"Did I have that one correct?"

At the end of each examination the question sheets with correct answers are posted on the Physiology bulletin board: this permits each student to determine his own performance.
**Doctor**

*How Is Your Health??*

**COMPLETE PHYSICAL EXAMINATION**

**SCREENING LABORATORY STUDIES**

**AVAILABLE**

**FOR ALUMNI**

The Alumni Association is pleased to announce that the facilities of the Jefferson Medical College Hospital will be available to Alumni for physical examinations and screening laboratory studies without charge June 10, 1963 prior to Graduate Assembly and Alumni Reunion activities.

Examinations will be limited to the first 50 Alumni who make reservations by writing to:

**BENJAMIN HASKELL, M.D.**

Alumni Office—Jefferson Medical College

1025 Walnut Street

Philadelphia 7, Pennsylvania

Notification of your appointment (place and time) for examination and laboratory studies will be sent upon receipt of your reservation.

VOLUME XIII
Number 2

Mrs. Joseph J. Mulone, Executive Secretary
Mrs. Christine Campbell Brown, Associate Editor
Alumni Office of The Jefferson Medical College
1025 Walnut Street, Philadelphia 7, Pa.
THE DEPARTMENT

THE primary function and purpose of the Department of Physiology is to teach physiology to the first year students so that they may eventually practice medicine intelligently. Since, in recent years, the practice of medicine has, to a greater extent than ever before, come to involve the application of physiological principles and methods to the problems of diagnosis and treatment of disease, the Department has heavy and steadily increasing responsibilities. The need of the modern practitioner for physiological knowledge is indeed so great that it cannot possibly be met in the teaching time allotted. . . . All in all, we believe that Jefferson students learn as much physiology as the students of any medical school; but we are far from being satisfied with this achievement. We are convinced that better physiology means better practice. Eventually, we think, applied physiology will need to be taught to junior or senior students on an organized basis, either by the present department or by a group comprising interested members of several departments but under the direction of a qualified physiologist.

The above paragraph should have been placed within quotation marks because it was taken from an article by Dr. J. Earl Thomas, now Emeritus Professor of Physiology, which appeared in the March 1950 issue of the Jefferson Alumni Bulletin. Entitled "A Report on the Activities of the Department of Physiology," the article prophetically stated some of the present philosophy of the Department. The underlying concepts of medical teaching still remain but the scope and objectives have been widened.

The activities of the Department of Physiology cover medical student instruction, graduate and post-graduate instruction, graduate research training, and research. This report covers these areas briefly and attempts to indicate some lines of future progress.

PERSONNEL

Academic

M. H. F. FRIEDMAN, Ph.D., Professor and Head of the Department
STEFAN M. HORVATH, Ph.D., Visiting Professor
KARL E. BEYER, Ph.D., Professorial Lecturer
SAMUEL S. CONLY, Jr., M.D., Associate Professor
EUGENE ABERNER, Ph.D., Associate Professor
DANIEL L. GILBERT, Ph.D., Associate Professor
LOUIS A. KAZAL, Ph.D., Assistant Professor
DOMENIC A. DEBIS, Ph.D., Assistant Professor
JUNE N. BARKER, Ph.D., Assistant Professor
DONALD DEMLING, Ph.D., Assistant Professor
ADOLPHE T. GREGOIRE, Ph.D., Assistant Professor
ALBERT H. PEARCE, V.M.D., Instructor
FRANK JACOBSON, Ph.D., Visiting Lecturer
A. D. BENDER, Ph.D., Visiting Lecturer

MARTHA CROWLEY
H. F. FRIEDMAN, Professor of Physiology and Head of the Department, holds the degrees of B.S., McGill, 1930; M.A., Western, 1932; and Ph.D. in Physiology, McGill, 1937. He came to Jefferson as Associate in 1941 and was made Professor of Physiology in 1954 and Head of the Department in 1958. Dr. Friedman’s earlier research was on the lethal effects of hypothermia, experimental shock and hypertension, and comparative physiology of digestion. He later studied experimental ulcer and also gastrointestinal hormones, developing chemical procedures for purification of secretin which led to the first commercially available secretin in the country. He collaborated with Dr. Thomas in some of the latter’s studies on pancreatic function and autoregulatory mechanisms. At present he is studying other gastrointestinal mechanisms with graduate students and, in collaboration with Dr. Kramer of the Department of Radiology, is investigating the intestinal effects of total body radiation. He has developed a diet which affords a very high degree of protection against lethal whole body doses of gamma radiation in rats and mice.

Samuel S. Conly, Jr., Associate Professor of Physiology,
and Assistant Dean, graduated from Lafayette, A.B. 1941, and from Jefferson, M.D. 1945. He has done significant research work on pancreatic functions and electrolyte balance and the effects of autonomic blockade on secretion. His role as Assistant Dean has restricted greatly the time he can devote to physiology. He maintains, however, a keen interest in aerospace physiology and lectures to the students on this phase of applied physiology.

Eugene Aserinsky, Associate Professor of Physiology, obtained the degree of Ph.D. from the University of Chicago in 1953. He has made significant contributions in several areas of neurophysiology, especially the physiology of sleep, activity of the spinal cord, retinal potentials in man, eye movements during sleep, the pathophysiologic effects of electric shock and the nature of

Domenic DeBias, Ph.D., Assistant Professor of Physiology, demonstrates low pressure chamber used to expose animals to simulated altitudes as high as 100,000 feet.

Samuel S. Conly, Jr., M.D., Associate Professor of Physiology and Assistant Dean

rhythmic biologic phenomena in man. His recent studies in collaboration with Dr. DeBias on the mechanism of the oculocardiac reflex received wide attention among anesthetist groups.

Daniel L. Gilbert, Associate Professor of Physiology, was educated at Drew University, A.B. 1948; University of Iowa, M.S. 1950; and University of Rochester, Ph.D. in Physiology, 1955. Dr. Gilbert is a biophysicist whose major studies have been on membrane permeability, the influence of X-irradiation on oxygen poisoning, magnesium and calcium equilibrium in muscle, and ion distribution and membrane potential during a steady state. He has formulated a most interesting concept of the limiting factors of the atmosphere in evolution and his work on organic peroxides in radiobiology may afford a clue to radiation toxicity.

Domenic A. DeBias, Assistant Professor of Physiology, received the B.A. and M.A. degrees from Temple and the Ph.D. degree in Physiology from Jefferson in 1956. His research interests have been mainly in the field of endocrinology. His earlier studies were on adrenal and
Daniel Gilbert, Ph.D., Associate Professor of Physiology, discusses factors governing transmembrane distributions.

thyroid functions and stress physiology; in the past three years he has been working on hormonal factors relating to high altitude endurance. This work is naturally of interest to the Air Force and promises to have practical applications.

June N. Barker, Assistant Professor of Physiology, graduated from the University of Rochester, B.A. 1952, and did graduate work at Duke, obtaining the M.A. degree in 1954 and Ph.D. degree in Physiology in 1956. Electrolyte and water metabolism has been one of her principal interests. Her present research is in fetal physiology. She has been actively investigating intrauterine fluid balance, and circulatory and respiratory conditions required for normal fetal brain development, and renal functions in the fetus. Recently, at the request of the Federal Aviation Agency, she and her co-workers undertook the study of cerebral metabolic factors in psychomotor fatigue. One of Dr. Barker's achievements is the

Eugene Aserinsky, Ph.D., Associate Professor of Physiology, and student subject in electrically shielded room. Electrodes are being adjusted for taking EEG and electromyograph potentials on recording equipment located outside room.
development of ultra microtechniques which permit analyses of minute quantities of fluid and tissues.

Donald B. Doemling, Assistant Professor of Physiology, obtained undergraduate schooling at St. Benedict's College, B.S., 1952, and did his graduate work at the University of Illinois, M.S., 1954 and Ph.D. in Physiology 1958. He has been interested in factors affecting inflammation, lymph formation and lymph flow and intestinal absorption of large molecules. He has developed a surgical technique for establishing a chronic thoracic duct cannula in the dog: this refined procedure permits for the first time uninterrupted lymph collections for periods of several months.

Dr. Louis Kazal, Assistant Professor of Physiology, took his B.S. degree from Seton Hall in 1935 and Ph.D. degree in Biochemistry from Rutgers in 1940. He also holds an appointment in Medicine (Cardeza Foundation). His research work in the chemistry and biophysics of blood coagulation has appeared in more than 35 reports. He also has interests in other aspects of hematology, including hormonal and neurogenic factors of hemostasis.

Adolphe T. Gregoire, Assistant Professor of Physiology, obtained the B.A. degree in 1950 and M.S. degree in 1953 from the University of Connecticut and the Ph.D. degree in 1957 from Cornell. He holds a dual appoint-

chemistry of vaginal secretion, viability of sperm and the mechanism of ejaculation.

Albert H. Pearce, Jr., Instructor in Physiology, holds the degree in Veterinary Medicine (Penn, 1961). He is interested in mammalian physiology, particularly in visceral blood flow, and is now embarking on a study of the hemodynamics of the splanchnic area.

Paul Zimskind, M.D., NIH Postdoctoral Fellow in Physiology and Dr. Albert Pearce, instructor, are assisted by Mr. Peter Panajik, senior technician, at operation to establish ureter fistula in dog.
T}

HE lecture course in physiology is given to the first-
year students and comprises approximately 110
hours. As stated in the current College catalogue, the
course is designed to integrate with that given concur-
rently by the Biochemistry Department. While emphasis
is placed primarily on physiologic mechanisms in health,
the physiologic bases of dysfunctions are also studied.
Throughout the course guest lecturers from clinical de-
partments of Jefferson and other medical schools in the
country participate in introducing the student to various
aspects of applied physiology. Every opportunity is also
taken to have distinguished foreign physiologists address
the students. Among recent foreign physiologists who
spoke to the students were Professor Bjort Uvnas of the
Karolinsky Institute of Pharmacology, Stockholm; Pro-
fessor Sylvio Weidmann of the University of Bern,
Switzerland; Professor A. St. G. Huggett of St. Mary's
Hospital Medical School, London; and Dr. B. J. Scho-
field of Durham University Medical School, Newcastle,
England.

Sir Ernest Starling, one of the giants of British physi-
ology, wrote that "pathological phenomena are nothing
more than exaggerations of normal properties." Our
laboratory experiments were designed to give the student
some concepts of the limitations and ranges of normal
values and to enable him to determine at what point
deviations from this range may be considered as abnormal
or pathologic. Two experiments in cardiovascular physi-
ology may be cited as examples. One deals with experi-
mental production of cardiac tamponade while direct
observations are made on the exposed heart and the in-
fluence on blood pressure and cardiac output are de-
termined. Another deals with the effects of experimentally
increasing the intracranial pressure on the heart rate,
respiration, and blood pressure. Our instruction is
unique in having a very high proportion of student ex-
periments performed on mammals. With one exception,
all laboratory experiments are carried out on either dogs
or humans.

At an ever increasing rate, physiology is becoming a
quantitative rather than a descriptive or qualitative sci-
ence. Physiology is also entering into the study of proc-
eses at cellular and subcellular levels. These changes
have affected not only research but have also influenced
our medical student teaching. The oscillograph and other
transistorized electronic measurement apparatus are re-
placing the smoked paper kymograph and mercury
manometer dear to the memory of our alumni. Renal
physiology and digestive secretory processes, for example,
are now being taught in terms of membrane perme-

Experiment on peripheral venous circulation

(below) Evaluating physical fitness by the step test

ability, transport mechanisms, and water and electrolyte metabolism. The student laboratory is gradually acquiring modern teaching equipment and we hope to have completed our modernization program by the time we enter our new quarters in the Basic Science Building. In step with these advances, our department has become (as is the case in most physiology departments in medical schools) one of physiology and biophysics.

A detailed 350 page "outline" of the lectures in medical physiology and biophysics has been made available to each student to serve as a guide in the course. A printed edition of this outline will be issued by a
national medical book publisher at an early date. In addition, we published for student use a laboratory manual based on the most significant experiments carried out at Harvard, Western Reserve, Chicago, and other medical schools, and incorporating other experiments using recent laboratory techniques.

Several changes in the physiology curriculum were introduced with great benefits to the students. With the cooperation of the Department of Biochemistry, the schedules for the physiology and biochemistry courses were changed to permit more emphasis on laboratory instruction and to allow students to do physiology research projects. The research plans are formulated by the students and are subjected to minimal modification by the staff. The ideas and technical skills exhibited by many of the students are surprisingly good. Several student research studies would merit publication in the scientific literature if carried to completion. Whatever the outcome of their research, the students do learn that experimental data leading to sound conclusions cannot be obtained without careful planning of the experiment and the performance of a great deal of meticulous work.

Participation of medical students in departmental research programs during the summer has been encouraged. Each student receives a stipend. The student acts as a junior investigator (and not as a technician), working on some problem under staff supervision. The association of medical students with the graduate students who are working on related problems proves a rewarding experience for both groups.

**GRADUATE TRAINING**

A graduate training program in Physiology, leading to the degrees of Master of Science and Doctor of Philosophy, was instituted in 1949. Since then 38 students have been enrolled and 21 graduate degrees awarded. At present there are four students enrolled for the M.S. degree and 13 for the Ph.D. degree in Physiology, ranking Jefferson with the larger graduate physiology training centers. This June two students will be awarded the M.S. and three the Ph.D. degrees, while four additional Ph.D. candidates are expected to complete their training during the summer.

The research carried out by graduate students ranges over a wide field, and may be gauged by reference to the titles of a few of the dissertations:

*Acetylcholine Hydrolyzing Power of the Small Intestine of the Dog* (E. Polish),

*Studies on the Mechanism of Artificially Induced Ovulation in the Rabbit* (A. J. Begany),

*The Mechanisms Regulating the Gallbladder and Choledocho—Duodenal Junction* (R. B. Hanes),

*Nutritional Factors Influencing the Calorigenic Action of Thyroxine* (F. D. DeMartinis),

*The Effect of Glucagon On Lipid Metabolism and Ketosis in Normal and Depancreatized Dogs* (J. Z. Rutman),

*Thromboplastic Potency of Whole Blood Components* (S. Gollub),

*The Energy Requirements for Gastric Acid Secretion* (H. E. Appert),

*Physiologic Studies on Respiratory Obstruction* (M. A. Kilmore),

(below) Junior medical student Robert Mackowiak and Dr. Friedman discuss research project on influence of intragastric pressure on systemic blood pressure. This problem has engaged Mr. Mackowiak's attention since his freshman year.
In Vitro Studies on Smooth Muscle (M. F. Tansy), Phosphatidylserine: Studies on Mechanism of Action in Coagulation in the Thrombin-Fibrinogen Reaction (R. R. Holburn),
Iodine Secretion by Various Regions of the Dog's Stomach (L. W. Rosen),
Observations of Some Hemodynamic and Metabolic Aspects of the Hepatic Circulation in the Dog (A. D. Bender),
Studies on Bile Secretion: Effects of Cortisone and Hydrocortisone (J. H. Gans).

All graduate students have received financial support in the nature of pre- and post-doctorate fellowships, teaching fellowships, or research assistantships. These funds have been made available from the National Sciences Foundation, the National Institutes of Health, and Research Grant Projects from the NIH, Air Force, U.S. Army Quartermaster, and other agencies.

In addition to the lectures, conferences and laboratory courses offered to the medical students, the graduate students also select special advanced courses in physiology and cognate subjects. We assume that the graduate student working for an advanced degree intends to
enter into the academic field and to this extent he is given the opportunity in teaching physiology. The advanced graduate student spends a definite period of time as a junior instructor in the medical student laboratory.

The graduate program was established to train men in physiologic research and to provide a good background for men interested in academic medicine. As of last fall, two graduates hold responsible positions in the pharmaceutical industry and one is in private practice, but nine hold positions in medical schools with ranks of assistant professor or associate professor. This is an excellent record which promises to be continued by our forthcoming Ph.D. graduates.

The Department of Physiology offers several advanced courses for graduate and post graduate instruction. Included are a course in Gastrointestinal Physiology by Dr. Friedman, a course in Renal Physiol-
ogy by Dr. Barker, Assistant Professor of Physiology, and Dr. Karl Beyer, Professorial Lecturer in Physiology, and a course in Exercise Physiology, designed especially for residents in Orthopedics, by Dr. Douglas Bender, Visiting Lecturer in Physiology. A new course in Hemostatic Mechanisms will be given next year by Dr. Louis Kazal, Assistant Professor of Physiology and Associate Professor of Medicine (in the Cardeza Foundation).

Another type of postgraduate education in physiology of interest to us relates to teacher training. The amount of physiology which the medical student must know in order that he have a good foundation for his clinical years is vast. We find that the time allotted to learning medical physiology is insufficient, largely because of inadequate college preparation in biology. In several regions plans have been under way to "upgrade" college biology courses by offering high school and college teachers the opportunity of spending several months in the physiology department of a medical school. We have in the past been asked to participate, and believe that soon we will be in a position to do so.

An indirect start in this direction was made in 1960 by our department assuming responsibility for a course in Human Physiology at the Ogontz Campus of Pennsylvania State University. This consists of lectures at Ogontz with several demonstrations given in the Physiology Department. Enrollment has climbed from 23 students to 70 students this year.

RESEARCH

(right) Francis J. Sullivan, Ph.D., Teaching Fellow in Physiology, and Oscar Lucas, D.D.S., Postgraduate Trainee in Physiology, read potentiometer used in the determination of peripheral temperature and blood flow

FROM the very beginning, members of the Physiology Department and their associates in other departments have shown keen interest in the physiology of the gastrointestinal tract. Robley Dunglison, Professor of the Institutes of Medicine (the designation for what later came to be known as the Physiology Department) is credited with identifying hydrochloric acid in the gastric juice obtained by Dr. William Beaumont from the fistulous stomach of Alexis St. Martin. Dr. B. B. Vincent Lyon and Dr. Martin Rehfuss, although not members of the department, for many years utilized its facilities and worked in close collaboration with its members on re-
search problems in gall bladder evacuation, gastric secretion, duodenal functions, liver secretion and others.

Research as a full-time activity, however, did not develop until the coming in 1927 of Dr. J. Earl Thomas as Professor of Physiology. During the 29 years he remained here, until his retirement to California (where he is now Professor of Physiology in Loma Linda College of Medicine), his research established him as one of the foremost physiologists of our time. His work on the functions of the pyloric sphincter, the process of gastric evacuation, the regulation of intestinal peristalsis, and the mechanism of pancreatic secretion were all great advances in physiology. He embodied his findings in more than 100 research publications and a book on "The External Secretion of the Pancreas."

In 1930 Dr. Thomas was joined in his research by Dr. Joseph Crider who came to Jefferson as Associate Professor of Physiology and Assistant Dean. These two men formed a perfectly harmonious team which was broken by Dr. Crider's retirement in 1953 because of age and ill-health. Among Dr. Thomas' other collaborators were young Jefferson graduates who joined the department as Patterson Fellows in Physiology. Among others, these included J. Edward Berk, now Head of the Department of Medicine in the newly formed Medical College of California; Jack E. Pincus, now Chief of Medicine, Cedars of Lebanon Hospital, Los Angeles; C. Wilmer Wirts, Jr., now Professor of Clinical Medicine and Director of the Gastroenterology Clinic at Jefferson; Wm. J. Snape, now Assistant Professor of Medicine at Jefferson and Chief of Gastroenterology, Cooper Hospital, Camden, and Wm. D. Beamer, in gastroenterology practice in Saint Cloud, Florida.

The research interests of the present staff of the Department range over a wide field, as may be seen from the representative titles of more than 30 papers published during the past year.

"A Potent Intestinal Stimulant for Pancreatic Secretion (Other than Secretin or Pancreozymin)."

"Suppression of the Oculocardiac Reflex by Artificial Respiration."

"The Role of Pro-oxidants and Antioxidants in Oxygen Toxicity."

"Plasma Protein Factors of Circulating Thyroid Hormones and Thyroid Function in Rats."

"Hormonal Factors in the Rat's Tolerance to Altitude."

"Fetal Fluid and Electrolyte Environment."

"Effects of Salicylate on Prophylactic Counter-Irritation."

"The Presence of Inositol in Genital Tract Secretions of the Female Rabbit."

"Protection Against Experimental Hepatic Damage."

The research activities during the past five years lead to the conclusion that expansion in degree and scope is indicated. Besides trained technical personnel at the technician level, the addition to our staff of advanced independent investigators is desirable. We believe that
graduate and post-graduate student training would benefit immeasurably. Application for a research training grant is being made with the objective of broadening the base of our graduate program in physiology.

Research in physiology can no longer be regarded as a luxury or an expensive hobby. It has been repeatedly shown that the best environment for medical teaching is one where active research is being conducted. To this end the staff is spending all the time and energies which are not taken up with instruction. The Department of Physiology has an annual research budget of almost $100,000 from research grants and contracts but this is only a monetary statistic. What makes research a worthwhile endeavor is not physical plant or equipment but qualified personnel.

For many years the department has conducted investigations in collaboration with other departments and in two instances staff members hold dual appointments: Dr. Louis Kazal, Assistant Professor of Physiology is also Associate Professor of Research Hematology, and Dr. Adolphe Gregoire, Assistant Professor of Physiology is also Assistant Professor of Research Obstetrics and Gynecology. These have been mutually profitable associations. Research studies are being conducted with the cooperation of members of the Departments of Radiology (on total body radiation), Obstetrics and Gynecology (on uterine motility), Psychiatry (on physiology of sleep), Medicine (on hemostatic mechanisms), Surgery (on coronary circulation), Public Health (on experimental liver damage), Pathology (on experimental
Mr. James Goebels has served as diener-technician in the Department for 29 years.

(below) The machine shop was recently developed into one of the best equipped departmental workshops in a medical school for precision instrument toolwork.
hypertrophy and radiation injury), Microbiology (on bacteriologic aspects of intestinal injury), and Urology (on ureteral dynamics).

ONE cannot think of the future without paying homage to former members of the department who are now deceased. These men served Jefferson well and with devotion.

Dr. JOSEPH O. CRIDER, Emeritus Professor of Physiology, died on November 5, 1957. He came to Jefferson in 1930 from the University of Mississippi, where he had been Professor of Physiology and Dean of the Medical School. At Jefferson he established many friends both in his capacity as Assistant Dean and teacher of laboratory physiology. Those he taught will always remember his profound knowledge of physiology, especially the history of physiology. A shrewd man, whose sharp wit sometimes hid a kind personality, he retired in 1953.

Dr. KARL PASCHKIS, Professor of Physiology, died in the Jefferson Hospital on January 27, 1961, at the age of 64. Soon after his first appointment he established himself as an invaluable member of the Jefferson family. He had broad interests in pure and applied physiology which led him to become a world renowned endocrinologist. More than 150 publications attest to his research efforts in endocrine physiology and experimental cancer. He founded and headed a division of endocrine and cancer research on which were represented members from several clinical and preclinical departments. Shortly before his death, the Karl Paschkis Annual Lecture of the Philadelphia Endocrine Society was established by the Society members as a testimonial of their esteem. The scientific papers of Dr. Paschkis have been collected in two volumes, and with a biographical sketch by his close collaborator, Dr. A. Rakoff, Professor of Obstetric and Gynecologic Endocrinology, will be deposited in the College Library.

Dr. LUCIUS TUTTLE, Assistant Professor of Physiology, died after a short illness in the Jefferson Hospital.
on May 4, 1961. Although Dr. Tuttle had been inactive in departmental functions since 1952, his interest in mathematical biology continued. He is well remembered by more than 3000 alumni for his skill in expressing physiological functions in mathematical terms and for his blackboard ambidexterity in making two drawings simultaneously. We miss this shy, gentle person.

THE past have been interesting formative years. We believe we have developed a sound and realistic teaching program for medical students. This has been neither simple nor easy to do with classes as large as ours. Most Physiologic processes must exhibit the "steady state" phenomenon to maintain optimum health but unfortunately a similar steady state can not apply to Physiologic teaching. If we do not progress we can only regress. We most emphatically have committed ourselves to advancement.

Plans for the future include further changes in the student teaching curriculum which will allow free time for elective courses and elective research work, improving laboratory teaching by continuing our program of acquiring modern equipment, and the introduction of more post-graduate training. Finally, in formulating our plans for the future, we constantly have in mind the new Basic Science Building. All apparatus for both teaching and research, now being acquired, is of a nature which will have optimum use in our new quarters.
Promotions, New Appointments, Resignations, and Deaths

PROMOTIONS

C. Earl Albrecht, B.A., B.D., M.D., LL.D. (Hon.), from Visiting Professor of Preventive Medicine to Professor of Preventive Medicine.
Kenneth E. Fry, B.S., M.D., from Clinical Professor of Surgery to Professor of Clinical Surgery.
J. Montgomery Deaver, B.S., M.D., from Associate Professor of Surgery to Professor of Clinical Surgery.
Thomas F. Nealon, Jr., B.S., M.D., from Associate Professor of Surgery to Professor of Surgery.
Walter F. Ballinger, II, M.D., from Assistant Professor of Surgery to Associate Professor of Surgery.
Rudolph C. Camishon, B.S., M.D., from Associate in Surgery to Assistant Professor of Surgery.
Gerald R. Clark, B.A., M.D., from Associate in Clinical Psychiatry to Assistant Professor of Clinical Psychiatry.
Harry R. Draper, A.B., B.S., M.D., from Associate in Clinical Psychiatry to Assistant Professor of Clinical Psychiatry.
Paul MeCray, Jr., A.B., M.D., M.Sc. (Surg.), from Associate in Surgery to Assistant Professor of Clinical Surgery.
BARRY BRICKLIN, B.A., M.A., Ph.D., from Instructor in Psychiatry (Psychology) to Associate in Psychiatry (Psychology).
Benjamin F. Lee, Jr., B.S., M.D., from Instructor in Surgery to Associate in Clinical Surgery.
Lewis M. Wiener, B.A., M.D., from Instructor in Neurology to Associate in Neurology.
Sandra S. Deutchman, B.A., M.D., from Assistant in Anesthesiology to Instructor in Anesthesiology.

NEW APPOINTMENTS

Robert Waelder, Ph.D., Professor of Psychiatry (Psychoanalysis).
Frederick A. Horner, B.A., M.D., Associate Professor of Neurology.
Henry Walter Kolbe, B.S., M.D., Visiting Lecturer in Preventive Medicine.
John B. Franklin, A.B., M.D., Instructor in Obstetrics and Gynecology.
William J. Warren, A.B., M.D., Instructor in Pathology.

RESIGNATIONS

Edward F. Becker, B.S., M.D., Assistant in Ophthalmology.
Reeve H. Betts, A.B., M.D., Associate Professor of Surgery.
Robert J. Dickinson, B.S., M.D., Instructor in Psychiatry.
Herbert Kean, B.A., M.D., Instructor in Otolaryngology.

DEATHS

Leandro M. Tocantins, M.D., The Thomas Drake Martinez Cardeza Professor of Clinical Medicine and Hematology in the Department of Medicine.
(Full obituary will appear in the August issue.)

Dr. Albrecht Promoted To Full Professor

Dr. C. Earl Albrecht, Jefferson Medical College Alumnus of the Class of 1932, has been promoted from Visiting Professor to Professor of Preventive Medicine.

From January 1958 until his present full-time appointment, Dr. Albrecht served as Deputy Secretary, Pennsylvania Department of Health, Harrisburg, Pennsylvania.

Dr. Albrecht received his B.A. degree from Moravian College, Bethlehem, Pennsylvania, in 1926, and a B.D. degree from Moravian Theological Seminary two years later. Following his graduation from Jefferson Medical College in 1932, he spent the next few years at Abington Memorial Hospital, Abington, Pennsylvania—in a rotating internship from 1932-33, as Assistant Pathologist from 1933-34, and as Chief Resident Physician in 1934-35.

In 1935, Dr. Albrecht entered the private practice of medicine and surgery with the Matanuska Valley Farm Project in Alaska, remaining with the Project until
1941 when he entered the United States Army. He performed general surgery and hospital administration until 1945 when he was discharged with the rank of Colonel. Returning to Alaska, he served as Commissioner of Health with the Alaska Department of Health until 1956. For the next two years, until his appointment with the Pennsylvania Department of Health, he held the post of Assistant and Acting Director of the Ohio State Department of Mental Hygiene and Correction.

Moravian College honored Dr. Albrecht in 1948 with their Alumni Association Award, and in 1951 bestowed on him the Honorary Degree of Doctor of Laws. He was the recipient of the Senior Surgery Prize from Jefferson Medical College in 1932, and the Jessens Weekly Distinguished Service Plaque in 1948.

Dr. Albrecht served as a Regent of the University of Alaska from 1949 to 1957. He is a Fellow of the American Public Health Association and the Arctic Institute of North America, and a Diplomate of the National Medical Examiners. He holds memberships in the Arctic Glossary Board of Consultants, Moravian Church, American Medical Association, Association of Military Surgeons, and the Pennsylvania Public Health Association.

Dr. Albrecht has contributed articles to a number of medical publications, and is the author of voluminous prepared statements for legislation and appropriation requests before the United States Congress and Committees, United States Bureau of Budget, and the Alaska Legislature.

Dr. Waelder
Joins Department of Psychiatry

Dr. Robert Waelder has been appointed Professor of Psychiatry of Jefferson Medical College.

Born in Vienna, Austria, Dr. Waelder studied at the University of Vienna, acquiring his Ph.D. degree in science in 1922. At the same time, he studied with the Vienna Psychoanalytic Association, which soon became a formal psychoanalytical training institute. He became a member of the Association in 1924, and, the following year, gave his first course at the then-established Psychoanalytic Institute, teaching there until 1938.

Dr. Waelder was awarded a prize by the Deutsche Kant Gesellschaft for an essay on the "Psychology of Faith" in 1930, and was editor of Imago, a periodical devoted to psychoanalytic psychology and its applications to other disciplines from 1932-38. During these years, he was rather close to the late Dr. Sigmund Freud, being a member of the last small circle that gathered in Freud's home for the purpose of scientific discussions.

He emigrated to the United States after the Anschluss of Austria in 1938, settling first in Boston, where he lectured at the Boston Psychoanalytic Institute. In 1941, he came to Philadelphia where he became the first lecturer in psychiatric information in Bryn Mawr College (1941-42) and later taught at the Psychoanalytic Institute.

Dr. Waelder has been a training and supervising analyst since 1946, first with the Philadelphia Psychoanalytic Institute, and, since 1950, with the Institute of the Philadelphia Association for Psychoanalysis. During this time, he played an active part in the training of Philadelphia psychiatrists in psychoanalysis. He has been Chairman of the Educational Committee of the Philadelphia Association for Psychoanalysis since 1957, and served as President from 1953-55. Dr. Waelder was visiting supervisor in psychotherapy at the Philadelphia State Hospital from 1956 to 1962. Since 1961 he has been the first (and so far only) group leader in the Center of Advanced Psychoanalytic Studies in Princeton.

His published books are The Psychological Aspects of War and Peace (Geneva Research Center, 1939), Basic Theory of Psychoanalysis (New York, 1941), and, as editor, The Living Thoughts of Sigmund Freud (New York, 1941). He has published numerous articles in scientific periodicals both in this country and in Europe dealing with his main areas of work which are: meth-
odology of clinical research; psychoanalytic theory; application of psychiatric and psychoanalytic concepts to historical and political problems.

Dr. Waelder is married to the former Elsie L. Martens of Cleveland, and has four children, two from a previous marriage. Both older children are physicians, being graduates of Harvard and Vanderbilt Universities; the younger children are high school students.

Alumni, Faculty Attend Seminar in Spain

TWO planeloads of Jefferson Alumni and their families and several members of the faculty, with their families, left Philadelphia International Airport on Monday, April 15, for the third Jefferson Medical College Postgraduate Medical Seminar in Madrid, Spain. The airlines which carried the physicians to their destination were KLM and Air India.

In the two weeks which followed, Alumni attended the scientific program held at the School of Medicine of the University of Madrid, and, with their families, viewed some of the highlights of Spain. The group returned on Sunday, April 28.

The scientific program, which ran from Wednesday, April 17, to Tuesday, April 23, was as follows:

Wednesday, April 17:
“Management of Low Back Pain and the Disc Syndrome”—Dr. Anthony F. De Palma, James Edwards Professor of Orthopedic Surgery and Head of the Department, and Professor F. Martin-Lagos, participating member of the medical faculty of the University of Madrid.

“Skin Cancer”—Dr. Herbert A. Luscombe, Professor of Dermatology and Head of the Department, and Professors J. Gay Prieto and J. G. Orbaneja, University of Madrid.

At 8:00 p.m. that evening a reception was held in the Institute of Spanish Culture for Jefferson and University of Madrid participants.

Thursday, April 18:
“Management of Common Proctologic Problems”—Dr. Benjamin F. Haskell, Clinical Professor of Surgery
(Proctology) and President of the Alumni Association, and Professor A. de la Fuente, University of Madrid.

“Approach to the Patient with Infection”—Dr. Robert I. Wise, Magee Professor of Medicine and Head of the Department, and Professor Manuel Diaz Rubio, University of Madrid.

“Olé!”

Friday, April 19:
“Leprosy”—Dr. Luscombe and Professors Prieto and Orbaneja.
“The Management of Patients with Staphylococcal Infection”—Dr. Wise and Professor Gonzalo Piedrola, University of Madrid.

Saturday, April 20:
“Current Concepts of Etiology in Cancer”—Dr. Peter A. Herbut, Professor of Pathology and Head of the Department, and Professor J. Sanz Ibanez, University of Madrid.
“Abdominal Manifestations of Heart Disease”—Dr. William A. Sodeman, Dean and Vice President for Medical Affairs, and Professor V. Gilsanz, University of Madrid.

Sunday, April 21:
“Application of Cytology to Cancer”—Dr. Herbut.
“Medical School Admissions—A Problem and a Challenge”—Dr. Samuel S. Conly, Jr., Assistant Dean and Associate Professor of Physiology.

Tuesday, April 23:
“Proctologic Manifestations of Systemic Disease”—Dr. Haskell and Professor Fuente.
“The Cervical Spine Syndrome”—Dr. De Palma and Professor Lagos.

Alumni Placement Bureau

Positions Available

GENERAL hospital in North New Jersey has an opening for a full-time Director of Medicine. Position would pay a salary of $20,000 to $25,000 for a 40-hour week. Desired qualifications are as follows: that the applicant be over 35 years old; board certified; F.A.C.P.—not necessarily needed; Medical School Connections—should have experience teaching in medical schools; Clinical Medical Experience—teaching experience.

TWO physicians specializing in pediatrics desire a third pediatrician in their Las Vegas, Nevada, office. The community is one of the largest growth areas in the country, and the potential is tremendous.

OFFICE and busy general practice available in the anthracite region of Pennsylvania due to the recent death of a Jefferson graduate.

HEALTH center in the Green Mountain area of Vermont needs a physician to enter general practice with a local doctor who is nearing retirement age. He now serves an area population of at least 5000 and is the only doctor within ten miles. The health center was completed in January of this year, through the combined efforts of the people of the town and surrounding area who realized the need for improved medical facilities. The building provides up-to-date offices and an emergency room, and will be provided with necessary equipment agreed upon by the participating doctors. No initial investment is required. Located in an area abounding in every type of recreational activity, the town offers five churches and an excellent opportunity for an interested physician.

Positions Wanted

JEFFERSON graduate, Class of 1960, desires association with established Obstetrician-Gynecologist in the Philadelphia, Ohio or Minneapolis suburbs. He will complete a residency in Obstetrics and Gynecology at Akron (Ohio) General Hospital in June 1964.

News of College Departments

ADMINISTRATION

Dr. William A. Sodeman, Dean and Vice-President for Medical Affairs, was one of three Philadelphia Medical School deans who participated in a Philadelphia television program in March. The program, entitled "Speak Up," discussed such aspects of medical education as scholarship awards and the changing role of the family physician. The discussion was based on a report recently prepared by the deans of Pennsylvania's six schools of medicine. The deans of Hahnemann Medical College and Hospital and the University of Pennsylvania School of Medicine shared the spotlight with Dean Sodeman.

DERMATOLOGY

Dr. John F. Wilson, Associate Professor of Dermatology (Jefferson, 1937), was elected to membership in the American Dermatological Association at their recent meeting in Hot Springs, Virginia.

Dr. Charles H. Greenbaum, Instructor in Dermatology (Jefferson, 1954), presented "Clinical Aspects of Pre-Cancerous and Cancerous Lesions of the Facial Area" at the second Cancer Seminar for Dentists sponsored by the American Cancer Society. Entitled "Oral Cancer," the seminar was held at Lankenau Hospital, Philadelphia, on March 13 and March 20.

MEDICINE

Dr. Lawrence G. Wesson, Jr., Professor of Medicine, opened a discussion of a paper entitled "Excretion of Lysozyme by Patients with Renal Damage," presented by two other physicians, at a February meeting of the Section on General Medicine of the Philadelphia College of Physicians.

Dr. C. Wilmer Wirts, Professor of Clinical Medicine (Jefferson, 1934), addressed the staff of the Easton Hospital, Easton, Pennsylvania, February 13, on "Obstructive Biliary and Pancreatic Disease."

On March 7, he spoke on "Nutrition in Diseases of the Gastrointestinal Tract" for the staff of Rancocas Valley Hospital, Levittown, New Jersey.

Dr. Harold L. Israel, Clinical Professor of Medicine (Jefferson, 1934), has been elected President of the Delaware Valley Chapter of the American Medical Writers' Association, for the current year.

On February 25, Dr. George R. Fisher, III, Associate in Clinical Medicine, delivered a paper on "The Epidemiology of Embolism" at a meeting of the Section on General Medicine of the Philadelphia College of Physicians.

Dr. Richard T. Cathcart, Associate Professor of Medicine, lectured at the Veterans Administration Hospital, Scranton, Pennsylvania, recently. He spoke on "Inhalation Therapy."

Dr. John H. Killough, Associate Professor of Medicine, and Dr. James E. Clark, Associate in Medicine (Jefferson, 1952), spoke on "Hypertension" at a seminar for Monroe (Pa.) County physicians, recently, in Stroudsburg, Pennsylvania. It was the third in a series of four seminars sponsored by the Monroe County Medical Society to reveal new methods used in various phases of medicine.

Dr. John B. Atkinson, Assistant Professor of Clinical Medicine (Jefferson, 1948), addressed the April meeting of the Gloucester (N.J.) County Medical Society. He discussed "Management of Diseases of the Blood Forming Organs."

Dr. Malcolm W. Miller, Assistant Professor of Clinical Medicine, was Director of the 27th Annual Post-graduate Institute, sponsored by the Philadelphia County Medical Society, April 23-26.

Dr. Herman L. Rudolph, Assistant Professor of Physical Medicine and Rehabilitation (Jefferson, 1935), presented a paper on "Physical Medicine and Rehabilitation for the General Practitioner" and participated in a panel discussion of "Problems of the Back" at a combined meeting of the Pennsylvania Academy of Physical
Medicine and Rehabilitation and the Delaware Chapter of the Academy of General Practice, April 6, in Wilmington, Delaware.

DR. PETER A. THEODOS, Assistant Professor of Clinical Medicine (Jefferson, 1935), attended the 7th International Congress on Diseases of the Chest, held in New Delhi, India, from February 20-24. He participated in a panel discussion on the subject of "Pneumoconiosis and Air Pollution in Diseases of the Lung" and was Chairman of the Internal Committee on Occupational Diseases of the Chest. He also participated in medical programs in Cairo, Bangkok, Hong Kong and Tokyo, sponsored by the local chapter of the American College of Chest Physicians.

In March, Dr. Theodos spoke on "Management of Pulmonary Emphysema" at an all-day program on "Cardio-Pulmonary and Neoplastic Diseases," sponsored jointly by the American Cancer Society, Washington (Pa.) County Tuberculosis and Health Association and the Tri-County Academy of General Practice. The symposium was held in Washington, Pennsylvania.

DR. ARTHUR J. WEISS, Assistant Professor of Medicine, spoke on "Recent Advances in Chemotherapy of Solid Tumors" at a joint meeting of the staff of Abington (Pa.) Memorial Hospital and Old York Road Branch of the Montgomery (Pa.) County Medical Society, February 19.

DR. JOHN W. GOLDSCHMIDT, Associate in Physical Medicine (Jefferson, 1954), spoke to members of the Berks (Pa.) County Medical Society recently on "The Physiologic Basis and Dynamics of Successful Stroke Rehabilitation."

DR. FRANCIS J. SWEENEY, JR., Associate in Medicine (Jefferson, 1951), spoke on "Changing Patterns in Infectious Diseases" at the 27th Annual Post-graduate Institute of the Philadelphia County Medical Society on April 25.

DR. ARTHUR G. BAKER, Instructor in Medicine, recently was elected Vice-President of the Philadelphia Allergy Society for the current year.

DR. SHELDON G. GILGORE, Instructor in Medicine (Jefferson, 1956), participated in a seminar at Ohio Valley General Hospital, recently. The purpose of the seminar, which was attended by more than forty local doctors, was to bring to physicians the latest methods in medicine and research.

DR. RANDALL S. NADEN, JR., Instructor in Medicine (Jefferson, 1953), participated in a panel discussion as part of a recent program of the Southern Dental Society of New Jersey in Camden. The program was designed to bring dentists up to date on new methods of treating dental patients with heart disease.

DR. CHARLES SCHNALL, Instructor in Clinical Medicine, DR. LEON JACOB WEINER, Assistant in Medicine (Jefferson, 1938), and one other physician delivered a talk on "Cold Inflammation in Ischemic Extremities" on March 25 at a meeting of the Section on General Medicine of the Philadelphia College of Physicians.

NEUROLOGY

DR. RICHARD G. BERRY, Professor of Neuropathology, spoke at a recent meeting of the Philadelphia Neurological Society on "A Note on the Origin of Craniopharyngiomas."

DR. ELLIOTT L. MANCALL, Assistant Professor of Neurology, in collaboration with DR. GONZALO E. APONTE, Associate Professor of Pathology (Jefferson, 1952), presented "Diffuse Glycogenosis (Pompe's Disease) with Neuronal Storage; Report of a Case" at a meeting of the Philadelphia Neurological Society on April 5.

DR. RODNEY A. FARMER, Associate in Clinical Neurology (Jefferson, 1941), and DR. JOHN TAGLIANETTI, Assistant in Medicine, are among the physicians elected to the Executive Committee of the staff of Germantown Dispensary and Hospital, Philadelphia, for the current year.

OBSTETRICS AND GYNECOLOGY

DR. LEWIS C. SCHEFFEY, Professor of Obstetrics and Gynecology, Emeritus (Jefferson, 1920), was honored by the American Cancer Society at a luncheon on April 2. The luncheon, which launched the Society's educational and fund-raising drive in Philadelphia and Montgomery (Pa.) Counties, was held at the Warwick Hotel, Philadelphia.

DR. ABRAHAM E. RAKOFF, Professor of Obstetric and Gynecologic Endocrinology (Jefferson, 1937), spoke on "Anovulation" at the March 27th session of the Jefferson residents' course on Infertility.

On April 4, in collaboration with DR. ALVIN F. GOLDFARB, Associate in Obstetrics and Gynecology, a
paper on "Experiences with Clomiphene in the Management of Anovulation" was presented at the Philadelphia Obstetrical Society meeting.

Dr. David M. Farrell, Clinical Professor of Obstetrics and Gynecology (Jefferson, 1928), has been awarded a three-year grant by the National Institutes of Health for his study of foetal radio-electrocardiography detection of fetal distress. He exhibited his work at the Annual Assembly of the American Academy of General Practice in Chicago, and at the Eleventh Annual Clinical Meeting of the American College of Obstetricians and Gynecologists in New York, recently.

Dr. Warren R. Lang, Associate Professor of Obstetrics and Gynecology (Jefferson, 1943), has been elected Secretary of the American Cytology Society. Dr. Lang spoke on "The Cervix in Infertility" at the March 20th session of the Jefferson residents' course on Infertility.

Dr. Paul A. Bowers, Assistant Professor of Obstetrics and Gynecology (Jefferson, 1937), was elected President of the medical staff of Philadelphia General Hospital on March 18. That evening, he spoke at a banquet in honor of ten physicians, all of whom have served at the Hospital for 25 years or more. One of the physicians awarded a 25-Year Citation was Dr. Peter A. Theodos, Assistant Professor of Clinical Medicine (Jefferson, 1935). Also honored was Dr. William T. Lemmon, Professor of Surgery, Honorary (Jefferson, 1921), upon his retirement from the staff of Philadelphia General Hospital at age 65.

Dr. Leib J. Golub, Jr., Assistant Professor of Obstetrics and Gynecology (Jefferson, 1930), discussed the film "Breast Self-Examination" at a meeting of the Judaic Circle in Philadelphia, recently.

Dr. Amos S. Warner, Assistant Professor of Obstetrics and Gynecology, was the main speaker at a recent meeting of the Business and Professional Group of the National Council of Jewish Women, Philadelphia.

On April 5, he addressed three groups of physicians in Akron, Ohio. He spoke on "Vaginal Bacteriology Prior to Abdominal Hysterectomy" and on "Females—Fascinating and Pathological" in the auditorium of Akron City Hospital. The same day, he discussed "Tubo-plasty" at a meeting of the Obstetrical-Gynecological Society in the Akron City Club.

Dr. Alvin F. Goldfarb, Associate in Obstetrics and Gynecology, participated in two sessions of the Jefferson residents' course on Infertility. On March 13, he spoke on "The Approach to the Infertile Couple," and on April 3, on "Tubal and Anatomic Problems."

He recently spoke at the Harford County Medical Society meeting in Havre de Grace, Maryland, on the subject of "Recent Advances in Menstrual Physiology."

On April 1, Dr. Goldfarb presented a talk on "Endometriosis—Experiences in Management" at the Midland Hospital, Bethpage, New York.

Dr. Burton L. Wellenbach, Associate in Clinical Obstetrics and Gynecology (Jefferson, J-1944), has been appointed to the staff of the Haverm (Pa.) State Hospital. Dr. Wellenbach spoke at the last of three postgraduate medical seminars at Memorial Hospital in Johnstown, Pennsylvania, recently.

**OPHTHALMOLOGY**

Dr. William C. Frayer, Associate Professor of Ophthalmology, presented two papers at a meeting of the Section on Ophthalmology of the College of Physicians of Philadelphia, March 21. They were "The Ocular Findings in a Patient with the Trisomy 13-15 Syndrome" and "Ocular Manifestations of Moniliasis."

**OTOLARYNGOLOGY**

Dr. Joseph Sataloff, Associate Professor of Oto-laryngology, presented a two-day course on "The Diagnosis of Hearing Impairment" for a large group of industrial physicians and lawyers in St. Louis, Missouri, recently.

**PEDIATRICS**

Dr. Hans G. Keitel, Professor of Pediatrics and Head of the Department, Dr. Elsie W. Chu, Assistant in Pediatrics, and one other associate presented their findings of a study of breast nodules in newborn infants in an exhibit at the Annual Spring Meeting of the American Academy of Pediatrics in Los Angeles, April 22-24.

Dr. James Valentine Mackell, Assistant Professor of Pediatrics (Jefferson, 1946), has been elected Vice-President of the medical staff of Holy Redeemer Hospital, Meadowbrook, Pennsylvania, where he is Director of Pediatrics.

Dr. Keith Hammond, Associate in Clinical Pedi-
atrics, attended a Pediatric Education Conference of District III, American Academy of Pediatrics, in Washington, April 5 and 6. The meeting was concerned with the problems of non-university-affiliated pediatric residencies.

PREVENTIVE MEDICINE

DR. J. WOODROW SAVACOOL, Associate Professor of Preventive Medicine and Director of the Division of Clinical Preventive Medicine, participated in the annual Physicians Symposium sponsored jointly by the American Cancer Society, Washington (Pa.) County Tuberculosis and Health Association and the Tri-County Academy of General Practice. The all-day program, which was held April 21 in Washington, Pennsylvania, was titled “Cardio-Pulmonary and Neoplastic Diseases.” Dr. Savacool spoke on “The Use of Chemoprophylaxis In Tuberculosis Control.”

PSYCHIATRY

DR. FLOYD S. CORNELISON, JR., Professor of Psychiatry and Head of the Department, participated in a conference on “Teaching of Psychotherapy” at Temple University, Philadelphia, March 14-15. He discussed a film on “Case History of Patient in Initial Interview.”

On March 21 and 22, he was Visiting Professor at the Lovelace Clinic, Albuquerque, New Mexico, where he presented the following papers: “Why Go to the Moon?,” “A Study of Self-Image Experience,” “Use of Behavioral Recordings in Psychiatry,” and “Problems in Psychiatric Education.”

DR. ZYGMUNT A. PIOTROWSKI, Professor of Psychology, recently addressed an audience of professional psychologists at Longview Hospital, Cincinnati, Ohio. His talk, “Digital Computer Interpretation of the Inkblot Test,” was sponsored by the Hospital and the Xavier (Ohio) University Psychology Department. Dr. Piotrowski also conducted a workshop on the Rorschach method at Longview Hospital for three days.

DR. CLAUS B. BAHNSON, Associate Professor of Psychiatry (Psychology), delivered “Emotional Reactions to Internally and Externally Derived Threat of Annihilation” on December 28, 1962 at the Annual Session of the American Psychiatric Association, Committee on Research, sponsored by the American Association for the Advancement of Science.

In March, he presented “The Emotional Field: Repeated Observations of Fantasy and Emotion in Two Asthmatic Patients” at the Boston University Medical School Research Center.

He attended a meeting of the Eastern Sociological Society in New York on April 6, speaking on “Some Methodological Problems Involved in Using the Behavioral Sciences in Epidemiological Research.”

DR. Bahnson spoke on “The Teacher as a Discordant Being: A Modern Dialectic” on April 9, at a meeting of the American Personnel and Guidance Association in Boston, Massachusetts.

DR. WALTER W. BAKER, Associate Professor of Psychiatry (Neuropharmacology), presented a paper on “A Neuropharmacologic Analysis of Tremorine” at the U. S. Army Chemical Research and Development Laboratories, Edgewood Arsenal, Maryland, on March 29.

DR. JOHN A. KOLTES, Associate Professor of Clinical Psychiatry (Jefferson, 1947), has been elected President of the Philadelphia Psychiatric Society for the current year. Also serving as an officer of the Society is DR. PAUL J. PONSARD, Clinical Professor of Psychiatry (Jefferson, 1941), who was elected Councillor for 1963.

DR. GERALD R. CLARK, Assistant Professor of Clinical Psychiatry, has been appointed a member of the National Committee for Services for the Psychiatrically Disabled and Mentally Retarded (sponsored by the National Rehabilitation Association).

DR. HARRY R. DRAPER, Assistant Professor of Clinical Psychiatry, attended meetings in Los Angeles, California, February 16-17, which concerned post-graduate programs in psychiatry for general practitioners of medicine.

In April, he presented “Problem of Depression in Medical Practice” at the 27th Annual Post-graduate Institute sponsored by the Philadelphia County Medical Society.

RADIOLOGY

DR. SIMON KRAMER, Professor of Radiology, spoke to the American Radium Society in San Francisco, California, April 2. He reported encouraging results in the treatment of advanced head and neck cancers with a combination of radiation and chemicals.

DR. JACK EDEIKEN, Assistant Professor of Radiology, participated in a Film Interpretation Panel on “Bone Diseases” sponsored by the Philadelphia Roentgen Ray
Robert Owen Gorson, Associate Professor of Medical Physics (in Radiology), was guest speaker at the March meeting of the National Park, New Jersey, Parent-Teachers Association. With Dr. Samuel S. Conly, Assistant Dean (Jefferson, S-'44), he spoke on the effects of nuclear weapons.

SURGERY

Dr. John H. Gibbon, Jr., The Samuel D. Gross Professor of Surgery and Head of the Department (Jefferson, 1927), has been asked to serve as a member of a special Study Committee of the Services Division of the Health and Welfare Council of the City of Philadelphia.

On April 11, Dr. Gibbon delivered the Annual Lecture of the Agnew Surgical Society at the Ravdin Institute of the Hospital of the University of Pennsylvania, Philadelphia.

On May 3, he attended a conference on "Bleeding in the Surgical Patient" sponsored by the New York Academy of Sciences. At the conference, Dr. Gibbon was chairman of a session on the "Syndrome of Unexplained Bleeding: Introductory Remarks on Problems in Hemostasis with Extracorporeal Apparatus."

Dr. J. Montgomery Deaver, Professor of Clinical Surgery, was Chairman of a discussion on "Surgical Problems of Medical Interest," one of the subjects discussed at the 27th Annual Post-graduate Institute of the Philadelphia County Medical Society, April 23-26.

Dr. Thomas F. Nealon, Professor of Surgery (Jefferson, S-1944), addressed the surgical staff of the Hollywood (Fla.) Memorial Hospital on February 26, on the subject of burn therapy.

On March 6, Dr. Nealon spoke at the School of Nursing of the University of Pennsylvania, Philadelphia, on the subject of "The Prevention of Lung Cancer."

Also on March 6, he discussed a paper on "Cardiac Arrest and Temperature of Bank Blood," presented by two other physicians, in New York before the conjoint meeting of the Philadelphia Academy of Surgery and the New York Surgical Society.

Dr. Richard L. Rovit, Associate Professor of Surgery (Neurosurgery), (Jefferson, 1950), with Dr. Miles H. Sigler, Instructor in Medicine, presented a paper on "Hyponatremia Complicating Herpes Simplex Encephalitis" at a meeting of the Philadelphia Neurological Society on April 5. The paper was discussed by Dr. Lawrence G. Wesson, Jr., Professor of Medicine, who, with Dr. Sigler, appeared on the program by invitation.

Dr. T. Burritt Mervine, Assistant Professor of Clinical Surgery (Jefferson, 1940), was Chairman of a Mortality Conference on "Retro-Peritoneal Sarcoma," sponsored by the Doctors Hospital, Philadelphia, recently.

Dr. LaFia also appeared on a recent program sponsored by the Philadelphia Neurological Society. With Dr. James D. Ripeci, Instructor in Neurology (Jefferson, 1950), he presented "Surgical Treatment of Parkinsonism and Related Disorders." The paper was discussed by Dr. Nicholas R. Zervas, Associate in Surgery (Neurosurgery), and one other colleague.

Dr. Harold Rovner, Instructor in Surgery (Proctology), (Jefferson, 1949), participated in a program sponsored by the Pennsylvania Society of Colon and Rectal Surgery, on March 6, at the Union League Club of Philadelphia. He spoke on "A Modified Thiersch Tiften Anoplasty for Complete Rectal Prolapse."

UROLOGY

Dr. Theodore R. Fetter, Nathan Lewis Hatfield Professor of Urology and Head of the Department (Jefferson, 1926), attended the Conjoint Meeting of the Philadelphia Academy of Surgeons and the New York Surgical Society on March 6.

He presented a paper on "Endometriosis" at the American College of Surgeons Meeting, March 14, in Pittsburgh, Pennsylvania.

Dr. David M. Davis, Professor of Urology, Emeritus, spoke on the subject of "What Is Pyelonephritis?" at a recent dinner-meeting of the Section on Urology with the New York Section of the American Urological Association, Inc. The meeting was held at the Yale Club in New York City, on February 20.

Dr. Paul D. Zimskind, Research Associate in Urol-
ogy (Jefferson, 1957), read his paper on "Urodynamics of the Urinary Tract" at the Philadelphia Urologic Society Meeting, February 25.

DR. JOSÉ R. YUNEN, Nathan Lewis Hatfield Fellow in Urology, presented his paper on "Torsion of the Testis in a Newborn: Diagnosis and Management" at the February meeting of the Philadelphia Urologic Society.

KAPPA BETA PHI SPONSORS
33rd BLACK AND BLUE BALL

THE 33rd annual Black and Blue Ball was held at the Sheraton Hotel in Philadelphia, March 23, 1963. This dance, sponsored each year by the members of the Kappa Beta Phi Fraternity, was begun in 1933, and is one of the few events in the College in which all members of the Jefferson Family are invited to participate.

This year, Richard Maltby and his band supplied the music, and seven exciting door prizes were given away. A new feature was a banquet preceding the dance which was attended by faculty and alumni, at which the brothers of Kappa Beta Phi honored Dr. Nicholas A. Michels, Professor of Anatomy, Emeritus, and Dr. David R. Morgan, Professor of Pathology and Curator of the Museum.

All profits from the dance, as in the past, are turned over to the Board of Trustees to add to the Kappa Beta Phi Student Benefit Fund. The accumulation of profits from the early dances allowed the establishment of the fund, which has been increased over the years, and is a source of low-interest loans to twenty-one students at Jefferson.

The 1963 Black and Blue was the finest dance of its kind in years, according to all who attended, and owes its success to the help of Dr. Gonzalo E. Aponte, Grand Swipe of Kappa Beta Phi, and the warm and generous support of the faculty and Alumni.
IMPETUS NEEDED TO REACH ANNUAL GIVING GOAL

Recently you received a brochure entitled "Fund Raising Through the Ages." We hope it amused you and provided a light moment in your busy routine.

Actually, we were very serious about the lengths to which fund raisers will go to collect that needed dollar and, at the moment, it would seem that we are going to be forced to use unusual methods to extract the $64,000 we still need to reach our goal. If you are among the 4,200 non-contributors, we warn you herewith that our subsequent tactics may be somewhat unorthodox! We have unearthed various ancient surgical implements from amid our archival collection and it would seem that these might be employed quite as effectively as thumb screws and stocks!

We are most hopeful, however, that, as in the past, the majority of Jefferson Alumni will give willingly and, indeed, gladly to support their Alma Mater. At the moment the situation is grave; we are running considerably behind last year's record totals in all categories and we have less than two months in which to catch up.

Last year we ended the Drive with a participation percentage of 55.3%. This year, as of April 16, our participation figure was only 37.9%.

Last year our final total, though short of our goal, was $157,180. As of April 16, our total this year is only $111,440.93.

Last year 3,668 loyal Jefferson Alumni sent contributions. As of April 16, we have only 2,588 contributors.

In raising money for Jefferson, we are ever optimistic and our hopes are still high. A gift of only $20.00 from each non-contributor would put us "over the top." We know that most of you can afford a more substantial gift, but this figure illustrates the vital importance of participation.

Again we are looking to our Reunion classes for leadership and support. It is our sincere hope that each year one or more Reunion class will establish a new record for succeeding classes to break. This is our American spirit of competition which has put us in the forefront in so many areas of activities. Such competition should be even more keen at Jefferson, since we have so long been proud of our independence and our traditions.

Remember that your gifts go to support an institution which is an achievement of American democracy. Your contribution to Jefferson helps to preserve independent medical education in America—send your check to your Class Agent today.

KENNETH E. FRY, M.D., Chairman
Annual Giving Fund Committee

CLASS REUNION DAY
June 12, 1963

9:30 a.m.  P. Joseph McKenna, Jr., M.D.
CLINICAL HEMATOLOGY

9:45 a.m.  Franz Goldstein, M.D.
CYTOLOGIC DIAGNOSIS OF GASTROINTESTINAL MALIGNANCY

10:00 a.m. John B. Atkinson, M.D.
TREATMENT OF LYMPHOMAS WITH A NEW TRUNCAL INFUSION TECHNIQUE

10:15 a.m.  Frank R. Kinsey, M.D.
CERVICAL ROOT SYNDROME

10:30 a.m.  Victor P. Satinsky, M.D.
CREATION OF A THIRD CORONARY ARTERY

10:45 a.m.  COFFEE PERIOD

11:15 a.m.  Anthony Ruppersberg, Jr., M.D.
RARE AND COMMON CAUSES OF MATERNAL DEATH

11:30 a.m.  Joseph M. de los Reyes, M.D.
MULTIPLE PRIMARY MALIGNANCIES

11:45 a.m.  John M. Brewster, M.D.
THOUGHTS CONCERNING REHABILITATION OF THE INJURED

12 noon  Herbert H. James, M.D.
VAGINAL Hysterectomy

12:15 p.m.  Francis Elwood Weatherby, M.D., Col. (MC) USA (Ret.)
THE LEGAL RESPONSIBILITY OF A PSYCHIATRIST

ALUMNI DAY
June 13, 1963

9:45 a.m.  CLINICO-PATHOLOGICAL CONFERENCE
Presented by the following members of the Graduating Class—

J. M. FARBER, Discussor
W. H. LESCHEY, Moderator
F. T. FITZPATRICK, X-Ray
R. C. GALLOW, Pathology
R. O. GILCHER, Protocol
R. J. WINN, Protocol

Richard T. Cathcart, M.D., Associate Professor of Medicine
Joseph Medoff, M.D., Assistant Professor of Clinical Medicine

Faculty Advisors

10:30 a.m.  Henry B. Decker, M.D., Professor of Dermatology, Emeritus
A WAY OF LIFE

11:00 a.m.  David M. Davis, M.D., Professor of Urology, Emeritus
URINARY TRACT INFECTION—YESTERDAY, TODAY AND TOMORROW

11:30 a.m.  Nicholas A. Michels, D.Sc., Professor of Anatomy, Emeritus
THE EVER VARIED BLOOD SUPPLY OF ABDOMINAL ORGANS

12 noon  Edward L. Bauer, M.D., Professor of Pediatrics, Emeritus
HISTORICAL FACTS TURN UP IN MOST UNEXPECTED PLACES

12:30 p.m.  DEAN’S LUNCHEON
McClellan Hall
Jefferson Medical College

ALUMNI BANQUET
JUNE 13, 1963 — BELLEVUE STRATFORD HOTEL
Activities of Reunion Classes

50th Reunion—Class of 1913
Theo W. O’Brien, M.D.
310 Lincoln Avenue
Havertown, Pa.
Walter R. Krauss, M.D.
421 Price Street
West Chester, Pa.

The Class of 1913 will celebrate its 50th Anniversary with a luncheon for class members at the Bellevue-Stratford Hotel on Wednesday, June 12, at 1:30 p.m.

The Class will have a “Headquarters Suite” at the Bellevue-Stratford on Wednesday and Thursday, and its own table at the Alumni Banquet in the hotel on Thursday evening.

45th Reunion—Class of 1918
Reynold S. Griffith, M.D.
255 South 17th Street

On Wednesday, June 12, members of the Class of 1918 will attend the Reunion Day Clinics in the morning followed by a tour of the College and a dinner at the Union League for men and wives. On Thursday, June 13, the Alumni Day Clinics will be followed by the Dean’s Luncheon, a visit to the Hospital, baseball or golf, and the Alumni Dinner at the Bellevue-Stratford. The ladies will attend another dinner at the Bellevue sponsored by the Jefferson Medical College Faculty Wives Club.

40th Reunion—Class of 1923
Walter J. Larkin, M.D.
Medical Arts Building
Scranton, Pa.

The Class of 1923 will hold a dinner-dance on Wednesday evening, June 12, at the Sheraton Hotel, Philadelphia, with music by a very unusual group which should be a pleasant surprise to all. An open-bar will be part of the accommodations at the dinner-dance. Headquarters for Reunion activities for the Class of 1923 will be at the Sheraton, and a room (the number of which will be posted on the hotel bulletin board) will be provided for registration of returning classmates and their wives. The room will be open from 1:00 p.m. on June 11 through June 14. Ample parking facilities are available at the hotel.

35th Reunion—Class of 1928
I. S. Hneleski, M.D.
802 South 48th Street
Philadelphia 43, Pa.

Reunion plans for the Class of 1928 include: a hospitality room at The Barclay from Monday, June 10, to Thursday, June 13; on Tuesday, June 11, a cocktail party from 5:00 p.m. to 7:00 p.m.; on Wednesday, June 12, a Dutch-treat stag luncheon at 12:30 p.m., and on the same date, a dinner-dance beginning at 6:30 p.m. All three of these events will be held at The Barclay.

In addition, Mrs. William Tourish and Mrs. I. S. Hneleski are planning a program of entertainment for the ladies.

Dr. Henry Davidson, Class Historian, is preparing a class year-book as has been the custom in the past.

30th Reunion—Class of 1933
Leon N. Prince, M.D.
2025 Spruce Street
Philadelphia 3, Pa.

A Reunion Dinner will be held for members of the Class of 1933 at the Barclay Hotel, Philadelphia, on Wednesday, June 12. Cocktails will be served at 6:30 p.m., and dinner at 7:30 p.m. A cocktail party may be held at the Bellevue-Stratford Hotel on Thursday, June 13, just prior to the Alumni Banquet, if enough members desire this. Dr. “Jim” Ruppersberg has been selected to represent the Class of 1933 on the Reunion Day Clinic program. From all indications and letters received by Dr. Prince, it appears that this will be a real “homecoming.”

25th Reunion—Class of 1938
Solomon Keesal, M.D.
1002 Spruce Street
Philadelphia 7, Pa.
Jacob S. Wiener, M.D.
2408 South Fifth Street

On Wednesday, June 12, the Class of 1938 will hold a luncheon for Doctors Satinsky and Wachtel. After an afternoon free for shopping, tours, etc., a gala dinner-dance will be held in the Drake Hotel complete with open bar, hors d’oeuvres, dinner, dancing, midnight sweet, pictures and conversation. Preceding the Alumni Banquet on Thursday evening, June 13, class members and their wives will attend a cocktail party from 6:00 p.m.
to 7:00 p.m. at the Bellevue-Stratford Hotel. Following the Banquet, the scene of activity will move to the Vesper Club at 11:00 p.m. where an open bar, sandwiches and coffee will be provided. Entertainment for the wives is being arranged.

20th Reunion—Class of 1943

Gerald E. Callery, M.D.
111 Long Lane
Upper Darby, Pa.

Each member of the Class of 1943 has been contacted concerning their 20th Reunion. To this date, it appears that a large number of the Class will be present for the Reunion functions and Alumni Banquet. Upon receipt of individual questionnaires, those returning in June will be kept up-to-date on all new developments.

15th Reunion—Class of 1948

John B. Atkinson, M.D.
Chestnut Street and Copley Road
Upper Darby, Pa.

Norman J. Quinn, M.D.
231 Forest Avenue
Ambler, Pa.

Charles G. Steinmetz, III, M.D.
4606 Spruce Street

Through the efforts of Dr. Al Fingo, Class of '48 and golf pro, the facilities of Seaview Country Club have been made available for the Class' 15th Reunion. Located about forty miles from Philadelphia and about ten minutes from Atlantic City, this nationally known Country Club has two complete 18-hole golf courses as well as indoor and outdoor pools, tennis courts, excellent food and accommodations. Activities will include a golf tournament on Wednesday, June 12, in which everyone will win, and a cocktail party followed by a dinner-dance in the evening. Member of the Class and their wives can stay at Seaview Country Club or in nearby Atlantic City.

10th Reunion—Class of 1953

Joseph J. Armo, M.D.
557 East Springfield Road
Springfield, Pa.

Norton Hering, M.D.
255 South 17th Street
Philadelphia 3, Pa.

James M. Hunter, M.D.
1225 Hagy's Ford Road
Penn Valley, Narberth, Pa.

A dinner-dance is scheduled for members of the Class of 1953 and their wives on Wednesday evening, June 12, in the Spruce Room of the Drake Hotel. Details have been sent to all members of the Class in an individual letter from Dr. Hering.

5th Reunion—Class of 1958

Jerome L. Sandler, M.D.
Jefferson Hospital

Leon P. Sicchitano, M.D.
Jefferson Hospital

A cocktail party and dinner will be held for members of the Class of 1958 and their wives or dates on June 12 at the Benjamin Franklin Hotel. Features will be a delicious catered dinner, wine served with the meal and favors for the ladies. A "pay as you go" bar will be open before, during and after dinner. The Class will have a Reunion headquarters in the Benjamin Franklin Hotel. The room clerk at the hotel will be happy to make reservations for anyone coming from out of town and will try to keep Class members close to the reunion headquarters.

Alumni and Faculty Members
Attend Surgeons Meeting

A number of faculty members and Jefferson Alumni participated in the Sectional Meeting of the American College of Surgeons, held March 11-14, 1963, in Pittsburgh, Pennsylvania.

Dr. Gerard M. Shannon, Associate in Clinical Ophthalmology, Class of 1949, presented a paper on "Plastic Repair of Lacrimal Canaliculus" at a session on Ophthalmic Surgery.

During the sessions on Otolaryngology, Dr. Fred Harbert, Professor of Otolaryngology and Head of the Department, participated in a symposium on "Stapes Surgery for Otosclerosis." Dr. Walter David Bauer, '40, presented a paper entitled "Technique of General Anesthesia for Endoscopy." Dr. F. Johnson Putney, Clinical Professor of Otolaryngology, '34, spoke on "Diagnosis and Management of Benign Tumors of the Larynx." Dr. Kelvin A. Kasper, Professor of Clinical Otolaryngology, '26, participated in a "How I Do It" Clinic, speaking on the subject of "Dacryocystorhinostomy."

Dr. Raymond E. Silk, '48, Dr. Fred C. Brady, '39, Dr. William L. White, '39, and Dr. Samuel Lukens
Cresson, ’43, participated in sessions on General Surgery. Dr. Silk aided in the presentation of a motion picture on "Stensen’s Duct, Key to Parotidectomy." Dr. Brady presided at a "How I Do It" Clinic, at which Dr. White presented a paper on "Repair of Flexor Tendons." Dr. White also spoke on "Tendon Lacerations" at a session on Orthopedic Surgery. Dr. Cresson discussed "Intussusception" at a symposium on "Rectal Bleeding in Infancy and Childhood."

Dr. Michael Scott, ’32, participated in a panel discussion on "Injuries of Cervical Spine" during a session on Neurologic Surgery.

Dr. John J. Dowling, Associate in Clinical Orthopedic Surgery, ’47, delivered a paper entitled "Comminuted Colles Fractures" during the session on Orthopedic Surgery.

Dr. William L. Malley, ’41, was a panelist in a discussion on "The Intensive Care Program in Progress" during one of the Programs for Nurses.

In the session on Gynecology and Obstetrics, Dr. Abraham E. Rakoff, Professor of Obstetric and Gynecologic Endocrinology, ’37, spoke on "Dysfunctional Uterine Bleeding" during a symposium on "The Gynecological Application of the Newer Progestational Agents." Dr. John B. Montgomery, Professor of Obstetrics and Gynecology and Head of the Department, ’26, moderated a panel discussion on "Infections in Pregnancy." One of the panelists was Dr. Warren R. Lang, Associate Professor of Obstetrics and Gynecology, ’43, who discussed "Cervical and Vaginal Infections in Pregnancy." Dr. Thaddeus L. Montgomery, Professor of Obstetrics and Gynecology, Emeritus, ’20, presided over a symposium entitled "Cardiovascular Disease in Pregnancy."

Dr. Leo D. O'Donnell, ’21, spoke on "Amputative Hemorrhoidec-tomy" at a symposium entitled "Surgical Treatment of Hemorrhoids" during the session on Proctology.

At a session on Urology, Dr. Ralph J. Veenema, ’45, presented "Early Diagnosis of Carcinoma of the Prostate" during a symposium on "Carcinoma of the Prostate." Dr. Theodore R. Fetter, Nathan Lewis Hatfield Professor of Urology and Head of the Department, ’26, presented a paper entitled "Endometriosis of the Urinary Tract." Dr. Joseph E. Murray, ’55, participated in the presentation of a motion picture on "Human Kidney Transplant."

Dr. John H. Gibbon, Jr., The Samuel D. Gross Professor of Urology and Head of the Department, ’27, presided at a "How I Do It" Clinic during a session on Thoracic Surgery.

New Jersey Chapter Holds Annual Meeting

THE Northern New Jersey Chapter of the Jefferson Medical College Alumni Association held its annual meeting at the Essex Club, Newark, on February 28, 1963. The meeting consisted of a cocktail hour followed by dinner.

Dr. Herbert A. Luscombe, Professor of Dermatology and Head of the Department, Class of 1940, was introduced by Dr. Robert Rich as Faculty Guest of the meeting. After Dr. Luscombe spoke to the group, the meeting was closed with a brief review of the Alumni Advisory Council and its achievements thus far, delivered by Dr. Frederick C. DeTroia, Class of 1935 and a member of the Council.

The group noted with sorrow that three of its members had passed away during the preceding year: Dr. Frank A. Wolf, ’10, Phillipsburg, N. J.; Dr. Carl G. Kapp, ’28, Elizabeth, N. J.; and Dr. Junius M. Lemmon, ’30, Washington, N. J.
1896

Dr. Maurice J. Karpeles, 5517 Greene Street, Philadelphia 44, Pa., was one of five Northwest Philadelphia physicians and surgeons who recently were honored by the Philadelphia County Medical Society's Northwest Branch (see photo on opposite page). The five physicians, two of whom were women, represented a total of over three centuries in the care of the sick. They were entertained at a dinner held at Germantown Cricket Club, Philadelphia.

1897

Dr. Victor G. Heiser, 1060 Fifth Avenue, New York 28, N.Y., was honored recently by the New York Society of Tropical Medicine. The Society gave a cocktail party and reception for Dr. Heiser on the occasion of his ninetieth birthday. Those present autographed Dr. Heiser's book, *An American Doctor's Odyssey*, and presented it to him, after which he gave a short talk concerning his work in the Philippines and other parts of the world. The party was held in the penthouse of Dr. Benjamin H. Kean, current President of the New York Society of Tropical Medicine.

1903

Dr. George Hay, Hay Avenue, Johnstown, Pa., and Mrs. Hay celebrated their 50th wedding anniversary on April 12. They were honored with an open house and reception at their home followed by a family dinner at Sunnehanna Country Club. They are the parents of two children: George Austin Hay of New York City and Mariana, wife of Brent Caldwell of Fanwood, N.J. The Hays have four grandchildren.

Mrs. Hay, who holds the distinction of being the first woman to cross the Delaware Gap on a horse (she made the trip with her father in 1896), is active in music circles and as one of Johnstown's cultural leaders.

Dr. Hay, who has practiced in Johnstown since his graduation, is former President of the Cambria County Medical Society and present Treasurer. He is Vice-President of the Board of Managers and Trustee of the Cambria Public Library; he was the first President (in 1948) of the Cambria County Chapter of AAGP, and holds a life membership in the Medical Writers Association. In 1953, Dr. Hay was honored by the County Medical Society with a testimonial plaque for his fifty years of service to the medical profession. He is editor of *The Medical Comment*, official publication of the Society.

1905

Jefferson Medical College has lost one of its most distinguished and devoted alumni, and Occupational Medicine and Hygiene one of its pioneers and leaders. Dr. Louis Schwartz died on February 25, 1963 in Washington, D.C. at the age of almost 80 years. He was born in New York and graduated from Jefferson Medical College of Philadelphia in 1905. He entered the United States Public Health Service in 1906 and organized the Division of Dermatology, serving as Director and Chief of this Division until his retirement in 1947. His duties and scientific interests took him to many foreign countries.

Dr. Schwartz's activities included decades of research in the field of occupational skin diseases that led to many advances in diagnosis, treatment, and prevention of these diseases. His vast knowledge and experience have been embodied in the authoritative text book entitled "Occupational Diseases of the Skin" which he published in cooperation with Dr. Louis Tulipan and Dr. Donald J. Birmingham; a third edition of this book appeared in 1957. Dr. Schwartz is nationally and internationally best known for the development of the "prophetic patch test" that is now universally used to detect potential skin irritants and sensitizers.

Dr. Schwartz was also active as teacher in his specialty at New York University College of Medicine, Jefferson Medical College of Philadelphia and the School of Hygiene and Public Health, Johns Hopkins University. He practiced as a consultant to industry and insurance companies until shortly before his death. His co-workers and friends will always remember his loyalty, open-mindedness, and his wit and humor. Age had not diminished these and other human qualities of this remarkable man.

*Heinrich Brieger, M.D., Professor of Occupational Medicine and Director of the Division of Occupational Medicine and Hygiene.*

1908

Dr. William H. Eister, 76 Fairmount Avenue, Sunbury, Pa., writes that he suffered a light coronary recently. Although he is up and around, he does very little work, but still hopes to be able to attend his Class' 55th Reunion in June.

1912

Dr. Louis H. Clerf, 5575 Eighth Avenue, North, St. Petersburg 2, Fla., delivered The Jackson Memorial Lecture.
sponsored by the Philadelphia Laryngological Society, February 5, 1963, at the Philadelphia College of Physicians. Dr. Clef’s topic was "History of Tracheo-Bronchial Foreign Bodies."

1913

Dr. Theo W. O’Brien, Class Agent for 1913, has notified us that a classmate, Dr. William D. Rodgers, Jr., of Warren, North Carolina, has passed away.

1914

Dr. Jack H. Harris, 1536 Leaview Avenue, Willoughby, Norfolk 3, Va., writes that he is retired from the U.S. Navy with the rank of Captain after completing thirty years in the Naval Medical Corps. He also served as Director of Norfolk City Venerable Disease Clinic for twelve years. His wife, the former Viola Kathryn Womer, of Philadelphia, Pennsylvania, graduated from Jefferson Hospital Training School for Nurses in 1914. His daughter is married to Lieut.-Comdr. Thomas S. Welch, U.S. Naval Reserve. His granddaughter’s name is Kathryn Harris Welch.

Dr. Barney D. Lavine, 630 North Clinton Street, Trenton, N.J., was one of five Trenton area physicians honored recently by the Private Duty Nurses of District 3 of the New Jersey Association. Engraved trophies were awarded to each physician in recognition of service to the community and to their hospitals. Dr. Lavine served as Chief of Medicine at St. Francis Hospital, Trenton, and now is Chief, Emeritus. He is a Fellow of the American College of Physicians.

1915

Dr. Harrisson J. McGhee, 71 South Fraley Street, Kane, Pa., writes that he has been retired for ten years.

1918

Dr. Chin W. Lowe, 982 Yenar Road, West, Shanghai 23, China, writes concerning his attendance at the Class of 1918’s 45th Reunion: “I regret to state that under the present international conditions, it will not be possible for us to secure the exit pass from our own country. Neither will we be able to get the entrance permit from your State Department to enter your country. I hope that your (Dr. Reynold S. Griffith’s) invitation shall still be good for the 50th Class Reunion when the relations of the two countries may be much improved.

“There is not much for me write about myself. You know very well that I retired from active work ever since the autumn of 1938 when I had cholecystectomy for the treatment of cholelithiasis. The gall-bladder was as big as the sun-kist orange with six stones in it. I am now living an easy life with perhaps a few political tutelage classes.”

1919

Dr. Hewitt H. Foster, Box 205, Nor- lina, N.C., says that he is still working as ever and hopes to see everybody in ‘64.

Dr. Creed C. Glass, 345 Main Street, Meyersdale, Pa., was honored recently by the Meyersdale Rotary Club as its “Citizen of the Year.” The first such annual award of its kind, it consisted of an engraved plaque and a dinner at which Dr. and Mrs. Glass were the honored guests. An additional surprise for the Glasses was the arrival at the dinner of two of their children, Mrs. Shirley Carroll of Rye, New York, and Creed, Jr. from Kokomo, Indiana, who arrived with his wife and two children. Dr. Glass came to the community of Meyersdale in 1920, opening the Hazel McGilvery Hospital (his wife’s maiden name) in 1922. The Hospital consisted of an operating room on the second floor of their home and two rooms for pa- tients. The hospital grew and was enlarged, and in 1933, Dr. Glass pur- chased the property next door to ac- commodate his family. The war years placed a heavy burden on the physician, and, in December of 1944, Dr. Glass reported his intention to close the institution. Thus came the proposal for a new, modern community hospital and its eventual construction. Dr. Glass is a member of the Somerset (Pa.) County Medical Society and served for many years as Director and Vice President of the Second National Bank of Meyersdale.

1922

Dr. Albert G. Gibbs, 112—69th Street, Virginia Beach, Va., writes that he “hated to miss 40th (Reunion in June 1962), but was on the high seas and didn’t arrive in the U.S. (New York) from round-the-world trip until June 20.”

1923

Dr. Henri E. Gauthier, 34 Hamlet Avenue, Woonsocket, R.I., has been reappointed a member of the Rhode Island Advisory Committee of the American College of Surgeons. He is Chief of the surgical staff at Woonsocket Hospital, and a past-President of the Rhode Island Medical Society.

Dr. Edward Lebovitz, 323 Jenkins Building, Pittsburgh 22, Pa., attended the Post-graduate Symposium on “Chang- ing Concepts of Respiratory Diseases” sponsored by the Mound Park Hospital Foundation, St. Petersburg, Florida, March 14-16. Dr. Lebovitz spoke on “Present Status and Management of Pneumoconiosis.”

1924

Dr. Jean L. E. Brindamour, 2370 Waverly, Palo Alto, Calif. Mrs. Mulone, the Alumni Secretary, was recently a guest of Columbia University’s Alumni Federation on the occasion of its 50th Anniversary Convocation and was delighted to find herself seated beside Mr. Jean-Louis Brindamour, Dr. Brinda- mour’s son, who is Chairman of Colum- bia University’s Student Council.

Dr. Paul F. Drake, 85 Summit Avenue, Phillipsburg, N.J., was honored at a testimonial dinner by associates and friends recently. The dinner was in recognition of Dr. Drake’s many years as an active member of the staff of Warren (N.J.) County Hospital. Chief of the Hospital’s Pediatric Staff since 1926, Dr. Drake has been appointed to the consulting staff. The dinner was highlighted by four presentations: the President of the Hospital’s Board of
Trustees presented a gold watch to Dr. Drake in appreciation for his many years of service; the medical and dental staff gave him a steel engraved plaque; the Phillipsburg Emergency Squad presented a plaque in recognition of Dr. Drake's 27 years of service as the squad's medical consultant; he received a large birthday cake celebrating his 65th birthday.

Dr. Drake became Warren Hospital's first resident physician in 1925. He is a member of the Warren County Medical Society, the New Jersey Medical Society, the Medical Club of Philadelphia, the American Association of Railway Surgeons, the American Medical Association and the American Legion.

Dr. Francis G. Tonrey, 116 Hazleton Highway, South, Mountaintop, Pa., writes: "Have been under the weather, lately. Spent March in Florida and New Orleans. Much better now."

1925

Dr. Herbert T. Kelly, 1900 Spruce Street, Philadelphia 3, Pa., is President of the American Equilibration Society for 1963-64. He was inducted as President on January 31, 1963, at the Society's meeting in Chicago, Illinois. At the meeting, Dr. Kelly read a paper entitled "Vertigo Attributable to Dental and Temporomandibular Joint Causes." The American Equilibration Society was "organized for the study of lesions in the temporomandibular joint and related structures."

Dr. Charles J. Morosini, 1515 Pithon Avenue, Scranton, Pa. Writing for her husband, Mrs. Pearl Morosini says that they are very proud of their son, Dr. Charles J. Morosini, Class of 1960, who is serving three years in the Navy at Sanford Naval Base, Florida. She writes: "He interned and had his one year residency at Roosevelt Hospital in New York. After the Navy? Who knows—but he wants two more years of a residency. Jefferson certainly teaches these kids to pursue more. And as a mother and wife I'm happy. The best to all at 'Jeff' who were so kind to me."

1927

Dr. James H. Wall, 121 Westchester Avenue, White Plains, N.Y., recently made a consulting visit to the Atascadero (Calif.) State Hospital. During his two-day visit, he discussed the problem of alcoholism in medical and psychiatric practices, gave an illustrated lecture on the history of New York Hospital which was chartered in 1771 by King George III, and discussed the problems of suicide. Dr. Wall is Medical Director of the New York Hospital, Westchester Division.

1928

Dr. Milton M. Auslander, 1102 DeKalb Street, Norristown, Pa., recently attended a Congress of Surgeons of the Ear, held in Chicago, Illinois. The Congress was the second workshop on reconstructive middle ear surgery, the first having been held three years ago in Chicago. Dr. Auslander is a Diplomate of the American Academy of Otolaryngology and Chairman of the Committee of Conservation of Hearing of the Montgomery (Pa.) County Medical Society. He is on the staff of Sacred Heart Hospital and Montgomery Hospital, and is Consulting Otolaryngologist to the Norristown State Hospital.

Dr. Joseph M. de los Reyes, 2010 Wilshire Boulevard, Los Angeles 57, Calif., was presented an Americanism medal by the San Vicente (Calif.) Chapter of the Daughters of the American Revolution recently. He received the honor for "outstanding ability and accomplishment in trustworthiness, service, leadership and patriotism." Former Vice-President and past Senior Councillor of the Los Angeles County Medical Association, Dr. de los Reyes is a Fellow and former Vice-President of the American College of Surgeons, and is affiliated with nine hospitals as Consulting Surgeon.

1930

Dr. Joseph C. Mattas, 1213—14th Avenue, Altoona, Pa., has been appointed Director of the staff of Mercy Hospital in Altoona for a two-year term. Since 1941, he has been Chief of the Orthopedic Service of the Hospital.

1932

Dr. Melvin W. Thorner, 281 Brookway Road, Merion, Pa., has been appointed Professor and Director of the graduate program in Biomedical Engineering at Drexel Institute of Technology in Philadelphia. The biomedical engineering program is a joint effort of Drexel and Presbyterian Hospital, Philadelphia, to provide an interdisciplinary education utilizing developments in engineering and physical sciences in the investigation of biomedical problems. Dr. Thorner, Assistant Professor of Neurology at the University of Pennsylvania Medical School, is the inventor of the Pulssensor, a device for measuring blood pressure at the base of the brain.

1934

Dr. Stephen A. Jonas, 203 Prospect Street, Nanticoke, Pa., is serving on the Board of Directors of the Northeastern Pennsylvania Chapter of Blue Cross. His son, Lt. Stephen J. Jonas, is registrar at the base hospital of Blytheville Air Base in Arkansas.

Dr. Roscoe P. Kandle, 92 Wilburtha Road, Trenton 8, N.J., spoke on "A Report on a Medical Exchange Mission to the Soviet Union" at the annual meeting of the Community Nursing Service of Montclair, New Jersey, recently. Dr. Kandle, who is State Commissioner of Health in New Jersey, was a member of a six-man United States exchange mission to study public health services in the Soviet Union. He was the only State Health Officer to take part in the mission, which was planned by the U.S. Public Health Service. In his talk, he compared New Jersey's Public Health program with those found in the Soviet Union. Before assuming his present post in New Jersey, Dr. Kandle was First Deputy Commissioner of Health of the New York City Department of Health.

Dr. William F. Putnam, Lynne, N.H., recently was named "Outstanding Family Physician of the Year" for the State of New Hampshire. He was elected to this honor by the unanimous vote of his colleagues, members of the Association of Family Doctors, and was honored by the New Hampshire Division of the American Cancer Society in Manchester. In addition to his practice, Dr. Putnam takes an active part in the work of the Cancer Society's local division. He also serves on the Governor's Council on Aging, and is a member and trustee of the Alice Peck Day Hospital in Lebanon, New Hampshire.

1935

Dr. Leroy A. Gehris, 808 North 3rd Street, Reading, Pa., is currently serving as Chairman of the Commission on Disaster Medical Care of the Pennsylvania Department of Health.
1936

DR. LEO LAWRENCE GOLDMAN, 325 Market Street, Trenton, N.J., has been in general practice in Trenton since his graduation. He is a charter member of the New Jersey chapter of A.A.G.P., and on the staff of Mercer Hospital in the Department of Medicine.

DR. RAYMOND HEILIGMAN, 1522 North Broadway, Santa Ana, Calif., has been appointed Medical Director of Orange (Calif.) County Society for Crippled Children and Adults. Since 1955, he has been Consultant Orthopedic Surgeon at Orange County General Hospital. He is a member of the American Board of Orthopedic Surgeons.

DR. SIDNEY HODAS, 135 Branch Avenue, Red Bank, N.J., participated in a panel discussion titled "A Tribute to Hadassah Medical Organization," recently. Dr. Hodas talked about "Current Developments in Psychiatry" on the program which was held at the Jewish Community Center in Long Branch, New Jersey. He is the Head of the Psychiatric Section of Monmouth (N.J.) Medical Center's Department of Medicine. He also serves on the staffs of Fitkin Memorial and Riverview Hospitals, and is the Psychiatric Consultant to the Family and Children's Service, and the Neuropsychiatric Consultant to Allenwood Sanatorium.

1937

DR. LINDEN L. DAVIS, 22 Fairview Avenue, East Williston, N.Y., has been named the first full-time Medical Director for the Patterson Home for the Aged and Infirm at Uniondale, New York. Since March 1962, he has been Chief Consulting Physician at the home, and inaugurated its first health maintenance services. In his new post, Dr. Davis will be in complete charge of all medical, rehabilitation, and nursing services. He is a member of the Nassau Academy of Medicine, a Fellow of the American College of Physicians, and a member of the International Society of Internal Physicians and the New York Cardiological Society. Dr. and Mrs. Davis have three daughters.

DR. PETER J. IANNUZZI, 746 Main Street, Niagara Falls, N.Y., spoke at a testimonial dinner on March 30 honoring a former undergraduate schoolmate of his, Dr. Victor L. Pellicano. The dinner was held at the Century Club in Niagara Falls.

DR. LEONARD L. POTTER, 12 West King Street, Littlestown, Pa., was presented a Distinguished Service Award by the Littlestown Junior Chamber of Commerce recently. The award, highest presented by the group, was given him for "the fine example he has set for the community both morally and professionally." He is the fifth person to receive the honor which consisted of a dinner and an engraved plaque.

DR. DANIEL WILNER, 108 South Summer Avenue, Margate, N.J., was honored recently by the staff of Atlantic City Hospital for writing the best scientific paper in 1962 of any member of the staff. He was presented with a plaque for his paper on "The X-Ray Diagnosis of Hemangiona of Bone," which has been published in the American Journal of Roentgenology, Radiation Therapy and Nuclear Medicine, and was mentioned in the 1963 Year Book of Radiology. Dr. Wilner is Assistant Professor of Radiology at the University of Pennsylvania Graduate School of Medicine.

1938

DR. HAROLD L. CHANDLER, 416 Marlboro Street, Boston 15, Mass., attended the Centennial Convocation of Boston College, Saturday, April 20, as the representative of Jefferson Medical College. Dean Sodeman and President Bodine both are very grateful to Dr. Chandler who accepted their invitation to represent them at the Convocation which they were unable to attend.

1939

DR. NORMAN J. SKIVERSKY, 6810 Castor Avenue, Philadelphia 49, Pa., has been promoted to Attending Physician, Peripheral Vascular Section, Albert Einstein Medical Center, Northern Division. He writes that his daughter, Roslyn, has married Richard Squire, a law student at the University of Pennsylvania. His son, Robert, is taking pre-med at Pennsylvania State University.

1940

DR. FREDERICK R. GABRIEL, 18 Field Street, Dalton, Mass., is Associate Radiologist at the Pittsfield (Mass.) General Hospital.

DR. RICHARD I. RICH, 6627 Hilltop Lane, S.W., Tacoma 9, Wash., very kindly accepted the invitation of President Bodine and Dean Sodeman to attend a special Convocation celebrating the 75th Anniversary of the founding of the University of Puget Sound, Tacoma, Washington. Concerning the Convocation, Dr. Rich writes: "It was indeed an honor and a privilege to represent Jefferson . . . There was the customary waiting in long lines, dressed in warm robes, with many important people representing far away schools. However, I recognized many of my former professors and had a chance to greet about ten local doctors, delegates of their individual schools. The program was carried on the local television channel."

1941

DR. ARTHUR F. HOFFMAN, 3619 Harris Road, Fort Wayne, Ind., reports that he saw DR. RICHARD FLOOD, '41, at their 25th Reunion at Notre Dame in June 1962. Dr. Flood "carries his 200-plus pounds well and is enjoying a big general practice and single bliss . . . no wonder after hearing Mary and I report on our nine youngsters—six boys and three girls. We hope at least one will want to—and be permitted to—attend Jefferson."

1943

DR. ROBERT J. GIBBONS, N. E. Pa. National Bank Building, Hazleton, Pa., presented a talk titled "The Rest of the Story" to the Hazleton Kiwanis Club recently. The talk concerned the human heart. Dr. Gibbons is an Associate Surgeon at both the St. Joseph and Hazleton State General Hospitals, and President-elect of the Greater Hazleton Heart Association.

DR. WILLIAM R. O'BRIEN, 111 North 49th Street, Philadelphia 39, Pa., was guest speaker at the annual Community Day Tea given by the Women's Auxiliary to the Burlington (N.J.) County Medical Society on March 12. His topic was "Emotional Problems of Middle and Later Years." Dr. O'Brien is Head of the Department of Psychiatry of the Sick and Injured Division of the Pennsylvania Hospital, Philadelphia.

1944

DR. STEPHEN R. WETMORE, 15 Bernard Road, East Brunswick, N.J., has been appointed Associate Director of Student Health at Rutgers University, a new position which will begin July 1, 1965. Dr. Wetmore is married to the former Ada M. Silverstein, and has four children—Emily, Stephen, Louisa and Thomas.
1944

Dr. WALTER G. FORTNUM, 1202 Pond Street, Bristol, Pa., spoke on "Industrial and Compensation Medicine" at a recent meeting of the Lower Bucks (Pa.) County Registered Nurses Association. Dr. Fortnum is employed by the New Jersey Manufacturer's Association, and has four children.

Dr. ROBERT SALASIN, 6012 Pacific Avenue, Wildwood Crest, N.J., has been elected President of the medical staff of Mercy Hospital, Sea Isle City, New Jersey, for 1963. He is a Fellow of the American College of Surgeons and a Diplomat of the American Board of Surgery, Inc.

1945

Dr. THOMAS S. KNAPP, 1119 Quarry Street, Charleston 1, W. Va., who practices psychiatry, became another type of interrogator last November when he played in the prize-winning play, "Darkness at Noon." In the play, which is based on the Arthur Koestler story of the infamous Moscow purge trials, Dr. Knapp played the part of Sletkin, a sadistic Communist prison interrogator. The "severest critics" of his performance at the Charleston Civic Center Theater were his wife, Mary, and children—Rebecca, sixteen, Sherry, thirteen, and Claudia, eleven. Mrs. Knapp also is an active participant in little theater, and portrayed Helen Sherman in "The Seven Year Itch" in March 1963.

Dr. WILLIAM T. LINEBERRY, JR., Capt. (MC), USN, United States Naval Hospital, Box 44, Navy 3923, F.P.O. San Francisco, Calif., recently received a change of military orders from Beaumont, South Carolina, to Yokosuka, Japan, where he is now Chief of Surgery at the 300-bed Naval Hospital there. With his family (wife Pat and two daughters, Libby, age five, and Laura, age three), he flew to Japan by Pan American Jet at midnight, March 18, after a short stay in San Francisco. Dr. Lineberry writes concerning his family's trip to the West Coast: "We had an interesting automobile drive across country, visiting the Painted Desert, Petrified Forest, Grand Canyon, Disneyland, Knotts Berry Farm and Hollywood." While in San Francisco, the Lineberrys enjoyed "the sights, good cuisine and night life."

Dr. Lineberry expects to be stationed in Japan for three years, a prospect which thrills himself and his family. He reports that Yokosuka is about thirteen miles from Yokohama and thirty-seven miles from Tokyo. He says, "If any Jefferson Alumni travel to that area of Japan, they should look us up as we would be glad to see them."

Dr. AVERY W. MCMURRAY, 203 Lee Street, Shelby, N.C., spoke recently to members of the Morganton (N.C.) Rotary Club at a luncheon meeting. He discussed the benefits that might be gained from the local county's participation in the Red Cross Blood Program. Burke County, of which Dr. McMurry is a resident, is the only Western North Carolina county not participating in the Program.

1947

Dr. ROBERT H. BAKER, 428 South Main Street, Greenville, Pa., recently interrupted his practice for six weeks to serve among the natives of Nigeria. From the beginning of January to mid-February, he served as a volunteer instructor in modern methods of orthopedics for the benefit of native doctors. Dr. Baker was selected to serve in Nigeria by the American Board of Orthopedic Surgery in connection with a Medico Care program. Several years ago, while teaching courses for the United States Army in St. Louis, Missouri, Dr. Baker had as one of his students the late Dr. Tom Dooley, founder of Medico.

Dr. LEO J. CORAZZA, Hazleton Heights, Hazleton, Pa., has been named a Fellow of the American College of Physicians. He is Chief of Medicine at the Hazleton State General Hospital, a Consultant in Medicine to the Wilkes-Barre Veterans Administration Hospital and Berwick Hospital, a Diplomat of the American Board of Internal Medicine and a former member of the VFW National Hospital Advisory Board.

Dr. CHARLES J. RODGERS, 1434 Keller Avenue, Williamsport, Pa., writes that he and his wife, Edna, are expecting their eighth child in July.

Dr. LEONARD P. ROSEN, 5 Arthur Circle, Chester, Pa., and Mrs. Rosen entertained a number of members of the Class and their wives, Saturday evening, May 11, on the occasion of the Class of '47's 16th Reunion. The evening, which consisted of a dance followed by a buffet supper, gave all who attended the opportunity to once again resume old acquaintances.

1948

Dr. JOHN D. BEALER, Western Area Physician, American Can Company, 3rd and 20th Street, San Francisco, Calif., writes concerning his classmates: "Re-ceived a nice note from BUD (DR. FRANCIS R.) SCHWARTZ who is living in San Mateo. Tried to call him several times but he is pretty busy.

"Bumped into Bob (DR. ROBERT P.) STURR at a motel in Millbrae. He was on his way to the Seattle World's Fair. "Had dinner with John (DR. JOHN L.) and ELAINE MCCORMACK in Seattle and also talked to Monty (DR. CLERMONT S.) POWELL for a few minutes."

1950

Dr. ALBERT J. GRANT, 5321 Kenton Drive, Fort Wayne, Ind., has been appointed physician to the Allen (Ind.) County Home. Dr. Grant has served on the surgical staff of the Veterans Administration Hospital in Fort Wayne, and received additional surgical training under the preceptorship program of the Veterans Administration Hospital in Clarksburg, West Virginia.

Dr. FRANK R. HENDRICKSON, 300 North Scoville, Oak Park, Ill., was featured recently in the Chicago Sunday Tribune Magazine as part of an article titled "X-Rays—Dangerous Friend of Man." Tracing the development of the X-Ray, the article compared its use in its infancy with its use today. Dr. Hendrickson, Chairman of the Department of Radiation Therapy at Presbyterian-St. Luke's Hospital, Chicago, was pointed out as a "modern pioneer" in the expanding use of the X-Ray. Dr. Hendrickson's department has two cobalt machines as well as several X-ray units. Presently, he is experimenting with the "radiate-and-wait" technique, hoping to determine, through the use of mice, the best waiting period between doses. In 1955, Dr. Hendrickson took his bride to such famous European centers of radiology as London, Copenhagen and Gottenburg. The Hendrickson's now have three children—two boys, age five and two, and a girl, three.

1951

Dr. ANDREW J. BARGER, Reynolds Memorial Hospital, Glendale, W. Va., was one of three speakers at a seminar on heart disorders held recently in Moundsville, West Virginia. Dr. Barger's topic was "Use of X-Ray in Detecting Heart Dis-
orders.” He is full-time radiologist at Reynolds Memorial Hospital in West Virginia, and is affiliated with Wetzel County Medical Hospital.

**DR. ALFRED R. JAMISON, JR.,** 3075 Sweetbriar Circle, Lafayette, Calif., moved to California last year where he took his third year of medical residency. He is with the Permanente Medical Group in Walnut Creek, California, together with Dr. Irwin R. Fisch, Class of 1956. Last October, Dr. and Mrs. Jamison’s fifth child, Timothy Andrew, was born.

**DR. FRED W. WACHTEL,** 32 Johnson Avenue, Newark 8, N.J., writes: "Last year was a pleasant one because we had our third son, I was made a Fellow of the American College of Physicians, and I passed the sub-specialty boards examination in cardio-vascular disease of the American Board of Internal Medicine. I think we will rest a little bit now."

**DR. WILLIAM E. WALLACE,** 2325 Ridgeway Drive, S.E., Cedar Rapids, Iowa, is in his third year of private practice in Cedar Rapids, Iowa. He writes: "Juanita, Jeffrey, Robert, and I are all fine and doing well."

### 1952

**DR. JEROME I. BRODY,** Graduate Hospital of the University of Pennsylvania, 19th and Lombard Streets, Philadelphia 46, Pa., is now Assistant Professor of Medicine at the Graduate Hospital School of Medicine, and Director of Hematologic Research at both Graduate Hospital and the University of Pennsylvania. His office and laboratory are at the Graduate Hospital and he would enjoy seeing any members of his class who would care to visit.

**DR. WILLIAM K. CARLILE,** 8632 North 12th Street, Phoenix 21, Ariz., has been in charge of the Department of Pediatrics at the Phoenix Indian Hospital since completing his Pediatric Fellowship at the Mayo Clinic in 1961. He is in his ninth year in the United States Public Health Service, six of which have been spent in the Division of Indian Health. Dr. and Mrs. Carlile have six children—three boys and three girls.

**DR. IRVING P. ENEY,** 3218 Ponce de Leon Boulevard, Coral Gables, Fla., writes: "I finally entered private practice and am doing orthopaedic surgery here in Coral Gables . . . Since leaving Jeff, I believe I must have set some sort of record for being a perennial resident and last year rounded off ten years of training which included psychiatry, surgery and orthopaedic surgery. The one consolation of all this is that I have not been in trouble with Income Taxes like the rest of you established practitioners. "I occasionally see a few of our classmates here in the Miami area when they attend conventions here or pass through town.

"My best wishes to all of our friends."

**DR. LEO J. MAGUIRE, JR.,** 203 Sycamore Lane, Wallingford, Pa., was certified by the American Board of Urology in February 1962.

**DR. JACK L. MAHONEY,** 969 Pacific Street, Monterey, Calif., completed a fellowship at the Mayo Clinic in Ear, Nose and Throat following his internship in Madison, Wisconsin. After leaving the Mayo Clinic, he went directly to Monterey, California, and now has a very large and active practice. He was certified by the American Board of Otolaryngology in 1960 and became a fellow of the American Academy of Ophthalmology and Otolaryngology in 1961.

**DR. JOHN McD. McGEHEE,** 1367 Government Street, Mobile, Ala., has maintained a practice in internal medicine since August 1959 in Mobile. He has one son, almost five, and another child expected sometime this month.

**DR. LEO C. PARITYKA,** March Air Force Base, Riverside, Calif., returned in June 1962 from three years in Japan, Bangkok, Saigon, Korea and the Philippines. Presently, he is Chief of Surgical Services and Military Consultant in General Surgery for the Surgeon General at March Air Force Base.

**DR. FRANCIS W. PEDDRTTY, JR., c/o 5306 North Board Street, Philadelphia 41, Pa.,** is Clinical Associate in Surgery and Supervisor of the emergency service at The Woman’s Medical College and Hospital in Philadelphia. Chief of General Surgery at the United States Army Hospital on Okinawa for three-and-a-half years, Dr. Peddrtty left the service last summer with rank of Major in the Medical Corps, and joined the staff of Woman’s Medical College and Hospital on October 15, 1962.

### 1953

**DR. HAMPTON P. CORSON,** 1420 Club Place, Johnstown, Pa., has been named a Fellow of the American College of Obstetricians and Gynecologists. He is Associate Chief in Obstetrics and Gynecology at Memorial Hospital, Johnstown.

**DR. RALPH MAX GINGRICH,** 1325 Woodmont Avenue, Williamsport, Pa., has been named a Diplomate of the American Board of Orthopedic Surgery. He served an orthopedic surgery residency at the University of Pittsburgh Medical Center before beginning his practice in Williamsport over three years ago.

**DR. WILLIAM B. MILLBERG,** 4425 Main Avenue, Ashtabula, Ohio, was made a Fellow of the American College of Surgeons at their annual meeting in Atlantic City in October 1962. He also is a Diplomate of the American Board of Surgery and a member of the American Thoracic Society. Dr. Millberg specializes in General and Thoracic Surgery in Ashtabula.

**DR. IRWIN M. POTASH,** 8540 S. W. 43 Terrace, Miami 35, Fla., is practicing general surgery at 493 Biltmore Way, Coral Gables, Florida. He also is an Instructor in Surgery at the University of Miami Medical School.

**DR. MARVIN C. G. SNYDER,** 846 Mahoning Street, Lehighton, Pa., is in general practice. He and his wife have five children—four boys and one girl.

### 1954

**DR. NORMAN S. AMER,** 889 Kilmer Lane, Valley Stream, N.Y., says that he has finally entered into the practice of general and thoracic surgery. In addition to his work, he has "three children, one dog, six fish, and a son who wants a hamster."

**DR. CARL T. EVANS,** 2450 Kansas Avenue, Homestead Air Force Base, Florida, reports that he will get out of the service in August 1964 and hopes to have passed his boards in Obstetrics and Gynecology. He then would like to find a suitable location for his practice in suburban Philadelphia.

**DR. DONALD H. FREEMAN,** 5312 W. 58th Street, Mission, Kansas, with Mrs. Freeman and their four children will be staying at Kansas University Medical Center through 1963, since Dr. Freeman was offered and has accepted a fellowship in Hematology.
DR. NORRIS B. GROVES, 102 South Maple Avenue, Martinsburg, W. Va., was re-elected President of The Eastern Panhandle Medical Society and President of the Kings Daughters Hospital staff. He is on the Board of Directors of the Red Cross and the National Foundation, is a police medical examiner and a Medical Advisor to the Draft Board. He is Vice-President of the AMP Board of the West Virginia Alumni and active in his church vestry. Dr. Groves says that with all his extracurricular activities, he has difficulty finding time to practice medicine.

DR. NEWTON E. KENDIG, 62 East Main Street, Mount Joy, Pa., was presented a Distinguished Service Award by the Mount Joy Junior Chamber of Commerce recently. Honored for his outstanding service to the community during the past year. Dr. Kendig received a plaque and electric Hamilton watch. Approximately seventy Mount Joy Jaycees and other community leaders attended the banquet, which is held annually. In addition to his contributions to the community in the field of medicine, Dr. Kendig was honored for his work with volunteer firemen and in connection with youth recreational activities. A member of the Lancaster County Medical Society, he is also a staff member of St. Joseph's Hospital.

DR. JOHN P. McGOWAN, 109 Main Avenue, Clarks Summit, Pa., has been appointed Director of the Department of Physical Medicine and Rehabilitation at Mercy Hospital, Scranton, Pennsylvania.

DR. DONALD L. MINTEY, Clinton, Wisconsin, closed his general practice on March 2, and is studying at the Cook County Postgraduate School of Medicine. In July, he will begin a Residency in Internal Medicine at Harrisburg Hospital, Harrisburg, Pennsylvania.

DR. MILTON R. OKUN, 1683 Beacon Street, Brookline 46, Mass., was certified by the American Board of Dermatology in October 1961. In addition to private practice, he is Associate Director of the Dermatopathology Laboratory of Boston City Hospital.

DR. HENRY WM. PLETCHER, II, 52 Grant Avenue, Poughkeepsie, N.Y., is very busy with his practice, and reports that his family is in good health. He took his Boards in Obstetrics and Gynecology this year and hopes to have passed Parts I and II this Spring.

DR. BILLIE H. PUTMAN, 149 North Rose Road, Memphis, Tenn., is practicing Anesthesiology in Memphis with three associates. The group plans to increase its number soon. He would enjoy hearing from his Classmates.

DR. EDWARD A. RENQUEST, 1426 Prospect Place, Ocean City, N.J., maintains a general practice in Ocean City, New Jersey, and reports that he is "very contented with life..."

DR. EUGENE G. STEC, R.D. #2, Dalton, Pa., is married and practicing general medicine in Scranton, Pennsylvania. He and his wife have five children.

DR. RAYMOND M. WARGOVICH, 911 Huey Street, McKeesport, Pa., currently serves the Catholic War Veterans, U.S.A., Inc., as the group's National Medical Director and as a member of its national board. He also is National Medical Director of the United Societies of America and serves on the Board of Directors of the McKeesport Academy of Medicine. As a Lieutenant Commander at the United States Naval Training Center in McKeesport, he is a part of the Center's Medical Corps.

DR. WILLIAM A. WEST, Kay Drive South, Haddonfield, N.J., has been accepted as a Fellow in the American College of Obstetrics and Gynecology and has taken his boards.

DR. ANDREW J. ZWEIFLER, 1706 South University Avenue, Ann Arbor, Mich., is still at the University of Michigan and recently was certified by the American Board of Internal Medicine.

1955

DR. JOHN G. ASPRIE, 342 Shadowlawn Avenue, Pittsburgh 16, Pa., is still in general practice in Pittsburgh, and does part-time industrial medicine for American Cyanamid Company at their Bridgeville, Pennsylvania, plant.

DR. LOUIS BRAHEN, 100 York Street—17B, New Haven 11, Conn., has been named Associate Professor of Pathology and Director of Clinical Laboratories at Grady Memorial Hospital, part of the Emory University Medical School, Atlanta, Georgia. For the past three years, Dr. Brahen has held the position of Associate Director of Clinical Laboratories at the Yale-New Haven Medical Center with faculty appointments in Medicine and Pathology. Prior to this appointment, he spent a year at Yale as a Fellow in Clinical Chemistry with Dr.

David Seligson, and, before that time, spent two years at Cedars of Lebanon Hospital, Los Angeles, California, as a Clinical Fellow in Pathology.

Dr. Brahen has published articles on Hyaline Membrane Disease, Bilirubin determination, Carotene and Malabsorption states, and other subjects. He also co-authored a chapter on "Clinical Pathology." His current investigations are concerned with hemoglobin analysis and blood coagulation.

DR. ROBERT D. CORDIER, 3351 Druid Lane, Los Alamitos, Calif., has been busy travelling for NASA. During 1962, he was in Spain, Canary Islands, Texas, Florida, Hawaii, Midway, and many points between. Dr. Cordier and his wife, Gloria, recently had their fourth son, sixth child. The latest arrival, Brian, joins Bobby, Lynda, Clifford, Gregory and Lizbeth.

DR. JOSEPH S. HARUN, 7526 Mountain Avenue, Melrose Park, Philadelphia 26, Pa., has been appointed Assistant Attending Physician in Dermatology at Philadelphia General Hospital. He is on the staffs of Holy Redeemer and Nazareth Hospitals, Philadelphia, and is an Instructor in Dermatology at the University of Pennsylvania School of Medicine.

DR. MICHAEL F. JOYCE, 2000 Devereaux Street, Philadelphia 49, Pa., has been named a Diplomate of the American Academy of Orthopedic Surgeons.
Associate Director of Orthopedic Surgery at Holy Redeemer and Nazareth Hospitals in Philadelphia, Dr. Joyce is a member of the American Medical Association, the Pennsylvania State Medical Society, Philadelphia County Medical Society and the Philadelphia Orthopedic Society. Married to the former Alice L. Clarke, he has five daughters.

Dr. James G. Mackey, Jr., 266 Wentworth Road, Strathmore, Wayne, Pa., is in his fourth year of general practice in Devon, Pa.

Dr. Joseph I. Maguire, 467 Derwyn Road, Drexel Hill, Pa., completed his residency in Obstetrics and Gynecology at Fitzgerald-Mercy Hospital, Darby, Pennsylvania, and has been practicing in Upper Darby, Pennsylvania since July 1, 1960.

Dr. Ernest L. McKenna, Jr., 5 Woodstock Road, Villanova, Pa., is specializing in Otolaryngology and Bronchoeosophology in Wayne, Pa. He says: "Kathleen and I have five children and are settled happily in neighboring Villanova, Pa."

Dr. James A. Murray, 502 Van Buren Street, Fostoria, Ohio. In addition to his general practice, Dr. Murray is Plant Physician to the Spark Plug Division of Ford Motor Company, to National Carbon Company, a Division of Union Carbide Chemical Corporation, to the local Excello plant, and to several smaller industries. He also is Medical Advisor to the Fostoria City Board of Health, plus practicing Obstetrics and General Surgery. Dr. and Mrs. Murray now have "three lovely children—two boys and a girl."

Dr. Guy L. Schless, 330 South 9th Street, Philadelphia 7, Pa., is an Instructor in Medicine at the University of Pennsylvania School of Medicine and is in charge of the Physical Diagnosis course for third-year students. He is in practice with Dr. Theodore Garfield Duncan, Class of 1955, at Pennsylvania Hospital and Benjamin Franklin Clinic in Internal Medicine and Metabolism.

Dr. Thomas B. Templeton, 331 Colony Road, Statesville, N.C., has been certified as a Diplomat by the American Board of Internal Medicine. He has practiced internal medicine in Statesville since September 1961. Dr. Templeton is married to the former Betty Mallard, and has two children.

Dr. Thomas H. Voshell, 4504 Morgan Lane, Trent Woods, New Bern, N.C., is Senior Medical Officer on the aircraft carrier Shangri-La, CUA (jets). He spent the summer of 1962 in the Mediterranean and, from October 1962 to March 1963, his ship was docked in the Brooklyn Navy Yard. In March, the ship returned to its home port in Florida where it will be in and out of port until October 1963. At that time, Dr. Voshell will again sail to the Mediterranean where he will be for several months.

Dr. David O. Zenker, 15 Fairfield Drive, Morristown, N.J. In November 1962, Dr. Zenker passed his E.N.T. boards and opened his own E.N.T. office in Morristown at 44 Maple Avenue. While in Chicago taking his boards, he saw Dr. Louis H. Clerf, Class of 1912, and former Professor of Otolaryngology at Jefferson, and reports that Dr. Clerf "looks wonderful."

Dr. Zenker also says that his wife and three children are fine.

1956

Dr. James P. Boland, Resident in Thoracic Surgery, University of Texas, Southwestern Medical School, Dallas, Texas, reports that he "won't be back to the cold North until 1964."

Dr. Charles L. S. Brennan, Jr., 16 South Broadway, Gloucester, N.J., writes that he still has only two children—Tracie, almost three years old, and Charles, III (Chip), almost six. He says that he is active on the radio as a hobby, and less active on the golf course "because I am a bad golfer." He and his father, Dr. Charles L. S. Brennan, Class of 1924, are still active in practice together.

Dr. Alfred D. Christie, 564 Grand Avenue, West Trenton, N.J., is in general practice and is associated with Mercer Hospital in the Department of Medicine. Dr. and Mrs. Christie have five children.

Dr. Paul Drucker, 929 Eden Avenue (Apartment C), Highland Park, N. J., has started practicing Obstetrics and Gynecology in Edison Township in New Jersey. He says that he is "pleased with the location" and is "patiently awaiting the crowds."

Dr. Hilliard C. Gersten, Resident in Anesthesiology, Presbyterian Hospital, New York City, N. Y., will return to Long Branch, New Jersey, to practice after completing his residency in July.

Dr. C. Warren Koehl, Jr., Haddonfield Hills, R.D. #4, Dallas, Pa., has been named a Diplomate of the American Board of Pathology. Dr. Koehl is Associate Pathologist at Wilkes-Barre (Pa.) General Hospital and Wyoming Valley Hospital. He and his wife, Barbara, have three children.

Dr. James B. Lee, Department of Metabolic Research, St. Vincent's Hospital, 25 Winthrop Street, Worcester, Mass., recently became Director of Metabolic Research, working mainly on Kidney intermediary metabolism and hypertension. He writes that he is enjoying it very much.

Dr. Warren M. Levin, 2750 Richmond Terrace, Staten Island 3, N. Y., announces that as of March 16, 1963, he has an associate in his general practice.

Dr. Robert M. Pearl, 8303 Gulf Freeway, Houston 17, Texas, is in private practice of Otolaryngology in “Space City, U.S.A.”

Dr. Jack D. Rubin, 127 Livingston Avenue, New Brunswick, N. J., has opened an office in New Brunswick, New Jersey for the practice of Internal Medicine and Gastroenterology. After serving in the Army for two years, Dr. Rubin spent two years of a residency in Gastroenterology under a combined Bellevue-Manhattan Veterans Administration program. He is a member of the Cornell-Bellevue Gastroenterology Group, and is married with one child.

Dr. Bertram H. Shapiro, 50 Glenwood Avenue, Jersey City 6, N. J., is engaged in the private practice of Anesthesiology at the Jersey City Medical Center.

Dr. Frederick H. Wilhelm, 6313 Landover Road, Apt. T-3, Cheverly, Md., has completed a residency in Internal Medicine at Montefiore Hospital in New York. He and his family have moved to Cheverly, Maryland, where he is a staff physician at Glenn Dale Hospital, Glenn Dale, Maryland.

1957

Dr. Herbert G. Aaronson, 7756 Green Valley Road, Wyncre, Pa., is working part-time with the Abington Mental Health Clinic, Abington, Pennsylvania, and has opened his office for
the practice of Psychiatry at the Wyncote House, in Wyncote. He completed his residency training at Norristown (Pa.) State Hospital in June 1961 and accepted an appointment as an Arthur P. Noyes Research Fellow in Psychiatry at Norristown State. This appointment lasted until April 1962, at which time he went to Abington.

DR. CESARE R. ANTONIACCI, 67 Clinton Avenue, Millburn, N. J., is engaged in private practice of Psychiatry in South Orange, N. J. He opened his office there in January 1962.

DR. JOSEPH D. CIONNI, 603 Scriven Road, Goldsboro, N. C., completed his pediatric residency at Children's Hospital, Cincinnati, Ohio, on December 31, 1962. Presently, he is in charge of the Pediatric Department at Seymour Johnson Air Force Base in North Carolina.

DR. HARRY J. HASSEL, 163 Lyndale Avenue, Brookfield, Ohio, is engaged in the private practice of Anesthesiology in Youngstown, Ohio, and is associated with Youngstown Hospital.

DR. ROBERT L. KASHOFF, York and Keith Roads, Abington, Pa. Having completed his residency training, Dr. Kashoff now practices Child and Adult Psychiatry in Abington, Pennsylvania, both privately and at the Abington Memorial Hospital Mental Health Clinic.

DR. WILLIAM T. LAMPE, II, 436 West Market Street, York, Pa., presently is doing arteriography using the Seldinger Technique and soon will begin angiography at York Hospital. He writes: "We hope to have a cineangiographic unit within one year to begin taking movies of our renal, cerebral, and angiocardiogram."

DR. IVAN C. LANDES, Valley Forge Road, Fairview Village, Pa., says that he has a very good practice and has moved into a new office which "is a home turned into an office entirely."

DR. ALLAN LERNER, 8310-12th Avenue, Silver Spring, Md., holds the rank of Captain in the United States Air Force Medical Corps. Currently he is serving as a Pathologist in the American Registry of Pathology of the Armed Forces Institute of Pathology in Washington, D. C. He reports that his family is enjoying the area very much.

DR. DIVO ANGELO MESSORI, Resident in Internal Medicine, Grasslands Hospital, Valhalla, N. Y., will return to Jefferson in July as a Fellow in Gastroenterology.

DR. MICHAEL A. ORIENTE, 918 Catherine Street, Philadelphia 47, Pa., is married to the former Isolon Morano and has two children. He is in general practice in South Philadelphia.

DR. MATTHEW LEE SCHAEBLER, 316 Jefferson Boulevard, Lincoln Park, Reading, Pa., is engaged in general practice. The Schaeblers have four children, three girls and a boy.

1958

DR. BARRY L. ALTMAN, 31 Argyle Terrace, Irvington, N. J., completed his tour of duty with the Army and is now a Resident in Urology at the East Orange Veterans Administration Hospital. He is looking forward to the Class of '58's Reunion in June.

DR. ROGER HARRISON BRODKIN, 22 Ball Street, Irvington 11, N. J., has moved his dermatology practice from New York to New Jersey.

DR. SHIELDS C. BROWN, Cincinnati General Hospital, Cincinnati, Ohio, will complete his residency in orthopedics in July, and is in the process of looking for a place to practice. He hopes to be able to attend the reunion in June.

DR. JAY SHELTON COX, Lt., U. S. Naval Hospital, Bethesda 14, Md., started a residency in orthopedics last July after three years as a flight surgeon on the West Coast and in the Pacific.

DR. F. R. CROUSE, 206 Cedar Lane, Portsmouth, Va., finished his residency in Psychiatry at Jefferson in June 1962, and entered the Navy on the Berry Plan. Presently, he is serving on the Psychiatric staff of the U. S. Naval Hospital in Portsmouth, Va.

DR. DONALD M. DILL, 1105-8th Street, Coronado, Calif., writes: "Well, here it is our five year anniversary. It really doesn't seem that long in some ways and in others it seems twenty years."

"I am going into general practice here in Coronado by myself. I am a member of the American Academy of General Practice and have an office here already open. I am on terminal leave from the Navy. We recently bought an old house and are busy finishing it and moving in. All in all, my life is quite busy and I enjoy general practice very much."

DR. DONALD N. DUBROW, Brooks Air Force Base, 6570th USAF Dispensary, San Antonio, Texas, writes: "I am to be discharged from the United States Air Force, Brooks Air Force Base, Texas, after four years of service, in June 1963. Since May 31, 1962, I have been Commander of the 6570th USAF Dispensary. This recent duty is indeed the most challenging of my entire medical career. I am in charge of a unit of fifty people of varying levels of learning. . . . I am most proud of my association with the Air Force and am gratified that I can serve my country in even this small way. In July 1963, I begin a residency in Internal Medicine at Baylor University Medical Center in Dallas, Texas. We're all Texans now, y'all!"

DR. JULIAN D. FELDMAN, 2277 North 51st Street, Philadelphia 31, Pa., will finish his four-year residency in Obstetrics and Gynecology at Jefferson in June.

DR. ROBERT H. FESSLER, Alpha Building—Suite 523, Easton, Pa., recently was appointed as an Assistant in the Ophthalmology Division of the Department of Surgery at Easton Hospital. Following his internship at Jefferson, he studied at the University of Pennsylvania Graduate School of Medicine in 1959-60 and was a Resident in Ophthalmology at Wills Eye Hospital, Philadelphia, from 1960 to July 1962.

DR. MORREN J. GREENBURG, 613 Indiana Avenue, Farrell, Pa., reports that his practice is getting very busy. He is doing a great deal of industrial and athletic medicine. His third boy, Phillip Charles, was born August 4, 1962.

DR. ROBERT E. GROSS, 1244 Pepper Villa Drive, El Cajon, Calif., is in general practice with three other physicians in El Cajon, a suburb of San Diego. His office address is 148 South Orange Street.

DR. HERBERT G. HOPWOOD, JR., 324 Forest Knoll Road, Knollwood, Lake Bluff, Ill., recently was elected a Junior Fellow in the American College of Obstetricians and Gynecologists. He would enjoy seeing any class member who is in Chicago.

DR. BERTRAM D. HUROWITZ, 1545-B Cedar Street, Ft. Dix, N. J., currently
is serving in the U. S. Army at Fort Dix, New Jersey. He completed a residency in internal medicine in July 1962.

**DR. GEORGE A. JACK, LT., MC, USN, Naval Air Transport Squadron Three, McGuire Air Force Base, N. J.,** writes: "After four years with the U. S. Navy, during which time I've seen the world many times over, I will be released this coming June to the Reserves. I will begin residency at the University of California in San Francisco for four years of combined Radio-therapy, Radio-diagnosis and am looking forward to June with great anticipation."

**DR. JULIAN MAYRO, c/o 1520 Spruce Street, Philadelphia 2, Pa.,** recently became a member of the United States Army and reports that he has "an awfully nice spot in the General Medical Department at Valley Forge General Hospital." Before entering the Army for a two-year tour of duty, Dr. Mayro completed his residency in Internal Medicine.

**DR. THOMAS F. MCGARRY, 2730 Clayton, Philadelphia 15, Pa.,** is co-Director of the Electrocardiography Section of Cardiovascular Disease in the Department of Medicine at Hahnemann Medical College and Hospital in Philadelphia. He is an Instructor in Medicine at Hahnemann and Junior Attending Physician in Cardiovascular Disease and Internal Medicine at the Hospital.

**DR. WILLIAM H. McMICKEN, Staff, Consobron Six, c/o F.P.O. New York, N. Y.,** recently started his residency in Internal Medicine. Formerly, he was Medical Officer with Submarine Squadron Six in Norfolk, Virginia.

**DR. DAVID B. PROPERT, U. S. Naval Hospital, Key West, Fla.,** has completed a residency in internal medicine.

**DR. CHARLES D. SCHLOSS, Ohio State University Hospital, Columbus, Ohio,** is a Resident in Radiology at Ohio State.

**DR. WILLIAM A. STECHER, Department of Radiology, University Hospital, Baltimore 1, Md.,** is serving his residency in radiology following a two-year tour of duty with the United States Air Force, with one year in Iceland and the second year in San Francisco. Before entering the service, he interned at Delaware Hospital in Wilmington, Delaware, took a two-month trip to the West Coast and then practiced for four months. Dr. Stecher reports that he is "still happily single."

---

**1959**

**DR. HOWELL E. COOK, JR., 26 East Verona Avenue, Pleasantville, N. J.,** was guest speaker at a recent dinner-meeting of the Atlantic-Cape May (N. J.) County Dental Society. In addition to his private practice, Dr. Cook is a member of the teaching staff of the Department of Oral Surgery, Farleigh Dickinson School of Dentistry.

**DR. HENRY A. GREENAWALD, 2743 North 5th Street, Harrisburg, Pa.,** is a Resident in Medicine at the Polyclinic Hospital in Harrisburg.

**DR. MILTON L. KOLCHINS, 86 USAF Tactical Hospital, USAFE APO 12, New York, N. Y.,** entered the Air Force after completing his residency in Pediatrics at Children's Hospital in Pittsburgh, Pennsylvania. He is now stationed in Southern Germany.

---

**1960**

**DR. JACK BOCHER, c/o Medical Officer, U. S. Naval Security Group Activity, Winter Harbor, Maine,** writes: "I received simultaneous acceptances for a residency in Orthopedic Surgery from Mayo Clinic and the University of Pittsburgh. I chose the latter, and will start upon completion of my naval service, July 1, 1963. Our two children, Sheri and Steve, were three and one years, respectively, in December. With the blessings of the Government, I have a small general practice in my off time, there being no M.D.'s or hospitals in a thirty-mile radius. This has been both an exciting and challenging experience. We hope to renew old friendships when we return to 'Continental U.S.A.'"

**DR. ROBERT P. BRIDENRAUGH, Oakdale Road, Martinsburg, Pa.,** and his family recently moved to a new home in Martinsburg, where he has established a general practice. His offices are incorporated in his home. For the past two years, he has been at the York Hospital, York, Pennsylvania, serving his residency in Internal Medicine.

**DR. GEORGE R. CONSTABLE, 288 Thicket Street, South Weymouth, Mass.,** writes: "Army life really has been enjoyable so far except for a real lack of any academic medicine, but I've at least been able to keep a hand in it by doing a great deal of reading. I get out in August and I'm going back to Lankenau in Internal Medicine. Our daughter, Kathy, is really growing up fast and she sure is a ball of fire. We actually don't know what we ever did without her. Joan is fine and expecting our second in about seven weeks (as of March 5)."

**DR. RICHARD H. DUNKELBERGER, Capt., 05216848, Hq. 8th Div. Arty., APO 34, New York, N. Y.,** has been with the United States Army Medical Corps in Germany since September 1961, following his internship. He served as Battle Group Surgeon for 1st B.C. 16th Infantry until August 1962, and presently is Eighth Division Artillery Surgeon. He plans to begin a residency in Internal Medicine at Cook County Hospital, Chicago, in July 1963.

**DR. ALFRED J. FINN, United States Army Dispensary, Fort Niagara, Youngstown, N. Y.,** reports little news except that he was one of the thousand doctors drafted during the Berlin crises and "subsequently endured my last year here at Fort Niagara."

**DR. ROBERT A. HARTLEY, 1310 Newell Avenue, Norfolk, Va.,** is still with the United States Public Health Service. In July 1963, he expects to begin a residency in internal medicine at Baltimore also in the Public Health Service. Dr. and Mrs. Hartley now have a little girl—Melinda Carol—born July 4, 1962.

**DR. FRANCIS J. HERTZOG, 1610 Andrews Drive, Cahokia, Ill.,** says that he and his wife are living in Illinois where he is currently stationed with the United States Army in St. Louis. He writes: "Doris and I are both impressed with the expansion plans outlined in the BULLETIN. It's almost fantastic and a tremendous step forward. Sorry to see that the Phi Chi house will have to go, though."

**DR. MAURY HOBERMANN, 49th Tac Hospital, APO 123, New York, N. Y.,** writes from Germany: "Germany's pretty nice and have been doing some traveling in Sweden, France, Luxembourg and Libya. Getting a fair amount of flying, although not too much jet fighter time and I can't complain about being overworked."

**DR. MARVIN E. JAFFE, 10th General Dispensary, APO 757, New York, N. Y.,** writes: "I am still Preventive Medicine Officer for Northern Area Command, Germany. I stay until September 1964, at which time I suppose I'll have to get back to work."
Dr. Harvey M. Levin, 5635 North Marvine Street, Philadelphia 41, Pa., is a resident in Obstetrics and Gynecology at Methodist Hospital in Philadelphia.

Dr. Arch F. Meredith, Jr., Letterman Army Hospital, (Air Force)—Box 183, San Francisco, Calif., is now in his second year of an eye residency and enjoying it very much. He and his wife, Fran, have three youngsters.

Dr. Paul L. Mitchell, 8201 West 30½ Street, Minneapolis, Minn., is working with Dr. Ancel Keys while in the United States Public Health Service.

Dr. Joseph T. Pintimalli, 5101 Cottman Avenue, Philadelphia 49, Pa., serves on the staffs of Holy Redeemer Hospital and Nazareth Hospital in Philadelphia.

Dr. Wilmer M. Rutt, Hospital Grande Riviere du Nord, Grand Riviere du Nord, Haiti, is completing his second year in Haiti, and plans to begin an internal medicine residency at Henry Ford Hospital in Detroit in July. He reports that the Hospital Grande Riviere du Nord is a small thirty-bed hospital with a large clinic. He describes his stay there as "an enjoyable two years, at a pace less rapid than the U. S."

Dr. Bernard Schneider, 18 Westminister Drive, Hampton, Va., is serving as a Radiologist at Langley Air Force Base in Virginia. He holds the rank of Captain.

Dr. Frederick H. Shisler, 242 Stewart Gardens, Stewart Air Force Base, Newburgh, New York, is doing general practice in the Class A Dispensary. He holds the rank of Captain.

Dr. Harvey D. Silver, 23 Lakeview Drive, West Orange, N. J., is with the Army Medical Corps, stationed at Fort Dix, New Jersey.

Dr. Raymond J. Vivacqua, 1312 Ritter Street, Philadelphia 48, Pa., is in his second year of a residency in the Department of Medicine.

1961

Dr. William J. Antognoli, 532 Melville Street, Philadelphia 43, Pa., is a resident in Pathology at the Hospital of the University of Pennsylvania.

Dr. Joseph D. Avellino, 1617 South 13th Street, Philadelphia 48, Pa., is stationed at the Army Chemical Center in Maryland with the United States Army Medical Corps. He was married to the former Joan Ingenito last July, and they are expecting their first child sometime this month.

Dr. E. Stephen Emanuel, 4632 Kansas Street (Apartment 6), San Diego 16, Calif., is temporarily residing in San Diego while he is fulfilling his military obligation in the United States Naval Reserve.

Dr. John H. Gould, Main Street, Shiloh, N. J., writes that he is in general practice and enjoying it.

Dr. Jerry DeWitt Harrell, Jr., Det. #1, United States Army Medical SVC, Carib Fort Clayton, Canal Zone, is serving at the Fort Clayton Dispensary along with Dr. Richard A. DeMeeo, '61.

Dr. Barry Micheal Kotler, USAF, MC, Det. 1, 6022nd USAF Hospital, APO 328, San Francisco, Calif., is stationed at Yokota Air Force Base, Japan, approximately twenty miles from Tokyo, for a three year tour of duty. He is doing general medical work, as well as serving in the flight surgeon's office supervising some of the medical aspects of flying. He is assigned to a B-57 bomber squadron. He writes, "The culture and experience are excellent and we feel that so far our time in the service has been well spent."

Dr. John P. Lesniak, 102 Lansdowne Avenue, Clark's Summit, Pa., discussed "Medical Problems Pertinent to Women" at a meeting of the Altar and Rosary Confraternity of Christian Mothers, Our Lady of the Snows Church in Clark's Summit, recently. Following the completion of his internship at Misericordia Hospital, Philadelphia, in June 1962, Dr. Lesniak opened a general practice in the Clark's Summit Medical Arts Building. He is married to the former Miss Madelyn Miller; they are the parents of two daughters.

Dr. Charles E. Lutton, 9510-C Fordham Road, Philadelphia 14, Pa., is doing postgraduate training in Pathology at Jefferson.

Dr. Robert E. McLaughlin, 65 Hobart Street, Braintree, Mass., is a first-year surgical resident at Boston City Hospital in Boston, Massachusetts, and plans to enter the Air Force in July.

Dr. Harold L. McWilliams, Jr., Medical Department, U.S.S. Enterprise, CUA (N) 65, c/o FPO, New York, N. Y., has been on board the Enterprise since August 1, 1962. He will be serving with the United States Navy until August 1964.

Dr. Elliott Perlin, 315 West Little Creek Road, Norfolk, Va., is on active duty in the Navy, stationed aboard the U.S.S. Orion. He expects to receive orders soon for Iwakuni, Japan. He and his wife, Carole, have three children—Amy, George and Daniel.

Dr. Thomas C. Reef, 1523 8th Street, Cuyahoga Falls, Ohio, is serving an orthopedic residency at Akron (Ohio) City Hospital. He and his wife have two daughters, Karen Sue and Laura Ann.

Dr. Donald K. Roeder, Box 8, Navy No. 568, c/o FPO, New York, N. Y., writes: "Ann and I are enjoying life in Iceland with the U. S. Navy. We had a much warmer winter than all of you folks far to the South! Our low temperature was 19 degrees above zero!"

Dr. Stanton N. Smullens, 165 Magruder Street, Walters Village, Mineral Wells, Texas, currently is serving as a General Medical Officer at the United States Army Hospital, Camp Walters, Texas. He plans a neurosurgical residency in the East following his time in the service.

Dr. J. Jordan Storlazzi, Delaware Hospital, 501 West 14th Street, Wilmington 99, Del., is in his first year of a residency in Pediatrics.

Dr. William A. Sugden, c/o 227 Butler Street, Kingston, Pa., helped support mock aggressor and friendly forces with other members of the Command during Exercise "Timberline" in the wilderness of central Alaska recently. The exercise was a joint combined maneuver involving Alaskan Command units, Army and Air Force units from the continental United States, and Princess Patricia's Canadian Light Infantry.

Dr. Paul R. Sweeterlitzsch, Delaware Hospital, 501 West 14th Street, Wilmington 99, Del., will begin a residency in Orthopedic Surgery on July 1 at St. Luke's Hospital in New York City.
Engagements, Weddings and Births

Engagements

1955
Dr. Andrew J. Kapcar, Box 314, Fredericktown, Pa., will marry Miss G. Maxine Kniseley of Washington, D.C., in June. Miss Kniseley was graduated from Fairleigh Dickinson University School of Nursing.

1957
Dr. Norman Berger, 200 North Union Avenue, Havre de Grace, Md., will marry Miss Jane Tash of Washington, D.C., in June. Miss Tash attended the University of Maryland, and presently is a student at American University.

1958
Dr. Austin P. Murray, Jefferson Hospital, Department of Ophthalmology, Philadelphia 7, Pa., recently became engaged to Miss Joan Mae Vercusky of Freeland, Pennsylvania. A graduate of Chestnut Hill College, Philadelphia, Miss Vercusky presently attends the University of Pennsylvania Graduate School of Education, Philadelphia, and is a member of the faculty of the Camden, New Jersey, School System. Dr. Murray is completing his residency in Ophthalmology at Jefferson. An October wedding is planned.

1960
Dr. Harvey E. Wentzel, Jr., c/o 1113 Saville Avenue, Eddystone, Pa., was married in the Fall of 1962. He is a resident in dermatology at Graduate Hospital, Philadelphia.

Dr. Walter K. W. Young, Graduate Hospital, Department of Otolaryngology, Philadelphia 46, Pa., married the former Joan Nichols, a nurse from Bethlehem, Pennsylvania, on March 30, 1963. The wedding took place at Rosemont Lutheran Church, Bethlehem. Dr. Young will be continuing an ENT residency at New York Upstate Medical Center, Syracuse, New York. Best man in his wedding was Dr. Robert H. Stone, ’60, and Dr. Eugene T. Morita, ’62, one of the ushers.

Weddings

1960

1949
Dr. Howard DeW. Easling, 315 East Maple Avenue, Merchantville, N.J., announces the birth of his second child—first girl—in May 1962. Her name is Joann.

1954
Dr. Francis J. Nash, 10 Cape Cod Lane, Milton 87, Mass. Dr. and Mrs. Nash welcomed their fifth child and fifth son, Patrick Harold, January 1, 1963. Dr. Nash is still practicing Obstetrics and Gynecology and teaching part-time at Tufts Medical School.
1956

Dr. Eugene F. Bonacci, Capt. (MC), Kimbrough Army Hospital, Fort George Meade, Md., announces that he and his wife are the proud parents of their fourth child, second son, born March 21, 1963. Dr. Bonacci will complete his tour of duty with the U.S. Army in July and will begin a practice of surgery in the New Jersey Metropolitan area. He recently was named a Diplomate of the American Board of Surgery.

Dr. Raymond M. Kostrzewa, 980 South Broad Street, Trenton, N.J., announces the birth of a son, Raymond Joseph, in October 1962. His other offspring are Cathy, almost four years, and Jim, almost three.

1959

Dr. Leonard Clair Baldauf, Jr., 1001 North Swan Road, Tucson, Ariz., welcomed his third child, John Michael, on December 29, 1962. Dr. and Mrs. Baldauf have two other offspring—Leonard, Jr., almost three years old, and Kenneth, almost two.

1960

Dr. Connell J. Trimber, MC
Flight Surgeon's Office, Naval Air Facility, Andrews Air Force Base, Washington 25, D.C., is the father of a son, Connell, Jr., born in Reykjavik, Iceland, on October 24, 1962. Mrs. Trimber is the former Mary Anne Callan who was a member of Jefferson's Department of Surgery. After serving one year in Iceland, Dr. Trimber is looking forward to two years of duty at Andrews Air Force Base. His former post in Iceland has been taken over by Dr. Thomas A. Ward, Class of 1961.

1961

Dr. David K. Subin, Jefferson Hospital, Philadelphia 7, Pa. Scott Michael, first child of Dr. and Mrs. Subin, was born March 10, 1963. He weighed seven pounds, six ounces.
