Mrs. Joseph J. Mulone, Executive Secretary
Alumni Office of The Jefferson Medical College
1025 Walnut Street, Philadelphia 7, Pa.
Jefferson’s Expansion Plans Go Forward

THE following statement from Mr. William W. Bodine, Jr., President of The Jefferson Medical College and Medical Center, comes in the form of a progress report to the Alumni:

The approach of another Alumni Banquet and another Commencement is the cue for another report to the Alumni on the progress of our $40,000,000 Development Program, which was first announced publicly at the 1960 Alumni Banquet. We at Jefferson have moved on schedule in these two years—and it has been a tight schedule. We insisted on the best of all possible concepts and the earliest of possible completion dates for the top priority phase. Despite the pressures such objectives have produced, we expect to open both the Basic Science Building and the Student Commons Building for occupancy in September, 1965. But achievement of this goal presupposes that many factors will fit into place.

More than $1,600,000 has already been appropriated by the General State Authority of Pennsylvania—commonly referred to as GSA. This appropriation covers the acquisition of land, demolition of buildings and the architects’ fees for these first two of Jefferson’s new structures.

The well-known architect Mr. Vincent G. Kling has been appointed by the GSA for these two projects, and he has been in consultation with our executive architects, Harbeson, Hough, Livingston and Larson and the appropriate Faculty Committees.

Based on these preliminary discussions, it is contemplated that the Basic Science Building will be located on the south side of Locust Street on the Tenth Street end, and the Student Commons Building on the Eleventh Street end of Locust Street, as indicated in the accompanying diagram.

The pictures on the Cover of the existent buildings on the south side of Locust Street will stir alumni memories. Take a good look at these old buildings. By 1963, they will be down and this will be open land ready for our first new buildings!

You have been hearing much of the Basic Science Building, which was listed, at the outset, as the top priority by Dr. William A. Sodeman, then Dean and now Dean and Vice President for Medical Affairs, and by the Executive Faculty. It is desired that no one shall obtain the impression that the Pre-Clinical Departments are to be the only departments for which expanded physical facilities are being planned.

The Board of Trustees and all of us involved in the Development Program are planning for the totality of Jefferson. When the Pre-Clinical Departments move out of the College Building and the Daniel Baugh Institute in 1965, and move into the new Basic Science Building, space will be released to meet the pressing needs of the Clinical Departments. Thus the entire institution will be moving forward as a unit.

THE new structures mentioned thus far are the more easily presented ones. The planning involving new concepts of medical education facilities is much more
complicated. Our Pre-Clinical Department Heads knew their needs and could project them into the rest of the twentieth century. However, they believed that Jefferson should have the fullest possible information on similar buildings and programs, in this nation and in Canada, both as to what has proved most effective and what has not been totally satisfactory.

Since our Pre-Clinical Department Heads have such heavy teaching schedules and broad research responsibilities that demand their full attention here in Philadelphia, Dr. Anthony J. J. Rourke, a widely-recognized consultant, was retained by the Board of Trustees to make such a survey with a three-man team and a three-month schedule. At the April 2 meeting of the Board, Dr. Rourke, Mr. Kling and Mr. F. Spencer Roach, of Harbeson, Hough, Livingston and Larson, reported on the progress to date of their various assignments.

"We have been doing the leg work and the spade work in the field", Dr. Rourke explained. "We have obtained a wealth of information which we will organize and submit as a report. The decision will not be made by us. It will be made at Jefferson, with the aid of our findings.

"Thus far we have visited the medical school facilities at the University of Florida, Baylor University, the University of Arkansas, the University of California at San Francisco, the University of Southern California, the University of California at Los Angeles, Washington University, Oregon University, the University of Pittsburgh, Southwestern Medical College at Dallas, the University of Mississippi and in British Columbia and Vancouver.

"Still to be visited are Indiana University, Michigan University, Western Reserve University, West Virginia University, Einstein Medical College, New York City, and New York University.

"In my opinion, never has there been a better time for a survey with these objectives. Five years ago it might have elicited little beyond theories, or plans. But in the interval, a pattern of activity has produced revo-
lutionary changes. In this atmosphere we are developing significant findings.”

Thus it is our hope that Jefferson’s Basic Science Building will be not merely a fine, representative modern structure, but a concept that will lead the way for other institutions as the nation meets the challenge of educating 50 per cent more physicians annually by 1975.

The location of the first two buildings on the south side of Locust Street was dictated by the 1965 deadline. Originally, these buildings were planned for the north side of Locust Street, in the block immediately adjacent to our existing College and Hospital facilities. However, when we came to the matter of land acquisition it was discovered that some of the owners and tenants in that block had serious relocation problems. Adhering to this location would have meant a delay of from two to three years in the start of construction. No one was willing to sacrifice that much time before realizing these objectives which are already overdue.

The site on the south side of Locust Street selected for these two structures is approximately two acres, with the Basic Science Building occupying one acre. To those of you who live in suburban or country areas, two acres may not seem to be much but in center-city Philadelphia, where land costs a staggering amount per foot, two acres is an impressive amount of space, as you will realize when you view the site.

I need hardly add that we will need all the assistance that alumni and other friends of Jefferson can provide in persuading the new Governor of Pennsylvania, who will be inaugurated in 1963, as to the necessity of recommending the construction funds required for these two buildings. We trust that the State Legislature will then support our Medical College which has educated one in every five physicians practicing in this Commonwealth, by favorable action on such a recommendation.

After indicating his pleasure at having received this commission, Mr. Kling told the Trustees that he would not start drafting architectural plans until Jefferson had arrived at certain basic decisions.

“The actual appearance of the facade cannot be determined until the unusually complicated scientific needs of the Basic Science Building have been finalized,” Mr. Kling commented.

The new Alumni Advisory Council which you elected this year, will confer with the Board of Trustees, Administration, Faculty Committees and architects on these matters when the Council assembles in Philadelphia this June for its first two-day meeting.

Two Faculty Committees appointed by Dr. William A. Sodeman, Dean and Vice President for Medical Affairs, are hard at work developing the details of the first two buildings. The long-standing Basic Science Committee is headed by Dr. Kenneth Goodner, Professor of Microbiology and Head of the Department. The newly-appointed institution-wide Student Commons Committee, which is chaired by Dr. Andrew J. Ramsay, Professor of Anatomy, Head of the Department and Director of the Daniel Baugh Institute of Anatomy, represents the Medical Students, the Interns, the Residents, and the School of Nursing.

The medical students’ wishes in all areas (including fraternities, etc.) in the Student Commons Building are being sought through their representatives.

When all of the reports have been evaluated, the Faculty Committees will spend several days of intensive discussion with Mr. Kling and his associates and Dr. Rourke and his group.

In short, we are truly covering, at the direction of the Trustees, the totality of the institution, in the interest of the Alumni, Faculty, Student body, Residents, Interns—in short the entire Medical College—and also all areas of the Hospital.

For, after these two buildings are up there will be, as you probably know, residential facilities for Medical Students, Interns, and Residents. These will be both in the Walnut to Locust Street block and in the southern half of the Locust block, as displayed in the diagram.

A reminder, the $40,000,000 Development Program is already in operation in its first three phases. It opened with the $2,000,000 air-conditioned James R. Martin Student Nurses’ Residence in 1959. This was the first building Jefferson built on the south side of Walnut Street and it set the theme for the landscaping which will give the entire development area a handsome campus appearance with adequate off-street parking facilities.

The next phase was the $500,000 Cardeza Laboratories, occupied in 1960. In 1961, the first step in the floor-by-floor rehabilitation of the Main Hospital had modernized the second floor, now occupied by the Barton Memorial Hospital for Diseases of the Chest and some other facilities. Thus, $3,000,000 in development is already serving vital needs and succeeding steps are under way in the Main Hospital.

You would be less than human if you did not sigh and think it would have been nice had all these facilities been available in your student years. Well, in various ways, most of them will be available to you as Alumni. Meeting rooms, overnight accommodations and dining facilities in the Student Commons will add
zest to future reunions and homecomings. And if you like to swim, the pool in this building will be at your disposal.

Now, as to the sources of the $40,000,000. We hope to obtain the first third from the General State Authority (GSA) and another third in loan funds from agencies of the Federal Government. In addition to the funds already utilized to implement the three projects accomplished to date, there will also be a $7,000,000 capital fund campaign to obtain contributions from private sources.

Locally, $4,000,000 of this $7,000,000 campaign goal will be sought from our Trustees, Faculty, Staff and Jefferson Family in the Philadelphia area during the first six months of 1963.

Nationally, there will be a campaign for a minimum of $3,000,000 among our Alumni and other friends, foundations and philanthropists starting in the fall of 1963 and concluding, we trust, in the spring of 1964.

The details of this major program are being closely coordinated with the Alumni Annual Giving Campaign Officers and our new Director of Development.

Just as our Development Program is planned for the totality of Jefferson, we will need the totality of all of Jefferson's sons and daughters and friends to complete the program.

We must maintain the Jefferson tradition, forged by the iron will of our founder, Dr. George McClellan. He had no funds and no alumni. We now have the most loyal, as well as the largest Medical School Alumni Association in the nation.

If Doctor McClellan had failed, there might never have been a Jefferson. If we fail, there may never be the Jefferson of Tomorrow.

Dean and Alumni Speak at American Society of Internal Medicine Meeting

Dr. William A. Sodeman, Dean and Vice-President for Medical Affairs, Dr. Walter S. Wiggins, Class of 1941 and Dr. John A. Daugherty, Class of 1928 were among the speakers at the sixth annual meeting of the American Society of Internal Medicine which was held in Philadelphia from April 6 to April 8. Dr. Wiggins is the Secretary of the AMA Council on Medical Education and Hospitals, and Dr. Daugherty is President of the National Association of Blue Shield Plans.

President Bodine Awarded Good Citizenship Medal

President Bodine was honored recently by the Philadelphia Continental Chapter, Sons of the American Revolution when its President presented him with the Gold Good Citizenship Medal in recognition of "his efforts in civic, philanthropic and community endeavors."

The award was presented at a luncheon at the Bellevue Stratford Hotel and some 100 Chapter Members attended.

Mr. Bodine is also Chairman of the Philadelphia Committee for the Observance of the 175th Anniversary of the American Constitution.

In his remarks at the SAR luncheon, Mr. Bodine described the Washington Square Project which involved the Restoration of the Square and the construction of the Memorial to the Unknown Soldiers of the American Revolution.

THE GROSS CLINIC Voted Favorite Painting at Eakins Exhibit

More than 28,000 visitors viewed the exhibit of the paintings of Thomas Eakins at the Philadelphia Art Museum from February 1 through March 18.

An hour long "spot-check" was conducted among the viewers and The Gross Clinic was voted the "favorite canvas" in the exhibit, with The Agnew Clinic as runner-up.

The Acting Director of the Philadelphia Museum of Art, Carl Zigrosser and the Curator of Paintings, Henry Clifford, wrote President Bodine as follows:

"On behalf of the Board of Trustees and the Board of Governors, we would like to express the thanks of the Museum for your generosity in lending us The Gross Clinic by Thomas Eakins. By depriving yourself you have added immeasurably to the success of our exhibition - - - . The public appreciation of the work of Thomas Eakins is greatly enhanced by your contribution".
RESEARCH IN OTOLOGY

The Department of Otolaryngology comprises the Divisions of Broncho-esophagology and Otology. The Department has been under the supervision of Dr. Fred Harbert since 1954 when Dr. Louis H. Clerf became Emeritus Professor. This article is confined to a presentation of the research activities in the Division of Otology.

The Division of Research in Otology was established in 1954 under the direction of Dr. Joseph Sataloff, with studies of noise-induced hearing loss in industry.

In the ensuing years the Electronics Laboratory and Hearing Center were established and headed by Mr. Raymond Lazinski, E.E. and David Green, Ph.D., respectively. These and other members of the staff, including Sidney S. Lerner, M.D. and August P. Ciefl, M.D., participated in a number of departmental studies under the overall direction of the Head of the Department, Fred Harbert, A.B., M.D., M.Sc. (Med), D.Sc. (Med). As a result of preliminary studies in masking, N.I.H. Grant B-2035 of five years duration was obtained in 1959. This Grant made provision for additional test room facilities, equipment, and research personnel. Various methods of presenting a variety of masking signals have been compared. Over-masking techniques in conductive deafness are presently most effective.

In 1959, a substantial gift from Mr. Joseph A. Rosengarten for Otologic Research made possible the establishment of the Temporal Bone Histopathology Laboratory, air-conditioning of the research spaces and the salary for an additional Research Fellow, Makato Igarashi, M.D., to initiate animal studies for histopathological evaluation. The first project was a study on Chemotherapy of Pseudomonas Otitis Media in guinea pigs.

Dr. Fred Harbert, Professor of Otolaryngology (r.), Dr. Joseph Sataloff, Associate Professor of Otolaryngology (l.), and Dr. Philip Meltzer, Emeritus Professor of Otolaryngology, Harvard Medical School (center), conferring at the entrance to the Rosengarten Otologic Laboratory
NIH Training Grant 2B5291 has been in force for the past three years and has been renewed for the coming year. The purpose of the Grant is to further development of investigators and teachers in Otolaryngology. All five residents participate in a research project. Seymour Wagner, M.D., Senior Resident, was co-author of a paper reporting the results of a Galvano-gustometer study of graded chorda tympani nerve injury incurred during stapes surgery.

The Endoscopic Operating Room was remodeled, new equipment acquired and the suite was air conditioned in 1956 with the help of a grant from the Firestone Foundation. The contribution of Sidney Lerner, M.D., purchased new testing equipment in the Hearing Center.

The services of H. Menduke, Ph.D., have been most valuable in setting up experiments and making statistical analysis of the results. Dr. Joseph A. Sataloff has investigated and published reports on a wide variety of subjects including audiolologic findings in the aged, physiological glue for the repair of ossicular defects, the effects of chelating agents on the ossicular chain and the effects of noise and drugs on the human ear.

Dr. Harbert, in collaboration with In Min Young, M.D., and J. C. Liu, M.D., Research Fellows in Otolaryngology, is studying auditory adaptation and fatigue, masking efficiency on normal and impaired ears, and auditory flutter fusion under NIH Grant B-2035.
August P. Ciell, M.D., Associate in Clinical Otolaryngology, teaching Microsurgery of the Temporal Bone to members of the Resident Staff, including Seymour Wagner, M.D., Stanley Farb, M.D. and Derle Riordan, M.D.

Seymour Wagner, M.D., Senior Resident in Otolaryngology, using the electronic Gustometer for measurement of taste.
J. C. Liu, M.D., Research Fellow in Otolaryngology, measuring auditory flutter fusion in the research rooms.

I. M. Young, M.D. using the VonBekesy self-recording audiometer and narrow band filters.
THE audiological findings in post-operative stapes cases (labyrinthitis) are being tabulated by Drs. Harbert, Reddy, Liu and Miss Shuster.

Sidney Lerner, M.D., Associate in Clinical Otolaryngology, has been investigating vascular problems in clinical Otolaryngology.

At present the following equipment is available for research and teaching in the Hearing Center: seven sound treated rooms equipped with a VonBekesy Audiometer, two special audiometers, Swedish noise generator, four clinical audiometers, electronic switch, flutter apparatus, P.G.S.R. and Amplivox narrow band audiometer. The Electronics Laboratory equipment includes an artificial ear, sound level meter, analyzer, wave distortion analyzers, electronic counter and filters. The Temporal Bone Laboratory includes an Ultraphot research type microscope with equipment for phase microscopy and photography, a complete temporal bone laboratory of animal and human temporal bone preparation and two operating microscopes.

Dr. Reddy and Dr. Makato Igarashi, Research Fellow in Otolaryngology, have completed the following studies on cats. A comparison of methods of fixation of temporal bones, early changes in the Organ of Corti by small doses of Kanamycin, and a study of the effects on the middle and inner ear of various prosthetic devices used in stapes surgery. Further work is now in progress on damage to the Organ of Corti by various ototoxic drugs and the influence of severe gravitational stress. The facilities of the Acceleration Laboratories at Johnsville are used for this latter purpose and those of the V.A. Hospital for the former. In collaboration with Dr. Mueller of the Eastern Pennsylvania Psychiatric Institute, animal experiments have been started in the neurophysiology of hearing. Much of this work will be conducted by Dr. Reddy in conjunction with two Residents in Otolaryngology, Drs. Wagner and Riordan, assisted by Mr. Barefoot, a medical student working in the histopathology laboratory and C. Wenner, working in electronics. Dr. Stanley Farb, Resident in Otolaryngology, is at present conducting an experiment on Aural Analgesia.

Dr. Paul Jackson, Resident in Otolaryngology, is participating in the investigation of flutter fusion. This apparatus is unique because it has a means of triggering sine waves at the null point thus avoiding clicks and transients.

The Division has several specific plans and aims for the future. It is hoped that space will be made available for the installation of the necessary equipment to em-
bark on electrophysiologic studies of cochlear microphonics and action potentials. Animal work in the past has been done in space assigned to other Departments, with their collaboration on a temporary basis. A request has been submitted to NIH for a grant on Digital Techniques in Sensory Testing, Taste and if it is acted upon favorably, the Division hopes to use similar techniques in investigating hearing problems with the aid of a digital computer. A request has been made to the Deafness Research Foundation for a full time technician for temporal bone micrometry and a full time research scientist with special interest in Otology is needed for continuation and expansion of the Division’s research program.
Wainwright Tumor Clinic Meets

THE Wainwright Tumor Clinic Association held an all day meeting on April 25, 1962 in McClellan Hall of Jefferson Medical College.

President Bodine opened the meeting and Dr. Sodeman, Dean and Vice-President for Medical Affairs addressed the guests after luncheon.

The following scientific papers were presented:
- "Lymphangiography in Cancer", by Dr. Gerald D. Dodd, Jr., Clinical Professor of Radiology;
- "Advances in Diagnosis of Gynecologic Cancer", by Dr. Abraham E. Rakoff, Professor of Obstetric and Gynecologic Endocrinology;
- "Pulmonary Cancer", by Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department;
- "Polypoid Lesions in the Large Bowel", by Dr. Jonathan E. Rhoads, The School of Medicine, The University of Pennsylvania;
- "Carcinoma in Situ", by Dr. Richard Wesley Te Linde of Johns Hopkins University School of Medicine and "Management of Liver Cancer" by Dr. George T. Pack of Cornell University School of Medicine.

Dr. George A. Hahn, Clinical Professor of Obstetrics and Gynecology, is President of the Association.

Dr. Adriani Delivers Potter Lecture

DOCTOR John Adriani, Director of Anesthesia at Charity Hospital, New Orleans, was the Potter Lecturer on Wednesday, the 14th of February. His address was entitled, "The Frontier in Anesthesiology." Doctor Adriani also participated in conferences of the Departments of Pharmacology and Anesthesiology and was the speaker at the February dinner meeting of the Meigs Society, with Dr. Louis J. Hampton, Professor of Anesthesiology, the host for the evening.

NIH Grant Awarded Division of Gastroenterology

JEFFERSON Medical College has been awarded an NIH Grant in the amount of $74,442.00 for a continuation of the investigation of postgastrectomy malnutrition in the Division of Gastroenterology, under the direction of C. Wilmer Wirts, M.D. and Franz Goldstein, M.D.
1962
Black and Blue Assembly

The 32nd Black and Blue assembly was held on March 16 in the Ballroom of the Bellevue Stratford Hotel. This traditional All-College Dance is sponsored by Kappa Beta Phi fraternity and students, parents, faculty members, Trustees and members of the Administration are always invited to attend.

Guests at the cocktail party and dinner which preceded the Dance included Mr. and Mrs. Bodine, Dr. and Mrs. Sodeman, Dr. and Mrs. Nye, Dr. and Mrs. Willauer, Dr. and Mrs. Wise and Dr. and Mrs. Saleeby. The officers of the Kappa Beta Phi Fraternity were also present and each of the classes was represented. The President of the Junior Class, Ben Hauser, and his wife were present as were the President of the Sophomore Class, Jim Rumbaugh, with his financee and the President of the Freshman Class, John Swartley, and his wife. Sophomore student Al Martin and his wife, who is a Freshman, also attended. The Martins are from the Middle West and both are very happy to be at Jefferson. The President of Kappa Beta Phi, Dave Helmick, and his wife attended as did the Treasurer, Jim Marvel and his cousin, and the Chairman of the Dance, Bob Hamilton, and his wife.

We believe that a party such as this, where the executive officers of the College and Hospital, Faculty members, and prominent Alumni have the opportunity to meet with the students is very helpful in promoting better understanding among these groups. This, in turn, promotes the welfare and success of Jefferson. This has been the objective of Kappa Beta Phi and we are pleased with the results.

Approximately 300 couples attended the Dance and everyone had a wonderful time. At 11:00 p.m. the dancing was temporarily stopped and President Bodine; Dr. George J. Willauer, the President of the Alumni Association, and Dave Helmick, the President of Kappa Beta Phi, said a few words of welcome to the guests.

The Dance committee, Kappa Beta Phi and its sponsor are all most grateful for the enthusiastic support given to this traditional affair. Mr. and Mrs. Bodine and Dr. and Mrs. Sodeman have been most gracious in attending the Dance each year since the beginning of their association with the College.

Next year will be the 30th anniversary of the Black and Blue Assembly and tentative plans have been made for the Dance to be held at the Bellevue Stratford on Saturday, April 6, 1963. We hope to have a record turnout on this occasion.

Eli R. Saleeby, M.D.

DR. McCLEERY'S WOLF PACK

AFTER more than 40 years of association with a "wolf pack," Dr. E. H. McCleery has "retired" at the age of 94. Dr. McCleery, who graduated from Jefferson in 1891, has gained world recognition for his interest in the preservation of lobo wolves; in turn, the wolves have brought fame to Dr. McCleery's home town of Kane, Pennsylvania, with movies, television programs and magazines publicizing the Doctor and his wolf pack.

The Doctor is not a zoologist, nor even a naturalist, but wolves have been an all-absorbing passion with him since he took a trip to Canada in 1887 at the age of 19. He was then a student at Princeton University. He was too slight for many sports but, because of a talk given at the Princeton Gun Club by Theodore Roosevelt on his hunting experiences in Canada and the West, Dr. McCleery became fascinated with the prospect of hunting grizzly bear. That summer he and a college friend journeyed to the Yukon (before it was even called the Yukon) to hunt grizzly bears. At that time there were no professional guides and the two young men knew nothing about the country. They spent four months in the Yukon under most difficult conditions, joining groups of prospectors and trappers from time to time and sleeping in whatever shelter they were fortunate enough to come upon.

They didn't get a grizzly; in fact, they didn't even see one, but one evening a wolf trotted into the camp and sat down by the campfire like a big, well-trained dog. He politely accepted the remains of their meal and turned and vanished into the night.

Dr. McCleery returned to Princeton and after having received his Degree, matriculated at Jefferson and graduated in 1891. After graduation, he went to practice in the small town of Kane where his family lived. He was a highly successful general practitioner; he married and had three children. With his many responsibilities he was not able to take a second trip to Canada. But he never forgot the sight of that great grey wolf sitting quietly in the light of the campfire.

As a hobby he began to collect all available information on wolves and the more he learned of their characteristics and habits, the more intrigued he became with their ingenuity, strength and cunning.

At that time, wolf packs were ravaging cattle herds in Southwestern United States and defying the best efforts of cattlemen and ranchers. They were referred to as "Lobos" which was simply the word Mexicans used for wolves, but it is generally applied to the Great Plains or Buffalo wolf which is a subspecies of the common grey wolf.
Cattlemen in the Southwest spoke of all wolves as “Lobos” and the newspapers adopted the term. These wolves were much in the news at that time. Some of them became as famous in their own districts as Billy-the-Kid or any known outlaw. There was the “Custer” wolf which was reported to have killed $25,000 worth of livestock. There were “Old Black Dan’l” and “Jesse James” with prices on their heads of $8,000 and $10,000. There were the “Split Rock” wolf, the “Butcher” wolf and many more. Eventually, the U.S. Government sent in trained men with poisons, special traps, tracking hounds and high-powered rifles. The wolves were doomed, but even the men whose job it was to exterminate them regretted the complete annihilation of these wolf packs.

There was only one person who was determined to save this species of what was virtually the last remnant of the United States wolf—Dr. McCleery.

He wrote to the Geological Survey and asked them to send him any cubs which were taken alive, offering to pay for their shipping and promising to keep them in secure quarters. He received 22 cubs and young wolves which became his breeding stock.

The blood of one of the most famous of the old outlaw wolves runs in two-thirds of Dr. McCleery’s present Lobos. This wolf was named “Three Toes” because she had been caught in a trap but had managed to escape, leaving her with only three toes on one foot. She became “trap wise” and paid for her missing toes in a toll of cattle and horses killed. Many hunters and cattlemen tried to capture her by various methods. On one occasion they found her den and, staking out one of her cubs, surrounded it with a ring of carefully concealed traps. They were confident that the cub’s cries would eventually lure his mother to his rescue. For three days Three Toes held out until the little fellow’s distress became too much for her. She carefully picked her way among the traps and reached the cub, but was unable to free him from the iron stake and steel chain which held him captive. She killed him with one expert slap. Then, carefully stepping in her own footsteps, she successfully negotiated the ring of traps and escaped. One of her remaining cubs, a female, was eventually captured and sent to Dr. McCleery and a number of the wolves presently in the pack are Three Toes’ descendents.
The delivery of 22 cubs to a doctor unfamiliar with the training of animals, residing in a small town, presented many problems. Wolves are subjected to rickets, dietary upsets and convulsive fits; so Dr. McCleery had to develop proper diets as well as safe and adequate living quarters for these wild animals. This, however, was only one of his problems for, in order to move them from one pen to another, separate them during mating season, and examine them to determine those best suited for breeding purposes, they first had to be tamed. This was no mean trick as only a very few individual wolves had ever been successfully trained by man and Dr. McCleery was faced with taming an entire pack. Although he had been advised by professional trainers to remove the new born cubs immediately from their mothers, Dr. McCleery found this system unsatisfactory. He decided to allow the females to wean their litters and he later removed the cubs to a training shed where he worked with them hour after hour. Many of them finally grew so tame that he was able to take them for rides in his car or walks through the streets on leashes.

As the wolves increased in number, Dr. McCleery began to encounter more and more difficulties. The townspeople objected to the new "residents" and nothing short of hurricane fencing was a safe restraint. In addition they ate the meat of two horses a week.

Finally, Dr. McCleery moved with his wolves to an isolated farmhouse east of the town, which solved the problems of safety and isolation; but his financial situation still remained serious. Reluctantly, to obtain much needed cash, he sold several of his wolves to a British peer who had hoped to establish a strain in England. However, after one of the wolves had attacked a prowler, Lord Auckland became frightened of the animals and put them in the London Zoo where they promptly died.

Dr. McCleery was much disturbed over this incident and determined not to part with any more of his wolves. In desperation he decided to make them a tourist attraction in order to provide himself with sufficient money to meet the staggering cost of their food.

When he made the attraction available to the public the response was enormous and McCleery Park has been visited by thousands of people from all over the world.

Dr. McCleery’s wolves are handsome creatures, many tipping the scales at 140 pounds, standing some 36 inches at the shoulder. In coloring they vary from shades of white to light buff with thick luxuriant pelts.

They are intelligent looking with well-shaped heads. At first glance they seem not unlike big dogs, but when they trot around their pens with a typical wolf lope, or show their fangs in a snarl, the difference is very obvious. Prominent zoologists have said it is inconceivable that Dr. McCleery was not killed long ago by one of his wolves.

Actually, he has been mauled many times. One winter morning he entered one of the long pens where he kept 18 of his pack. Ten half-grown wolves, averaging about 100 pounds each, ran up to him and greeted him happily but, as the Doctor moved among them, he slipped on a piece of ice and fell heavily. Instantly, the pack was upon him. One grabbed his cheek, another his right arm, two more his left leg. But at that moment Snowdrift, the huge male wolf who was the boss of the pen, came to his rescue. He seized one of the youngsters by the throat, slashed the other across the face and snapped the leg of the third. Then Snowdrift walked stiff-legged and growling beside Dr. McCleery.
until he was able to reach the gate and slam it shut after him.

Through the years Dr. McCleery devoted more and more time to the care of his wolves and eventually retired from the practice of medicine to devote all of his efforts to scientific studies and care of the Lobos. He has received much recognition for his work. Last year, he was invited by the Director of the Hall of Fame for great Americans to attend the ceremonies at New York University at the unveiling of a bust for Thomas Alva Edison.

Not long ago Governor Lawrence extended his sincere commendation to the citizens of Kane for the exceptional work they have been doing to revitalize the economy of McKean County and for the new promotional efforts for tourism involving the McCleery wolves. Diplomats, world-noted explorers, scientists and naturalists have visited McCleery Park.

Advancing years and somewhat failing health have caused Dr. McCleery great concern about the future of his Lobos. Quite recently, however, the continuation of the Park and the wolf pack was assured when a young couple from Milwaukee made arrangements to purchase them. Mr. and Mrs. Jack Lynch had been interested in the Malemute Kennels in Milwaukee and when they visited McCleery Park in 1960 they became fascinated by the Lobos and their potential as a tourist attraction. Arrangements have now been completed for the purchase of the wolves and they have ambitious plans for improvements of the Park. Mr. Lynch has spent months "getting acquainted" with his acquisitions and has progressed to the point where he can enter the pens. The wolves still eye him warily, however, and his acceptance is not yet complete.

Dr. McCleery is delighted with the plans the Lynches have made and feels confident that they will carry on and improve the world-famous pack.

"I am, and always have been grateful," Dr. McCleery said recently, "for recognition given the wolves. I want people to see them, unchanged through the years, to know about them as they read our American history. Our government has preserved the bison from extinction—and the lobo was a great part of that era. It is important that the lobo pack continue and I have faith that it will."

This wolf is crouched, ready for attack—in this mood he is unapproachable by man or beast
FOR the past 13 years your Alumni Association has offered its members an annual postgraduate institute called the Graduate Assembly. This program, presented by members of the faculty of the College has been a general refresher course designed to acquaint interested Alumni with recent developments in the several fields of medicine and surgery. Previously the program has taken up three days and, until last year, has always been held in February at the time of the Annual Business Meeting of the Association.

In spite of considerable effort on the part of many members of the Alumni group, attendance at this Assembly has never been large and recently has been distressingly poor. For this reason, the Alumni as a whole were invited to express their opinions regarding the advisability of continuing the Assembly, the time of the year most desirable for it to be held, and the type and duration of the program which would be most suitable. The excellent response to the questionnaire left no doubt as to the necessity for continuing the Assembly. A substantial number of men indicated interest in attending and there was a strong preponderance in favor of holding the meeting in June in conjunction with the activities of Graduation. Most Alumni favored a two-day program.

As a result of this heartening response and under the vigorous stimulation of our President, George Willauer, it was decided to have a Graduate Assembly as a part of the Alumni activities of graduation week. The program for these activities, which appears on the following pages, was drawn up with the cooperation of the Clinic Committee headed by Peter A. Theodos.

Because of the limitations of time, the Graduate Assembly this year will be a one-day program, Tuesday, June 12th, to be followed on Wednesday, June 13th by Class Reunion Day, and on Thursday, June 14th by the Clinics of Alumni Day. Graduation will be on Friday, June 15th. Incidentally, a limited number of seats are available for Alumni to attend the graduation exercises on a first come, first served basis.

Graduate Assembly for the first time is devoted to a single, rather broad subject—that of "Infectious Diseases". The several expert speakers, members of the faculty and guests, will cover thoroughly the various aspects of this timely and important subject in a way which we believe will be interesting and worthwhile. The registration fee of $10.00 includes the luncheon and two coffee periods. There is, of course, no registration fee for the Class Reunion Day, or the Alumni Day Clinics. The program for all three days will be held in the air-conditioned Auditorium in the basement of the College. The American Academy of General Practice has approved the program for nine credit hours under Category I. We look forward to seeing many of you at Jefferson during graduation week of 1962.

GRADUATE ASSEMBLY COMMITTEE

John Y. Templeton, III, M.D., Chairman
Abraham E. Rakoff, M.D., Alternate
Gonzalo E. Aponte, M.D.
John J. Dowling, M.D.
John W. Goldschmidt, M.D.
John R. Griffith, M.D.
George J. Haupt, M.D.
Edmund L. Houseal, M.D.
Daniel W. Lewis, M.D.
Leonard W. Parkhurst, M.D.
F. Johnson Putney, M.D.
J. Woodrow Savacool, M.D.
Frank J. Sweeney, Jr., M.D.
C. Wilmer Wirts, M.D.

CLINIC COMMITTEE

Peter A. Theodos, M.D., Chairman
Harry J. Knowles, M.D., Alternate
Robert L. Breckenridge, M.D.
David M. Farell, M.D.
John A. Koltes, M.D.
John J. McKeown, Jr., M.D.
Joseph Medoff, M.D.
P. Victor Sencindiver, M.D.
GRADUATE ASSEMBLY DAY
June 12
Morning Session
Abraham E. Rakoff, M.D., Professor of Obstetric and Gynecologic Endocrinology; Co-chairman, Committee on Graduate Assembly, Presiding

9:00 a.m. INFECTIOUS DISEASES; A PANORAMIC VIEW
Hobart A. Reimann, M.D., Professor of Medicine and Professor of Preventive Medicine, Hahnemann Medical College

9:30 a.m. VENEREAL DISEASES
John W. Lentz, M.D., Chief of Venereal Disease Control, Department of Public Health, City of Philadelphia

9:50 a.m. DISCUSSION

9:55 a.m. MANAGEMENT OF COMMON PROTOZOA! DISEASES
E. Harold Hinman, M.D., Professor of Preventive Medicine and Head of the Department

10:15 a.m. DISCUSSION

10:20 a.m. COFFEE PERIOD

10:40 a.m. VIRAL DISEASES: A SYMPOSIUM
Frank J. Sweeney, Jr., M.D., Associate in Medicine, Moderator

10:45 a.m. ENTERIC VIRUSES
W. Paul Havens, Jr., M.D., Professor of Clinical Microbiology and Professor of Medicine

11:10 a.m. RESPIRATORY VIRUSES
Irving J. Olshin, M.D., Assistant Professor of Clinical Pediatrics

11:35 a.m. EPIDEMIOLOGIC EXPERIENCE
Richard G. Berry, M.D., Professor of Neurology

11:50 a.m. DISCUSSION

Afternoon Session
Robert I. Wise, M.D., Magee Professor of Medicine and Head of the Department, Presiding

2:00 p.m. POLIOMYELITIS AND MEASLES IMMUNIZATION
Sumner Root Ziegler, M.D., Associate Professor of Pediatrics

2:25 p.m. DISCUSSION

2:35 p.m. MODERN TREATMENT OF TUBERCULOSIS
J. Woodrow Savageol, M.D., Associate Professor of Preventive Medicine and Director of the Division of Clinical Preventive Medicine

2:55 p.m. DISCUSSION

3:00 p.m. LABORATORY DIAGNOSIS AND AIDS IN INFECTION
Eileen Randall, Ph.D., Bacteriologist, Jefferson Medical College and Hospital

3:15 p.m. DISCUSSION

3:20 p.m. COFFEE PERIOD

3:40 p.m. ANTIBIOTIC THERAPY AND ITS COMPLICATIONS
Robert I. Wise, M.D.

4:00 p.m. PANEL DISCUSSION
Herbert A. Luscombe, M.D., Professor of Dermatology and Head of the Department
Allan J. Ersliev, M.D., Associate Professor of Medicine
Franz Goldstein, M.D., Associate in Medicine

4:30 p.m. EXPERIENCES OF A PERIPATETIC MICROBIOLOGIST
Kenneth Goodner, Ph.D., Professor of Microbiology and Head of the Department
CLASS REUNION DAY
June 13
9:30 a.m. Marvin A. Sackner, M.D. 5th Class
PULMONARY HYPERTENSION: A SURPRISingly
COMMON FINDING IN SCLERODERMA
9:45 a.m. Gonzalo E. Aponte, M.D. 10th Class
ENDOCRINE MANIFESTATIONS OF NON-ENDOCRINE
TUMORS AND NON-ENDOCRINE MANIFESTATIONS OF
ENDOCRINE TUMORS
10:00 a.m. Herbert A. Bowman, M.D. 15th Class
CLINICAL INVESTIGATION OF HEMOLYTIC ANEMIAS
10:15 a.m. Edmond K. Yantes, M.D. 20th Class
NEW CONCEPT OF FAMILY PRACTICE
10:30 a.m. Densmore Thomas, M.D. 25th Class
SOME INTERESTING ASPECTS OF RUPTURED GRAVID UTERUS
10:45 a.m. COFFEE PERIOD
11:15 a.m. Michael M. Scott, M.D. 30th Class
NEUROSURGICAL TREATMENT OF SPONTANEOUS
INTRACEREBRAL HEMORRHAGE
11:30 a.m. Arthur A. Fischl, M.D. 35th Class
SOME OBSERVATIONS ON FOREIGN MEDICAL PRACTICE
11:45 a.m. Austin T. Smith, M.D. 40th Class
POLYPS OF THE NOSE AND SINUSES
12 noon Baldwin L. Keyes, M.D. 45th Class
TREATMENT OF INSOMNIA
12:15 p.m. David W. Kramer, M.D. 50th Class
PERIPHERAL VASCULAR DISORDERS IN DIABETES

ALUMNI DAY
June 14
9:15 a.m. CLINICO-PATHOLOGICAL CONFERENCE
Presented by the following members of the Graduating Class —
JOHN CAPELLI
MICHAEL CRAIG
MARTIN FELDMAN
CARL SEGAL
JOSEPH SNYDER
JEROME J. VERNICK
Richard T. Cathcart, M.D., Associate Professor of Medicine
Joseph Medoff, M.D., Assistant Professor of Clinical Medicine
Faculty Advisors
10:00 a.m. William A. Sodeman, M.D., Dean and Vice President for Medical Affairs; Professor of Medicine
DIGITALIS INTOXICATION — RECOGNITION AND MANAGEMENT
10:30 a.m. Peter A. Herbut, M.D., Professor of Pathology and Head of the Department
MAMMALIAN TUMOR INHIBITORY PRINCIPLE
11:00 a.m. Louis J. Hampton, M.D., Professor of Anesthesiology and Head of the Department
EMERGENCY RESUSCITATION
11:30 a.m. Thomas D. Duane, M.D., Professor of Ophthalmology and Head of the Department
GLAUCOMA AND THE GENERAL PRACTITIONER
12 noon John H. Gibbon, Jr., M.D., Samuel D. Gross Professor of Surgery and Head of the Department
CHANGING CONCEPTS IN THE THERAPY OF CANCER OF THE ESOPHAGUS
12:30 p.m. DEAN'S LUNCHEON
McClellan Hall
Jefferson Medical College
Dr. Conly
Represents College on Ghana Survey Team

Dr. Samuel S. Conly, Jr., Assistant Dean, was one of a team of Philadelphia physicians who left on March 20th for Accra, Ghana, to survey medical facilities and make plans to help this new African nation in establishing a medical school.

Four Philadelphia medical schools are participating in the project for which the College of Physicians of Philadelphia has agreed to serve as sponsor. The Association for International Development, an Agency of the U.S. Government, is bearing the cost of the project.

Members of the survey team are Dr. William N. Parkinson, Dean Emeritus of Temple University’s School of Medicine; Dr. Harold A. Taggert, Associate Dean and Medical Director at Hahnemann Medical College and Hospital; Dr. H. Walter Forster, Jr., Professor of Ophthalmology at Woman’s Medical College, Dr. Ernest Aegert, Professor and Chairman of the Department of Pathology at Temple, and Dr. Conly.

While plans called for Dr. Parkinson to remain in Ghana for six months, with the other members of the committee to work with him for two to six weeks, Dr. Conly was recalled to Philadelphia shortly after his arrival in Accra because of the death of his father.

Jefferson Alumnus is Visiting Lecturer at University of Glasgow

Dr. Karl Habel, Chief of the Laboratory of Viruses of the National Institute of Allergy and Infectious Diseases, has accepted the invitation of the University of Glasgow to be a Visiting Lecturer in the Department of Virology. He departed for Scotland on March 6 to fulfill this lectureship.

Dr. Habel is considered a world authority on rabies and in recent years he has also been interested in the problem of the polyoma tumor virus. During his three-month stay in Scotland Dr. Habel will continue his research in that field and will also participate in a post graduate course in basic virology at the University of Glasgow.

Dr. Habel will attend the Eighth International Cancer Congress in Moscow in July and will present a paper at the Congress on “Immunological Factors Influencing Polyoma Virus Oncogenesis.” Following the meeting in Moscow, Dr. Habel will go to Stockholm where he will work for three months at the Institute for Tumor Biology in the laboratory of Dr. George Klein at the Karolinska Institutet. He will return to the United States in October.

Dr. Conly, second from left, with other members of the survey team
TRUSTEES APPOINT DEVELOPMENT DIRECTOR

THE Board of Trustees has recently announced the appointment of Mr. John R. Busick as Director of Development for The Jefferson Medical College and Medical Center. He will assume his new duties on June 1, 1962.

Mr. Busick is a native of Fairfax County, Virginia and a graduate of George Washington University, Washington, D.C. He is a former Public Relations Director for his Alma Mater, for the Miami Valley Hospital in Dayton, Ohio and for the Washington (D.C.) Blue Cross plan. He is also a former Director of Medical Information for the University of Pennsylvania where he had development and public relations responsibilities for the Medical School and the University Hospital as well as for the Graduate Medical, Dental, Veterinary and Nursing Schools and the research institutes.

Most recently Mr. Busick has been Director of Development for the Alexandria Hospital, Alexandria, Virginia where he headed a fund-raising and community relations program for a four million dollar hospital which was dedicated in January, 1962.

Mr. Busick has been active in the American College of Public Relations and is a past Director of that organization. He has lectured on development and public relations at institutes sponsored by the American Hospital Association, the Conference of Western Hospitals (San Francisco), the Ohio Hospital Association and Xavier University of Cincinnati.

During World War II, Mr. Busick served in the United States Navy and was on convoy service in the North Atlantic, the Mediterranean and the Indian Ocean.

He is married to the former Clara Kathleen Nourse of Falls Church, Virginia and the Busicks have two adult daughters.

Mr. Busick's duties at Jefferson will include coordination of fund raising, recruitment of volunteers and public relations and he will be active immediately with fund raising efforts in connection with Jefferson's $40 million expansion program.
PROMOTIONS, NEW APPOINTMENTS, RESIGNATIONS AND DEATHS

PROMOTIONS

AARON CAPPER, B.S., M.D., from Clinical Professor of Pediatrics to Professor of Clinical Pediatrics.

DANIEL L. GILBERT, A.B., M.S., Ph.D., from Assistant Professor of Physiology to Associate Professor of Physiology.

ADOLPH T. GREGOIRE, B.A., M.A., Ph.D., from Research Biologist in Obstetrics and Gynecology (Physiology) to Assistant Professor of Obstetrics and Gynecology (Physiology).

BERNARD J. MILLER, B.S., M.D., from Instructor in Anatomy to Assistant Professor of Anatomy.

WESLEY W. PARKS, B.A., M.A., Ph.D., from Instructor in Anatomy to Assistant Professor of Anatomy.

RUDOLPH C. CAMISHION, B.S., M.D., from Instructor in Surgery to Associate in Surgery.

BENJAMIN M. GALKIN, B.A., M.S., from Instructor in Radiologic Physics to Associate in Radiology.

ROBERT S. GAMON, A.B., M.S., M.D., from Instructor in Surgery to Associate in Clinical Surgery.

AUGUSTIN T. GIORDANO, B.S., M.D., from Instructor in Pediatrics to Associate in Clinical Pediatrics.

MARGARET O. TSALTAS, A.B., M.D., from Instructor in Psychiatry to Associate in Clinical Psychiatry.

WERNER K. R. WELZ, M.A., M.D., from Instructor in Psychiatry to Associate in Clinical Psychiatry.

MARGARET I. ANDERSON, A.B., M.S.W., M.D., from Assistant in Medicine to Instructor in Medicine.

ADOLPH F. BORKOWSKI, B.S., M.D., from Assistant in Medicine to Instructor in Medicine.

JOSEPH L. CARROLL, M.D., from Assistant in Medicine to Instructor in Medicine.

HENRY C. STOFMAN, B.S., M.D., from Assistant in Surgery to Instructor in Surgery.

NEW APPOINTMENTS

MATTHEW J. ZAKRESKI, M.D., Associate in Clinical Obstetrics and Gynecology.

ARTHUR DRICKMAN, B.A., M.D., Instructor in Pathology.

RICHARD E. EASLER, B.A., M.D., Instructor in Pathology.

ROBERT A. HAINES, B.A., M.D., Instructor in Obstetrics and Gynecology.

WILLIAM T. LAMPE, A.B., M.D., Instructor in Medicine.

FRANK LOUIS LIPPO, B.S., M.D., Assistant in Obstetrics and Gynecology.

SEYMOUR WAGNER, B.A., M.D., Assistant in Otolaryngology.

MARTIN M. WIDELITZ, B.A., M.D., Assistant in Medicine.

LEONARD M. ROSENFELD, A.B., M.A., Teaching Fellow in Physiology.

PHILIP K. RUSSELL, A.B., M.D., Visiting Research Fellow in Microbiology.

RESIGNATIONS

CHARLES G. STEINMETZ, III, M.D., Associate Professor of Clinical Ophthalmology.

TURGUT N. HAMDI, B.S., M.D., Associate in Clinical Ophthalmology.

J. ROBERT FOX, A.B., M.D., Assistant in Ophthalmology.

DEATHS

WILLIAM H. KRAEMER, M.D., Associate Professor of Oncology in the Department of Surgery, March 21, 1962.
William H. Kraemer, M.D. 1879-1962

Dr. William H. Kraemer, Associate Professor of Oncology (Surgery), died at his home in Wilmington, Delaware, on March 21, 1962, at the age of 83. His passing marked the conclusion of a life of inestimable service to his fellow man.

Dr. Kraemer graduated from Jefferson Medical College in the class of 1906. Prior to that he had studied Pharmacy at Columbia University. His training as a Pharmacist and his degree of Doctor of Medicine prepared him for his major achievements in the field of research in the quest of a chemical approach to cancer therapy. Through the generosity of Mr. Pierre S. du Pont and his brother, Lammot, Dr. Kraemer established the monument of his career by founding the Elizabeth Storck Kraemer Memorial Foundation at Jefferson Medical College. He directed this Foundation until his death.

His services in the field of cancer won for him the award by Jefferson Medical College of the Honorary Degree of Doctor of Science, which was bestowed upon him on June 16, 1961.

While we mourn his loss, we are fully conscious of our pride in the fact that, as a son of Jefferson, he exemplified to the fullest degree the highest quality of his profession.

Francis F. Borzell, M.D.
Fielding O. Lewis, M.D.
DR. BERNARD J. ALPERS, Professor of Neurology and Head of the Department, was a speaker at the New Orleans Graduate Medical Assembly in March. He discussed the subject “Dizziness.”

DR. GONZALO E. APONTE, Assistant Professor of Pathology, spoke on "Radiation-induced Mammary Cancer in the Rat" at a meeting of the Philadelphia Chapter of the American Federation for Clinical Research.

DR. W. WOLF BAKER, Associate Professor of Pharmacology and Psychiatry, was a speaker on Tranquilizers and Antidepressants at a luncheon meeting of the Drug Distribution Committee of the Camden County Mental Health Association on March 21.

DR. S. A. D'ANGELO, Professor of Histology and Embryology, gave seminars on "The Role of the Hypothalamus in Pituitary-Thyroid Interplay" at the Biology Division of Rutgers University on February 27 and at the Biology Division of the Graduate School of New York University on March 5.

DR. J. MONTGOMERY DEAVER, Associate Professor of Surgery, has been elected to the Presidency of the Philadelphia Academy of Surgery, the oldest surgical society in the nation.

DR. ELMER J. ELIAS, Associate in Clinical Physical Medicine, has been appointed Medical Director of the new multi-purpose rehabilitation division of Morristown (New Jersey) Memorial Hospital. He is currently head of the Department of Physical Medicine at Mercer Hospital.

DR. JOHN W. GOLDSCHMIDT, Associate in Physical Medicine, addressed the monthly meeting of the Lehigh County Medical Society in Allentown, Pa., on "Retraining for Reduction of Dependency in Hemiplegia" on February 13, 1962.

He talked to the Philadelphia Association of Industrial Nurses on "Rehabilitation for Industrial Capability” on February 26, 1962.

DR. FRED HARBERT, Professor of Otolaryngology and Head of the Department, spoke on "Auditory Adaptation" at a Joint Meeting of the Section on Otolaryngology of the College of Physicians of Philadelphia and the New York Academy of Medicine.

DR. HARBERT also spoke at a meeting of the Roanoke Academy of Medicine held in conjunction with the 35th annual spring congress of Gill Memorial Hospital.

DR. BENJAMIN HASKELL, Clinical Professor of Proctology, was one of the Discussors of a paper entitled "Electrodesiccation of Adenomatous Polyps in the Terminal Portion of the Colon" which was presented by Dr. Albert C. Haas at a recent seminar on Electrosurgery presented by the Department of Proctologic Surgery of Temple University Medical Center.

DR. EDMUND L. HOUSEL, Associate in Clinical Medicine, was installed as a member of the Medical Service Association of Pennsylvania at its Annual Meeting on April 11, 1962.

DR. HAROLD L. ISRAEL, Clinical Professor of Medicine, has been named as a member of the Executive Committee of the Delaware Valley Chapter of the American Medical Writers' Association.

DR. WARREN R. LANG, Associate Professor of Obstetrics and Gynecology and DR. LEON N. PRINCE, Assistant Professor of Obstetrics and Gynecology, were guest speakers at the February meeting of the Obstetrics and Gynecology Section of the Puerto Rico Medical Association in San Juan.

Dr. Lang spoke on "Cervical Erosion" and Dr. Prince on "Perinatal Mortality".

On March 14, at Williamsport Hospital, Dr. Lang participated in a discussion of "Diseases of Vulva and Vagina in Children and Adults". In the afternoon, Dr. Lang spoke on "Problems of the Benign Cervix".

DR. RALPH LEV, Instructor in Surgery, was the keynote speaker at the Nurses Institute at Roosevelt Hospital for Diseases of the Chest in Edison, N.J. He talked on "Rehabilitation of Patients with Chronic Pulmonary Disease".

Dr. Lev is also Director of the Cardio-Pulmonary Laboratory at St. Peter's General Hospital in New Brunswick, N.J.

DR. LEWIS C. MANGES, Associate in Surgery, was one of the participants in a two hour discussion on Safety
Measures at the Delaware Valley Scholastic Football Coaches Association's second annual clinic on Care and Prevention of Football Injuries.

**DR. THOMAS F. NEALON, JR.,** Associate Professor of Surgery, participated in a televised symposium of Cancer of the Lung on April 12. The discussion was part of the program of the Annual Meeting of the American College of Physicians.

Dr. Nealon and Dr. Nathaniel Ching, Resident in Surgery, presented a paper on "An Extracorporeal Device to Lower Blood Ammonium Levels in Hepatic Coma" at the Meeting of the American Society for Artificial Internal Organs which was held in Atlantic City on April 14.

On May 3rd, Dr. Nealon was guest speaker at a meeting of the Atlantic City Heart Association.

**DR. WARD D. O'SULLIVAN,** Clinical Professor of Surgery, was honored by Fordham University recently when he was given his Alma Mater's "Achievement Award in Medicine". In addition to his teaching duties at Jefferson, Dr. O'Sullivan is Director of Surgery at Misericordia Hospital.

**DR. HENRY H. PERLMAN,** Clinical Professor of Pediatrics, spoke at the Southwest Allergy Forum in Memphis, Tennessee on April 17th on the subject of "Skin Disorders of Common Interest".

**DR. JOSEPH J. RUPP,** Associate Professor of Clinical Medicine, was one of the speakers at the recent symposium on Obesity which was sponsored jointly by the New Jersey Academy of General Practice and Lederle Laboratories. The meeting was held in Trenton, New Jersey.

**DR. JOSEPH SATALOFF,** Associate Professor of Otology, presented a paper on "Voluntary vs. Non-Voluntary Employee Hearing Programs in Action" at the recent American Industrial Health Conference which was held in Chicago.

**DR. ALBERT W. SEDAR,** Assistant Professor of Anatomy, gave a seminar on "The Fine Structure of the Oxysytic Cell in Relation to Functional Activity of the Stomach" to the Anatomy Department and guests at the Albert Einstein College of Medicine, New York, March 9, 1962.

**DR. WILLIAM A. SODEMAN,** Dean and Vice President for Medical Affairs, has been appointed by the Governor to membership on the Board of Trustees of the Commonwealth (Penn.) Mental Health Research Foundation.

**DR. SODEMAN** was guest speaker at the Alumni Postgraduate Convention of the School of Medicine of Loma Linda University in Los Angeles in March.

**DR. HITOSHI TOM TAMAKI,** Assistant Professor of Pathology, has become the new President of the Montgomery County Medical Society. He has served as Director of the Department of Pathology at Montgomery Hospital from 1947 until the present and is also a Consultant Pathologist at North Penn Hospital, Lansdale.

**DR. LEANDRO M. TOCANTINS,** Thomas Drake Martinez Cardeza Professor of Clinical Medicine and Hematology in the Department of Medicine, participated in a panel discussion which was held in New York on March 6 under the joint sponsorship of the AMA and the Readers Digest Association, Inc. Dr. Tocantins talked of physician—patient relationships along the lines of his address at the 1961 Opening Exercises at the College.

**DR. GASTON G. TRIGOS,** Instructor in Psychiatry, has been named as Psychiatrist and Medical Director of the Cumberland County Guidance Center at 821 Church St. He is also Medical Director of the Gloucester County Guidance Center.

**DR. BURTON L. WELLENBACH,** Associate in Clinical Obstetrics and Gynecology, was a guest speaker recently at the Veterans Administration Hospital in Puerto Rico. His subject was "Evaluation of Lower Abdominal Pain in Women". Dr. José Amadeo, Class of 1952, was host on the occasion.

**DR. C. WILMER WIRTS,** Associate Professor of Medicine, spoke on "Diagnosis and Treatment of Malabsorption and Malnutrition States" at the Williamsport Hospital, Williamsport, Pa. on February 21st. He also presented "Nutrition in Peptic Ulcer and Colitis" at the Bergen Pines Hospital, Paramus, N.J., March 5th and "Post-Gastrectomy Steatorrhea" at the Monmouth Medical Center, Long Branch, N.J. on March 11th.

**DR. ROBERT I. WISE,** Magee Professor of Medicine and Head of the Department has been awarded an unrestricted $5,000 grant for medical research by Wyeth Laboratories. This award is one of 20 made each year by that firm to further medical research in hospitals and medical colleges throughout the country.
Dr. Browneller Resigns as Medical Director

Dr. Ellsworth R. Browneller, Class of 1948, has resigned from the position of Medical Director of Jefferson Hospital to become Administrator–Director of the Geisinger Medical Center in Danville, Pennsylvania.

His resignation was accepted with regret by the Board of Trustees and Mr. James M. Large, Chairman, made the following statement—

"During the almost six years of Dr. Browneller's association with Jefferson Medical College Hospital in administrative capacities, many changes have occurred and much progress has been realized. For the part he has played in this forward movement all of us are most grateful."

Dr. Browneller took his undergraduate work at Franklin and Marshall College and graduated from Jefferson in the Class of 1948. After internship and military service, he attended Columbia University School of Public Health and Administrative Medicine as a Commonwealth Fellow, receiving his M.S. degree in 1956.

Shortly thereafter he became associated with Jefferson Hospital and was named Acting Medical Director in 1957 and Medical Director in 1958.

President Bodine has announced that Mr. Maurice P. Coffee, Associate Medical Director, has been appointed Acting Director.

Faculty on Urological Society Program

The Philadelphia Urological Society met at the Philadelphia College of Physicians, March 26th, 1962. The following members of the Department of Urology of Jefferson Medical College and Hospital participated in the program: Jules H. Bogaev, M.D., Associate in Clinical Urology, gave a paper on "Interstitial Cell Carcinoma of the Testis"; Murray H. Kimmel, M.D., Instructor in Urology, presented "Two Interesting Cases of Abdominal Masses in Young Adults"; Jose R. Yunen, M.D., Resident in Urology, presented a talk and demonstration on "Cavernosagrams" and Francis F. Bartone, M.D., Resident in Urology, gave a paper on "Melanoma of the Urinary Bladder".

Dr. Capper Honored by Colleagues

Dr. Aaron Capper, Professor of Clinical Pediatrics and a member of the Class of 1924, was honored by the Pediatrics staff of Albert Einstein Medical Center Northern and Southern Divisions when they recently presented him with a very beautiful inscribed silver platter.

This was given in appreciation for his services as Senior Attending Pediatrician to the Northern Division and as Chairman of the Department of Pediatrics of both the Northern and Southern Divisions.

Dr. Gibbon to Receive Medical Society Award

Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department, has been named recipient of the Pennsylvania Medical Society's Distinguished Service Award for his invention of the heart-lung machine. Actual presentation of the Award will take place during the Medical Society's Annual Convention in Atlantic City in October.

During the seven-year history of the Award it has only been given to one other physician; in 1956 it went to Dr. Jonas E. Salk of Pittsburgh for his work on the anti-polio vaccine.

In announcing the Award, Dr. Daniel H. Bee, President of Pennsylvania Medical Society, said: "The award is given only to a member of the State Society whose meritorious service in the science and art of medicine, or whose public life and activities, in the opinion of the award committee, has been of such nature as to reflect great credit on the profession."

"Because of the high standards set for the award, it is not necessarily given each year."

"Dr. Gibbon's invention of the heart-lung machine, in the opinion of the State Society, certainly merits this recognition."

"It is our way of honoring a fellow physician who has made such a great advance in medicine and whose personal efforts have meant life and hope of full recovery to many heart patients with certain ailments."
Faculty and Alumni Speak on Scientific Programs

A NUMBER of Jefferson faculty members participated in the program of Philadelphia County Medical Society's 26th Annual Postgraduate Institute which was held at the Bellevue Stratford Hotel from March 13 through March 16, 1962.

During a session entitled, "Visualization of Arterial Vascular Tree", Dr. Roy R. Greening, Professor of Radiology, presented the "Cerebral" aspects and he also participated in a panel discussion on the same topic.

Dr. Nathan S. Schlezinger, Professor of Clinical Neurology, moderated an afternoon session on "Cerebral Vascular Disorders".

Dr. Harold L. Israel, Clinical Professor of Medicine, participated in a panel discussion of "Diffuse Pulmonary Lesions: Etiology, Diagnosis and Management".

"Advances in Palliation of Malignant Diseases with Hormones" was the subject of a paper given by Dr. Ralph A. Carabasi, Instructor in Medicine.

Dr. F. William Sunderman, Clinical Professor of Medicine and Director of the Division of Metabolic Research, spoke on "Essential Familial Hyperlipidemia" and Dr. F. William Sunderman, Jr., Instructor in Medicine, gave a paper on "Significant Laboratory Procedures in the Diagnosis of Endocrine Disease".

During the session on "Virus Diseases", Dr. W. Paul Havens, Jr., Professor of Clinical Microbiology and Professor of Medicine, discussed "Viral Hepatitis."

Dr. Hans G. Keitel, Professor of Pediatrics and Head of the Department, moderated an afternoon session on "Current Problems in Pediatrics" and Dr. W. Wilson Wren, Instructor in Psychiatry, and Dr. Sumner R. Ziegra, Associate Professor of Pediatrics, participated in the discussion of "Advances in Neonatal and Pediatric Pharmacology".

Dr. Franz Goldstein, Associate in Medicine, gave a paper on "The Nature of the Disease in Ulcerative Colitis."

Dr. J. Montgomery Deaver, Associate Professor of Surgery, discussed "Surgery in the Poor Risk Patient", during the session on "Current Problems in Surgery" and Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department, presented "Cardiac Arrest (Non-operative and Operative Massage)".

Dr. J. Rudolph Jaeger, Professor of Neurosurgery (Honorary), had a scientific exhibit on "Tic Douloureux—Its Cure by Injecting Hot Water in the Gasserian Ganglion."

JEFFERSON faculty members and Alumni were among the participants on the program of the Tenth Annual Clinical Meeting of The American College of Obstetricians and Gynecologists which was held from April 1 through April 4 in Chicago.

Dr. Paul A. Bowers, Assistant Professor of Obstetrics and Gynecology, presented a paper on "First Trimester Bleeding in Pregnancy"; Dr. Samuel M. Dodek, Class of 1927, who is Associate Clinical Professor of Obstetrics and Gynecology at George Washington University, participated in a panel discussion; with associates, he presented a scientific exhibit, and discussed "Management of Abruptio Placenta" at a Breakfast Conference.

Dr. A. T. Gregoire, Assistant Professor of Physiology and Research and Dr. Abraham E. Rakoff, Professor of Obstetric and Gynecologic Endocrinology, with two other associates, had an exhibit on "Some Biochemical Components of Vaginal Fluid".

Dr. Rakoff also participated in the Gynecologic Endocrinology section of the Postgraduate Courses and headed a Breakfast Conference on "Stimulation of Ovulation".

Dr. George A. Hahn, Clinical Professor of Obstetrics and Gynecology, directed a Clinical Conference on "Management of Recurrent Cervical Cancer" and headed a Breakfast Conference on "Radiation Hazards in Obstetrics and Gynecology".

Dr. Warren R. Lang, Associate Professor of Obstetrics and Gynecology, conducted a Clinical Conference on "Pediatric Gynecology"; chaired Breakfast Conferences on "Hospital Infections" and "Trichomonas Vaginitis" and had a scientific exhibit on "Pediatric Vaginitis".

Dr. Hammell P. Shipps, Assistant Clinical Professor of Obstetrics and Gynecology, spoke on "Transverse Incision" at a Breakfast Conference.

Dr. Rakoff, Dr. Alvin F. Goldfarb, Associate in Obstetrics and Gynecology and Dr. John Franklin, a Resident, were also on the program of the Eighteenth Annual meeting of the American Society for the Study of Sterility which was held immediately preceding the meeting of the American College of Obstetricians and Gynecologists in Chicago. Dr. Rakoff spoke on "Clinical Application of Progestational Steroids" and conducted a Luncheon Seminar on "Estrogens". Doctors Goldfarb and Franklin presented a paper on the "Effect of Progestational Compounds in the Production of Experimental Malformations".
Dr. Fry Urges Increased Participation in 14th Drive

The close of the 14th Annual Giving Fund Drive is rapidly approaching and we are still far from our goal of $175,000. As of April 11, the total stood at $119,653, which means that we need $55,347 to "go over the top". I still believe we can do it, but we need the help of every loyal Jefferson Alumnus.

To date we have received gifts from only 2,836 of our total Alumni body of 6,715. This is a participation percentage of only 42.2% and if we are to rank high among medical schools for alumni support, we must certainly better this percentage appreciably before the close of the Drive.

For many years, Jefferson has been noted throughout the country for the loyalty of her Alumni to their Alma Mater. It is difficult, however, to support "this claim to fame" with actual figures if we can only report a participation of 42.2%.

Last year more than 70% of the Alumni of Harvard Medical School contributed to their Annual Fund. Surely it is possible for us to equal and even exceed this figure.

Private financial support of medical education is becoming more urgent each year and the physician himself must set the example if assistance is to be obtained from outside sources, such as foundations, philanthropists and industry. Your contribution, large or small, therefore becomes an important factor in Jefferson's expansion plans, since it swells the Alumni participation figure which is an important key to unlocking the doors of outside sources of support.

We believe sincerely that the College is making notable progress in all of its areas of endeavor. Our students have done very well in National Board examinations; important research projects are being carried on; we have obtained the services of outstanding teachers and have improved and expanded (as far as possible) our physical facilities.

The Board of Trustees and the Administration have always recognized the contributions her Alumni have made to Jefferson's progress. They have now demonstrated in a very definite way that they are much aware of the importance of the Alumni body's role in planning for Jefferson's future. They demonstrated this awareness when they invited the Alumni Association to elect an Advisory Council who could confer with the Board of Trustees and members of the Administration on matters of College policy.

We are grateful for this recognition and the opportunity it affords for Alumni participation in charting Jefferson's future. The Annual Giving Fund Committee hopes, however, that we can express the gratitude of the entire Alumni body in a material way when the Council members meet with the Trustees and Administration in June. We hope that at that time we can report the success of our 14th Annual Giving Fund Drive.

Your loyalty to Jefferson may be expressed in many ways—your attendance at College and Alumni functions—your activities in Alumni Chapters and your interest in recruiting outstanding students. Keep in mind, however, that your financial support is one of the most important evidences of your loyalty. Without it, Jefferson cannot and will not continue her forward progress which you, as an Alumnus, expect and desire.

Every Alumnus is important in the total plans for Jefferson's future. The Board of Trustees, the Administration, the Faculty and the Alumni Association are counting on your support.

1. In memory of Robert M. McClellan by J. Lawrence Evans '10, James L. Evans, Jr. '37, Robert L. Evans '52.
2. Inclusion in Class Total of gifts made by widows totaling $930.00.
5. In memory of Anne Sokoloff, sister of Martin J. Sokoloff by Kathryn E. Price and J. Woodrow Savacool '38.
7. Total includes $5,000 bequest by the late Nathan L. Shulman.
8. In honor of Charles Lintgen by Mrs. Pearl Morosini.
11. In appreciation for services rendered, by James F. Bissel, Jr., credited to Burton L. Wellenbach.
Dr. Norman M. MacNeill, Class of 1916, who was recently chosen as Catholic Physician of the Year, was further honored on March 21 when his associates in the Department of Pediatrics presented a plaque in his honor. The presentation took place after a teaching session and was followed by a luncheon for Dr. MacNeill.

Dr. Hans G. Keitel, Professor of Pediatrics and Head of the Department, spoke about Dr. MacNeill's great contributions to the Department through the years, particularly in the field of clinical teaching. Dr. Keitel then read the following tribute to Dr. MacNeill, which was prepared by Dr. Edward L. Bauer, Professor of Pediatrics, Emeritus:
"Faith, Hope and Charity, these three, but the greatest of these is Charity."

NORMAN MERLE MACNEILL

After a distinguished service in the Armies overseas in World War I, followed by an equally faithful attendance upon the mentally ill, you returned to your Alma Mater, the Jefferson Medical College and Medical Center, to labor in the Pediatric Department for many fruitful years. Through your medical care and charity you have helped thousands of little children to health and better lives.

It was indeed a well deserved recognition of your chosen life's work when you sought a place in the Armed Forces in World War II that the Recruiting Officer told you to return to your babies and minister to them. You found time to aid the seamen of the land of your nativity in the port of Philadelphia for which His Majesty, the King of Great Britain, honored you. You have been honored by the physicians of your faith as the Catholic Physician of the year of 1961, the first of Jefferson's graduates to be so acclaimed.

Your reward for faithful service will come in due time for is it not in Holy Writ,

"Inasmuch as you have done it unto the least of these My children you have done it unto Me."

Dr. Wiggins Honored by Germantown Hospital

Dr. Walter S. Wiggins, Class of 1941, delivered the Annual Staff Memorial Lecture at Germantown Hospital on April 7 and a testimonial dinner was given for him by the Association of Ex-Residents of the Hospital at the Germantown Cricket Club. Dr. Wiggins is a member of this Association, having served as intern and resident physician at Germantown Dispensary and Hospital in 1941-42 and 1946-47.

Among the approximately 100 physicians who attended the testimonial dinner were representatives from all but one of Philadelphia's Medical Schools, as well as representatives from several hospitals and from Philadelphia County Medical Society.

Jefferson was represented by Dr. William A. Sodeman, Dean and Vice President for Medical Affairs; Dean Robert Bucher represented Temple University School of Medicine; from the University of Pennsylvania School of Medicine were Vice Dean Philip S. Barba and the John Rhea Barton Professor of Surgery, Dr. Jonathan Rhoades. Dean Marion Fay of Woman's Medical College was represented by Dr. Abraham Fumin and because of last minute developments, Dean Kellow of Hahnemann Medical College was unable to attend.

Also present at the dinner were Dr. Arthur Waddington, Director of Medical Education at Roxborough Memorial Hospital; Dr. Edwin Albright, Director of Medicine at Chestnut Hill Hospital and Dr. C. Wilmer Wirts, Chairman of the Committee on Medical Education of Philadelphia County Medical Society, who represented that Organization.

Following the testimonial dinner, Dr. Wiggins delivered the Annual Staff Memorial Lecture which is presented yearly in memory of the deceased members of the staff of Germantown Hospital and Dispensary. His lecture, entitled "Medical Education in the Community Hospital," traced the historical background of the subject and presented the desirable objectives of post-graduate medical education in hospitals. Particular attention was directed to the objectives of post-graduate
medical education in hospitals, to the education of house staff officers and the value of the community hospital in this regard.

Dr. Wiggins' wide experience in his position as Secretary of the Council on Medical Education and Hospitals of the American Medical Association enabled him to speak with impressive knowledge on his subject and his lecture was of great interest to the physicians and educators who were present.

The Germantown Hospital staff presented a Resolution of commendation, pride and friendship to Dr. Wiggins in the form of an illuminated scroll in recognition of his achievements in the field of medical education in which it has been so greatly interested.

The Resolution, which was signed by Dr. Barton R. Young, President, Dr. Wallace G. McCune, Vice President and Dr. Franklin Fite, Secretary-Treasurer, reads as follows:

"WHEREAS Dr. Walter S. Wiggins, an exemplary intern and resident of the Germantown Dispensary and Hospital has achieved a distinguished record of service as Physician, Soldier, Teacher, Writer and Administrator WHEREAS He has attained the high office of Secretary of the Council on Medical Education and Hospitals of the American Medical Association WHEREAS His accomplishments bring Philadelphia and the Germantown Hospital great honor

BE IT RESOLVED THAT the Staff of Germantown Hospital unanimously recognize his illustrious career with congratulations.

BE IT FURTHER RESOLVED THAT in testament of our pride, friendship and best wishes this resolution be presented as a Scroll."

Following his graduation from Jefferson and his internship at Germantown Dispensary and Hospital, Dr. Wiggins entered the Military Service in 1942 and served with the 1st Armored Division, the 99th Infantry Division and the 12th Armored Division in Germany, England, France and Austria. At the time of his discharge in 1946 with the rank of Major, he was Commanding Officer, Company C, 82nd Medical Division, 12th Armored Division.

Following his discharge from Military Service, Dr. Wiggins became associated with the College of Medicine, Syracuse University, as Instructor in Medicine. In 1948 he was made Assistant Professor of Medicine at Syracuse University, College of Medicine and the State University of New York College of Medicine at Syracuse. In 1954 Dr. Wiggins became Associate Secretary of the Council on Medical Education of the American Medical Association and in 1959 was promoted to his present position of Secretary of this Council.

Dr. Wiggins is a Diplomate of the American Board of Internal Medicine, a Fellow of the American College of Physicians, and a member of the American Medical Association, the American Federation for Clinical Research, the American Association for the Advancement of Science, Alpha Omega Alpha and the Medical Administrators Conference.

He is married to the former Edna Bowman and they have two children.
Notre Dame Awards
Laetare Medal
to Dr. Braceland

Dr. Francis J. Braceland, Class of 1930, who is Psychiatrist-in-Chief of the Institute for Living in Hartford, Connecticut, has had another major honor added to his already impressive list.

On April 1, 1962 he was awarded the Laetare Medal of the University of Notre Dame. In presenting the Medal, Reverend Theodore M. Hesburgh, President of the University, said

"As a physician, educator and Naval officer, Dr. Braceland has served with rare distinction. Throughout his personal life he has exemplified the competence of modern medical science and a compassion born of his ancient Christian faith."

The Laetare Medal was established in 1883 by the University of Notre Dame and is awarded each Laetare Sunday (the fourth Sunday in Lent) to honor the contributions of some American Roman Catholic layman to the arts and sciences, to the enrichment of "the heritage of humanity." In 1961 the medal was conferred upon President John F. Kennedy.

Dr. Braceland is the first Psychiatrist to receive this medal, the third Jefferson alumnus and the eighth physician. In 1900, Dr. Thomas Addis Emmet, Class of 1850, was the recipient and in 1920 it was awarded to Dr. Lawrence F. Flick, Class of 1879.

Dr. Braceland, who has recently been elected as a member of the newly-formed Jefferson Alumni Advisory Council, is a native Philadelphian. He was educated at La Salle College and received his medical degree from Jefferson in 1930. He was a resident at Jefferson Hospital from 1930 to 1932 and during the following three years was associated with the Pennsylvania Hospital for Mental Disease.

From 1937 to 1941 he was Clinical Director of Pennsylvania Hospital and Professor of Psychiatry at the University of Pennsylvania and Woman's Medical College. In 1941 he became Dean of the Loyola University School of Medicine in Chicago. During World War II he was Chief of Neuropsychiatry in the Bureau of Medicine and Surgery of the Navy Department. He was President of the American Board of Psychiatry and Neurology in 1952 and of the American Psychiatric Association in 1956.

Jefferson has had many reasons to be proud of this distinguished Alumnus.
Hawaii Chapter Holds Dinner Meeting

During the latter part of the winter Dr. Mario A. Castallo, Clinical Professor of Obstetrics and Gynecology at Jefferson Medical College, accepted an invitation to present a paper entitled, "Tuboplasty Evaluation," before the Honolulu Obstetrical Society at a dinner meeting on March 12, 1962. The paper was a summary on the use of polyethylene tubing in surgery to correct the tubal occlusion in sterility. The presentation was a follow-up on original research, which was carried out at Jefferson Medical College during 1947 and 1948, when it was shown that polyethylene tubing was efficacious in recanalizing the Fallopian tubes in the Rhesus monkey. Clinical experiences were presented, together with a report of the literature covering the last twelve years.

On March 8, 1962, Dr. Castallo accepted an invitation to speak to the staff and residents of the Kapiolani Obstetrical and Gynecological Hospital at a luncheon meeting on "The Psychosomatic Aspects of Gynecology", with a question and answer period following.

The Hawaii Chapter of the Alumni Association of Jefferson Medical College arranged a dinner in honor of Dr. and Mrs. Castallo on the night of March 7, 1962. Dr. Albert Ho, Class of 1942, is the President.

1ST. ROW: A. Guyer '29, Mrs. Guyer, A. Ho '42, Mrs. Ho, M. Castallo, Mrs. Castallo, M. H. Li '22, Mrs. Li, R. Wong '36, Mrs. Wong, R. Nishijima '41, Mrs. Nishijima. 2ND. ROW: R. Lee '54, Miss M. Wong, Dr. C. Au, Mrs. Carson, J. Wong '44, Mrs. Wong, Mrs. Tyau, G. Tyau '31, Mrs. Fong, Mrs. Yim, Mrs. B. Li, Mrs. Dodge, Mrs. Chang. 3RD. ROW: J. Cohen '61, F. Au '49, J. Carson '56, F. NOTES

of the Chapter, and Dr. Robert C. Lee, Class of 1954, is Secretary-Treasurer. Dr. Castallo read letters from Dr. John B. Montgomery, President of the Alumni Association at that time, and also from Dr. William A. Sodeman, Dean and Vice President for Medical affairs. He also gave a report of the progress that is being made in the $40,000,000 Expansion Program at Jefferson and told of the new facilities for research and of the research work which is going on at this time. Dr. Min Hin Li, Class of 1922, informed the assemblage that no student sent to Jefferson from the Islands had ever failed and he revealed that in Honolulu there are 35 Jefferson Graduates with an additional four in the Service, two more who are interns, and two presently students at the College.

The accompanying photograph is self-explanatory. The only man who is not in the picture is Dr. Gail Li, Class of 1947, the son of Dr. Min Hin Li and brother of Dr. Benjamin Li. Dr. Gail Li is presently the President of the Honolulu Obstetrical Society.

On March 23, Dr. Castallo attended a meeting of the American Ortho-Psychiatric Association at the Biltmore Hotel in Los Angeles, California and at a special meeting of the Mexican Association for the Study of Sterility in Mexico City on March 30, the findings on "Tuboplasty Evaluation" were reported and the world literature reviewed.

On March 31, Dr. Castallo attended the final sessions of the meeting of the American Society for the Study of Sterility and the first several sessions of the meeting of the American College of Obstetrics and Gynecology, both of which were held in Chicago.

The following are members of the Hawaii Chapter of the Alumni Association:

Min Hin Li '22 Francis T. Kaneshiro '40
Richard Y. Chiang '23 Peter T. J. Yap '40
Yen Pui Chang '29 Randal A. Nishijima '41
Ben Luka Li '29 Albert K. T. Ho '42

Northeastern New Jersey Chapter Meets

On February 28th, the Northern New Jersey Chapter of the Jefferson Alumni Association held its Annual Meeting at the Essex Club, Newark, New Jersey.

After a pleasant interlude of cocktails, hors'd'oeuvres and small talk, a fine dinner was served. The President, Doctor Hinkley, then introduced faculty guests, Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department of Surgery; and Dr. Roy Mohler, Clinical Professor of Obstetrics and Gynecology. They both gave interesting, informal talks about what is new at Jefferson.

The following were elected as Chapter officers for two year terms: Dr. Robert Rich, President; Dr. Roy Forsberg, Vice President; Dr. Frederick C. De Troia, Secretary-Treasurer.

Frederick C. De Troia, M.D.
Secretary-Treasurer
50th Reunion—Class of 1912
David W. Kramer, M.D.
2007 Pine Street
Philadelphia 3, Pa.
Leon Solis-Cohen, M.D.
1530 Locust Street
Philadelphia 2, Pa.

There will be a luncheon for members of the Class of 1912 on Thursday, June 14 at the Benjamin Franklin Hotel at 1:30 p.m., and the Class will have its own table at the Alumni Banquet that evening.

45th Reunion—Class of 1917
Adolph A. Walking, M.D.
136 South 16th Street
Baldwin L. Keyes, M.D.
2031 Locust Street

The Class of 1917 will have cocktails and luncheon at the Union League at 12:30 p.m. on Thursday, June 14 and at 6:30 p.m. on the same day will meet for cocktails at the Benjamin Franklin Hotel preceding the Alumni Banquet.

The wives of class members who are attending the Alumni Banquet on Thursday evening will be entertained for dinner at the Benjamin Franklin by Mrs. Baldwin L. Keyes.

40th Reunion—Class of 1922
J. Bernard Bernstine, M.D.
255 South 17th Street

The Class of 1922 will have a luncheon at the Penn Athletic Club on Wednesday, June 13, following the Clinics. In the afternoon there will be golf and other entertainment at the Bala Golf Club and a dinner for class members and their wives at that Club in the evening. The class will have a “Headquarters Suite” at the Benjamin Franklin Hotel from Wednesday morning on for members and their wives to use as a meeting and hospitality room. If it is found that a number of wives will be accompanying their husbands, entertainment will be arranged for them.

35th Reunion—Class of 1927
James E. Bowman, M.D.
4091 Comly Street
Philadelphia 24, Pa.

Plans include a picnic for Class members and their wives at Jack Gibbon’s Farm on Wednesday, June 13; a luncheon for Class members only at the Mask and Wig Club on Thursday, June 14, and a cocktail party for members and their wives also at the Mask and Wig preceding the Alumni Banquet on Thursday. There will be a luncheon for the ladies at The Patio of the Art Museum on Thursday with the possibility of a tour either of the old houses in Fairmount Park or of the Art Museum.

30th Reunion—Class of 1932
Nathan S. Schlezinger, M.D.
255 South 17th Street
Howard C. Leopold, M.D.
4623 York Road
Philadelphia 40, Pa.

The Class of 1932 will celebrate its 30th Reunion with a dinner, preceded by cocktails, for members and their wives at the Locust-Midcity Club on Wednesday, June 13. There will be a luncheon and golf at the Phil-
mont Country Club on Thursday afternoon, June 14, with the Alumni Banquet in the evening at the Benjamin Franklin Hotel.

25th Reunion—Class of 1937
John J. O'Keefe, M.D.
255 South 17th Street

The Class of 1937 has responded enthusiastically to plans for its 25th Reunion. These plans are now complete and, in addition to the already scheduled stag affairs, include several functions especially designed for the entertainment of the ladies. The highlight of the Reunion will be the dinner dance on Wednesday evening at the Barclay Hotel.

20th Reunion—Class of 1942
J. Wallace Davis, M.D.
135 South 18th Street
C. Brinley Bland, M.D.
3023 W. Coulter Street
Philadelphia 29, Pa.
Harry J. Knowles, M.D.
255 South 17th Street

The Class of 1942 will have an informal dinner-dance, preceded by cocktails, at 7:00 p.m. on June 13 at the Drake Hotel.

On Thursday, June 14, there will be a cocktail party in the Independence Room of the Benjamin Franklin Hotel before the Alumni Banquet.

15th Reunion—Class of 1947
John J. Dowling, M.D.
255 South 17th Street
Philadelphia 3, Pa.
Martin M. Mandel, M.D.
255 South 17th Street
Philadelphia 3, Pa.

The Class of 1947 will celebrate its 15th Reunion with a dinner-dance on Wednesday, June 13, 1962 in the Viennese and Burgundy Rooms of the Bellevue Stratford Hotel at 6:30 p.m.

10th Reunion—Class of 1952
Richard S. Brown, M.D.
239 E. Third Street
Lewistown, Pa.
James E. Clark, M.D.
1015 Chestnut Street
Robert L. Evans, M.D.
York Hospital
York, Pennsylvania

Plans for the 10th Reunion of the Class of 1952 include a cocktail party-dinner dance on Wednesday, June 13 and a cocktail party for members and their wives on Thursday, June 14, preceding the Alumni Banquet.

5th Reunion—Class of 1957
Paul D. Zimskind, M.D.
Jefferson Hospital
Philadelphia 7, Pa.

The Class of 1957 will have a dinner for Class members and their wives on Wednesday, June 13 at Old Bookbinders Restaurant.

Alumni Complete
Military Courses

THREE Jefferson Alumni recently completed the military orientation course at Fort Sam Houston, Texas. Captain William G. Gillespy, '59, Captain Gilbert L. McDonough, '60, Captain Charles D. Hastings, '57, received instruction in the treatment of battle injuries, care of personnel suffering from combat exhaustion, special problems of nuclear warfare and preventive medicine procedures used to detect health hazards and avoid epidemics.

Dr. Frank E. Mele, '56, who is a Captain in the Army Reserve, assigned to the 361st General Hospital in Philadelphia, recently completed a two-week refresher course for Army Medical Service company grade officers at the Medical Field Service School, Brooke Army Medical Center, Fort Sam Houston, Texas.

ALUMNI PLACEMENT BUREAU

Positions Available

JEFFERSON Alumnus, Class of 1956, would like to obtain a Jefferson graduate as an associate in general practice in Collegeville, Pennsylvania.

PEDIATRICIAN or general practitioner badly needed in Palmerton, Pennsylvania. Jefferson alumnus located there has had to curtail his work because of illness and would like someone to take over his office. Appointment on the medical staff of the town's fully accredited hospital would be available as would all the pediatric work in the hospital.

Palmerton has a population of 6200 with an additional 5000 in the surrounding area and has only three other general practitioners.

JEFFERSON Alumnus who is retiring from practice is seeking a general practitioner to take over his office and practice in a Northern New Jersey town of 25,000. Fully equipped, air-conditioned office and records available with no investment necessary. The retiring doctor will introduce anyone taking over the practice and will make favorable financial arrangements. There is an urgent need for a general practitioner in this expanding suburban area and there are good hospitals nearby.

Position Wanted

YOUNG surgeon (Jefferson Alumnus) wishes to become associated with an established surgeon or clinic, or learn of a locality where a surgeon is needed. He has training in both general and thoracic surgery and is eligible for certification by both the American Board of Surgery and the Board of Thoracic Surgery.
There are three living members of the Class of 1891, all of whom are more than 90 years of age.

Dr. Edward W. Ford resides in Crescent City, Florida where he still does a little office practice. Dr. E. H. McCleery (about whom an article appears on page 14 of this magazine) continues to live in Kane, Pennsylvania and Dr. E. W. Tully, of Philadelphia, is retired but keeps in touch with affairs at the College.

1906

Dr. John S. Lambie, 280 Aspen, Birmingham, Mich.

On the occasion of his 80th birthday on March 3, Dr. Lambie’s associates in the Oakland County Health Center honored him with a surprise luncheon.

Dr. Lambie has been Medical Coordinator and Consultant of the Oakland Health Department since 1954, having previously been the Deputy Director of the South Oakland office. His principal work is coordinating the Tuberculosis detection program throughout the county. He has also been responsible for developing an organization plan for health services in case of disaster.

Forty-eight of Dr. Lambie’s 55 years in medicine have been in the public health field and he hopes to stay on at the health center at least another year.

He had a few wise words to say at his party on the subject of growing old: “A man is far better off, mentally and physically, if he keeps busy. I’m against compulsory retirement. We should not be afraid to enter into the new world of young people. Everybody, no matter how old, can still grow. When growth ceases, interest in life is dead.”

1907

Dr. Clarence D. Smith, Valley Rd. Box 308, Furlong, Pa.

Dr. Smith traveled to Lisbon, Barcelona, Greece, Venice, Rome and Palermo from January 3 to February 13, 1962.

1912

Dr. Gabriel J. Kraus, 3153 Richmond St., Philadelphia 34, Pa.

Dr. Kraus writes, “I am 73 years old and in very good health. I enjoy my daily work. Am Attending Physician at Episcopal Hospital and Nazareth. Have five grandchilden, four girls and one boy. I hope that at least one of them will attend Jefferson Medical College.”

Dr. Charles C. Ryan, Republic, Pennsylvania.

Dr. Ryan was honored by the Pennsylvania Medical Society recently for his 50 years of service to the medical profession. Through the Fayette County Medical Society, he was presented with a plaque commemorating the occasion.

Dr. J. E. Van Gilder, 2 W. Main Street, Uniontown, Pa.

Dr. Van Gilder was honored by the Pennsylvania Medical Society recently for his 50 years as a dedicated physician. The commemorative plaque was presented to Dr. Van Gilder by the President of the Fayette County Medical Society at a dinner meeting in Hopwood, Pennsylvania.

1914

Dr. George L. Armitage, 400 E. 13th Street, Chester, Pa.

Dr. Armitage was honored by the Board of Managers and Incorporators of Chester Hospital at a dinner held at Spring Haven Country Club. He was presented with a silver tray in recognition of his 45 years of service to the Hospital.

Dr. Charles H. Sprague, 455 No. Garfield Avenue, Pocatello, Idaho.

Dr. Sprague writes that he has stopped institutional work. He spends six hours daily in his office practicing Psychiatry.
which he finds easy, enjoyable and quite helpful.

1916

Dr. James A. Gettings, Jr., 209 Whalley Avenue, New Haven, Conn.

Dr. Gettings was awarded the Charles Carroll of Carrollton Medal, given annually by the John Barry General Assembly No. 1, Knights of Columbus on February 25. The award is in honor of Charles Carroll of Carrollton, an American patriot and one of the signers of the Declaration of Independence.

Dr. Gettings had a distinguished military record during World War I, having received four recommendations for the Distinguished Service Cross, and having been awarded the Wilson Star with two Oak Leaf Clusters.

Dr. Gettings has lived in New Haven most of his life and has practiced there for many years. Since 1925 he has been Attending Surgeon at St. Raphael’s Hospital and served as President of the Staff.

He has been a Consulting Surgeon to Veterans Administration; contract surgeon for U.S. Government employees and senior surgeon for the New Haven Fire Department.

Dr. Gettings has long been active in community affairs, including the New Haven Boys Club. He has also worked extensively in the field of Veteran Rehabilitation.

He has been President of the New Haven Medical Assn., the New Haven County Medical Assn. and Councilor of the State Medical Society. He is a Fellow of the American College of Surgeons and of the International College of Surgeons.

Dr. Gettings and his wife, the former Dora C. Sayes, have one son, James, Jr.

Dr. John W. Green, 732 Morningside Dr., San Antonio 9, Texas.

Dr. Green writes, “I am in good health and enjoy my work here at the San Antonio State Hospital. Mrs. Green and I live about 4 miles from our daughter and grandchildren which makes it very pleasant.”

Dr. Peter B. Mulligan, 314 S. Hoffman Blvd., Ashland, Pa.

Dr. Mulligan is taking care of Radiology at two hospitals and working six days a week. His civic duties include School Board, 23 years — Board of Health—County Tuberculosis & Health Society.

1917

Dr. Harry W. Baily, 131 W. Broad Street, Tamaqua, Penna.

Dr. Baily has been named “Rotarian of the Year” by the Tamaqua Rotary Club. He is past President of the Lehigh Valley Medical Society and also served as President of the Schuylkill County Medical Society.

Dr. Henry L. Bockus, 250 S. 18th Street, Philadelphia 3, Pa.

Dr. Bockus is President of the International Gastroenterological Society and will preside at the Society’s annual meeting which will be held in Oslo, Sweden, in June.

1918

Dr. Charles Wallis, 810 W. 2nd Street, Little Rock, Arkansas.

Dr. Wallis writes that he is still fairly active in his office practice but makes no calls and does no night work. He plays 18 holes of golf each week and spends his weekends at Hot Springs where he has a cabin on one of the lakes. During the 43 day racing season he also goes to the track twice weekly.

Dr. Wallis hopes to attend his Class Reunion next year.
1923

Dr. Henry Pohl, 232 Market St., Johnstown, Pa.

Dr. Pohl writes, "My son, Dr. Donald R. Pohl, a graduate of Jefferson — class of 1955, has become a Diplomate of the American Board of Pediatrics. I now have 3 grandchildren, 2 girls and one boy."

1924

Dr. Harold R. Warner, Kulpsville, Pennsylvania.

Dr. Warner writes, "Still doing about as much as usual, thanks to my training at 'Dear Old Jeff' — couldn’t face it otherwise — Always glad to hear about the old place."

1927

Dr. Arthur A. Fischl, 3071 Twenty-Ninth St., Long Island City, N.Y.

Dr. Fischl has been appointed a specialist in cardiology for the impartial board for the Workmen's Compensation in New York City. He is also Director of Medicine for Queens General Hospital and Medical Director and Vice President of Group Health Insurance Company.

Dr. William R. Gelpi, Villa & Mender Vigo Sts., Ponce, Puerto Rico

Dr. Gelpi writes that he has recovered from a heart attack and is working eight hours a day but finds time to pursue his hobby of deep sea fishing and still competes in international tournaments. His son will graduate as a Chemical Engineer this spring. Dr. & Mrs. Gelpi now have eight grandchildren.

Dr. W. Raymond Hawkins, South Fork, Pennsylvania.

Dr. Hawkins has been named the Cambria County Medical Society's "General Practitioner of the Year" for 1961. As a recipient of the award, Dr. Hawkins automatically is nominated for the state award which is presented by the State Society in October.

He has been president of the Board of Health since 1955 in South Fork, and is active in the Lions Club.

Dr. Hawkins is married to the former Hiawatha Louder.

1929

Dr. Donald P. Ross, 920 Walnut Ave., Niagara Falls, New York.

Dr. Ross is Chief and Chairman of the Department of Surgery at Mt. St. Mary's Hospital and Consulting Surgeon at Memorial Hospital, Niagara Falls, N.Y.

1930

Dr. Cecil H. Coggin, U.S. Naval Hospital, Mare Island, Calif.

Dr. Coggin, Rear Admiral (MC) U.S.N. and currently Chief of the Medical and Health Division, California Disaster Office, addressed a joint medical group at the Orange County Health Building in Santa Ana.

He is regarded as one of the nation's outstanding authorities on current events. The doctor was one of the first persons to investigate the Japanese spy system throughout the Pacific prior to World War II. He was an early student and specialist in Atomic, Chemical and Bacterial warfare and later headed this phase for the Navy, The United Nations, NATO and Shape.

1931

Dr. W. Royce Hodges, Jr., 122 South Centre Street, Cumberland, Maryland.

Dr. Hodges writes that his son, Royce III, will enter Jefferson as a Freshman this fall.

Dr. Richard P. Jahnig, Director, American Legion Hospital, Battle Creek, Michigan.

Dr. Jahnig has recently accepted a position as Medical Director of the American Legion Hospital in Battle Creek, Michigan. He had been Senior Physician at the Lawrence J. Flick State Hospital in Cresson, Pa., since 1955. Dr. Jahnig was in private practice for 10 years before joining the U.S. Army Medical Corps in 1942. He returned to private practice after his separation from the service in 1946 and in 1955 went to the Flick State Hospital.

1932

Dr. Achilles A. Berrettini, 65 W. Union St., Wilkes-Barre, Pa.

Dr. Berrettini has been Chief of Service in Otolaryngology & Ophthalmology at Wilkes-Barre General Hospital since 1958. Dr. & Mrs. Berrettini have 2 boys, Robert age 12 and Wade age 10½.

Dr. William T. Rice, 262 Connecticut Ave., Rochester, Pa.

Dr. Rice has been made a Fellow of the American College of Radiology.

Dr. Benjamin F. Rosenberry, 226 Delaware Ave., Palmerton, Pa.

Dr. Rosenberry writes, "Having had two severe coronary occlusions in the past two years, I am enjoying 75% retirement. I re-married three years ago."

1933

Dr. Murray Elkins, 101-01 159th Ave., Howard Beach 14, N.Y.

Dr. Elkins is particularly pleased that his son Robert is a member of the Class of 1965 at Jefferson.

Dr. Kniseley writes, "Suffered acute myocardial infarction August 31, 1960. Was hospitalized for 3½ months. Happy to report that I am getting outdoors for short periods. Hope to be able to resume light office practice by early September."

1934

Dr. Jacob G. Hyman, 295 S. River Street, Wilkes-Barre, Pa.

Dr. Hyman is now President of Northeastern Pennsylvania Chapter of the Jefferson Alumni Association.
1935

Dr. Bryce E. Nicodemus, 116 E. Market Street, Lewistown, Pa.

Dr. Nicodemus writes, "I am busy working hard and feeling very well. My wife and I have three grandchildren who help to keep us young and active."

1936

Dr. J. Edward Berk, 6767 W. Outer Dr., Detroit 35, Mich.

Dr. Berk has recently been appointed Clinical Professor of Medicine at Wayne State University College of Medicine.

Dr. Oscar H. Cohen, 115 Church St., Boonton, N.J.

Dr. Cohen has opened a branch office for the practice of Radiology and Nuclear Medicine. He was appointed Asst. Clinical Professor in Radiology at N.Y.U. Medical Center and is currently doing research work in Radioisotopes at Bellevue Hospital. Dr. Cohen was elected President-Elect of the Medical Staff, Riverside Hospital and also Director of the Medical Department and Director Radiologic Chemistry, Civil Defense, Boonton, N.J.

Dr. Robert E. McCall, Jr., V.A. Hospital, Columbia, S.C.

Dr. McCall is a Thoracic Surgeon at V.A. Hospital in Columbia, S.C. He has been certified by the American Board of Surgery and the Board of Thoracic Surgery.

Dr. Alexander E. Penneys, 301 S. Roxbury Dr., Beverly Hills, Cal.

Dr. Penneys is in the private and hospital practice of Radiology in Los Angeles, California.

Dr. Michael L. Rachunis, 5th & Riverside Aves., Roebling, N.J.

Dr. Rachunis has been elected to the Board of Directors of the Burlington County Savings and Loan Association. He is presently Chairman of the Ear, Nose and Throat Department of the Rancocas Valley Hospital at Levittown, New Jersey.

Dr. Rachunis resides with his wife and daughter in Roebling.

1937

Dr. Fred B. Hooper, 414 N. 2nd Street, Harrisburg, Pa.

Dr. Hooper has been reelected President of the Medical Bureau of Harrisburg. He is currently President of the Harrisburg Academy of Medicine. A former President of the Dauphin and Perry county medical societies, he also has served as President of the Harrisburg Hospital medical staff, Secretary-Treasurer of the Academy of Medicine and Chairman of the County Medical Society's Public Relations and Grievance Committees.

Dr. William C. Thalmann, Jr., 1312 Brighton Street, Philadelphia 11, Pa.

Dr. Thalmann has been named Director of Outpatient Services and Physician in Charge of the Emergency Room at Jackson Memorial Hospital in Miami, Florida. Dr. Thalmann has been serving as Chief of Medicine at West Point Military Academy Hospital in New York. He will assume his new duties at the end of May.

1938

Dr. Henry Lihn, 435 N. Roxbury Drive, Beverly Hills, Calif.

Dr. Lihn is Training Analyst and Director of the Psychoanalytic Clinic of the Los Angeles Institute for Psychoanalysis. He is also Assistant Clinical Professor of Psychiatry, U.C.L.A.

Dr. Vincent A. Lynch, Barr St., Fairfield Ct., Stratford, Connecticut.

Dr. Lynch has recently taken office as President of the Bridgeport (Conn.) Medical Society.

Dr. Lynch has practiced in Bridgeport since 1946 and is Chief of Medicine at St. Vincent's Hospital. He also serves as Director of Medicine at St. Joseph's Manor in Trumbull.

Dr. Elmer H. Miller, 1525 N. 2nd St., Harrisburg, Pa.

Dr. Miller has been practicing Pediatrics in Harrisburg since return from the Service. He is on the Pediatrics Staff of Harrisburg Polyclinic Hospital. Dr. & Mrs. Miller have three children, Philip, Harvey and Carol.

Dr. Paul H. Morton, 1117—10th St., Coronado, Calif.

Dr. Morton writes, "Have been practicing in this delightful City of Coronado, California (Population 20,000) for the past 11 years, after having served in the Navy 12 years before that. I resigned, (did not retire). Am a Specialist in Internal Medicine, having been certified 14 years ago. Have two sons, Tom and John, students at U.C.L.A. and Stanford. John will probably become a doctor. We are in excellent health, and very happy."

Dr. Walter B. Watkin, Saltillo, Pennsylvania.

Dr. Watkin writes that his son, Walter, Jr., is presently a pre-med student at Juniata College and he is looking forward to educating three more sons.

1939

Dr. James J. Coll, 3102 E. 1st Street, Duluth, Minn.

Dr. Coll, an Internist at the Duluth Clinic, was named Chief of Staff-elect. He is a Diplomate of the American Board of Internal Medicine.

1940

Dr. A. G. Lessey, 1213 Gilpin Avenue, Wilmington 6, Delaware.

President Bodine and Doctor Sodeman are most grateful to Dr. Lessey for having represented Jefferson Medical College at the Inauguration of the new President of Lincoln University on April 29, 1962. Dr. Lessey participated in the Academic Processional and the other activities associated with the Inauguration.

1941

Dr. DeWitt E. DeLawter, 3848 Porter St., N.W., Washington, D.C.

On January 1st, Dr. DeLawter began his year as President of his County Medical Society. There are 500 members in the group.

Dr. Randal A. Nishijima, 1024 Piikoi St., Honolulu 14, Hawaii.

Dr. Nishijima writes:
"This has been a very busy year for me, not in my business of surgery but poli-

Dr. Vick was recently installed as the President of the Philadelphia Pediatrics Society. He is Chief of Pediatrics at Lancaster Hospital in Philadelphia and is on the staff of Bryn Mawr Hospital. He is also a Consultant at Delaware County Hospital and an Instructor in Pediatrics at the University of Pennsylvania's Graduate School of Medicine.

1943

Dr. Gerard O. Helden, 15 Anderson St., Hackensack, N.J.

Dr. Helden has been appointed Associate Director of the Department of Internal Medicine at Hackensack Hospital. He is a Diplomat of the American Board of Internal Medicine and a Fellow in the American College of Chest Physicians.

Dr. Helden is married to the former Grace Bel of Philadelphia and has two children, Grace Louise, 17, and John Gerard, 12.

Dr. George W. Houck, 826 Evernia, P.O. Box 29, W. Palm Beach, Fla.

Dr. Houck, Director of the Darlington-Florence Mental Health Center, was the speaker at the Annual Meeting of the Darlington County Mental Health Association.

Dr. George F. Rumer, Lt. Col., Army Medical Services School, Brooke Army Medical Center, Ft. Sam Houston, Texas.

Dr. Rumer visited the College on April 11 during his trip from Texas to attend a Symposium on Current Surgical Practices which was held at Walter Reed Hospital in Washington, D.C. from April 9th to April 11th. Dr. Rumer presented a paper on "Some Thoughts on Cardiac Arrest".

Dr. Rumer has been notified that he will be advanced to the rank of full Colonel in a few weeks.

His daughter is attending Jefferson's School of Nursing.

J'1944

Dr. Cohen is practicing Psychiatry and Psychoanalysis. He is Chief of Service at Philadelphia Psychiatric Hospital and on the teaching staff of the Philadelphia Psychoanalytic Institute.

Dr. John DeCarlo, Jr., 701 Seabrook Court, Baltimore 4, Mr.

Dr. DeCarlo is no longer at Baltimore City hospital, but now has a private office and staff positions at two Baltimore hospitals.

Dr. William H. Gehron, Jr., 416 Pine Street, Williamsport, Pa.

Dr. Gehron has successfully passed the examinations of the American Board of Urology and is now a Diplomate of the American Board of Urology.

He practiced general medicine in Williamsport, Pa. until 1955. He then returned to Pittsburgh where from 1955 to 1959 he was a resident in Urology at the Veterans Administration Hospital and University of Pittsburgh Medical Center. During his residency, he was an Instructor in Surgery at the University of Pittsburgh School of Medicine.

Dr. Gehron and his wife, the former Betty Schwoerer, have four children, William III, Amelia, Hope and Timothy.

Dr. Stephen Wetmore, 420 Paxinos Ave., Easton, Pa.

Dr. Wetmore has accepted an appointment as Physician in the Student Health Department of Rutgers University. He had conducted a general practice in Easton for 15 years. He is married to the former Ada Silverstein of Easton and has four children, Emily, Stephen, Louise and Thomas.

S'1944

Dr. Robert G. Arrington, 923 12th Street, Huntington, W. Va.

Dr. Arrington at present is Acting Chief, Admitting and Out-Patient Service at Veterans Hospital, Huntington, W. Va. He was married to Janis Cramer on October 6, 1961.

Dr. Robert M. Kerr, 204 S. Franklin St., Wilkes-Barre, Pa.

Dr. Kerr will inaugurate a series of seminars on "Intoxication and Law En-
Dr. Robert A. Updegrove, 240 Dunbar Rd., Williamsport, Pa.

Dr. Updegrove is in his fifth year of practicing E.N.T. in Williamsport. He gave up General Practice and studied for two years at the Manhattan E.N.T. Hospital and then came to Philadelphia for one year at the Philadelphia General Hospital.

Dr. T. Frederick Weiland, 619 Ridge-way Ave., Grove City, Pa.

Dr. Weiland is on the School Board of Grove City Public Schools.

1945

Dr. Richard D. Bauer, 2513 Buck-lodge Road, Adelphi, Maryland.

Dr. Bauer is in general practice and is a member of the Academy of General Practice. He is the President of the Prince George's County Medical Society, Maryland. He is Past Vice Chairman of the Policy and Planning Committee of the Maryland State Medical Society and is at present a member of the Governing Council of the Maryland State Medical Society representing the South-Central District that includes Montgomery and Prince George's counties, the largest and most active medical sector in the State. He is also Vice-Chairman of the Washington Metropolitan Medical Council comprising the District of Columbia, Montgomery and Prince George's counties as well as Arlington, Fairfax and Anacostia counties. He is a member of the Legislative Committee of the Maryland State Medical Society.

In non-medical activities, Dr. Bauer is a Charter Member of the Advisory Council of Prince George's Community College, the Founder and Past President of 'The Adelphians', a Little Theater Group, and an active member of the Kiwanis Club.

Dr. Bauer is married to the former Lourainia V. Vrooman. Mrs. Bauer also is active in many civic and philanthropic organizations. Dr. and Mrs. Bauer are the parents of three delightful daughters, Suzanne (14); Phyllis (12); and Barbara (10) years old.

Dr. C. Glenn Clements, Cincinnati General Hospital, Cincinnati 29, Ohio.

Dr. Clements is an Assistant Professor in the Department of Psychiatry of the University of Cincinnati College of Medicine. He has his Boards in the newest of subspecialties, Child Psychiatry, which constitutes his main work in the Department. Currently he is involved in the "Conference on Training in Child Psychiatry" under the auspices of the American Psychiatric Association and the Academy of Child Psychiatry.

Dr. Clements is married and has four children—beginning with twins now 13 yrs. old.

Dr. William R. Lineberry, Jr., Capt. U.S.N., Qtrs. "E" U.S. Naval Hospital, Beaufort, S.C.

Dr. Lineberry has been promoted to the rank of Captain. He is Chief of Surgery at the U.S. Naval Hospital in Beaufort and a member of the American College of Surgeons. He has two daughters, Libby four and Laurie two.

Dr. John M. Madara, 31 Market St., Salem, N.J.

Dr. Madara is still a general practitioner and wouldn't trade it for any specialty, he says. He is President of the Salem Rotary Club and father of four children, Joyce 15, Marilyn 11, Glenn 7 and Jay 1.

Dr. William P. Martin, P.O. Box 516, Beaver Falls, Pennsylvania.

Dr. Martin writes that he has left Beaver Falls General Hospital and is now associated in the practice of Radiology with Dr. William Conrady, Class of 1943. He has resumed his flying and hopes to see more of his classmates when he gets his own plane. Dr. and Mrs. Martin have one son and three daughters.

Dr. James F. Olley, 25 Linden Ave., N.E., Atlanta 3, Ga.

Dr. Olley was Assistant Professor of Pathology at Emory University until 1953 when he accepted the position of Pathologist at the Crawford W. Long Memorial Hospital. He is a Diplomate of the American Board of Pathology and a Fellow of the American Society of Clinical Pathologists and of the College of American Pathologists.

Dr. Lawrence T. Sprinkle, Box 218, Weaverville, North Carolina.

Dr. Sprinkle is beginning his 14th year as Vice Mayor of Weaverville. He is in general practice there and he and his wife have two sons and a daughter, 13, 11 and 10 years old.

1946

Dr. John L. Keller, 910-4th Ave. East, Williston, N.D.

Dr. Keller will join the staff of Geisinger Medical Center, Danville, as an Associate in the Department of Obstetrics and Gynecology.

Dr. Joseph P. Mudd, Jr., c/o V.A. Hospital, Grand Junction, Colorado.

Dr. Mudd has joined the Surgical Staff of the Veterans Hospital in Grand Junction.

He had previously been in private practice in Birmingham, Alabama and had been associated on a part time basis with the Veterans Hospital there.

Dr. Harry A. Stone, 17 Crescent Peak, Chattanooga 4, Tenn.

Dr. Stone has been appointed 1962 Chairman of the Chamber of Commerce's Health and Sanitation Committee. He is certified by the American Board of Surgeons and is a member of the Hamilton County Medical Society and Chattanooga Academy of Surgeons. Dr. and Mrs. Stone are the parents of two sons and one daughter.

1947

Dr. Michael Bucan, Shavertown, Pennsylvania.

Dr. Bucan has been reelected Secretary of the Medical Staff of Wilkes-Barre General Hospital. He has currently been assigned to surgical service.

Dr. John J. Gaffney, 609 Sanderson St., Throop, Pa.

Dr. Gaffney is now practicing Internal Medicine in Throop, Pa.
1948

Dr. Edward A. Felder, 1089 Post Road, Darien, Connecticut.

Dr. Felder writes that he is practicing in Darien and has recently been appointed Medical Advisor to the Colonial Research Institute, which is a non-profit research organization confined to the study of Gerontology. Dr. and Mrs. Felder have three children, 11, 8 and 6.

DR. JOHN B. GEARREN, 100 Farnsworth Ave., Bordentown, N.J.

Dr. Gearren is in General Practice in Bordentown, N.J. He and his wife have three children, John, 11, Michael, 9, and Candace, 8.

DR. CHARLES C. GOODMAN, Forge Road, North Kingstown, R.I.

Dr. Goodman continues as Chief Clinical Psychiatrist of Rhode Island’s Mental Hygiene Services. Dr. and Mrs. Goodman have five children from ages 12 to 1, including twin girls 6 yrs. old.

DR. JOHN E. HUGHES, 2 Lunar Road, Trenton 8, N.J.

Dr. Hughes has been named Full Attending Surgeon on the staff of Riverside Hospital. He has served on the Surgical Staffs of Mercer Hospital, Trenton, the New Jersey State Reformatory at Bordentown and, since 1960, of Riverside Hospital. He is a Diplomate of the American Board of Surgery and a Major in the U.S. Army Medical Corps Reserve.

DR. CLIFFORD B. LULL, JR., 296 Jefferson Blvd., Braddock Heights, Md.

Dr. Lull has been appointed to the Radiology Department of Frederick Memorial Hospital. He is a Fellow in the American College of Radiology and is certified by the American Board of Radiology.

DR. JOHN L. MCCORMACK, 4037 86th Ave., S.E., Mercer Island, Washington.

Dr. McCormack writes, "The specialty of Urology has proved very interesting and professionally satisfying. Our Urologic group has been honored by the association of another Jefferson Alumnus—Dr. Ronald Tocantins, who also finds Seattle and the Northwest an enchanting area. We are hoping to renew acquaintances with many classmates who might come to visit the Seattle World’s Fair this summer."

DR. JAMES J. O’CONNOR, 412 Haven Lane, Clarks Summit, Pa.

Dr. O’Connor has been elected President of the Medical Staff of St. Joseph’s Children’s and Maternity Hospital, Scranton.

DR. C. JULES ROMINGER, Misericordia Hospital, Philadelphia 43, Pa.

Dr. Rominger, Director of the Department of Radiology at Misericordia Hospital, who also serves as Associate Therapeutic Radiologist at the American Oncologic Hospital, was a member of a panel which discussed “Peripheral Vascular Disease” at a recent meeting of the Luzerne County Medical Society.

1949

DR. L. CRAIG MACBETH, 68 Vose Avenue, South Orange, N.J.

Dr. Macbeth has recently been appointed one of three school physicians for the city of Orange. He and his wife have three children, 10, 8 and 5.

DR. H. PHELPS POTTER, JR., Woman’s Medical College, Philadelphia 29, Pa.

Dr. Potter is Assistant Professor of Medicine and Head of the Gastrointestinal Section at Woman’s Medical College.

1950

DR. IRWIN N. PERR, LL.B., 12200 Fairhill Rd., Cleveland 20, Ohio.

Dr. Perr has recently opened an office at Ingleside Hospital in Cleveland for the practice of Psychiatry, having been certified in that specialty by the American Board of Neurology and Psychiatry. He has also opened an office in the Lawyers Building in Cleveland from which he will conduct his law practice.

DR. ROBERT K. WORMAN, Macha Mission Hospital, Chena, Northern Rhodesia.

Dr. Worman has accepted an appointment to serve at the Macha Mission Hospital near Chena in Northern Rhodesia. He and his wife and four children sailed for Africa in January.

1952

DR. DAVID M. BARRY, 596 Hope St., Providence 6, R.I.

Dr. Barry is happy to say that everything is going fairly well in Providence. He recently passed his Boards in Neurological Surgery and is keeping busy at several hospitals, at two of which he is Chief of Service.

DR. JAMES P. COMERFORD, 432 E. Sierra Madre, Sierra Madre, Calif.

Dr. Comerford writes, "Since February 1957, I’ve been in a Group-Practice here in Sierra Madre, a small town of 10,000 people, on the outskirts of the Pasadena area. At present, there are six of us in this Group—four are partners and the other two are our associates. Our offices are in a building next door to and owned by the Sierra Madre Community Hospital Foundation, of which I am a Trustee and member of the Board of Directors. This hospital is a small 30 bed, Non-Profit Community Hospital which is fully accredited. This past year, I have served as Chief of Staff of the hospital. We have 48 men on our staff, several of whom are also Jefferson Alumni, though some years ahead of our class.

“Since 1957, my practice has undergone some changes, in that I have moved more and more into Anesthesia. At present, about 75% of my time is spent in Anesthesia and 25% in general practice, to the total exclusion of Surgery and Obstetrics. And believe me, I like it very much this way. I doubt that I will make it back to Philadelphia next June for our 10th Class Reunion. It would be nice, though, to see everyone again. I’ve only been back to Pennsylvania once since moving to California in 1954."

DR. RAYMOND L. CUNNEFF, JR., 76 Branch Ave., Red Bank, New Jersey.

Dr. Cunneff writes that after finishing his Orthopedic Training at New York Orthopedic Hospital he opened a practice in Red Bank, New Jersey. He has recently become a Diplomate of the American Board of Orthopedic Surgery.
Dr. Michael I. Dooley, Diamond Rock Hill, Malvern, Pa.

Dr. Dooley is now in Radiology at Phoenixville Hospital, Pa. He recently won a house in Florida on a TV program. Dr. and Mrs. Dooley have five children.

Dr. Paul L. Hermany, 1705 S. 4th Street, Allentown, Pa.

Dr. Hermany writes, "After internship and one year of Medical residency, I began to practice General Medicine in this city. It took quite some time to develop a practice in this area which is overcrowded with specialists in every field. However, we have made some progress now after 7½ years and in many respects it has been rewarding. We have four wonderful children—3 boys and a girl—and they all seem to like living here."

Dr. Oscar G. Hoerner, 218 E. Main Street, Mechanicsburg, Pa.

Dr. Hoerner writes, "My previous two-man partnership in general practice has as of January become a three-man practice and at the earliest possible date we hope to make it four. We bought another property and converted the old but nice house into sort of a clinic. I shot a buck which had a rather tremendous rack, on the last day of the season in Juniata County. We have three daughters—aged 8, 6, and 10 months. The only boys are me and the two dogs, a Brittany and a poodle pup."

Dr. Kurt E. Lauser, 47 E. 67th Street, New York 21, N.Y.

Dr. Lauser is in private practice of Internal Medicine. He finished residency training at Kingsbridge V.A. Hospital, Bronx, N.Y. in June 1959. Dr. and Mrs. Lauser have a daughter, Jean, aged 2½ years.

Dr. Alvin Merkin, 5555 Wissahickon Ave., Philadelphia 44, Pa.

Dr. Merkin writes as follows: "We now have three girls, Dale 5½, Eve 3 and Stacey 9 months. This past July I gave up my general practice in Miami Beach and returned to P.G.H. to complete my residency in Anesthesiology. I had taken one year in Miami Beach back in 1953 and finally decided it was time to give up G.P. and complete my Residency. I'll be finishing up this July, and then plan to find an opening in Anesthesia in the Philadelphia area."

Dr. F. Bruce Peck, Jr., Indianapolis General Hospital, 960 Locke Street, Indianapolis 7, Ind.

Dr. Peck has been promoted by Eli Lilly and Co. to the post of Senior Physician. He became associated with Lilly in 1954 and was first a Resident Physician in the Lilly Clinic at Marion County General Hospital. He is now in the Clinic Research Division of that company.

1954

Dr. Jerome Dersh, 232 North Fifth Street, Reading, Pa.

Dr. Dersh writes, "All is going well in my practice of Ophthalmology here in Reading. Enjoyed the recent news bulletin about fellow classmates and their present positions. Will try to make the next reunion."

Dr. Thomas A. Hodge, Kaiser Permanente Hospital, 1425 S. Main St., Walnut Creek, Calif.

Dr. Hodge has completed his residency in General Surgery and took his Boards in May, 1961. He says that he is still single, with no prospects.

Dr. Merle H. Katzman, 101 Coppell Drive, Tenafly, N.J.

Dr. Katzman has set up private practice in Englewood, N.J. He and his wife have two daughters.

Dr. Koretsky has been elected a Fellow of the American Academy of Pediatrics. He has been in private practice for two and a half years and says he enjoys most aspects of Pediatrics.

Dr. Stanley N. Levick, Albert Einstein Medical Center, Northern Division, York & Tabor Road, Philadelphia, Pa.

Dr. Levick gave a paper reporting on new techniques for treatment of certain cancers of the eye before the 14th Annual Clinical Conference of Wills Eye Hospital. He is a Clinical Assistant at Albert Einstein Northern Division and an Instructor of Medicine at Temple Medical School.

Dr. Nelson F. Mouri, 4034 Westaway Drive, Lafayette Hills, Pa.

Dr. Mouri writes, "I am practicing Internal Medicine in the Germantown-Chestnut Hill area, and live in Lafayette Hills. We have two children, ages 7 months and 4 years. I am most happy to report that I was recently certified by the American Board of Internal Medicine."

Dr. Billie Howard Putman, 210 Valley Vista Drive, Jackson, Mississippi.

Dr. Putman has recently been appointed to the position of Assistant Professor of Anesthesiology at the University of Mississippi Medical Center. Dr. Putman had been in private practice in Eupora, Mississippi until he went to Mississippi Medical Center for a Residency in Anesthesiology.

He is a member of the Central Medical Society, the Mississippi State Medical Society, the American Medical Association, the Southern Medical Society, the Mississippi Society of Anesthesiologists and the American Society of Anesthesiologists.

Dr. Putman is married to the former Dorothy Zelle Davis and they have three children.

Dr. Wyant J. Shively, St. Mary's Hospital, Evansville, Ind.

Dr. Shively, former Pathologist at the Veterans Administration Hospital in Louisville, Ky., has been named Associate Pathologist at St. Mary's Hospital in Evansville, Indiana. He has taught Pathology both at U.C.L.A. and at the University of Louisville. Dr. Shively is a Diplomate of the American Board of Pathology and a member of the American Medical Association. He is married and the father of four children.

Dr. John M. Wapner, 128 Oakland St., Wellesley Hills, Mass.

Dr. Wapner is presently at the Massachusetts Eye and Ear Infirmary on a F-
lowship of the Retina Service. In July he completed a three year residency in Ophthalmology. In July of 1962 he hopes to go into private practice but so far has not picked a location.

**Dr. Joseph M. Winston, 54 Overhill Rd., Bala-Cynwyd, Pa.**

Dr. Winston writes, "I finished residency in Radiology at the Hospital of the University of Pennsylvania in June 1960. Was on the junior staff of the Radiology Department at U. of P. from July, 1960 to November 1961. Passed my Boards in Radiology and Nuclear Medicine. Moved to Jeanes Hospital in November and love it there. We had our second child, Andrew, in April."

**1955**

**Dr. Domenic F. Coletta, 904 Western Branch Blvd., Portsmouth, Va.**

Dr. Coletta writes, "I am completing my 5th year with the U.S. Navy and during the past year have been Board Certified in Anatomic and Clinical Pathology."

**Dr. J. Hubert Conner, 439 Lynnhooker Rd., Springfield, Pa.**

Dr. Conner has been in the private practice of Orthopedic Surgery in Chester, Pa. with another Jefferson Alumnus, C. W. Eskey, since July, 1960. His family now numbers four, with two boys, John E. and Steven P., and two girls, Dorothy Louise and Janice Lynn.

**Dr. Joseph A. Heaney, 405 W. Abbottsford Rd., Philadelphia 44, Pa.**

Dr. Heaney has opened an office for the practice of General Medicine and Obstetrics. He is a member of the staffs of Memorial Hospital, St. Joseph’s Hospital and Hahnemann Hospital. He and his wife have two sons and two daughters.

**Dr. Joseph P. O’Connell, Lt. Cmdr. (MC) USN, USNH Portsmouth, Va.**

Dr. O’Connell received his Boards in Anatomic and Clinical Pathology in Oct. 1960. He is now completing his military obligation at the Naval Hospital in Portsmouth, Va. and is a Lieutenant Commander. Dr. and Mrs. O’Connell have 5 daughters.

**Dr. Robert Pathroff, 457 Easton Rd., Horsham, Pa.**

Dr. Pathroff has been in general practice for four years. He is in partnership with another Jefferson alumnus, Chas. T. B. Coyne, ’54. Dr. and Mrs. Pathroff have two children, Bobby, six and Jan, four. All are in good health and enjoying the rigors of a rural country practice.

**Dr. John T. Schwartz, University of Missouri Medical Center, Dept. of Ophthalmology, Columbia, Mo.**

Dr. Schwartz has accepted a full-time staff appointment as Assistant Professor of Ophthalmology at the University of Missouri School of Medicine.

**Dr. Alvin Singer, c/o Mr. Edward Kanter, 1415 S. 65th Street, Philadelphia 43, Pa.**

Dr. Singer, who is Director of the Biophysical Research Laboratory at American Electronics Laboratories, Inc., spoke on Medical Electronic Diagnosis at a meeting of the Armed Forces Communications and Electronics Association.

**1956**

**Dr. Peter B. Fisher, 1753 17th Loop, Sandia Base, Albuquerque, New Mexico.**

Dr. Fisher is a Captain (M.C.) at U.S.A.H., Sandia Base, Albuquerque, N.M. and is a general surgeon. He finished his residency in June at Houston. He and his wife have 3 children—Susan Beth, 3 yrs.—Paula Karen, 2 yrs. and John David, 1 yr.

**Dr. Karl G. Klinges, 2524 Knox Dr., Del City, Oklahoma.**

Dr. Klinges is head of Obstetrics and Gynecology at Tinker A.F.B. Oklahoma. He and Mrs. Klinges have five children, Mollie, Jane, Mauri, Susie and Karl, Jr.

**Dr. Robert C. Magley, 729 W. Highland Ave., Ebensburg, Pa.**

Dr. Magley has been named Chief of Staff of Miner’s Hospital, Spangler, Pa.

**Dr. Constantine L. Nellas, 1806 E. 6th Ave., Beaver Falls, Pa.**

After a 3 year tour in Japan, Dr. Nellas was discharged from the Air Force in May, 1961. He is now in his 2nd year of an Internal Medicine Residency at the University of Pittsburgh and will take an additional year of Residency at the Cleveland Clinic.

**Dr. Edward V. Niklewski, 8803 Wellen Rd., S.W., Tacoma 99, Washington.**

Dr. Niklewski has completed a three year Psychiatrist Residency at Norristown State Hospital. He is currently serving in the U.S. Army in the Dept. of Neuro-Psychiatry at the Madigan General Hospital, Tacoma, Washington. Dr. and Mrs. Niklewski have three children.

**Dr. Vincent S. Oliva, U.S. Naval Hospital, Camp Pendleton, Calif.**

Dr. Oliva has been transferred to U.S. Naval Hospital, Camp Pendleton, Calif. and has successfully passed his Board exams in Radiology and Nuclear Medicine.

**Dr. David C. Schechter, 665 Albion Street, Denver, Colorado.**

Dr. Schechter has recently been named by the National Foundation as the recipient of a Fellowship award for post-
graduate study and training under Sir Russell Brock in England and Professor Charles Dubost in France.

Dr. Schechter’s preceptorship in Thoracic and Cardiovascular surgery will start at the Institute for Diseases of the Chest at the Brompton Hospital in London and he will later continue his work at the Hospital Broussais and the Clinique Chirurgicale Marie-Lannelongue in Paris.

During his sojourn in Europe, Dr. Schechter will translate the book “Chirurgie a Coeur Ouvert” by Drs. Dubost and Blondeau, so that English and French editions will appear in print simultaneously. He will return to the United States in July, 1963 to resume and complete his residency in General Surgery at the University of Colorado Medical Center in Denver.

1957

Dr. Franc Brodar, P.O. Box L, San Manuel, Arizona.

After one year of Pathology residency in San Diego and five months of private practice in Richmond, Calif., Dr. Brodar has become associated with San Manuel Copper Corporation. He has two daughters, Miriam age three and Marilyn age one.

Dr. Anthony L. Centrone, Thomas M. Fitzgerald Mercy Hospital, Darby, Pa.

Dr. Centrone has finished his Ob-Gyn Residency at Fitzgerald Mercy Hospital in Darby, Pa. He is Assistant Chief at P.G.H. on the Jefferson Gynecology Service. Dr. Centrone is married and has three children, Mark Dennis 3½, Anthony Lawrence, Jr. 2½ and Ann Marie 1 yr.

Dr. Joseph D. Cionni, 5723 Kenneth Ave., Cincinnati 24, Ohio.

Dr. Cionni is currently in his second year of a Pediatrics residency at the Children’s Hospital, Cincinnati, Ohio.

Dr. Ernest H. Coleman, Jr., 801 N. 2nd Street, Harrisburg, Pa.

Dr. James E. Culbert, 1807 "A" Kings Court, Columbus 12, Ohio.

Dr. Culbert is currently in a Radiology Residency at Ohio State University Hospital.

Dr. William J. Galligan, 947 Concord Ave., Drexel Hill, Pa.

Dr. Galligan is in the practice of Internal Medicine in Drexel Hill, Pa.

Dr. Joseph A. Glick, 1303 Foulk Road, Wilmington 3, Del.

Dr. Glick is in his third year of General Practice. He has three children.

Dr. Edward R. Green, 819 Shaw Street, Utica, N.Y.

Dr. Green is presently a Resident in Orthopedic Surgery at Utica Children’s Hospital.

Starting July 1, he will be Chief Resident in Orthopedics at Upper New York State Medical Center, Syracuse, N.Y.

Dr. John F. Kennard, 2120 Ogden Avenue, Clearfield, Pa.

Dr. Kennard is starting General Practice in Clearfield, Pa.

Dr. Charles L. Knecht, Jr., 3125 South Drive, Allentown, Pa.

Dr. Knecht has been associated with the X-ray Dept. of the Allentown Hospital since July 1, 1961 as an Associate Radiologist.

Dr. Stanley L. Kocot, 28 Sherwood Hill Drive, Holden, Massachusetts.

Dr. Kocot writes that he began practice in Internal Medicine and Cardiology in July, 1961 and is on the Staff of St. Vincent’s Hospital in Worcester. He and his wife now have four children; three girls and a boy.

Dr. Gerald Labriola, 598 Forrestal Ave., Quonset Point, R.I.

Dr. Labriola is Chief of the Department of Pediatrics at Quonset Point Naval Air Station, R.I. He will start private practice in Pediatrics in Naugatuck, Conn. in July, ’62.

Dr. Michael A. Oriente, 918 Catharine Street, Philadelphia 47, Pa.

Dr. Oriente is presently in general practice in South Philadelphia. He is married to the former Isolon Morano and they have a baby girl, born in September, 1961.

Dr. John R. Prehatny, 615 Cypress Avenue, Yeardon, Pa.

Dr. Prehatny resumed Surgical residency at Jefferson after spending two years as a surgeon in the U.S. Air Force. He and his wife have two girls and a boy.

Dr. John R. Sabol, Children’s Hospital, 1740 Bainbridge Street, Philadelphia 46, Pa.

Dr. Sabol will finish his Orthopedic Residency in July of ’62. He is married to Louise Justin who is a second year Eye Resident.

Dr. Robert H. Schwab, Georgetown University Hospital, Washington, D.C.

Dr. Schwab has received a Fellowship in Cardiology at Georgetown University Hospital in Washington, D.C.

Dr. Penn P. Shelley, Roxbury Medical Group, 77 Sunset Strip, Succasunna, N.J.

Dr. Shelley has recently become a member of the Roxbury Medical Group. He studied for one year in Internal Medicine at Geisinger Medical Center. Dr. Shelley is an associate member of the Morris County Medical Society and is on the courtesy staff of the Dover General Hospital.

Dr. John A. Swenson, 2235 Parkwood, Ann Arbor, Mich.

Dr. Swenson is in a two year residency in Cardiology at the University of Miami.

Dr. Donald P. Yadusky, Capt. 05518196, P.O. Box 152, 98th Med. Hosp. G 1000 B CZ, A.P.O. New York 34, N.Y.

Dr. Yadusky left Mayo Clinic in October, ’61. He is now stationed at the 98th Medical Hospital—(Army)—Neubrucke, Germany. His wife and baby joined him in February.

1958

Dr. John T. Antolik, 205 N. White Horse Pike, Somerdale, N. J.

Dr. Antolik writes, “I have recently completed my tour of duty as a Captain (M.C.) in the U.S. Army. I finally
opened my office in Somerdale, N.J. We have two boys, John Jr. and Gregory, and a daughter, Josephine."

DR. WARREN J. GREENBURG, 613 Indiana Ave., Farrell, Pa.

Dr. Greenburg writes, "Starting to get busy in practice and am working with Sharon Steel Corporation as plant physician. Our boys are 1 1/2 and 2 1/2 years."

DR. ELMO J. LILLI, 594 East Broad Street, East Stroudsburg, Pa.

Dr. Lilli is in General Practice in E. Stroudsburg, Pa. and recently bought a home and equipped an office.

DR. ALBERT B. WOLBACH, JR., 915 W. Main Street, Ephrata, Pa.

Dr. Wolbach completed two years with the U.S. Public Health Service in August. While in Kentucky, he worked at the Narcotic Hospital in the research department. On October 2, he started general practice in the office of the late Dr. Carl H. Myereley. Dr. Wolbach originally planned an association with Dr. Myereley, but unfortunately the latter died suddenly in June. Dr. and Mrs. Wolbach have two daughters.

1959

DR. JOSEPH BAKA, St. Luke's Hospital, 11311 Shaker Blvd., Cleveland, Ohio.

Dr. Baka is a 2nd year Orthopedic Resident at St. Luke's Hospital in Cleveland, Ohio. Dr. and Mrs. Baka's second child, a boy, was born on August 5, 1961 and named Joseph Jeffrey.

DR. CHARLES L. BRODHEAD, JR., U.S.N. Hospital, c/o F.P.O. 961, San Francisco, Calif.

Dr. Brodhead writes, "Enjoying our work here in the Philippines. Residency training in Surgery has been approved by the U.S. Navy Bureau of Medicine and Surgery and will commence in August, 1962."

Dr. Gorby has recently been appointed Director of the Division of Pharmacology of E. R. Squibb and Sons and will be located in Newark, New Jersey. He has resigned as Head of the Drug and Narcotic Section of the Pennsylvania Department of Health.

Dr. Gorby graduated from the Philadelphia College of Pharmacy and Science in 1951 and then attended Jefferson. He received his Ph.D. in Pharmacology in 1955 and his Doctor of Medicine degree from Jefferson in 1959.

DR. ARCHIBOLD M. JONES, JR., 2924 Burnet Ave., Apt. #2, Cincinnati 19, Ohio.

Dr. Jones writes, "By July 1, 1962, I will have completed my Pediatric Residency at the Cincinnati Children's Hospital. I subsequently plan on setting up practice in Marietta, Ohio."

DR. EDWIN M. MARCUS, 2050 N. Rodney Drive, Los Angeles, Calif.

Dr. Marcus has started his first year of Urology Residency at Kaiser Hospital, Los Angeles, Calif. Coincidence—Ronald Collier, '57 is Chief, (3rd yr.) Resident.

Since November, 1960 Captain Molina has been stationed in Pusan, Korea where he is assigned to the Army Advisory Group and acts as Medical Advisor to five Republic of Korea Army Hospitals. Dr. Molina's wife and two children are with him in Korea and are enjoying the tour but are anxious to return to the States. His present plans are to leave the Service this fall and begin General Practice in the Allentown, Pa. area.

DR. SAMUEL L. STOVER, Soe via Kupang, Island of Timor, Indonesia.

Dr. Stover writes that he and his family are now located on the Island of Timor, Indonesia where they have come under a Medical Mission Program. Dr. Stover says that the medical needs of the area are overwhelming and since it is difficult to practice 20th century medicine with 15th century equipment, drugs, and sanitation the work is a challenge indeed.

DR. ELLIOT ZELEZNK, U.S.P.H.S. Out Patient Clinic, Los Angeles 12, Calif.

Dr. Zeleznik will be starting an Ob-Gyn Residency at the Methodist Hospital this coming July. A second son was born, named Stephen Asher, on April 12, 1961.

1960

DR. JAMES D. BRUBAKER, USPHS-ANS Hospital, Bethel, Alaska.

Dr. Brubaker is engaged in a general type practice at Bethel, Alaska, in a 3-doctor, 59-bed USPHS facility devoted to providing medical care for 10,000 Eskimos and Indians scattered over a 98,000 sq. mi. corner of the state. For those who cannot come to the hospital, medical advice is dispensed via short-wave radio-telephone, and field clinics are held in outlying villages reached by airplane and dog team.

A second daughter, Laura Christine, was born October 7, 1961.

DR. GORDON R. COHEN, 162 B Delmont Ct., Lexington, Ky.

Dr. Cohen is in his 1st year of residency in Psychiatry in the U.S. Public Health Service at the Lexington U.S.P.H.S. Narcotics Hospital. He was married in June, 1960 to Joan C. Rose of Philadelphia and now has a son, Joshua David, born July 12, 1961.

DR. ERNEST C. DUNN, Thomas M. Fitzgerald Mercy Hospital, Lansdowne Ave. and Bailey Rd., Darby, Pa.

Dr. Dunn is taking a Radiology residency at Fitzgerald Mercy Hospital.

Dr. Fleckner writes, "I am presently a Captain in the U.S. Air Force, in the Division of Aerospace Medicine. Our family now boasts a daughter, Marcia Susan, born Sept. 29, 1961—in addition to a 2 yr. old son.

DR. WILLIAM F. HUSHION, 1717 West Chester Pike, Havertown, Pa.

Dr. Hushion has opened an office for general practice in Havertown, Pa. A baby boy named Jeffrey Joseph joined their family on August 15, 1961.
Engagements, Weddings and Births

Engagements

1946

Dr. Joseph Mazmanian, 83 Traincroft, Medford 55, Mass.

The engagement of Dr. Mazmanian to Miss Gladys Asdikian, of Arlington, Massachusetts, has recently been announced. Dr. Mazmanian is on the staff of Lawrence Memorial Hospital in Medford.

1957

Dr. Penn F. Shelley, Roxbury Medical Group, 77 Sunset Strip, Succasunna, N.J.

Dr. Shelley, who is a member of the Roxbury Medical Group, became engaged to Marilyn Dee Pieper in January, 1962. A summer wedding is planned.

TO THE STUDENTS OF JEFFERSON

OUR MEDICAL COLLEGE WAS ESTABLISHED IN 1829 THROUGH THE VISION, INITIATIVE, AND GENEROSITY OF A SMALL GROUP OF PHYSICIANS. LOYAL ALUMNI AND FRIENDS HAVE SINCE CONTRIBUTED THEIR SUPPORT AND TRADITIONS. THESE BENEFICIORS ASK NO RETURN SAVE THAT YOU MAKE THE MOST OF THE OPPORTUNITIES THEY HAVE HELPED TO PROVIDE, AND THAT YOU, AS FUTURE ALUMNI, CARRY ON THEIR FAITH IN YOU, IN MEDICINE, AND IN JEFFERSON.

THE ALUMNI OF JEFFERSON
