DR. FETTER DELIVERS
MAIN ADDRESS AT OPENING
OF SESSION CEREMONIES

Sons of 19 Alumni Among Freshman Class

The 137th Annual Session of The Jefferson Medical College was formally opened by ceremonies in McClellan Hall on Monday, September 12, 1960.

President Bodine greeted the Class of 1964 and the other guests, and introduced the members of the Board of Trustees, Administration and Faculty seated on the stage.

"As the newest members of our far-flung Jefferson Family," Mr. Bodine said, "it will interest you gentlemen of the Freshman Class to know that you number 176; that you represent the top 13% of the 1,333 applicants carefully screened by our Committee on Admissions that had the most difficult assignment of deciding upon which one of every eight students who applied would be admitted; that you have come from 21 states, Hong Kong and Canada; and that you include amongst your group representatives of 71 Colleges.

"The fact that 19 of you are sons of former Jefferson Graduates is striking proof of the pride that physicians have in their own profession, and the loyalty of Jeffersonians to their old School."

Mr. Bodine pointed out that because of the support and generous endowments given down through the years by its many benefactors, Jefferson is, today, able to provide its students with the finest medical education for a tuition charge of $900 annually—as compared to our actual costs per student of $5,559.

"Thus," he continued, "you will have the friendship and the extensive professional knowledge of one of the most outstanding and dedicated Medical College Faculties in this country, with the facilities and equipment necessary to complete your medical training during the next four years.

"Our primary mission is to do everything we possibly can to assist you, but, to a very large degree, it is up to you to get the most out of your time here at Jefferson, so that upon graduating, you will be equipped to the maximum of your abilities to carry on the great profession of medicine which you have chosen as your life work."

"And so," he concluded, "in what has been termed 'the golden age of medicine,' let us all together—to the glory of Jefferson—employ wisdom in moving ahead to longer life, less disease, better international understanding, and the kind of superlative quality of health for all men for which mankind has worked so long."

Mr. Bodine then introduced Dean Sodeman, who greeted the new Class as "fellow students of medicine" and expressed the hope that each member of this carefully chosen group will remain at Jefferson for the four years and, in 1964, become a 'Jefferson M.D.'

Dr. Sodeman said that that morning he had talked with the Freshmen and had pointed out the great difference between professional school and college activity.

"We deal in adult education," Dr. Sodeman said, "and we treat our students as adults. After all, 40% of our students are married and almost all are 21 or over and will help in the choice of a President in the coming elections. As adults, we express our approval of them and, at times, our disappointments in them. If they need help or advice, the door of each and every one of us is open to them and we hope they will ask for and accept our advice when it is necessary.

"The first days and weeks in medical school are often disappointing. Class hours are long; the student just having finished advanced courses in his major in college is suddenly plunged into fundamentals again; again he is a Freshman and not a lordly Senior. Surroundings are changed and, in addition, he's on his own. This is a trying period and sympathy and help from home are often most important. We hope you parents and wives will help us with your boy in this beginning period."

Dr. Sodeman then announced faculty changes which have taken place during the past year. (A list of these appears on pages 7, 8, 9 and 10 of this Issue.)

Dr. Peter A. Herbut, Professor of Pathology and Head of the Department, then briefly sketched highlights in the life and career of the evening's main speaker, Dr.
Theodore R. Fetter.

"Dr. Fetter was born in Schaeferstown, Pennsylvania," Dr. Herbut said, "and received his primary and secondary school education at Schaeferstown, his high school education at Lebanon, his college education at Lafayette College (1919-1922), and his medical education at Jefferson (1922-1926). He was resident-intern at Jefferson from 1926-1928. Following this, he became Special Assistant to Professor Hiram Rittenhouse Loux (until his death in 1930) and to Thomas Cook Stellwagen (until his death in 1935), both of whom were consecutively Heads of the Department of Urology. When Professor David M. Davis retired in 1951, Dr. Fetter became Professor of Urology and Head of the Department and, in 1959, he became Jefferson's first Nathan Lewis Hatfield Professor of Urology.

"Dr. Fetter is married to the former Julia Nowell Winstead and has four sons and one daughter."

Dr. Herbut said that Dr. Fetter is certified by the American Board of Urology, is a member of many professional organizations and has served on the Board of Directors of the Philadelphia County Medical Society, the Associated Hospital Service of Philadelphia, the Disaster Medical Service Committee of the State of Pennsylvania, and the Executive and Membership Committee of the American Urological Association.

Dr. Fetter has served as Secretary-Treasurer, Vice President and President of the Philadelphia Urological Society, the MidAtlantic Section of the American Urological Association and the Jefferson Alumni Association. He has also been Vice President and President of the Medical Club of Philadelphia, Philadelphia County Medical Society, Pennsylvania Medical Society, Jefferson Society for Clinical Investigation and the Medical Staff of the Jefferson Medical College Hospital.

Dr. Herbut said that Dr. Fetter serves as Attending Urologist or Consultant at Jefferson Medical College Hospital, Wills Eye Hospital, Grandview Hospital (Sellersville) Delaware County Hospital, Philadelphia General Hospital, Saint Joseph's Hospital and Veterans Hospital in Philadelphia. In addition, he has contributed 73 papers to the Medical Literature.

"With his whole life being devoted to the Jefferson Medical College and Hospital," Dr. Herbut concluded, "and with the many honorary positions bestowed upon him, I believe we can most appropriately and affectionately name him 'Mr. Jefferson' and 'Mr. President'".

Dr. Fetter explained that because the problem of
medical education becomes constantly more complicated, he had selected as his subject "The Depth of Responsibility," all of us being involved in the medical education of the physician of the future.

"This is a real challenge," Dr. Fetter said, "one which presents tremendous opportunities for fruitful thinking and accomplishment. One hears and reads about the fabulous sixties, the new frontiers, the present challenges in the world, advancement in technology, nuclear science, electronics, space science and the astronaut, and the medical care for the elderly and aged. Just what are we doing in medicine? It is necessary from time to time to re-appraise the road you are about to travel. Medical progress in the past twenty years has been simply phenomenal. Statistics are generally boresome and promptly forgotten, but one thing is certain, that the advancements made in medicine and surgery in saving, maintaining and prolonging human life have wrought a vast change in nationwide thinking about the social and economic welfare of the people. This obviously is true as noted by the recent efforts of Congress to provide medical care for the elderly person. You must therefore decide which road you wish to follow; one of inexorable compulsion, rigidity, stultifying uniformity and the loss of individual thinking and resourcefulness. The other pathway is one of freedom of thinking, individual dignity, direct responsibility to your patients and dedication to your work. This free spirit has produced the tremendous advances and progress in medical science and the practice of medicine. The medical profession must continue to give the best possible health care to the people and this emphatically includes the older citizen."

He stressed the need for sound pre-medical training, both in basic sciences and the humanities as well and pointed out in this age when distant peoples and countries have become our neighbors, it is most helpful to have knowledge of more than one language.

"It is essential," Dr. Fetter said, "that this problem of premedical education be reviewed, not necessarily to lengthen the time of preparation for medical school but to guide the premedical students into the proper academic atmosphere, and emphasize disciplines which will be of significant contribution to the students' educational pattern for medicine."

He spoke of the need to reduce the time spent in preparation for degrees, since specialization and mounting emphasis on post-graduate work require men and women entering professions to devote nearly half of their pro-
ductive lives to academic instruction before they can begin to support themselves or contribute their knowledge to public welfare.

"This," Dr. Fetter stated, "is not only an intolerable social and economic waste; it also deters many of our ablest students from applying their talents to essential fields.

"The admission committees," he continued, "are considerably concerned in regard to the quantity and the quality of the applicants today. The choice of medicine as a career by the college student is evidently influenced by a number of factors, namely—the cost of medical education, the excessive length of time of medical training and the fact that medicine is a difficult subject demanding continuous intensified effort over a long period of time."

He pointed out, however, that there is tangible evidence that organized medicine is concerned with the cost of medical education, since state and county medical societies are sponsoring student loan funds and practicing physicians throughout the nation are contributing to alumni funds and to the American Medical Education Fund.

"Since the public expects competent medical service," he continued, "it is their concern as well as ours to see that medical education obtains the necessary financial aid. The future medical needs of this country in order to keep up with our population explosion suggest these matters must be discussed with all public spirited citizens. Organized medicine, physicians and medical schools have no monopoly in considering the planning for future human resources in the field of medicine. Physicians love to run their own affairs and are very sensitive to criticism. The socio-economic changes during the past twenty years should be sufficient evidence that the future of the medical schools is entirely dependent on the general educational pattern supported by the public, adequately staffed and financed with private, public and governmental funds."

Dr. Fetter then discussed the decreasing numbers of applicants to medical schools during the past three years and attributed this in part to the economic void left by the retirement of the G.I. Bill which may be to some extent filled by the National Defense Educational Act of 1958, though moneys available under this Act are in the form of loans and require matching funds on the part of the medical college.
"A reduced number of applicants is not serious," Dr. Fetter said, "if, and only if, the quality and variety of the talent in the accepted applicant group is maintained and improved upon.

"Various methods of recruitment to maintain applicant activity have been suggested. Medicine remains a vocation for persons possessing an intense desire to relieve suffering and prolong life. Over the years the physician has had great personal prestige and considerable economic security. Practicing physicians enjoy a remarkable degree of freedom and independence in making their own decisions which virtually guarantees that he will remain the arbiter of his own life. Expanding research opportunities in medicine have recently widened the field into a challenging career for the student interested in academic advancement in the clinical disciplines and teaching. Opportunities exist equally for idealistic young men who express a keen desire to serve their fellowman in the practice of medicine."

Dr. Fetter stated that all of the members of the new Class have been carefully scrutinized by our Admissions Committee and he admonished these students to justify the Committee's decision and relieve its members of the tremendous responsibility assigned to them by the Faculty.

"The future of medical practice continues to lie in the recruitment of those intellectually able students whose principal motivation lies in the desire to render service to humanity. From this limited number we must recruit and train the future medical teacher. It is most necessary to nurture any spark of intense curiosity on the part of the student. It is among this limited group that research in medicine and its ancillary branches will continue."

Dr. Fetter made a plea for the establishment of and maintenance of courtesy and understanding among physicians. He stated that they "must have the best relationships among themselves in the medical school, the hospitals and on the outside."

He discussed briefly the public's concern, which is not unfounded, regarding the number of physicians who will be available to serve the expanding population. He said that this problem is complex, since recommending more medical schools is not the entire answer, for they would have to be staffed; nor is the idea of training a man in medical science to perform certain limited medical services a sound idea.

"The real need," Dr. Fetter said, "is to increase the number of practicing physicians thoroughly prepared to practice good medicine and make available to these physicians postgraduate courses to continue their education during their period of active practice.

"In conclusion, I hope that today's medical student, the doctor of tomorrow, will be aware of the constantly changing scene in medicine. I hope that he will make every effort to develop a real strength and vitality in his responsibilities. The problem is immense, complicated by world events, social and economic changes and trends in political philosophy. Complacency and indifference have no place in our society. The constant quest for security frequently leads to intellectual laziness and finally failure. The import of these social and economic trends in medical schools and medical education, hospitals, public health, and private practice of medicine will surely mold the physician of tomorrow. We must be fully aware of our moral responsibilities to our patients. We must be equipped to meet this changing scene in medicine."
Promotions, New Appointments, Resignations and Deaths

Promotions

Simon Kramer, M.B., from Clinical Professor to Professor of Radiology (with no seat on the Executive Faculty).

Karl E. Paschkis, M.D., from Associate Professor to Professor of Physiology (dual appointment) (with no seat on the Executive Faculty).

Abraham E. Rakoff, M.D., from Clinical Professor to Professor of Obstetrics and Gynecology (with no seat on the Executive Faculty).

Nathan S. Schlezinger, M.D., from Clinical Professor of Neurology to Professor of Clinical Neurology (with no seat on the Executive Faculty).

Karl E. Paschkis, M.D., from Associate Professor to Clinical Professor of Medicine.

Arthur G. Pratt, M.D., from Associate Professor to Clinical Professor of Dermatology.

H. Edward Yaskin, M.D., from Associate Professor to Clinical Professor of Neurology.

Leon L. Berns, M.D., from Assistant Professor of Anatomy to Associate Professor of Clinical Anatomy.

Warren R. Lang, M.D., from Assistant Professor to Associate Professor of Obstetrics and Gynecology.

Theodore T. Tsaltas, M.D., from Assistant Professor to Associate Professor of Pathology.

June N. Barker, Ph.D., from Instructor to Assistant Professor of Physiology.

Marvin J. Bleiberg, Ph.D., from Instructor to Assistant Professor of Pharmacology.

John Salom Carson, M.D., from Associate in Anesthesiology to Assistant Professor of Clinical Anesthesiology.

Domenic A. DeBias, Ph.D., from Instructor to Assistant Professor of Physiology.

Louis G. Feo, M.D., from Research Associate in Clinical Urology to Associate Professor of Clinical Urology.

Abraham Freedman, M.D., from Associate in Psychiatry to Assistant Professor in Clinical Psychiatry.

Joseph Medoff, M.D., from Associate in Clinical Medicine to Assistant Professor of Clinical Medicine.

Albert Edward O'Hara, M.D., from Associate in Radiology to Assistant Professor of Radiology.

Walter F. Ballinger, II, M.D., from Instructor to Associate in Surgery.

Jules H. Bogaev, M.D., from Instructor to Associate in Urology.

Gerald E. Gallery, M.D., from Instructor to Associate in Clinical Orthopedic Surgery.

August P. Cieill, M.D., from Assistant to Associate in Clinical Otorhinolaryngology (Otolaryngology).

Isadore S. Cohen, M.D., from Instructor in Medicine to Associate in Clinical Medicine (Barton Memorial Hospital).

Joseph Kirby Corson, M.D., from Assistant to Associate in Dermatology.

John J. Dowling, M.D., from Instructor to Associate in Clinical Orthopedic Surgery.

George R. Fisher, M.D., from Instructor to Associate in Clinical Medicine.

John J. Gartland, M.D., from Instructor to Associate in Orthopedic Surgery.

Franz Goldstein, M.D., from Instructor to Associate in Medicine.

Turgut Nazif Hamdi, M.D., from Instructor to Associate in Clinical Ophthalmology.

Solomon Keesal, M.D., from Assistant in Urology to Associate in Clinical Urology.

Cyril M. Luce, M.D., from Instructor to Associate in Clinical Ophthalmology.

Arthur S. McCallum, M.D., from Instructor to Associate in Clinical Otorhinolaryngology.

John E. Mock, M.D., from Instructor to Associate in Psychiatry.

Paul K. Perlstein, M.D., from Instructor to Associate in Medicine.

Gerard Michael Shannon, M.D., from Instructor in Ophthalmology to Associate in Clinical Ophthalmology.

Norman G. Sloane, M.D., from Instructor to Associate in Clinical Medicine.

Arthur J. Weiss, M.D., from Instructor to Associate in Medicine.

Jose H. Amadeo, M.D., from Assistant to Instructor in Surgery.

Rudolph C. Camishion, M.D., from Assistant to Instructor in Surgery.

Harold Lewis Colburn, M.D., from Assistant to Instructor in Dermatology.
Robert E. Colcher, M.D., from Assistant to Instructor in Surgery.
Jerome M. Cotler, M.D., from Assistant to Instructor in Orthopedic Surgery.
Farid Iskander Haourani, M.D., from Assistant to Instructor in Medicine.
William E. Kelly, M.D., from Assistant to Instructor in Clinical Neurology.
Herbert Kramer, M.D., from Assistant to Instructor in Medicine.
Richard Victor Kubik, M.D., from Assistant to Instructor in Orthopedic Surgery.
David J. LaFia, M.D., from Assistant to Instructor in Neurosurgery (Department of Surgery).
Herbert Lipshutz, M.D., from Assistant to Instructor in Surgery.
Harold I. Mark, M.D., from Assistant to Instructor in Medicine.
Giancarlo Rabotti, M.D., from Visiting Research Assistant to Instructor in Research Hematology (Department of Medicine).
Peter W. Romanow, M.D., from Assistant to Instructor in Orthopedic Surgery.
Irwin L. Stoloff, M.D., from Assistant to Instructor in Medicine.
Harry Subin, M.D., from Assistant to Instructor in Anatomy.
John J. Walsh, M.D., from Assistant to Instructor in Medicine.
Werner Welz, M.D., from Assistant to Instructor in Psychiatry.
Herbert Arthur Yantes, M.D., from Assistant to Instructor in Medicine.

New Appointments

Louis A. Kazal, Ph.D., Associate Professor of Research Hematology (Department of Medicine).
Daniel L. Turner, Ph.D., Associate Professor of Research Hematology (Department of Medicine).
Sumner Root Ziegra, M.D., Associate Professor of Pediatrics.
Maurice Sones, M.D., Visiting Associate Professor of Medicine.
Daniel L. Gilbert, Ph.D., Assistant Professor of Physiology.
Paul B. Johnston, Ph.D., Assistant Professor of Microbiology (Virology).
Melvin J. Silver, Sc.D. (Bact.), Assistant Professor of Pharmacology.
Leonard S. Ellenbogen, M.D., Associate in Radiology.
Jean Bannister Deinhardt, Ph.D., Research Associate in Medicine (Skin and Cancer Hospital).
Rosalind Yi-Ming Ting, M.D., M.P.H., Research Associate in Pediatrics.
Barry Bricklin, Ph.D., Instructor in Psychiatry (Psychology).
David Bryk, M.D., Instructor in Radiology.
Robert B. Cahani, M.D., Instructor in Psychiatry.
Robert James Dickinson, M.D., Instructor in Psychiatry.
Howard L. Field, M.D., Instructor in Psychiatry (Eastern Pennsylvania Psychiatric Institute).
James L. Framo, Ph.D., Instructor in Psychiatry (Psychology).
James Joseph Gallagher, M.D., Instructor in Urology.
Adolphe Thomas Gregoire, Ph.D., Instructor in Physiology (dual appointment).
George Thomas Hare, M.D., Instructor in Medicine (Cooper Hospital).
Ioulios Iossifides, M.D., Instructor in Pathology.
Ralph Lev, M.D., Instructor in Surgery.
Jack Lit, Ph.D., Instructor in Psychiatry (Psychology).
Bernard Joseph Miller, M.D., Instructor in Anatomy (dual appointment).
Salvatore Pennisi, M.D., Instructor in Urology.
Emanuel Michael Renzi, M.D., Instructor in Radiology.
Barry Jay Schwartz, M.D., Instructor in Psychiatry.
Claiborne Thweatt Smith, Jr., M.D., Instructor in Psychiatry.
R. Gerald Suskind, M.D., Instructor in Psychiatry.
Craig Keating Wallace, M.D., Instructor in Medicine.
Jack Herbert Weinstein, M.D., Instructor in Psychiatry.
David Norris Wicoff, M.D., Instructor in Psychiatry (Philadelphia General Hospital).
Shao-Chi Yu, M.D., Instructor in Psychiatry.
Saroj Athavipath, M.D., Visiting Assistant in Obstetrics and Gynecology.
Margaret I. Anderson, M.D., Assistant in Medicine.
EDWARD BERRY, M.D., Assistant in Surgery.

DAVID ERNEST BULLUCK, JR., M.D., Assistant in Medicine.

BALDO M. CARNECCHIA, M.D., Assistant in Neurology.

ASTERIA C. CHAN, M.D., Assistant in Pediatrics.

PHILIP DORMAN, M.D., Assistant in Medicine.

STEWART EDWIN FIRST, M.D., Assistant in Obstetrics and Gynecology (Philadelphia General Hospital).

HAVILAND FICKINGER, M.D., Assistant in Anesthesiology.

DAVID K. GINSBERG, M.D., Assistant in Medicine (Methodist Hospital).

RICHARD PENNELL GOTCHEL, M.D., Assistant in Obstetrics and Gynecology (Philadelphia General Hospital).

SIGMUND ROBERT GREENBERG, M.D., Assistant in Medicine (Philadelphia General Hospital).

WILLIAM FISHER HAINE, II, M.D., Assistant in Medicine (Allergy).

CHARLES GEORGE HEIL, JR., M.D., Assistant in Obstetrics and Gynecology (Philadelphia General Hospital).

DONALD FRANKLIN HEIMAN, M.D., Assistant in Medicine (Philadelphia General Hospital).

NORMAN R. HILLMER, M.D., Assistant in Anesthesiology.

NORTON HERING, M.D., Assistant in Surgery.

ALLAN OSGOOD HOWLAND, M.A., Assistant in Pediatrics and Psychiatry (dual appointments).

HERBERT KEAN, M.D., Assistant in Otorhinolaryngology.

FRANCIS X. KEELEY, M.D., Assistant in Medicine.

JOHN JOSEPH KELLY, Sr., M.D., Assistant in Medicine.

DALE HORACE PALMER, M.D., Assistant in Psychiatry.

LEON A. PERIS, M.D., Assistant in Obstetrics and Gynecology.

EDWARD N. PODGORSKI, M.D., Assistant in Obstetrics and Gynecology.

EVALYN FRANCES REPPLINGER, M.B., Assistant in Research Hematology (Department of Medicine).

LUDWIG EBERHARD SCHLITT, M.D., Assistant in Pediatrics.

IGNATIUS M. SEGOVIA, M.D., Assistant in Anesthesiology.

PAUL R. SPARKS, M.D., Assistant in Medicine (Allergy).

EDWARD AUGUST THEURKAUF, M.D., M.P.H., Assistant in Medicine (Philadelphia General Hospital).

WALTER M. UHLER, M.D., Assistant in Pediatrics.

LEON J. WEINER, M.D., Assistant in Medicine.

JACOB S. WINTER, Ph.D., Assistant in Medicine.

ANNE MARIA AMBROMOVA, B.A., Graduate Teaching Assistant in Physiology.

LIONEL WAYNE ROSEN, B.S., Graduate Teaching Assistant in Physiology.

MARGARET ELLERKER KIRBY, M.B., Teaching Fellow in Anesthesiology.

SIAMAK A. ADIBI, M.D., Research Fellow in Medicine.

WILLIAM BENNETT ASHBY, M.B., Research Fellow in Surgery.

CLAUDE R. BROSSEAU, M.D., Research Fellow in Medicine (Hematology).

MAKOTO IGARASHI, M.D., Research Fellow in Otorhinolaryngology.

KAZI ABUL MONSUR, M.D., Research Fellow in Microbiology.

ATSUSHI CZAWA, M.D., Research Fellow in Microbiology.

MARY C. PANICOLAU, M.D., Research Fellow in Otolaryngology (Audiology).

SHIGERU TANAKAGOSHI, M.S., Research Fellow in Radiology.

RAMACHANDRA Y. REDDY, M.B., Nathan Lewis Hatfield Fellow in Urology.

Resignations

LAWRENCE J. ADAMS, M.D., Assistant in Neurosurgery (Department of Surgery).

PERCY BARKHAN, M.D., Ph.D., Assistant Professor of Medicine (Cardeza).

PHILIP A. BEARG, M.D., Professor of Preventive Pediatrics.

EDWARD H. BISHOP, M.D., Instructor in Obstetrics and Gynecology.

PATRICIA F. BORNS, M.D., Assistant Professor of Clinical Radiology.

JOHN J. BROGAN, M.D., Assistant in Obstetrics and Gynecology.

JOSEPH E. CAMPBELL, M.D., Visiting Lecturer in Legal Medicine.

JOHN S. CARSON, M.D., Assistant Professor of Clinical Anesthesiology.

R. J. COLE, M.D., Visiting Lecturer in Legal Medicine.

LOUIS G. FEO, M.D., Demonstrator in Obstetrics and Gynecology.

DAVID S. GREEN, Ph.D., Assistant Professor of Audiology (Department of Otologic Neurology).

ROBERT A. GREGG, M.D., Instructor in Medicine.

JOHN PATTERSON, M.D., Instructor in Psychiatry.

WILLIAM M. PERRIE, M.D., Instructor in Surgery.

LEWIS D. POLK, M.D., Instructor in Pediatrics.

CLAIBORNE T. SMITH, Jr., M.D., Instructor in Psychiatry.

JOHN M. STACK, M.D., Assistant in Obstetrics and Gynecology.

JOSEPH STASNEY, M.D., Associate Professor of Pathology.

KHUSDARSHAN S. THIND, Ph.D., Instructor in Microbiology.

**Deaths**

Maurice Brown, M.D. (January 15, 1960), Demonstrator in Dermatology.
Jacob M. Cahan, M.D. (January 28, 1960), Instructor in Medicine.
Arnold S. Levine, M.D. (August 24, 1960), Assistant Professor of Neurology.
Arthur J. Wagers, M.D. (December 18, 1959), Clinical Professor of Laryngology.

**Leave of Absence**

Robert B. Cahan, M.D., Instructor in Psychiatry.
Edgar Charles Smith, M.D., Assistant in Medicine.
Craig K. Wallace, M.D., Instructor in Medicine.
Leon A. Peris, M.D., Assistant in Obstetrics and Gynecology.

**DR. SODEMAN STUDIES MEDICAL EDUCATION PROBLEMS IN GHANA AT GOVERNMENT’S REQUEST**

Dean William A. Sodeman spent a month this summer, at the request of the United States Government, in Ghana, Africa, as part of a three-man team studying the problems of founding a medical school there. His two associates in the study were Dr. Paul Cornely, Professor of Preventive Medicine of Howard University in Washington, D.C. and Robert King, an architect experienced in designing medical facilities in tropical climates.

Ghana is a former Gold Coast colony of Britain and three years ago became the first African nation to attain its freedom from Colonial status. Located on Africa’s west coast, it has a population of six million people and only 314 doctors, all of whom were trained abroad, primarily in England. At present some 200 Ghanians are studying medicine under their Government’s sponsorship in such countries as Britain, Germany and the United States.

The country unquestionably needs more doctors and that is why its Government asked the International Cooperative Administration, a U.S. Government Agency, for help in this problem.

At the conclusion of the study, Dr. Sodeman said that Ghana seems to have both the intellectual and financial resources necessary to establish a medical school, though the cost would be approximately 14 million dollars. The country is stable politically however, and in good economic condition since it is a leading exporter of cocoa.

Dr. Sodeman feels that a medical school in Ghana could be the nucleus for a national health center and the University College in the capitol city of Accra, which has about 675 students, could serve as the basis for pre-medical education.

*(left)* DR. SODEMAN is Pictured with His Two Associates who Accompanied Him to Ghana and With Personnel of the International Cooperation Association, *l. to r.*, MR. HEMMERICK, Specialist in African Affairs in ICA; DR. FRED BRADY, Deputy Director, Office of Public Health, ICA; DR. PAUL CORNELY, DR. SODEMAN and ROBERT KING.
The Board of Trustees of The Jefferson Medical College has announced the election of Mr. William F. Kelly, President of The First Pennsylvania Banking and Trust Company, to membership on the Board.

Mr. Kelly has long been active in business and civic affairs in this city, presently serving on the Boards of three local colleges: La Salle, Villanova and St. Joseph’s, but his election to Jefferson’s Board marks his first affiliation with a medical college or medical center.

Following his education at St. Joseph’s Preparatory School and Temple University School of Law, Mr. Kelly became associated with the Continental Equitable Title and Trust Company in 1925. In 1931 Continental was absorbed by what is now The First Pennsylvania Company and Mr. Kelly continued to be associated with the organization. In 1935 he was put in charge of the Bank’s new Times Sales Department and in 1952, after a series of promotions, he was named Executive Vice President. In 1953 he was elected a Director of The First Pennsylvania Company and in 1955 became its President.

Mr. Kelly is President of the Philadelphia Industrial Development Corporation, Chairman of the Credit Policy Commission of the American Bankers Association and is a member of the Board of the Beneficial Savings Bank, of Peoples Water and Gas Company (New York), of City Stores Company, of John J. Nesbitt, Inc. and of Philadelphia Transportation Company.

He served as the 1960 Chairman of the successful Catholic Charities Appeal and is a member of the Military Order of Malta and Knight of the Holy Sepulchre.

Honorary degrees were conferred upon Mr. Kelly by LaSalle College in 1946 and by Villanova University in 1960.

Mr. Kelly has two daughters, Barbara, 20 and Lynne, 17, and six step-sons and three step-daughters. His hobbies are golf and bridge.
DIRECTOR OF PERSONNEL APPOINTED FOR COLLEGE AND HOSPITAL

Announcement has been made of the appointment by the Board of Trustees of Mr. Edmund W. Taylor, Jr. as Director of Personnel for the College and Medical Center. Mr. Taylor will direct a new personnel program and will be chairman of the permanent personnel committee which was organized last summer. Mr. Bodine, President, introduced the new Director to a group of Hospital and College department heads at a luncheon on August 15, 1960. He stated that Mr. Taylor will undertake two important assignments in this new position: first, development of a uniform system of personnel records for all who work at Jefferson; second, establishment of job classifications for every position and third, the introduction of training courses to enable employees to move to higher salary levels.

Mr. Taylor, who was previously coordinator of the Medical Programs Administration of the Radio Corporation of America, has been in the personnel field for 13 years. He holds a B.S. Degree in Management and Industrial Relations from New York University and served, with the rank of Lieutenant Commander, as Executive Officer of a Destroyer Squadron Flagship in World War II.

Mr. Taylor is married to the former Katherine Emmel and they reside, with their six children, in Berwyn, Pennsylvania.

---

PLAN NOW TO ATTEND—

Jefferson Alumni Graduate Assembly

The Warwick Hotel
Philadelphia

February 15, 16 and 17, 1961
SPECIALIZED PATIENT CARE UNITS

Recovery Room

The Recovery Room, located on the fifth floor of the Thompson Annex of the Hospital, was opened 25 August 1955. In the first five years of operation its staff has provided care for 36,691 patients.

The unit is open from 8:30 a.m. to 8:00 p.m., Monday through Friday. Space is available for the accommodation of 15 patients on special recovery room stretchers. The area is air conditioned and specially lighted in such a fashion that it provides a cheerful appearance. Oxygen and suction are piped, eliminating bulky cylinders and suction pumps. Sphygmomanometers are mounted on the wall between each two stretcher positions. A recessed shelf, twelve inches wide and bedside height, topped with stainless steel, runs the length of the room on either side. This replaces bedside tables so that more floor space is available for nursing activities. In this respect Jefferson's Recovery Room is somewhat unique and we have received favorable comments from visiting physicians of the United States and several foreign countries. Special equipment for pulmonary and cardiac resuscitation and for inhalational therapy is available within the unit. Cardiac and other monitoring devices accompany certain patients to the unit but are owned by other departments.

Common practice has led to the use of the term "recovery room." In function this is a "post-anesthesia" room which is designed to provide care for the anesthetized patient until he has regained consciousness or has regained so-called protective reflexes. The average length of stay is one to two hours, comparable to the average length of time spent in the operating room. There is no segregation based on age, race, sex or financial status, a practice which seems not to have been the source of any complaints.

The staff is provided by Nursing Service and works under the professional direction of the Attending Anesthesiologist. Miss Viola Fox, R.N., Head Nurse of the Recovery Room since its opening in 1955, has a staff of three registered nurses, a nurses' aide and an orderly. In addition, the two nurses who comprise the Intravenous Therapy Team help care for patients when they are not busy elsewhere in the hospital. Private duty nurses whose patients are in the Recovery Room may care for their patients there under the supervision of the Head Nurse. Visitors are not admitted.

The provinces of professional responsibility are not clearly demarcated, but there is little dissension because

(right) DR. LOUIS J. HAMPTON, Professor of Anesthesiology and Head of the Department, who is in Direct Charge of the Recovery Room, is Pictured with MISS KAY GRIFFITH, R.N., MISS MARION BERVINCHAK, R.N., and Student Nurses on Assignment to the Unit.
it is remembered that the Recovery Room provides to all interested services an opportunity for giving the patient the best type of immediate postoperative care. In general, the anesthesiology staff is interested mainly in problems relating to respiration, circulation or sedation. The overall surgical care of the patient obviously is the concern and responsibility of the surgical staff, and postoperative orders are written by the surgeon or his representative. Cooperation of physicians has been excellent. Medical consultation is occasionally required. Where possible, the patient’s own physician is consulted, but in emergencies other internists have responded promptly.

There have been seven deaths in five years. These were patients who were gravely ill at the time of surgery. On the other hand there have been many respiratory and circulatory emergencies recognized promptly and treated successfully. Quite probably the Recovery Room has been instrumental in saving lives in its five years of operation.

The unit provides constant informal training for the house staff and participates in the formal training of medical students and student nurses.

---

**Intensive Care Unit**

The south corridor area of the 5th floor, Thompson Annex, was recently remodeled at a cost of $25,000, to give Jefferson a modern, functionally designed Intensive Care Unit. This new Unit was financed by a generous gift from the Women’s Board, together with other Hospital monies.

The installation represents the cumulative thinking of a number of members of the Jefferson family who, working together as a committee, designed it so that it would best serve the needs of the patient with an acute medical emergency or in need of immediate post-operative care following a major surgical procedure. The members of the Committee were Doctors Gibbon, Hampton, Wise, Haupt and W. Goldburgh, Mr. Nelson, Miss Prevost, Mrs. Curran, Miss Chadwick, Mr. Connors and Mr. Matters, representing the Departments of Surgery, Anesthesiology, Medicine, Hospital Administration, Nursing and Engineering.

---

*(below) Line Drawing of the Lay-out of the Intensive Care Unit. Its Proximity to the Recovery Room (lower right) is an Important Feature.*
Conveniently located to the Pavilion 5th floor operating rooms and with direct access to the Recovery Room, this unit is completely air-conditioned and equipped with piped suction and oxygen for each patient. A special physicians' "on-call room" is located within the unit; the anesthesiology resident on duty sleeps there at night and can be contacted by an intercom system. During the day, the room is available for physicians' conferences regarding ICU patients.

The perimeter of the unit forms a rectangle within which the nursing station is located at the center along the south wall. From this station, all patients in the thirteen beds can be visually observed, including those in the two-bed "quiet room" which is separated by a wall containing observation windows. This room has been provided for patients whose condition or disturbing behavior warrants segregation. An intercom also permits audio communication with the quiet room.

Special conduits have been installed connecting four of the bed positions with the nurses station in order that physiological monitoring equipment can be installed at a later date. The five physiological variables which would be measured on an automatic basis are blood pressure, pulse, EKG, ventilation and temperature. The prohibitive cost, however, of this electronic equipment ruled out its inclusion at the present time.

Readily available within the unit are all items of equipment needed to meet any type of medical or surgical emergency. For example, a cardiac monitor and pacemaker, resuscitation equipment and all emergency-type drugs and trays are available in a matter of seconds.

Based on studies of other intensive care units and as the result of our own experience with our former unit, the nursing staff pattern is geared to give about six hours of nursing care per patient per day. The nursing personnel functions as a well co-ordinated team and have been selected to work in the unit because of their interest and demonstrated ability in this type of nursing care. In order to help defray the cost of intensive nursing care, the patient is charged $10.00 per day in addition to his regular room charge of $21.00 per day.

Physician coverage is available at all times and a valuable educational experience is received by the interns and residents who are assigned to the unit. Senior student nurses are assigned to the unit for educational purposes; they do not replace, but rather act as an adjunct to the regularly assigned nursing staff.
On June 1, 1960 the organization of the new Cardio-pulmonary Laboratory was announced and the "go ahead" given for intensified efforts in the study of heart and lung diseases at Jefferson. In the past, although there was much inter-unit cooperation, coordination between the Ross V. Patterson Heart Station, the catheterization team, the pulmonary function laboratory and the cardiac clinic was difficult. The various units occupied widely separated locations and, because of different types of demands, each tended to have a restricted orientation towards problems in the field. It long has been recognized that this fragmentation prevented any of the groups from achieving its full potential in terms of undergraduate teaching, graduate teaching, research or service to the sick.

The new Cardio-pulmonary Laboratory, under the direction of Dr. John H. Killough, Associate Professor of Medicine, consists of the Ross V. Patterson Heart Station, the pulmonary function laboratory and the catheterization laboratory. Dr. Daniel W. Lewis, (J'44), Assistant Professor of Clinical Medicine and Dr. Richard T. Cathcart, Assistant Professor of Medicine, have been appointed Associate Directors. Dr. Lewis will be primarily responsible for the operation of the Ross V. Patterson Heart Station. The pulmonary function laboratory, presently located at the Barton Memorial Hospital, will be transferred to the main hospital. Dr. Cathcart will continue to supervise this portion of the work.

The new laboratories occupy space on the second floor of the Thompson Annex—in quarters which served as headquarters for radiation therapy before the new Pavilion was constructed. The Ross V. Patterson Heart Station is just across the hall. As this issue goes to press, work is progressing rapidly. The most advanced image amplifier equipment is being installed in the catheterization room. Facilities will be available for cineangiography and indicator-dilution studies as well as for the more conventional methods of right and left heart catheterization. It is expected that the laboratories will be completely equipped shortly and operations will be started this Fall.

This integration of the more complex types of cardio-pulmonary diagnostic studies is the fruition of a long sought objective and represents a significant step forward as Jefferson faces the challenges of the decade ahead.
Isolation Unit

It is logical that patients with staphylococcal infections who are scattered throughout the hospital will contaminate all areas. Numerous contacts of infected patients with hospital personnel spread strains of staphylococcus which may increase the number of healthy carriers and the incidence of skin infections among the hospital personnel. Cross-contamination is increased which allows greater opportunity for the infection of surgical wounds, new-born infants and other patients.

The isolation of patients with staphylococcal infections in one area allows one team of nurses and other personnel to institute measures to control the spread of infection and decrease the contamination of other rooms and bathrooms. Better facilities for patients with purulent infection can be provided. An isolation unit allows one team of nurses and aides who are trained in the special technique of aseptic care to work with the patients. Linens, eating utensils and patient clothing can be handled in a manner that does not contaminate laundry workers and the kitchen. Methods for routine treatment of infected sites can be scheduled in a methodical manner.

Physicians are provided masks, gowns and rubber gloves with proper facilities for examining and caring for patients without danger of becoming hazardous carriers of pathogenic staphylococci. Visitors can be instructed in proper procedures to prevent contamination and spread of infection to other patients in the hospital and to the outside environment.

With these concepts in mind, the Isolation Unit at Jefferson was designed on the fifth floor of the Samuel G. Thompson Annex. It consists of two air-conditioned, four-bed rooms with shower baths, a small kitchen and treatment room, nurses station and entrance foyer.

The policies of the Isolation Unit are determined by the Committee to Control Infection. The Infectious Disease Fellow of the Department of Medicine is given responsibility of admission of patients. All physicians, nurses, technicians, medical students and visitors are instructed in proper procedure on the first visit. Everyone who enters places parcels, equipment, coats, etc., on shelves and hooks, washes hands, dons mask, gown and gloves and enters the room of the patient. When finished, the hands are disinfected and gown removed and discarded in the room. The hands are again washed in the foyer and the mask is discarded. Orders and charting can be performed without contamination in the entrance foyer.

Soles of shoes are disinfected before leaving the unit and going to other areas of the hospital.

The Isolation Unit is only one part of the total program for control of hospital-acquired infections. Since the program was begun in July, 1959, the rate of infection of surgical patients has decreased from 5.1% to 1.8% in a period of one year.

The Isolation Unit is under the direction of the Infectious Disease Committee, of which Dr. Robert I. Wise is Chairman, Dr. Thaddeus L. Montgomery, Dr. John H. Gibbon, Jr. and Dr. Peter A. Herbut are members and Dr. Ellsworth R. Browneller and Dr. Theodore R. Fetter are ex-officio members, while Dr. Frank J. Sweeney, Jr., is Chairman of the Ad Hoc Committee.

(below) DR. FRANK J. SWEENEY, JR., Examines a Patient in Isolation, as MRS. GERDA KRASHENNINKOW, R.N., Nurse in Charge of the Unit, Aids Him. In the Foreground DR. THOMAS BELL, Resident Assigned to the Unit, and Administrative Assistant, MRS. EVELYN CURRAN Discuss a Patient’s Chart.
We did well in last year's Annual Giving Fund Drive, breaking all previous records for total collection and placing third among other medical schools. We are gratified with the result of the 12th Annual Campaign, but we intend to better it this year—with your help.

Indeed, a number of you have already aided us greatly in formulating our plans for the 13th Drive by making most constructive suggestions, some of which we intend to adopt.

As many of you know, this summer we sent questionnaires to both contributors and non-contributors in the Classes from 1926 through 1959, asking their wishes as to the use, or uses, to which the Fund should be put, and asking non-contributors to tell us frankly their reasons for not having participated. Returns have been amazingly good, and the questionnaires are still coming in, so that we cannot—in this Issue—give you a tabulation of results or announce the action that we will take with regard to use of contributions. Our December BULLETIN, however, will carry a full account of the survey and resultant decision of our Executive Committee.

To all of you who filled out and returned questionnaires, we extend our sincere thanks and to those of you who enclosed a check with your return, we want to express our special gratitude. Not only have these contributions, which amount to $6,202.62, gotten us off to a fine start, but they have encouraged us greatly in our efforts to improve this forthcoming Campaign. We were surprised and, needless to say, delighted by your response.

Several points came to light in the replies to the questionnaire. One of these is the confusion existing in the minds of many as to opening and closing dates of our Alumni Drives. Jefferson's Giving Fund Campaigns are on a fiscal rather than a calendar year basis and close on June 30, which is approximately two weeks after the Annual Alumni Dinner. While a total for the Fund is announced at that function, our books are held open for the additional two-week period to allow for transmittal of checks from Class Agents who are a distance from Philadelphia. On July 1 the next Fund begins, although its formal opening takes place with the Class Agents' dinner in the latter part of September or early October. For example, checks received in the Alumni office after July 1, 1960 were credited to the 13th Drive which will continue until June 30, 1961. From this it will be apparent that a contribution made in June of 1960 would have gone into the 12th Drive and one made in July of 1961 would go into the 14th Drive, but there would have been no gift credited to the 13th, since it opened in July of 1960 and closed in June of 1961.

In the following paragraphs I shall attempt to clarify the situation with regard to contributions made through the American Medical Education Foundation.

Contributions made through AMEF and earmarked for Jefferson are not sent by AMEF to your Alumni Association to be given to the College for a specified use. They are sent directly to the Administration of the College to be used for whatever purpose the Administration may desire. Since ours is an Alumni Association Drive, it is evident that we cannot include funds which we do not receive. We do, however, recognize earmarked AMEF gifts by listing the donors' names in the August issue of the ALUMNI BULLETIN each year, with an asterisk indicating that they have contributed through AMEF.

This is one of the reasons we encourage giving directly to Jefferson—so that your Class total and the Fund total will be increased by your gift.

Another misapprehension seems to be that AMEF matches dollar for dollar the amount earmarked by the Alumnus. This is not true. The Administration receives the earmarked gifts in the exact amount contributed, while all undesignated funds sent to AMEF are divided equally among all the medical schools in the country. This year the amount received by the Administration from this source was $4,900.

The final reason for giving directly to Jefferson is a rather intangible one, but is nevertheless important. By giving through AMEF only, the direct contact of the Alumnus with his Alma Mater is lessened and it becomes a routine and mechanical act, rather than the meaningful action resulting from a Class Agent's appeal.
We are very much aware of the fact that some State and County Medical Societies have made giving to AMEF mandatory. This would seem to be a very unsound practice, guaranteed on the whole to produce minimum contributions. We believe firmly that giving should be voluntary, should come from the heart and that the giver should derive personal satisfaction from it. Assessments do not usually produce this result.

Since the avowed purpose of AMEF is to encourage support for medical education and since, if a physician is contributing directly to his own medical college, he is most certainly doing this very thing, it is our suggestion that in States with AMEF assessments our Alumni make contributions directly to Jefferson and present our receipts to their County Medical Societies as evidence of their support of medical education. We have no assurance that County Societies will accept these Jefferson receipts in lieu of contributions to AMEF, but it would seem only fair that they should do so. We urge you, if you practice in a State with the AMEF assessment, to make this experiment and we shall be most interested to learn the results.

We believe firmly that direct gifts to Jefferson are important. We believe in our purpose and feel that no outside agency, such as AMEF, can accomplish results equal to those of our loyal, hard-working Class Agents. They need your support and encouragement.

Still another mistaken concept seems to exist among some of our Alumni—that the amount they can afford to contribute is insignificant. This is not so. We do not consider any gift, no matter how small, as insignificant for we look upon all contributions as tangible expressions of your belief in and loyalty to Jefferson.

Consider what would have happened to our Fund total last year had each of our non-contributors sent a $10.00 gift. We would have reached and surpassed our goal—with a total of $161,203!

Soon you will receive a concise, definite account of Jefferson’s present needs. We ask you to give this brochure thoughtful consideration. If you do so, we believe that you will put Jefferson in first place on your contribution list. If you place your Alma Mater first and give as generously as you possibly can, we believe we will reach our goal and once again see Jefferson’s name first on the list of medical school annual giving funds. With the support of all of you, we can do it.

---

Pediatrics and Psychiatry Departments Initiate New Program

The Department of Pediatrics announces an important new program in teaching with the cooperation and participation of the Department of Psychiatry.

Dr. Allan Osgood Howland, Assistant in Pediatrics and Assistant in Psychology in the Department of Psychiatry, is heading a program to be known as the “Poor School Grade Program.” This program will involve instruction in the discipline of psychology, psychiatry, pathology, education and neurology in relation to why so many children with normal I.Q.s fail in school.

Foreign Scientists Visit Department of Preventive Medicine

A number of scientists from Europe and South America recently visited the Department of Preventive Medicine at Jefferson to acquaint themselves with teaching methods and new research procedures.

Among the visitors were Professor Jaroslav Teisinger, Director of the Institute of Industrial Hygiene and Occupation Diseases in Prague, Czechoslovakia and Professor Lars Friberg, Head of the Department of Preventive Medicine, University of Stockholm, Sweden.

---

Alumni Placement Bureau

Positions Available

Busy two man General Practice Partnership seeking third partner. Own new large medical building with three offices, several examining rooms, and laboratory. Present staff of five including receptionist, R.N., and technician. Located in rapidly growing South Jersey community 30 minutes from Jefferson.

Wanted: Union City, Michigan is in need of two physicians.

---

Library Notes

CHILD IN THE SHADOWS—A Manual for Parents of Retarded Children. Edward L. French, Ph.D. and J. Clifford Scott, M.D. J. B. Lippincott Company, publishers. (Dr. Scott is Associate in Psychiatry at the College.)

NEUROLOGY SIMPLIFIED—David J. LaFia, M.D., Charles C Thomas, Publisher. (Dr LaFia is Instructor in Neurosurgery in the Department of Surgery.)
On July 26 Dean William A. Sodeman was honored by the Washington County (Pennsylvania) Medical Society at a testimonial dinner at the Nemacolin Country Club. This tribute followed the unanimous adoption by the State Senate of a Resolution in praise of Dr. Sodeman's contributions to medical education.

A native son of Washington County, Dr. Sodeman was born in Charleroi, although he and his family moved to Toledo, Ohio when he was six years old. Three of his uncles still reside in Charleroi, however, and were present at the dinner.

Some hundred guests, including Mr. Bodine, President of the College, and Dr. Conly, Assistant to the Dean, attended the function. Senators William J. Lane (Greene and Washington Counties) and Israel Steifel (Philadelphia) were also present.

The principal speakers were John W. May, Dean of Washington and Jefferson College and Bernal R. Weimer, Dean of the Faculty at Bethany College. Dr. Fred D. Large, Clayville, was Chairman of the event and Dr. A. S. Sickman served as toastmaster.

Dr. James H. Corwin, Jefferson Class of 1953, of Houston, Pennsylvania, also helped with the arrangements for the dinner.
Dr. Robert L. Brent, Associate Professor of Pediatrics, attended the Conference on Congenital Malformation held in London in August, 1960.

Dr. Abraham Cohen, Associate in Clinical Medicine, read a paper entitled "Medical Treatment of Osteoarthritis of the Cervical Spine" at Basle, Switzerland, August 25, 1960 at the 6th International Congress of Internal Medicine.

Dr. Cohen also read a paper at the 9th International Congress of Rheumatic Diseases at Piestany, Czechoslovakia on September 22, 1960.

Dr. Joseph K. Corson, Assistant in Dermatology, was recently promoted by the Board of Managers of Pennsylvania Hospital from assistant dermatologist to outpatients to assistant dermatologist to the hospital.

Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department, spoke at the Veterans Administration Hospital in Wilkes-Barre, Pennsylvania on September 15 on "The Hazards of Massive Bank Blood Transfusions and Pre-treatment of Blood by Resins."

Dr. Gibbon also attended the American College of Surgeons Clinical Congress in San Francisco and on October 14 spoke on "Anesthesia and Pulmonary Problems. What's New in Surgery."

Dr. Bernard C. Gettes, Associate in Ophthalmology, was a guest lecturer on August 16th, 17th, and 18th, at Colby College, Waterville, Maine, for the Lancaster courses in Ophthalmology, sponsored by the Ophthalmological Study Council.

Dr. Gettes is also participating in the Instructional Courses at the meetings of the American Academy of Otolaryngology and Ophthalmology in October, in Chicago, Illinois, and is also lecturing as a faculty member in the Home Study Course Seminar which convenes at the same time.

Dr. John W. Goldschmidt, Director of the Department of Physical Medicine and Rehabilitation, has been named to the Board of Governors of the Heart Association of Southeastern Pennsylvania.

Dr. George A. Hahn, Associate Professor of Obstetrics and Gynecology, attended the Radio-Biologic Conference at the University of Wisconsin, June 16-18, 1960. This Conference was attended by 80 invited participants in clinical fields and in the field of basic research.

On April 26, 27, 1960, Dr. Hahn attended the Annual Meeting of the Wainwright Tumor Clinic Association at the Guthrie Clinic, Sayre, Pennsylvania and was elected President-Elect. The Wainwright Tumor Clinic Association is made up of representatives from the 53 tumor clinics in Pennsylvania.

Dr. Hahn was also appointed Vice-President of the Pan American Medical Association for 1960-61 (Obstetrics and Gynecology).

Dr. Hahn, who is a member of the staff of the Bryn Mawr Hospital, has been intensively active in the field of cancer research and detection. Dr. Hahn received the American Cancer Society National Division Gold Medal Award for "Outstanding Achievement in Cancer Control" in 1959.

Dr. Fred Harbert, Professor of Oto-Rhino-Laryngology and Broncho-Esophagology and Head of the Departments, was on the faculty of Colby College's Postgraduate Otolaryngology course held in Waterville, Maine from August 3 to 5, 1960.

Dr. William T. Hunt, Jr., Assistant Professor of Ophthalmology, recently attended the post-graduate course of Dr. Meyer-Schwickerath on "Photo-coagulation Therapy of the Eye" in Essen, Germany.

Dr. J. Rudolph Jaeger, Professor of Neurosurgery in the Department of Surgery, gave a paper on "Intercorpooreal Fusion of the Lumbar Vertebra for Disc Injury Pain" at the recent Pan-Pacific Surgical Association's 8th Congress in Honolulu.

Dr. Felix E. Karpinski, Jr., Clinical Professor of Pediatrics, recently announced that he has terminated his full-time affiliation with the Department of Pediatrics to enter private practice. His office is in the Stratford-Wayne section of the Main Line. We wish him sincere luck in his forthcoming work.
DR. HANS G. KEITEL, Professor of Pediatrics and Head of the Department, delivered a lecture on the "Treatment of Dehydration in Infants and Children," at the 6th Pan-American Pediatric Congress in Caracas, Venezuela.

Dr. Keitel also attended the Pan-American Medical Association in Mexico City and delivered a talk on "The Feeding of Premature Infants."

DR. JOHN H. KILLOUGH, Associate Professor of Medicine, spoke at a post-graduate seminar of the Blue Ridge Chapter of the Virginia Academy of General Practice in Roanoke recently.

DR. DAVID J. LAFIA, Instructor in Neurosurgery, Department of Surgery, who has been on leave of absence for the past year has returned to his duties at Jefferson. He had been doing experimental work in epilepsy and electro-encephalography with the Professor of Neurosurgery at Johns Hopkins University School of Medicine in Baltimore, Maryland.

DR. HERBERT A. LUSCOMBE, Professor of Dermatology and Head of the Department, was recently promoted by the Board of Managers of Pennsylvania Hospital from assistant dermatologist to the hospital to associate dermatologist to the hospital.

DR. JOHN B. MONTGOMERY, Professor of Obstetrics and Gynecology and Co-Chairman of the Department, participated in a panel discussion on "Vaginal Approach to Pelvic Surgery" during the Clinical Congress of the American College of Surgeons on October 14, 1960 in San Francisco, California.

DR. ROBERT B. NYE, Assistant Dean, spoke at the 171st Annual Meeting of the Medical Society of Delaware on September 9, 1960 at Rehobeth Beach, Delaware.

DR. EDWARD M. PODGORSKI, Assistant in Obstetrics and Gynecology, narrated a film on cancer, "Time and Two Women," at the Mt. Enon Baptist Church, Philadelphia on Tuesday, July 26, 1960.

DR. PAUL J. POINSARD, Clinical Professor of Psychiatry, spoke at a meeting of the Lebanon Medical Society on September 6 at the Good Samaritan Hospital in Lebanon. His subject was "General Psychiatric Aspects of Medicine."

DR. HERMAN L. RUDOLPH, Assistant Professor of Physical Medicine, spent the week of August 21, 1960 in Washington, D. C., attending the meetings of the Board of Governors of the American Academy of Physical Medicine and Rehabilitation and the scientific meetings of the Third International Congress of Physical Medicine and Rehabilitation.

DR. JOSEPH SATALOFF, Professor of Otology, was appointed Associate Director of the Eighth Annual Institute on Occupational Hearing Loss at Colby College, August 8 through 13, 1960.

The course each summer attracts registrants from major industries throughout the United States. It is designed "to enable participants to recognize noise hazards, to provide a plan for preventing noise-induced hearing loss, and to acquaint participants with the means of equitably adjusting claims."

Dr. Sataloff was also on the faculty of the Postgraduate Otolaryngology course held at Colby College from August 3 to 5, 1960.

He also spoke on "Pitfalls in Hearing Testing—Especially Masking" and moderated a panel on Hearing Testing during the Pan-Pacific Surgical Association's 8th Congress from September 27 through October 5, 1960 in Honolulu.

DR. WILLIAM A. SODERMAN, Dean, will participate in a panel on "A Bedside Approach to the Study of Medical Costs" at the 71st Annual Meeting of the Association of American Medical Colleges on October 31 in Hollywood Beach, Florida.

DR. CHARLES G. STEINMETZ, III, Assistant Professor of Ophthalmology, addressed the Carbon County Medical Society on September 8, 1960 at Lehighton, Pennsylvania, on the subject "Ocular Problems in General Practice."

DR. PETER A. THEODOS, M.D., Assistant Professor of Clinical Medicine, participated in a panel discussion on air pollution and carcinogenesis at the 26th annual meeting of the American College of Chest Physicians in Miami Beach. The discussion was a part of the conference on occupational diseases of the chest.
Class Notes

1913
Frederick C. Freed, M.D., 59 E. 54th Street, New York 22, N. Y. reports he was unable to visit the African Congo, so spent an interesting summer visiting the "Vest Pocket" Republics of Europe.

Walter R. Krauss, M.D., 421 Price Street, West Chester, Pa. returned to active duty at the Veterans Administration Hospital, near Wilmington, Delaware during the summer.

Jacob Walker, M.D., 7 N. Quincy Ave., Margate, New Jersey reports that on June 5, 1960 at the Garden Pier, Atlantic City, New Jersey he had a reception and private viewing of his paintings.

Francis E. Weatherby, M.D., Col., M.C. USA Ret.; The State Hospital, Wernersville, Pa. Dr. Weatherby, Clinical Director of Women's Services at the Hospital since 1954, has retired, it was reported on July 18, 1960. He had served on the staff since 1949, immediately following his retirement from the Army after 31 years of service and an assignment at Valley Forge General Hospital at Phoenixville in charge of neuropsychiatric services. He is a life Fellow of the American Psychological Association, a member of the AMA, the Association of Military Surgeons of the United States and the Philadelphia Neurological Society.

1917
LeRoy A. Schall, M.D., Scudder Lane, Barnstable, Massachusetts.
Dr. Schall writes that he has been made Professor Emeritus at Harvard and is now retired. Since 1939 he has been Walter Augustus LeCompte Professor of Laryngology and Head of the Department, as well as Chief of Otology and Laryngology at the Massachusetts Eye and Ear Infirmary and Massachusetts General Hospital.
Dr. Schall holds honorary degrees from Harvard University and Jefferson Medical College.

1919
Burgess L. Gordon, M.D., 3550 Lakeshore Drive, Chicago 11, Illinois, recently became an associate editor of the JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION.

1921
Lynn M. Rankin, M.D., has retired from practice, resigned as Director of Surgery of the Delaware County Memorial Hospital, Drexel Hill, Pennsylvania, and has moved to 1100 Canterbury Road, Clearwater, Florida. The Delaware County Memorial Hospital appointed Dr. Rankin Consultant in Surgery.

1923
Benjamin Halborn, M.D., 1500 State Street, Harrisburg, Pennsylvania.
Dr. Halborn writes that as of October 1 he has retired from active practice and he and Mrs. Halborn are leaving for a long and leisurely trip around the world.

At the recent meeting of the American Diabetes Association in Miami Beach, Dr. Peck was installed as President of this organization. He is Associate Professor of Medicine at the Indiana University School of Medicine, Director of Clinical Research International of the Lilly Research Laboratories and a Consultant in Medicine at the Indianapolis General Hospital where, in 1951, he served as President of the Staff. He is the author of over sixty medical articles related to diabetes and new insulin modifications.

Dr. Peck headed the American Diabetes Association's Committee on Scientific publications which established the DIABETES JOURNAL and for ten years was managing editor of DIABETES ABSTRACTS.

He was an organizing member of the International Diabetes Federation in Brussels, Belgium in 1949 and served as the first President of the Indianapolis Diabetes Association. He is an honorary member of medical societies and diabetes associations in Argentina, Alaska, Uruguay, Chile, Peru and Brazil and is an Academician of Honor of the Academy of Medicine and Surgery in Panama.

(below) DR. FRANKLIN B. PECK, SR.
1925

PHILIP F. VACCARO, M.D., Monongahela, Pennsylvania.

Dr. Vaccaro has been appointed physician for the Monongahela School District. He is a past-President of the Washington County Medical Society and the Association of Surgeons of the Pennsylvania Railroad.

1926

MORTON REESE, M.D., has opened an office for the general practice of medicine in the Pearce Building, 605 Main Street, Portage, Pennsylvania.

After serving his internship at St. Joseph's Hospital, Dr. Reese went abroad where he did graduate work at the University of Paris, University of Vienna and the University of Bratislava and University of Brno, both in Czechoslovakia.

Dr. Reese had practiced in Philadelphia before coming to Portage.

CLIFFORD H. TREXLER, M.D., 200 Allen Street, Allentown, Pennsylvania, has been named Chief of Staff of the Allentown Hospital to succeed Robert L. Schaeffer, M.D., who held the post for 36 years.

1927

HOWARD E. SNYDER, M.D., 103½ E. 9th Avenue, Winfield, Kansas.

At the recent Clinical Congress of the American College of Surgeons in San Francisco, Dr. Snyder served on a panel which discussed "Shock and Shock-like Reactions."

1928

MAJOR GENERAL JOHN F. BOHLENDER, M.D., has been made Commanding General of Brooke Army Medical Center, San Antonio, Texas.

General Bohlender had previously been Commanding General at Fitzsimons General Hospital in Denver, Colorado.

1929

MARIO A. CASTALLO, M.D., 1621 Spruce Street, Philadelphia 3, Pennsylvania, made a hole-in-one at the No. 3 hole at the Fairmount course of the Philadelphia Cricket Club on Thursday, August 18, 1960.

Dr. Castallo used an 8 iron, and he attributes his success to the fact that, since he goes out of bounds so often on this particular hole, he used a pretty-well cut up ball, which made it take the necessary number of exact bounces to get into the cup!

1930

FRANCIS J. BRACELAND, M.D., The Institute of Living, 200 Retreat Ave., Hartford, Conn.

Dr. Braceland has been chosen an area editor of the "New Catholic Encyclopedia" and will co-edit the section on psychiatry for the 15-volume work which will be published by McGraw-Hill Book Company.

RICHARD B. NICHOLLS, M.D., 750 Graydon Avenue, Norfolk 7, Virginia, was re-elected Director of Obstetrics and Gynecology at the Norfolk General Hospital, Norfolk, Virginia.

Dr. Nicholls has been Director of this Department most of the time since 1943.

1931

GILES WOLVERTON, M.D., 209 South Main Street, Dayton, Ohio, was named Health Commissioner for Darke and Preble counties in Ohio by the boards of health of the two counties.

Dr. Wolverton is married and has three children.

1932

DAVID GELFAND, M.D., 1722 Pine Street, Philadelphia, Pa.

Dr. Gelfand addressed the September 16 meeting of the West Virginia Heart Association in Parkersburg on the subject "Cardiacs Can Work." Dr. Gelfand, who is Assistant Professor of Cardiology at the University of Pennsylvania, is cardiologist for the Philadelphia General Hospital and for the Kensington-Maymonides Hospital. He is Chairman of the Rehabilitation Committee of the Pennsylvania Heart Association and Chairman of the Rehabilitation Committee and Director of Cardiac Work Classification Unit of the Heart Association of Southeastern Pennsylvania.

1933

EDMUND V. MATYS, M.D., 215 Chestnut Street, Dupont, Pennsylvania, writes: "Have been terribly busy with my work and raising a son, who is now almost sixteen and a Junior at Wyoming Seminary. Hope he will follow me to Jeff."

ANTHONY RUPPERSBERG, JR., M.D., 500 S. Drexel Avenue, Columbus, Ohio.

Dr. Ruppersberg writes that his newest project is the Chairmanship of the Ob-Gyn Nurses' District Conference to be held on November 3 and 4, 1960 in Columbus under the sponsorship of District V of the American College of Obstetricians and Gynecologists.

(right) DR. FREDERICK L. WENIGER.

1934

JOHN J. WALSH, M.D., Director of Medical Education, Pottsville Hospital, Pottsville, Pennsylvania, spoke before the Pottsville Kiwanis on Tuesday, July 12, 1960 at the Necho Allen. Dr. Walsh spoke on the subject of "Medical Education."

1935

FORREST F. SMITH, M.D., Craft Press Building, Chambersburg, Pennsylvania, was recently elected Chairman of the Surgical Section of the Chambersburg Hospital.

Dr. Smith is certified as a specialist in general surgery by the American Board of General Surgery and is also a member of the American College of Surgeons. Dr. Smith belongs to many professional organizations, including the country medical society.

GEORGE L. TUNICK, M.D., 193 Mason Street, Greenwich, Connecticut, has been appointed medical examiner for Greenwich by Fairfield County Coroner, Isador K. Kotler.

Dr. Tunick is a member of the Board of Health and surgeon to the Greenwich Fire Department. He has also been senior attending physician, Department of Internal Medicine, at the Greenwich Hospital for the past ten years.

Dr. Tunick belongs to the Greenwich Medical Society, the Fairfield County Medical Association, the Connecticut State Medical Society and the American Medical Association.

1937

FREDERICK L. WENIGER, M.D., 108 Franklin Road, Pittsburgh, Pennsylvania.

Dr. Weniger has been promoted to Professor of Psychiatry at the University of Pittsburgh School of Medicine. He has been a member of the faculty of that School since 1945 and also serves on the Staff of Western Psychiatric Institute.
1938

1944'
ROBERT D. HEATH, M.D., Lankenau Medical Building, Philadelphia, Pa.
Dr. Heath has recently been appointed Associate Professor of Orthopedics and Chief of Orthopedic Service at Woman’s Medical College of Pennsylvania.

1944'
JAMES BEEBE, Jr., M.D., Beebe Clinic, Lewes, Delaware, has been elected Vice-President of the Board of Directors of Beebe Hospital. Dr. Beebe had been a Director of the Hospital for several years.
Dr. Beebe did post-graduate surgical work at the University of Pennsylvania and is Chief of the Surgical Department at Beebe Hospital. He has been a Fellow in the American College of Surgeons since 1952.

1946
EDWIN A. MCGOVERN, M.D., 2812 E. Carson St., Pittsburgh 3, Pa., has been appointed Works Physician at the Pittsburgh Works of Jones and Laughlin Steel Corporation recently. Dr. McGovern had been Works Physician at Jones and Laughlin Cleveland Works since 1953.
Prior to his service with Jones and Laughlin, Dr. McGovern was a Resident Physician in Internal Medicine at the Veterans Administration Hospital at Aspinwall, Pennsylvania, and Plant Physician at the General Motors Cadillac Tank plant in Cleveland. He also held a Fellowship at the University of Pittsburgh's Graduate School of Public Health.
Dr. McGovern is a Diplomate in the American Board of Preventive Medicine in Occupational Medicine; and a member of the American Medical Association, Industrial Medical Association, Ohio Medical Association, Cleveland Academy of Medicine, and the Medical Directors' Club of Cleveland.

(above) COLONEL FRANK A. PERRI.
Dr. Perri served in United States and in the Mediterranean during World War II and following his return to the States in 1945 he continued training in otorhinolaryngology and broncho-esophagology at Walter Reed Hospital and at the Graduate School of the University of Pennsylvania. He is a rate senior flight surgeon, a Diplomat of the American Board of Otolaryngology and Broncho-esophagology, a Fellow of the American College of Surgeons and President-elect of the Society of Air Force Clinical Surgeons.

WILLIAM L. WHITE, M.D., 237 Morrison Drive, Pittsburgh, Pa.
Dr. White was a member of the panel which discussed “Principles in the Care of Traffic Injuries” at the recent meeting of the Clinical Congress of the American College of Surgeons in San Francisco.

(above) DR. EDWIN A. MCGOVERN.
Lempke was in private practice in New Jersey and Pennsylvania and had been Chief Resident Physician at Jersey City Medical Center.
Joseph C. Ruht, M.D., recently opened his offices at 500 Gay Street, Phoenixville, Pennsylvania, for the practice of General Surgery. Following a three year absence from the Phoenixville medical community while he trained at the Veterans Administration Hospital in Philadelphia, Dr. Ruht has rejoined the active medical staff of the Phoenixville Hospital as an associate on the surgical service. Dr. Ruht is married to the former Miss Dionysia Sweeney of Phoenixville. They have four children.

1947
Leo J. Corazza, M.D., Freemeland, Pennsylvania, was honored by the Freemeland Community Post 5010, Veterans of Foreign Wars at a recent testimonial dinner. Dr. Corazza was presented with a life membership in the Veterans of Foreign Wars.

Andrew J. Wehler, M.D., Box 247, Columbus, Montana, is going to Northern Rhodesia, Africa as a medical missionary to work in a hospital run by the Sisters of Our Lady of the Sacred Heart.

Dr. and Mrs. Wehler have eight children.

1949
Otto M. Lilien, M.D., recently became associated with Dr. Jacob Frumkin in the practice of urology at 1005 Union Street, Schenectady, New York.

Dr. Lilien has been attending physician full-time in urology at the Francis Delafield Hospital, New York City, since January of 1959.

1951
William A. Abelove, M.D., 3180 Coral Way, Miami, Florida, has been promoted to the post of Clinical Assistant Professor of Medicine at the University of Miami School of Medicine. Dr. Abelove is a Diplomate of the American Board of Internal Medicine and he practices in Coral Gables, Florida.

1953
Harold Y. Allen, M.D., 412 South Adams Street, Birmingham, Michigan.

Dr. Allen writes that he has recently accepted a position as Associate Medical Director of the Pontiac Motor Division of General Motors Corporation, and that his family consists of five children, the youngest of whom is 16 months old.

William Francis Xavier Coffey, M.D., 951 S.W. 14th Ave., Rochester, Minnesota.

Dr. Coffey was awarded the degree of Master of Science in Medicine by the University of Minnesota on June 11, 1960.

David W. Kulp, M.D., 1581 Linden Avenue, Lancaster, Pennsylvania, has assumed new duties as Medical Director and Chief Psychiatrist at the Lancaster Guidance Clinic.

Prior to this position, Dr. Kulp served a two year fellowship at the Philadelphia Child Study Center. He also held a teaching fellowship at Tufts Medical School and was a resident in psychiatry at Philadelphia State Hospital.

Burton M. Rudolph, M.D., 9375 Park Drive, Miami Shores 38, Florida.

Dr. Rudolph writes that for the past two years he has been associated with his father, Dr. Jack A. Rudolph of the Class of 1928, in the practice of Allergy.

Richard O. Stader, M.D., 326 Country Club Boulevard, Florence, South Carolina, has completed his training in children's orthopedics and is now in practice in orthopedic surgery with an associate in Florence, South Carolina.

1954
Milton R. Okun, M.D., recently announced that he has opened an office for the practice of dermatology at 1683 Beacon Street, Brookline 46, Massachusetts.

William J. Oschel, M.D., 209 East Willow Grove Avenue, Philadelphia, Pennsylvania, is specializing in internal medicine and is a resident at Germantown Hospital, Philadelphia.

Dr. Oschel is married and has a daughter.

Henry W. Fletcher, M.D., 52 Grand Avenue, Poughkeepsie, N. Y.

Dr. Fletcher writes that he has started private practice in Poughkeepsie and although he likes the town very much and is off to a good start, he is sorry not to have found more Jefferson graduates in the area.

Jack N. Rosenberg, M.D., 116 Shasta Road, Plymouth Meeting, Pennsylvania, specializes in surgery, is affiliated with Albert Einstein Medical Center, Northern Division and has his office in Suite 406, Tabor Medical Building. Dr. Rosenberg is married and has a son and two daughters. His hobbies are reading, golf and bridge.

Murray N. Silverstein, M.D., 832 Twelfth Avenue, South East, Rochester, Minnesota, will complete his fellowship in internal medicine at the Mayo Clinic in October and will become an Assistant to the Staff of the Mayo Clinic at that time.

In June, 1960, Dr. Silverstein received the Judson Doland Travel Award given for special achievement as a Fellow in Internal Medicine. Dr. and Mrs. Silverstein have four children, Andrew, age four, Judith, age three, Theodore, age 21 months and a new son, Jason, born July 16, 1960.

Ronald Tocantins, M.D., 731 McGilvira Boulevard, Seattle 2, Washington, recently opened an office for private practice in ophthalmology.

1955
Earl L. Bernstein, M.D., was recently appointed to the surgical staff at York Hospital and has opened an office for the practice of general surgery at 800 South George Street, York, Pennsylvania.

Dr. Bernstein is married to the former Marguerite Binns and they have two children.

Robert Capper, M.D., has been appointed a resident in psychiatry at the Presbyterian Medical Center in San Francisco, according to John R. Little, President of the Board of Trustees.

Dr. Capper has served at Albert Einstein Medical Center and Philadelphia Psychiatric Hospital.

Richard A. Cohen, M.D., 328 South Rexford Drive, Beverly Hills, California, writes:

"I have been in California since graduation and after the usual residency have started my practice in Internal Medicine in West Covina, California. In addition, I spend several hours a day at the City of Hope in Duarte where I have to do with screening patients for admission to that institution.

"However, most important of all, I am now happily married to the former Gloria Shulman of Beverly Hills, and we have an adorable young son, Mark Howard, who is one year old.

"Best wishes to everyone at Jeff and particularly to the Class of 1955."
Edward Cornfeld, M.D., recently began a two-year residency in Obstetrics and Gynecology at Reading Hospital, Reading, Pennsylvania. Dr. Cornfeld served earlier residencies at Margret Hague Maternity Hospital and Methodist Episcopal Hospital in Philadelphia.

George E. Lenyo, M.D., recently opened an office at 115 Carbon Street, Weatherly, Pennsylvania. Previously, Dr. Lenyo was practicing in McAdoo, Pennsylvania and he is on the staff of Hazleton and St. Joseph's Hospitals and holds membership in the Luzerne County, Pennsylvania and American Medical Societies.

Parish Shoaff, III, M.D., 1405 Highland Ave., New Castle, Pa., recently announced the opening of his office for the practice of medicine at 308 North Mercer Street, New Castle, Pennsylvania.

Dr. Shoaff completed a four year residency in surgery at Lankenau Hospital in Philadelphia late last year and is married to the former Gladys Brown. Dr. and Mrs. Shoaff are the parents of a baby girl, Carol Anne, six months old.

F. William Sunderman, Jr., M.D., has been appointed Chief of the Clinical Chemistry Section in the Clinical Pathology Department at the Clinical Center, National Institutes of Health, Bethesda, Maryland.

Philip H. Taylor, M.D., White Cross Hospital, 700 North Park Street, Columbus, Ohio, was awarded the first certificate of its kind by the White Cross Hospital Association recently. Chief resident in surgery at White Cross for the last two years, Dr. Taylor received the award at the annual recognition dinner for the hospital's house staff. Dr. Taylor was commended for outstanding work as a surgeon at White Cross and at James Hospital, Ohio Penitentiary, with which White Cross is affiliated. Dr. Taylor is married to the former Susan Bond of Charleston, and they have two children.

1956

J. Morley Davis, M.D., 141 E. Sunbury Street, Shamokin, Pennsylvania, has been elected President of the Northumberland County Unit of the American Cancer Society.

Albert H. Grollman, M.D., 1498 Beacon Street, Brookline 46, Massachusetts, writes that he was in the Army from 1957 until 1959 and is now a resident in Internal Medicine at Boston City Hospital.

Richard L. Lipson, M.D., 839 Second Street, South West, Rochester, Minnesota, was awarded the degree of Master of Science in Medicine from the University of Minnesota on July 14, 1960. Dr. Lipson is a Fellow in Medicine at the Mayo Foundation in Rochester, Minnesota, which is part of the Graduate School of the University of Minnesota.

Robert W. Smith, M.D., will open his office for the practice of internal medicine and cardiology at 1408 Old York Road, Abington, Pennsylvania. After interning at Abington Memorial Hospital, Dr. Smith received a fellowship to the Lahey Clinic in Boston. Dr. Smith spent a year in cardiology and internal medicine at the Veterans Administration Hospital, Philadelphia.

Claude M. Williams, Jr., M.D., was recently released from active service in the U. S. Army and had been stationed at the army hospital at Ft. Lawton, Seattle, Washington. Dr. Williams will take up his second year of residency in obstetrics and gynecology at the Harrisburg Hospital, Harrisburg, Pennsylvania.

1957

Richard N. Smith, M.D., was recently appointed to the staff of the Pottstown Mental Health Clinic in Pottstown, Pennsylvania, as psychiatrist working with children and adults.

Charles D. Thomas, M.D., 3320th Base Hospital, Amarillo Air Force Base, Amarillo, Texas. Dr. Thomas writes that he is still in the Air Force, serving as a Flight Surgeon and working in Internal Medicine. He expects to be discharged in June of '61. A daughter, Karen Colene, was born to Dr. Thomas and his wife on September 5, 1959.

1958

James M. LaBraico, M.D., 574 Seybert Street, Hazleton, Pennsylvania. Dr. LaBraico has been commissioned a Captain in the United States Air Force and has been given a two-year assignment as a medical service officer with the Strategic Air Command.

1959

Three members of the Class of 1959 have received Fellowships at the Mayo Foundation in Rochester, Minnesota: Dr. Ronald J. Centrone has been appointed a Fellow in Neurologic Surgery, Dr. Francis J. Kazmier a Fellow in Medicine and Dr. George Papas a Fellow in Surgery.

The Mayo Foundation is part of the Graduate School of the University of Minnesota.

Patrick V. Castellano, M.D., who has just completed his internship at Sacred Heart Hospital, Norristown, Pennsylvania, plans to establish his residence and offices at Sixth Avenue and Hallowell Street, Conshohocken, Pennsylvania.

Dr. Castellano is married to the former Miss Marlene LaRue Guest and the couple have a daughter, Audrey Denise, fifteen months old.

Frederic Alden Phillips, M.D., c/o Box 128, Jensen Beach, Florida, was the first recipient of an annual award which has been established through the Dr. Henry F. Hunt Memorial Fund to encourage young doctors at the Geisinger Memorial Hospital and Foss Clinic to develop better public understanding of the importance of autopsies in the advancement of medical science.

Dr. Phillips recently completed his internship at Geisinger Memorial Hospital, Danville, Pennsylvania and is presently in the U. S. Air Force Medical Corps.

William Edward Ryan, M.D., will open his office for the general practice of medicine at 2384 Pennington Road, Trenton, New Jersey. On July 1, 1960, Dr. Ryan completed his internship at St. Francis Hospital, Trenton, New Jersey.

Carl F. Schultheis, Jr., M.D., 859 Old Lancaster Road, Bryn Mawr, Pennsylvania, has been awarded a $4,800 pediatric residency fellowship by Wyeth Laboratories. Dr. Schultheis will take his residency at Philadelphia General Hospital.

L. Brooke Walker, M.D., 776 Cypress Street, Pocatello, Idaho.

Dr. Walker has recently been assigned as Medical Officer for the Fort Hall (Idaho) Indian Reservation, marking the first time a medical doctor has been placed in charge of Indian Health facilities on the Reservation since the U.S. Public Health Service's Division of Indian Health assumed responsibility for the program in 1955.

Dr. Walker began active duty in the Public Health Service on August 2 with the rank of Senior Assistant Surgeon.
1932

Dr. and Mrs. Lewis C. Manges, Jr., of Bala-Cynwyd, Pennsylvania, announce the marriage of their daughter, Barbara Ann, to Mr. Alvin Honey Clemens of Harleysville, Pennsylvania. The wedding took place Saturday, June 4, 1960.

1948

Dr. William B. Shope was married to the former Miss Dorothy Hayden Kimmel on Saturday, August 6, 1960 in Greensburg, Pennsylvania.

After September 1, 1960, Dr. and Mrs. Shope will reside at 231 Painter Avenue, Greensburg, Pennsylvania.

1952

Dr. Gabriel Tatarian was married to the former Miss Virginia Sudjian on Saturday, June 25, 1960, at Washington Memorial Chapel, Valley Forge, Pennsylvania.

Mrs. Tatarian studied at the University of Pennsylvania, and Dr. Tatarian is an Assistant in Obstetrics and Gynecology at the Jefferson Medical College. He is also an obstetrician in Bridgeton, Pennsylvania.

1953

Dr. Dean Chalmers Shore was married on August 20, 1960 to Juli-anne Mary Maranville, of Summit, New Jersey. The couple will live in Morristown, New Jersey after a wedding trip to Bermuda.

1954

The engagement of Dr. Walther Turner Weylman to Miss Mary Jean Mahler of Scarsdale, New York, was recently announced.

Miss Mahler is a graduate of Mount Holyoke College and Harvard Graduate School and is presently teaching.

Dr. Weylman is a resident in radiology at Massachusetts General Hospital in Boston.

1955

Announcement has been made of the engagement of Dr. William Taylor Brandfass to Miss Jane Ann O’Kane, of Philadelphia, Pennsylvania.

1956

Dr. Vincent Andraccio and the former Sylvia Lolita Boykin were married on September 3, 1960 in Wilson, North Carolina. Mrs. Andraccio holds a bachelor of science degree and a master of arts degree from East Carolina College and before her marriage was an elementary school teacher.

1958

The engagement of Dr. Robert E. Gross to Miss Lois Ramsey, of Ithaca, New York, has recently been announced. Miss Ramsey was graduated from Geneva College, Beaver Falls, Pennsylvania. No date has as yet been set for the wedding.

1959

Dr. Richard W. Godshall was married on June 25, 1960 to the former Miss Sandra Kay Giles, in Greenfield Hill, Connecticut.

Mrs. Godshall is a graduate of Ohio Wesleyan University and was assistant buyer for Strawbridge and Clothier in Philadelphia. Dr. Godshall recently completed his internship at Geisinger Memorial Hospital, Danville, Pennsylvania.

Dr. and Mrs. Godshall are residing at the Scott Air Force Base, East St. Louis, Illinois.

Dr. Anthony J. DiMaio was married to the former Miss Cecilia Marie Quitinsky on Saturday July 23, 1960 in Mahanoy City, Pennsylvania.

Dr. DiMaio just completed his internship at Delaware Hospital, Wilmington, Delaware.

The engagement of Dr. Willis G. Srose to Miss Dorothy J. Schniepp, of Drexel Hill, Pennsylvania, has been announced. Miss Schniepp is attending Jefferson Medical College School of Nursing.

1960

The engagement of Dr. Ernest C. Dunn to Miss Louise Cornell Williams of Pitman, New Jersey, was recently announced.

Miss Williams is a graduate of Pitman High School and the Jefferson Medical College Hospital School of Nursing.

Dr. Dunn is presently interning at Thomas M. Fitzgerald Mercy Hospital, Darby, Pennsylvania.
The engagement of Dr. Robert H. Stine to Miss Lois Elaine Kihlgren of Berkeley Heights, New Jersey, was recently announced. The couple plan an October wedding.

Miss Kihlgren is an alumna of Jonathan Dayton Regional High School, Presbyterian Hospital School of Nursing, Philadelphia, and Barrington College. She is on the faculty of the Presbyterian Hospital School of Nursing, Philadelphia.

Dr. Stine is presently interning at St. Luke's Hospital, Bethlehem, Pennsylvania.

Dr. James R. Ramser was married recently to the former Miss Janice Eileen Secrist in McConnellsburg, Pennsylvania.

Mrs. Ramser is a graduate of Methodist Episcopal Hospital School of Nursing in Philadelphia.

Dr. Ramser is presently serving his internship at Henry Ford Hospital, Detroit, Michigan.

Dr. Richard F. Howden was married to the former Miss Joan Mary Mantell on Saturday, June 11, 1960, at Washington Memorial Chapel, Valley Forge, Pennsylvania.

Dr. Howden is presently interning at the Denver General Hospital, West Sixth Avenue and Cherokee Street, Denver 4, Colorado.

Dr. Harvey W. Oshrin, was married on August 27, 1960 to Miss Neldra L. Ackerman at Oak Grove, Oregon. Mrs. Oshrin was a student nurse at The Jefferson Medical College Hospital School of Nursing and is at present a nurse at St. Joseph's Hospital in San Francisco.

Dr. Oshrin is serving his internship at St. Luke's Hospital in the same city.

**BIRTHS**

1954

Dr. and Mrs. Charles H. Greenbaum, of Rydal, Pennsylvania, announce the birth of their second son, Robert David, born August 7, 1960.

Dr. and Mrs. John S. Hamilton, 1617 Enolam Boulevard, South East, Decatur, Alabama, announce the birth of twin sons on May 31, 1960.

Dr. Hamilton is in the practice of radiology in Decatur.

Dr. and Mrs. Francis J. Nash, 10 Cape Cod Lane, Milton 86, Massachusetts, announce the birth of their third son, Peter Dennis, on May 24, 1960 at St. Margaret's Hospital, Boston.

1959

Dr. and Mrs. Ronald E. Cohn, 124 Pine Avenue, Kane, Pennsylvania, announce the birth of their first child, a girl, Sheryl Ann, on May 13, 1960.

Dr. and Mrs. David Meckler announce the birth of a son, Robert William, on June 25, 1960.

Dr. Meckler completed his internship at Akron City Hospital and is now serving his pediatric residency at Children's Hospital in Akron, Ohio.

Dr. and Mrs. Meckler are residing at 119 Manor Road, Akron 13, Ohio.
Twelfth Roll Call Century and Five Hundred Donors
Alumni Annual Giving Fund

The names of the alumni, their widows and faculty members who have responded to last year’s Fund appeal by contributing in amounts of one hundred dollars and over are listed here in grateful appreciation. Your committee for the past eight years has invited all who could contribute in these more substantial amounts to give thoughtfully and proportionately and instituted the Century and Five Hundred group acknowledgment of these gifts. The five hundred and thirty alumni recorded on this roll contributed slightly less than half of last year’s Fund amount. The warm thanks are again expressed by the Alumni Fund Committee of the Jefferson Medical College for all the gifts, regardless of size, made to advance the progress of our Alma Mater.
