To All Jefferson
Alumni and Their Dear Ones—
Greetings:

Because we hold you in deep affection and good fellowship, we are sending you this message to let you know that we are thinking of you at this Christmas Season. Even those who are very far away seem near to us at this time, so feeling your presence we want to wish you and yours a Very Merry Christmas and a Happy New Year, which we trust will bring you everything good and all your hearts’ desire. God bless you every one.
Letters

The Executive Committee of the Alumni Association has authorized the Publication Committee to publish, from time to time, letters from the Alumni which have general interest. The following letter from Dr. David B. Allman, Class of 1914, is indicative of this policy.

John H. Hodges, Chairman
Publication Committee

Dear Mr. Chairman:
The October issue (Volume XI, Number 9) of The Jefferson Bulletin arrived this morning and, as usual, with avid interest I read it word for word, "civer to civer."

I am, indeed, grateful for the "advertisement" given me on page twenty-three under "Class Notes," and I appreciate it.

But to say that I was sorely grieved is to put it most mildly.

Of the many positions which I have held, and the honors which have been bestowed upon me, I noticed that in the Jefferson Alumni Bulletin you have omitted what I consider, by far, the greatest honor I have ever received and, in my opinion, the most important position I have ever held.

I AM A PAST PRESIDENT OF THE JEFFERSON MEDICAL COLLEGE ALUMNI.

REMEMBER?

s/ David B. Allman, M.D., F.A.C.S.
Past President
The Jefferson Medical College Alumni

When Dr. Francis F. Borzell, of the Class of 1906, retired two years ago he moved from Philadelphia to Browns Mills, New Jersey, where he had for many years maintained a summer residence.

Once there, Dr. Borzell almost at once became active in the affairs of the Browns Mills Improvement Association and is now its President. Among the many duties attendant upon this position is that of writing a column for the local weekly paper. "Pine Knots," as it is called, is the official column of the Improvement Association and in it Dr. Borzell discusses many topics of interest—from international affairs and national politics to news of purely local interest. He unfailingly exhorts everyone to take very seriously his duties and prerogatives as a citizen.

We feel sure that other doctors who are retired or who contemplate retiring will be interested in Dr. Borzell’s comments as to how men like himself can occupy their time and simultaneously help in the great task of improving the status of physicians in the community.

Dr. Borzell writes:

"Sudden retirement can be deadly to the fellow who finds himself in that state. While only a little over a year in retirement from a rather active professional life of fifty-five years, I find myself busy and enjoying life. I am sure had I not plunged into civic activities in this little community I would have soon suffered from the deadly ennui that has been fatal to others. I would like to see someone implement a suggestion that retired doctors take advantage of the natural prestige they enjoy as physicians and, freed as they are of the handicaps of active practice, plunge into civic affairs. This can only be helpful in improving public relations of our profession which surely need a stimulant."
Sixty-three Alumni, wives and guests attended the Jefferson dinner on October 5, 1960 in the Rutland Room at Haddon Hall during the Pennsylvania Medical Society Convention in Atlantic City.

Dr. John H. Gibbon, Jr., President of the Alumni Association, welcomed the guests and introduced several, among them Mrs. Berlin, wife of Dr. Allison J. Berlin, Class of 1927, who is the President-elect of the Woman's Auxiliary to the Pennsylvania Medical Society and Mrs. Bowers, wife of Dr. Paul A. Bowers, Class of 1937, who is President of the Philadelphia County Woman's Auxiliary, and Mrs. Sodeman, wife of Dean William A. Sodeman, who is a Delegate from Philadelphia County Woman's Auxiliary. Dr. Gibbon also introduced Dr. John A. Daugherty, Class of 1928, who is National President of Blue Shield, and Mr. David K. Subin, Student A. M. A. Representative from Jefferson.

Dr. Gibbon called on Dr. Frank F. Borzell, Class of 1906, to say a few words and Dr. Borzell stressed the great importance of the physician's participation in civic affairs in his community.

Dr. Gibbon introduced Dean Sodeman, who spoke briefly and informally to the group about Jefferson's future plans.

Faculty and Alumni on Society's Scientific Program

The College was well represented on the program of the Convention both by Faculty and Alumni.

Bernard J. Alpers, M.D., Professor of Neurology and Head of the Department, moderated a panel on "Convulsive Disorders."
Heinrich Brieger, M.D., Professor of Industrial Medicine in the Department of Preventive Medicine, was panelist on "The Teaching of Preventive Medicine."

John K. Covey, M.D., Class of 1940, President of the Pennsylvania Academy of Ophthalmology and Otolaryngology, presided at the morning session of the Section on Ophthalmology and Otolaryngology, at which Carroll R. Mullen, M.D., Professor of Ophthalmology and Head of the Department, gave a paper on "Some Urgent Situations in Ophthalmology" and Nathan S. Schlezinger, M.D., Professor of Clinical Neurology, participated in a Symposium on "Headache."

Harry R. Draper, M.D., Associate in Clinical Psychiatry, participated on a panel having to do with "Postgraduate Psychiatric Training for the General Practitioner—Approaches and Experiences in Three Medical Schools."

John H. Gibbon, Jr., M.D., Samuel D. Gross Professor of Surgery and Head of the Department, gave a paper on "Cancer of the Lung—An Experience with 1,000 Cases."

John W. Goldschmidt, M.D., Associate in Physical Medicine and Director of the Division of Physical Medicine and Rehabilitation of the Department of Medicine, discussed "Physical Medicine in General Practice."

Harold L. Israel, M.D., Clinical Professor of Medicine, spoke on "The Devolutionary Pattern of Cor Pulmonale" in a panel discussion on "The Heart in Pulmonary Disease."

Robert I. Wise, M.D., Magee Professor of Medicine and Head of the Department, was a member of the panel which discussed "Present-Day Management of Pulmonary Infections."

The following faculty members had scientific exhibits:

Thomas F. Nealon, Jr., M.D., Associate Professor of Surgery; Herbert E. Cohn, M.D., Resident in Surgery, and John H. Gibbon, Jr., M.D., Samuel D. Gross Professor of Surgery and Head of the Department—"Hemoperfusion for Hospital Coma."

J. Rudolph Jaeger, M.D., Professor of Neurosurgery in the Department of Surgery—"Tic Douloureux—Its Treatment by the Injection of Hot Water into the Gasserian Ganglion."

William H. Whitely, III, M.D., Assistant Professor of Neurosurgery, and R. Clinton Pittman, M.D., Resident in Neurosurgery—"Problems in Diagnosis and Treatment of Intervertebral Disk Disease."

John B. Atkinson, M.D., John H. Hodges, M.D., Gerald R. Atkinson, M.D., Emily Dunn, M.T., and Loretta Frisco, M.T.—"Plastic Capillary Coagulation Times from Cutaneous Punctures."

**Orthopedic Society Meets During Pennsylvania Medical Convention**

At the 5th Annual Meeting of the Orthopedic Society, held on Friday morning, October 7, 1960, during the Convention, James M. Hunter, M.D., Instructor in Orthopedic Surgery, gave a paper on "The Treatment of Injuries of the Flexor Canal" and John J. Gartland, M.D., Associate in Orthopedic Surgery, gave the Report of the Committee on Scientific Investigation.

**JEFFERSON PARTICIPATES IN ALL-DAY GERIATRICS SYMPOSIUM**

Together with Hahnemann Medical College, Temple University School of Medicine, University of Pennsylvania School of Medicine, Woman’s Medical College and the Philadelphia County Medical Society, Jefferson participated in a Symposium on "An Orientation in Geriatric Management" held on October 16 at The Sheraton Hotel in Philadelphia.

The Symposium, which was made possible by a grant from Lederle Laboratories, opened with registration at 8:30 a.m. and concluded with a reception in the Sheraton Ballroom at 5:30 p.m.

Physicians’ wives were also invited and special entertainment had been arranged for them by a Committee headed by Mrs. William A. Sodeman.

Dr. C. Wilmer Wirtz, Associate Professor of Medicine at Jefferson, was Moderator for the morning session and Dr. Joseph T. Freeman, Class of 1934, Clinical Professor of Medicine at Woman’s Medical College, moderated the afternoon program. In the morning session, Dr. Burgess L. Gordon, Class of 1919, Visiting Professor of Medicine at Jefferson, spoke on "Emphysema."

The Symposium was open to all physicians in the area and some 600 attended the all-day program.
Postgraduate Medical Seminar Scheduled for Paris in April

Dean William A. Sodeman has announced that Jefferson Medical College is sponsoring a Postgraduate Medical Seminar for its Alumni and Faculty in Paris from April 4 through April 16, 1961. Brochures describing the itinerary and various highlights of the trip have gone out to all Alumni and Faculty members and to date 208 reservations have been received.

The following Jefferson Faculty members will participate in the program: Dean William A. Sodeman; Dr. Bernard J. Alpers, Professor of Neurology and Head of the Department; Dr. Samuel S. Conly, Jr., Assistant Dean; Dr. Robert A. Matthews, Professor of Psychiatry and Head of the Department; Dr. Thaddeus L. Montgomery, Professor of Obstetrics and Gynecology and Chairman of the Department and Dr. Thomas F. Nealon, Jr., Associate Professor of Surgery. In addition, distinguished French physicians will take part in the Seminars.

The trip will be made via Air France and Sabena jet planes and those attending will stay at the Grand Hotel in Paris. Various sightseeing excursions are included in the “package” price and, in addition, there are optional trips to London and the Riviera.

JEFFERSON ORTHOPEDIC SOCIETY

Cocktails and Dinner

Wednesday, January 11, 1961

ROBERT BRUCE NYE, M.D.

Dr. Nye Named Associate Dean

The Board of Trustees of Jefferson Medical College and Medical Center has announced the promotion of Dr. Robert Bruce Nye to Associate Dean. He had served as Assistant Dean since 1951 and in his new position he will continue to be responsible for the same areas of activities in the Dean's office as previously.

Dr. Nye is an alumnus of Jefferson, having graduated in 1927 and his association with the College has been continuous since he came here as a student. Even when he left for military duty during the Second World War, he served with the Jefferson Unit, the 38th General Hospital and was Chief of its Medical Service from 1942 until 1946. He was appointed Commanding Officer of the 38th General Hospital and Medical Consultant to the Africa-Middle East Theatre with the rank of Colonel, which he retains in the Reserve Corps.

Following his internship and residency at Jefferson, Dr. Nye was appointed Director of the Out-Patient Department (Curtis Clinic). In 1938 he was made Medical Director of the Hospital and remained in this capacity until he entered military service in 1942. When he was released from the Army in 1946 he was appointed Assistant Professor of Medicine and in 1951 began his duties as Assistant Dean.

In addition to these offices, Dr. Nye served from 1931 to 1938 as ward and private assistant to the late Ross V. Patterson and has also been Assistant Attending Physician to the Hospital and Cardiologist and Physician in charge of the Ross V. Patterson Heart Station.

Dr. Nye was born in 1905 in Winterville, North Carolina and received his undergraduate education at the University of North Carolina. In 1938 he took postgraduate work in Cardiology at the University of London under the late Sir Thomas Lewis.

He has been active in Jefferson Alumni affairs since he became a member of the Executive Committee in 1934 and in February of 1958 he was elected President of the Alumni Association.

He has also served as President of the Jefferson Ex-Internes and Ex-Residents Society and of the Jefferson Society for Clinical Investigation.

Dr. Nye is a member of many professional organizations, among them the American Medical Association, Pennsylvania Medical Society, Philadelphia County Medical Society, American Heart Association and the Southeastern Pennsylvania Heart Association of which
he was a member of the Board of Governors for ten years. He is also a Fellow of the American College of Physicians.

He belongs to Sigma Nu and Alpha Kappa Kappa Fraternities, the Union League, Philadelphia Country Club and Philadelphia Art Alliance.

In 1933 Dr. Nye was married to Alice Barrow Stone of Bluefield, West Virginia and they reside in Penn Valley with their two children. Dr. Nye maintains a private practice, specializing in diseases of the cardio-vascular system.

An Alumnus of Jefferson in the Class of September 1944, Dr. Conly began his duties with the College in 1948, first as a Demonstrator and then as Instructor in the Department of Physiology. During the years 1951 and 1952, Dr. Conly engaged in private practice and in 1953 he returned to Jefferson as Assistant Professor of Physiology. In 1955 he was promoted to Associate Professor.

Dr. Conly was born in Philadelphia and received his undergraduate education at Lafayette College. Following his graduation from Jefferson, he interned at Bryn Mawr Hospital and then entered the United States Army as a First Lieutenant in the Medical Corps. He completed his tour of duty in 1947 with the rank of Captain.

He is a member of The American Medical Association, Pennsylvania Medical Society, Philadelphia County Medical Society, Philadelphia Physiological Society, the Medical Club of Philadelphia and the Physicians Motor Club. He is also a member of Phi Beta Kappa Honorary Scholastic Fraternity and an honorary member of Phi Chi fraternity.

In 1943 Dr. Conly married Marjorie A. Cornish of New Rochelle, New York and they live, with their four children, in Wallingford, Pennsylvania.
J. Warren Brock, Esquire
Named Secretary of Board of Trustees

J. Warren Brock, Esquire, has been named Secretary of the Board of Trustees of the Jefferson Medical College and Medical Center. Mr. Brock had been acting Secretary since January, 1957.

Mr. Brock was born in Waynesburg, Pennsylvania and attended high school there. He spent his first two undergraduate years at Waynesburg College and then transferred to Allegheny College from which he was graduated in 1920. He received his Law Degree from the University of Pennsylvania in 1926.

In that same year he became associated with the Philadelphia law firm of Obermayer, Rebmann, Maxwell and Hippel and is now a partner in the firm. He also serves as a Director of William E. Hooper & Sons Company and of The Automobile Club of Philadelphia.

Among the professional societies of which Mr. Brock is a member are Phi Delta Phi, Order of the Coif, and the Philadelphia, Pennsylvania and American Bar Associations. He is also a member of Phi Sigma, Sigma Alpha Epsilon, Alpha Chi Sigma and Theta Nu Epsilon fraternities, and he belongs to The Racquet Club and the Midday Club.

Mr. Brock is married to the former Frances A. Atkins and they have one son, John W. Brock, Jr., who is also an attorney. The Brocks reside in Philadelphia.

Mr. McWilliams Appointed to New Position as Assistant to President

The appointment of Gordon B. McWilliams to the newly created office of Assistant to the President has been announced by the Board of Trustees of the Jefferson Medical College and Medical Center. Mr. McWilliams, who had been senior Assistant Director of the Medical Center under Dr. Ellsworth R. Browneller, will now assist Mr. Bodine in coordinating the details of Jefferson’s Development Program, its financing and its construction projects.

Following his graduation from Williams College and subsequent military service, Mr. McWilliams took postgraduate work at the University of Massachusetts and then the Columbia University School of Public Health and Administrative Medicine from which he obtained his Masters Degree.

He came to Jefferson in October of 1956 as an Administrative Assistant and in 1957 was made Assistant Director.

Mr. McWilliams is a member of the American College of Hospital Administrators, the American Hospital Association and the Philadelphia Hospital Association.

He is married to the former Sigrid B. Spro, a native of Oslo, Norway and, with their three children, the McWilliams reside in Darling, a suburb of Philadelphia.
Promotions, New Appointments, Resignations and Deaths

Promotions
Robert L. Brent, M.D., Ph.D. from Associate Professor to Clinical Professor of Pediatrics

New Appointments
Stanley Dische, M.B., B.S., Assistant Professor of Radiology
Gow Tue Lam, Ph.D., Research Associate in Medicine
Josefina M. Ortega, M.D., Instructor in Pathology

Death
Dr. Benjamin Lipshutz, Assistant Professor of Neuroanatomy, and a faculty member for forty-six years, died October 9, 1960, at the age of seventy-two. He had been chief of surgery at Einstein Medical Center, Southern Division for twenty-five years.

After graduating from Jefferson in 1912 and joining the faculty in 1914, he held a Corinna Borden Keen Research Fellowship in 1916-17. He then served in the USNR Medical Corps as a lieutenant. Dr. Lipshutz was a member of the Philadelphia Academy of Surgery, the American Association of Anatomists, the American College of Surgeons and was in the founders' group of the American Board of Surgery. He was also a member of the AMA, the Pennsylvania Medical and County Medical Societies.

Dr. Lipshutz is survived by his wife, the former Hattie Levine, two sons, Dr. Herbert Lipshutz (Jefferson, 1944S) and Morton Lipshutz; a brother, Samuel, and two sisters, Mrs. Maury Gold and Mrs. Morton Rose.

Frederick William Sunderman, Jr., M.D., Instructor in Medicine
Albert David Wagman, M.D., Assistant in Neurology (Philadelphia General Hospital)
Saul Lipkin, B.A., Teaching Fellow in Microbiology
Walter Schlosser, M.S., Teaching Fellow in Pharmacology

Resignation
Jack Herbert Weinstein, M.D., Instructor in Psychiatry

BENJAMIN LIPSHUTZ, M.D.
New Cardeza Foundation Laboratories Dedicated

The new $500,000 air-conditioned Cardeza Foundation Laboratories building of the Jefferson Medical College at 1015 Sansom Street was dedicated on November 8 at a private ceremony. Mr. J. Howard Pew, Chairman of the Cardeza Committee of the Board of Trustees, cut the black and blue ribbon across the main entrance and discussed the facilities of the Center for the study of blood. The laboratories now rank among the most important in the nation.

Dr. Leandro M. Tocantins, Thomas Drake Martinez Cardeza Professor of Clinical Medicine and Hematology, then presided at a meeting and outlined the current Cardeza research program. Scientific papers were read by Dr. Louis Kazal, Associate Director; Dr. Melvin Silver, Associate Member and Dr. Claude Brosseau, a Research Fellow.

The new headquarters centralizes in a building purchased last year and entirely rehabilitates the functions of the Cardeza Foundation which had previously been located in various areas of the Jefferson Medical College and Medical Center. Additionally, new apparatus was acquired and the entire building adjusted to the latest needs of advanced research.

Alfred Panepinto, an architect associated with the Sun Oil Company, received an engrossed testimonial for his contribution to the planning of the building.

A series of "Open Houses" is planned for friends of Jefferson.

Honorary Degrees Conferred Upon Two Board Members

Two members of Jefferson’s Board of Trustees, William F. Kelly and R. George Rincliffe, were awarded honorary degrees by St. Joseph’s College at its Convocation Exercises on October 2, 1960. Mr. Kelly is President of the First Pennsylvania Banking and Trust Company and Mr. Rincliffe is President of Philadelphia Electric Company.

Medical Educator from India Visits Jefferson

On October 3, 1960, Dr. S. V. Joglekar, Dean of the Seth G. S. Medical College and K. E. M. Hospital in Bombay, India, visited Jefferson while in the United States under the auspices of The Rockefeller Foundation.

The purpose of Dr. Joglekar’s trip is to observe American medical education and related methods of administration and organization, and Dean Sodeman arranged his day’s schedule to include conferences regarding admissions procedures, handling of Alumni affairs, and hospital administration. In addition, Dr. Joglekar lunched in the Department of Microbiology with Dr. Goodner and spent another hour with him, after which he visited the Department of Pediatrics and conferred with Dr. Keitel.
COMMITTEE ANNOUNCES
GRADUATE ASSEMBLY
PROGRAM AND PLANS

Because of the many favorable comments received last year, the Committee on Graduate Assembly of the Alumni Association has decided that again the activities of the Assembly will be based at The Warwick Hotel. As an added feature of interest, however, there will be one luncheon, on Thursday, February 16, 1961, in McClellan Hall at the College and the program for that afternoon, which includes a Clinical Pathologic Conference and a Clinic on Pediatric Dermatology, will also be given in the College.

Since many Alumni have expressed a desire to be able to spend some time in the various College Departments, observing the Faculty "at work" in Clinics, teaching sessions and hospital rounds, the Committee has arranged with Department personnel for a full day of such activity. This portion of the Graduate Assembly will be held on Tuesday, February 14, the day before the formal sessions begin. It is an opportunity for a limited number of Alumni to participate in the activities of the College and Hospital as guests of the Clinical Department of their choice. The day may be spent at Jefferson in the regular teaching and patient care activities of the Departments selected and in the special conferences and clinics which may be held for this occasion. For one day at least, Alumni can again attend medical college at Jefferson— but this time under 1961 conditions.

Other items of interest on the program this year are two breakfast seminars, with round table discussions to be led by faculty members, scientific exhibits and panel discussions on subjects about which it is believed the general practitioner will welcome information on new developments.

Again, those attending are cordially invited to bring their wives. Entertainment for the ladies is being planned and full details of the several events tentatively scheduled will be announced in the programs which will be sent to all Alumni in January.

On Thursday, February 16, there will be a Dinner-dance for Alumni, Faculty members and their wives in the Ballroom of The Warwick Hotel. The Annual Business Meeting of the Alumni Association will not be held at that time but will be scheduled for a suitable hour during the three-day Assembly.

The preliminary program for the scientific sessions follows:

Tuesday, February 14, 1961

INSTRUCTION IN BIOSTATISTICS AIDS MEDICAL STUDENTS IN EVALUATING CLINICAL AND LABORATORY DATA

First Course Given at Jefferson in 1954

The term "statistics" means different things to different people. To some, statistics connotes accounting, and a statistician is a keeper of records—the man who computes and records batting averages or the individual who keeps track of the number of appendectomies performed during a given year. In others, the word "statistician" evokes a less complimentary image—e.g., "Liars, —— liars and statisticians," or "A statistician is a person who, using an approved scientific method, can draw a mathematically precise straight line from an unwarranted assumption to a foregone conclusion."

Statistics as a subject is a body of scientific methodology, a method of deriving generalizations from variable phenomena. In any type of scientific research, decisions must be made in the face of uncertainty; statistics simply aid in making wiser decisions.

It is virtually impossible today for a physician to read his medical journals without running into chi-squares, standard deviations, standard errors, "t" values, "F" values, "r" values, probabilities, etc., etc., etc. In view of the growing emphasis on quantitative methods, it has become imperative that the medical student, as well as the student in the medical sciences, become familiar with some basic concepts of experimental design and with the more commonly used statistical techniques.

Familiarity with statistics is necessary, not only as a tool in a man's own research and as an aid in understanding the literature where such methods are used, but also in the critical evaluation of papers in which statistical methods are used incorrectly or in which needed analysis has been omitted. Some men still refuse to have anything at all to do with formal statistics while, at the other extreme, some men apparently believe that clever arithmetic can compensate for poor research.

In a report published in the Journal of the American Medical Association in 1951, Dr. O. B. Ross, Jr. analyzed the first 100 articles on therapy published in five leading medical journals during the previous year. He found only 27 well-controlled studies; 45 were based on completely uncontrolled studies; in 18 more the controls were inadequate and in 10 no controls could be used because of the nature of the problem.

Medical students at Jefferson are being given training in biostatistics as an aid in understanding the scientific literature and in determining the statistical significance of clinical and laboratory data. These lectures are given by Hyman Menduke, Ph.D., Associate Professor of Biostatistics.

Dr. Menduke received his training at the University of Pennsylvania and taught there for six years before coming to Jefferson in 1953. The first formal course was given to the sophomore class at Jefferson in 1954 during the course in Pharmacology and has been given to every class since then. In addition, statistical problems more closely associated with clinical investigations and with preventive medicine are discussed during the Dean's Clinics and during the course in Preventive Medicine in the third year.

An attempt is made to acquaint the student with some of the basic principles of experimental design and to introduce such concepts as homogeneity, population, sample, randomization, bias, sources and types of error, statistical significance, etc.

He learns how to compute and interpret measures of central tendency and dispersion and how to compute and interpret "t" and chi-square as tests of statistical significance. He is given some background in important demographic characteristics and in vital statistics. Throughout, the emphasis is on interpretation and on limitations of methods rather than on sheer mechanics of computation.

The graduate students in the medical sciences at Jefferson are given an expanded course, designed more specifically for their needs in writing Masters and Doctoral
dissertations and for their future research work. In addition to the material given the medical student (in somewhat greater detail, exclusive of demography and vital statistics) the graduate student learns how to handle logarithmic analysis, how to compute various measures important in correlation and how to extend the comparison of means to more than two samples and to multiple classification (analysis of variance).

Attendance in the graduate course has at times been more than twice the official enrollment. Many members of both the Pre-clinical and Clinical Faculty have found this a convenient way of “brushing up” on their own knowledge of experimental design and statistical techniques.

Jefferson Joins with Pennsylvania State University in Presenting Postgraduate Seminars

Jefferson Medical College and the Pennsylvania State University have embarked upon a cooperative program of postgraduate seminars for Pennsylvania physicians. President Bodine and Dr. Eric A. Walker, President of Penn State, in a joint statement expressed the hope that the postgraduate seminars will be only the beginning of a growing cooperative program between the two institutions.

In these postgraduate seminars, Jefferson faculty members will conduct the academic portions which involve the study of medicine, while Penn State through its Continuing Education Services will handle the administration and arrangements.

The first of these seminars, which were held on November 3 in Chambersburg and York and on November 10 in Lancaster and Lebanon, were on the subject "Hypertension: A Sensible Approach to Therapy." Following the Chambersburg seminar, Jefferson Alumni from that area attended a dinner which had been arranged by Dr. Clifford B. Lull, Jr., Class of 1948.

The following Alumni served as program chairmen for their respective areas: Chambersburg, Dr. Lull; Lancaster, Dr. Milton Johns, Class of 1953; Lebanon, Dr. Robert Early, Class of 1952 and in York, Dr. Robert L. Evans, also of the Class of 1952.

The primary objective of the seminars is to place in the hands of the practicing physicians the latest information on topics of current interest in the diagnosis and treatment of patients. The failure to transmit such knowledge to physicians rapidly enough is one of medicine's principal problems today.

Dean Sodeman stated that the College believes its responsibilities to the medical profession continue after graduation. "In the past one hundred years," he said, "we have seen the physical sciences develop at an extraordinary rate. In the next twenty years the biological sciences will extend man's knowledge faster than anyone can predict at this time and it is the responsibility of the medical colleges to keep graduates informed of every breakthrough and every therapeutic discovery. With Penn State's help, we hope to extend the competence of Jefferson Medical College to every area of the Commonwealth not presently served by other agencies."

Dr. John H. Killough, Associate Professor of Medicine and Director of the Cardiopulmonary Unit and Dr. James E. Clark, Instructor in Medicine and in charge of the Artificial Kidney Unit, conducted these programs on November 3 and November 10 and the seminars were acceptable for three hours of Category I credit by the American Academy of General practice.

It is planned to hold future seminars throughout the State during the year, the subjects for these to be decided upon the basis of areas of interest listed on questionnaires which were circulated.

LOANS AND SCHOLARSHIP AID TO JEFFERSON STUDENTS

Medicine has always been in competition to some extent with other professions in attempting to attract desirable students; in recent years this competition has grown much more intense. Such factors as the lengthy training period, the limited number of openings in medical schools and the rather high cost to the student have no doubt deterred many from seeking a career in medicine. Almost any graduate student in the physical, life and social sciences can obtain generous financial support; comparable assistance is not readily available for medical students.

Jefferson Medical College is currently helping more students than ever before with loans and with scholarships. In 1957-58 we were able to give financial assistance to 16 students for a total amount of $11,600. During the current school year, we have already helped three and one-half times as many students, with four times as much financial assistance; 57 students have already received $46,200. The extent of this aid will doubtless be higher before June of 1961.
The Out-of-Town Speakers Committee of the Alumni Association has publicized in various ways the fact that Jefferson faculty members are interested in and willing to address not only Alumni Chapter meetings but meetings of County Medical Societies and other professional groups as well. Speakers were supplied this fall for two such latter groups.

On October 19, 1960 the Nesbitt Memorial Hospital in Wilkes-Barre held a medical seminar in conjunction with the regular monthly meeting of the Luzerne County Medical Society, the seminar being held at 2 p.m. in the auditorium of the Nurses' Home and the evening program being given in the Luzerne County Medical Society Building. Dr. Donald C. Smith, an Alumnus of Jefferson in the Class of 1931, is Program Chairman for the Society.

Jefferson Faculty members who participated in both afternoon and evening programs were: Dr. John Y. Templeton, III, Clinical Professor of Surgery; Dr. Thomas F. Nealon, Jr., Associate Professor of Surgery; Dr. Roy R. Greening, Professor of Radiology and Head of Diagnostic Services in the Department of Radiology and Dr. Harold I. Israel, Clinical Professor of Medicine.

In the afternoon session the general topic was Nonmalignant Disease of the Lung, and Dr. Greening spoke on "X-ray Diagnosis of Anthracosilicosis;" Dr. Israel discussed the "Management of the Patient with Anthracosilicosis;" Dr. Templeton spoke about "Suppurative Disease of the Lung" and Dr. Nealon gave a talk on "Bulbous Emphysema of the Lung."

The general topic for the evening program was Malignant Disease of the Lung and the speakers discussed the following subjects: "Management of the Patient with a Mass in the Lung," Dr. Israel; "X-Ray Manifestations of Cancer of the Lung," Dr. Greening; "Cancer of the Lung in the Patient with Anthracosilicosis," Dr. Nealon and "Treatment of Cancer of the Lung," Dr. Templeton.

A total of some 70 doctors from the Wilkes-Barre area attended the seminar.

Dean Sodeman and six faculty members gave a symposium on "Congenital Heart Disease" and a discussion of "Office Problems" at the Second Annual Alumni Institute sponsored by the Alumni Society of the University of Scranton on Saturday, November 19, 1960 in Scranton.
Pennsylvania. The Lackawanna County Medical Society and the Lackawanna Academy of General Practice also joined with the Alumni Society of the University of Scranton in sponsoring this program.

Dr. Nealon acted as Chairman of the Symposium on "Congenital Heart Disease" which ran from 10 a.m. to 1 p.m. Speakers and their respective subjects were: Dean Sodeman, "Congenital Heart Disease;" Dr. John H. Killough, Associate Professor of Medicine, "Diagnosis Aids Used in Congenital Heart Disease;" Dr. Henry Kane, Associate in Clinical Pediatrics, "The Diagnosis of Congenital Heart Disease" and Dr. John Y. Templeton, III, Clinical Professor of Surgery, "Surgery of Congenital Heart Disease."

Following the symposium, Dr. Earl F. Albrecht, Deputy Secretary of Health of the Commonwealth of Pennsylvania and an Alumnus of Jefferson in the Class of 1932, described the Pennsylvania Program to Aid in the Care of the Patient with Congenital Heart Disease.

Dr. Frank J. Sweeney, Jr., Instructor in Medicine and Dr. Kane were the discussants in the afternoon session on "Office Problems." Dr. Sweeney spoke on "Management of Office Infections" and Dr. Kane described "Management of the Child with a Murmur." Following their talks Dr. Sodeman moderated a round table discussion during which questions from the floor were presented.

Dr. Nealon, Chairman of the Out-of-Town Speakers Committee, wishes it known that this Committee welcomes requests for speakers from various medical groups. He points out that if sufficient time is permitted, requests for faculty members to discuss specific topics can undoubtedly be filled, but even on short notice the Committee will be able to arrange to furnish a speaker who will be well qualified to present a subject of general interest.

Some of the topics on which Panels are available are as follows: Benign Diseases of the Lung, Gastrointestinal Bleeding, Hypertension, Management of the Patient in Acute Renal Failure, Cancer of the Lung, Cancer of the Stomach, Management of the Patient with Inoperable Cancer, Management of the Blood Forming Organs, Management of the Genitourinary Tract, Trauma, Management of Patients with Back Pain, Disease of the Biliary Tract, Treatment of Congenital Heart Disease, Management of Patients with Complicated Acquired Heart Disease, What's New in Research, Treatment of Disease of Peripheral Vessels, Office Gynecology, Complications of Pregnancy, Infertility.

Inquiries as to available speakers or definite invitations should be addressed to Dr. Thomas F. Nealon, Jr., Chairman, Out-of-Town Speakers Committee, The Alumni Association, Jefferson Medical College.

JEFFERSON STUDENTS DO WELL IN NATIONAL BOARD EXAMINATIONS

The National Board of Medical Examiners was founded in 1915 for the purpose of maintaining and improving standards of medical education.

A number of medical schools use the National Board's examinations for all their students, thus providing an additional, completely impartial, objective and well established evaluation of the student's progress. These schools not only provide an advantage for their students in anticipation of licensure, but also, by virtue of the manner in which the results are now being analyzed, the school itself has a useful yardstick by which it may compare the training in its several departments with that of other schools.

Over the years, individual Jefferson students and graduates have elected to take the National Board examinations. In 1960, for the first time, Jefferson students were required to take the examinations, the grade achieved in the examinations to be incorporated in the total evaluation of each student. The entire Senior Class took Part II of the examinations; 35 members elected to take the examinations as Candidates for licensure.

It was most gratifying to learn that not one of these students failed the total examination and our proportion of honor students (grade of 88 or higher) was considerably above the national average for Candidates.

All members of the Sophomore Class took Part I of the examination as Candidates. Their average grade was considerably higher than that of nationwide Non-Candidates. This was, of course, expected since Candidates' scores on the average have always been considerably higher than those of Non-Candidates. Jefferson's averages, however, were higher also than the nationwide averages for Candidates. Jefferson also had a higher proportion of honor students than was true nationally.

The one very striking difference between Jefferson and the nationwide results was in the percentage of failures. Nationally the failure rate was 38.0% for Non-Candidates and 11.3% for Candidates; Jefferson's failure rate was considerably lower—4.8%.
College is Host to Alpha Epsilon Delta Pre-medical Conference Sponsored by La Salle College

On Saturday, November 12, Jefferson Medical College was host to the 11th Annual Eastern Pennsylvania Pre-medical Conference of Alpha Epsilon Delta which was sponsored by La Salle College.

The young pre-medical students from Eastern Pennsylvania registered in McClellan Hall at 9 a.m. and were welcomed by Dean Sodeman. The entire morning was then devoted to tours of the College and Hospital. Small groups, with Jefferson students as guides, were taken through each of the College Departments, the Library and Executive Offices and the various out-patient Departments in Curtis Clinic. They then toured the general Hospital building, Thompson Annex and the Pavilion. In addition, they visited the Blood Donor Center at 1015 Sansom Street and the Daniel Baugh Institute of Anatomy.

There was a small luncheon at noon at the Benjamin Franklin Hotel, attended by officials of La Salle, Officers of Alpha Epsilon Delta, Dr. Sodeman and Dr. Nye and the speakers for the afternoon session.

After luncheon the visitors returned to McClellan Hall to view a movie prepared by the Department of Surgery on the development of the heart-lung machine. Dr. Thomas F. Nealon, Jr. provided the running commentary for the film.

Following this there was an informal symposium on pre-medical and medical education, with each of the five local medical schools being represented by a speaker. Dr. Andrew J. Ramsay, Professor of Anatomy and Head of the Department, spoke for Jefferson and explained the requirements and problems involved in admission to medical school.

Bequests of Dr. James R. Martin and his Widow to be used in Jefferson Development Program

The Board of Trustees has recently announced its acceptance of a $650,000 bequest to Jefferson Medical College and Medical Center under the will of the late Mrs. Martin, widow of Dr. James R. Martin who had been Associate Dean of the College until his death in 1957. Dr. Martin was also an alumnus of Jefferson, having graduated in 1910.

Under Dr. Martin's will, the Institution received $320,000 and the total Martin bequests of $970,000 will, according to Mr. Percival E. Foerderer, Chairman of the Board of Trustees, be used in Jefferson's Development program which includes erection of a new basic science building and a commons-physical education building as well as the floor-by-floor rehabilitation of the main hospital which is now under way.
IMPORTANT CHANGES IN ANNUAL GIVING FUND PROGRAM RESULT FROM QUESTIONNAIRE SURVEY

Carroll L. Mullin, M.D., Chairman

Results of the questionnaire survey conducted last summer among members of classes from 1926 through 1959 were most interesting and gratifying. They have now been tabulated and studied carefully and I am pleased to report them at this time.

Some 4500 questionnaires were mailed and a total of 1695 were returned which is an exceedingly high response in such a survey. Checks totaling almost $4,000 accompanied a number of replies, which was an unexpected surprise since neither questionnaire nor accompanying letter asked for contributions.

As you know, one of the chief purposes of this survey was to determine whether Alumni wished to continue to have their gifts used entirely for support of pre-clinical salaries, or whether they had other areas of interest in affairs of the College.

On the facing page there is depicted on a "pie chart" the manner in which this question was answered. It will be obvious that an overwhelming percentage of our Alumni felt their gifts should be unrestricted, indicating that the College Administration knows best where these monies are needed.

The Annual Giving Fund Committee analyzed these questionnaires in great detail and, based upon these studies, decided to present to the Executive Committee of our Alumni Association for formal action a recommendation that, beginning in the 13th Roll Call, contributors would be given the following choices as to use of gifts: Unrestricted Funds, Pre-Clinical Salaries, Research and "Other." In the latter category the contributor may specify the definite use of his gift.

The Executive Committee of the Alumni Association, at a meeting on October 27th, carefully considered this recommendation and unanimously approved it by formal motion. Return envelopes which accompany letters from Class Agents list these categories and you may designate the one for which your contribution is intended.

We urge also that you read carefully the brochure written by Dean Sodeman, which has been sent to you by your Class Agent so that you will be fully informed of areas of specific need in the College and of plans for Jefferson's future. I believe that you will find this brochure interesting and informative.

It was necessary to await action by the Executive Committee so Class Agents' first letters are late in reaching you. We urge you to respond to these letters promptly so that this 13th Drive, for which we have such high hopes, will not lag behind schedule. At present, because Agents' letters went out late in November, our Fund total is only $17,200.

It is also believed that you would be interested in results of the second questionnaire sent to non-contributors. A chart on the facing page gives reasons from this group for non-participation in our Annual Giving programs.

We believe completely in the sincerity of the large number of Alumni who gave financial inability—because of internships, residencies, new practices, retirement or ill health—as reasons for not contributing. However, to this group we can only say that even a very small gift is very, very welcome. One of our strongest aims is to achieve a high percentage of participation. This is extremely important to the College in seeking financial aid from foundations, industry or private individuals. In each instance the question is asked "What percentage of your own alumni support the school financially?" We would like our answer to be 100%.

Perhaps our Committee was responsible for non-contributions by the group which gave "oversight," "slipped my mind," "intended to send my check but put it off" as their reasons for not having given. We should not have allowed these Alumni to "forget" the Drive.

To a group which said that "other heavy charitable demands" precluded their giving to Jefferson, we believe that your Alma Mater should always share a first on your list for contributions. Without your medical school some possibly would not now be in a financial position to contribute to any cause. Our debt to Jefferson for the education that contributed to our success is very great.

We are most appreciative of constructive suggestions given in many questionnaires and they were most helpful in formulating plans for the 13th Drive. You will hear of these plans later.

Your Annual Giving Fund Committee feels confident of success in the 13th Drive. We are confident because we know the depth of your loyalty to Jefferson and intensity of your interest in her future. We believe that in months to come you will demonstrate this loyalty and interest by sending generous contributions.

This is a welcome opportunity for your Giving Fund Committee to extend sincere good wishes to each and every one for a Joyous Christmas and a Happy and Prosperous New Year.
"SHOULD CONTRIBUTORS BE GIVEN A CHOICE OF USE OF FUNDS?"

"WHY DID YOU NOT CONTRIBUTE?"
Endowment Fund Committee
Reports on Financial Status
and Record of Aid to Alumni

The Alumni Endowed Room Fund has passed its fiftieth milestone. In the session of the Executive Committee on June 4, 1910, P. Brooke Bland moved that a Committee be appointed to solicit subscriptions from Jefferson graduates for an endowed room to be used for needy Alumni. The motion was unanimously passed after discussion. The first Endowed Room Committee consisted of P. Brooke Bland, William M. L. Coplin and George Evans Reading. Subscriptions received in the first year of the fund amounted to $636.00. On the fourth anniversary the total was $1,609.00; on June 1, 1928 it stood at $7,735.00, and so the fund has grown through the years.

The Trustees very kindly assumed the responsibility of investing the principal of the fund, adding the income as it accrued, so that in February, 1941 they informed the Alumni body that they had agreed to furnish a needy alumnus with an endowed room. Use of these facilities to all alumni in financial distress amounted to $6,176.37 through 1947.

To further supplement and improve this service, the Alumni Association undertook to raise an additional sum of $10,000, the income from which was to be used to provide special nursing service for the occupant of the endowed room. Contributions to this fund to 1953 amounted to $5,559.50. Coincidentally in 1953 the Rosenberger Memorial Fellowship Fund was combined with the Alumni Association Nursing Fund to become the Rosenberger Alumni Memorial Nursing Fund for Jefferson Graduates. Both of these funds have also been invested and administered by the Board of Trustees.

Since 1940, forty-six graduates have had the benefit of the facilities provided by the Alumni body and its friends. These facilities are available to all needy graduates, but not to their dependents. Occupancy of the endowed room is limited to four weeks. Application for the room is made through the Medical Director who consults with the Endowed Bed Committee.

The concern of the Alumni Executive Committee and the Board of Trustees for the welfare and service to our graduates in financial distress is evidenced by the continued function of this fund over the past fifty years. The Endowed Bed Committee urges all able alumni to assist in this responsibility.

George J. Willauer, M.D.
Chairman

BLACK AND BLUE ASSEMBLY
Set for March 18, 1961

The 31st BLACK AND BLUE ASSEMBLY will be held on Saturday, March 18, 1961 in the Bellevue-Stratford Ballroom under the auspices of the Kappa Beta Phi.

The inauguration on March 6, 1933 of this all-College dance, which is named after the College colors, gave the students and all those interested in the institution an opportunity to meet socially and promote good fellowship and acquaintance. Prior to the inauguration of this affair no such social function existed at Jefferson.

The Kappa Beta Phi is a well established organization, having as its aim the promotion of sociability among its members and the student body at large. The members are selected from the three upper classes. Each fraternity is allotted an equal number and the non-fraternity students are invited to join.

The Kappa Beta Phi holds three formal dances a year; one dinner dance in the Fall, the BLACK AND BLUE in the Winter and a Spring dance. About fifty percent of the students usually attend the BLACK AND BLUE ASSEMBLY.

In 1940 I established the Student Benefit Fund. The money in this Fund is managed by the Board of Trustees of the College. This educational and beneficial Fund is augmented annually by the net proceeds from the BLACK AND BLUE and by contributions from those who are interested in this worthy cause. The purpose of the Fund is to provide money as loans to needy students and to render indirect aid for the students' welfare and education. The money in the Fund now amounts to a substantial sum and is growing annually at a gratifying rate.

I am happy to report that last year and so far this year, one-quarter of the loans granted to students were made from this Kappa Beta Phi Student Benefit Fund. It is evident that there was a definite need for such a Fund and it is also evident that it is necessary to insure its continued growth.

I wish to express my sincere appreciation to the members of the Kappa Beta Phi, the Alumni, the members of the Faculty and the Board of Trustees for their contributions and aid. With such generous help, we were able to make a great success of the BLACK AND BLUE and the Student Benefit Fund. We continue to solicit your patronage, support and attendance. The 1960 BLACK AND BLUE was an outstanding success and is still remembered by all those who attended.

Eli R. Saleeby, M.D.
Grand Swipe—Kappa Beta Phi
Sponsor—BLACK AND BLUE ASSEMBLY
DR. TOCANTINS HONORED BY UNIVERSITY OF BRAZIL

Cardeza Professor also Speaks in Geneva for World Health Organization

On October 12, 1960 the University of Brazil conferred the title of Doctor "Honoris Causa" upon Dr. Leandro M. Tocantins, The Thomas Drake Martinez Cardeza Professor of Clinical Medicine and Hematology. The ceremony was held in Rio de Janeiro in the great salon of the Council of the University during a special convocation for the occasion.

The session was presided over by Dr. Pedro Calman, Rector of the University, which was founded in Colonial times by Dom João VI. In addition to the members of the University Council, the cultural attache of the American Embassy and representatives of the International Health Board of the Rockefeller Foundation, there were present at the ceremonies Mrs. Tocantins, members of Dr. Tocantins' family, representatives of the Faculty of Medicine of Rio de Janeiro and of the local medical profession.

During the week of the convocation, Dr. Tocantins gave seven lectures before medical assemblies in various teaching hospitals in Rio de Janeiro.

On October 19, at the invitation of the World Health Organization, Dr. Tocantins participated in a joint scientific meeting of that Organization and the International Atomic Energy Agency to study the "Diagnosis and Treatment of Acute Radiation Injury." The meeting was held in Geneva, Switzerland and Dr. Tocantins spoke on "Problems in Procurement, Preservation and Administration of Human Bone Marrow."

FACULTY MEMBERS SPEAK AT WEST VIRGINIA POSTGRADUATE SEMINAR

Four members of the Jefferson Medical College Faculty were guest speakers at the October 20-23 meetings of the Potomac-Shenandoah Valley Postgraduate Institute which was held in Martinsburg, West Virginia.

Dr. Bernard J. Alpers, Professor of Neurology and Head of the Department, gave a paper on "Anatomical Pathological and Clinical Correlations in Cerebral Vascular Disease"; Dr. Leandro M. Tocantins, The Thomas Drake Martinez Cardeza Professor of Clinical Medicine and Hematology, spoke on "Diagnosis and Management of Hemorrhagic Disorders"; Dr. Frederick B. Wagner, Jr., Clinical Professor of Surgery, discussed "Varicose Veins and Stasis Problems" and Dr. Robert I. Wise, Magee Professor of Medicine and Head of the Department, spoke on "Diagnosis and Management of Staphylococcal Infections."

This Post Graduate Institute was sponsored by The Eastern Panhandle Medical Society and The West Virginia Chapter of the American Academy of General Practice.
JEFFERSON ORTHOPEDIC SOCIETY FORMED

Holds First Meeting on September 23

The first annual meeting of the Jefferson Orthopedic Society began at 9:00 a.m. on Friday, September 23, 1960.

At a business meeting, officers were elected consisting of: President—Dr. John J. Dowling, Philadelphia, Pennsylvania; Vice-President—Dr. Thomas Armstrong, Carlisle, Pennsylvania; Secretary-Treasurer—Dr. John J. Gartland, Philadelphia, Pennsylvania.

The name of the society was formally accepted as the "Jefferson Orthopedic Society." The membership, it was decided, should consist of:

1. Residents at Jefferson and on allied services (namely the Jefferson Service at the Philadelphia General Hospital).
2. All Jefferson Graduates now practicing Orthopedic Surgery.
3. All members of the Orthopedic Staff at the Jefferson Medical College Hospital.

The place of the meeting, it was decided, should be permanently located at Jefferson in Philadelphia. Time of the meeting should be sometime in the early Fall of the year, the exact days to be determined from year to year by the officers. The length of the program should be one and one-half days (all day Friday and the forenoon of Saturday for a scientific program).

Expenditures: Basic annual dues were approved to be set at ten dollars annually per person. This was to cover the ordinary business of the Society. Any social events in conjunction with the annual meeting or otherwise, were to be met by singular assessment.

An extremely interesting program of scientific papers was presented all day Friday, interrupted by a coffee break on Friday morning and a delightful buffet luncheon served on the upper floor of the new Pavilion at noon. The day was topped by a cocktail party and dinner at the Bellevue-Stratford Hotel where most of the out-of-town guests stayed.

Saturday forenoon, the scientific presentation was resumed and went on with a great deal of lively discus-

Research Grants Given to College and to Jefferson Faculty Members and Alumni for Work in Cancer Field

Substantial research grants have recently been awarded to Jefferson Medical College and Medical Center and to faculty members and residents here.

The Eleanor Roosevelt Cancer Foundation has given Jefferson $167,000 for cancer research and, under a U.S. Public Health Service grant the College received an additional $84,000 for a three year cancer research program. Under this grant, fellowships of $1,350 each are available to certified medical technicians and to men and women with two years of college and a minimum 12 hours in biology.

The American Cancer Society has awarded fellowships to Dr. Leopold S. Loewenberg, Class of 1956; Dr. Louis Pierucci, Jr., Class of 1955 and Dr. Edward R. Hagopian, Class of 1956. Dr. Loewenberg will work in obstetrics and gynecology, Dr. Pierucci and Dr. Hagopian in surgery. In announcing these fellowships, the President of the local chapter of the Cancer Society said that their purpose is to offer training in the various medical specialties concerned with cancer. The clinical fellows are required to participate in cancer projects within their respective fields and must report on their work when the fellowships expire.

Dr. C. Wilmer Wirts, Associate Professor of Medicine, has been awarded a U.S. Public Health grant of $60,000 for the study of exfoliative cytology for the diagnosis of gastrointestinal cancer. Dr. Wirts heads the division of Gastroenterology which has long been working on cancer detection and toward the development of better diagnostic techniques. In conjunction with the Donner Foundation and the local division of the American Cancer Society, patients have been referred to this division for surveys. This project was carried on under a Damon Runyon Cancer Fund grant.
Dr. Gibbon Receives Gairdner Award for Development of Heart-Lung Machine

Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department, was one of six scientists, four of them American and two British, who received the Annual Gairdner Foundation International Awards which are each in the amount of $5,000. The Awards were presented at a dinner held in the Granite Club in Toronto, Canada on November 18, 1960. Dr. Gibbon was chosen as one of the recipients of these awards for his work in the development of the heart-lung machine.

The Gairdner Charitable Foundation was incorporated in December, 1957 as a charitable corporation under the laws of the Province of Ontario of the Dominion of Canada. Its funds derive from the personal gifts of Mr. J. A. Gairdner, a Canadian industrialist and financier, and members of his family.

These Annual Awards are prizes of $5,000 each which are awarded in any one year to not more than five individuals who, in the opinion of the Foundation, have made outstanding discoveries or contributions in the fields of arthritic, rheumatic and cardio-vascular diseases. The awards are prizes for achievements and are not grants for the support of future research. Winners will be free to make personal use of their prizes in any manner of their choice.

In addition to encouraging and rewarding individuals who have made major contributions to the conquest of disease and the relief of human suffering, these awards were established in the hope that they would assist in focusing public, professional and scientific attention upon two of the most important medical problems facing modern civilization, and that they would contribute to improved communication of ideas among leading professional and scientific workers in the fields of arthritic, rheumatic and cardio-vascular diseases.

The awards may be made to residents of any country, without restriction to nationality and the first were made in 1958.

On the morning following the Awards dinner, Dr. Gibbon gave a 15 minute talk on "The Evolution of 'The Queen Mary,'" this being the name by which the original heart-lung machine was known, in the Lecture Theater of the Toronto General Hospital.

Jefferson Alumni Dinner Dance
Thursday, February 16, 1961 – The Warwick Hotel

PLAN NOW TO ATTEND
Alumni and Faculty on Program of American College of Obstetricians and Gynecologists

The Annual Meeting of District III of the American College of Obstetricians and Gynecologists was held at Shawnee Inn, Shawnee-on-Delaware, Pennsylvania, on October 14 and 15, 1960. Several Jefferson Alumni and Faculty members were on the program.

Dr. Theodore B. Woutersz, Class of 1956, gave a paper on "Teenage Motherhood: An analysis of 21,000 Deliveries in the year 1958."

Dr. Warren R. Lang, Associate Professor of Obstetrics and Gynecology, spoke on "Physiologic Types of Leukorrhea." Dr. Mario A. Castallo, Clinical Professor of Obstetrics and Gynecology, spoke on "Psychosomatic Aspects of Gynecology," and participated in a panel discussion of "Vaginal Bacteriology Before and After Total Abdominal Hysterectomy" with Dr. Amos S. Wainer, Assistant Professor of Obstetrics and Gynecology and Dr. Nicholas J. A. Policarpio, Instructor in Obstetrics and Gynecology.

Dr. Alvin F. Goldfarb, Associate in Obstetrics and Gynecology, discussed "The Use of Norethynodrel in Certain Reproduction Problems."

Dr. David M. Farrell, Associate Professor of Obstetrics and Gynecology, and Dr. Jerome Abrams, Class of 1953, presented a paper on "Conceptions Following Ectopic Pregnancy."

Dr. George Arnas, Class of 1956, with a colleague from Pittsburgh, presented "Five Cases of Adenocarcinoma of the Endometrium in Patients Previously Treated with Irradiation for Carcinoma of the Cervix."

Dr. John Levinson, Class of 1953, and two other physicians from Wilmington, discussed "Maternal Mortality in Delaware, 1950-1960."

Dr. Walter J. Larkin, Class of 1923 and his son, Dr. Walter J. Larkin, Jr., Class of 1953, gave a paper on "Management of Massive Ovarian Cyst: Report of a Case."

Dr. George L. Sexton, Jr., Class of 1953, spoke on "Postoperative Urinary Tract Infection Following Corrective Surgery on the Genital Tract."

Jefferson Well Represented at American Society of Anesthesiologists Meeting

Jefferson was well represented on the program of the Annual Meeting of the American Society of Anesthesiologists which was held at the Statler-Hilton Hotel in New York from October 2 to 7, 1960.

In addition to serving as a member of the Committee on Refresher Courses, Dr. Louis J. Hampton, Professor of Anesthesiology and Head of the Department, with Dr. Haviland Flickinger, Assistant in Anesthesiology, gave a paper on "Closed Circuit Halothane Anesthesia Utilizing Known Increments of Agent."

Dr. Harold F. Chase, Professor of Clinical and Research Anesthesiology, with Earl A. Kilmore, M.S., graduate student in Physiology at Jefferson and Robert Trotta, graduate student in physics at the University of Pennsylvania who is working on a research project at Jefferson, presented a paper on "Respiratory Water Loss Via Anesthesia Systems: Mask Breathing."

During the Annual Refresher Course program, Dr. Chase lectured on "Anesthetic Management of Patients with Emphysema and Asthma."

Doctors Hampton and Flickinger also had a scientific exhibit on "Closed Circuit Fluothane Anesthesia Utilizing a Simple Vaporizing Device."

In September of this year, the Department of Anesthesiology was visited by five anesthetists from England and one each from Belgium, Holland, France, Denmark and Sweden.
**NOMINATIONS FOR STATE AND SERVICE VICE PRESIDENTS**

At the Executive Committee Meeting May 28, 1953, by resolution it was decided that the Nominating Committee would offer names for election of Vice Presidents by States, Territories, Foreign Countries and Services, for the list of names to be presented and voted on by all qualified members of the Alumni Association at the Annual Business Meeting in February. Nominations from the floor will also be accepted at that time.

Puerto Rico Chapter Holds Three Days of Meetings

During the 1960 summer meeting of the Puerto Rico Chapter, a new idea in the type of meetings was launched and successfully accomplished. A change in the type of social and administrative program was introduced, by celebrating a convention including three days of social and administrative meetings as well as a scientific program.

From the 2nd to the 4th of July a large number of the Chapter members with their families moved into the Barranquitas Hotel in the suburbs of Barranquitas, a town in the center of the island, in the mountain region also known as the Switzerland of Puerto Rico. During these three days of convention activities, Jeffersonians and their families engaged in delightful social and recreational activities.

A scientific program preceded the annual meeting and elections. The program included papers by Dr. A. Ramos Oller, Dr. Luis Sanchez Longo and Dr. E. Everts Suarez. The scientific presentations stimulated enthusiastic discussions from the floor. Dr. Gonzalo Aponte, who participated in the discussions, also gave a report on his research activities at Jefferson Medical College.

During the administrative meeting that followed, a motion was approved to celebrate the next annual meeting of the Chapter at the Ponce Intercontinental Hotel.

The following members were re-elected to the positions they now hold: Dr. A. Ramos Oller—President, Dr. Emilio Trilla—Vice President, Dr. John F. Sanabria—Treasurer, Dr. Luis P. Sanchez Longo—Secretary.

Luis P. Sanchez Longo, M.D.
Secretary

Dr. Gibbon is Guest Speaker at October Meeting of Southwestern Pennsylvania Chapter

The Southwestern Pennsylvania Chapter of the Jefferson Medical College Alumni Association held their Fall Dinner and Meeting on Wednesday, October 26, 1960 at the South Hills Country Club in Pittsburgh, Pennsylvania. Some arrived early enough for a round of golf as the day was crisp and dry. Forty-seven Alumni gathered for a delicious dinner and social hour. Dr. John H. Gibbon, Jr., the President of the Alumni Association, was the guest of honor. He gave a stimulating review of the personalities and forward looking program of the College.

The retiring President, Dr. Arthur J. McSteen of Greensburg, presided at the Meeting. The new officers elected were: President: Dr. N. Keith Hammond, '30, Vice-President: Dr. Jo C. Griffith, '27, Secretary-Treasurer: Dr. T. Ewing Thompson, Jr., '33.

Four members of the Class of 1960 were welcomed into the group while they are interning in local hospitals. The senior Alumnus of the Chapter, Dr. John B. Laughrey, '08 of Sutersville, gave a brief, humorous word of greeting.

T. Ewing Thompson, M.D.
Secretary-Treasurer

ALUMNI PLACEMENT BUREAU

Positions Available

Wanted: The village of Addison, New York is greatly in need of a physician.

Wanted: Drug company is seeking a Medical Director to handle clinical evaluation of drugs abroad. They prefer someone who can speak English and French or English and German.

Wanted: Newport, New Hampshire is in need of an Internist, Board-eligible or Certified, able to do Cardiology, and a General Practitioner; both willing to take an active part in sharing the hospital responsibilities such as serving on committees, participating on week day call for hospital emergencies and participating in the Clinico-Pathological meetings.

Newport is a town of 6,000 population situated approximately ten miles from the city of Claremont and
seven miles from Lake Sunapee and five miles from
Mount Sunapee Ski Area. It is an economically stable
town with two woolen industries and two shoe in-
dustries in addition to several small manufacturing
concerns. It has a modern 28-bed hospital which was
built in 1952. In addition to the immediate town, the
area would take in Croydon, North Newport, Grantham,
Lempster, Goshen, part of Unity, and the town of
Sunapee. These latter add approximately another 3,000
to the total number of people being serviced by the New-
port Hospital. There is an additional summer population
of probably 5,000 about Lake Sunapee, half of which is
taken care of by New London and half by Newport.
Also, with the active ski season, there is a large weekend
transient increase in the population to service through-
out the winter months.

At the present time, Newport Hospital has an Active
Staff of eight physicians. This Active Staff is comprised of
a Radiologist and Pathologist; two Board-Certified
Surgeons who reside in Claremont, ten miles from New-
port; and four General Practitioners, three living in
Newport and one in Sunapee. Ten years ago the town was
supporting six General Practitioners. Three have been
lost of that number, one by retirement, one from illness
and another going to the State Board of Health. Last
year another General Practitioner was laid up with
disc surgery. He has run into complications, was re-
cently re-operated and will not return to practice. As a
result, Newport is faced with an acute shortage of
medical help with only three General Practitioners in
town.

There has never been an Internist in Newport and the
addition of one would raise the general caliber of med-
cical care. He would be used freely for consultations and
referrals by both General Practitioners and Surgeons and
would head the Cardiology Department. At the present
time, there are Internists in the town of New London,
population of only 2,000, which is 17 miles from New-
port, and in Claremont, population 15,000.

Newport is only 36 miles from the Mary Hitchcock
Clinic in Hanover and the Dartmouth Medical School.
This serves as a medical center for New Hampshire and a
very active teaching and research program is carried out
there. Any physician residing in the area is always
welcome to attend their lecture series and teaching
programs.

Wanted: Internal Medicine opening for person inter-
ested in Clinical Research for a Pharmaceutical Company.
Age 30 to 40.

Wanted: Position available for general practitioner
in Drums, Pennsylvania. Established practice—former
physician unable to resume practice due to illness. Two
modern hospitals to work in and delightful living
conditions.

Positions Wanted

Wanted: 1950 Graduate, board-eligible ophthalm-
ologist, desires position as an associate with another
ophthalmologist or in group or clinic practice in Eastern
Pennsylvania or New Jersey. He will be released from

Wanted: September 1944 Graduate is interested in
association or partnership with an established physician
in New Jersey. He has done general practice with a great
deal of experience in obstetrics and traumatic surgery,
including fractures.

Wanted: 1934 Graduate is interested in joining a group
practice or as an associate to another surgeon prefers
ably in Pennsylvania. Has also had training in orthopedics
and some varied experience in skin grafting and trau-
matic surgery.

Wanted: 1956 graduate is interested in a place to
establish a general practice, independently or in part-
nership with another physician, in Pennsylvania, preferably
in or near Philadelphia.

MARK YOUR CALENDAR NOW—

Reunions — Wednesday, June 14, 1961
Alumni Banquet — Thursday, June 15, 1961
Commencement — Friday, June 16, 1961
REUNION CLASSES ANNOUNCE

TENTATIVE PLANS FOR JUNE ACTIVITIES

Chairmen have been appointed for a number of Reunion Classes and in some instances tentative plans have been formulated for activities in June of 1961.

Class of 1911—Dr. F. W. McNamara
Dollar Bank Building
Youngstown, Ohio
Dr. Charles J. Bowen
121 South Highland Ave.
Pittsburgh, Pa.

Class of 1916—Dr. Arthur R. Gaines
Landis State Hospital
Corinthian and Girard Avenue
Philadelphia 30, Pa.

The present proposed plan calls for luncheon at some “superb hot spot” on Wednesday, June 14, and a special table at the Alumni Banquet on Thursday, June 15.

Class of 1921—Dr. Roy W. Mohler
1806 Spruce Street
Dr. William T. Lemmon
133 S. 36th Street

Although no definite arrangements have been made, the Class of 1921 will probably have a Dinner-dance on Wednesday, June 14.

Class of 1926—Dr. Philip S. Clair
1811 W. 67th Avenue
Philadelphia 26, Pa.
(Co-chairman to be announced at a later date)

Class of 1931—Dr. Dennis R. Gillen
4581 Kings Highway
Brooklyn 34, N. Y.

On Wednesday, June 14 there will be a luncheon for “men only” and that evening there will be a dinner-dance in the Ballroom of the Barclay Hotel.

Class of 1936—Dr. Leonard W. Parkhurst
330 S. 9th Street
Philadelphia 7, Pa.

Dr. Nicholas R. Varano
255 South 17th Street
Philadelphia 3, Pa.
Dr. Patrick J. Devers
169 Cedarbrook Road
Ardmore, Pa.

Tentative plans include a dinner-dance on Wednesday, June 14, special activities for the wives and a cocktail party preceding the Alumni dinner.

Class of 1941—Dr. Frederick B. Wagner, Jr.
800 Chauncey Road
Penn Valley, Narberth, Pa.
Dr. Paul J. Poinnard
2031 Locust Street
Philadelphia 3, Pa.

Class of 1946—Dr. John J. Bongiovanni
1208 Belfield Avenue
Drexel Hill, Pa.
Dr. Ralph A. Carabasi, Jr.
214 Roberts Drive
Bryn Mawr, Pa.

Class of 1951—Dr. Frank J. Sweeney, Jr.
Jefferson Medical College
Philadelphia 7, Pa.
Dr. Vincent J. McPeak, Jr.
8014 Burholme Avenue
Philadelphia 11, Pa.

Tentative plans have been made for a dinner-dance on Wednesday, June 14, a fashion show and luncheon for wives on June 15 and a cocktail party for class members and their wives preceding the Alumni banquet on June 15.

Class of 1956—Dr. Leopold S. Loewenberg
Jefferson Hospital
Dr. Haviland Flickinger
Jefferson Hospital

Tentative plans include a cocktail party and dinner on Wednesday, June 14, for doctors, wives and dates at Bookbinder’s Restaurant.
Dr. Ralph Falk, an alumnus of Jefferson in the Class of 1907, died in Wesley Memorial Hospital in Chicago on November 2 after a brief illness. Dr. Falk was Chairman of the Board of Baxter Laboratories, Inc., Morton Grove, Illinois and had been a pioneer in the development of intravenous feeding.

He served as President of Baxter from its inception until 1953 when he assumed the Chairmanship. Organized in 1931, the company began production of intravenous solutions in Glenview, Illinois in 1933. At that time the firm had six employees. Dr. Falk guided its affairs so that Baxter is at present a diversified company with more than 2,000 employees and with manufacturing facilities throughout the world producing pharmaceuticals and equipment for the medical profession.

Dr. Falk had been a leading surgeon in Boise, Idaho and so had a keen interest in the development of safe solutions for intravenous feeding. Prior to 1931 the few solutions used were made in the hospitals and were frequently not safe. With his brother, H. N. Falk, he founded Baxter Laboratories, Inc. which produced the first ready-to-use solutions to be accepted by the Council on Pharmacy and Chemistry of the American Medical Association and by the American College of Surgeons.

Dr. Falk was born in Boise, Idaho on August 6, 1884. He attended Mount Tamalpais Military Academy and the University of California. After his graduation from Jefferson he interned at Augustana Hospital in Chicago and took his residency at St. Louis City Hospital. He returned to Boise in 1909 where he served on the staffs of St. Alphonsus and St. Luke's Hospitals for 32 years, specializing in surgery after 1917.

He was county physician of Ada County in 1909 and 1910 and Secretary of the Idaho State Board of Health in 1910-1914. He served as a Captain in the U.S. Army Medical Corps in World War I.

Dr. Falk was a Fellow of the American College of Surgeons and a member of Sigma Phi Epsilon.

He is survived by his wife, the former Marian Citron of Portland, Oregon, and two children, a daughter, Carol and a son, Ralph II, who is now senior vice president of Baxter Laboratories, Inc.
DR. JOHN B. ATKINSON, Associate in Clinical Medicine, was elected a Fellow of the International Society of Hematology at the Annual Congress in Tokyo in September.

DR. WALTER F. BALLINGER, Associate in Surgery, gave a paper entitled "Anaerobic Metabolism and Metabolic Acidosis during Cardio Pulmonary Bypass" at the annual meeting of the American Heart Association in St. Louis on October 23, 1960.

DR. RUDOLPH C. CAMISHION, Instructor in Surgery, gave a lecture to the Lebanon County Medical Society on "Carcinoma of the Breast" in October.

DR. RICHARD T. CATHCART, Assistant Professor of Medicine, spoke on "Emphysema, Lung Cancer and Silicosis," before the Centre County Medical Society on October 13, 1960 at the Nittany Lion Inn, State College, Pennsylvania.

DR. CATHCART and DR. HAROLD I. ISRAEL, Clinical Professor of Medicine, were guest speakers at the Fifteenth Annual New Jersey Regional Meeting of the American College of Physicians which was held in Princeton, New Jersey on November 9, 1960. Dr. Cathcart’s subject was "Should Catheterization Studies be Performed in a Community Hospital” and Dr. Israel discussed "Present Views on Staphylococcus Infections.”

Drs. Cathcart was also a participant in a panel discussion, of which DR. MARTIN J. SOKOLOFF, Clinical Professor of Medicine was Chairman, on "Emphysema—An Increasing Problem” at the recent 37th Annual Conference of the Philadelphia Tuberculosis and Health Association on Thoracic Diseases held at the Bellevue-Stratford Hotel.

DR. JAMES E. CLARK, Instructor in Medicine, discussed "Use of the Artificial Kidney" at a staff meeting of St. Francis Hospital on October 25, 1960 in Wilmington, Delaware. Dr. Clark was accompanied by DR. ARTHUR WEISS, Associate in Medicine.

At a recent meeting of the Pennsylvania Orthopedic Society, Dr. JOHN J. GARTLAND, Associate in Orthopedic Surgery, was elected President of the Society for 1960-1961. At one of the scientific sessions, Dr. Gartland spoke on "Surgical Treatment for Non-Union of the Navicular.”

DR. CHARLES H. GREENBAUM, Assistant in Dermatology, was recently certified by the Board of Dermatologists.

DR. ROY R. GREENING, Professor of Radiology, spoke at a cancer symposium of the Northumberland (Pennsylvania) Unit of the American Cancer Society recently. His subject was "Silicosis, Tuberculosis or Cancer.”

DR. FRED HARBERT, Professor of Oto-Rhino-Laryngology and Broncho-Esophagology and Head of the Departments, was a speaker at the 9th Annual Meeting of the Society of Hearing Aid Audiologists. His subject was "Rehabilitation of Deafness.”

W. PAUL HAVENS, JR., M.D., Professor of Clinical Microbiology and Professor of Medicine, recently addressed the Omaha-Midwest Clinical Society in Omaha, Nebraska. His subject was "Hepatitis.”

DR. EDMUND L. HOUSEL, Associate in Clinical Medicine, participated in a panel on Diuretics at a meeting of the American Academy of General Practice in Buffalo, New York on October 17, 1960. Dr. Housel’s topic was "Diuretics in Renal Disease and Hypertension.”

DR. EDWARD J. JAEGGER, Professor of Neurosurgery in the Department of Surgery, was recently elected President of the Philadelphia Neurosurgical Society.

DR. ROBERT G. JOHNSON, Associate in Clinical Surgery, recently gave a talk at John Wanamaker School to the some 500 physicians and nurses of the Philadelphia public and parochial schools. Dr. Johnson’s subject was "Cardiac Surgery in Childhood.”

DR. DAVID JOSEPH LA FlA, Instructor in Neurosurgery, gave a paper on "The Neurosurgeon Looks at Backache” on October 14, 1960 before the Seventh Annual Meeting of the Academy of Psychosomatic Medicine at the Benjamin Franklin Hotel in Philadelphia.

On October 18, 1960, he spoke to the St. Joseph’s Hospital Staff in Hazleton, Pennsylvania. His topic was "Epilepsy—Fact and Fiction,” and on November 1 spoke to the Philadelphia Exchange Club on the same subject.

On October 20, 1960, he spoke before the Claims Association of Philadelphia and his topic was "Pitfalls in Post Traumatic Neurosis.”

DR. JOHN N. LINDQUIST, Assistant Professor of Clinical Medicine, was the speaker on a program arranged by the Woman’s Auxiliary to the Philadelphia County Medical Society for the Philadelphia Federation of Women’s Clubs and Allied Organizations held on November 3, 1960 in Wanamaker’s Greek Hall.

Dr. Lindquist spoke on the various phases of geriatrics.
Dr. Thomas A. Loftus, Associate Professor of Clinical Psychiatry, is the author of a book, recently published, entitled, "Meaning and Methods of Diagnosis in Clinical Psychiatry."

Dr. Herbert A. Luscombe, Professor of Dermatology and Head of the Department, and Harold A. Colburn, M.D. Instructor in Dermatology, had an Exhibit on "Systemic Corticosteroid Therapy in Dermatoses" at the November 11 meeting of the Michigan Academy of General Practice in Detroit, Michigan and also at the American Medical Association Clinical Meeting in Washington, D. C. on November 28, 1960.

Several members of the Department of Ophthalmology gave instruction courses at the 65th Annual Session of the American Academy of Ophthalmology and Otolaryngology held in Chicago from October 9 to 14, 1960. Those who conducted instruction courses were: Dr. Carroll R. Mullen, Professor of Ophthalmology and Head of the Department, Dr. William T. Hunt, Jr., and Dr. Charles G. Steinmetz, III, Assistant Professors of Ophthalmology, Dr. Gerard M. Shannon, Associate in Clinical Ophthalmology, and Dr. Bernard C. Gettes, Associate in Ophthalmology.

Dr. Mullen was the recipient of one of the honor awards presented by the Academy on October 10.

Dr. Henry F. Page, Instructor in Medicine, spoke on "Nutritional Deficiencies in the Aged" at a one-day symposium sponsored by the Indiana State Academy of General Practice and the St. Joseph County Medical Society in South Bend, Indiana on November 18, 1960. More than 4,600 physicians attended, making it one of the largest medical gatherings held in Indiana this year.

Dr. F. William Sunderman, Clinical Professor of Medicine and Director of the Division of Metabolic Research, presented the fundamental biochemistry, principles of methodology, and interpretations in clinical medicine at an Applied Seminar on Measurements of Pancreatic Function in Clinical Medicine. This Seminar was presented under the auspices of the Association of Clinical Scientists at the Washington Hospital Center, Washington, D. C., held November 4 and 5, 1960.

Dr. Frank J. Sweeney, Jr., Instructor in Medicine, addressed the Berks County Medical Society on October 11, 1960 in Reading, Pennsylvania on the advancements in the field of antibiotics and chemotherapy.

Dr. Peter A. Theodos, Assistant Professor of Clinical Medicine, attended the 6th International Congress on Diseases of the Chest in Vienna, Austria, during the week of August 29, 1960. He was Chairman of the International Committee on Occupational Diseases of the Lung, a discussion in a Colloquium on Pleural Biopsy and a discussion leader in a Fireside Conference on Respiratory Function Methods.

Dr. Theodos also delivered a paper on "Lung Biopsy in the Diagnosis of Diffuse Infiltrative Pulmonary Disease" before the Greek Chapter of the American College of Chest Physicians in Athens, Greece, on September 13, 1960, and acted as a discussion leader on Pulmonary Function Testing before the Turkish Chapter of the American College of Chest Physicians in Istanbul, Turkey, on September 5, 1960.
Dr. Arthur J. Weiss, Associate in Medicine, and Dr. Laird Jackson presented a paper on the treatment of cancer of the gastro-intestinal tract with fluorinated pyrimidines, one of a group of chemical compounds developed in the search for a cure for cancer, at the 25th Annual Convention of the American College of Gastroenterology.

Dr. C. Wilmer Wirts, Associate Professor of Medicine, participated in the Education Day Post Graduate Course at York Hospital, York, Pennsylvania on September 28, 1960, and presented "The Current Concepts in Therapy of Massive Intestinal Bleeding."

Dr. Wirts and Dr. Bronson J. McNierney, Fellow in Gastroenterology, participated in an applied seminar on "Measurements of Pancreatic Function in Clinical Medicine" at the Annual Meeting of the American Association of Clinical Scientists, Washington, D. C., on November 4 and 5, 1960.

---

Class Notes

1897

Victor G. Heiser, M.D., 1060 Fifth Avenue, New York, N.Y.
Dr. Heiser is now serving as an Advisor in connection with medical research being conducted in Mexico by Dr. B. H. Kean on Diarrhoes of Travelers.

Samuel I. McDowell, M.D., 137 East Market Street, York, Pennsylvania, who celebrated his 90th birthday on November 21, 1960, writes: "I am in fine shape. I do all my work, am driving my Cadillac and write without glasses."

1903

George Hay, M.D., Valley Pike and Hay Avenue, Johnstown, Pennsylvania.
Recently an unusual accident hospitalized Dr. Hay, who is examining physician for Bethlehem Steel Company. Dr. Hay had stepped into an alleyway outside the Bethlehem office on Washington Street, opposite Penn Traffic Company, when sudden opening of a door resulted in his being knocked to the street. A tractor-trailer narrowly missed running over him. Although his head struck the street, a series of X-rays dispelled the possibility of a skull fracture. Dr. Hay is being fitted for a brace for his back.
In addition to his work for Bethlehem Steel, Dr. Hay is Medical Director for the Crane Company.

Robert M. Patterson, M.D., 1008-5th Ave., Beaver Falls, Pa. writes to his Class Agent, Dr. Hay—
"It was nice to hear from you. I am 83 years old. Served an internship in Mercy Hospital in Pittsburgh after graduation and after practicing medicine for 50 years, I retired."

1904

J. Norman White, M.D., 839 Clay Avenue, Scranton 10, Pennsylvania, former chief surgeon at Moses Taylor Hospital, ex-coroner of Lackawanna County and local historian, was presented the Dr. Martin T. O'Malley Award by the Lackawanna County Medical Society at the Dr. Benjamin Rush dinner on November 30, 1960.
In making the announcement, Dr. Raymond G. Hidlay, president of the organization, pointed out that this is the second time the award has been presented since it was established in April, 1950. It is conferred "in recognition of exceptional and conspicuously valuable services rendered to the Lackawanna County Medical Society and to the community in general by a distinguished physician whose name and memory his conferees wish to signally honor and perpetuate."

(below) Doctors EARLE M. BEVIS and JOE BRUGMAN, Class of 1910, Pictured at Annual Meeting of Washington State Medical Society in November when they were Awarded Gold Fifty-Year Service Pins.
1907
John H. Kinter, M.D., 258 Philadelphia Avenue, Chambersburg, Pennsylvania, was visited by Dr. John H. Killough, Associate Professor of Medicine, and Dr. James E. Clark, Instructor in Medicine, on October 3, 1906 after they attended the Jeff-Penn State Symposium.

Dr. Kinter has been bed-ridden for years with a stroke and appreciates "Jeff folks" dropping in to see him.

1908
Chenery M. Stimson, M.D., 167 Harvey Street, Philadelphia 44, Pennsylvania—reported on sick list—glad to know he is well on the way to recovery.

1911
Charles George Boyer, M.D., Annandale, New Jersey, has announced that he will end a general practice which he has maintained in Annandale for 48 years. However, he will continue as a school physician in the area. Dr. Boyer was seriously ill last summer and has been recuperating since then.

Dr. Boyer came to Annandale in 1912 and opened his general practice. For many years he was physician at Annandale Farms, Reformatory for Boys, prior to retiring from the post five years ago. He has been school physician at North Hanover Regional High School and Clinton Township elementary schools. He has also been Clinton Township medical inspector for forty years.

1912
Louis H. Clerf, M.D., 5575 Eighth Avenue, N., St. Petersburg 2, Florida.

Dr. Clerf came to Philadelphia on November 16 and attended the Alpha Kappa Kappa Fraternity Active Chapter-Alumni Dinner which is named in his honor. On November 17 he attended the Meigs Society Dinner and on November 18 visited with friends in the College.

Ivor D. Fenton, M.D., 520 E. Centre Street, Mahanoy City, Pennsylvania, was re-elected by a large majority to his 12th term as a member of the Pennsylvania House of Representatives for the 12th District, which includes Schuylkill and Northumberland Counties.

1915
Thomas J. Summey, M.D., 175 Madison Avenue, Mt. Holly, New Jersey, recently retired after thirty years as Administrator and Medical Director of the Burlington County Hospital.

Dr. Summey came to Burlington County Hospital in 1928 as Medical Director and Assistant to Dr. Walter Estell Lee, Chief of Surgery. In the same year, he married the former Jane Frances Moseley. While at Burlington County Hospital, he also served as a surgeon at Pennsylvania Hospital, associate in surgery at Children's Hospital, surgeon to the New Jersey State Hospital at New Lisbon, and held teaching positions at Pennsylvania and Graduate hospitals in Philadelphia.

Dr. Summey plans to continue in private practice.

1916
John A. Logan, M.D., was recently appointed physician at Gettysburg College. Dr. Logan began his duties in the new infirmary on West Broadway, Gettysburg, Pennsylvania.

Dr. Logan practiced medicine in Hatboro and for the past twenty-five years in Washington, D.C. He taught physical diagnosis for several years in Georgetown Medical School and taught ward classes in medicine as a member of the medical staff of Garfield Memorial Hospital in Washington. For the past three summer periods, he has been physician in Glacier National Park, Montana.

Dr. Logan served as a captain in the medical corps of the U. S. Army in the Philippines for three years where he had valuable experience in the diagnosis and treatment of tropical diseases.

1918
Chin Wen Low, M.D., 982 Yen An Road, Western, Shanghai 23, China, writes to Dr. Reynold S. Griffith, Class Agent:

"I have retired from practice since I had cholecystectomy for cholelithiasis, done on August 25, 1958. The government has kindly given me a monthly pension with free medical service and whenever I die, the funeral expenses.

"I am very much indebted to the Alumni Association for the kindness and courtesy in sending the Alumni publications from time to time. The pleasure is always mine when I recall the reminiscences of undergraduate work at the College and the internship at the Jefferson Hospital. I marvel at the advancement of 'Old Jeff' into a medical center."
1919
D. Russell Perry, M.D., 311 North Carolina, National Bank Building, Durham, North Carolina, writes to Dr. Milton B. Emanuel, Class Agent:

"Of course I expected to hear from you, and it is always a pleasure. And it is not such a pain to make a check (enclosed) to "Jeff."

"Russ, Jr. is doing well in pediatrics in Winston-Salem.

"I was appointed Durham County Coroner last February, and last Tuesday I was elected for a two-year period. I find it very interesting.

"I hope to see you in Washington in January—at the inauguration . . .

"I often remember the good times Russ and I had at the reunion and am looking forward to the next one. As a matter of fact, I hope to see you before then.

"Give my regards to those few that are left around the place that I know."

1920
Millard Cryder, M.D., Cape May Court House, New Jersey, recently had surgery for a ruptured appendix. He has been discharged from the hospital and is convalescing at his home.

Leon H. Dembo, 10465 Carnegie, Cleveland, Ohio, is co-author of a book recently published by Doubleday and Company, Inc., entitled "Your Child's Care."

Dr. Dembo is associate pediatrician at the University Hospital, senior visitor in pediatrics at St. Luke's hospital and chief of pediatrics at DePaul Infant Home, in Cleveland.

1926
Pascal F. Lucchesi, M.D., the executive vice president and medical director of the Albert Einstein Medical Center, Philadelphia, spoke at a dinner meeting of the Mifflin-Juniata Medical Society at Birch Hill Supervisors Club, Lewiston, Pennsylvania, on September 26, 1960.

1928
Meyer Q. Lavell, M.D., 1000 Main St., Darby, Pa.

Dr. Lavell reports that he and his wife spent a very interesting five weeks traveling through Europe this Spring with five other doctors and their wives. The Doctors were all members of the American Academy of General Practice. He says that they had meetings and scientific sessions with the College of Surgeons and the Academy of Physicians while in London.

Jo Ono, M.D., 75 Zaimokucho Azabu, Minato-Ku, Tokyo, Japan, was the guest of honor at a dinner party given by Dr. and Mrs. Harold L. Strause of Reading, Pennsylvania, held on October 1, 1960. Among those present were Dr. and Mrs. David Johnston of Harrisburg, Dr. John D. Ringwalt of Roherstown, Dr. Carl High of Reading, Dr. and Mrs. Francis Moll of Pottsville and Dr. and Mrs. Elmer J. Elias of Trenton, New Jersey. Also attending the dinner was Amy Tai, daughter of Dr. En Shui Tai, now a student at Albright College.

Dr. Ono left Tokyo on August 17, 1960 to attend the meeting of the International Broncho-Esophagological Society in Venice, Italy. He had been President of the Society for the past three years. Enroute Dr. Ono visited Dr. En Shui Tai in Hong Kong, China; also Dr. Pyn Noyes Muangman '26, Minister of Welfare in Thailand; and then left for Tokyo via Honolulu. Dr. Ono then visited France, Germany, Denmark, Sweden, Switzerland, England and Iceland before arriving in New York. From Reading he departed for Lafayette College, Easton, Pennsylvania, to visit Dr. Beverly W. Kunkle, retired head of the Department of Biology. The final stop was at Jefferson Medical College. On his homeward trek, Dr. Ono stopped over at Pittsburgh, thence to Los Angeles, where he planted a tree in celebration of the 100th Anniversary of the Japanese-American Treaty of Commerce and Diplomacy. Following this, Dr. Ono visited the University of California at San Francisco and then left for Tokyo via Honolulu.

1930
William W. Bolton, M.D., 530 Washington, Wilmette, Illinois, is the author of a book recently published by Dorrance and Company, Inc., entitled "The Sexless Dynasty." Although Dr. Bolton has written a number of medical textbooks, this is his first work of fiction.

Last summer, Dr. and Mrs. Bolton visited Sweden and Finland, and he is now back at his post as medical director of the American Medical Association magazine and also director of personnel there.

1931
Harold J. Cokely, M.D., Capt., USN, United States Naval Hospital, St. Albans 25, New York, was recently promoted to the rank of temporary Rear Admiral in the Navy Medical Corps. Dr. Cokely, who was one of two men

(right) HAROLD J. COKELEY, M.D., Capt., USN
selected for the promotion from 100 candidates, will receive the rank as soon as there is an opening in the command structure.

Dr. Cokely was chief of the urology service at the St. Albans hospital from 1950-51 and executive officer from 1955-57. Prior to taking over as Commanding Officer last November, he was Commanding Officer of the Naval Hospital at Key West, Florida.

His sea duty has included service at Asiatic Station, on the U.S.S. Guam—Yangtze Patrol, the U.S.S. Ranger and the U.S.S. Relief. Dr. Cokely is a Fellow of the American College of Surgeons, a member of the American Board of Urology, the American Urological Association, the Association of Military Surgeons and the American Medical Association. He is also a member of the New York Yacht Club.

1932

DAVID F. GELFAND, M.D., 1722 Pine Street, Philadelphia 3, Pennsylvania, addressed the Ninth Annual Nurses’ Institute on Cardiovascular Diseases which was held on October 19, 1960 in Wilkes-Barre, Pennsylvania. The Institute is sponsored by Northeastern Pennsylvania Heart Association.

Dr. Gelfand is chairman of the rehabilitation committee and a member of the board of directors of the Pennsylvania Heart Association and director of the cardiac work classification unit of the Heart Association of Southeastern Pennsylvania.

1933

SOLOMON S. BOBES, M.D., 91—12th Street, Wheeling, West Virginia, was recently elected president of the Ohio County Medical Society. Dr. Bobes is a member of the West Virginia State Medical Association, the American Medical Association, B. P. O. E. 28, Wheeling Lodge No. 5, Wheeling Consistory of Scottish Rite, Cave Club, Phi Sigma Delta social fraternity, and past president of the Edginton Lane Synagogue.

Dr. Bobes is married to the former Julia Graff and has two children.

1934

RONALD L. REDFIELD, M.D., 21 Center Street, Oil City, Pa., chief of the surgical staff for many years at Oil City Hospital, Oil City, Pennsylvania, recently announced that he will move to Beaufort, South Carolina, where he will practice on a limited basis, for reasons of health. Dr. Redfield is past president of the Venango County Medical Society, served as president of the medical staff of Oil City Hospital and on the courtesy and consulting staffs for many years at both the Franklin and Titusville hospitals, and he is a member of the American College of Surgeons and the International College of Surgeons.

1935

CHARLES P. SNYDER, M.D., Manor, Pennsylvania, writes to his Class Agent, Dr. Edmund L. Houssel—

"It is a pleasure to remit my 13th unbroken contribution to the Annual Giving Fund. Like my pledge to support of my Church, I feel a deep obligation to Jefferson.

"When I read of my distinguished classmates in the BULLETIN, I often wish I had some exciting news for publication. I can boast only of a very happy life with my fine family and a satisfying practice."

NATHAN SUSSMAN, M.D., 805 North 2nd Street, Harrisburg, Pennsylvania, was recently elected President of the Pennsylvania Academy of Physical Medicine and Rehabilitation for 1960-61.

1936

PATRICK J. DEVERS, M.D., 169 Cedarbrook Road, Ardmore, has been elected Medical Director of Fitzgerald Mercy Hospital in Darby, Pa., effective January 1, 1961.

Dr. Devers is Past President of the Delaware County Medical Society and is a Fellow of the American College of Surgeons.

WILLIAM J. SLSOR, M.D., 1512 Marilyn Parkway, North East, Massillon, Ohio, is head of the X-ray Department at Massillon City Hospital.

1943

LOUIS G. KAREHA, M.D., 319 North Abington Road, Clarks Green, Pennsylvania, showed a film on "Air Travel in the Cardio-Pulmonary Patient" at a meeting of the Hahnemann Hospital Alumnae Association on Tuesday, October 4, 1960.

Dr. Kareha recently became a member of the Aero-Space Medical Commission.

1944J

FRANK H. BUTT, M.D., was recently appointed Chief of the Anesthesiology Department at Warren General Hospital in Warren, Pennsylvania.

After ten years in general practice in Wilkinsburg, Pennsylvania, Dr. Butt entered the specialty of Anesthesiology, having taken a two-year anesthesiology residency at St. Francis Hospital in Pittsburgh. For the past sixteen months, Dr. Butt has been Chief of the Department of Anesthesiology at the Memorial Hospital in Cumberland, Maryland.

JOHN J. KAVANAGH, M.D., Lt. Col., USAF, MC, is Director of Hospital Services at the 7625th United States Air Force Hospital, United States Air Force Academy, Colorado.

HOWARD M. OLIVER, Hurricane Road, R.D. #2, Keene, New Hampshire.

Dr. Oliver writes that he has settled into a "niche" with ten years of Pathology behind him. He is now taking care of two small hospitals and says, "I thoroughly enjoy splashing around in this 'little pond.' It's given me the chance to do things I might otherwise have missed, such as being President of the State Pathological Society, Secretary of the County Medical Society, Member of the House of Delegates of the State Medical Society and the local School Board."

1945

STEPHEN F. BALSHI, M.D., 506 Orchard Lane, Bethlehem, Pennsylvania, has been named a diplomate of the American Board of Otolaryngology.

A former general practitioner in Bethlehem, Dr. Balshi completed a three-year residency in June, 1959 at Jefferson, in the specialty limiting his practice to diseases of the ear, nose and throat and bronchoesophagology.

Dr. Balshi is married to the former Josephine M. Bartos, and the couple have six children.

1944S

EDWARD B. McCONVILLE, M.D., recently opened an office for general practice and surgery at 349 Main Street, Meyersdale, Pennsylvania.

After receiving his medical training, Dr. McConville spent two years with the United States Army engineers, mainly in Europe. He first conducted a general practice at Trenton, New Jersey for five years and then took four years of resident training in surgery at Cooper Hospital, Camden, New Jersey, and one year at University of Pennsylvania. Later he came to
Bedford, Pennsylvania where he practiced about a year and a half and last winter practiced in North Dakota. Dr. and Mrs. McConvilie and their six children reside at 401 Beachley Street, Meyersdale, Pennsylvania.

1946
CLARENCE M. MILLER, M.D., 705 Locust Place, Sewickley, Pa. in sending in his Annual Giving contributions, writes:

"After Army service in Korea and Japan, I decided to go into Pathology; formal training completed at the University of North Carolina in 1953 after serving as a teaching fellow in Pathology and as the first senior resident in Pathology at the then newly opened North Carolina Memorial Hospital in Chapel Hill.

"Then spent two years as Assistant Director of Laboratories at Mountainside Hospital, Montclair, New Jersey. Since 1955 I have been Director of Laboratories at Sewickley Valley Hospital, Sewickley, Pa. and since 1958 also Consulting Pathologist at the O. T. Watson Home for Crippled Children. In 1958, organized an ASCP approved School of Medical Technology at Sewickley Valley Hospital.

"Jefferson is well represented on our staff at Sewickley, with eight Alumni currently serving here.

"Ellie and I have two sons, aged 11 and 9, a dog, a guinea pig, a hamster, assorted fish, turtles and snakes."

ROBERT G. STEVENS, M.D., 520 Belmont, Williamsport, Pennsylvania was elected Vice-President of the Pennsylvania Academy of Physical Medicine and Rehabilitation at their recent annual business meeting for 1960-61.

1947
WILLIAM B. ABRAMS, M.D., represented the Newark Beth Israel Hospital, Newark, New Jersey, at the Sixth International Congress of Internal Medicine in Basel, Switzerland, and the Sixth International Congress on Diseases of the Chest in Vienna, Austria, in August. Dr. Abrams reported on research carried out at Beth Israel over the past two years on the treatment of angina pectoris with a new class of drugs known as amine oxidase inhibitors. Dr. Abrams served as instructor in bacteriology at Jefferson, fellow in rheumatic fever research at the Children's Hospital of Philadelphia, fellow in cardiovascular research at the Philadelphia General Hospital, and resident in medicine at St. Louis University. During the Korean conflict he was chief of cardiology of the U. S. Army Hospital at Fort Campbell, Kentucky, in addition to serving in Korea.

HERBERT S. BOWMAN, M.D., 1703 Warren Street, New Cumberland, Pennsylvania, spoke on "Hemolytic Anemias—Proper Diagnosis and Therapy" at a recent meeting of the Dauphin County Medical Society in the Harrisburg Academy of Medicine Building, Harrisburg, Pennsylvania.

Dr. Bowman interned at Cooper Hospital, Camden, New Jersey and served residencies in Pathology and internal medicine at Jefferson Medical College, Lankenau Hospital Research Institute, and the Institute for Cancer Research and Jefferson Hospital, all in Philadelphia.

A former instructor in medicine at Jefferson, Dr. Bowman is hematologist at Harrisburg Hospital and consultant in hematology at the Veterans' Administration Hospital in Lebanon and at Polyclinic Hospital. He is certified by the American Board of Internal Medicine.

1947
DAVID W. BOSTIAN, M.D. has recently been promoted from Instructor to Assistant Professor of Psychiatry at the University of Michigan Medical School at Ann Arbor.

Dr. Bostian is teaching a seminar at the University on "Psychiatric Aspects of Medical Practice for General Practitioners." In addition, he is in charge of the psychiatric ward at the Veterans Hospital in Ann Arbor and also maintains his own private practice.

Dr. and Mrs. Bostian have two daughters and a son.

1948
BRUCE D. HARROLD, M.D., was recently appointed head of the Laboratories at Massillon City Hospital, Massillon, Ohio.

ROBERT C. HASTEDT, M.D., a veteran of twelve years with the United States Navy, was recently appointed pathologist at Union Hospital in Dover, Ohio.

Dr. Hastedt entered the Navy immediately after graduation and most recently was stationed at the United States Naval Hospital in Oakland, California.

Dr. and Mrs. Hastedt are the parents of five children, and they are living at 345 Grant Street, Dover, Ohio.

1950
DAVID J. LIEBERMAN, M.D., Class Agent, has been appointed Chief of Surgery at Warren State Hospital in Warren, Pennsylvania. For the first six months of this year, Dr. Lieberman was Ship's Surgeon on the S.S. America.

1951
RICHARD D. OWEN, M.D., 3025 W. Broward Blvd., Fort Lauderdale, Florida, was seriously injured on October 5 when the engine of a 26' cruiser exploded as he was attempting to start it. Cause of the explosion was believed to have been a cracked gasoline line.

Dr. Owen was hospitalized with second degree burns and may require skin grafts.

(below) Charred Remains of DR. OWENS' Cruiser after Explosion in which he was Injured.
1951

PHILIP J. ESCOLL, M.D., 111 North 49th Street, Philadelphia 39, Pennsylvania, was guest speaker at the annual meeting of the Guidance Center of Northampton and Monroe Counties, held on October 5, 1960 at the Hotel Easton in Easton, Pennsylvania. Dr. Escoll, who is instructor in psychiatry at the University of Pennsylvania Medical School, spoke on "The Adolescent and His World."

Dr. Escoll is staff psychiatrist at the University of Pennsylvania Hospital and assistant chief of service at Philadelphia General Hospital.

1952

JEROME J. BERNER, M.D., completed his residency in Pathology at the Cleveland Clinic in July and at that time was awarded the Lower Prize for his fellowship thesis on "Perplexing Fibroblastic Tumors." Upon completion of his residency, Dr. Berner was appointed Associate Pathologist at the Barberton Citizens Hospital, Barberton, Ohio. Dr. Berner, his wife, Shirley, and their two children, Seth (four years old) and Keith (eleven months old) are presently residing at 371 Nye Drive, Akron 13, Ohio.

John M. Grasse, Jr., M.D., with his wife and three children, recently left for Nigeria, Africa, where he will be a member of the surgical staff at a hospital now in process of development at the Mennonite mission base, formerly operated by the Presbyterian church in Africa.

Dr. Grasse's address is Abiriba Hospital, Abiriba, Nigeria, Africa.

1954

JEROME DESCH, Capt., M.D., was presented with the Air Force Commendation Medal for his "outstanding work as chief of the ophthalmology clinic at the U. S. Air Force Hospital at Westover Air Force Base, Massachusetts. The Captain created and operated 'a superior' eye service at the hospital, according to the citation. He was cited for 'completing, on his own initiative, the clinical project which was of benefit to the hospital and the status of the U.S.A.F. Medical Service as a whole.' "

Capt. Desch entered the U.S.A.F. Medical Service in October, 1958, and has served at Westover since then. He was released from active duty in October and is practicing in Reading. His home is at 56 Wyomissing Hills Blvd., Wyomissing Hills, Pennsylvania.

GERALD TANNENBAUM, M.D., 50 East 78th Street, New York, N.Y.

Dr. Tannenbaum writes that he was recently appointed Director of the Adult Therapy Mental Hygiene Clinic at Metropolitan Hospital in New York City. This is a City Hospital, staffed by the faculty of the New York Medical College. Dr. Tannenbaum asks that any Jefferson Alumni practicing psychiatry in the New York area get in touch with him.

1955

WILLIAM P. HENDERSON, M.D., has opened an office at 520 Hume-Mansur Building, Indianapolis, Indiana.

Dr. Henderson was formerly resident in Obstetrics and Gynecology at Indiana University Medical Center.

1956

THOMAS L. CARTER, M.D., has been appointed a fellow in radiology at the Mayo Foundation at Rochester, Minnesota. The Mayo Foundation is a part of the Graduate School of the University of Minnesota.

1957

LOUIS R. BAKER, M.D., was appointed an instructor in anesthesiology, department of surgery, at West Virginia University, Morgantown, West Virginia.

Before accepting the West Virginia University position, Dr. Baker was a member of the University of Pennsylvania medical faculty. He belongs to the American, Pennsylvania and Philadelphia Societies of Anesthesiologists and a number of other professional organizations.

1958

DAVID J. JONES, III, M.D., 84 Iroquois Drive, Warwick, Rhode Island, reported on heart disease control activities in Rhode Island to U. S. Public Health Service officers at the national meeting of the Heart Disease Control Program in St. Louis, Missouri, in October, prior to the American Heart Association annual meeting.

Dr. Jones, a medical officer in the Public Health Service Commissioned Corps, is assigned to the Rhode Island State Department of Health in Providence.

1959

PAUL E. FRANK, M.D., announces the opening of his office for the practice of Ophthalmology in Harrboro, Pennsylvania.

Dr. Frank completed his residency training at the University of Pennsylvania Graduate School of Medicine and Philadelphia General Hospital.

SHeldon G. Gilgore, M.D., has been elected to the board of directors of the Philadelphia Grand Opera Company.

Dr. Gilgore is an endocrinologist at Jefferson.

JAMES M. LABRAICO, M.D. writes that he is now serving as a Captain in the Air Force and is presently located at Wurtsmith Air Force Base, Oscoda, Michigan.

DEAN D. MONACO, M.D., 34-15 87th Street, Jackson Heights, New York, is a medical resident at New York Medical College.

1960

In August 1960, the author, a resident in psychiatry at the Albert Albert Einstein Medical Center, completed his training in psychotherapy and became a staff psychiatrist at the Albert Einstein Medical Center, Northern Division, Philadelphia and completed a three year residency in Obstetrics and Gynecology at the same hospital. While at Albert Einstein Medical Center, Dr. Clair was the resident in charge of the Fertility and Sterility Clinic. Dr. Clair is a member of the Pennsylvania Medical Society, the American Medical Society and the Centre County Medical Society. He is a Junior Member of the American College of Obstetrics and Gynecology and a candidate member of the American College of Surgeons.

Dr. and Mrs. Clair and their two children are residing at 111 Grandview Road, State College.

DAVID B. ANDREWS, M.D., recently announced the opening of his office for the practice of general medicine and surgery at 195 East Main Street, Miln Mills, Wilkes-Barre, Pennsylvania.

Dr. Andrews served his internship at Mercy Hospital, Wilkes-Barre. He is married to the former Nicolina Finocchiari of Philadelphia, and the couple have three children.

LEONARD CLAIR BALDAUF, JR., M.D., 3736 East Garden Street, Tucson, Arizona, will be working as a medical officer at the United States Public Health Service Hospital in Tucson until January 1961, when he hopes to obtain his Arizona State License and begin general practice in Tucson.

Dr. and Mrs. Baldauf are the parents of a son, Leonard, III, born May 1, 1960.
James R. Delp, M.D., is serving as a physician in a hospital of the Community Health Association at the Hoopa Indian Reservation, Hoopa, California. He is also the unit leader of the Voluntary Service unit at Hoopa.

Dr. Delp's assignment is part of the work of the Mennonite Central Committee in which over 500 men and women of all ages are serving in the United States and Canada assisting in numerous areas of human need.

L. Marshall Goldstein, M.D. has opened an office for the practice of medicine in the Meridian Medical Center Building, 1680 Meridian Avenue in Miami Beach, Florida.

---

**ENGAGEMENTS**

**1954**

The engagement of Miss Maxine Barbara Major to Dr. Howard L. Field has been announced and a December wedding is planned.

Miss Major is an alumna of Cornell University where she was elected to Phi Beta Kappa. She is presently employed by McGraw-Hill Book Company.

Dr. Field is a member of the Faculty at Jefferson as an Instructor in Psychiatry assigned to Eastern Psychiatric Institute.

**1959**

The engagement of Dr. Nathaniel Paul Han Ching to Miss Annie H. Lin, of Philadelphia, was recently announced.

Miss Lin is a student at the University of Pennsylvania. Dr. Ching is a resident at Pennsylvania Hospital, Philadelphia.

The engagement of Dr. John J. Schubert to Miss Eileen Lucille Merunka, of Cromwell, Connecticut, was recently announced.

Miss Merunka was graduated from Hartford Hospital School of Nursing.

---

**WEDDINGS**

1954

Dr. Walther T. Weylman, was married to the former Miss Mary Jean Mahler of Scarsdale, New York, on October 8, 1960. Mrs. Weylman is an alumna of Mount Holyoke College and the Harvard Graduate School of Education. She is teaching in the Concord Massachusetts public school system. Dr. Weylman is a resident in radiology at the Massachusetts General Hospital, Boston. The couple are residing in Louisburg Square, Boston.

1959

Dr. Thomas F. Gumina was married on November 5 to the former Miss Lynne Mary Wolfe, of Audubon, New Jersey.

Mrs. Gumina is a graduate of the Jefferson School of Nursing and Dr. Gumina is presently Prison Physician at Lewisburg Penitentiary. The couple will reside in Lewisburg.

1960

Dr. Robert H. Stine was married on October 22, 1960 to the former Lois Elaine Kihlgren at Long Hill Chapel, Chatham, New Jersey.

Miss Kihlgren is an alumna of Jonathan Dayton Regional High School, Presbyterian Hospital School of Nursing, Philadelphia, and Barrington College. She was on the faculty of the Presbyterian Hospital School of Nursing before her marriage.

Dr. Stine is presently interning at St. Luke's Hospital, Bethlehem, Pennsylvania.

**BIRTHS**

1956

Dr. and Mrs. Bernard Berne, 4859 Hull Street, Skokie, Illinois, announce the birth of a son, Steven Jeffrey, on September 29, 1960. Steven has two big sisters, Ruth Ann, four years old and Ellen Marie, two and a half.

Dr. Berne is in General Practice in the northern suburbs of Chicago.

1959

Dr. and Mrs. Walter S. Bloes, announce the birth of a son, Walter Franklin Bloes, II, on June 16, 1960. Mrs. Bloes is the former Judith Ann Wright, R. N., graduate of the Jefferson Medical School of Nursing, Class of 1959.

Dr. Bloes recently opened an office at 504 Washington Avenue, Jermyn, Pennsylvania, for the practice of general medicine and surgery.
Editor's Note: Through an oversight, the article which appeared in the October BULLETIN describing the Recovery Room, did not include a photograph of the plaque, pictured below, which indicates that funds for the Room's equipment were given to Jefferson by the children of Esther and Mandel Hofkin in memory of their mother and father.
