in Infants and Children." His talk was illustrated by means of lantern slides.

**DR. F. JOHNSON PUTNEY, Associate Professor of Laryngology and Broncho-Esophagology, has been named to the consulting staff of Delaware County Hospital.**

**DR. SIDNEY G. RADBILL, Assistant Professor of Clinical Ophthalmology, spoke on "Dr. Robley Dunglison and Jefferson" at the February 17 meeting of the Section on Medical History of the College of Physicians of Philadelphia.**

**DR. HERMAN L. RUDOLPH, Assistant Professor of Physical Medicine, spent the week of February 15 in the Department of Prosthetics Education at University of California Los Angeles, enrolled in the post-graduate course on "Functional Bracing for the Upper Extremity".**

**DR. J. J. RUPP, Assistant Professor of Clinical Medicine, and DR. J. J. SCHNEIDER, Assistant Professor of Experimental Medicine were recently elected to the Executive Committee of the Philadelphia Endocrine Society.**

**DR. LEWIS C. SCHEFFEY, Professor of Obstetrics and Gynecology, Emeritus, has spent two weeks in Albuquerque and other New Mexico cities making hospital and clinical visits and lecturing to medical and civic groups. His visit was sponsored under the "Visiting Physicians" program of the Lovelace Foundation for Medical Education and Research. Dr. Scheffey made medical rounds at the Bernalillo County Indian Hospital. He lectured on "The Vital Role of Gynecology in the Maintenance of Maximum Health" at Lovelace Foundation to all Albuquerque physicians and surgeons. He toured the hospitals of Santa Fe and the medical clinics in Espanola and Taos. Dr. Scheffey spoke on "Population Pressures and World Tensions" before the Albuquerque Kiwanis Club, and on "The Prophylactic Approach to the Problems of Pelvic Malignancies" at the meeting of the New Mexico Obstetrical and Gynecological Association in Albuquerque. A tour was arranged of the Navajo Reservation, its clinics and medical facilities, and Dr. Scheffey lectured at the Fort Defiance Hospital.**

At a Foundation Staff dinner, Dr. Scheffey was presented with a citation in recognition of his contribution to present knowledge of cervical cancer and his activities with regard to world-wide human welfare.

Dr. Scheffey was accompanied by his wife and while they were in Albuquerque they were guests of Dr. and MRS. BURGESS GORDON, Class of 1919, who is now Director of Medical Education of the Lovelace Foundation.

During his visit, Dr. Scheffey was very pleased to meet and talk with the following Jefferson Alumni: **Dr. Marshall L. Cleverger, Class of 1950, Dr. Albert L. Maisel, Class of 1939, Dr. Randolph V. Seligman, Class of 1940, Dr. Hugh B. Woodward, II, Class of 1950 and Dr. William K. Carlile, Class of 1952.**

**DR. WILLIAM H. SCHMIDT, Associate Professor of Physical Therapy, was one of the speakers at the quarterly meeting of the Pennsylvania Academy of Physical Medicine and Rehabilitation, held recently in Harrisburg.**

**DR. GERARD M. SHANNON, Instructor in Ophthalmology, participated in a discussion on "Repair of Orbital Deformity with Plastic Implant" at the meeting of the Section on Ophthalmology of the College of Physicians of Philadelphia on Thursday, January 15, 1959.**

**DR. WILLIAM A. SODEMAN, Dean, and DR. JOHN H. GIBBON, JR., Samuel D. Gross Professor of Surgery and Head of the Department were among the four medical school professors who participated in a panel discussion on "Present Concept of Atherosclerosis", presented by the Hare Medical Society of Jefferson Medical College on Tuesday, January 20, 1959.**

**DR. MARTIN J. SOKOLOFF, Clinical Professor of Medicine and Director of the Barton Memorial and White Haven Divisions, and DR. PETER A. THEODOS, Associate in Medicine attended the Army-Navy Veterans Conference in St. Louis on January 30th. The theme of the Conference was the Chemo-therapy of Tuberculosis.**

**DR. JOHN Y. TEMPLETON, III, Clinical Professor of Surgery delivered the Milliken Lecture during the Graduate Course schedule in Cardiology at the Pennsylvania Hospital. His subject was "Open Heart Surgery".**

On February 10th, Dr. Templeton addressed the Schuylkill Valley Medical Society on "Open Heart Surgery" and on February 18th he addressed the Cardiovascular Nursing Conference at University Hospital on "Congenital Lesions and Open Heart Surgery".

On March 26th, Dr. Templeton will speak on "Surgical Approach to Coronary Artery Disease" at the Allentown Hospital and Commission on Graduate Education.
WILLIAM H. WHITELY, Associate in Neurosurgery and BERNARD J. ALPERS, Professor of Neurology and Head of the Department recently spoke before the Philadelphia Neurological Society on "Posterior Interosseous Nerve Palsy with Spontaneous Neuroma Formation".

DR. JOHN F. WILSON, Associate Professor of Dermatology, presented a paper, "The Nonvenereal Diseases of the Vulva," on December 11, 1958, as part of the Panel on Mucous Membrane Diseases at the annual meeting of the American Academy of Dermatology and Syphilology in Chicago, December 6 to 11. He also was Chairman of a Luncheon Informal Discussion Group at the same meeting on December 9, and was a member of the Panel on Dermatologic Photography on December 10.

Dr. Wilson also was invited to discuss the paper, "White Lesions of the Vulva," by Dr. Arthur Hyman at the New York Academy of Medicine meeting of the Bronx Dermatological Society on December 18.

Dr. Wilson has been invited to lecture at the Universidad Nacional Asuncion in Paraguay, at some date to be determined during the Universidad’s coming school year, which is from April 1 to November 30.

C. WILMER WIRTS, M.D., Associate Professor of Medicine acted as gastroenterologist pro tem at the Lovelace Clinic, Albuquerque, N. M., Nov. 15-20. He received a commemorative plaque at a banquet in Santa Fe on the night of November 19. Ward rounds were made at the County Indian Hospital and case discussions were held at the Lovelace Clinic and Veterans Administration Hospital with Dr. I. S. Radvin, Professor of Surgery at the University of Pennsylvania who received the Lovelace Foundation award and gave the first annual Lovelace Foundation lecture. Inspection tours of the Sandia Base and the Atomic Energy Commission Installation and Hospital at Los Alamos were made. DR. BURGESS GORDON, Class of 1919, is Director of Medical Education and Research Education at the Lovelace Foundation.

DR. WIRTS presented the pathophysiology and treatment of pancreatitis, November 14, and of biliary tract disease, November 21, at St. Peters Hospital in New Brunswick, New Jersey, as part of a graduate course sponsored by the Seton Hall Medical College.

DR. ROBERT I. WISE, Magee Professor of Medicine and Head of the Department, recently participated in an International Colloquium on Resistant Infections, held in New York City.

Dr. Wise, speaking to the meeting of the transportability of staph organisms, declared: "Patients discharged from the hospital may carry antibiotic-resistant strains to their home, and in some parts of the world antibiotic-resistant staphylococci are isolated from patients seen in physicians' offices." He also pointed out that micro-organisms other than staphylococci are becoming resistant to antibiotics and are further making the management of infectious diseases more difficult.

CURRENT MEDICAL DIGEST of Baltimore, Maryland recently carried articles by members of the Jefferson Medical College faculty, these being:

"The Leg Cramp Syndrome During Pregnancy" by DR. JEROME ABRAMS and DR. G. E. APONTE, Instructor in Pathology and "Therapeutic Exercises for Teen-Age Dysmenorrhea" by DR. LEIB J. GOLUB, Assistant Professor of Clinical Obstetrics and Gynecology, DR. WARREN R. LANG, Assistant Professor of Obstetrics and Gynecology, DR. HYMAN MENDUKE, Associate Professor of Biostatics, and DR. JAMES O. BROWN, Associate Professor of Anatomy.
Class Notes

1891

EDWARD WHITE FORD, M.D., Crescent City, Florida, is still on the job at 91 years of age. Seven days a week and often during night hours, too, Dr. Ford keeps busy in his office located near his home in Crescent City. Dr. Ford, who has delivered countless babies, gave up obstetrical work three years ago, but he still handles small emergency surgical cases.

Dr. Ford belongs to state, county and national medical societies and has made a life member of each. He stays active in civic, social and welfare affairs of his community.

1896

CLIFFORD E. HENRY, M.D., Box 446, Kirksville, Missouri.

Dr. Henry has been ill for some time and from our last report was not yet able to be up and around. He would greatly appreciate letters from his classmates.

1901

EDWIN STEINER, M.D., 33 Lincoln Park, Newark, New Jersey.

Dr. Steiner writes that he recently returned from a visit to Miami Beach and since his health is fairly good he is enjoying life.

1908

HOWARD L. HULL, M.D., 1424 Summitview Ave., Yakima, Wash.

Dr. Hull writes to Dr. Rumbaugh as follows: "Enclosed is my check for the Giving Fund. Again let me say that I appreciate very much the labor of love that you have assumed in taking over such an arduous task as collecting money.

"I shall always remember the delightful interlude of last summer in Philadelphia. It was so good to meet the fellows and have a chance to talk over old times just the way the old people do. It is hard to realize that we represent the older generation now."

DAVID G. MORGAN, M.D., 18 Gill St., New Haven 11, Conn.

With his generous contribution to the Alumni Fund, Dr. Morgan wrote to congratulate Dr. Rumbaugh on his continued efforts for the Alumni Fund, which have not waned through a half century.

J. J. A. McMULLIN, M.D., 4587 Seventh St., Riverside, Calif., writes "Now that I am wholly retired from remunerative work, I have volunteered my services to the Riverside County Medical Association. At present, I am serving on the Committee for the Aged and Aging, and am making a study of the medical coverage in rest and nursing homes in Riverside, and enjoying it thoroughly."

MARSHALL C. RUMBAUGH, M.D., 10 W. Dorrance St., Kingston, Pa. was recently presented with a plaque by the Luzerne County Medical Society at its 75th Annual Dinner. Dr. Rumbaugh was honored "in recognition of 50 years of medicine faithfully performed . . . in the traditional ideals of the medical profession."

1909

Dr. Walker writes "I am planning to attend the 50th Anniversary of our class in June and hope that there will be a good representation. There are many men I have not seen since I graduated and would like to renew old friendships."

1910

HERMAN C. GRIM, M.D., Trumbauersville, Pa. recently was named as recipient of the General Practitioner’s Award for 1958, the highest honor the Bucks County Medical Society makes to an individual each year. Dr. Grim received another significant honor when his portrait was unveiled at special services at the Grand View Hospital marking his faithful 48 years’ service.

Dr. Grim, one of the three Charter members of the medical staff who is still a member of the medical division was Ass’t Surgeon of the Institution for two years and Chief Surgeon for 26 years, received a Life Fellowship in the American College of Surgeons and has been Chief Surgeon Emeritus since 1948. He is a former President of Bucks County Medical Society and was twice elected President of the North Penn Clinical Society, also President of the Bucks County Unit of the American Cancer Society for two years, and Chairman of the Appendicitis Committee for three years. Dr. Grim is a member of the State Medical Society and the American Medical Association, and served as delegate to the Medical Society of the State of Pennsylvania for six years.

1912

ENRIQUE G. MATTIA, M.D., Villalba, Puerto Rico.

Dr. Matta has written to Dr. R. Grant Barry as follows: "Glad to have heard from you. Those few words you always write at the bottom of the letter are nice. Sounds brotherly. Like Old Jeff. Thank you.

"Here everything O.K. Now I am very busy with a heavy coffee harvest. Happy with the results of the year and healthy as ever. Remember, I am in my 75th year and still going fine."

1913

FREDERICK R. LUMMIS, 2127 Toon Rd., Houston 19, Texas. The Frederick R. Lummis Medical Foundation, a charitable corporation, whose primary aims are to promote medical research through the endowment of meritorious research program, medical education through financial support of educational institutions, and direct assistance of needy and deserving students, has been created in the City of Houston, it was announced recently. The Foundation is named for Dr. Lummis, who is a specialist in internal medicine and clinical professor emeritus of Baylor University College of Medicine.

The Foundation will be administered by a four-man Board of Trustees and the President has stated that there are tentative plans to make the first research grants in 1959.

1915

FREDERICK W. DERSHIMER, M.D., Box 366, Goshen, N. Y. is now Director of the new Orange County Medical Health Clinic as of October 20, 1958.

1919

A. L. BARBROW, M.D., 1946 Wightman St., Squirrel Hill, Pittsburgh, Pa., Pathologist at Homestead Hospital since April 1933, was recently given signal honors for his 25 years' service to the hospital. Dr. Barrow was the recipient of a watch, a gift
from the Board of Directors at the dinner in Elks Temple.

NORMAN R. CRUMRINE, M.D., Fort McIntosh Bank Bldg., Beaver, Penna.

Dr. Crumrine writes "Glad to hear from you even if it costs me. Have a boy in Freshman Class this year so may get down more often. Was there with him a couple of times, but didn't have time for any visits."

THOMAS H. COPELAND, M.D., 181 Woodrow, Bedford, Ohio.

In a recent letter to Dr. Emanuel, Dr. Copeland says "If I had known old age was this tough, I would never have let it catch up with me". However, he intends to make every effort to be in Philadelphia in June for his 40th Reunion, since he feels that seeing his classmates again would be all that he could ask.

JAMES M. EVANS, M.D., 115 E. 61st St., New York, N. Y.

Dr. Evans writes "It seems impossible that 40 years have gone by since we were all kids together at 10th and Walnut. I have been in New York with my nose to the grindstone doing ENT and since there is a lot of physical work in this specialty, I may retire one of these days."

M. A. KLINE, M.D., Dalton, Penna.

Dr. Kline writes that his son Ben, Class of 1955, is now in practice with him and is "teaching the old dog new tricks."

GEORGE A. F. LUNDGREN, M.D., Box 270, Manchester, Connecticut, writes:

"Enclosed find my check for the annual giving fund. It doesn't seem possible that it is nearly forty years since we were classmates at Jefferson Medical School, but I guess it must be true and I sincerely hope that our 40th Reunion this June will bring many of our old classmates together. I am surely looking forward to it.

Life is much easier for me now as my son George who also is a Jefferson graduate is associated with me. My responsibility at the hospital is also much less since I was automatically made "Chief Emeritus" owing to my age."

RONALD C. MOORE, M.D., 1929 Spruce Street, Philadelphia, Pennsylvania, visited Puerto Rico during January, where he met and was entertained by several Jefferson Alumni. His classmate, Dr. Vincent Font-Suarez, took Dr. Moore on an extended guided escort tour of San Juan and San Turce and then out through the countryside where they spent pleasant hours. Dr. Antonio Navas-Torres, Class of 1920, took Dr. Moore as his guest to the Rotary International Luncheon at the Caribe Hilton Hotel at which Joe E. Brown was the guest speaker.

GOMER T. WILLIAMS, M.D., Southampton, Penna.

Dr. Williams writes that he is still practicing in Southampton and is enjoying very good health. One of his greatest satisfactions is that his son, Gomer, also a Jeff alumnus, is practicing about a mile from him and he says "gradually stealing the old man's practice."

Dr. Emanuel, Class Agent would like to know what has become of the following Class of 1919 from whom he has not heard over the years:

He also wonders why he has not heard from the following in the past few years: Merle F. Bossart, Robert E. Duncan, Harry J. Friedman, Donald Gross, John P. Hunter, Charles Kaufman, Moses Levin, Norman Riddle, Burton Weil, Wm. Welsh, James Wilson, Wm. E. Wrang.

He will welcome news from all.

1921

FRANK H. KRUSEN, M.D., Mayo Clinic, Rochester, Minnesota, received a special citation from Governor Orville L. Freeman for meritorious service to the citizens of Minnesota and to the nation. The award was made at the dinner of the House of Delegates of the American Medical Association during its clinical session in Minneapolis recently.

Earlier this year, the American Medical Association conferred upon Dr. Krusen its Distinguished Service Award.

1925

MARION W. COLEMAN, M.D., 970 Reibold Bldg., Dayton, Ohio.

Dr. Coleman's classmates will be sorry to learn that he was recently in a serious automobile accident and has been incapacitated for some two and a half months.

ALF. C. JOHNSON, M.D., Country Club Addn. Great Falls, Mont.

Dr. Johnson in sending his Annual Giving Fund contribution to Dr. Dugger expressed his sincere appreciation to Dr. Dugger, Dr. Lintgen, and Dr. Haines. He said that his contribution was not a "gift as an act of charity, but the meeting of an obligation to Old Jeff."

1926

GEORGE C. GRIFFITH, M.D., 1136 West 6th Street, Los Angeles, California, was recently made a Fellow of the New York Academy of Sciences.

"Election to Fellowship in the Academy is a signal, distinguished honor, conferred upon a limited number of workers, who, in the estimation of the council, have done outstanding work toward the advancement of science," the Academy said in a statement following its annual meeting at which Dr. Griffith and sixty-four other scientists throughout the nation were chosen as Fellows.

Dr. Griffith is Professor of Medicine at the University of Southern California School of Medicine and director of cardiovascular teaching at the University.

1927

Samuel M. Dodek, M.D., 1730 Eye Street, N. W., Washington 6, D. C., Associate Clinical Professor of Obstetrics and Gynecology in the School of Medicine of George Washington University, has been appointed Chairman of the Department of Obstetrics in the Washington Hospital Center in Washington, D. C.

1929

LESTER L. BARTLETT, M.D., 1737 Holly Lane, Pittsburgh 16, Pa. writes that he has three children and one grandson, Lester L. III. He is still doing Allergy, Past President of the Pittsburgh Allergy Society, Past President and member of the Board of Regents, Pennsylvania Allergy Association. Dr. Bartlett is active in the American College of Allergists and is also active in Shrine.

ROBERT S. BAYLOR, JR., M.D., 116 W. Main St., Waynesboro, Penna.

Dr. Baylor writes that his family is growing in the grandchildren department with the total now up to nine. He is hoping for a good 30th Reunion in June.

GEORGE J. BOINES, M.D., 413 N. Broom St., Wilmington, Del. has recently been elected Vice President of the Interstate Post-
Dr. George J. Boines

Graduate School of Medicine University of Pennsylvania and lecturer in communicable diseases at St. Francis Hospital School of Nursing in Wilmington and was former Special Lecturer in the Department of Biological Sciences, University of Delaware. Dr. Boines has published over 60 medical papers on various phases of poliomyelitis, neuromuscular diseases, anxiety tension states and communicable diseases. He has also exhibited at various medical conventions throughout the country.

William A. R. Stecher, M.D., 11506 Michael St., Silver Spring, Md. writes that his son Bill is interning at Delaware Hospital in Wilmington, Delaware and there he ran into two members of the Class of 1929, Dr. Andrew M. Gehret and Dr. George J. Boines. Dr. Stecher also reports that the Jefferson Branch of the Alumni Association is doing fine.

1930

James E. Marvil, M.D., 401 South Central Avenue, Laurel, Delaware, was recently elected President-Elect of the Medical Society of Delaware.

Dr. Marvil specializes in Otolaryngology and his hobby is the collection of material for a history of sailing ships built in the Delaware area.
1934

FRANK D. CONOLLE, M.D., 76 Front Street, Binghamton, New York, writes that his article entitled, "Surgical Complications of Meckel's Diverticulitis Occurring in Adult Life," will be published in The American Journal of Gastroenterology.

JOSEPH W. COOCH, M.D., 1539—44th St., N.W., Wash. 7, D. C., writes: "During the year I have been transferred to the Army Surgeon General's Office where I am Chief of the Communicable Diseases Control Branch. Have also been elected a Fellow in the American College of Preventive Medicine."

DANIEL C. DANTINI, M.D., Broadway & Doorman, McKees Rocks, Pa.

Dr. Dantini writes that he is looking forward to the 25th Reunion of his class and hopes that there will be a large group in Philadelphia for the celebration.

EDWARD HOBERMAN, M.D., 72 East Church Street, Lock Haven, Pa.

In sending in his Annual contribution to the Annual Giving Fund to Dr. A. W. Hart, Dr. Hoberman comments as follows:

"I feel that every one of us is duly obligated to help augment the salaries of the preclinical teachers, so that Jefferson can maintain the high position that it holds among medical schools. Giving is not only a duty, but a great privilege. May I congratulate you and Art on the swell job you are doing. Keep up the good work."

STEPHEN A. JONAS, 526 College St., Nanticoke, Pa., who has been practicing medicine in the Nanticoke and Wilkes-Barre areas since 1934 was recently elected President of the Luzerne County Medical Society to succeed Dr. James W. Boyle (also a Jeff Alumnus).

Besides Luzerne County Medical Society, Dr. Jonas is also affiliated with Penna. State Medical Society and is a fellow of American College of Surgeons and International College of Surgeons. He has been active also in community and fraternal work through his membership in Nanticoke Rotary Club, Nanticoke Post American Legion and Nanticoke Aerie, Fraternal Order of Eagles. Dr. Jonas is head of the medical advisory Committee to the Red Cross blood program and was a former director of Nanticoke-Newport Chapter of American Red Cross and chairman of its fund-raising campaign.

JOHN F. KEITHAN, M.D., recently opened an office at 220 B South Allen Street, State College, Pennsylvania for practice limited to general surgery.

Dr. Keithan is a Fellow of the American College of Surgeons, and recently was elected a member of the Centre County Medical Society.

STANLEY G. MCCOOL, M.D., 828 Joan Dr., Port Hueneme, Calif.

Dr. McCool's classmates will be sorry to learn that chronic illness has rendered him professionally inactive since December 1956. He writes that his oldest son, Gaylord, is a freshman at Calif. Polytechnic College, Richard is a senior in high school, and Douglas is in 8th grade.

LAWSON E. MILLER, JR., M.D., 115 E. 67th St., New York 21, N. Y.

Dr. Miller writes "Plan to attend the 25th Reunion and am hoping to see you there. Wouldn't it be great to see everyone return?"

JOHN B. ZIELINSKI, M.D., 562 Boston Ave., Bridgeport 10, Conn. writes: "About me and my family—wonderful wife, Belle, two children, Jack age 16 at Prep and Barbara, age 11 at home.

"I have two offices for X-ray practice, one in Bridgeport, and one in Stratford. My home is in Stratford, which incidentally is now quite famous for its Shakespearean Festival. If any of the classmates are among the many visitors each summer, please let them know that our hospitality is extended and that I would love to see them."

1935

HARRY R. BRINDLE, M.D., 912 Jordan Dr., Brielle, New Jersey, has been elected Chief of Staff of Fitkin Memorial Hospital of Neptune. Dr. Brindle was appointed Associate Radiologist at Fitkin in 1941, Director of Radiology in 1950, and Assistant Chief of Staff in 1957.

CHARLES P. SNYDER, M.D., Manor, Penna. writes:

"I have just finished my year as President of the Westmoreland County Medical Society, following Cole, McSteen, and Lapinski, all Jeff men. Next year's President is Dr. Andrew Cerne, also from Jeff (Class of '48). So you see, I'm in good company."

1936

OSCAR H. COHEN, M.D., 115 Church St., Boonton, N. J. recently passed his boards in Nuclear Medicine.

Dr. Cohen is also on the staff of Bellevue Hospital in New York City as an Asst. Visiting Attending Physician and assigned to the Radioisotope Division which is run by the Radiology Therapy Dept.

GABRIELLE E. DECCO, M.D., 207 Mill Creek Dr., Youngstown 12, Ohio recently received the Fourth Annual Community Service Award of St. John's Episcopal Church for his "significant service above and beyond the call of duty to both his church and community." The Rev. Hunsdon Cary, Jr., who presented an inscribed prayer book to him noted that Dr. DeCiccoc was former President of Mahoning County Medical Society, was active in establishing the Youngstown branch of the American Academy of General Practitioners and has served St. John's Episcopal Church as a vestryman.

1938

JACOB S. WINTERN, M.D., 2408 S. 5th St., Phila. 48, Pa., was just elected a Fellow of the American College of Physicians and recently had the following papers published:

1939

PAUL A. KENNEDY, M.D., 685 Delaware Avenue, Buffalo, New York, was elected President of the Buffalo Chapter of the American College of Surgeons at a meeting held at the University of Buffalo, recently.

Dr. Kennedy was made a Diplomate in the American Board of Surgery in December, 1948.
1940
GEORGE F. LULL, M.D., Fitzsimmons Army Hospital, X-Ray Dept., Denver, Colorado.
Dr. Lull writes that he will probably retire from active service in 4 years. He hopes to be able to attend his 20th Reunion next year and points out that his father will have his 50th next June.

1941
JAMES H. LOCKWOOD, M.D., MC USN, United States Naval Hospital, Philadelphia, Pennsylvania, writes:
"I am the Chief of the Dermatology Service at the Naval Hospital in charge of a two-year residency training program. We have recently been inspected with the hope of making this a three-year program. This fall, I was appointed Associate Professor of Dermatology at Temple. I am also on the faculty at the Graduate School of Medicine, U. of P., as a guest lecturer.

"At the Convention of the American Academy of Dermatology in Chicago early this month, I participated as consultant panelist in the Clinico-Pathologic Conference. "Our third son, Mark, was born in April. 1958 has been busy."

W. C. F. SMITH, M.D., 801 Myrtle Street, Erie, Penna.
In May Dr. Smith had both success and reverses, for he bagged a 300 pound bear in Northern Ontario, but on the way home was involved in a serious automobile accident suffering a concussion, lacerations and bruises, from which he has now recovered.

JAMES R. SWAN, M.D., South Mountain, Pennsylvania, received his certificate of fellowship in the American College of Chest Physicians at their meeting in New York City recently. Dr. Swan successfully passed his examination in June, 1958.

1942
ANTHONY G. ZALE, M.D., 1507 N. Main Ave., Scranton, Pa., has completed a three-year Orthopedic Residency at the Guthrie Clinic, Robert Packer Hospital, in Sayre, Pa. Dr. Zale is on the staffs of Scranton State, West Side, and St. Mary's Hospitals.

1943
PHILIP G. DERICKSON, M.D., 744 N. Country Club Road, Tucson, Arizona.
Dr. Derickson is presently President of the Arizona Chapter of the Western Orthopedic Association and Chief of Staff at Pima County Hospital. Both Dr. and Mrs. Derickson, with a high school group with whom they work, were snow bound for 24 hours at an isolated camp in the mountains when a sudden storm hit the area and Dr. Derickson had to administer first aid by flash light to one of the boys. All safely got to town where they found 'snow-covered cactus, droopy palms, frozen-back hibiscus and bougainvillea, a goggle-eyed Chamber of Commerce.'

LOUIS G. KAREHA, M.D., 319 Abington Rd., Clarks Green, Pa.
Dr. Kareha writes that he is a member of the Flying Physicians Association and hopes that by this time next year he will have his "blue ticket". He has just purchased a new Comanche 180 plane. Dr. Callery, to whom he writes, is also a member of the Flying Physicians Association.

S-1944
DANIEL R. SHIELDS, JR., M.D., 19 Beauvoir Avenue, Summit, New Jersey, has recently been appointed to the medical service staff of CIBA Pharmaceutical Products, Inc.

1945
RAYMOND C. GRANDON, M.D., 131 State Street, Harrisburg, Pennsylvania, recently was elected President of the Tri County Heart Association for 1958-59. Some of Dr. Grandon's other recent activities include being Vice-Chairman of the Council on Scientific Advancement of the Medical Society of the State of Pennsylvania, and President-Elect of the Harrisburg Academy of Medicine.

BENSON KRIEGER, M.D., 4115 Gypsy Lane, Philadelphia, Pennsylvania, and his brother Arthur, Class of 1936, were tendered a testimonial dinner by relatives and friends last spring for all their years of devoted service.

Dr. Krieger has two children, Myles and Anna.
WILLIAM T. LINEBERRY, JR., M.D., Comdr. USN, United States Naval Hospital, Portsmouth, Virginia, writes:

"I am still here at the U. S. Naval Hospital, Portsmouth, Virginia, where I have been in charge of the dependents surgical service for the past fifteen months. Incidentally, I finally got my American Boards of Surgery early this year which is a load off my mind.

Our daughter, Libby, is eighteen months old and growing up fast."

ROBERT R. MCDONNELL, M.D., 978 Ridge Road, Hamden, Connecticut, is in his seventh year of private practice as a Neurosurgeon and is a member of the Harvey Cushing Society, and a Diplomate in the American Board of Neurological Surgeons.

Dr. McDonnell has six daughters, ranging in age from one to twelve.

F. ALBERT OLASH, M.D., Heyborn Building, Louisville, Kentucky, is practicing Internal Medicine in Louisville and teaching Cardiology at the University Medical School.

1947

JOSEPH N. ACETO, M.D., 11919 East Boulevard, Cleveland, Ohio, is finishing a residency in Radiology at the Cleveland Clinic in Ohio.

EDWIN BOYLE, JR., M.D., Medical College of South Carolina, Charleston, S. C., is Director of Lipid Metabolism Laboratory at the Medical College of South Carolina.

J. MACKIE CORSON, M.D., Peter Bent Brigham Hospital, Boston 15, Mass. is a member of the Pathology Staff at the Peter Bent Brigham Hospital.

JOHN J. DOWLING, M.D., 248 South 21st St., Phila. 3, Pa. is now a Diplomate of the American Board of Orthopedic Surgery.

DAVID H. HAUSMAN, M.D., 2176 E. York Street, Philadelphia, Pennsylvania, is presently working as a Pathologist at Pennsylvania Hospital in Philadelphia.

JOHN R. HELFF, M.D., Middle Brook Rd., Bound Brook, New Jersey and his wife announce the birth of a son, Eric Landers on Thursday, January 29th, 1959.

SIDNEY S. LERNER, M.D., 1101 Stratford Ave., Philadelphia 26, Pa. and his wife recently announced the birth of their fourth child, a son, Harry.

JAMES THOMAS HELSPER, M.D., is now associated with the Pasadena Tumor Institute at 635 East Union St., Pasadena, Calif. Dr. Helsper is a former Surgical Fellow of the Memorial Center for Cancer & Allied Diseases in New York.

HERBERT KRAMER, M.D., 4625 Larchwood St., Phila. 43, Pa. is now a Diplomate of the American Board of Internal Medicine.

LAURANCE A. MOSIER, M.D., 10092 Chapman Ave., Garden Grove, Calif., is now a member of the American College of Surgeons.

1948

JOHN E. HEALEY, JR., M.D., U. of Texas, M. D. Anderson Hospital, Texas Medical Center, Houston 25, Texas has recently accepted a position as Head of the Section of Experimental Surgery at the University of Texas M. D. Anderson Hospital.

WILLIAM E. PETERSON, M.D., 5818 Edgepark Rd., Baltimore 14, Md. writes that since Graduation in 1948 he interned and did general practice in Wilkes-Barre until 1953, served with the U. S. Army in Korea and Japan 1953 to 1955, was awarded the Bronze Star (Korea), took his residency in Radiology at Johns Hopkins Hospital 1955 through 1958 and was senior resident on the service and NIH cancer fellow his last year of training. Dr. Peterson was certified by the American Board of Radiology in Radiology and Nuclear Medicine in May 1958. He is at present in private practice with Dr. J. Howard Franz and is Radiologist to the Maryland General Hospital and the Doctor's Hospital, both in Baltimore, and is Instructor in Radiology at the Johns Hopkins Hospital and Medical School. Since Feb. 4, 1956 he has been married to the former Marian S. Beach of Kingston, Pa., with no children as yet.

1949

DAVID O. BOOHER, M.D., 7334 Lem Turner Road, Jacksonville 8, Florida, writes that he has finished his surgical residency and has opened his office for private practice.

PAUL HARTSTEIN, M.D., 17802 S. Clark Ave., Bellflower, Cal. writes that he and his wife are now the proud parents of four children.

MATTHEW E. JOHNSON, M.D., KENYA (c/o IPM, Private Bag, Thika, Kenya Colony, East Africa).

Dr. Johnson and his family are now in Kenya, where he is serving as a medical missionary.

JOHN E. MILLS, M.D., 7847 E. Florence Ave., Downey, Calif. writes "G. P. is very nice in this town of 100,000 people. There is getting to be quite a collection of us here in South California (Jeff alumni). Say hello to Gene Feldman and all others around Philly for me. The temperature is 85° today (December 3rd). I have the top down. If you get near L. A. give me a call. Will try to come to the June Reunion."

HENRY M. PERRY, M.D., Robert Packer Hospital, Sayre, Pa. writes that he is still at the Guthrie Clinic of the Robert Packer Hospital doing Gastroenterology. Dr. Perry is now the proud father of two daughters, Virginia Diane, born October 12, 1957 and Jacqueline Anne, born Sept. 21, 1958.

BURGESS A. SMITH, M.D., 601 13th Street, Huntington, Pennsylvania, has just recently gone into an association with Dr. Frederick Steele, Class of 1934, and Dr. Fred Hutchinson in the practice of general surgery at the J. C. Blair Memorial Hospital, Huntington, Pennsylvania. Offices are located at 803 Washington Street, Huntington.

JUAN E. VEVE, M.D., P. O. Box 373, Fajardo, P. R. writes that he hopes to attend the Tenth Reunion of the Class in June.

GEORGE A. WINCH, M.D., 384 Post St., San Francisco 8, Cal. writes that Dr. and Mrs. George Farrell with three of their four children visited them in the fall. The Farrells are living in La Jolla, Calif.

1950

WILBUR J. HARLEY, M.D., 823 Mountain Blvd., Watchung, New Jersey (Via Plainfield) has recently been appointed Medical Officer of the New York Telephone Co. He is responsible for all medical activities in the Company's Manhattan-Bronx-Westchester areas.

Dr. Harley recently completed a three year Atomic Energy Fellowship in industrial medicine at Kettering Laboratory, University of Cincinnati College of Medicine, and during this period was appointed to the Ohio Governor's Advisory Council on Atomic Energy.
1952

HERBERT A. SALTMAN, M.D., 2207 Lafayette Street, Durham, North Carolina.

By order of the Secretary of the U. S. Air Force, Dr. Saltzman was awarded the U. S. Air Force Commendation Medal "for superior ability and professional achievement."

Dr. Saltzman was commissioned a Captain in the United States Air Force, Medical Corps, in July 1955 and was assigned to the Sampson Air Force Base, Geneva, New York. There he attracted the attention of Colonel Robert Stonehill who was then organizing the pulmonary physiology laboratory of the Air Force. After a course at Harvard, he became associated with Colonel Stonehill in pulmonary physiology research. In April 1956, the laboratory was transferred to the Lackland Air Force Base, San Antonio, Texas. Here, clinical and teaching assignments were added. Dr. Saltzman remained in the Air Force an extra year serving as Chief Resident Physician of the Lackland Air Base Hospital from July 1957 to the end of June 1958. Dr. Saltzman is now a member of the Faculty of Duke University School of Medicine. He heads a service of pulmonary diseases and is director of cancer research.

After graduation from Jefferson in 1952, Dr. Saltzman interned at Jefferson. On July 1, 1953, he was appointed a Fellow of the National Heart Institute and studied pediatric cardiology under Doctors Zvi Harris and Rachel Ash at the Children's, University and Philadelphia General Hospitals. He continued a second year as a Fellow in Cardiology at the Philadelphia General Hospital under Dr. Samuel Bellet until joining the Air Force in July, 1955.

Dr. Saltzman is married to the former Charlotte Wolf of Melrose Park, Pennsylvania. They have a daughter, Ann Louise, age eighteen months.

1953

HAMPTON P. CORSON, M.D., 63 Drexelbrook Drive, Drexel Hill, Pennsylvania, now a resident in Obstetrics and Gynecology at the University of Pennsylvania Hospital, plans to go to Johnstown, Pennsylvania to practice Obstetrics and Gynecology with William J. Hargreaves, M.D., Class of 1946.

DR. WALTER J. LARKIN, JR., Medical Arts Bldg., Scranton, Penna., has recently been notified of his acceptance in the American College of Obstetrics and Gynecology. Dr. Larkin is presently a member of the staffs of the Mercy, St. Mary's, West Side, and State Hospitals in his area.

1954

MILTON IVKER, M.D., Bronx Municipal Hospital, Pelham Parkway and Eastchester Road, Bronx 6, N. Y.

Dr. Ivker has been approved as Chief Resident in Surgery on the head and neck service at the Bronx Municipal Hospital Clinic for the year, starting July, 1959.

GERALD TANNENBAUM, M.D., 50 E. 78th St., New York, N. Y.

Dr. Tannenbaum writes that he is finally and officially in private practice.

1955

DOMENIC F. COLETTA, M.D., 1002 Edgemore Road, Philadelphia, Penna., writes:

"I am the proud father of five children—two girls and three boys, and a third year resident in Pathology at Philadelphia Naval Hospital."

ROBERT D. EPPLEY, M.D., 3 Rose Avenue, Watertown, Massachusetts, writes:

"I am at present completing my third and last year in Psychiatry in the Boston V. A. program."

PHILIP H. GEISLER, M.D., 5808 Beech Ave., Bethesda 14, Md. writes: "Following graduation, I served a rotating internship at the U. S. Public Health Service Hospital, Staten Island, N. Y. I was extremely fortunate in receiving an appointment as Resident in Pathology at the Clinical Center of the National Institutes of Health, and have completed two years in Pathologic Anatomy, under Dr. Harold Stewart, a distinguished Jefferson alumnus. Am now in the first of two years in the Clinical Pathology Department, after which I expect to take the Board examinations in both disciplines."

Bill Sunderman is across the street at the Naval Hospital. Ted Duncan is a Resident in Internal Medicine at Walter Reed Army Hospital, and I usually see Bill Weintraub at the Washington Area Alumni Banquets, so the Class of '55 is pretty well represented hereabouts.

(left) DR. HERBERT A. SALTMAN
Joseph A. Heaney, Jr., M.D., 1032 S. 52nd Street, Philadelphia 43, Pennsylvania, returned from Germany after spending two years there in the service. Dr. Heaney now has three children and is presently serving a third year residency in Psychiatry at the Eastern Pennsylvania Psychiatric Institute in Philadelphia.

James A. Murray, M.D., Fostoria, Ohio, the youngest and newest of Fostoria's doctors, was recently elected Secretary-Treasurer of the Fostoria City Hospital after interning at Harrisburg Polyclinic in 1956 and serving as doctor on a Navy submarine for two years. Dr. Murray and his wife, Janet, moved to Fostoria in September 1958 when he entered his practice.

1956

Capt. Edward W. Luczynski, Jr., M.D., was recently assigned as Assistant Chief of the 33 Station Hospital's Obstetrics and Gynecological Section in Bremerhaven, Germany. Dr. Luczynski was formerly assigned to Fort Sam Houston, Texas before his October arrival in Europe.

1958

Charles Maurice Kipp, M.D., Presbyterian Hospital, 51 North 39th Street, Philadelphia 4, Pennsylvania, will be an Anesthesiology resident at Presbyterian Hospital for the next two years.

Donald E. Willard, Jr., M.D., New York Hospital 525 E. 68th Street, New York, New York, was recently presented with the second Edward Bell Krumbhaar Award for his essay, "W. W. Keen's 'First Modern Brain Case.'" judged the best of six entries for 1958. This award was sponsored by the Osler Medical History Club of Jefferson Medical College.

Drs. Willard is presently serving as a surgical intern at The New York Hospital.

**ENGAGEMENTS AND WEDDINGS**

1954

Dr. Barry R. Halpern's engagement to Miss Barbara Mandell of Elkins Park, Pennsylvania, was recently announced.

Dr. Halpern is taking a residency at Albert Einstein Medical Center in General Surgery.

A spring wedding is planned.

1956

Dr. John J. Gostigian's engagement to Miss Pauline E. Sadowski of New York City and Wilmington, was recently announced.

Miss Sadowski is a graduate of Traphagen School of Fashion Design and is presently a children's sportswear designer with the Randy Company in New York.

Dr. Gostigian is a resident physician in surgery at the Veterans Administration Hospital in Philadelphia.

1957

The wedding of Dr. W. Norwood Lowry, Jr. and Miss Shirley Ann Bechtel took place at St. Daniel's Lutheran Church, Robesonia, Pennsylvania, on December 11, 1958.

Mrs. Lowry is a graduate of Robesonia High School and the Reading Hospital School of Nursing and is now on the nursing staff at the Reading Hospital.

Dr. Lowry is a resident in orthopedic surgery at the Reading Hospital.

William P. Mackrell, M.D., Scranton State Hosp., Scranton 3, Pa., was married on November 22, 1958 to Peggy Loughney.

Capt. Nicholas Spock, M.D., #A03078190, Box 408, 7206th Dispensary, USAFE, APO 223, New York, N. Y. was married to Miss Leocardia H. Mesch, R.N. on July 26, 1958.

Dr. William F. Wolfe of Harrisburg, Pennsylvania and Miss Mary Lou Blessing were married on May 24, 1958.

Dr. Wolfe is presently serving his residency in general surgery at the Harrisburg Hospital.

**BIRTHS**

1951

Fred W. Wachtel, M.D., 32 Johnson Ave., Newark, N. J. and his wife announce the birth of a son, Andrew Baruch on Tuesday, February 10, 1959.

1954

Dr. and Mrs. Jack William Fink, 5719 Wister Street, Philadelphia, announce the birth of twins, David Mitchell and Julia Ann, born December 18, 1958 at Jefferson Hospital.

Dr. Fink is completing his residency at Jefferson in Obstetrics and Gynecology.

1957

Michael S. Cahn, M.D., 4260 Chestnut St., Phila. 4, Pa. and his wife announce the birth of a daughter, Rachelle Lynne, on Feb. 13, 1958.

Gerry T. Cousounis, M.D., Memorial Hospital, Phila. 28, Pa., and wife announce the birth of a daughter, Helen Kay, born on August 6, 1958.
ARTHUR N. DiNICOLA, M.D., Army Chemical Center, Edgewood, Md., and his wife Betty announce the birth of a daughter, Maribeth.

STEPHEN J. HERCEG, M.D., S. A. Surgery (R), U.S.P.H.S. Hospital, Staten Island 4, N. Y. and wife announce the birth of a daughter, Kathy Ann, born on August 7, 1958.

Dr. and Mrs. Joseph B. Hess, Lancaster, Pennsylvania, announce the birth of a son, Joe, born on July 17, 1958.

JOHN F. KENNARD, M.D., 212 Ogden Ave., Clearfield, Pa. and wife announce the birth of their second son, Paul David, born on June 29, 1958.

Dr. and Mrs. Bernard Millrood, 1635 Pennington Road, Philadelphia, are the proud parents of twin boys, Benjamin Ralph and Gary Steven, born August 28, 1958.

RUDOLPH W. PAVICH, M.D., 208 Norwood Apts., Johnstown, Pa. and his wife announce the birth of a daughter, Heide Lou.

Dr. and Mrs. Clifford T. Rotz, Jr., announce the birth of a daughter, Cindy Ann, born in June of 1958.

WILLIAM A. RUDDER, M.D., 513 Shortridge Dr., Wynnewood, Pa. and his wife, Pat, announce the birth of a son, Michael Joseph, born on October 24, 1958.

Dr. and Mrs. NORMAN SHERWOOD, 254-31 — 75th Avenue, Glen Oaks, New York, announce the birth of a daughter, Mara Dee, born in November, 1958.

Dr. and Mrs. RICHARD N. SMITH, 2058-A South John Russell Circle, Elkins Park, Pennsylvania, announce the birth of a daughter, Margo, born December 20, 1958.

Dr. and Mrs. JAMES R. STULL, 85 Sherman Street, Hartford 5, Connecticut, announce the birth of a daughter, Mary Carol.

Dr. and Mrs. RONALD E. TRAUM, 395 E. Upsal Street, Philadelphia 19, Pennsylvania, announce the birth of a son, Stephen Mark, born December 27, 1958.

1958

JOHN D. LANE, M.D., Germantown Dispensary & Hosp., E. Penn & Wister Sts., Phila. 44, Pa. and his wife announce the birth of a daughter.

GINO MORI, M.D., Scranton State Hospital, 201 Mulberry St., Scranton, Pa. and his wife announce the birth of a daughter, Victoria Ann, on November 20, 1958.

Cocktail Party for Jefferson Alumni on Wednesday, June 10th, During A.M.A. Convention in Atlantic City

All Jefferson Alumni, their families, and friends are invited to attend a cocktail party on Wednesday, June 10, during the Convention of the American Medical Association in Atlantic City.

The cocktail party will be held in the new patio of the Traymore Hotel, beginning at 6:30 p.m., which will allow guests to go on to other functions to which they may be committed and yet will be a fine opportunity to meet and visit in attractive surroundings. Hors d'oeuvres will be served and tickets for the party will be available either at the Alumni office or the Jefferson booth at the Convention in Atlantic City.

Anyone wishing further information should contact either the Alumni office or Dr. Aldrich C. Crowe, 1200 Ocean Avenue, Ocean City, New Jersey.

SQUIBB CENTENNIAL LECTURE GIVEN AT JEFFERSON

Dr. Edwin Bennett Astwood, professor of medicine at Tufts Medical College, delivered the Squibb Centennial Lecture Monday (March 2), Tuesday and Wednesday at Jefferson Medical College. These lectures, featuring leading American and foreign specialists, memorialize Dr. E. R. Squibb, a pioneer campaigner for pure drug laws. He was graduated from Jefferson in 1845.

Dr. Astwood's schedule included an Endocrinology Seminar at 12:30 p.m. on Monday, and a lecture to the junior class in the Amphitheater at 4:30 on the same day. On Tuesday and Wednesday there were rounds of the medical wards and staff conferences.

A widely-known endocrinologist, Dr. Astwood lectured on "Management of Thyroid Disease." The first recipient of the Endocrine Society's Ciba Award in 1944, he also holds the John Phillips Memorial Award, the Borden Award and the Lasker Award. He took his medical degree at McGill University and his Ph.D. in biology at Harvard.
REUNION REMINDERS

50th REUNION — Class of 1909

ALUMNI PLACEMENT BUREAU

Positions Wanted

WANTED: Young doctor completing residency July 1, 1959, interested in getting established in General Practice.

WANTED: Opportunity to practice internal medicine in Philadelphia suburb. Completing residency training at University Hospital in Ann Arbor in June, 1960.

WANTED: Interested in practice, general or internal medicine in Delaware or Montgomery County. Will consider practice only, or buy home-office property.

Positions Available

WANTED: The community of Crossville, Illinois is very interested in obtaining a competent young doctor.

The Rotary Club and other citizens will make every effort in assisting in establishing a practice as to office facilities, equipment, and living quarters.

WANTED: Great opportunity for either a young surgeon who has completed his surgical residency, or an older general surgeon nearing retirement age, for 25-bed hospital at Page, Arizona. Surgery will consist partly of industrial accident cases and usual general surgery required in servicing the town of Page, which is growing around the new Hydro-Electric Plant being built at the site. Page has 6,000 men, women and children and is expected to continue to grow.
