Alumni Office of The Jefferson Medical College
1025 Walnut Street, Philadelphia 7, Pa.
HISTORY

Dr. George McClellan, who founded Jefferson Medical College in 1825, was also the first Professor of Surgery at this school. He was succeeded by Dr. Joseph Pancoast in 1839 and he in turn by Dr. Thomas D. Mütter. The fourth occupant of the chair of Surgery was the famous Dr. Samuel D. Gross. Dr. Gross, a graduate of Jefferson in 1828, returned to the chair of Surgery in 1856 after teaching in medical schools in Cincinnati, New York and Ohio. His international reputation helped to spread Jefferson's name throughout the world. Upon his resignation in 1882 the administrative organization was changed to allow for two chairs and surgical services. These were filled by Dr. John Hill Brinton and Dr. Samuel W. Gross, commonly known as the "younger Gross." Dr. William W. Keen, a Jefferson graduate, who was called to one of the chairs in 1889, was well known for his work upon nerve injuries and had an outstanding reputation as a surgeon, a teacher and a surgical writer. It has only recently been disclosed that Dr. Keen was one of a group of physicians who performed the clandestine operation upon Grover Cleveland's jaw, during his second term as President of the United States. Dr. Keen's successor, Dr. John Chalmers DaCosta, appointed in 1900, was a very colorful, articulate speaker, an outstanding teacher and his clinics were popular among visitors. Painful and deforming arthritis did not prevent him from continuing his lectures and clinics, although in later years he had to do so while sitting in a wheel chair.
R. Joseph Hearn was one of the Professors from 1904 to 1910 and Dr. John H. Gibbon, father of the incumbent Professor, succeeded Dr. Brinton in 1907. Dr. Francis T. Stewart was appointed Professor in 1910, succeeding Dr. Hearn. These men were succeeded by Dr. Edward Klopp and Dr. George Muller.

The Samuel D. Gross chair of Surgery was established by Dr. Gross' family at Jefferson in 1910. Dr. DaCosta was the first man to be appointed to this chair which he held until 1933. Dr. Thomas Shallow was named the second Gross Professor of Surgery in 1939 and held this position until his death in 1955. Dr. John H. Gibbon, Jr. came here as a Professor of Surgery and Director of Surgical Research in 1946. On his elevation to Head of the Department and election to the Samuel D. Gross chair in 1956, the Department of Surgery was reorganized. The two separate services were unified and together were combined into a single Department of Surgery.

ORGANIZATION

Dr. John H. Gibbon, Jr. is the head of the Department of Surgery. The senior members of the Department here at Jefferson include: Professor William T. Lemmon; Clinical Professors—George J. Willauer, Kenneth E. Fry, Sherman A. Eger, Benjamin Haskell, Frederick B. Wagner, Adolph A. Walkling, and John Y. Templeton, III; Associate Professors—William H. Kraemer, Thomas F. Nealon, Jr., and Richard Rovit; Assistant Professors—James M. Surver, T. Burritt Merivin, William H. Whitely, III, Walter F. Ballinger, II, and John J. DeTuerek.

Under Dr. Gibbon’s overall direction, the surgical service is run by ward chiefs who are rotated on Men’s and Women’s Surgical Wards every three months. The rotation is among Drs. Templeton, Nealon, Ballinger, Charles Fineberg, Robert G. Johnson, John J. McKeown, and Rudolph C. Camishon. The present residents in the Department include: Drs. Michael G. Christy, Herbert E. Cohn, Vincent D. Cuddy, Louis Pierucci, Jr., Jerome L. Sandler, Leon P. Scicchitano, Howard M. Snyder, Benjamin Bacharach, Nathaniel P. H. Ching, Edward J. Baranski, John R. Prehatny, Donald Comiter, Donald Z. Sokol, Noel H. Fishman, Thomas G. Peters, Ronald J. Carlucci, William T. Lemmon, Jr., Angela A. Ramirez-Irizarry, Torrence B. Abell, Sankaran M. V. Valiathan, Christopher J. Beetel, and Edmund J. Gaffney in surgery. Dr. Alfred O. Heath is on leave of absence in the U.S. Army and Dr. Edward D. McLaughlin in the Public Health Service. The residents in neurosurgery include Drs. Roy C. Pittman, Samuel J. Mackall, Temple H. Prahar and Martin Swiecicki. These surgical residents are under the supervision of Dr. Ballinger.

The out-patient department, which is open daily in the Curtis Clinic, is under the direction of Dr. Robert G. Johnson who is assisted by Drs. Bernard B. Borkowski, Rudolph C. Camishon, Richard J. Chodoff, George C. Godfrey, Armando F. Goracci, William K. Gorham, Norton Hering, W. Bosley Manges, P. Victor Sencindiver, Jerry Stifel and Henry C. Stofman. A surgical follow-up clinic has been added to the out-patient department and has met with considerable success. In the past two years the out-patient census in Surgery has doubled.

The Tumor Follow-up Clinic is a function of the Department of Surgery and is run by Dr. Harry J.
Knowles with the assistance of Dr. Gerald Marks. In addition to following patients who have had tumors operated upon at Jefferson, this clinic holds a general conference every Friday where selected cases of the past week are presented. This is a lively and productive session among members of interested departments and is open to any outside physicians who may be interested.

TEACHING

The medical students are introduced to surgery in the second year when members of the Surgical Staff lecture to the class three times a week during the second semester on peripheral vascular disease, surgical infections, fluid and electrolyte balance and surgery of trauma. These lectures are given by Drs. Gibbon, Fry, Wagner, Templeton, Nealon, Rovit, Mervine, Ballinger, DeTuerk, Davis, Camishion, Fineberg, and McKeown.

In the third year, formal lectures are given on surgery of the cardiovascular, respiratory, and endocrine systems, gastrointestinal tract, breast, hernia, fractures and bone tumors, the principles of anesthesia and trauma to the central nervous system. These are presented by Drs. DePalma, Hampton, Rovit, Willauer, Fry, Wagner, Templeton, Nealon, McKeown, Fineberg, Marks, Sencindiver, Camishion and Finkelman. During the second half of the year Dr. Gibbon conducts a weekly clinic where interesting and instructive cases from the wards are demonstrated to the entire class.

The student gets his first direct contact with surgical problems during the third year. The class is rotated in small sections through both the out-patient department and the surgical wards. In the former there is an opportunity to assist in the handling of surgical problems of the ambulatory patient including minor surgery, bandaging, and postoperative care. On the wards, the student follows the preoperative workup and the postoperative management of surgical patients including the attendant problems of fluid and electrolyte balance. The students are also assigned reading in current surgical literature which they then discuss in biweekly group conferences under the direction of a staff surgeon. Each student serves a three week clinical clerkship.
either at Philadelphia General Hospital, where the program is under the direction of Dr. Mervine, or at Cooper Hospital, where the program is directed by Dr. Edward R. Ristine. A course of operative surgery on the cadaver provides an opportunity for the student to use his hands in surgery. This is presented by Dr. Eger in conjunction with Dr. Raymond Moore of the Department of Anatomy with the assistance of junior members of the Department of Surgery.

All teaching of the students in the senior year is by way of 10 week clinical clerkships. The available surgical material is augmented by using patients at some of the outlying hospitals. The work at Chestnut Hill is directed by Dr. Joseph Stayman, Jr., at Lankenau by Dr. J. Montgomery Deaver and Dr. Gilson Colby Engel, at Methodist Episcopal by Dr. John J. DeTuerk, at Misericordia by Dr. Ward O'Sullivan, and at Veterans Administration Hospital by Dr. Oscar Serlin. One half of the surgical clerkship is spent at one of the above named hospitals and the other half at Jefferson. Two to four students are assigned at one time to each of these hospitals. The teaching at Jefferson is conducted by Dr. Gibbon and his staff. The students are assigned to the two surgical wards and to the three private surgical services. Dr. Gibbon makes rounds twice a week with the clerks on the surgical wards; similar teaching rounds are made by senior staff members of each of the three private surgical services. In addition to general surgery and the sub-specialties, the students rotate through anesthesiology. As a clinical clerk, the student takes part in the initial workup of the patient and in the preoperative preparation; he assists in the operation and in the postoperative care. He makes daily rounds with the attending surgeon. The small number of students assigned to each service at any one time allows them to have a very close relationship with the surgeon; this has engendered real enthusiasm on the part of the staff personnel as well as the students. A consequence has been that later when residents are being considered the staff has more knowledge of individual applicants than before the inauguration of the present program.

The Division of Neurosurgery of the Department of Surgery is now under the direction of Dr. Richard L. Rovit who was appointed Associate Professor of Neurosurgery and Head of the Division of Neurosurgery when Dr. J. Rudolph Jaeger became an emeritus member of the Faculty last summer. Dr. Rovit is installed in the new offices of the Division on the third floor of Curtis Clinic. Dr. Rovit is hoping to expand the research activities of the Division of Neurosurgery and to introduce some new techniques in the clinical management of neurosurgical problems here at Jefferson.
Dr. Robert G. Johnson (standing at left), Dr. Cohn, Resident and a Student observe as Dr. Abell, also a Resident, treats a patient in the Out-Patient Clinic.

Dr. Jerry Stiffel (center) with Residents Cuddy (left) and Sandler (right) talks with a patient in Surgery Clinic.
RESEARCH PROGRAM

The Department has had a very active research program since 1946. The impact of the activity of this segment of the Department on international medicine is probably best attested to by the wide range of international visitors who constantly visit the Department. It is in this laboratory that Dr. Gibbon completed work on the first heart-lung machine. The Jefferson Ventilator, a mechanical means of assisting ventilation with intermittent positive and negative pressure during surgical procedures, was developed as a result of studies of pulmonary ventilation during anesthesia.

The departmental offices and research laboratories were moved upstairs in October of 1958 to larger quarters on the tenth floor of the College. Since that time the staff, number of projects and available funds to carry out these projects have expanded so rapidly that the present space is already inadequate. The program in the laboratory at this time is under the direction of Dr. Nealon with individual staff men supervising particular projects. Whereas there were only two projects under investigation in 1958 there are now five different groups working on different projects and plans for further enlargement at the end of the current year.

Dr. Templeton worked out the details of the profound hypothermia with biventricular bypass which he is now using clinically. He and Dr. Nealon are studying the physiologic changes which occur in body chemistry and in the gas exchange of both animals and patients at the low temperatures under which clinical cardiotoomies are carried out. The effect of low temperatures on the transport of oxygen to the tissues is being studied. It is hoped that detailed knowledge of these phenomena will contribute to the greater safety of this valuable adjunct to open cardiotomy.

Dr. Nealon is continuing to study problems of pulmonary ventilation. Previous extensive work in cooperation with Dr. Hampton and his staff in the Department of Anesthesiology showed the effects of induction and management of anesthesia on the efficiency of pulmonary ventilation. Work with Dr. Richard Cathcart and Dr. William Fraimow of the Cardiopulmonary Laboratory,
Jefferson Ventilator being used to assist ventilation of a patient during operation

demonstrated that cardiac output had an inverse relationship to the mean endotracheal pressure when the chest was closed and that the effect persisted but is not so pronounced or constant after the chest wall was open. Reduction in cardiac output could be prevented by maintaining a low mean endotracheal pressure. A machine which had a negative as well as a positive pressure could effect an adequate volume of ventilation without raising the mean endotracheal pressure. This was a further illustration of the value of an apparatus like the Jefferson Ventilator.

At present, Dr. Nealon is cooperating with Dr. Rovit in a study of the biochemical changes which occur during respiratory alkalosis. Hyperventilation is used in many neurosurgical operations at the present time to diminish cerebral blood flow, reduce cerebral mass and simplify the technical handling of craniotomy. However, it also results in alkalosis. By utilizing this case material the attendant biochemical changes are being studied.

The adequacy of the commonly used anesthetic gas preparations to saturate the blood with oxygen is under investigation. In an effort to simplify these analyses Dr. Nealon and his group are trying to substitute a gas chromatograph for the Van Slyke manometric technique. Chromatography is a satisfactory method of measuring the concentration of gas in gas and of measuring the concentration of carbon dioxide in blood. The results in the measurement of oxygen in blood are not yet considered satisfactory but it is felt that this problem can be solved.

Dr. Nealon and the residents assigned to work with him (Drs. David Schechter, Edward McLaughlin, Herbert Cohn, Jerome Sandler and Nathaniel Ching) have been engaged in a study of the possibilities of removing specific ions from a patient's blood by direct passage over ion exchange resins. The most satisfactory application to date has been the use of a combination of seven resins to correct the biochemical alterations which occur in bank blood stored in ACD solution. The addition of ACD anticoagulant to blood introduces a considerable amount of citrate and drops the pH of the blood down to approximately 6.8. During storage there is a gradual accumulation of ammonium and potassium as well as lactate, pyruvate, phosphate in the plasma and a shift of chlorides from the plasma into the cell. By passing the blood over 75 grams of resin which can be
contained in a plastic container one inch in diameter and nine inches long, all these chemical activations can be connected before the blood is administered to a patient. This method is being readied for clinical trial and it is anticipated that it will have wide clinical application particularly in those patients with renal and hepatic disease and in those patients needing blood in amounts large enough to approach the quantities of exchange transfusions.

A technique of pumping the blood of patients in hepatic coma directly over a column of resins in order to lower the hyperammonemia has also been developed. This has proven to be a successful means of lowering hyperammonemia without demonstrable harm to the blood cells. The blood is pumped from a peripheral artery through a column 3 inches in diameter and 12 inches long, containing a thousand grams of a cation exchange resin, and is then returned to the patient.
Eighty per cent of the ammonium ion in the blood is removed with each transit through the column. After adequate laboratory trial this has been used on a limited number of clinical patients with encouraging results.

Using a similar apparatus, containing instead an anion exchange resin, Mr. Harvey Sugarman and Dr. Nealon have been studying the possibility of treating acute barbiturate intoxication by this means.

Together with Drs. James Clark and Arthur Weiss in the Department of Medicine, this group has been attempting to use ion exchange resins in the development of a simpler type of artificial kidney. All the potassium can be removed from the blood of experimental animals and patients without harm by this method. This unit is less cumbersome and requires less personnel to use and less blood to prime than the kidney dialysis unit. While this is an effective means of treating hyperkalemia it does not remove urea or correct acidosis. These particular problems are currently being studied.

Dr. Ballinger has, for several years, investigated changes in metabolism of the liver with special reference to the effect of decreased hepatic blood flow. These studies indicated the protective role of the liver in removing the acid metabolites which accumulate in the circulation during shock. Other experiments, first performed in the laboratory, and later confirmed clinically, demonstrated the accumulation of lactic acid during hypothermia.

For the past year, Dr. Ballinger has been studying problems associated with whole organ transplantation. He has recently completed an investigation of long-term changes in the small intestine following removal and re-implantation of this organ in dogs. Although interruption of the lymphatics and blood vessels is well-tolerated, denervation produces anatomic and functional alterations lasting up to eight months postopera-
tively. The relation of the syndrome resulting from denervation of the small intestine in dogs to certain clinical problems is currently being investigated.

Drs. Ballinger and Camishion are performing preliminary experiments in denervation of the heart and lungs in order to measure changes in ventilation and cardiac function. It is hoped that these studies will lead to a better understanding of the difficulties encountered with total heart-lung transplants in the experimental animal.

Dr. Fineberg plans to resume studies of the hormone sensitivity of tumors of the breast studied by administering the drug to laboratory animals with the tumor under study implanted in the anterior chamber of the eye. He is now compiling his experience in the evaluation of the many surgical techniques recommended for improving the vascular supply to the myocardium.

Dr. Camishion has used a squarewave electromagnetic flow meter which permits the instantaneous measurement of blood flow through an intact vessel to study the effect of acute atelectasis on pulmonary blood flow. He has shown that blood continues to flow through a collapsed lung for one hour after collapse. The same instrument has shown that reversing the direction of perfusion of the aorta during bypass does not change the rate of flow through the superior mesenteric artery. This group of investigators demonstrated that so-called "transfusion reactions" after transfusion of dogs with homologous canine blood were in reality anaphylactic type reactions to microfilaria with which dogs are commonly infested.
UNUSUAL ACCOMPLISHMENTS

The activities in the Department have consistently increased from year to year. In the last two years there were 92 papers published by members of the Department.

Dr. Gibbon has just finished editing a new book entitled "Surgery of the Chest," which includes chapters by thirty authors. It will be published by W. B. Saunders Co. in June of this year.

Dr. Nealon has finished a book entitled "Fundamental Skills in Surgery" which will also be published by Saunders in June.

Dr. Gibbon was awarded honorary degrees of Doctor of Science at the University of Buffalo in 1959 and at Princeton University in 1961. In 1959 he was made an honorary member of the Royal College of Surgeons, an honor which was held before him at Jefferson only by Dr. W. W. Keen.

Mrs. Jean Lemmon, R.N., passing citrated blood through an ion exchange resin column to remove some of the ions.
Dr. Prehatny oversees Dr. Norman Norstad who is operating the combined Heart–Lung Machine and Heat Exchange Apparatus.

Administrative Changes Announced at Annual Alumni Business Meeting

ANNOUNCEMENTS of major Administrative changes and the formation of an Alumni Advisory Council to confer with the Board of Trustees on policy matters concerning the College were highlights of the Annual Business Meeting of the Alumni Association on February 15, 1962.

The meeting followed dinner which was served in the Franklin Suite of the Benjamin Franklin Hotel. Dr. John B. Montgomery, President of the Association, presided and after welcoming the guests and introducing those at the speakers' table, he asked Mr. Brandon Barringer, member of the Board of Trustees, to say a few words. Mr. Barringer's father had been a Jefferson Trustee for many years and he said he had heard Jefferson spoken of in his home long before his own association with the College and Hospital so that he has always felt very close to the Jefferson "family."

Newly-elected Chairman of the Board Mr. James M. Large then expressed his pleasure at being present at this Alumni Meeting and said that he had several most important items of news to share with the group in advance of their being released publicly. He said that the Board feels strongly that the Alumni, a most important segment of the Jefferson "family", should be advised of actions of the Trustees with regard to major changes affecting the College as fully as possible and at as early a time as possible.

Dr. Sodeman made Dean and Vice President for Medical Affairs

Mr. Large explained that the news release from which he would read excerpts had been prepared for the press, to be given out at a date several weeks in the future but that he wanted Jefferson Alumni to know now of the administrative changes.

He announced that Dr. William A. Sodeman has been appointed to the newly-created position of Dean and Vice President for Medical Affairs and will be responsible for the administration of all professional and educational areas in both the College and Hospital.

Mr. Large said that although he realized that most of the Alumni are well acquainted with Dr. Sodeman,
He wanted to review briefly some of the accomplishments of the man who will fill this very important position in our organization.

Dr. Sodeman had held four professorships in three different American medical colleges before being named Dean at Jefferson on April 21, 1958. Since then he has intensified research in all areas; inaugurated several new programs and spearheaded the planning for the $10,800,000 Basic Science Building scheduled to open in September 1965. This building will not only permit Jefferson to double research activities in the pre-clinical areas, but also to increase its enrollment, already the largest in any American private medical college.

Dean Sodeman is interested in medical education on an international basis. In 1951–52 he was Visiting Professor in Medical Sciences at the Calcutta School of Tropical Medicine in India. In 1960 he headed a U.S. overseas mission to Ghana to determine the advisability of establishing a medical school there.

He is now developing a special program whereby the educational span for physicians can be shortened.

This is being undertaken in cooperation with the Pennsylvania State University with which Jefferson operates a joint program of graduate studies.

Dean Sodeman's book, "Pathological Physiology" has run through two American editions and has been translated into Portuguese, Spanish, Serbo-Croat, Japanese and Italian, thus providing almost world-wide utility.

Dean Sodeman's strongest interest is in internal medicine, primarily cardiology. His experimental and research activities have led to contributions in many areas in this field.

He is a Past President of the American Society of Tropical Medicine and a member or Fellow of 14 professional societies.

He second key administrative position which has been created by the Board of Trustees—that of Vice President and Treasurer—will bring together all fiscal and business affairs, as well as coordinate all building and rehabilitation projects.

Dr. Kenneth R. Erfft, who has been Vice President and Treasurer of Rutgers University since 1957 has been named by the Board to fill this new position. Jefferson's former Controller, Mr. Archibald C. Eglin, Jr., resigned as of December 31 to become a consultant on hospital finances. At the request of the Administration, however, he has remained until Dr. Erfft was able to assume the duties of his new position. (A full biographical sketch of Dr. Erfft will be found on Page 29.)

Mr. Large made the further announcement that Mr. Harry W. Unruh has been promoted to the position of College Controller and Mr. Joseph J. Hayes, Jr. has been named Hospital Controller. Both had previously been Assistant Controllers.

"We are pleased," Mr. Large said, "to have an Administrator such as Dr. Erfft who also has an academic background and we are pleased to place our Dean in a position of being responsible for all professional affairs in the Institution, going beyond the affairs of the College, extending to those of the Hospital."

Mr. Large said that he had been asked by several persons regarding a rumor that Jefferson was going to sell Eakins' painting of THE GROSS CLINIC. He said it was true that the National Galleries had made an offer for the painting of $100,000 and when it was not accepted they indicated that they were prepared to pay double this amount. However, Mr. Large said that the Trustees feel that they have no right to sell this gift by the Alumni to the College regardless of the amount offered for it. It may be possible that from time to time it will be loaned to the Philadelphia...
Museum of Art in order that it may be seen and appreciated by a larger audience than would be possible here at the college.

Dr. Montgomery then asked Dean Sodeman to tell the Alumni of new developments in the affairs of the College.

Dean Sodeman said that he was confident that all Alumni appreciated the actions which have been taken by the Board of Trustees "to close the gap in the area between the Hospital and the College which at times has been a wide street.

"We hope," he said, "that in the future there will be no gap at all, since the Hospital is the teaching laboratory of the College."

New Department Heads Appointed

Dean Sodeman then spoke enthusiastically of Dr. Anthony J. J. Rourke who has been retained by the Administration as a consultant to advise with regard to the planning and construction of new buildings and to assist in developing details of future teaching, research and hospital care and needs. Dr. Sodeman pointed out that while our faculty have the "know how" to make such plans, they have not the time to devote to such studies. Dr. Rourke has had extensive experience in this field and will be of invaluable assistance in Jefferson's development plans.

Dean Sodeman then announced the following new appointments: as Professor of Psychiatry and Head of the Department, succeeding the late Dr. Robert A. Matthews, Dr. Floyd Shovington Cornelison, Jr.; as Professor of Ophthalmology and Head of the Department, Dr. Thomas D. Duane, succeeding the late Dr. Carroll R. Mullen and as Professor of Preventive Medicine and Head of the Department, Dr. E. Harold Hinman who succeeds Dr. Harvey E. Perkins, Professor Emeritus.

Dr. Montgomery then opened the business portion of the meeting by asking Dr. Thaddeus L. Montgomery, Necrologist to read the names of those Alumni who had died during the past year and following the reading of this list a moment of silence was observed in their honor.

Dr. Montgomery then called on Dr. John H. Gibbon, Jr. for his report as Chairman of the Nominating Committee.

Alumni Association Officers Elected

Dr. Gibbon stated that his committee had met, with all members being present, and he presented the nominees unanimously agreed upon by the Committee. This slate was accepted by members of the Association present and voting. The Officers for the coming year therefore are: President, Dr. George J. Willauer; President-elect, Dr. Benjamin Haskell; Vice Presidents, Dr. Abraham Cantarow, Dr. Kenneth E. Fry, Dr. John H. Hodges and Dr. D. George Bloom. Dr. Herbert A. Luscombe was re-elected as Treasurer, Dr. Paul A. Bowers as Recording Secretary and Dr. J. Wallace Davis as Corresponding Secretary. (The revised By-laws, however, which were subsequently accepted by members of the Association present, provide for only a Recording Secretary and the office of Corresponding Secretary, to which Dr. Davis had been elected, was abolished.

Reports were then presented by the Chairmen of all Standing Committees and were unanimously approved.
Alumni Advisory Council

Formed

BEFORE announcing the results of the election of members to the newly-formed Alumni Advisory Council, Dr. Montgomery reviewed the background of the formation of this group. He said that many of our graduates had felt for a long time that the Alumni should have some voice in policy matters regarding the College. The Board of Trustees and Administration have recognized the help which Alumni can give by inviting the Association to form an Advisory Council to meet with the Board twice a year to consider the problems and progress of the College. Expenses incurred by the members in attending such meetings will be borne by the Administration.

Dr. Montgomery explained that a nine-man Council had been agreed upon and that it had been stipulated by the Board that no member of the Council should be actively associated with the College in a teaching capacity. Each Alumni Chapter was invited to submit a nominee and the Executive Committee chose six nominees from the Alumni body at large. From the first group nominated by the Chapters, six men were to be elected and three from the latter group. Ballots were mailed to all Alumni and approximately 1700 were returned. Dr. Montgomery announced that from the group nominated by Chapters, the following six men had been elected: Dr. David A. Johnston '28, Harrisburg, Pa.; Dr. Anthony Ruppersberg, Jr. '33, Columbus, Ohio; Dr. Joseph M. de los Reyes '28, Los Angeles, Calif.; Dr. Frederick C. DeTroia '35, South Orange, N.J.; Dr. Marshall C. Rumbaugh '08, Kingston, Pa. and Dr. A. D. Amerise '22, Coral Gables, Florida. Dr. Min Hin Li, of Honolulu, was also elected but advised that he was unable to serve and the nominee who received the next largest number of votes replaced Dr. Li on the Council. From the six nominated by the Executive Committee the following were elected: Dr. Henry L. Bockus '17, Philadelphia, Pa.; Dr. David B. Allman '14, Atlantic City, N.J.; and Dr. Francis J. Braceland '30, Hartford, Connecticut.

Of this latter group, Dr. David B. Allman was present at the meeting and Dr. Montgomery asked him to say a few words.

Dr. Allman said that he felt that his election to the Council was a distinct honor for which he is very grateful, but he said that his interest in Jefferson would not be increased by his appointment since it would be impossible for his love and concern for his Alma Mater to be greater than it is now and has been for many years.

Dr. Montgomery then asked Mr. Large to comment on the formation of the Advisory Council and Chairman Large said that he wished to dispel any possible ideas that this Council had been formed and the two new positions created entirely through his efforts since he became Chairman of the Board. Rather, he said the Board has considered the need for such a group very deeply and over a long period of time. Mr. Foerderer, who retired as Board Chairman in January, had given the project his full support as had the other Trustees and members of the Administration. Mr. Large said that the formation of this Council seemed to him a most happy event, for it will be very advantageous for the Board, which is composed of bankers, lawyers, and other laymen, to have the benefit of the help and advice of this Alumni Group.

The Revised By-laws had been circularized among the Association membership by inclusion in the December issue of the ALUMNI BULLETIN and Dr. Montgomery asked the members present to indicate their approval of, or exceptions to, the revision. Upon motion, which was seconded, the revision was unanimously adopted.

Dr. Montgomery escorted Dr. Willauer, the new President, to the Podium. Dr. Willauer asked for the continued support of all Alumni and called for an adjournment of the meeting.
Dr. Montgomery turns over gavel to incoming President, Dr. Willauer.

Alumni and guests enjoyed visiting before Dinner.
(l. to r.) Dr. John E. Livingood, Dr. John B. Montgomery, Dr. Lewis C. Scheffey, Mr. James M. Large and Dr. J. Parsons Schaeffer
George J. Willauer, M.D.
Dr. George J. Willauer Takes Office as Alumni Association President

Dr. George J. Willauer took office on February 15, 1962 as the new President of the Alumni Association of Jefferson Medical College.

Doctor Willauer received his Bachelor of Science degree from Franklin and Marshall College in 1917. During World War I, he enlisted in the Regular Army in April, 1917 and was discharged as a Second Lieutenant, Field Artillery in February, 1919. Doctor Willauer received his M.D. degree from Jefferson Medical College in 1923. He served an internship in the Jefferson Medical College Hospital, and did post-graduate work following at the University of Vienna.

He is a Fellow of the American College of Surgeons, Diplomate of the American Board of Surgery, Member of the American Association for Thoracic and Vascular Surgery and Founder of the American Board of Thoracic Surgery. Doctor Willauer is also a member of the Philadelphia College of Physicians, Philadelphia Academy of Surgery, American Medical Association, Pennsylvania Medical Society, Philadelphia County Medical Society and the Meigs Society. At present he is Vice President of the Philadelphia Academy of Surgery. He is an S. Weir Mitchell Associate of the College of Physicians and has served on the Council of the College. Doctor Willauer is a former Director of the Department of Anesthesia at the Jefferson Medical College Hospital, a Founder and former President of the Jefferson Society for Clinical Investigation, Founder and former President of the Ex-Residents’ Association of the Jefferson Medical College and a member of the Executive Committee of the Jefferson Alumni Association. He is also a Founder and past President of the Laennec Society. Beside his medical affiliations, he is an Elder of the First Presbyterian Church, Twenty-First and Walnut Streets, Philadelphia. He is a Mason and a member of the Philadelphia Cricket Club.

He has been Director of the Department of Surgery at the Methodist Hospital for over thirteen years where he is in charge of the surgical teaching of the Jefferson students. He is also a past President of the Medical Staff of the Methodist Hospital.

Doctor Willauer holds the positions of Clinical Professor of Surgery at Jefferson Medical College and Director of Surgery at the Eagleville Sanatorium, Eagleville, Pennsylvania.

Doctor Willauer is married to the former Catherine Eshleman, and they reside at 6129 Greene Street, Germantown. They have a daughter, Mrs. Roger B. Decker of Haverford, Pennsylvania, and a son, George J. Willauer, Jr. who lives at home.
Mr. Foerderer Retires from Chairmanship of Board of Trustees

James M. Large Succeeds Him

ON December 4, 1961 Mr. Percival E. Foerderer tendered his resignation as Chairman of the Board of Trustees. For thirty-three years he has served The Jefferson Medical College and Hospital with loyalty and devotion. He was elected a Trustee in 1928, became Chairman of the College Committee in 1938, and in 1950 was made the first Chairman of the Board. He also served as a member of the Hospital Committee and a member and Chairman of the Finance Committee. While Mr. Foerderer laid aside his duties as Chairman of the Board on January 1, 1962, he will continue to serve Jefferson as one of its life Trustees.

D. Hays Solis-Cohen, Esquire, presented the following minute which was unanimously adopted by the Board of Trustees at its December 4 meeting:

The Trustees of The Jefferson Medical College, on the occasion of Mr. Percival E. Foerderer’s retirement as Chairman of the Board, express their sense of gratitude for the years of his life which he has devoted to the service of The Jefferson Medical College and its Hospital.

His farsighted leadership in an era that has caught all medical schools and teaching hospitals in an economic situation that has over-taxed their resources has been such that his name will be recorded in Jefferson’s long history as the chief architect of the new Jefferson which is rising rapidly to meet the responsibilities and the challenges resulting from the dynamic and revolutionary changes taking place in the field of medical education.

Under Mr. Foerderer’s direction and guidance the Trustees, Administrative Officers, Faculty and Staff are united in effort; and a real and effective reorganization of the entire institution is in process of accomplishment. The resulting good that should emanate therefrom is incalculable and should make easier the work of his successor.

We look forward in happiness to Mr. Foerderer’s continued association with us, his fellow Trustees of Jefferson, over the years that lie ahead. It is our hope that he will enjoy the association all the more secure in the knowledge of our respect, admiration and affection for his person.

RESOLVED, that this Minute be suitably engrossed and signed by the Trustees, the President, the Dean of the College, and the Medical Director of the Hospital, to be delivered to Mr. Foerderer on an appropriate occasion by the Chairman-elect of the Board of Trustees of The Jefferson Medical College.

In further recognition of Mr. Foerderer’s outstanding service to Jefferson, the Board of Trustees voted to name its newest building, on the corner of 11th and Walnut, the “Foerderer Pavilion”.

At the Executive Faculty-Board of Trustees dinner on December 7, Dr. Peter A. Herbut, Chairman of the Executive Faculty, spoke of Jefferson’s great progress under Mr. Foerderer’s leadership since 1950. In that period, he said, “several floors of the college have been finished to house research facilities for most of the Clinical Departments; the research facilities of the Basic Science Departments have been greatly expanded; the new Pavilion was opened in 1955; the James R. Martin Nurses Residence was completed in 1959; The Charlotte Drake Cardeza Laboratories were acquired, built and — in 1960 — opened for research; complete rehabilitation of the old hospital has been undertaken and — perhaps more important than all the foregoing — plans have been formulated for a $40,000,000 development program which will enlarge Jefferson to occupy the area between 10th and 11th Streets and between Sansom and Spruce Streets.”

Dr. Herbut also commended Mr. Foerderer for his success in molding together the four ingredients in an educational institution which must necessarily function as a unit: the Board of Trustees, Administration, Faculty and Facilities.

Upon Mr. Foerderer’s retirement on January 1, Mr. James M. Large assumed the duties of Chairman of the Board.

Mr. Large, who was born in Philadelphia in 1904, was educated at Lawrenceville School and Princeton University. He is presently Chairman of the Board of
Mr. Foerderer, who has retired as Board Chairman, discusses Jefferson's development plans with Mr. Large, who succeeds him.

Mr. Large is very active in civic and charitable organizations in the City; is a member of the Board of Trustees of Moore Institute of Art, Science and Industry, the United Fund of the Philadelphia area and is a Director of the Zoological Society of Philadelphia.

He was awarded the honorary degree of Doctor of Humanities by Moore Institute.

During the Second World War Mr. Large was on active duty with the U.S. Navy and served aboard the Light Carrier USS PRINCETON throughout the ship's active career, during which time she engaged in nine major combat actions in the Pacific. He was wounded during the sinking of the USS PRINCETON and was awarded the Purple Heart and the Silver Star Medal. He subsequently served aboard the second Aircraft Carrier USS PRINCETON.

Mr. Large is married to the former Sarah Morris Ellison and they have three children and three grandchildren. The Larges reside on Thomas Road in Wayne, Pa.
Dr. Kenneth R. Erfft Appointed Vice President and Treasurer of Jefferson

Dr. Kenneth Reyners Erfft has been appointed by the Board of Trustees to the newly-created position of Vice President and Treasurer of The Jefferson Medical College and Hospital.

Dr. Erfft was born in Chicago, Illinois and received his undergraduate education at Northern Michigan College from which he graduated in 1932 with an A.B. degree. He received his M.A. degree from the University of Richmond and his degree of Doctor of Literature from Maclean College, Chicago. In 1961 he was awarded the Honorary degree of Doctor of Laws by Northern Michigan College.

Dr. Erfft taught for a time in a Michigan High School and Junior College and then served for seven years as Assistant Superintendent and Clerk of the School Board of the City of Petersburg, Virginia.

From 1942 to 1946 he was on active duty with the United States Navy and was one of a team of five officers who designed the demobilization program for the Navy. He was recalled to duty in the Korean conflict and was in charge of officer procurement and the ROTC programs in the thirteen Southeastern states. He retired voluntarily in 1957 in the Rank of Commander, USNR.

Dr. Erfft has held important administrative positions with three Universities. From 1946 to 1954 he was Business Manager and Assistant to the President of Furman University in Greenville, South Carolina and from 1954 until 1957 he was Comptroller of the Pennsylvania State University. In both these positions he was responsible, under the President, for business and financial operations.

In 1957 Dr. Erfft accepted the position from which he comes to us—that of Vice President and Treasurer of Rutgers, The State University of New Jersey. In addition to his responsibilities for the business, financial and operational affairs of the 15 Colleges and 24 additional academic divisions of that University, Dr. Erfft has been responsible for the $50,000,000 building program in which 35 projects are now underway.

He also served as Treasurer of the Board of Governors of the University and Treasurer of the Board of Trustees, as well as Treasurer of the Rutgers Research and Educational Foundation which is a wholly-owned subsidiary of the University.

Dr. Erfft has been very active in professional organizations having to do with college administration. He is Vice President, and will shortly become President, of the Eastern Association of College and University Business officers; a member of the Advisory Board and special lecturer for the Annual Short Course for Colleges and University officers, University of Omaha and has been Chairman of the Committee on Taxation and Fiscal Reporting to the Federal Government of the American Council on Education, representing all 2,000 colleges in United States.

Dr. Erfft is the author of numerous articles which have appeared in COLLEGE AND UNIVERSITY BUSINESS MAGAZINE and similar professional publications. He was a member of the Editorial Committee of the original two volumes of COLLEGE AND UNIVERSITY BUSINESS ADMINISTRATION published by the American Council on Education and is one of the Committee for the Revision of these volumes. He served on the Editorial Board of COLLEGE AND UNIVERSITY BUSINESS MAGAZINE from 1958 to 1961 and was an Administrative Committee member of the California and Western Conference Cost and Statistical Study, which was financed by the Ford Fund and published in 1960.

Dr. Erfft has also been active in civic affairs in New Brunswick, serving on the Board of Directors of the National Bank of New Jersey, as Vice President of the Freedom Savings and Loan Association and on the Board of Directors of the Greater New Brunswick and Raritan Valley Chamber of Commerce. He is interested in scouting and is a member of the Executive Committee, Middlesex Council, Boy Scouts of America as well as a Trustee of the Boy Scout Trust Fund of the same Council. He has been President of the Board of Trustees of Rutgers Preparatory School and a member of the Board of Directors of the New Jersey Research and Development Council.

Dr. Erfft and his wife, the former Nancy Fontaine Creath, will make their home in Philadelphia.
Dr. Floyd S. Cornelison, Jr.
Dr. Floyd S. Cornelison, Jr. to Head
Department of Psychiatry

FLOYD Shovington Cornelison, Jr., B.A., M.D., M.S., has been appointed Professor of Psychiatry and Head of the Department, succeeding the late Dr. Robert A. Matthews.

Dr. Cornelison was born in San Angelo, Texas and received his undergraduate education at Baylor University in that State. He took postgraduate work at Northwestern University and at Columbia University and studied medicine at Cornell University Medical School, receiving his M.D. degree in 1950. He took further work at Boston University and in 1958 was awarded his M.S. degree by that school.

His internship was served at Grasslands Hospital in Valhalla, New York and his Psychiatric Residencies at Massachusetts Memorial Hospital, Boston University School of Medicine and Boston State Hospital.

Dr. Cornelison was also a Fellow in Psychiatric Films, Medical Audio-Visual Institute of the Association of American Medical Colleges. He has retained a strong interest in the writing and production of psychiatric teaching films and four such motion pictures have been produced with one presently in process of preparation.

He has served on the faculties of Boston University School of Medicine, Tufts Medical College and most recently as Associate Professor of Psychiatry at the University of Oklahoma School of Medicine. He will continue his association with that University as Visiting Professor of Psychiatry and as a Consultant in several areas of research being carried on there.

Dr. Cornelison has held appointments on the Psychiatric staffs of Boston City Hospital; the Free Hospital for Women, Brookline, Massachusetts; Wellesley Hospital and the Oklahoma City Veterans Administration Hospital. He was also Psychiatrist at the Massachusetts Institute of Technology and Consulting Psychiatrist at Oklahoma State University and Carter County Child Guidance Clinic in Ardmore, Oklahoma. He served as Acting Director of Education and Research at the Griffin Memorial Central State Hospital in Norman, Oklahoma, is a member of the Research Committee of the Southern Regional Education Board and a consulting member of the Mental Health Film Board.

Dr. Cornelison was certified in Psychiatry by the American Board of Psychiatry and Neurology in 1957.

He is a Fellow of the American Psychiatric Association and a member of the Committee on Academic Education of that organization. In addition he holds memberships in the following professional societies: American Medical Association, Association of American Medical Colleges, Southern Regional Education Board, American Association for Advancement of Science, American College Health Association, New York Academy of Science, Oklahoma County Medical Society, Oklahoma State Medical Society and Oklahoma City Clinical Society.

While Dr. Cornelison's main interest in Clinical Psychiatry, he has done extensive research in the field of human behavior and has developed new approaches to the teaching of behavioral sciences.

Dr. Cornelison is married to the former Erwina Bode and they have one daughter, Ann Brewer, who was born in 1952.
Dr. Thomas D. Duane
Dr. Thomas D. Duane Succeeds the Late Dr. Mullen as Professor of Ophthalmology and Head of the Department

THOMAS D. Duane, B.S., M.D., M.S., Ph.D., has been named Professor of Ophthalmology and Head of the Department for Jefferson Medical College, succeeding the late Dr. Carroll R. Mullen. He assumed his new duties on February 1, 1962.

Dr. Duane received his undergraduate education at Harvard University and received his medical degree at Northwestern University Medical School in 1943 and his M.S. degree from the same University in 1944. He received his degree of Doctor of Philosophy from the University of Iowa in 1948 and for a time served on the faculty of the Iowa Medical School. He has also been a member of the faculty of the University of Pennsylvania School of Medicine and the Graduate School of Medicine at the University of Pennsylvania.

Except for the years 1951-1953, Dr. Duane has been in private practice in Bethlehem, Pa. and on the staff of St. Luke’s Hospital there since 1949. From 1951 to 1953 he was on active duty as a flight surgeon in the Navy.

He served as a consultant to the Navy on research covering the visual aspects of sending a man into space. His research is conducted under the auspices of the National Aeronautics and Space Administration activities centered at Ames Laboratories at Moffett Field, Mountain View, California.

Dr. Duane is a Diplomate of the National Board of Medical Examiners, the American Board of Ophthalmology, the American Board of Preventive Medicine (aviation medicine), a Fellow of the American College of Surgeons and a member of the American Medical Association, the American Academy of Ophthalmology, the Aero Medical Association, the American College of Preventive Medicine and the College of Physicians of Philadelphia.

His wife, the former Julia McElhinney, is also a physician on the attending staff of Children’s Hospital, Philadelphia. They have four children and live in Bedminster, Pa. The children are Alexa, 16; Joseph, 14; Rachel, 13; and Andrew, 9.
Dr. E. Harold Hinman Appointed Professor of Preventive Medicine and Head of the Department

E. Harold Hinman, B.A., M.S., Ph.D., M.D., M.P.H., has been appointed Professor of Preventive Medicine and Head of the Department, succeeding Dr. William H. Perkins, who retired in 1959.

Dr. Hinman was born in Wicklow, Ontario, Canada, but became an American citizen in 1933. He took his undergraduate work at Queen's University in Ontario and then attended Cornell University from which he received his M.S. and Ph.D. degrees; his degree of Doctor of Medicine was obtained at the Louisiana State University School of Medicine and he earned his M.P.H. degree as a Rockefeller Foundation Fellow at the Johns Hopkins University School of Hygiene and Medicine. He was also, from 1930–32, a National Research Council Fellow in the Department of Tropical Medicine at Tulane University.

Dr. Hinman began his teaching career in 1927 as Teaching and Research Assistant in Entomology at Cornell University. He has been Assistant Professor of Parasitology and Medical Entomology at the Louisiana University School of Medicine; Professor and Director, School of Public Health of the University of Oklahoma and, from 1952 to 1959 was Dean of the Medical School and Professor and Head of the Department of Microbiology at the University of Puerto Rico School of Medicine. He left this position to become Chief of the Technical Resources Division, International Cooperation Administration (now AID) in Washington, D.C.

In the Public Health field, Dr. Hinman has been Chief of the Malaria Control Division, Tennessee Valley Authority, Wilson Dam, Alabama and Head Public Health Officer of the Institute of Inter-American Affairs in El Salvador and Mexico.

He was decorated in 1946 by the President of Mexico with the Eduardo Liceago Medal for distinguished contributions to public health in that country. He served as Consultant in Tropical Medicine to the Secretary of War during World War II, was a member of the Interim Committee for the Fifth International Congress of Tropical Medicine and Malaria and was Vice Chairman (Division of Tropical Medicine) of the Sixth International Congresses on Tropical Medicine and Malaria held in Portugal in 1958.

While in Puerto Rico, Dr. Hinman was an Honorary Staff Member of the San Juan City Hospital and Chairman of the Dean's Committee of San Patricio Veteran's Hospital.

Dr. Hinman is a Fellow of the American College of Physicians, the American College of Preventive Medicine, the American Society for the Advancement of Science, the American Public Health Association, the Royal Society of Tropical Medicine and Hygiene and an Honorary Fellow of the International College of Surgeons. He is a Diplomate of the American Board of Preventive Medicine. He is also a member of numerous other professional societies and has been a prolific writer in the fields of preventive medicine and public health.

Dr. Hinman is married to the former Katherine Fradenburgh and they have two sons, Edward J. Hinman, M.D., Tulane '55, who is a Fellow in Medicine at Johns Hopkins and Alan R. Hinman, M.D., Western Reserve '61, who is an intern at Metropolitan Hospital in Cleveland.
PROMOTIONS

Adolphe T. Gregoire, B.A., M.A., Ph.D., from Instructor in Physiology to Assistant Professor of Physiology.

E. A. Y. Schellenger, M.D., from Associate in Obstetrics and Gynecology to Assistant Professor of Clinical Obstetrics and Gynecology.

Armando F. Goracci, B.S., M.D., from Assistant in Anatomy to Instructor in Anatomy.

Allan O. Howland, B.A., M.A., Ph.D., from Assistant in Pediatrics (Psychology) to Instructor in Psychiatry (Psychology).

Herbert Kean, B.A., M.D., from Assistant in Otolaryngology to Instructor in Otolaryngology.

Henry M. Schreiner, A.B., M.D., from Assistant in Anatomy to Instructor in Anatomy (Applied Anatomy).

Andrew A. Sullivan, M.D., from Assistant in Obstetrics and Gynecology to Instructor in Obstetrics and Gynecology.

Walter M. Uhler, A.B., M.D., from Assistant in Pediatrics to Instructor in Pediatrics.

NEW APPOINTMENTS

Floyd Shovington Cornelison, Jr., B.A., M.D., M.S., Professor of Psychiatry and Head of the Department.

Thomas D. Duane, B.S., M.D., M.S., Ph.D., Professor of Ophthalmology and Head of the Department.

E. Harold Hinman, B.A., M.S., Ph.D., M.P.H., Professor of Preventive Medicine and Head of the Department.

Hyman Menduke, A.B., M.A., Ph.D., Associate Professor of Preventive Medicine (Biostatistics).

Herbert F. Johnson, M.D., Assistant Professor of Clinical Obstetrics and Gynecology.

James H. Lee, B.A., M.D., Assistant Professor of Clinical Obstetrics and Gynecology.

Conrad C. L. Buck, B.A., M.D., M.S., Associate in Clinical Anesthesiology.

Mary S. Fisher, B.A., M.D., Associate in Radiology.

Donald Akutagawa, M.A., Ph.D., Instructor in Pediatrics (Psychology) and Instructor in Psychiatry (Psychology).

Martin J. Kaplan, B.A., M.A., Ph.D., Instructor in Pediatrics (Psychology) and Instructor in Psychiatry (Psychology).

Norma B. Keitel, A.B., M.D., Instructor in Psychiatry.

Shinzo Kikyo, M.D., Instructor in Pathology.

Jerry Stiffel, B.A., M.D., Instructor in Anatomy (Applied Anatomy) and Assistant in Surgery.

Edward M. Sullivan, M.D., M.S., Instructor in Obstetrics and Gynecology.

Richard M. Welch, B.S., M.S., Ph.D., Instructor in Pharmacology.

Doris Willig, M.D., Instructor in Psychiatry.

Dorothy E. Baker, B.A., M.D., Assistant in Psychiatry.

Arnold A. Bank, A.B., M.D., Assistant in Clinical Neurology.

Anthony L. Centrone, B.S., M.S., M.D., Assistant in Obstetrics and Gynecology.

Beatrice diMarco, B.A., M.D., Assistant in Anesthesiology.

Richard J. Eberly, A.B., M.D., Assistant in Medicine.

Jack Gitterman, M.D., Assistant in Psychiatry.

Benjamin Kendall, B.A., M.D., Assistant in Obstetrics and Gynecology.

Robert W. Park, B.S., Ph.D., Research Associate in Biochemistry.

In Min Young, M.D., Research Fellow in Otolaryngology (Audiology).

RESIGNATIONS

Robert E. Berry, B.S., M.D., Instructor in Surgery.

R. Gerald Suskind, B.A., M.D., Instructor in Pathology.

DEATHS

John T. Eads, A.B., M.D., Assistant Professor of Medicine, February 6, 1962.

Consultant for Jefferson
Appointed

THE Board of Trustees has appointed Anthony J. J. Rourke, M.D. as a Consultant to the College and Hospital Administration in several areas of endeavor.

Dr. Rourke will begin with advising as to the planning and construction of the New Basic Science Building and, as the Development Program progresses, he will assist in the master planning for all physical facilities.

He will also assist and advise in developing the details of future teaching, research and hospital needs and will aid in developing an organizational structure designed to function most efficiently in developing the future objectives Jefferson has set for herself.

Dr. Rourke has had very wide experience as a Consultant in this field and it is felt that Jefferson is most fortunate in having obtained his services.

Annual Service Recognition
Ceremonies Held

At the Fourth Annual Service Recognition Ceremonies of Jefferson Medical College and Hospital four members of the Board of Trustees received service pins. Mr. Brandon Barringer has been a trustee for 25 years, Mr. William Potter Wear for 20 years, D. Hays Solis-Cohen, Esq. for 10 years and Mr. Albert J. Nesbitt for five years. Mr. Foerderer, who has since retired as Chairman of the Board, presented these awards, and spoke briefly of the time and unselfish effort each of these Trustees has devoted to Jefferson.

President Bodine and Dean Sodeman presented the service pins to fellow workers in the Hospital and College. Mr. Robert Lentz, Librarian, received a 30 year pin; Mr. Harry B. Storm, College Clerk, a 20 year pin and pins for 15 years' service were awarded to Misses Jane Ann Lutz, Kathleen Toal and Mrs. Margaret Thomas.

Mr. Bodine told the guests that the 149 individuals receiving pins at these ceremonies represented a total of 1310 years of service to Jefferson — certainly a wonderful record of loyalty.

John Trimble Eads, M.D.
1900-1962

Dr. John Trimble Eads, Assistant Professor of Medicine, died in the Jefferson Hospital February 6, 1962, after a prolonged illness which forced his retirement from practice in 1956.

Dr. Eads was born in Arthur, Illinois, July 12, 1900. He was the only child of Dr. and Mrs. Samuel Oliver Eads who returned to their native Kentucky shortly after the birth of their son. It was in this state that John Eads obtained his early education and prepared himself for college. He entered Center College at Danville, Kentucky and graduated with an A.B. degree in 1922. In the Fall of that year he enrolled at Jefferson and graduated in the Class of 1926. He interned at Jefferson Hospital from 1926 to 1928. Shortly after completing his internship Dr. Eads became associated with Dr. Martin E. Rehfuss, who at that time was Assistant Professor of Medicine and Head of its Division of Gastroenterology. He served in the capacity of Assistant to Dr. Rehfuss and during this period helped organize the out-patient Gastro-Intestinal Clinic of the Jefferson Hospital. He made numerous contributions to medical literature in the field of Gastroenterology, both alone and in collaboration with Dr. Rehfuss.

Dr. Eads served in the U. S. Army in World War I and in the U. S. Navy Medical Corps in World War II. In the latter conflict he held the rank of Commander at the time of his discharge. At various times he served as Visiting Physician to the Philadelphia General Hospital and Pennsylvania Hospital and as a Consultant to the Veterans Administration Hospital in Philadelphia. He was a Fellow of the Philadelphia College of Physicians, the American College of Physicians, and a member of the Nu Sigma Nu Fraternity.

Dr. Eads was a cheerful, friendly man with an infectious laugh and a never ending supply of humorous stories. He drew his friends from all walks of life and to all of them he gave freely his advice and counsel.

The high regard in which he was held by his colleagues is attested to by the fact that he numbered among his patients many fellow physicians and their families.

Dr. Eads is survived by his mother; his wife, the former Elizabeth Downs; two sons, James and John T., Jr.; a daughter, Elizabeth Ann Eads, and a granddaughter.

MARTIN J. SOKOLOFF, M.D.
ANOTHER milestone was achieved in Jefferson’s illustrious history when, on December 18, 1961, the 50th Anniversary of the Daniel Baugh Institute of Anatomy was celebrated.

In recognition of the occasion, the Director and staff of the Anatomy Department were hosts at a luncheon in the Institute followed by brief ceremonies in the Amphitheater and a tour of the building. Trustees, faculty members, administration, alumni and students attended.

Dr. Andrew J. Ramsay, Director, welcomed these guests and stated that since its opening in 1911, more than 8,000 medical students have received instructions in anatomy and embryology at the Institute — more than in any other similar department in the nation.

He traced the history and growth of the department, beginning with Dr. Spitzka, the first Director, through its progress under Dr. J. Parsons Schaeffer and the late Dr. George Allen Bennett.

“We are intensely proud of our achievements,” Dr. Ramsay said. “Freshmen spend all their official study time here. We not only teach; we aim to inspire our students to move ahead, to realize their responsibility to Jefferson and the nation.”

Dean Sodeman introduced Mr. James M. Large, Chairman of the Board of Trustees and Mr. William Potter Wear, member of the Board, pointing out that Mr. Wear’s grandfather, William Potter, had been head of the Board at the time Trustee Daniel Baugh bought and equipped the building for the Institute.

Dr. Ramsay then called upon Dr. J. Parsons Schaeffer who received a standing ovation from the audience.

Dr. Schaeffer, who is now 83, headed the Institute for 34 years and is known and loved by thousands of Jefferson Alumni. Although Dr. Schaeffer has been Emeritus Professor since 1948, he still visits D.B.I. at least once a week.

Dr. Schaeffer reminisced about the circumstances surrounding his becoming associated with Jefferson and spoke of Mr. Baugh’s foresight in realizing the great need for expanded quarters for the Institute of Anatomy and his continued interest and understanding throughout the years.

Following the most interesting and informal talks in the Amphitheater, the visitors were invited to tour the Institute and visit with staff members.
FACULTY NOTES

DR. J. LAWRENCE ANGEL, Associate Professor of Anatomy and Physical Anthropology, presented a paper on "Variability, Exogamy, and Evolution in Man" at the 60th Annual Meetings of the American Anthropological Association held November 16-19, 1961, at the Benjamin Franklin Hotel in Philadelphia.

DR. JOHN B. ATKINSON, Assistant Professor of Clinical Medicine, was guest speaker recently at Wyoming Valley Hospital in Wilkes-Barre. The program was presented as a part of Pennsylvania Hospital's continued education program; and Dr. Atkinson's subject was "Coagulation of Human Blood".

DR. WALTER F. BALLINGER, II, Assistant Professor of Surgery, who has recently been elected a member of the Philadelphia Committee of Seventy, gave a paper entitled "Denervation of the Small Intestine" at a meeting of the Philadelphia Chapter of the American Federation for Clinical Research. He also spoke to the Society of University Surgeons in Cleveland on "Auto-transplantation of the Small Intestine; the Effect of Denervation".

DR. RUDOLPH C. CAMISHION, Instructor in Surgery, addressed the Mt. Carmel (Pennsylvania) Medical Society on the subject "Diseases of the Esophagus".

DR. MARIO A. CASTALLO, Clinical Professor of Obstetrics and Gynecology, is the author of "Getting Ready for Parenthood" which has been chosen by Collier Books to be included in a new series of paperback textbooks, fiction and classics to be published during 1962. The first edition of the book was released in 1957 in United States and Canada by Macmillan Company and in 1958 a Spanish edition was published by the Brugera Company in Barcelona, Buenos Aires and Bogotá.

DR. S. A. D'ANGELO, Professor of Histology and Embryology, presented a paper entitled "Central Nervous Regulation of TSH Secretion" at the Neuroendocrinology Symposium held at the New Everglades Hotel, Miami, Florida, December 5 to 9, 1961.

DR. DAVID M. DAVIS, Emeritus Professor of Urology of Jefferson Medical College, addressed the Northampton County Medical Society at Easton, Pennsylvania on "Uro dynamics and Pyelitis", on November 21, 1961, thus concluding a series of twelve speaking engagements in 1961 from Las Vegas to Buenos Aires.

DR. ANTHONY F. DEPALMA, James Edwards Professor of Orthopedic Surgery and Head of the Department, was a visiting guest at the New York University Medical Center from November 14 to 17 for a four-day full time course on Surgical Rehabilitation of Arthritic Deformities.

DR. THEODORE R. FETTER, Nathan Lewis Hatfield Professor of Urology, headed a discussion on the Urologic Applications of Lymphangiography, at the New York Section Meeting of the American Urological Association, Inc., at the Yale Club in New York City. Drs. Gerald D. Dodd, Clinical Professor of Radiology, Jose R. Yunen and Milton Ivker (Residents in Urology, Philadelphia General Hospital and Jefferson) participated in this discussion.

Dr. Fetter also moderated a Radiologic Conference at the Post-Graduate Seminar of the Mid-Atlantic Section of the American Urological Association, Inc., held at Brady Institute, Johns Hopkins Medical College, Baltimore, Maryland.

DR. GEORGE ROSS FISHER, III, Associate in Clinical Medicine, participated in a symposium on "Diagnosis and Treatment of Thyroid Disorders" at a meeting of the Wyoming Valley Academy of General Practice in Wilkes-Barre.

He was also Visiting Consultant on Medical Grand Rounds at Monroe County General Hospital in East Stroudsburg, Pennsylvania, and spoke on "Diagnosis of Thyroid Disease" at Phoenixville Hospital.

He discussed "Experience with a Data-Processing Technique in Medicine" at a recent staff meeting at Pennsylvania Hospital.

DR. JOHN J. GARTLAND, Associate in Orthopedic Surgery, addressed a meeting of the Delaware Valley Chapter of the National Hemophilia Foundation, on November 10. The topic of his talk was "The Orthopedic Problems of the Hemophilic".

DR. JOHN H. GIBBON, Jr., the Samuel D. Gross Professor of Surgery and Head of the Department, has been elected Vice President of the College of Physicians of Philadelphia.

He served as Chairman of a conference on Physiologic Aspects of Total Body Perfusion at the University of Miami School of Medicine in January; and in the same
month addressed the 8th Annual Conference on Cardiac and Vascular Surgery of the New York Heart Association. His subject was “The Future of Cardiac Surgery”.

He also appeared on two television programs in connection with the 1962 Heart Fund.

Dr. John W. Goldschmidt, Associate in Physical Medicine, spoke on “Rehabilitation of the Cardiac and Stroke Patient” at the cardiovascular seminar sponsored for nurses by the Lackawanna County Heart Association on Wednesday, November 15, 1961, at Hotel Casey, Scranton, Pa.

Dr. Philip J. Hodes, Professor and Chairman of the Department of Radiology, spoke to the Milwaukee Academy of Medicine at the University Club. His topic was “Recent Advances in X-ray Diagnosis of Diseases of the Gall Bladder and Pancreas.”

Dr. Ioulios Iossifides, Instructor in Pathology and Associate Member of the Cardessa Foundation participated as a guest speaker in the symposium of the Physiological Society of Philadelphia on “Organ and Tissue Transplantation”. Dr. Iossifides discussed a paper on “Problems of Bone Marrow Preservation”.

Dr. Kelvin A. Kasper, Associate Professor of Otolaryngology will be a guest speaker at the annual meeting of the West Virginia Academy of Ophthalmology and Otolaryngology at the Greenbrier Hotel, White Sulphur Springs from April 23 to 25, 1962.

Dr. Hans G. Keitel, Professor of Pediatrics and Head of the Department, has been appointed Secretary-Treasurer on the Medical Board of Episcopal Hospital. He has been Director of the Department of Pediatrics at Episcopal Hospital since 1958.

Dr. Simon Kramer, Professor of Radiology, has just completed a tour as visiting professor at Penrose Cancer Hospital, Colorado Springs, Colo. What makes it important is that he was the first visiting professor ever named to that internationally-known institution.

Dr. Thomas F. Nealon, Jr., Associate Professor of Surgery, spoke at the Williamsport (Pennsylvania) Hospital, in February, on “Fluid and Electrolyte Therapy”; at the Graduate School of Medicine of the University of Pennsylvania on “Cancer of the Lung” and he addressed the resident staff of Philadelphia General Hospital on “Cardiorespiratory Function During Thoracotomy”.

Dr. Henry H. Perlman, Clinical Professor in Pediatrics, was Guest Lecturer at the 55th Annual meeting of the Southern Medical Association held at Dallas, Texas. He participated in a Panel on Allergy representing Pediatric Dermatologists.

He also delivered an address before the Allergy Section of the Association entitled “Common Errors In the Diagnosis of Skin Disorders Seen in Infants and Children and How To Avoid Them”.

On one day during the conference Dr. Hugh W. S. Powers, Jr. Professor and Head of The Department of Pediatrics at Southwestern Medical College, turned over his Grand Rounds to Dr. Perlman who discussed “Diagnosis and Management of Common Skin Disorders in Infants and Children”.

Dr. Giancarlo F. Rabotti, Research Instructor in Hematology and Associate Member of the Cardesa Foundation, presented his work on “Bases-Activity Distribution as a Specific Marker for Mammalian DNA”. The paper was presented at the Annual Meeting of the American Society of Cell Biology.

Dr. Herman L. Rudolph, Assistant Professor of Physical Medicine and Rehabilitation, attended a postgraduate course on Amputations in Children at Northwestern University in Chicago.

Dr. Joseph Sataloff, Associate Professor of Otolaryngology, presented a paper on “The Comparative Effects of Noise Upon Normal and Abnormal Ears” at the National Research Council Committee on Hearing and Bioacoustics in Washington, D.C.

The third annual Symposium on Industrial Nursing took place at the Bellevue Stratford Hotel in Philadelphia on December 7, 1961. Among the speakers were Dr. Sataloff and Dr. John J. Dowling, Associate in Clinical Orthopedic Surgery. The symposium was sponsored by General Electric Missile and Space Vehicle Department.

Dr. Nathan S. Schlezinger, Professor of Clinical Neurology, was instrumental in inaugurating a Delaware Valley Chapter for study of Myasthenia Gravis.

Dr. Schlezinger is head of the MG Clinic at Jefferson Hospital and has devoted some 28 years to work in this field. The purpose of the chapter is to instruct doctors and the general public about the disease.

Dr. William A. Sodeman, Dean and Professor of Medicine, gave the main address at the Installation Meeting of The Philadelphia County Medical Society. His subject was “The Fifty Year Medical Curriculum”; and his remarks regarding the huge investment of both time and money presently required to obtain a medical
degree, received favorable comment in editorials in Philadelphia papers.

DR. F. WILLIAM SUNDERMAN, Clinical Professor of Medicine and Director of the Division of Metabolic Research, spoke on "Advances in Clinical Science" at Iowa State University, at the University of North Carolina Extension Course at Asbourne and in Morgantown.

He has recently been elected a life member of the American Board of Pathology.

DR. F. WILLIAM SUNDERMAN, Jr., Instructor in Medicine, participated in a Clinico-Pathological Conference at Mercy Hospital in Pittsburgh, Pennsylvania and discussed "Interpretation of the Thyroid Function".

DR. PETER A. THEODOS, Assistant Professor of Clinical Medicine, participated in a panel discussion of Inhalation Therapy at the Interim Meeting of the American College of Chest Physicians in Denver, Colorado on November 26, 1961. He also participated in a conference on Problems and Opportunities of the Tuberculosis Association Programs in Large Cities sponsored by the NTA in Chicago, Illinois from December 7 to 9, 1961.

DR. AMOS S. WAINTER, Assistant Professor of Obstetrics and Gynecology, delivered a paper entitled "Vaginal Bacteriology, Before and After Total Abdominal Hysterectomy" at the Third World Congress of Obstetrics and Gynecology which was held in Vienna. During his stay in Europe he also addressed the Medical Staff of Kali Chemical Company of Germany on "Analexim".

DR. WILLIAM H. WHITLEY, III, Assistant Professor of Clinical Neurosurgery, in his capacity as President of the Christian Medical Society, welcomed those who attended the International Convention on Missionary Medicine held at Wheaton College in Wheaton, Illinois. He also gave an address entitled "Quo Vadimus".

DR. GEORGE J. WILLAUER, Clinical Professor of Surgery, addressed a meeting of the National Society of Medical Oncology of Mexico, in Mexico City, on the subject "Carcinoma of the Lung". On the same program were Doctors William Watson of Memorial Hospital, New York; Peter Mohler of the University of Chicago and Howard Barclay of Baylor University.

He also spoke to the Association of Physicians and Surgeons of the Pennsylvania Railroad on "Rehabilitation of the Injured Employee".

DR. C. WILMER WIRTS, Associate Professor of Medicine, addressed the Stamford Academy of General Practice on "Nutrition in Gastrointestinal Disease" at Stamford, Connecticut, November 21, 1961.

ALUMNI PLACEMENT BUREAU

Positions Available

OPPORTUNITY for physician to take over an active general practice in a Bucks County, Penna. community about 30 miles from Philadelphia. Present doctor is leaving to specialize and will cooperate in introducing anyone interested to patients and staffs in three community hospitals.

SMALL town needs general practitioner. One other physician practices independently. Garrettsville, Ohio is 13 miles from a hospital, has a population of about 1600 with an additional 1200 within a five mile radius.

JEFFERSON alumnus wishes to sell well established general practice in prosperous Pennsylvania resort area 100 miles from New York and Philadelphia. He is retiring because of illness and will introduce anyone interested to excellent clientele. Office and home also available.

Position Wanted

ALUMNUS, class of 1959, who in June, 1962, will complete his two years' service in the U.S. Public Health Service, is interested in becoming associated with another general practitioner or a group practice in the Philadelphia area.
MODERN MEDICINE AWARDS

Given to Dr. Bockus and Dr. Gibbon

Two distinguished Jefferson alumni were given additional recognition for outstanding work in their respective fields when MODERN MEDICINE presented distinguished achievement awards to Dr. Henry L. Bockus, Class of 1917, and to Dr. John H. Gibbon, Jr., Class of 1927, Samuel D. Gross Professor of Surgery and Head of the Department.

Dr. Bockus who is Professor Emeritus of Medicine at the University of Pennsylvania received his award for work in the field of gastroenterology and for "statesmanship in international medical affairs." He developed a diagnostic program that differentiates non-cancerous from cancerous gastric ulcers. Last year he toured many countries to help initiate a program for international research on the peptic ulcer.

He is the former President of the American Gastroenterological Association, a founder and President of the World Organization of Gastroenterology, and the author of the definitive three-volume text in the field. Among the honors that have been accorded Dr. Bockus are the Caldwell Medal of the American Roentgen Ray Society, the Strittmatter Award of the Philadelphia County Medical Society and honorary memberships in gastroenterologic societies throughout the world.

Dr. Gibbon was honored for pioneer work in the use of artificial heart—lung machines in open heart operations. He began his research in this field in the early 1930's.

With the help of Harvard University engineers, he devised an oxygenator in which blood was spread by centrifugal force into a thin film inside a revolving steel drum. By 1939, animal experiments had shown that life could be maintained without CNS damage with this device. World War II interrupted work on the heart—lung machine, but Dr. Gibbon resumed his research after returning from the service, first at the University of Pennsylvania and then at Jefferson Medical College. The revolving cylinder was replaced by a series of stainless steel screens, which afforded a greater blood surface area for gas exchange. This principle is still in use at Jefferson and, with slight modification, has been adopted by cardiovascular surgeons at the Mayo Clinic.

MEMORIAL

to Dr. Edward Weiss, '17,
Dedicated in Ceremonies
at Art Museum

In the May 1961 issue of the BULLETIN a short write-up appeared regarding plans for a piece of sculpture to be given to the Philadelphia Museum of Art as a memorial to the late Dr. Edward Weiss, member of the class of 1917.

The memorial committee reports that over 300 individuals, groups and societies, contributed more than $5,000 to this fund and on November 12, 1961 the statue of ICARUS IN DESCENT by Helene Sardeau was dedicated in ceremonies at the Philadelphia Museum of Art. The inscription on the base of the sculpture reads "In Memory of EDWARD WEISS, 1896-1960, Physician, Teacher, Humanitarian."
Dr. MacNeill holds scroll presented to him by the National Federation of Catholic Physicians' Guilds

Dr. Norman MacNeill, ’16
Chosen as Catholic Doctor of the Year

Dr. Norman M. MacNeill, Class of 1916, Clinical Professor of Pediatrics at Jefferson Hospital and Chief of Pediatrics at Nazareth Hospital was recently named national Catholic Doctor of the Year.

He was selected for the honor by the membership of the National Federation of Catholic Physicians' Guilds.

The citation was presented in Denver, Colorado at a meeting of the NFCPG, whose membership includes doctors in this country, Canada, Puerto Rico and the Philippines.

Dr. MacNeill was born in Nova Scotia 75 years ago. After being graduated from St. Xavier's College, Nova Scotia, he then came to Jefferson Medical College.

During World War I, he was a medical officer in the Canadian Air Force. He began practice in Philadelphia in 1922.

Dr. MacNeill is Past President of the American Catholic Historical Society, and moderator of the Pasteur Society in Philadelphia. He founded the MacNeill Catholic Nurses Guild at Jefferson and is a member of the Catholic Discussion Group.

He is also Past President of the British Officers Club of Philadelphia. He did volunteer service for seamen and sailors in the Port of Philadelphia during World War II and received a decoration from the King of England.

Dr. MacNeill continues to be devoted to his teaching duties in the Department of Pediatrics, an activity which has endeared him to many classes of Jefferson students. His patients know him for his personal kindness and his dual role as a loved physician to infants and children, and as a friend and counsel to all the members of the family.

Dr. MacNeill’s fellow Alumni are proud that he has received this much deserved honor.

Dr. Fry, Annual Giving Chairman, Reports on 14th Drive

Alumni Give Substantial Support to the College

All of us have long been aware of the importance of Alumni support to Jefferson's progress, but it may be that many are not aware of the magnitude of this support in recent years.

In the past, bequests, gifts for specific purposes or departments, scholarship funds, etc. have not been included in Annual Giving. This is entirely proper since "Annual Giving" carries the inference that such contributions will be repeated and continuous as, of course, gifts such as those mentioned above will not. To picture accurately, however, Alumni support of Jefferson, such contributions should be reported and it has been agreed by the Administration that they will now be considered as a special category of Alumni Giving.

You will, I know, be interested and inspired to know that in the period of the 13th Drive, July 1, 1960 to June 30, 1961, alumni support from all sources totaled $646,000. This figure represents proceeds from our Annual Giving Drive, contributions by Alumni to specific departments, contributions in honor of Alumni, scholarship funds, contributions made through AMEF and bequests by Alumni.

The outlook for the 14th Drive is even more encouraging. As of February 15, the total for Annual Giving stood at $102,650, the highest amount ever reported on a comparable date. In addition, the College has received bequests totaling more than a half-million dollars.

The relatively small individual contributions which, added together, make up our substantial Annual Giving total, are as important to the Administration as larger bequests for it is these funds which help to defray the everyday expenses of running the College.

No Alumnus should feel embarrassment in comparing his yearly gift, regardless of amount, with a bequest for several hundred thousands. Both are needed and both are deeply appreciated. Over Alumni Annual Giving's 13-year history, Alumni have contributed a million and one-half dollars to Jefferson. This is certainly a significant amount and undoubtedly it has been an important factor in Jefferson's progress.

While all who have given regularly and generously can be justly proud of this record, there still remains a large group of Alumni who do not contribute to Annual Giving. The reasons given for non-participation are many and varied but, with the exception of ill health and very unusual financial burdens, when viewed in the light of repeated requests for even a very small gift — these reasons are not really valid.

It is your Committee's hope that in the remaining months of the campaign, these "non-participants" in Jefferson's progress will examine their hearts and realize their debt to Jefferson. This debt can probably never be paid in full, but even a $5.00 gift can be the first installment.
NECROLOGY

DEATHS REPORTED SINCE LAST ANNUAL BUSINESS MEETING
FEBRUARY 16, 1961

Successive, fleeting years keep rolling in—
Grim combers from the past’s forgetful sea—
Relentlessly erasing memories
Of missing groups which with us used to be.
So let’s commemorate these fading names,
And have alumni’s strong, trustworthy hands
Refresh remembrances of every class
By tracing them anew upon time’s sands.

Ferdinand P. Herff, M.D., ’05

1882—Warren L. Ewen, died August 8, 1961
1886—J. Elmer Porter, died August 8, 1961

1914—William Earle McIlvaine, died December 18, 1960
1915—Francis L. Alexaitis, died May 22, 1961
   William H. Bernhardt, died February 7, 1962
Ohio Chapter Schedules Meeting

The Ohio Chapter of the Jefferson Alumni Association will have a dinner meeting in the University Club in Columbus, Ohio on Thursday, May 17, 1962.

Willian H. Bunn, died August 15, 1961
James A. Corrigan, died March 16, 1961
Ollie E. Finch, died November 16, 1961
George N. Herring, died February 8, 1961
Leandro Lopez, died December 8, 1960
William U. Meier, died October 23, 1961
James S. Milliken, died April 12, 1961
David P. Moloney, died—date unknown

1916—John H. Bailey, died December 20, 1961
John H. Chambers, died—date unknown
Richard S. Magee, died August 15, 1961
Thomas R. Morgan, died July 3, 1961
Anthony M. Sawicki, died March 23, 1961
Josiah E. Smith, died September 14, 1961
Clark D. Stull, died February 14, 1962

1917—Charles W. Beals, died September 30, 1961
Hilario Caso, died 1956
Martin J. Costello, died November 17, 1961
Abram J. Gross, died December 29, 1960
George U. Pillmore, died August 28, 1961

1920—Leonidas J. Farmakis, died March 11, 1961
Cary F. Harris, died April 24, 1961
George I. Israel, died March 8, 1961
Charles E. McWilliams, died June 30, 1961

1921—Joseph Bank (Binkowitz), died May 16, 1961
Aldrich C. Crowe, died April 2, 1961
Samuel S. Katzman, died September 20, 1961
Edward Matzger, died November 7, 1961
Robert S. Rusling, died February 4, 1962
Bernard H. Smith, died October 13, 1961
Bailey T. Tally, died September 22, 1961

1922—Donald M. Post, died December 5, 1961

1923—Nathan L. Shulman, died September 1, 1961
Kenneth G. Whyte, died April 15, 1961

1924—Bernard S. Androsky, died September 16, 1961
Edwin R. Curran, died May 31, 1961

1925—Harry E. LeFever, died June 18, 1961
Ralph W. E. Wilkinson, died November 11, 1961

1926—Robert H. Hackler, died August, 1960
John T. Eads, died February 6, 1962
Fernand N. Parent, died December 4, 1961

1927—Enrique deC. Koppsch, died May 10, 1961

1928—Robert A. Matthews, died June 24, 1961

1929—William J. Browning, II, died April 15, 1961
Henry J. Majeski, died October 4, 1961
Thurman H. Rose, Sr., died June 13, 1961

1930—James L. Cornely, died October 13, 1961
Lewis C. Fritts, died April 6, 1961
Newton K. Hammond, died January 10, 1962
John P. Helmick, died December 10, 1961
Furman Y. Sorrell, died December 18, 1961

1932—Solomon M. Haines, died October 25, 1961
John M. Phelps, died March 26, 1961
Bernard Viener, died October 14, 1961

1933—James F. Lyman, died May 23, 1961

1936—Thomas R. Helper, died October 25, 1961

1937—Leo G. Zelt, died March 23, 1961

1940—Richard H. Saunders, died March 2, 1961

1943—Douglas H. Aitken, died February 19, 1961

1944—Richard H. Frohner, died April 25, 1961

1945—John B. McKeever, died November 16, 1961

1952—Thomas C. Owens, died January 21, 1962

The following death has been reported but has not been confirmed:

1893—Amos W. Botkin

Dr. George J. Willauer, new President of the Alumni Association, and Dr. Samuel S. Conly, Jr., Assistant Dean, will be guest speakers at this meeting.
50th Reunion—Class of 1912
David W. Kramer, M.D.
2007 Pine Street
Philadelphia 3, Pa.
Leon Solis-Cohen, M.D.
1530 Locust Street
Philadelphia 2, Pa.
The Class of 1912 will celebrate its 50th Anniversary with a luncheon for Class members at the Benjamin Franklin Hotel on Thursday, June 14, 1962.

45th Reunion—Class of 1917
Adolph A. Walkling, M.D.
136 South 16th Street
Baldwin L. Keyes, M.D.
2031 Locust Street
The Class of 1917 will have a luncheon for Class members on Thursday, June 14, at one p.m. at the Union League. There will also be a cocktail party in a private room at the Benjamin Franklin Hotel preceding the Alumni Banquet on Thursday evening.

40th Reunion—Class of 1922
J. Bernard Bernstine, M.D.
255 South 17th Street
The Class of 1922 is planning to have a luncheon at the Penn Athletic Club on Wednesday, June 13, following the Clinics. After lunch there will be golf and other entertainment at the Bala Golf Club and a dinner at that Club in the evening. The Class will have a “Headquarters Suite” at the Benjamin Franklin Hotel from Wednesday morning on and members and their wives can use it as a meeting and hospitality room. If it is found that a representative group of wives will be accompanying their husbands, entertainment will be arranged for them.

35th Reunion—Class of 1927
James E. Bowman, M.D.
4091 Comly Street
Philadelphia 24, Pa.
Thirty-five members of the Class of 1927 have thus far indicated they would return for their 35th Anniversary in June. Tentative plans include a picnic for Class members and their wives on Wednesday, June 13; a luncheon for Class members only at the Union League on Thursday, June 14, and a cocktail party for members and their wives at the Mask & Wig preceding the Alumni Banquet on Thursday. There will be a luncheon for the ladies at The Patio of the Art Museum on Thursday with the possibility of a tour either of the old houses in Fairmount Park or of the Art Museum.

30th Reunion—Class of 1932
Nathan S. Schleizinger, M.D.
255 South 17th Street
Howard C. Leopold, M.D.
4623 York Road
Philadelphia 40, Pa.
The Class of 1932 will celebrate its 30th Reunion with a dinner, preceded by cocktails, for members and their wives at the Locust-Midcity Club on Wednesday, June 13. There will be a luncheon and golf at the

ALUMNI BANQUET - JUNE 14, 1962
Philmont Country Club on Thursday afternoon, June 14, with the Alumni Banquet in the evening.

25th Reunion—Class of 1937
John J. O'Keefe, M.D.
255 South 17th Street

The Class of 1937 is planning some very gala affairs in celebration of its 25th Reunion. The usual succession of stag affairs will be carried out in an unusual manner; a dinner dance at the Barclay Hotel will afford a wonderful opportunity to renew friendships, and special parties are being arranged to entertain the ladies while Class members attend the Alumni Banquet.

Details regarding the activities will be sent out in the near future but Dr. O'Keefe urges that Class members plan now to attend this most important Reunion.

20th Reunion—Class of 1942
J. Wallace Davis, M.D.
135 South 18th Street
C. Brinley Bland, M.D.
3023 W. Coulter Street
Philadelphia 29, Pa.
Harry J. Knowles, M.D.
255 South 17th Street

Plans are going forward for a dinner dance to be held on the evening of June 13 and for a cocktail party to precede the Alumni Banquet. There will also be a dinner for the wives on Thursday, while Class members attend the Alumni Banquet.

15th Reunion—Class of 1947
John J. Dowling, M.D.
255 South 17th Street
Philadelphia 3, Pa.

The 15th Reunion of the Class of 1947 will be celebrated with a dinner dance in the Viennese and Burgundy Rooms of the Bellevue Stratford Hotel on Wednesday, June 13. Further details will soon be sent to all Class members.

10th Reunion—Class of 1952
Richard S. Brown, M.D.
239 E. Third Street
Lewistown, Pa.
James E. Clark, M.D.
1015 Chestnut Street
Robert L. Evans, M.D.
York Hospital
York, Pa.

Plans are being made for a dinner dance to be held on Wednesday evening, June 13 and for a cocktail party for members and their wives before the Alumni Banquet on Thursday.

5th Reunion—Class of 1957
Paul D. Zimskind, M.D.
Jefferson Medical College Hospital
Philadelphia 7, Pa.

The Class of 1957 is planning to have a dinner for Class members and their wives at Old Bookbinders Restaurant on Wednesday evening, June 13. Further details will be sent to members in the near future.
1896

DR. MAURICE J. KARPELES, 5517 Greene Street, Philadelphia 44, Pa.

Dr. Karpeles was highly honored recently when a noted Philadelphia newspaper writer included an item about him in her column, "The Philadelphia Scene".

Dr. Karpeles and his wife had attended a Wellesley College benefit and in talking with Miss Seltzer, Dr. Karpeles told her that he began to practice in Philadelphia in 1896 and made his rounds on a bicycle. He eventually bought a carriage for which he rented horses three times a week. At the age of 87 he now visits patients by car, has office hours twice a day and is on the staffs of three hospitals. Dr. Karpeles has served as Agent for his class for many years.

1897

DR. VICTOR G. HEISER, 1060 Fifth Avenue, New York 28, N.Y.

Dr. Heiser writes as follows: "Although retired, I am quite active as advisor to the National Association of Manufacturers on industrial health, and also spend considerable time as advisor to the group that is studying travelers' diarrhea, particularly in Mexico."

1901

DR. J. B. ELLIS, SR., M.D., 4989 Barfield Road, Memphis 17, Tennessee.

In writing to his Class Agent, Dr. Langstroth, Dr. Ellis says, "I have the greatest respect and love for old Jefferson. My grandfather graduated in the class of 1842, my father in the class of 1875 and I in the class of 1901. Due to many disabilities I was forced to retire in 1935 and have been in and out of hospitals since. I am like one of my old patients who, when asked how he was, said 'just fine, Doctor, with the exception of what is wrong with me' and he had about everything.'

DR. RALPH C. WISE, 24 W. 4th Street, Mansfield, Ohio.

During the years I have been blessed with excellent health but the past year some of the infirmities of aging have caught up with me. My friends tell me at the age of 85 I should expect to have some.

I go to my office four and a half days a week and see some old patients for refractions. This keeps me occupied. I spend much of my time with my son and his family.

1904

DR. J. NORMAN WHITE, 839 Clay Avenue, Scranton, Pa.

In response to Dr. Keagy's appeal for news from his classmates, Dr. White writes, "You may be interested to know that I helped to organize the North-eastern Chapter of the Jefferson Alumni Association. We have 280 Jeff men in the area and we meet once a year for a banquet, golf, entertainment and news from the Dean and members of the Faculty. The College has been very generous in sending three or four men to talk to our groups."

"I am awfully glad to know that Jefferson is going ahead and not standing still."

1905

DR. FERDINAND P. HERFF, P.O. Box 155, San Antonio, Texas.

Dr. F. Herff writes from Texas: "Although I had a very busy surgical practice after leaving Jefferson, I have recently curtailed my work, now doing only surgical consultations. I spend a great deal of my time in worldwide travel, and have enjoyed writing a number of travelogues. Also, I am keeping in touch with a few of the 1905 Class graduates."

DR. LOUIS SCHWARTZ, 915 Nineteenth Street, N.W., Washington 6, D.C.

Dr. Schwartz writes, "I have been honored by being asked by the World Health Organization to write a brochure on world-wide occupational diseases of the skin and some of my time is now taken up by doing that work. I have a devoted wife, a son who is outstanding in his profession (chemistry) and two lovely grandchildren. I hope that all the remaining members of our class are at least as well off as I am."

1906

DR. FRANK P. DWYER, 165 Sixth St., Renovo, Pa.

Dr. Dwyer received much publicity recently for his outstanding work in saving the lives of two hunters frozen so badly that they were rigid. He organized relays of nurses and attendants and supervised their efforts for a period of several days. His treatment was so successful that it was necessary to amputate only the tips of the hunters' toes.

DR. CARLISLE E. MCKEE, 3004 E. 6th Street, Tucson, Arizona.

Dr. McKee has been confined to a wheelchair since April with a fractured hip. However, he celebrated his Golden Anniversary on October 17, 1961, and his 80th birthday on October 28, 1961. He presented Jefferson with a framed diploma of the Wilson Society of 1906.

DR. MORRIS A. STAYER, 304 W. South Street, Carlisle, Penna.

Dr. Stayer's experiences as Chief Surgeon of the Caribbean Defense Command in 1943 were written up in a chapter for an Army book. Dr. Stayer writes that he is in excellent physical condition.

DR. MORRIS A. WEINSTEIN, 1530 Locust Street, Philadelphia 2, Pa.

Dr. Weinstein has the following appointments to his credit:

Emeritus Chief E.N.T., Einstein Medical Center Consultant E.N.T.
Emeritus Associate Professor E.N.T., Graduate School of Medicine, University of Pennsylvania, E.N.T.
Emeritus Clinical Professor E.N.T., Hahnemann.

1912

DR. ALBION E. BRANT, Chestnut Ridge Road, R.D. 1, Hubbard, Ohio.

Dr. Brant writes as follows: "I'm fine,
with a lot to be thankful for; not the least of which was my good fortune in having gone to Jefferson. May her flag fly proudly always."

Dr. Samuel Benjamin Kaufman, 670 S. Main Street, Fall River, Massachusetts.

Dr. Kaufman has notified us that he is doing very little but refuses to give up entirely. He hopes to be able to return for his 50th reunion.

Dr. Robert M. Lukens, 141 W. Heather Road, Wildwood Crest, New Jersey.

Although Dr. Lukens has retired from active practice, he is busy with many activities at the seashore. In the summer he goes fishing, and in the winter, does cod fishing. He enjoys gardening. One half of his garage is a wood working shop. He does portrait painting and plays the cello in the local orchestra. Also, he teaches etching in the Cape May Art Center. In addition, he naps in front of the T.V.

Dr. Louis N. West, Box 1525, Raleigh, North Carolina.

Dr. West sends the following message to his classmates: "Hi. No news. Still breathing. Perhaps will see you all in June."

Dr. Albert H. Wilkinson, 126 W. Adams Street, Jacksonville, Florida.

Dr. Albert Wilkinson writes that he expects to attend the reunion in June of 1962.

1914

Dr. Roy Deck, 1519 Valley Road, Lancaster, Pa.

Dr. Deck was recently honored by the advisory board and medical staff of St. Joseph's Hospital at a testimonial dinner. He was a member of the hospital's staff throughout his medical career there. Dr. Deck has been very active in community services for many years, having been a member of the Lancaster (Pa.) Board of Health for 15 years and President of the Board for eight years.

Dr. Macy L. Lerner, 332 Park Ave., Rochester, N.Y.

Dr. Lerner was elected to honorary life fellowship by the Rochester Academy of Medicine, Rochester, N.Y. on March 2, 1961. He is Emeritus Assistant Professor of Ophthalmology in the University of Rochester School of Medicine.

Dr. C. Hayden Phillips, Demunds Road, Dallas, Pa.

Dr. Phillips has retired as medical director of Region 1 of the State Department of Health. Ill health was given as the reason for the resignation.

1915

Dr. Abe A. Dattner, 92 West River St., Wilkes-Barre, Penna.

Dr. Dattner is now associated full time with the Department of Health of Pennsylvania as Assistant Medical Director in Region 1.

Dr. Ralph J. Haws, 12815 N.E. 11th Avenue, North Miami, Florida.

Dr. Haws is retired due to a disability incurred in line of duty in World War II.

Dr. Harrison J. McGhee, 71 S. Fraley St., Kane, Penna.

Dr. McGhee is retired from active practice, but he does some school work which will end this year.

Dr. Victor K. Marsteller, 1270 Delaware Avenue, Bethlehem, Penna.

After 43 years with the Medical Department of the Bethlehem Steel Company, Dr. Marsteller has retired.

Dr. Edward I. Salisbury, 539 Manhasset Woods Road, Plandome, L.I., N.Y.

Dr. Salisbury attended the Annual Meeting of the Gorgas Memorial Institute of which he is a Director. He also attended the Annual Meeting of the American Society of Tropical Medicine and Hygiene recently.

1916

Dr. Auley McR. Crouch, 520 Dock Street, Wilmington, North Carolina.

Dr. Auley McR. Crouch writes as follows: "I have not worked any since severe coronary in 1947—doing fine, enjoying smoking, eating, sleeping, and writing some history of development of medicine since Hippocrates, 500 B.C. I have no angina, no shortness of breath, no swelling of the ankles—what hurts worst is shortness of money—that keeps me from being bad. My two boys are both pediatricians, one at Jefferson, and one at U.N.C., Maryland. . . With all my best wishes to all our boys."

Dr. John A. Logan, New London, New Hampshire.

The good news from Dr. Logan is that his son John, has been made Chief of Medicine at the Sarasota Hospital in Florida for the coming year.

Dr. Rocco M. Nittoli, 660 E. Jersey Street, Elizabeth, New Jersey.

Dr. Rocco Nittoli represented Jefferson at the Inauguration of Robert Fisher Oxnam as the Eighth President of Drew University. He writes that it was one of the greatest thrills of his life; and he was proud of Jefferson and all it stands for.

Dr. Nittoli is now Director of Health, Welfare and Housing for the City of Elizabeth. This is the only city in the United States in which these three departments come under one Head.

Dr. Armando Garcia Soltero, P.O. Box 675, Baldoriety St. #21, Guayama, Puerto Rico.

Dr. Soltero has been ill with deep popliteal thrombophlebitis for a year, but writes that he is improving every day.

1917

Dr. Lewis C. Druffner, 618 Main Street, Avoca, Penna.

Dr. Druffner writes he is still doing general practice in Avoca. His son Lewis, a 1959 Jefferson graduate, is in
the Marines, and his son Charles, a 1960 Jefferson graduate, is a resident in Internal Medicine at Misericordia Hospital in Philadelphia.

DR. OMER R. ETTER, 2025 C Central Avenue, Alameda, California.

Dr. Ettet retired from practice last December, but he hopes to attend the reunion in 1962.

DR. ALBERT N. REDELIN, 22 W. Catawissa Street, Nesquehoning, Penna.

Dr. Redelin is still doing full time general practice at Nesquehoning. Also, he has been Chief Clinician in the State Tuberculosis Clinic in Carbon County for the past twenty years.

DR. LEROY A. SCHALL, Scudder Lane, Barnstable, Massachusetts.

In 1959, Dr. Schall became Professor Emeritus of Otolaryngology at Harvard. He is out of medicine completely but is active in civic affairs and is enjoying life on Cape Cod.

1918

DR. HERBERT H. JAMES, Motor Clinic Bldg., Butte, Montana.

Dr. James is senior surgeon and chief at Murray Clinic, Butte, Montana.

1919

DR. HARRY S. FIST, 6360 Wilshire Boulevard, Los Angeles 48, California.

In October Dr. Fist attended the American Society of Clinical Hypnosis meeting. He deals with obesity and is still using hypnosis with good results. Dr. Fist expects to attend the coming reunion.

1920

DR. LOUIS F. BURKLEY, JR., 452 Berwick Street, Easton, Penna.

The Pocono Mountains are just a few miles away from Dr. Burkley's home and he takes advantage of the proximity to enjoy the countryside. He is still actively engaged in the specialty of obstetrics and expects to keep on working.

This news comes from Dr. Johnson: "I am still practicing medicine in Red Springs. I was 72 years old last September. My son Charles T. Johnson, Jr., M.D. is associated with me now. If ever you come south, we would love to have you stop by and spend a while with us. If you like quail and deer, we can arrange a hunting expedition."

1921

DR. GLENN R. FRYE, P.O. Box 2345, Hickory, N.C.

Dr. Frye has been presented the Hickory Exchange Club's Book of Golden Deeds award for outstanding work in civic and church affairs in his community. He has been in Hickory since 1922 and is now owner and head surgeon of Richard Baker Hospital. The Exchange Club's presentation cited particularly Dr. Frye's work as an outstanding Lutheran layman. He retired in 1960 as a member of the foreign mission board of the United Lutheran Church; and this year was named a member of the board of world missions of the new United Lutheran Church in America.

Dr. Frye received an honorary Doctor of Laws degree in 1948 from Lenoir Rhyne College. In 1955 he was a chairman of the college's campaign for funds in the Hickory Area.

1922

Dr. Farrell writes that he is making plans for the reunion in 1962.

DR. AUGUSTUS F. HERFF, 1606 Nix Professional Bldg., San Antonio 5, Texas.

Dr. Herff is very active in surgery. His son, August, Jr., is also in surgery. Another son, Ferdinand, visited Philadelphia recently and was impressed with Jefferson's progress.

DR. WILLIAM R. QUINN, 33 E. Vine Street, Redlands, California.

Dr. Quinn reports that he is well and that he would like to see his class out in front in Alumni giving.

Dr. Tice is chairman of Bucks County Dept. of Health and holds a life membership in the Royal Society of Health—England.

1923

DR. HOMER L. NELMS, 399 State Street, Albany, New York.

Dr. Nelms had bilateral cataracts re-
moved in March. He has been retired for ten years. One of his sons has been appointed Assistant Professor of Pathology at Yale. Dr. Nelms has four grandchildren.

1924

Dr. CHARLES L. S. BRENNEN, 14 S. Broadway, Gloucester, N.J.

Dr. Brennen's son, Charles Jr., has been practicing with him for the past 4 years. He is also a Jefferson graduate and very successful. Dr. Brennen is semi-retired and has 4 grandchildren.

Dr. JEAN L. E. BRINDANOUR, 2370 Waverly, Palo Alto, Calif.

Dr. Brindanour retired March 17, 1961, due to ill health. His wife and younger son died within a year and a half of another. Dr. Brindanour is catching up with things he's wanted to do all his life but never had the time to do, e.g. reading, some traveling, lapidary work, and considerable loafing.

Dr. HARLAN F. HAINES, 7115 Llanfair Road, Upper Darby, Penna.

Dr. Haines retired from active practice on November 1, 1961. He expects to move to lower Delaware in the near future.

1925

Dr. SIGMOND J. SHAPIRO, 106 E. Market Street, Warren, Ohio.

Dr. Shapiro writes that he is very active. Two of his sons are in college and the third will soon be entering.

1926

Dr. HERMAN M. PARRIS, 740 S. 3rd Street, Philadelphia 47, Pa.

During the last six years, Dr. Parris has had several major operations and two coronary attacks. He writes that he is thankful to God to be here.

1927

Dr. HAROLD H. BRADSHAW, Bowman Gray School of Medicine, Wake Forest College, Winston-Salem, N.C.

Dr. Bradshaw, who is Professor of Surgery at Bowman Gray School of Medicine, was in Philadelphia in January to assist with the American Board of Surgery examinations which were given at Jefferson.

Dr. SAMUEL M. DODEK, 1730 Eye Street, N.W., Washington 6, D.C.

Dr. Dodek presented two papers before the Second Asiatic Congress of Obstetrics and Gynecology in Calcutta, India, January 22 through January 25.

He reported on experiments which have been carried on in the Washington Hospital Center, of Washington, D.C. in the use of Chromium-51 tagged red cells in determining the site of the placenta before or during the onset of labor. He also reported on the use of the same radioactive isotope to measure the accurate loss of blood during obstetric operations.

Dr. Dodek is Administrative Chairman of the Department of Obstetrics and Gynecology in the Washington Hospital Center and Associate Clinical Professor of Obstetrics and Gynecology in the George Washington University School of Medicine.

One of the collaborators in this work is Dr. John D. Paul, Jr., Class of 1949.

Dr. EDWARD S. KING, 214 W. Marion St., Shelby, North Carolina.

Dr. King retired from teaching Bacteriology at the Bowman Gray School of Medicine in 1948 after 20 years there. He has been practicing pediatrics since 1949.

Dr. FRANK TURCHIK, 48 Plymouth Avenue, Bridgeport 14, Connecticut.

Dr. Turchik, who is immediate past President of the New England Otolaryngological Society, sends in the following news: his son James is in his second year of Yale pre-med school, his son Divid is in his second year of Law School at St. John's, and his daughter Mary Louise was married in the autumn.

Dr. JAMES H. WALL, 121 Westchester Ave., White Plains, N.Y.

Dr. Wall was one of three appointees to the Advisory Council on Alcoholism for the State of New York. The appointment was made by Gov. Rockefeller on Dec. 30, 1961. The Advisory Council was established by the Governor to serve within the Department of Mental Hygiene. The appointments are at the pleasure of the Governor and members serve without compensation.

Dr. Wall is director of New York Hospital, Westchester Division, and is a Professor of Clinical Psychiatry at Cornell Medical College; also Chairman of Westchester Community Mental Health Board. He is married and has two children.

1928

Dr. ALEXANDER KOPPEL, 4068 Roosevelt Blvd., Philadelphia 24, Pa.

Dr. Koppel writes that he is well and is happy that his son, Max, is a Surgical Resident at Jefferson.

Dr. MORRIS M. MANCOLL, 285 N. Quaker Lane, W. Hartford, Conn.

Dr. Mancoll has taken office as President of the Hartford Medical Society and on January 15, in his official capacity, it was his pleasure to introduce Dr. Abraham Cantarow, Professor of Biochemistry and Head of the Department at Jefferson, who addressed the society on that evening. Dr. Mancoll is also Vice President of the Alumni Association for the State of Connecticut.

Dr. JO ONO, 75 Zaimokucho Azabu, Minato-Ku, Tokyo, Japan.

Dr. Ono hopes to be able to make a trip to the States next year.

Dr. EN SHUI TAI, KPO, Box 5208, Kowloon, Hong Kong.

Dr. Tai writes that after a rather long illness in 1959, he is now much better and is catching up on his correspondence. His summer was very busy, however, because he was forced to move his office to make way for the erection of "skyscrapers".

Dr. Tai now has four children in the United States; George Marshall, who is at Haverford College; Bonita, who is a senior at Moore Institute of Art; Amy McCrae, who is a Junior at Albright College and Pauline, who is with the United Nations Secretariat in New York. Both George Marshall and Amy McCrae are planning careers in medicine.

1929

Dr. LESTER L. BARTLETT, 1737 Holly Lane, Pittsburgh 16, Pa.

Dr. Bartlett was elected Illustrious Potentate of Syria Temple at the annual
Dr. Lester L. Bartlett

Syria Shrine meeting in January. He is the 61st potentate of Syria Temple—one of the largest Shrine organizations in the country.

From 1930 to 1955 Dr. Bartlett was a staff physician in the City of Pittsburgh's Health Department. Since graduate study in the diseases of allergy, he has devoted full time to this specialty. He is a member of the Allegheny County Medical Society, Pittsburgh Medical Society, American Medical Society and the American Academy of Allergy. Dr. Bartlett is married and has three children.

Dr. Earl C. Romesberg, 1311 W. Market St., York, Pa.

Dr. Romesberg writes that he is still practicing in York, Pa. His children are married and have each presented him with three lovely grandchildren. Thanks to Jefferson, life has been "good".

Dr. Alfred E. Troncelliti, 1522 Wynnewood Road, Ardmore, Penna.

Dr. Troncelliti writes that his son Wayne is now in the freshman class at Jefferson. "Memories, memories . . . "

1930

Dr. William W. Bolton, 530 Washington, Wilmette, Ill.

Dr. Bolton was the principal speaker at the annual meeting of the Wilmette Visiting Nurse Association and Health Center. He has been with the American Medical Association in Chicago since 1945 in the Department of Health Education. Dr. Bolton is the editor of a question-answer column in the A.M.A. publication "Today's Health". He is the author of "What to do Until the Doctor Comes".

Dr. Francis J. Branceland, The Institute of Living, 200 Retreat Avenue, Hartford, Conn.

At the Fifteenth Anniversary Meeting of Malvern Institute for Alcoholic and Psychiatric Studies, held at Overbrook Golf Club recently, Dr. Branceland was presented with the Institute's Annual Citation of Merit.

A group of Dr. Branceland's old chiefs was present at the citation. Doctors Earl D. Bond, Kenneth E. Appel, and Lauren H. Smith made brief reminiscing talks approving the award.

Dr. Louis T. Nightingale, 71 Ocean Parkway, Brooklyn 18, N.Y.

Dr. Nightingale is Director of Pediatrics at University Hospital and Caledonian Hospital. He was recently elected President of the Medical Staff of Caledonian. He is on the teaching staff of State University of New York College of Medicine.

Dr. Wynne M. Silbernagle, 2869 Charing Road, Columbus 21, Ohio.

Dr. Silbernagle still has his private practice and does some teaching at Ohio State where he is Assistant Clinical Professor. He is also Ohio Regent for the International College of Surgeons.

Dr. Don B. Weems, Sr., 105 E. Mantua Avenue, Wenonah, N.J.

Dr. Weems was recently honored by the Board of Trustees of Memorial Hospital, Woodbury, N.J. for his 30 years of service to that community as a family doctor. The Trustees paid tribute to their fellow member for exemplifying the highest ideals of the family doctor who is a "person who offers himself to his patients as scientist, technician, philosopher and friend."

In addition to carrying on a very active practice, Dr. Weems has been President and Treasurer of the Gloucester County Medical Society, charter member and first President of the Gloucester County Heart Association, member of the Board of Trustees of the New Jersey Heart Association and Medical Inspector for the Wenonah School.

His son, Dr. Don B. Weems, Jr., a Jefferson graduate in the Class of 1958, is now associated with his father.
1931

DR. JOEL Goldman, 1502 Goucher St., Johnstown, Pa.

On December 7, 1961, the Department of Labor and Industry announced the appointment of Dr. Goldman as a consultant at the Johnstown Rehabilitation Center.

He interned and was a resident at Philadelphia General Hospital. Dr. Goldman is a board certified Internist.

In December, 1961 Dr. Murray finished his internship at Bryn Mawr Hospital. After three months of general practice in Girardville and three more months of touring Europe, he plans to take a year of general surgery at Bryn Mawr Hospital prior to an Otolaryngology residency.

Dr. Joel R. Temple, 419 E. Allens Lane, Philadelphia, Pa.

Army Capt. Temple, whose wife, Mary, lives at 419 E. Allens Lane, Philadelphia, Pa., recently completed the officer orientation course at Brooke Army Medical Center, Fort Sam Houston, Tex.

1961

Dr. Joseph Donald Avellino, Methodist Episcopal Hospital, Broad and Wolf Streets, Philadelphia 48, Penna.

At present, Dr. Avellino is interning at Methodist Episcopal Hospital in Philadelphia. He plans to marry in August of 1962 and then enter the Army.

Dr. John C. Butterbaugh, Allegheny Valley Hospital, 1300 Carlisle St., Natrona Heights, Pa.

After a surgical residence of three or four years, Dr. Butterbaugh, who plans to be a missionary doctor, will begin his work abroad under the Methodist Board of Foreign Missions with his wife Nancy.

Under a two month fellowship offered by the drug firm of Smith, Kline and French, Dr. Butterbaugh spent last November and December working in a mission hospital in La Paz, Bolivia and doing clinical work among the Indians in the villages.

Dr. Steven Robert Homel, Lankenau Hospital, Lancaster and City Line, Philadelphia 51, Penna.

At present, Dr. Homel is interning at Lankenau Hospital. In 1962, he expects to be a Resident in Pediatrics at Jefferson.

Dr. Richard Edward Promin, Jackson Memorial Hospital, 1700 N.W. 10th Avenue, Miami 7, Florida.

Dr. Promin and his wife were expecting their third child in February. After completing his internship at Miami, he plans to go into general practice.

Dr. Dennis Martin Wadler, New York Polyclinic Medical School and Hospital, 345 West 50th Street, New York 19, N.Y.

In July of 1962, Dr. Wadler expects to enter his first year of general surgery residency at the Veterans’ Administration Hospital in Manhattan. Recently he became engaged to Miss Arlene Gussak of the Bronx, New York.
Engagements, Weddings and Births

Engagements
