139th Commencement Exercises

President Bodine (right, above) delivers Invocation.
As requested by the Graduating Class,
Dr. John B. Montgomery (right, below)
administers Hippocratic Oath
PHILADELPHIA'S venerable Academy of Music again reverberated with the impressive sounds of graduation as the degree of Doctor of Medicine was conferred upon 148 members of the Class of 1963 on Friday, June 14.

President William W. Bodine, Jr., opened the 139th Commencement Exercises with the Convocation, in which he warmly welcomed the graduates and guests.

He stated that four years ago 171 young men — chosen from almost 1500 applicants — had been admitted to the freshman class, representing 71 different undergraduate institutions and coming from 16 states and foreign countries. With the awarding of M.D. degrees to 148 graduates, Mr. Bodine announced with pride, Jefferson's list of graduates would be swelled to 20,370, an all-time high for any medical school in the country. The Class of 1963 also increases Jefferson's living Alumni to 6,796, the largest number of physicians representing any one United States medical school presently serving the free world.

President Bodine stressed the importance of the quality of Jefferson's contribution to humanity as the College's prime objective.

"Medical education in the United States," he said, "as in all progressive nations of the world, has made tremendous advances in recent years, and today, our medical schools
have as their threefold objective the training of the physician, the seeking of new knowledge and the caring for the sick." He stated that the realization of this threefold objective would be furthered by Jefferson's $41 million development program.

President Bodine emphasized to the graduates the immense gratification which is the physician's reward for working so intimately with fellow human beings for their betterment.

In closing, he said that Jefferson graduates must not only excel as physicians but also as leaders in civic affairs.

"The challenge of society," President Bodine concluded, "is such today that a citizen must prove himself highly competent in both his profession and his grasp of world events if he hopes to fully realize success."

Dr. William A. Sodeman, Dean and Vice-President for Medical Affairs, then presented the candidates for degrees which were conferred by President Bodine.

Dr. John B. Montgomery, Professor of Obstetrics and Gynecology and Chairman of the Department, led the candidates for medical degrees in the Oath of Hippocrates. In his introduction, Dr. Montgomery said to the Class of 1963, "Today you become physicians. The free practice of medicine in our great country is a public trust that you will inherit by virtue of the faithful service of many generations of physicians. These men have regarded this public trust as a sacred obligation to advance the knowledge of medicine and to dedicate themselves to the welfare of their fellowmen. To this end it has been an age-old custom for medical students, upon their graduation, to dedicate themselves to this obligation by taking the Oath of Hippocrates."

In addition to the Doctor of Medicine degrees, seven men and one woman received the degree of Doctor of Philosophy, and six Master of Science degrees were conferred.

Due to the number of individual prizes merited by the graduating class, Dean Sodeman asked that one member of the Class, Dr. Francis Tompkins Fitzpatrick, step forward to represent his prize-winning classmates. Dr. Fitzpatrick received the Alumni Prize for the best general average obtained in the examinations for the entire curriculum, and Honorable Mention for the Gynecology Prize.

Other members of the Class who received awards were: Dr. Thomas Edward Klump, awarded The Henry M. Phillips Prize in Medicine, W. B. Saunders Company Prize, and Gynecology Prize; Dr. Philip M. Feldman,
The Henry M. Phillips Prize in Surgery; Dr. Joel J. Nobel, Practice Prize and Surgery Prize; Dr. Harry David Carrozza, Clinical Surgery Prize, The Carroll R. Mullen Memorial Prize in Ophthalmology, and Honorable Mentions for the Gynecology and Urology Prizes; Dr. Robert Charles Gallo, Solomon Solis-Cohen Memorial Prize; Dr. Joseph Morris Farber, The Henry Keller Mohler Memorial Prize, Obstetrics and Gynecology Prize, William Potter Memorial Prize, and Honorable Mention for The Carroll R. Mullen Memorial Prize in Ophthalmology; Dr. Robert Charles Gallo, Solomon Solis-Cohen Memorial Prize; Dr. Joseph Morris Farber, The Henry Keller Mohler Memorial Prize, Obstetrics and Gynecology Prize, William Potter Memorial Prize, and Honorable Mention for The Carroll R. Mullen Memorial Prize in Ophthalmology; Dr. Ronald Otto Gilcher, The Lowell Ashton Erf Prize; Dr. Kent Dalberg Shinbach, Psychiatry Prize; Dr. James Earl Barefoot, S. MacCuen Smith Memorial Prize; Dr. John Major Fenlin, Jr., Orthopedic Surgery Prize; Dr. Richard Ulysses Delp, Urology Prize; Dr. William Hart Leschey, Jr., Neurology Prize. The C. V. Mosby Company Prizes were awarded to Drs. Arthur David Magilner, William Anthony Merlino, Stephen Joseph Munzer, Philip M. Feldman and William Hart Leschey, Jr.

The following graduates also merited Honorable Mentions: Dr. Melvin Yudis, Obstetrics and Gynecology Prize and The Carroll R. Mullen Memorial Prize in Ophthalmology; Dr. David Edmund Glow, Obstetrics and Gynecology Prize; Dr. John McTeer Stehlik, S. MacCuen Smith Memorial Prize; Dr. Michael Harvey Weller, Orthopedic Surgery Prize.

Dean Sodeman then presented The Christian R. and Mary F. Lindback Award for Distinguished Teaching to two faculty members. Dr. David R. Morgan, Professor of Pathology and Curator of the Museum, received the Lindback Award for a senior member of the faculty; Dr. Frank J. Sweeney, Jr., Associate in Medicine, was the junior faculty member who received the honor.

Following the Lindback Awards, President Bodine conferred honorary degrees on four distinguished figures: Thaddeus Lemert Montgomery, A.B., M.D., Professor of Obstetrics and Gynecology, Emeritus, and Jefferson graduate, Class of 1920; Herman Joseph Mul-
ler, B.A., M.A., Ph.D., Distinguished Service Professor of Zoology, at Indiana University; Lammot DuPont Copeland, B.S., President of DuPont de Nemours and Company; The Honorable William Warren Scranton, B.S., LL.B., Governor of the Commonwealth of Pennsylvania.

In citing Dr. Montgomery, who received the Honorary Degree of Doctor of Laws, Dr. John B. Montgomery, Professor of Obstetrics and Gynecology and Chairman of the Department, described his colleague as "a wise clinician, a meticulous surgeon, a popular teacher and lecturer, and influential author." He said that Dr. Montgomery is recognized throughout this country and abroad as an outstanding authority in his field.

Dr. Muller, who received the Honorary Degree of Doctor of Medicine, was cited by Dr. Kenneth Goodner, Professor of Microbiology and Head of the Department as "the world's senior citizen in the field of genetics." He is known for the discovery of the induction of mutation by means of high-energy radiation. Dr. Goodner stated that Dr. Muller had been accorded recognition in every part of the world, and had been awarded almost every honor and tribute which man can bestow. The only degree formerly not held by Dr. Muller was Doctor of Medicine.

Dr. Peter A. Herbut, Professor of Pathology and Head of the Department read the Citation conferring the Honorary Degree of Doctor of Science on Mr. Copeland. He

Honorary Degrees were awarded Mr. Copeland (above) and Governor Scranton (right) at Commencement. Dr. Herbut reads citation of Mr. Copeland, while Mr. Large reads that of the Governor.
traced Mr. Copeland's career from its beginning in the control laboratory of the DuPont Company's Fabrics Plant in Fairfield, Connecticut in 1929. In 1935, he was assigned to market analysis and sales for the Fabrics and Finishing Department in Wilmington, Delaware, where he advanced through a variety of positions to his present post as President, Chairman of the Executive Committee, and Member of the Finance Committee.

The Honorary Degree of Doctor of Humane Letters was conferred upon Governor Scranton, with the Citation being read by Mr. James M. Large, Chairman of the Board of Trustees of the College. Born in 1917 in the Pennsylvania city named after his long illustrious family, Governor Scranton took his Bachelor of Arts degree from Yale University in 1939. Following active duty in the Air Force, he returned to the Yale Law School to earn his degree in 1946. After extensive business experience in Scranton and service as Special Assistant to the Secretary of State, he was elected to Congress in 1960. Last Fall he assumed office as Governor of the Commonwealth.

After expressing his appreciation to Jefferson for his honorary degree, Governor Scranton remained at the rostrum and delivered a most impressive and thought-provoking Commencement Address.

Congratulating the Class of 1963 on their perseverance, hard work and intellectual application, the Gov-
Governor Scranton stressed the significant time of their graduation.

"You become physicians at a time when 10,000 persons a day—most of them children—die from malnutrition or starvation. You take your Hippocratic Oath at a time when millions of people around the world are suffering and dying from diseases that are curable, but go uncured."

He asked the Class not only to be aware of their duties as physicians but also to take a positive interest in the social and public policy aspects of medical science, in particular, medical care of the aged. Physicians must in the future, the Governor said, determine whether the Nation is wisely dividing its resources for scientific and socio-scientific activities.

Governor Scranton implored the new doctors to take a stand on "the number one piece of unfinished business..."
Sons of two Jefferson Professors were members of the Graduating Class. Dr. Malcolm Miller (below) is pictured with his son William, and Dr. Leon Prince (below, right) with his son, Robert. Dr. Rumbaugh (right), Class of 1908 and Chairman of the Alumni Advisory Council, congratulates his grandson, Marshall C. Bagley

in America today"—that of equality for all people regardless of color, religion or ancestry.

"As physicians," he said, "you are peculiarly qualified to take a stand for equality.

"Certainly you know that nature is no respecter of persons. You have seen the rich and the poor, the proud and the humble, men of black skin and men of white skin hit equally hard by the ravages of time and disease. "You know how preposterous it is for any man, regardless of the color of his skin, to maintain that he is necessarily superior to any other man.

"Because you are so intimately acquainted with both the common strengths and common weaknesses of humanity, certainly you are in a position to understand the real meaning of the brotherhood of man under the fatherhood of God. . . .

"We need young minds capable of understanding the wisdom of Lincoln when he wrote, "Those who deny freedom to others deserve it not for themselves, and, under a just God, cannot long retain it. . . .

"Your generation will witness new adventures of the human spirit as man conquers ever growing portions of outer space.

"And, hopefully," the Governor concluded, "your generation will not only witness but will participate in the equally great adventure of the human spirit in which we all learn to judge a man without regard to the color of his skin."

Pre-Commencement excitement as seniors claim their caps and gowns
Alumni Return for Week of Activities

COMMENCEMENT culminated a week of activities which began at Jefferson on Monday, June 10, 1963, with that day being given over to physical examinations of Alumni. A number of graduates availed themselves of the service, arrangements for which were made by a Committee headed by Dr. John N. Lindquist. The other Committee members who assisted Dr. Lindquist were Dr. Gonzalo E. Aponte, Dr. Henry L. Bockus, Dr. James E. Clark, Dr. James D. Ripepi, Jr., Dr. Martin J. Sokoloff and Dr. Frank J. Sweeney, Jr. Members of the staffs of the following Departments conducted the examinations: Otolaryngology, Ophthalmology, Medicine, Surgery, Urology, Proctology and Neurology. The Department of Radiology provided X-ray service, and laboratory studies were made by the Department of Pathology. Full results of the examinations were sent to the Alumni upon their completion.

On Tuesday, June 11, a one-day Graduate Assembly was held. The program dealt entirely with Physical Medicine and Rehabilitation and featured a tour of the newly-opened Rehabilitation Center.

President Bodine, Dean Sodeman and Dr. Haskell opened the program with welcoming remarks. A buffet luncheon was served at noon, and there were morning and afternoon coffee breaks. Twelve hours Category I credit was given by the American Academy of General Practice for the combined Graduate Assembly and Clinic programs.

On Wednesday, June 12, the Reunion Day Clinics were held with each class being represented by a speaker of its choice. As with Graduate Assembly, the Clinic was held in the Auditorium of the College and coffee and pastries were served in the Students' Lounge.

This year, the speakers for the Alumni Day Clinic on Thursday, June 13, were all Emeritus Professors. The returning Alumni enjoyed hearing their former Professors speak of changes in Medicine, and reminisce about past days at Jefferson and the colorful personalities who were a part of them. They also enjoyed the Clinico-Pathologic Conference which was presented by members of the graduating class under the direction of Doctors Richard T. Cathcart and Joseph Medoff as Faculty Advisors.

Immediately following the conclusion of the Alumni Day Clinic, the Dean was host at a luncheon in McLellan Hall. At this luncheon, which was attended by
Jefferson fathers and sons (above and right) were honored at the Dean's Luncheon

Visiting Alumni enjoyed meeting with members of the faculty and administration, with Dr. Sodeman as host for the Thursday luncheon.
visiting Alumni, Faculty, members of the Administration and the Board of Trustees, Faculty members who were made honorary members of the teaching staff were given special recognition. Among this group were Dr. Joseph Aspel, former Instructor of Urology, Dr. John F. Coppolino, former Clinical Professor of Pediatrics, Dr. John W. Holmes, former Associate Professor of Clinical Pediatrics, Dr. Norman MacNeill, former Clinical Professor of Pediatrics, Dr. Austin T. Smith, former Clinical Professor of Otolaryngology, and Dr. Martin J. Sokoloff, former Clinical Professor of Medicine. Dr. Gilson C. Engel, former Associate Professor of Surgery, Dr. C. Calvin Fox, former Clinical Professor of Otolaryngology, and Dr. Arthur W. McCallum, former Associate in Clinical Otolaryngology, were unable to be present.

Eleven members of the Class of 1963 are sons of Jefferson Alumni and they, together with their fathers, were seated at special tables at the luncheon. In addition, a third Jefferson generation was represented in Dr. Marshall T. Bagley, who was present with his grandfather, Dr. Marshall C. Rumbaugh, Class of 1908.

More than 250 guests attended the luncheon and en-
joyed meeting and chatting with fellow Alumni and members of the Jefferson faculty.

The Alumni Banquet, held Thursday evening, June 13, climaxed the several days of reunion activities. Speaking in the Ballroom of the Bellevue-Stratford Hotel, Dr. Haskell welcomed the group with the words, "It is my great pleasure to welcome all of you, 565 strong, to this Annual Dinner of the Alumni Association of Jefferson and to greet men from the Pacific Coast and Puerto Rico, from New England and Florida, from the open spaces of the far West and the crowded Eastern Seaboard. Our very special greetings to the Class of 1963—147 strong." He voiced a special welcome to his Class of 1923 and to the members of the "Old Guard" who were present.

Dr. Haskell then introduced Mr. Bodine who remarked that "as a non-Alumnus, I and others of your guests here this evening have seen once again on all sides various indications of the dedication and devotion of Jeff's Alumni. You are members of a strong body whose reservoir of very active interest in Jefferson's programs is a source of great strength to all of us here at home base." Mr. Bodine spoke with encouragement of the work of the Alumni Advisory Council and also of the Capital Gifts Drive.

"One year from this evening," he said, "as we gather again on this happy occasion, all of us are convinced that we will be able to report to you that all divisions of this most extensive undertaking in Jefferson's long history have realized their objective and surpassed their goals, and that when those returns are all in, we will have achieved the $7 million objective that is so badly needed on behalf of our Development Program."

Mr. James M. Large, President of the Board of Trustees, then addressed the group, concentrating first on the Class of 1963 and, secondly, on the Class of 1923.

Like Mr. Bodine, he expressed his gratitude for the work and interest of the Alumni Advisory Council, remarking, "Many of you know this is a comparatively new relationship between the Board level and the graduates who never lose their interest in this institution. This
has been a rewarding experience. We have with us tonight several members of that Council. All of them, incidentally, attended the meeting with the Board the other day—not a single absentee."

Mr. Large then spoke about the Development Program, reporting that approximately $3\frac{1}{4}$ million had been collected thus far, which, he stated, was just the beginning. He said that before approaching the Alumni and before national corporations and foundations were directly approached for funds, the Jefferson fund-raisers hoped to have $5 million in hand.

Mr. Large continued, "The Board of Trustees, individually and through affiliated foundations and corporations, so far has given us a million, seven hundred and fifty thousand dollars. When we realize how small this Board is, that's some effort. The Faculty staff division . . . is now very close to one half million dollars, and evidence says that it will go substantially beyond that.

"The non-Faculty, non-medical employees of the Hospital and College . . . have contributed over a hundred thousand dollars and when you think about that, it is a real accomplishment. Actually, I believe it is the highest amount that any such group in any hospital or medical college has ever reached. The Woman's Board is way over its goal now with something over two hundred and seventy thousand dollars. These are good signs of the running tide in Jeff today. Right now, we're obviously busy with non-Jefferson people who have a responsibility for the creation of doctors that this nation desperately needs for research and for hospital facilities in our city. . . . I have great confidence that this Drive is going to be an enormous success."

Dr. Haskell then introduced Dr. Sodeman who addressed the Class of 1963.

"Each year at this time," he said, "my feeling of pride mounts as I consider the accomplishments of our Senior Class, and this year I'd like to tell the gentlemen of the Class of 1963 that you have not let me down.

"With the addition of this graduating class," Dr. Sodeman continued, "our total Alumni group numbers
20,370 and our living Alumni 6,796. There are still in America more citizens under the care of Jefferson graduates than under the care of any graduates of any other school, as you know. We all . . . feel that this year we are adding to the ranks of America’s physicians one of the finest groups.”

Dr. Sodeman remarked on the increasing number of applications received by Jefferson each year, the improving quality of the in-coming student, Jefferson’s constantly improving results in the national board examinations, and the increasing number of students doing research work.

“Our research,” he said, “is an important part of the medical curriculum. . . . Not that we expect these boys in large part to enter into research—indeed we do not; but, on entering practice, they will have a deeper insight into the why and the how of processes underlying disease and in the therapy of disease. They will have a greater stimulus than ever to be students forever, and
that is one of the most important things that a student can get in the medical college.”

Dr. Sodeman reported the appointments of five new Professors—Dr. Robert L. Brent, formerly in Jefferson’s Department of Pediatrics, who is now Professor of Radiology and Radiation Biology; Dr. Robert Waelder, Professor of Psychiatry; Dr. John E. Davis, Professor of Psychiatry; Dr. Robert C. Prall, Professor of Psychiatry (Child Psychiatry); Dr. Leonard Pakman, Professor of Microbiology. He also announced the elevation to the rank of Professor of Dr. Kenneth E. Fry and Dr. Thomas F. Nealon, Jr., in Surgery, Dr. Romano H. De Meio in Biochemistry, Dr. Franz X. Hausberger and Dr. Robert C. Hutchinson in Anatomy, and Dr. C. Earl Albrecht in Preventive Medicine—all of whom have been in their respective departments for several years.

Dr. Sodeman discussed in some detail the work of three faculty members: Dr. Albrecht, who is “spearheading the Neurosensory study that Jefferson is carrying out to survey the entire State of Pennsylvania, Delaware and Southern New Jersey to evaluate the status of care and the status of facilities for care in Neurosensory disease...”; Dr. Thomas D. Duane, Professor of Ophthalmology and Head of the Department, whose report on “the research activities of all of the departments of Ophthalmology in all the medical schools in this country will be a milestone in the evaluation of Ophthalmologic research in the United States...” He spoke also of Dr. Davis’ work in mental health in the Commonwealth, and expressed optimism as to Jefferson’s future in teaching, training, research and service in this field.

The Dean then reported two more new programs—one on undergraduate teaching of home care and the other on the cooperative program with The Pennsylvania State University to shorten college and medical school training to five years (reported on in detail in the March 1963 BULLETIN, page 34). He concluded with the
news that two days before the Banquet the first kidney transplant in Philadelphia took place at Jefferson.

"The transplant," Dr. Sodeman said, "was accomplished by a team of the Department of Surgery, the Department of Urology and the Department of Medicine. Dr. Gibbon's group, Dr. Fetter's group, Dr. Wise's group, with Dr. Wesson and Dr. Jim Clark, were successful in carrying out the procedure. This kidney is functioning, and Dr. Clark tells me this evening that this patient is putting out about eleven liters of urine from this transplanted kidney. In all organ transplants, there is a problem of continued activity and a problem of rejection as time goes on, and, of course, we don't know what will happen in the long term with this patient. But, I think it is significant that in our own institution, this group, with four general surgeons and four urologists and four men in our Department of Medicine, along with their residents who have been intensively trained in this, have carried out this procedure and done this first job in Philadelphia. . . . There is much activity at Jefferson that is very significant and very pleasing to all of us because of the pride it gives us. I think that we can all rest assured that the way things are moving in our academic and in our special service programs at Jefferson, we can all go back to our homes with the idea that nothing is topping the activity going on at 10th and Walnut."

Dr. Sodeman then presented the Class of 1913 with the fifty-year Certificate and lapel button. Dr. John E. Livingood accepted the button on behalf of his classmates, and Dr. Theo W. O'Brien acknowledged receipt of the Certificate for the Class.

RETURNING to the rostrum, Dr. Haskell said a few words about the 'Red Peppers', the orchestra which provided the entertainment both at the cocktail party preceding the dinner and also during the Banquet. This group, which is comprised of business and professional men, includes a Jefferson graduate, Dr. James M. Hunter, Class of 1953, who is leader of the orchestra. Dr. Hunter and Dr. Henry C. Stofman, another member of the group, serve on Jefferson's faculty.

After introducing Dr. Abraham Cantarow, President-
elect of the Alumni Association and Professor of Biochemistry and Head of the Department, Dr. Haskell presented Dr. Leo Wachtel, representative of the Class of 1938, to speak for his classmates.

"It is my privilege tonight," Dr. Wachtel remarked, "to speak to you as a representative of the Class of 1938. This class, as most Jefferson classes, is widely distributed geographically—from Maine to California, from Hawaii to Puerto Rico. Likewise, we are widely distributed in branches of medicine and in fields of practice—from anesthesiology to urology, from research and teaching to military medicine, and most of all general practice....

"We members of the Class of '38 are proud to have been a part of medicine during the past 25 years. The progress of this science in that time, with its consequent contributions to health, longevity and the relief of suffering has been truly amazing. The tremendous reduction in morbidity and mortality rates in the quarter of a century since 1938 is almost unbelievable. Consider that the first of the sulfanilomides was just coming into use as we left Jefferson to begin our internships. The profusion of life-saving drugs and vaccines that have followed have more than decimated the incidence of diseases like tuberculosis, poliomyelitis, syphilis, malaria, gonorrhea, rheumatic fever, and many others. The advances in surgery, in psychiatry, in anesthesia, the aids to diagnosis through new techniques in radiology, in the use of radioisotopes in a clinical laboratory method—to mention a few—all are staggering in number and significance and all within the past 25 years. We are proud that Jefferson and Jefferson graduates have been so intimately concerned with so many of these accomplishments."

Dr. Wachtel spoke of the reputation that Jefferson has maintained for turning out good general practitioners, about the recent legislation regarding medical care for the elderly, and about the need for representatives of this country's medical schools to speak their views on Federal assistance to medicine.

"In closing," Dr. Wachtel said, "we of the Class of 1938 are proud to be Jefferson men. Across the nation, this is a status symbol, and whatever lends lustre to Jefferson enhances the image of its graduates. The constant improvements in Jefferson's curriculum and Jefferson's aggressive leadership in developing methods of shortening the course of study, are sources of pride to us as Alumni. The ambitious program of expansion, the carving out of a campus for Jefferson in the heart of Philadelphia are major construction as well as financial programs in which we may all have a part. This will be
a living and enduring monument to medical education and a memorial to those who conceived and delivered it. This is Jefferson, and we bask in the glory it has reflected."

Dr. Willauer, immediate past-President of the Alumni Association, who was seated with his Class of 1923, then came to the platform and presented to Dr. Haskell the ceremonial gavel as a token of his office. Inscribed in a silver plate on the gavel is Dr. Haskell’s name and the dates of his tenure as President.

Following this presentation, a documentary film-strip explaining Jefferson’s expansion program was shown to the group.

Dr. Fry, Chairman of the Annual Giving Fund Committee, then announced the results of the 15th Drive. (For complete report, see page 1a of this issue.) He announced that a new record had been set, despite the fact that the Faculty was not approached until quite late in the Drive due to the Capital Gifts program.

"Our total tonight," Dr. Fry reported, "is $158,341. We know that this will go higher before our books are closed as of June 30 this year. We’re very proud of the steady upward trend of our Alumni Drives, for this points to the loyalty of our Alumni and gives evidence of their awareness of Jefferson’s needs."

He then awarded plaques to the classes who ranked first in amount, number of contributors and percentage. Dr. Fry also commented that the Class of 1913 had reached 100% in participation through contributions by active class members on behalf of the 18 non-givers in the group, and, although this could not be put on record as perfect percentage in individual contributions, he wished to thank the class members for their spirit. Dr. Fry also acknowledged the support of the non-graduate faculty group.

Following Dr. Fry, Dr. Haskell introduced Dr. Ben Houser, three-time President of the Class of 1963, and son of Dr. Benjamin P. Houser, Class of 1934, who remarked that it was a great privilege for him to be representing the Class of 1963 at the Banquet.

"If I were to say that we have enjoyed every minute at Jefferson," Dr. Houser continued, "I am sure I would be bombarded by tri-color parfait from my colleagues in the alcoves; however, I know I speak for the Class when I say that we will be enthusiastic Alumni in the years to come. I am sure you will find us wearing hats or blue buttons, and in the words of one of our class’ favorites, Dr. David Morgan, I hope that in the future years we may be considered your distinguished colleagues."

Dr. Haskell then closed the meeting with a reference to the graduating class. "To the Class of 1963," he said, "gathered here for next to the last time in its entirety, we hope that the excitement and challenge of the work ahead will make you even more aware of the years you have spent at Jefferson. Sentiment is better reserved for reunion days, and I shall close by extending to you the very best wishes of all of us wherever you go and whatever your plans will be. The meeting is adjourned."
Our candid camera caught Alumni—
in serious discussions—
reminiscing

enjoying a good joke
and posing for a Class picture
The Jefferson Medical College Faculty Wives Club held a most successful dinner-party on June 13 at the Bellevue-Stratford Hotel, Philadelphia. The affair, held in conjunction with the men’s Alumni Banquet, was the first of its kind to be sponsored in June along with reunion activities.

One hundred and twenty women enjoyed cocktails in the Viennese Room at a “Get Acquainted Dutch Treat.” Dinner followed in the Burgundy Room. Mrs. Thaddeus L. Montgomery, President of the Faculty Wives Club, welcomed the Jefferson wives and faculty wives. Of the fifty visiting Alumni wives, many states were represented, including Missouri, California, Kansas and South Dakota. Four ladies, whose husbands are members of the Class of 1913, were celebrating their fiftieth reunion.

Mrs. Montgomery then turned the evening over to Mrs. Edmund L. Housel, Program Chairman. Mrs. Housel introduced the Arthur Murray dancers who demonstrated several popular ballroom dances. Following this, Mrs. Housel introduced Mr. Guy, of Bonwit Teller, who conducted a wig show for the ladies. Members of the Faculty Wives Club participated in the show.

All who attended agreed that the affair was an overwhelming success. Members of the Faculty Wives Club hope that next year’s party will be even bigger and better with more Alumni wives joining in the festivities.
THE portrait of Dr. John H. Gibbon, Jr., The Samuel D. Gross Professor of Surgery and Head of the Department, was presented to the College by the Class of 1963 on Monday, May 6, 1963.

Speaking to an audience composed of students, faculty members and guests, Dr. Ben P. Houser, Jr., President of the Senior Class, opened the program speaking of Dr. Gibbon's "thoughtful interest" in his students and his undeniable teaching ability.

"In Dr. Gibbon's classes," said Dr. Houser, "there were moments of encouragement when appropriate, and criticism when deserved. Those of you who have been students of Dr. Gibbon know well that the walk from the back row to the center of this amphitheater is, indeed, a long one for the unprepared student. To be asked to discuss a case here is somewhat frightening, but always enlightening when Dr. Gibbon is moderator."

Dr. Houser said that the "Pit" of the College was the appropriate spot for the presentation, since it, rather than McClellan Hall or the Lecture Hall, was Dr. Gibbon's "natural habitat."

Dr. Houser praised those qualities of Dr. Gibbon which would remain uppermost in the minds of the graduates—his judgment, foresight and humility. He said that the qualities of Dr. Gibbon's character as well as his multifaceted life as surgeon, researcher, administrator and professor had earned him the respect and admiration of all his colleagues.

The date chosen for the presentation—May 6—was by no means an accident, remarked Dr. Houser.

"Today," he said, "is the 10th anniversary of the first successful open cardiotomy using the cardio-pulmonary bypass and extracorporeal circulation. . . . Dr. Gibbon devised and developed this revolutionary instrument which is acclaimed to be the greatest break-through in surgery in our lifetime.

"Today, physicians in all parts of the world are performing life-saving surgery using the techniques pioneered by Dr. Gibbon. The interior of the heart is no longer a forbidden chamber. Dr. Gibbon has elevated heart and lung surgery from the realm of speculation to a highly exact, accepted procedure which is performed with confidence throughout the world."

Dr. Houser then introduced Dr. Harris B. Shumacker,
Jr., Professor of Surgery and Head of the Department of Surgery at Indiana University Medical Center, who, as a close friend and surgical colleague of Dr. Gibbon, had come to Jefferson to participate in the presentation.

Dr. Shumacker, a graduate of Johns Hopkins School of Medicine, expressed his great pleasure at being present, and his interest in the fact that the only father and son portraits to hang in Jefferson's halls are those of the Grosses and the Gibbons, all Professors of Surgery.

He acclaimed two important influences in Dr. Gibbon's life—his father and his wife. Dr. John Gibbon, Sr., he said, was known for "precision, culture and forcefulness that made him such a beloved and gifted surgeon and teacher," and he praised Mary Hopkinson Gibbon for being "not only his companion at home but also his helper in all his laboratory investigations."

Tracing the biographical highlights of his colleague's career, Dr. Shumacker spoke of Dr. Gibbon's birth into a family that recorded four previous generations of physicians, his graduation from Princeton in 1923 and from Jefferson in 1927, and his subsequent surgical and research training in Pennsylvania Hospital, University of Pennsylvania and Massachusetts General Hospital.

SPEAKING of those early years, Dr. Shumacker told of Dr. Gibbon's conception of the idea of developing an apparatus which might supplant for a period of time the function of heart and lungs.

"Dr. Gibbon began work," he said, "with small financial support and certainly without the enthusiastic and optimistic backing of his elders. By 1937, however, he was able to report experiments which demonstrated that his pump-oxygenator apparatus could sustain an animal during complete pulmonary artery occlusion, maintain adequate gaseous exchange and blood pressure, and that animals subjected to such a perfusion of oxygenated blood could survive in good condition for several hours. By 1939, an improved oxygenator was described in detail. For the first time it was shown that animals could live a long time after the function of their hearts and lungs had been temporarily taken over by an artificial apparatus.

"Further progress had been made by the time World War II began and he voluntarily entered military service and discontinued this work for a number of years. Shortly after his return to civilian life in 1946, he once again tackled the problem. Progress was steady but slow. In the early 1950's, however, a beautifully efficient vertical screen oxygenator was perfected. With it Dr. Gibbon was able to carry animals safely through a variety of intracardiac operations.

Finally, on May 6, 1953, exactly ten years ago, he successfully closed an atrial septal defect using complete cardiopulmonary bypass and an artificial heart-lung machine. This was the first occasion when a patient was treated successfully by an intracardiac operation utilizing extracorporeal circulation and complete cardiopulmonary bypass. It was indeed a great day in the history of surgery."

Dr. Shumacker stated that Dr. Gibbon then went on to develop additional uses for his heart-lung apparatus, which now is being utilized daily in clinics throughout the world.

"It is natural," Dr. Shumacker said, "that because of his contributions, Dr. Gibbon has been honored as few other surgeons have. He holds an important chair of surgery in a great medical institution. He has received honorary degrees from the University of Buffalo and from Princeton University. He has been made an Honorary Fellow of the Royal College of Surgeons of England and an Honorary Member of the Society of Thoracic Surgeons of Great Britain and Ireland. Numerous important awards have been his, including the Rudolph Matas Award in Vascular Surgery, the Distinguished Service Award of the International Society of Surgery, the John Scott Award, the Distinguished Service Award of the Pennsylvania Medical Society, and the Gairdner International Foundation Award from the University of Toronto.

"He has been invited to give important lectures, such as the Churchill Lecture of the Excelsior Surgical Society, the Conner Memorial Lecture of the American Heart Association, the Arthur Dean Bevan Lecture of the Chicago Surgical Society, the Alvarenga Lecture of the College of Physicians of Philadelphia, and the Harvey Lecture of the New York Academy of Medicine. He has served as Visiting Professor at Baylor University, Harvard Medical School, and the Indiana University Medical Center.

"He has been President of some of our most distinguished surgical organizations: The American Surgical Association, the American Association for Thoracic Surgery, the Philadelphia Academy of Surgery, and the Society of Clinical Surgery."

Dr. Shumacker concluded his talk on a personal note, speaking of Dr. Gibbon's interest in painting, tennis, travel and, especially, in his family and home-life.

"I would hope, Jack," he remarked, "that as generations come to view your portrait, along with those of your distinguished associates in this hall, they will see in you not only an individual who has made one of the truly great contributions to medicine of all times. I know that they will see a man with a broad interest in people"
and in life, a person with wisdom and warmth and a heart full of love.”

Dr. Henry F. Smith, Chairman of the Portrait Committee for the Class of 1963, then unveiled the portrait in which Dr. Gibbon is portrayed in the robes of The Royal College of Surgeons of England. Dean Sodeman thanked the Class and the members of the Portrait Committee on behalf of the College, stating that he accepted the portrait with pride and joy.

Dr. Smith introduced the artist, Mr. Gardner Cox, of Boston, Massachusetts, whose list of renowned subjects has included Dean Acheson, the late Robert Frost, General George C. Marshall and Chief Justice Earl Warren. Mr. Cox gave a brief description of the painting and of his subject, remarking that he had spent several enjoyable hours becoming acquainted with Dr. Gibbon during the sittings.

Dr. Gibbon said that he was quite proud to have been chosen by the Class of 1963 for the honor, and that he was deeply touched by the remarks of his old friend and colleague, Dr. Shumacker.

**Officers of Hospital Staff Appointed**

Dr. John H. Gibbon, Jr. (Class of 1927), The Samuel D. Gross Professor of Surgery and Head of the Department, has been elected President of the Jefferson Medical College Hospital attending staff. He succeeds Dr. Theodore R. Fetter (Class of 1926), Nathan Lewis Hatfield Professor of Urology and Head of the Department, who stepped down after serving seven years.

Dr. Robert I. Wise, Magee Professor of Medicine and Head of the Department, has been named Vice-President of the attending staff, and Dr. Herbert A. Luscombe (Class of 1940), Professor of Dermatology and Head of the Department, was re-elected Secretary-Treasurer.
Two Professors of Psychiatry Appointed

ANNOUNCEMENT has recently been made of the appointment of two new Professors of Psychiatry at Jefferson. Dr. John E. Davis has resigned from his post as Commissioner of Mental Health of the Commonwealth of Pennsylvania to accept this faculty appointment. Dr. Robert C. Prall, who is currently Director of the Children’s Unit of Eastern Pennsylvania Psychiatric Unit, has joined the Department as Professor of Psychiatry (Child Psychiatry).

Dr. Davis is an alumnus of Jefferson, Class of 1933. A native of Ashland, Pennsylvania, he received his Bachelor of Science Degree from Pennsylvania State University. He served in World War II, leaving the service in 1946 with the rank of Colonel. He was Clinical Director of the New Jersey State Hospital in Trenton from 1946-1947 and was Assistant Chief of the Out-Patient Department of the Veterans Administration Central Office in Washington, D.C. from 1948-1950. Following this he was Medical Director of Eastern Pennsylvania Psychiatric Institute in Philadelphia. In 1958 he was appointed Commissioner of Mental Health and Deputy Secretary of Public Welfare for the Commonwealth of Pennsylvania. Dr. Davis has been certified in Psychiatry by the American Board of Neurology and Psychiatry. He is a member of the American Medical Association, the American Psychiatric Association and Past President of the Philadelphia Psychiatric Society as well as a member of many other related associations. He serves on the Professional Advisory Committee for the National Association for Mental Health and is a member of the Governor’s Committee for the Handicapped and Hospital Commission. Dr. Davis is one of the most capable and experienced authorities in mental health. He will play a major role in the psychiatric program at Jefferson and will continue to make a significant contribution to the entire mental health program in Pennsylvania.

Dr. Prall received his Bachelor of Science Degree from the University of Virginia. He is a graduate of the University of Pennsylvania Medical School, Class of 1943, and a graduate of the Philadelphia Psychoanalytic Institute where he received training in both adult and child analysis. Dr. Prall currently is Director of the Children’s Unit of Eastern Pennsylvania Psychiatric Institute. He also serves as consultant in child psychiatry for the Secane School for Little Children and is a member of the Professional Advisory Council of the Pathway School in Narberth. He is Chairman of the Nursery School Committee for the Bala-Cynwyd Methodist Church Nursery School. He has been active in private practice of child psychiatry and adult and child psychoanalysis since 1950. Dr. Prall is a member of the American Medical Association, the American Psychiatric Association, the American Academy of Child Psychiatry, is President of the Regional Council of Child Psychiatry of Pennsylvania, Delaware and Southern New Jersey, and is associated with many local psychiatric and medical organizations. Dr. Prall is a recognized authority on child psychiatry and currently is engaged in an important study of classification of disorders in emotionally disturbed children. His role on the Jefferson faculty will be to formulate and direct plans for the program in child psychiatry.
Dr. Cathcart to Head Barton Division

Dr. Richard T. Cathcart, Associate Professor of Medicine, has been appointed the Director of the Division of Diseases of the Chest in the Department of Medicine and of the Barton Memorial Division of the Jefferson Medical College and Hospital. He replaces Dr. Martin J. Sokoloff in this position, following Dr. Sokoloff's acceptance of the post of Campus Coordinator of the Ghana Medical School Project of the Philadelphia College of Physicians. Dr. Sokoloff will continue his private practice and remain actively associated with Barton Division, since the Ghana project will be on a part-time basis.

Dr. Cathcart is ably suited to this position of leadership in the program of the Division of Chest Diseases.

He was graduated from Yale University in 1938 and received his M.D. degree from the College of Physicians and Surgeons, Columbia University, in 1943. He served his internship and residencies in the Columbia Division of Bellevue Hospital, New York City, before returning to the Columbia Presbyterian Medical Center for special training in Cardiology.

Before coming to Jefferson, Dr. Cathcart was on the medical faculty of Columbia University, and was active in the clinical investigation of cardio-pulmonary problems. He was closely associated for seven years with Drs. Cournand and Richards, Nobel Laureats in Medicine.

His particular interest has been in the genesis of Cor Pulmonale. In addition to his research activities, he served on the attending staff of St. Lukes Hospital, New York City, as well as Bellevue Hospital.

Dr. Cathcart came to Jefferson in 1953 as Assistant Professor of Medicine and director of the laboratory of the Barton Memorial Hospital. He has been actively engaged in the anthracosilicosis program as well as in clinical teaching. He became Associate Professor of Medicine in 1961.

He and Mrs. Cathcart have five children and live in Wayne, Pennsylvania.

Richard T. Cathcart, M.D.
Dr. John H. Killough has been appointed Assistant to the Dean in charge of continuing medical education, including the cooperative program with The Pennsylvania State University. The appointment was announced by Dr. William A. Sodeman, Dean and Vice-President for Medical Affairs.

In the cooperative program, Dr. Killough will assume responsibilities previously filled by Dr. Samuel S. Conly, Jr., Assistant Dean, who helped launch the project in 1960. The objective of the two institutions is the transmitting to practicing physicians the latest information on the diagnosis and treatment of patients. In this program, the Jefferson faculty members will travel to various areas of Pennsylvania to conduct at least 100 seminars annually.

An Associate Professor of Medicine at Jefferson and Director of the Cardiopulmonary Laboratory, Dr. Killough was graduated from Southern Methodist University, took his Ph.D. degree at Johns Hopkins in 1942 and his M.D. from the Yale School of Medicine in 1945. Before joining Jefferson, he had served on the Tulane and Missouri University Medical School faculties and in the United States Navy, as head of the Department of Clinical Investigations of Naval Research Unit No. 3, in Cairo, Egypt, from 1949 to 1954.
March 22, 1963 marked the day on which Jefferson Medical College, its Alumni Association and the medical profession at large lost, in Dr. Leandro M. Tocantins, one of their most prominent sons. The host of friends and the devoted colleagues he left behind him form ample testimony of this prominence.

In the minds and memories of his colleagues are recorded those admirable characteristics which raised Doctor Tocantins to the stature far above that of those about him. He was endowed with a personality which portrayed external quiet, humility, and non-assumptuousness, yet within this same framework there burned a blue hot flame of ambition which drove him to achievements attained by few Jeffersonians. He was a truly great clinician who had the faculty to blend a highly developed art of medicine with his clinical skills and who, in treating a disease, never forgot the human being afflicted. His depth of understanding instilled confidence and trust in all with whom he came in contact.

His ability to impart his skills to students with enthusiasm and dignity set him apart as one of the great teachers of his day. To Doctor Tocantins, teaching was not a chore but a privileged duty which he cherished.

The present status of the Charlotte Drake Martinez Cardeza Foundation stands as evidence of his research and administrative abilities. Also, in the physical and personnel frameworks of Jefferson Medical College, one is awed by the depth of vision exercised in their organization. For even in his absence, the foundation laid is such that a future superstructure can readily be built.

All those qualities mentioned, embodied in one heart and soul, comprised Doctor Tocantins. Jefferson, as an institution of learning, all his friends, all his colleagues, his fellow Alumni, and, above all, his family, have indeed suffered a great loss.

Anthony F. De Palma, M.D.
James Edwards Professor of Orthopedic Surgery
and Head of the Department
Promotions, New Appointments and Resignations

PROMOTIONS

JOHN E. DAVIS, B.A., M.D., from Assistant Professor of Clinical Psychiatry to Professor of Psychiatry.

ROMANO H. DEMEIO, B.S., Ph.D., from Associate Professor of Biochemistry to Professor of Biochemistry.

FRANZ X. HAUSBERGER, M.D., from Associate Professor of Anatomy to Professor of Anatomy.

ALVIN F. GOLDFARB, B.A., M.D., from Associate in Obstetrics and Gynecology to Assistant Professor of Obstetrics and Gynecology.

ANTHONY M. ALBERICO, B.S., M.D., from Assistant in Medicine to Instructor in Medicine.

LEOPOLD S. LOEWENBERG, B.S., M.D., from Assistant in Obstetrics and Gynecology to Instructor in Obstetrics and Gynecology.

LEON A. PERIS, A.B., M.D., from Assistant in Obstetrics and Gynecology to Instructor in Obstetrics and Gynecology.

EDWARD M. PODGORSKI, B.S., M.D., from Assistant in Obstetrics and Gynecology to Instructor in Obstetrics and Gynecology.

LEOPOLD A. POTKONSKI, M.D., from Assistant in Psychiatry to Instructor in Psychiatry.

CHANGE OF TITLE

EUGENE A. GILLIS, M.D., M.P.H., from Visiting Professor in Preventive Medicine to Visiting Lecturer in Preventive Medicine (Public Health).

NEW APPOINTMENTS

ROBERT C. PRALL, B.S., M.D., Professor of Psychiatry (Child Psychiatry).

MORRIS D. GALINSKY, M.D., Associate in Clinical Psychiatry.

HAROLD E. BAUER, B.S., M.D., Instructor in Pathology.

JACQUELINE G. COANT, M.D., Instructor in Pediatrics.

WILLIAM ELIADES, A.B., M.D., Instructor in Medicine.

ROBERT J. JOSEPH, A.B., M.D., Instructor in Psychiatry.

ROBERT JAMES TROLLINGER, A.B., M.D., Instructor in Pathology.

ROBERT B. WEIMANN, A.B., M.D., Instructor in Surgery.

BENJAMIN BACHARACH, B.S., M.D., Assistant in Surgery.

STANLEY FARB, M.D., Assistant in Otolaryngology.

CARL J. GUZZO, B.S., M.D., Assistant in Surgery (Proctology).

ELI B. HALPERN, A.B., M.S., M.D., Assistant in Otolaryngology.

ROY LOUIS-CHARLES, M.D., Assistant in Pediatrics.

SAROJA SIDDHARTH, M.B.B.S., Assistant in Pediatrics.

ERNST RIOUX, A.B., M.D., Research Fellow in Medicine (Hematology).

RENEWAL

IIDA JUNZO, B.S., M.D., Research Fellow in Surgery.

RESIGNATIONS

JAMES J. RYAN, M.D., Associate Professor of Clinical Neurology.

IRVING J. OLSHIN, A.B., M.D., Assistant Professor of Clinical Pediatrics.

MARY STUART FISHER, A.B., M.D., Associate in Radiology.

IRVIN R. HERMAN, M.D., Associate in Medicine.

JOHN F. KURTZKE, B.S., M.D., Associate in Clinical Neurology.

DONALD AKUTAGAWA, M.A., Ph.D., Instructor in Pediatrics (Psychology) and Instructor in Psychiatry (Psychology).

ARTURO R. HERVADA, B.S., M.D., Instructor in Pediatrics.

RUSSELL H. KESSELMAN, M.D., Instructor in Medicine.

DENNIS S. O’CONNOR, B.S., M.D., Instructor in Pathology.

DAVID ERNEST BULLOCK, JR., B.S., M.D., Assistant in Medicine.

JAMES C. MCLAUGHLIN, A.B., M.D., Assistant in Obstetrics and Gynecology.

RALPH J. ONOFRIO, M.D., Assistant in Obstetrics and Gynecology.

SAUL LIPKIN, A.B., M.S., Research Fellow in Microbiology.

MASANOBU SHIGETA, D.M.Sc., M.D., Research Fellow in Pediatrics.

DEATHS

HERBERT KRAMER, B.A., M.D., Instructor in Medicine, March 22, 1963.

FRANK J. CILIBERTI, JR., M.D., Instructor in Anatomy, July 1, 1963.
News of College Departments

ADMINISTRATION

DR. WILLIAM A. SODEMAN, Dean and Vice-President for Medical Affairs, was elected Treasurer of the American College of Physicians at its annual meeting in Denver.

DR. JOHN H. KILLOUGH, Assistant to the Dean in Charge of Continuing Medical Education and Associate Professor of Medicine, has received a substantial grant from the Southeastern Pennsylvania Heart Association for a study of "Reflex Hypotension."

DERMATOLOGY

DR. JOHN F. WILSON, Associate Professor of Dermatology (Jefferson, 1937), was elected President of the Philadelphia Dermatological Society for 1963-64.

MEDICINE

DR. HAROLD L. ISRAEL, Clinical Professor of Medicine (Jefferson, 1934), is the recipient of a grant from the Pennsylvania Thoracic Society for advance study on a specific project involving pulmonary research.

DR. MARTIN J. SOKOLOFF, Honorary Clinical Professor of Medicine (Jefferson, 1920), was in charge of the local drive sponsored by the Philadelphia Tuberculosis and Health Association urging all those with a chronic cough or shortness of breath to see their physicians. Termed the "1965 Respiratory Disease Campaign," the drive ran from May 4 to June 15. Dr. Sokoloff is Chairman of the Association's Health Education Committee.

DR. F. WILLIAM SUNDERMAN, Clinical Professor of Medicine and Director of the Division of Metabolic Research, was one of four alumni of Gettysburg (Pa.) College who were honored in May by his Alma Mater. A member of the Class of 1919 of Gettysburg, he was presented with a Distinguished Alumni Service certificate.

DR. ANGELO P. ANGELIDES, Associate Professor of Clinical Medicine, has been named Director of Medical Education at Philadelphia's Lankenau Hospital.

DR. LOUIS A. KAZAL, Associate Professor of Research Hematology and Assistant Professor of Physiology, presented a paper on "Current Problems in Hemostasis" at a conference on "Bleeding in the Surgical Patient" at the New York Academy of Sciences on May 2. The paper was authored by Dr. Kazal, the late Dr. LEANDRO M. TOCANTINS, The Thomas Drake Martinez Cardeza Professor of Clinical Medicine and Hematology in the Department of Medicine (Jefferson, 1926), DR. MELVIN L. SILVER, Assistant Professor of Pharmacology, and DR. WILLIAM O. REID, Research Associate in Medicine. Dr. Kazal participated in the panel discussion that followed.

DR. Kazal and Dr. GEORGE F. GRANNIS, Research Associate in Biochemistry, attended a seminar at the Eastern Regional Laboratories in Chestnut Hill, Pennsylvania on April 29, at which Dr. Grannis presented a paper entitled "The Reaction of Alpha-Sulfopalmity Acid with Proteins and Its Relation to Crevicity."

Another paper, authored by Dr. Kazal, Dr. Grannis and Dr. Tocantins, was presented April 16 at the Federated Society Meetings in Atlantic City, New Jersey. Its subject was "The Spectrophotometric Determination of Thrombin." At the same meeting, a paper on "The Anticoagulant Activity of Gastric Juice from Ulcer Patients, by Dr. Kazal and an associate, was presented. The work is the result of a cooperative project with Dr. Tocantins.

DR. JOSEPH J. RUPP, Associate Professor of Clinical Medicine (Jefferson, 1942), spoke on "Recognition of Obesity of Endocrine Origin" at a meeting of the Georgia Academy of General Practice in Atlanta in June.

DR. J. WOODROW SAVACOOL, Associate Professor of Preventive Medicine and Director of the Division of Clinical Preventive Medicine, and Assistant Professor of Clinical Medicine (Jefferson, 1938), spoke on "The Use of Chemoprophylaxis in Tuberculosis Control" at a Physicians Symposium on "Cardio-Pulmonary and Neoplastic Diseases" in April. The symposium, sponsored by the Heart, Cancer and Tuberculosis Societies of Washington (Pa.) County in cooperation with the Tri-County Academy of General Practice, was held in Washington, Pennsylvania.
DR. JOHN B. ATKINSON, Assistant Professor of Clinical Medicine (Jefferson, 1948), recently spoke on "Anticoagulant Therapy of Strokes" at Phillipsburg State Hospital, and on "Hemorrhagic Disease" at York General Hospital.

Representing Jefferson, Dr. Atkinson also presented a "Review of the Current Status of the Therapy of Leukemia" to the Gloucester County Medical Society.

DR. FRANZ GOLDSSTAIN, Assistant Professor of Medicine (Jefferson, 1953), participated in a panel discussion on "Upper Gastrointestinal Hemorrhage" at a meeting of the Chester (Pa.) County Medical Society on March 20.

In April, he spoke on "The Management of Colonic Diverticulosis and Diverticulitis" on a program in York, Pennsylvania, and on "Management of Sequelae of Peptic Ulcer Surgery" at the Allentown (Pa.) Ex-Interns Day.

Recently, he also participated in a panel discussion on "Tumors of Small Bowel and Pancreas" at Woman's Medical College, Philadelphia.

DR. ARTHUR J. WEISS, Assistant Professor of Medicine, led a discussion on "Diagnosis and Treatment of Cancer of the Breast" at a meeting of the Berks (Pa.) County Medical Society on May 15.

DR. JAMES T. WESTON, Visiting Lecturer in Legal Medicine, participated in the Fifteenth Annual Meeting of the American Academy of Forensic Sciences in Chicago, Illinois, speaking on "Sudden Death from Acute Unsuspected Collagen Disease."

DR. JOHN W. GOLDSCHMIDT, Associate in Physical Medicine (Jefferson, 1954), led a general discussion of rehabilitation at an all-day conference on health care and rehabilitation of the aging in Allentown, Pennsylvania, in April. The symposium, titled "The Later Years," was sponsored jointly by the Lehigh (Pa.) County Medical Society, the Pennsylvania Medical Society Commission of Geriatrics, and the Lehigh Valley Chapter of the American Academy of General Practice.

That same month, Dr. Goldschmidt addressed the Monroe (Pa.) County Medical Society on "Diagnosis and Treatment of Cerebrovascular Accidents." Also speaking at this seminar, which was the fourth in a series, was Dr. LEWIS M. WIENER, Associate in Neurology.

DR. ELLIOTT L. GOODMAN, Associate in Clinical Medicine, and DR. HERBERT LOHMULLER, Assistant in Medicine, have been named Fellows in the American College of Physicians.

DR. NICHOLAS PADIS, Associate in Clinical Medicine, addressed the Philobiblon Club of Philadelphia in April, discussing "Charles Darwin's Thoughts on the Descent of Human Emotions."

DR. F. WILLIAM SUNDERMAN, JR., Instructor in Medicine (Jefferson, 1955), spoke on "The Sub-Cellular Partition of Nickel" at the meetings of the American Society for Experimental Pathology in Atlantic City on April 18.

On April 27, he spoke on "The Binding of Nickel by Ribonucleic Acids" at the meetings of the Association of Clinical Scientists in Louisville, Kentucky.

On May 9, Dr. Sunderman presented a paper on "The Separations of Hemoglobins by Starch Gel Electrophoresis" at the annual meeting of the Philadelphia Pathological Society, and, on the same day, spoke on "Measurements of Urinary Vanilmandelic Acid for the Diagnosis of Pheochromocytoma" at the Annual Doctors' Day at Harrisburg (Pa.) Hospital.

During June, Dr. Sunderman worked in Calcutta, India at the Cholera Research Centre of the Indian Council of Medical Research, in conjunction with Dr. ROLF FRETER, Associate Professor of Microbiology. He presented scientific discussions at the Calcutta Branch of the Indian Medical Association and at the All-India Medical Institute in New Delhi.

OBSTETERICS AND GYNECOLOGY

DR. LEWIS C. SCHEFFEY, Professor of Obstetrics and Gynecology, Emeritus (Jefferson, 1920), received the American Cancer Society's highest award—the National Divisional Award—in May at the Society's campaign kick-off Luncheon at the Warwick Hotel, Philadelphia. Dr. Scheffey was honored for his service in cancer control and his role in founding the local Society.

DR. GEORGE A. HAHN, Clinical Professor of Obstetrics and Gynecology, discussed "Chemotherapy in Malignant Disease" at the Jefferson Junior High School, Oak Ridge, Tennessee, in May. His talk, to which the public was invited, was sponsored by the Oak Ridge Chapter of the Research Society of America.

DR. PAUL A. BOWERS, Assistant Professor of Obstetrics and Gynecology (Jefferson, 1937) was princi-
pal speaker at a meeting of the Sussex (Del.) County Medical Society when it met at the Beebe Clinic, Lewes, Delaware, recently. His topic was "Infertility and Contraceptives."

DR. JOHN EDWARD LYNCH, Assistant Professor of Clinical Obstetrics and Gynecology (Jefferson, 1935), directed special Classes for Expectant Parents at Misericordia Hospital, Philadelphia, in April and May. Dr. Lynch also is Director of Obstetrics at Misericordia.

DR. BURTON L. WELLENBACH, Associate in Clinical Obstetrics and Gynecology (Jefferson, J-1944), participated in a case discussion and presented a paper on "Newer Concepts in Menstrual Irregularities and Infertility" at the Conemaugh Valley Memorial Hospital, recently.

ORTHOPEDIC SURGERY

DR. ANTHONY F. DE PALMA, James Edwards Professor of Orthopedic Surgery and Head of the Department (Jefferson, 1929), was principal speaker at sessions sponsored by the New England Orthopaedic Society in May. His talks were: "Physiological Degenerative Changes in the Acromioclavicular and Sternoclavicular Joint with Aging," "Management of Lesions of the Patellofemoral Joint," and "A Survey of Cervical Syndrome." Dr. De Palma illustrated his talks with slides of X-rays and photos of bones in various stages of degeneration or treatment, and answered questions posed by society members.

Also in May, Dr. De Palma participated in a panel discussion at the Symposium on Surgery of the Shoulder, held in Montreal, Canada. He presented five papers: "Surgical Anatomy of the Rotator Cuff and the Natural History of Periarthritis," "Arthrodesis of the Shoulder Joint," "The Operative Treatment of Recurrent Anterior Dislocation of the Shoulder," "Result of Operative Treatment of Recurrent Dislocation of the Shoulder Following a Modified Magnuson Procedure" and "Surgical Anatomy of the Acromioclavicular and Sternoclavicular Joints."

In March, Dr. De Palma attended the Orthopaedic and Rehabilitation Seminar in Des Moines, Iowa, speaking on "Reconsideration of Lesions Affecting the Patellofemoral Joint."

Dr. De Palma has been elected Chairman of the Orthopedic Surgery Section of the International College of Surgeons.

DR. JOHN J. DOWLING, Assistant Professor of Clinical Orthopedic Surgery (Jefferson, 1947), spoke at the regional meeting of the American College of Surgeons held in Pittsburgh in June. He presented a paper entitled "Management of Colles Fracture" and served as a member of the panel on "Fractures of the Wrist."

DR. JOHN J. GARTLAND, Assistant Professor of Orthopedic Surgery (Jefferson, S-1944), presented a paper entitled "Posterior Tibial Transplant in the Treatment of Recurrent Clubfoot" at a meeting of the American Academy of Orthopaedic Surgeons, Bal Harbour, Florida, earlier this year.

In April, Dr. Gartland attended the annual meeting of the Russell A. Hibbs Society at Richmond, Virginia. He delivered a paper on "Iliopsoas Release for the Treatment of the Painful Arthritic Hip."

Dr. Gartland has been elected Program Chairman of the Philadelphia Regional Committee on Trauma, American College of Surgeons.

DR. RALPH C. HAND, Associate in Orthopedic Surgery (Jefferson, 1922), attended the joint meeting of the Pennsylvania and Philadelphia Orthopaedic Societies at the Wilkes-Barre (Pa.) General Hospital on May 17.

DR. JEROME M. COTLER, Instructor in Orthopedic Surgery (Jefferson, 1952), is Chairman of the Subcommittee on Athletic Injuries of the Trauma Committee of the American College of Surgeons, State of New Jersey.

In March, Dr. Cotler attended the meeting of the Trauma Society of the State of New Jersey at the Princeton Inn. On May 11, he participated in a meeting of the Atlantic City Trauma Society, and on June 22, attended a meeting of the American Academy of Orthopaedic Surgeons at the Americana Hotel in New York City.

Dr. Cotler recently was elected Chief of Staff at Bridgeton (N.J.) Hospital.

DR. JAMES M. HUNTER, Instructor in Orthopedic Surgery (Jefferson, 1953), presented "Escalator Injuries to the Hand in Children" at the Spring Meeting of the Philadelphia Regional Committee on Trauma of the American College of Surgeons, on April 26, at the Veterans Administration Hospital, Philadelphia.

Dr. Hunter also spoke on "The Early Development of a Tendon Prosthesis," sponsored by the Ethicon Company, to the Orthopedic Advisory Panel at the meeting of the American Academy of Orthopaedic Surgeons, Bal Harbour, Florida, earlier this year.
OTOLARYNGOLOGY

DR. FRED HARBERT, Professor of Otolaryngology and Head of the Department, was named President-Elect of The American Otorhinologic Society for Plastic Surgery, Inc. at the New Orleans scientific meeting of the Society.

DR. JOHN J. O'KEEFE, Clinical Professor of Otolaryngology (Jefferson, 1937), took part in a panel discussion on "Acute Trauma of the Larynx" at the annual meeting of the Pennsylvania Academy of Ophthalmology and Otolaryngology, held in Bedford Springs, Pennsylvania, May 16-19.

DR. SEYMOUR WAGNER, Assistant in Otolaryngology, was guest speaker at a clinical staff conference on "Modern Advances in the Treatment of Deafness" at Doctors Hospital, Philadelphia, in April.

PEDEIATRICS

DR. HANS G. KEITEL, Professor of Pediatrics and Head of the Department, attended the Measles Symposium in Chicago, Illinois, on June 5.

DR. JOHN F. COPPOLINO, (Jefferson, 1922) and DR. NORMAN M. MACNEILL (Jefferson, 1916), both Honorary Clinical Professors of Pediatrics, and DR. JOHN W. HOLMES, Honorary Associate Professor of Clinical Pediatrics (Jefferson, 1908), were honored at the annual dinner-meeting of the Department of Pediatrics on May 31, when they became honorary members of the staff.

PHARMACOLOGY

DR. JULIUS M. COON, Professor of Pharmacology and Head of the Department, has been named Chairman of the Toxicology Study Section of the National Institutes of Health for a two-year period through 1964. He has served as Chairman of the Membership Committee of the American Society for Pharmacology and Experimental Therapeutics for 1962-63.

DR. WALTER WOLF BAKER, Associate Professor of Pharmacology and Psychiatry, presented a seminar entitled "A Neuropharmacologic Analysis of Tremorine" at the Army Chemical Center, Maryland, on March 29.

Members of the staff and graduate students of the Department of Pharmacology attended the Federation meetings held in Atlantic City, New Jersey, April 16-20, and presented the following papers: "Effects of Aldrin and Chlordane on Toxicity of Organophosphates and Hexobarbital Sleeping Time in Mice" by DR. COON and A. J. TRILOLO, M.S.; "Influence of Tremorine on Motor Reflexes" by DR. BAKER; "Histamine in Relation to Sodium Transport in Voluntary Muscle" by DR. CHARLES P. KRAATZ, Professor of Pharmacology, and a former graduate student.

At the meeting, DR. Coon was named Treasurer-elect of the American Society for Pharmacology and Experimental Therapeutics and a member of the Society's Council.

PHYSIOLOGY

DR. KARL HENRY BEYER, Professorial Lecturer in Physiology, received the first Lakey Honorary Lecture Award at Wayne State University, Detroit, in May. Named in honor of a former dean of the school, the Lakey Award will be presented each year by the Rho Chi Society to the doctor or scientist making the greatest contribution to the field of public health. Selected on the basis of his extensive research in the areas of physiology and pharmacology, Dr. Beyer's honorary lecture dealt with "Some Contributions to the Renal Modulation of Electrolyte Balance."

PREVENTIVE MEDICINE

DR. E. HAROLD HINMAN, Professor of Preventive Medicine and Head of the Department, attended the
Dr. Fry Reports on Record-Breaking 15th Drive

JEFFERSON Alumni have done it again! For the third successive year we have set a new record for Annual Giving. The 15th Drive resulted in a total of $162,372, representing gifts from 3,498 loyal Alumni.

All but $8,600 of the total amount was "unrestricted" by the donors, indicating that our Alumni have confidence that their gifts will be used wisely by the Administration. These funds are extremely important for the day-to-day operation of the College and without this continued Alumni support, many facets of Jefferson's varied activities would have to be sharply curtailed.

Jefferson faculty members—both Alumni and Non-graduates—were solicited during the past year for gifts and pledges to the Building Fund. In a separate article on pages 43 and 44 of this issue, you will find a report of the results of the Building Fund solicitation. All of us are most gratified that many faculty members continued to support Annual Giving, even though they responded generously to the Capital Gifts Drive.

To all our loyal Alumni, and to our Non-graduate faculty members, we extend our most sincere thanks for your gifts in the past campaign. Once again, our hard-working Class Agents deserve the lion's share of credit for the success of the Drive. Their thoughtful and, at times, "newsy" letters evoked the desired action—the mailing of a check—by more than half of our Alumni body. Many of these Class Agents have served for a number of years, yet they approach each campaign with new enthusiasm. This is, of course, the major reason that our Drives have followed a consistent upward trend for the past five years. There has been an increase in total amount of 44% during this period, which is quite a remarkable record for any Alumni body to achieve.

Our Annual Giving program has received considerable recognition and commendation outside the confines of Jefferson. Our 14th Drive (1961-1962) was awarded an Honorable Mention and a cash prize of $125.00 in the American Alumni Council's Incentive Award competition this past June. This marks the third successive year in which we have received an American Alumni Council-United States Steel Award. We are the only Professional School which has achieved this record. We may well be proud of it.

The College cannot live on past glories, however, and another Annual Giving Campaign will begin in the Fall. Again, we have set our sights high. Our goal for the 16th Drive will be $175,000 and, with increased participation by our Alumni, we feel confident of success.

Jefferson Alumni will be solicited for contributions to the Building Fund during the coming year and, because our Alma Mater is so dear to all of us, we feel sure that you will support this much-needed expansion program to the utmost of your financial ability.

There will be no conflict between the Capital Gifts Drive and Annual Giving, which will be conducted as usual through our Class Agents. We believe that all of you will realize that the running expenses of the College will continue and must be met, even though a campaign to erect buildings is in progress. Annual Giving is for one purpose—a Capital Gifts Drive for another. We urge, therefore, that you contribute to both if it is at all possible for you to do so.

It is our greatest hope that at this time next year we can report to you that in the 16th Drive we reached our goal. With your help we can do it.

2a
ALLOCATION OF FIFTEENTH FUND

By Resolution passed by the Executive Committee of the Alumni Association, it was agreed that "Contributors to Annual Giving Fund Drives should be given the following choices of the use to which their contributions will be put: Unrestricted Funds, Pre-Clinical Salaries, Research, and 'Other' (to be specified by donor).”

The following is a recapitulation of contributors' choices in the Fifteenth Drive:

Unrestricted Funds ........... $153,751.76
Pre-Clinical Salaries ............ 2,738.00
Research ........................ 1,467.00
Other ............................ 4,415.00
Total ................................ $162,371.76

TOTAL OF FUNDS

1st Roll Call ....... 54.2% 3,209 gifts $108,313.87
2nd Roll Call ....... 55.2% 3,271 gifts 115,370.10
3rd Roll Call ....... 49.1% 2,908 gifts 110,335.44
4th Roll Call ....... 44.0% 2,713 gifts 88,989.11
5th Roll Call ....... 51.5% 3,055 gifts 110,010.92
6th Roll Call ....... 53.6% 3,183 gifts 109,782.89
7th Roll Call ....... 54.3% 3,236 gifts 111,297.95
8th Roll Call ....... 52.6% 3,182 gifts 116,524.77
9th Roll Call ....... 51.0% 3,319 gifts 113,362.79
10th Roll Call ....... 51.2% 3,266 gifts 119,900.98
11th Roll Call ....... 48.7% 3,134 gifts 112,782.42
12th Roll Call ....... 49.0% 3,184 gifts 128,093.00
13th Roll Call ....... 52.3% 3,447 gifts 144,735.95
14th Roll Call ....... 55.3% 3,668 gifts 157,180.00
15th Roll Call ....... 51.4% 3,498 gifts 162,371.76

### Fifteenth Annual Giving Fund Drive

**HONOR ROLL OF DONORS**

During the 15th Drive the following loyal alumni, faculty members, and friends contributed a total of $162,371.76 to the Annual Giving Fund. Of the 6802 living alumni with known addresses, 3498 were contributors, making our percentage of participation 51.4%. Contributions to Jefferson through the American Medical Association Education and Research Foundation totaled $12,786.35 and are listed separately on page 15a.

To all we wish to express our sincere thanks.

**PLAN NOW TO ATTEND—**

**Jefferson Dinner**

**October 10, 1963**

**Duquesne Club**

**Pittsburgh, Pa.**

during Pennsylvania Medical Society Convention
Conference on Research, Graduate Education and Postdoctoral Training in Departments of Preventive Medicine sponsored by the Association of Teachers of Preventive Medicine, at Saratoga Springs, June 10-14.

DR. EARL ALBRECHT, Professor of Preventive Medicine (Jefferson, 1932), was elected Second Vice-President of the Pennsylvania Health Council at the organization's recent annual meeting in Harrisburg, Pennsylvania.

DR. HEINRICH BRIEGER, Professor of Occupational Medicine and Director of the Division of Occupational Medicine and Hygiene, spoke on "The Deposition, Retention and Elimination of Inhaled Particles" before the Laennec Society of Philadelphia on April 9. He also presented a paper entitled "Genetic Mechanisms Underlying Susceptibility and Resistance to Toxic Agents" at the American Industrial Hygiene Conference in Cincinnati, Ohio on May 9.

DR. CHARLES W. LABELLE, Assistant Professor of Industrial Medicine, was one of three United States delegates who attended the Second International Symposium on Toxic Limits, held in Paris in April. One of the tangible results of this meeting was the establishment of an international list of Maximum Allowable Concentrations, which are acceptable both to the western nations and to the members of the Soviet bloc.

PSYCHIATRY

DR. ROBERT S. GARBER, Instructor in Psychiatry (Jefferson, 1937), was one of the three principal speakers at the June annual meeting of the Hawaiian Medical Association. He spoke on the "Role of the Community Psychiatrist in Promoting the Presidential Bill Regarding Mental Health." He also presided at a breakfast meeting, conducting a round table discussion on "Psychiatry and the Law," and served as a resource person on one of the Community Workshops on the "Management of Emotional Illness on an Out-patient Basis."

Enroute home, Dr. Garber stopped in San Francisco to address the Northern California Psychiatric Society, and spoke in Scottsdale, Arizona to members of the Arizona Psychiatric Society.

RADIOLOGY

DR. PHILIP J. HODES, Professor of Radiology and Head of the Department, delivered a series of five lectures in Israel, recently, beginning with the Rigler Lecture on April 25 in the Municipal Hospital, Tel Aviv. On May 1, he appeared before the Jerusalem Branch of the Israel Medical Association at the Hadassah Medical School in Jerusalem.

DR. ROY R. GREENING, Professor of Radiology, spoke on "Angiography" at the annual meeting of the Central Pennsylvania Chapter of the American College of Surgeons in Gettysburg, recently.

SURGERY

DR. JOHN H. GIBBON, JR., The Samuel D. Gross Professor of Surgery and Head of the Department (Jefferson, 1927), received the Strittmatter Award for the year 1962 at a joint meeting of The Philadelphia County Medical Society and the College of Physicians of Philadelphia, on May 15. DR. GEORGE J. WILLAUER, Honorary Clinical Professor of Surgery (Jefferson, 1923), presented the award to Dr. Gibbon.

On June 15, Dr. Gibbon moderated a session on "Bronchogenic Carcinoma" at a meeting of the American College of Chest Physicians, Atlantic City, New Jersey.

DR. THOMAS F. NEALON, JR., Professor of Surgery (Jefferson, S-1944), participated in the 33rd Annual Health Institute Day, sponsored by the Philadelphia County Medical Society's Women's Auxiliary, recently. He spoke on "Let's Stop Lung Cancer."

DR. WALTER F. BALLINGER, II, Associate Professor of Surgery, opened a discussion on the subject of "Management of Vascular Trauma in Children" at the spring meeting of the Philadelphia Regional Committee on Trauma of the American College of Surgeons, April 26, at the Philadelphia Veterans Administration Hospital.

DR. THOMAS BURRITT MERVINE, Assistant Professor of Clinical Surgery (Jefferson, 1940), was Chairman of a conference on "Modern Advances in the Treatment of Deafness" at Doctors Hospital, Philadelphia, in April.

DR. MOSES BEHREND, Honorary Associate in Surgery, presently serves as Honorary Chairman of the Qualifications Council of the International College of Surgeons.

DR. DAVID J. LA FIA, Instructor in Surgery (Neurosurgery), (Jefferson, 1947), addressed the Philadelphia Society of Medical Assistants on April 18. His topic
was “Surgical Treatment of Parkinson's Disease and Related Disorders.”

On April 26, Dr. La Fia spoke on "Management of Head Injuries in Children" at the spring meeting of the Philadelphia Regional Committee on Trauma of the American College of Surgeons. The discussion of Dr. La Fia’s talk was opened by Dr. William H. Whiteley, III, Assistant Professor of Clinical Surgery (Neurosurgery), (Jefferson, 1943).

Dr. Herbert Lipschutz, Instructor in Surgery (Jefferson, S-1944), discussed "Prevention of Burn Contractures" at a Burn Symposium at Lankenau Hospital, Philadelphia, on April 23.

UROLOGY

Dr. Theodore R. Fetter, Nathan Lewis Hatfield Professor and Head of the Department (Jefferson, 1926), attended the Annual Meeting of the American Urological Association, Inc., held at the Sheraton-Jefferson Hotel, St. Louis, Missouri, May 13 to 16, inclusive. Dr. Fetter is a member of the Executive Committee of the Association, representing the Mid-Atlantic Section. Several of the Department of Urology staff members also attended the meeting.

Dr. Paul D. Zimskind, Research Associate in Urology (Jefferson, 1957), also attended the American Urological Association Meeting in St. Louis. He presented a paper titled "Pathologic Types of Ureteral Pressure Graphs with Remarks on Their Relation to Lower Tract Obstruction," authored by Dr. David M. Davis, Professor of Urology, Emeritus, and Dr. Zimskind.

On May 12, Dr. Zimskind participated in the meeting of the Society for Pediatric Urology of the American Urological Association, St. Louis. He presented a paper on "Vesical and Ureteral Pressures During Reflux," written by Dr. Fetter and Dr. Zimskind.

Physicians Attend AMA Annual Meeting

Physicians from all over the United States converged on Atlantic City from June 16-20 for the 112th Annual Meeting of the American Medical Association. Some 15,000 doctors attended the meeting, taking advantage of the opportunity to receive five days of intensive training in medical fields of their choice.

Many Jefferson faculty members and Alumni took part in the program, participating in the scientific exhibits, general scientific and section programs and the Multiple Discipline Research Forum.

Dr. Gilson C. Engel, Associate Professor of Surgery, who is a member of the AMA's Council on Scientific Assembly, presided over a joint General Scientific Meeting, and over a joint meeting of the Section on Pediatrics. Another participant in the General Scientific Meetings was Dr. Roy R. Greening, Professor of Radiology, who spoke on "Newer Techniques in Radiological Diagnosis" during the "Symposium on Strokes."

The Third Multiple Discipline Research Forum featured several Jefferson representatives. Dr. Walter F. Ballinger, II, Associate Professor of Surgery, with two associates, discussed "Hepatic Regulation of Sodium and Water in Ascites" at the session on "Nutrition and Metabolism." During the session on "Hormonal and Enzymatic Systems," Dr. J. Edward Berk, Class of 1936, served as a panel member; Dr. Berk also presented an exhibit on "Tetracyclin-Induced Fluorescence Test for Gastric Cancer" with several other physicians. Dr. Ward D. O'Sullivan, Clinical Professor of Surgery, and two associates, discussed "Stimulus to Gastric Acid Secretion Arising Outside the Stomach, Duodenum and Pancreas" during "Hormonal and Enzymatic Systems."

During the Section on Diseases of the Chest, Dr. Jacob J. Kirshner, Associate in Medicine (Jefferson, 1933), participated in a joint meeting with the American College of Chest Physicians speaking on "Experiences with Tuberculosis in Older Persons." Dr. George C. Griffith, '26, moderated the panel on "Treatment of Acute Rheumatic Fever" at one of the thirty-six " Fireside Conferences" presented during the Chest Disease section. Also participating in these conferences were: Dr. David Gelfand, '32, a panel member on "Diagnosis and Management of Renal Hypertension"; Dr. Peter A. Theodos, Assistant Professor of Clinical Medicine (Jef-
Jefferson, 1935), a member of the discussion on "Occupational Allergic Diseases of the Lung"; Dr. Victor P. Satinsky, '38, a participant on the panel titled "New Suturing Techniques in Vascular and Pulmonary Surgery"; Dr. Seymour L. Cole, '38, a panel member on "Management of Coronary Occlusion in Evolution"; Dr. William A. Sodeman, Dean and Vice-President for Medical Affairs, who moderated the panel on "Management of Cardiac Arrhythmias Due to Therapeutic Agents." Later in the Chest Disease program, Dr. Sodeman served as Internist during a panel discussion on the "Management of Hemoptysis"; he served in the same capacity when the panel was repeated during the Section on General Practice.

Also appearing later that week on other AMA programs were Doctors Theodos and Satinsky. Dr. Theodos presented an exhibit on Pulmonary Function, and discussed "The Significance of Abnormal Pulmonary Function Tests" with two associates. Dr. Satinsky exhibited "Creation of a Third Coronary Artery" during the scientific exhibits on Diseases of the Chest, and, under the miscellaneous exhibits, presented "Bioscience High School Educational Program" with another physician.

During the Section on Experimental Medicine and Therapeutics, Dr. Karl H. Beyer, Professorial Lecturer in Physiology, delivered the "Introduction" to the Symposium on "Safety Evaluation of New Drugs" at a joint meeting with the Society of Toxicology.

Participating in the Section on Gastroenterology and Proctology were Dr. Franz Goldstein, Assistant Professor of Medicine (Jefferson, 1953), Dr. C. Wilmer Wirts, Professor of Clinical Medicine (Jefferson, 1934), Dr. Hyman Menduke, Associate Professor of Biostatistics and Preventive Medicine and Dr. H. Jay Cozzolino, '58. They presented "Secretin-Cholecystokinin Test of Pancreatic and Biliary Tract Function" during the panel discussion on "Chronic Liver Disease."

A series of Instruction Courses was given during the Section on Laryngology, Otology and Rhinology, one of which was conducted by Dr. Fred Harbert, Professor of Otolaryngology and Head of the Department. Dr. Harbert's topic was "Interpretation of Hearing Tests."

Four faculty members presented "The Detection of Fetal Distress by the Abnormal Fetal Radioelectrocardiogram" during the Section on Obstetrics and Gynecology. They are Dr. Benjamin Kendall, Assistant in Obstetrics and Gynecology, Dr. David M. Farell, Clinical Professor of Obstetrics and Gynecology (Jefferson, 1928), Dr. Henry A. Kane, Associate in Clinical Pedi-

atrics (Jefferson, 1953), and Dr. James R. Van Ostrand, Resident in Obstetrics and Gynecology.

During the Section on Urology, two Alumni from the state of Washington—Dr. John L. McCormack, '48, and Dr. Ronald Tocantins, '54—discussed "Trends in Prostatic Surgery" with three associates.

Dr. Harry L. Rogers, Honorary Assistant Professor of Clinical Medicine, spoke on "Allergic Emergencies" during the Session on Allergy.

A highlight of the meeting were the color television programs, eight half-day productions sponsored by Smith, Kline & French Laboratories, Philadelphia, and originating from the Hospital of the University of Pennsylvania. Opening the program on Monday morning, June 17, was Dr. John H. Gibbon, Jr., The Samuel D. Gross Professor of Surgery and Head of the Department (Jefferson, 1927), who moderated "Open Heart Repair—Tetralogy of Fallot."

Dr. John A. Koltes, Associate Professor of Clinical Psychiatry (Jefferson, 1947), served as a panelist on the television program "Psychiatric Units in General Hospitals." Dr. James E. Clark, Associate in Clinical Medicine (Jefferson, 1952), moderated the color program on "Peritoneal Dialysis." Dr. Thomas D. Duane, Professor of Ophthalmology and Head of the Department, served as moderator of "Cataract and Glaucoma Surgery."

Dr. Bernard J. Alpers, Professor of Neurology and Head of the Department, participated in the Motion Picture Program. With another physician, Dr. Alpers described and demonstrated "Physical Diagnosis—Neurological Signs—Motor and Sensory Systems."

The Scientific Exhibit Program was held in Atlantic City's Convention Hall in conjunction with the meetings and panel discussions.

Participating in the special exhibit on "Clinical Pathology Tests in Health Evaluation" was Dr. Robert L. Breckenridge, Assistant Professor of Pathology (Jefferson, J-1944), who helped man the exhibit laboratory with other members of the New Jersey Society of Pathologists.

Dr. Richard T. Cathcart, Associate Professor of Medicine, was one of the demonstrators at the special exhibit on Pulmonary Function.

At the exhibit symposium on "Arthritis and Rheumatism," three Alumni manned an exhibit titled "Why Should Gout Be Treated?" They are Dr. Kenneth M. Kron, '52, Dr. Irvin F. Hermann, '37, and Dr. Richard T. Smith, Instructor in Medicine (Jefferson, 1941).

In the scientific exhibits on Internal Medicine, Dr.
William J. Duigg, '52, exhibited “Extracranial Cerebrovascular Disease” with three associates. Dr. Jerry E. Schmitthenner, Associate in Clinical Medicine, Dr. Earl A. Daugherty, '30, and two other physicians presented “Ten Year Follow-up of Patients with Malignant Hypertension.”

Participating in the scientific exhibits on Obstetrics and Gynecology was Dr. Charles L. Hoffmeier, Assistant in Obstetrics and Gynecology. With an associate, he demonstrated “Bandaging the Umbilical Cord.”

“Diagnosis and Treatment of Acute Low Back Disorders” was the subject of the exhibit of Dr. Everett J. Gordon, '37, one of the special Orthopedic Surgery booths.

TWO Alumni manned booths in the section for Pediatrics. Dr. J. Ronald Halenda, '57, with three associates, exhibited “Measles and Its Prevention—Enders Live Attenuated Measles Virus Vaccine.” With three other physicians, Dr. Franklin B. Peck, Jr., '52, exhibited “Measles Immunization with Killed Virus Vaccine.”

One of the scientific exhibits on Radiology was staffed by Dr. Jules Rominger, '48, and an associate. The title of the exhibit was “Precision Cone Therapy of Oral Carcinoma.”

Dr. William W. L. Glenn, '38, and Dr. Ralph Lev, Instructor in Surgery (Jefferson, 1948), participated in the special exhibits on General Surgery. Dr. Glenn and two associates staffed “Circulatory Bypass of the Right Side of the Heart-Vena Cava-Pulmonary Artery Shunt.” Dr. Lev and associates manned the booth on “Evaluation for Open Heart Surgery.”

“The Study for Urodynamics” was exhibited by five Jefferson representatives as part of the booths on Urology. They are Dr. David M. Davis, Professor of Urology, Emeritus, Dr. Theodore R. Fetter, Nathan Lewis Hatfield Professor of Urology and Head of the Department (Jefferson, 1926), Dr. Paul D. Zimskind, Research Associate in Urology (Jefferson, 1957), Dr. Jean-Pierre Paquet, Assistant Resident in Urology, and Dr. Jules H. Bogaev, Assistant Professor of Clinical Neurology.

Obstetricians Meet in New York City

JEFFERSON Alumni in the field of Obstetrics and Gynecology and faculty members in the Department of Obstetrics and Gynecology attended two meetings in their specialty in April. The first, the nineteenth annual meeting of The American Society for the Study of Sterility, was held at the Statler Hilton Hotel, New York City, from April 19-21. The eleventh annual clinical meeting of The American College of Obstetricians and Gynecologists followed from April 21-24 at the same hotel.

Participating in the Scientific Program of The American Society for the Study of Sterility were the following Jefferson men: Dr. Paul H. Fried, '39, Instructor in Obstetrics and Gynecology, discussed “Psychogenic Factors in Infertility” during the luncheon seminar on “Diagnostic Problems.” At the same seminar, Dr. Warren R. Lang, '43, Associate Professor of Obstetrics and Gynecology, spoke on “Post-Coital Examination and Fern Test.”

During the seminar on “Non-Surgical Therapy in the Female,” Dr. Abraham E. Rakoff, '37, Professor of Obstetric and Gynecologic Endocrinology, discussed “Estrogens.”

Dr. Amos S. Wainer, Assistant Professor of Obstetrics and Gynecology, spoke on “Tubo-Plasty—Indications and Contra-Indications” at the seminar on “Surgical Therapy in the Female.”

During the Sterility Society's program of Clinical Research Correlates, Dr. Alvin F. Goldfarb, Assistant Professor of Obstetrics and Gynecology, served as co-Chairman of “Management of the Anovulatory Female.”

Dr. Jerome Abrams, '53, Director of the Cytology Laboratory and Attending Physician, Department of Obstetrics and Gynecology, Plainfield (N.J.) Hospital, with Rosalyn Y. Abrams, M.S., Cytologist, Plainfield Hospital and former member of the Jefferson Cytology Laboratory, considered “Selection of Patients for Progestational Therapy During Early Pregnancy” during the panel discussion on “Abortion—Continuing Diagnostic and Therapeutic Challenge.”

Dr. John B. Montgomery, '26, Professor of Obstetrics and Gynecology and Head of the Department, presently
serves as Honorary Vice-President of The American Society for the Study of Sterility.

THE four-day meeting of The American College of Obstetricians and Gynecologists featured several Jefferson representatives and graduates.

Dr. Rakoff participated in a panel discussion on "Stimulation and Determination of Ovulation," one of a series of special interest meetings.

Several Jefferson men spoke at the breakfast conferences: Dr. Hammell P. Shipp, '26, Assistant Professor of Clinical Obstetrics and Gynecology, discussed "Abdominal Incisions"; "First Trimester Bleeding in Pregnancy" was the subject of Dr. Paul A. Bowers, '37, Assistant Professor of Obstetrics and Gynecology; Dr. Thaddeus L. Montgomery, '20, Professor of Obstetrics and Gynecology, Emeritus, spoke on "Premature Labor"; "Radioisotopes in Obstetrics" was the topic of Dr. Samuel M. Dodek, '27, Clinical Professor of Obstetrics and Gynecology, George Washington University School of Medicine, and Administrative Chairman of the Department of Obstetrics and Gynecology, Washington Hospital Center, Washington, D.C.; Dr. George A. Hahn, Clinical Professor of Obstetrics and Gynecology, spoke on "Radiation Hazards in Obstetrics and Gynecology"; Dr. Lang discussed "Trichomonas Vaginitis."

In the scientific exhibits, four Jefferson representatives presented Dr. David M. Farell's prize-winning exhibit on "Fetal Radio-Electrocardiography" (Photograph in December 1962 BULLETIN, page 28); assisting Dr. Farell, who is Class of '28 and Clinical Professor of Obstetrics and Gynecology, were Dr. Benjamin Kendall, Assistant in Obstetrics and Gynecology, Dr. James Van Ostrand, Resident in Obstetrics and Gynecology, and Dr. Henry A. Kane, '53, Associate in Clinical Pediatrics.

With two other physicians, Dr. John C. Ullery, '32, Professor and Chairman of the Department of Obstetrics and Gynecology, The Ohio State University, Columbus, Ohio, exhibited "Fetal Maternal Safety in Analgesia." Dr. Ullery and three associates also presented the exhibit on "Delivery Force—Traction and Compression Forces Exerted by Obstetrical Forceps and Their Effect on Fetal Heart Rate."

"Gonorrhea in Females" was exhibited by Dr. Leonard H. Shapiro, '22, Consultant in Gynecology, Philadelphia Department of Public Health, and Associate in the Department of Obstetrics and Gynecology, The Hahnemann Medical College and Hospital, Philadelphia.

Faculty Members Participate In Postgraduate Institute

A number of Jefferson Faculty members participated in the Twenty-Seventh Annual Postgraduate Institute of The Philadelphia County Medical Society, held April 23-26 at the Bellevue-Stratford Hotel, Philadelphia.

Dr. James E. Clark, '52, Associate in Clinical Medicine, discussed "The Aldosterone Syndromes" at a panel on "Metabolic Disorders." Dr. Clark also presented "Peritoneal Dialysis in Renal Shutdown" at the panel on "Surgical Procedures of Medical Interest."

Participating on this same panel were Dr. J. Montgomery Deaver, Professor of Clinical Surgery, who served as Chairman, and Dr. George J. Haupt, '48, Associate in Surgery, who discussed "Hemodynamic Studies in Heart Disease as an Aid in the Selection of Patients for Operation."

Dr. C. Wilmer Wirts, '34, Professor of Clinical Medicine, spoke on "The Management of Symptoms Following Gastric Surgery" during the panel on "Gastrointestinal Problems."

A member of the panel on "Common Pediatric Problems" was Dr. Robert L. Brent, Professor of Pediatrics and Professor of Radiology (Radiation Biology).

Dr. Peter A. Theodos, '35, Assistant Professor of Clinical Medicine, discussed "The National Tuberculosis Association Attack on Cough and Shortness of Breath—Patient Evaluation" at a panel on "Respiratory Diseases."

Dr. Harry R. Draper, Assistant Professor of Clinical Psychiatry, was Chairman of a group discussing "The Problem of Depression in Medical Practice" and spoke on "The Treatment of Depression." At this same panel, Dr. William E. Kelly, Instructor in Clinical Neurology, presented "Why People Get Depressed."

CHAIRMAN of the discussion on "Changing Patterns in Infectious Diseases" was Dr. Frank J. Sweeney, Jr., '51, Associate in Medicine. One of the panel members was Dr. E. Harold Hinman, Professor of Preventive Medicine and Head of the Department, whose subject was "Changing Patterns in World Public Health."

Dr. Malcolm W. Miller, Assistant Professor of Clinical Medicine, served as Chairman of a special discussion on "Government and Medicine."

Dr. J. Rush Shanahan, Instructor in Medicine, and Dr. Nathan M. Smukler, '47, Assistant Professor of Medi-
Jefferon Physicians Present Chest Physicians’ Forum

Jefferson was highly honored to have members of its faculty selected to present the entire Undergraduate Teaching Forum at the 29th Annual Meeting of the American College of Chest Physicians. The meeting was held at the Ambassador Hotel, Atlantic City, New Jersey, from June 13-17, 1963.

The Undergraduate Teaching Forum, which was presented as planned and practiced at Jefferson, was introduced by Dr. Martin J. Sokoloff, Class of 1920, Honorary Clinical Professor of Medicine. The Freshman Year was presented by Dr. Roy R. Greening, Professor of Radiology; The Sophomore Year by Dr. Daniel W. Lewis, J ‘44, Assistant Professor of Clinical Medicine; The Junior Year by Dr. Thomas F. Nealon, Jr., S ’44, Professor of Surgery; The Senior Year by Dr. J. Woodrow Savacool, Associate Professor of Preventive Medicine, Director of the Division of Clinical Preventive Medicine, and Assistant Professor of Clinical Medicine.

In the Senior Chest Conference, Dr. William Fraimow, Associate in Medicine, served as Moderator, and Dr. Kenneth M. Given, ’61, Resident in Medicine, was the Narrator. Participating on the panel discussion were Dr. John Y. Templeton, III, ’41, Clinical Professor of Surgery; Dr. John J. O’Keefe, ’37, Clinical Professor of Otolaryngology; Dr. Harold L. Israel, ’34, Clinical Professor of Medicine; Dr. Richard T. Cathcart, Associate Professor of Medicine; Dr. Peter A. Theodos, ’35, Assistant Professor of Clinical Medicine; Dr. John J. McKeeown, Jr., ’47, Assistant Professor of Clinical Surgery; Dr. Frank J. Sweeney, Jr., ’51, Associate in Medicine; Dr. Charles Fineberg, Associate in Surgery; Dr. Rudolph C. Camishion, ’54, Assistant Professor of Surgery; Dr. Robert G. Johnson, ’49, Associate in Clinical Surgery.

Interested physicians and faculty members from other schools were invited to attend and participate in the discussion.

Alumni Attend Industrial Medical Meeting

Three Jefferson graduates participated in the Spring meeting of the Industrial Medical Association of the Pittsburgh-Cleveland Area held May 10 at West Virginia University School of Medicine, Morgantown, W. Va. Dr. Benjamin M. Stout, Class of 1952 and Clinical Instructor in Medicine, West Virginia University School of Medicine, spoke on “Air Pollution and Pulmonary Disease.” Dr. Albert J. Blair, Class of 1935, presided over the afternoon session of the meeting; Dr. Blair, with Consolidated Natural Gas Company, Pittsburgh, is President-Elect of the Industrial Medical Association of the Pittsburgh-Cleveland Area. Dr. Thomas W. Nale, Class of 1924 and Medical Director of Union Carbide Corporation, New York, discussed “Health Hazards and Toxicity of Certain Epoxy Resin Formulations.”

Doctors Present Exhibits At AAGP Assembly

Several Alumni and two faculty members presented scientific exhibits at the 1963 Scientific Assembly of the American Academy of General Practice, held at McCormick Place, Chicago, Illinois, April 1-4.

Dr. David M. Farell, Clinical Professor of Obstetrics and Gynecology, Class of 1928, exhibited “Fetal Radio-Electrocardiography.” Dr. James R. Van Ostrand, Resident in the Department of Obstetrics and Gynecology, manned the booth for Dr. Farell.

Dr. John C. Ullery, ’32, Columbus, Ohio, presented “Fetal and Maternal Safety in Analgesia.” “Management of Leg Cramps in Pregnancy” was exhibited by Dr. Herschel S. Murphy, ’28, Roselle, New Jersey. Dr. J. Edward Berk, ’36, presented “Tetracycline-Induced Fluorescence Test for Gastric Cancer” with two associates from the California College of Medicine, Los Angeles, California.
Building Fund Campaign Progresses

A nation-wide campaign will be inaugurated this Fall among alumni for support of Jefferson’s $41,000,000 Building Fund program.

Goal for the alumni phase of the campaign, scheduled to be completed by May, 1964, has been set at $1,250,000.

A total of $7,000,000 of the $41,000,000 overall objective must be obtained from private sources of support in order that Jefferson may qualify for the remainder of the funds in the form of Federal and State appropriations.

Subscriptions received to date, primarily from corporations, private foundations, and individuals in the Philadelphia area, amount to $3,600,000. Taking the lead in the early stages of the campaign have been Jefferson’s trustees and members of the Faculty and Staff.

Subscriptions approximating $2,000,000 have been provided by the trustees in personal gifts or those of firms and private foundations with which they are closely identified.

Faculty and Staff members have accounted for $520,000, and campaign leaders express confidence that this figure will mount to $560,000 before completion of the solicitation effort.

Heading the campaign among members of the Faculty and Staff is Dr. Theodore R. Fetter, ’26, Nathan Lewis Hatfield Professor of Urology and Head of the Department. Dr. Fetter was a former Chairman of Alumni Annual Giving and, also, was President of the Alumni Association in 1949-50.

Serving as Vice Chairman with Dr. Fetter is Dr. Peter A. Herbut, Professor of Pathology and Head of the Department, and Chairman of the Executive Faculty.

Plans for the fund-raising effort among Jefferson’s graduates were presented by campaign leaders to the Alumni Advisory Council at the June meeting of the alumni representatives. Prominent in advancing suggested campaign procedures to the Council were William W. Bodine, Jr., President of Jefferson, and Casimir A.
Sienkiewicz, Chairman of the Central-Penn National Bank in Philadelphia and General Chairman of the Building Fund program.

The Alumni campaign, as presented by Mr. Bodine and Mr. Sienkiewicz, proposes the organization of committees and personalized solicitation of Jefferson graduates in all areas of Alumni concentration throughout the country.

A national chairman and regional chairmen will be enlisted during the next several weeks, and it is anticipated that active solicitation will begin by mid-November. At the height of the campaign, more than 500 graduates are expected to be engaged in presentation of Jefferson's expansion program to their fellow Alumni.

Following the meeting of the Advisory Council, members of that body issued a statement endorsing the campaign procedures recommended by Mr. Bodine and Mr. Sienkiewicz.

In their statement of endorsement, the Advisory Council members declared, "The Alumni Advisory Council wishes to express its satisfaction as to the practicality and soundness of approach of the campaign plan for solicitation of our national Alumni body next year as presented by the Administration of Jefferson Medical College."

In conformance with recommendations advanced by the Annual Giving Committee and the Executive Committee of the Alumni Association, there will be no disruption of Annual Giving during the Building Fund campaign.

Members of the Annual Giving Committee have indicated that they do not expect any decline in the scale of the yearly solicitation for sustaining funds. They point out that, during the past Spring, Annual Giving by members of the Faculty and Staff kept pace with that of previous years despite the participation of this particular group in the Building Fund program.

Alumni members of the Faculty and Staff thus far have contributed $225,000 to the Building Fund. All gifts made by this group to the Fund will be credited to the $1,250,000 objective.

Subscriptions from Alumni will be sought on the basis of a pledge period extending over three to five years. Payments may be made in accordance with a schedule which the individual donor may stipulate when making his pledge.

Funds obtained from Alumni will be directed entirely to the construction of facilities and for installation of equipment necessary for expansion of the Basic Science Departments; and for construction of additional teaching laboratories and classrooms.

Improvements projected for the Hospital will be financed by grants from governmental agencies.

As plans for Alumni participation in Jefferson's development program progress, Dr. Benjamin Haskell, President of the Alumni Association, states "The officers of the Alumni Association, as well as members of the Faculty and Staff, have participated in the planning for Jefferson's expansion. All of these groups are in agreement as to the essential need for the development program, and the Alumni officers have approved all measures that will be employed in extending the Building Fund to Jefferson's graduates.

"Success of the Fund cannot be achieved without substantial Alumni support. We trust that those who should most appreciate Jefferson's notable record of service in medical education will respond generously to its appeal for support."

College Benefits from Estate of Alumnus

JEFFERSON Medical College has been bequeathed a substantial amount of the estate of the late Dr. Floyd W. Stevens, Class of 1914, who died earlier this year.

A native of Scranton, Pennsylvania, Dr. Stevens retired from active practice in 1952 due to ill health. Before his retirement, he was engaged in general practice, later specializing in cardiology. He served as attending physician at Scranton State and West Side Hospitals and was on the courtesy staffs at the Hahnemann, Mercy, and Moses Taylor Hospitals.

After his retirement from medicine, he devoted his full time to banking and financial affairs, having been named President of the Fidelity Deposit and Discount Bank of Dunmore in 1946. In 1954, he was elected Vice-President of the Scranton Clearing House Association, becoming President of this association two years later and holding that office until 1958.

Jefferson will receive the bulk of Dr. Stevens' estate after the death of his immediate heirs.
Dr. Pyn Noyes Muangman, distinguished Jefferson graduate of the Class of 1927, was one of eleven people from the field of medicine who were honored by Peter Bent Brigham Hospital, Boston, Massachusetts, on May 30, 1963.

The eleven were alumni or alumnae of the hospital who were cited for "achievement in medicine for humankind wherever" at an awards dinner climaxing a two-day 50th Anniversary Celebration commemorating the founding of the institution. Each of the recipients received gold medals accompanied by a citation describing his or her particular contribution to medicine. General Robert Cutler, Honorary Chairman of the Board of Trustees, presented the awards and told some 625 dinner guests how each of the award winners had been identified with Peter Bent Brigham at various times during their illustrious careers.

In addition to Dr. Muangman, those honored were Dr. Paul B. Beeson, Physician-in-Chief of the University Service at Grace-New Haven Community Hospital and Ensign Professor of Medicine and Chairman of Internal Medicine at Yale University, who served at the hospital as Assistant Resident and Chief Resident; Dr. Charles A. Janeway, Physician-in-Chief, Children's Hospital Medical Center and Thomas Morgan Rotch Professor of Pediatrics at Harvard Medical School, who organized the Bacteriology Laboratory at Peter Bent Brigham and supervised work in infectious diseases; Dr. Frank L. Horsfall, Jr., President and Director of the Sloan-Kettering Institute for Cancer Research, who was a house officer in Pathology at the Brigham from 1932-33; Dr. Robert M. Zollinger, Chairman of the Department of Surgery at Ohio State University, who was once a Brigham surgical house officer, resident, surgeon and instructor in surgery; Dr. Salvador Zubiran, who was a graduate assistant in medicine at the Brigham in 1923-24, and is the present Director of Hospital de la Nutricion in Mexico City; Sir James Paterson Ross, KCVO (Knight Commander Victorian Order), the Director, British Post Graduate Medical Federation, University of London and a past-President of the Royal College of Surgeons, who served as a junior associate in surgery at the hospital; Dr. Wilder Penfield, Director Emeritus and Honorary Consultant, Montreal Neurological Institute and Professor of Neurology and Neuro-Surgery at McGill University, Montreal, who was a surgical house officer at the Brigham in 1918-19; Miss Carrie M. Hall, R.N., now bedridden at her home, who is the founder of the Hospital's School of Nursing and its first principal; Miss Agnes Gelinas, R.N., former Brigham Head Nurse and current Chairman of the Department of Nursing at New York's Skidmore Hospital. Dr. Joseph B. Howland, the Superintendent of the Hospital from 1919 to 1939 was honored posthumously for his 23 years tenure at the Brigham.

Dr. Muangman, who took his graduate training in Radiology at the hospital, responded on behalf of the ten living recipients. A native of Bangkok, Thailand, Dr. Muangman is the President of the Radiological Society of Thailand and Chairman, Medical Science Section, National Research Council, Bangkok. General Cutler cited him as the "elder statesman of Thai Medicine, of Thai Public Health, and of Thai general education."

Since 1931, when he was knighted by the Thai King, Dr. Muangman's official name in his country has been Luang Binkakya Bidyabhed. He installed the first X-ray machine in Thailand and established the first Department of Radiology. He also served as Thailand's Undersecretary of State for Health.

Dr. Muangman received the honorary degree of Doctor of Laws from Jefferson at the College's 138th Commencement Exercises in June 1962.
Trenton Doctors Honor Fellow Alumnus

A number of Jefferson Alumni recently gathered in the Free Public Library of Trenton, New Jersey to honor another graduate of the College—the late Dr. Charles Skelton, Class of 1837. Dr. L. Samuel Sica, Class of 1909, read a biographical sketch highlighting the significant events of Dr. Skelton's life, which revealed a career both distinguished and interesting.

Dr. Charles Skelton entered medicine belatedly, after overcoming tremendous obstacles, two of which were poverty and a limited education. In his teens, he became apprenticed to the shoemaker's trade, but devoted all of his spare time to reading and studying. In the Fall of 1835, after many years of scrimping, he and his wife and invalid mother moved to Philadelphia where, two years later, he was awarded a degree of Doctor of Medicine from Jefferson Medical College. Unfortunately, his struggle also resulted in debt and poor health.

Even his medical degree failed to help Dr. Skelton's financial condition, since his great sympathy for the poor forced him to return to the shoe bench to support his family. Finally, he was forced to abandon medicine completely; however, until his death he remained active in local medical society activities.

Inability to help the poor through medicine resulted in Dr. Skelton entering the field for which he is honored today—public education.

In 1842, when he was elected a school committee man, there were no free public schools in the Trenton area. Miserable public schools existed, where a small fee was charged and only paupers admitted free. Under Dr. Skelton's leadership and against bitter contention, a public school building was built on Centre Street, Trenton, in 1845. The Centre Street School was, in Dr. Skelton's opinion, "the first free public school established in our city, and I believe, the first really public school in our State." In 1891, the school was renamed the Charles Skelton School.

In 1847, Dr. Skelton was elected Superintendent of Schools in Trenton. Again, under his leadership, the former town hall and jail building were torn down and another public school erected. Thus, Trenton's first two public school buildings were due in very large measure to the efforts of this humanitarian physician-shoemaker.

Dr. Skelton also played a large part in the labor reform laws of 1850 and 1851, some of which provided for a ten-hour day, prohibited child labor under the age of sixteen, and exempted $200 worth of household goods from seizure for debt.

On his death in 1879, the bulk of Dr. Skelton's estate was bequeathed to the superintendent and trustees of the public schools of the city of Trenton. After the organization of the existing Free Public Library, the whole Skelton bequest was transferred to the trusteeship of the library board. Since that time, over 25,000 volumes have been purchased out of the Skelton Fund.

Thus did a poor boy from a Bucks County farm become one of Trenton's most useful citizens and an unpublicized, but distinguished, Alumnus of Jefferson.

(bottom row) Mr. Albert B. Hildebrecht, Library Board; Dr. William J. Harmon, Class of 1900; Dr. L. Samuel Sica, '09; Mr. Howard L. Hughes; Miss Veronica Cary; (2nd row) Dr. Francis Proctor, '21; Dr. Barney Lavine, '14; Dr. Lloyd Hamilton, '20; Dr. Lester J. Finkle, '35; Dr. Herbert M. Wolfe, '36; (3rd row) Dr. R. S. Barry, '12; Dr. David Eckstein, '38; Dr. Joshua Zimskind, '27; (4th row) Dr. Bernard A. Hirschfield, '26; Dr. Edward P. Chappen, '52; Dr. William E. Ryan, '59; (5th row) Dr. Meyer Friedman, Dr. Perry Albert, '38; Dr. Joseph T. Salvatore, '39; (top row) Dr. Maurice Kott, Library Board; Dr. Lewis Druffner, '59; Dr. Thomas Rathmell, '31
CHAPTER NOTES

Japan Chapter of Alumni Formed

A Japan Chapter of the Jefferson Alumni Association was formed recently. Dr. Jo Ono, Class of 1928, was elected President. Secretary-Treasurer of the Chapter is Dr. Atsushi Ozawa, who was a member of Jefferson's Department of Microbiology from 1960-62. Dr. Ono reports that Dr. Rolf Freter, Associate Professor of Microbiology, visited Tokyo in June for a few days on his return from India.

Ohio Chapter Holds Annual Dinner

O N Thursday, May 16, the Ohio Chapter of the Jefferson Alumni Association held its 12th Annual Dinner in conjunction with the Ohio State Medical Association's Annual Meeting in Cleveland, Ohio.

The get-together for Alumni and wives was conducted in the Navaho Room of the Sheraton-Cleveland Hotel, under the supervision of a committee comprised of Dr. Russell S. McGinnis, '21, as Chairman, Dr. Joseph Baka, '59, and Dr. Richard C. Wamsley, '61, with the help of Mrs. Baka and Mrs. McGinnis.

Opening the event was a fellowship hour, featuring "cocktails en Navaho" at which long stories and short tales were exchanged by both younger and older Alumni and their guests. Forty-two dinners featuring supreme roast beef au jus were then served to the genial group.

Following dinner, Dr. Benjamin Haskell, '23, President of the Alumni Association, presented "Greetings Alumni" and gave a brief résumé of the developments in the academic system at Jefferson. Dr. Haskell reviewed recent changes in organization of the Department of Medicine, plans for the five-year cooperative program with The Pennsylvania State University, and the activities of the Alumni Advisory Council. Finally, he spoke about the expansion program at Jefferson, pointing out that Alumni Giving is an essential part of the realization of the goals which have been set by the Board of Trustees and the planning committees. Dr. Andrew J. Ramsay,
swering many questions concerning this phase of the Development program.

Following Dr. Ramsay's announcement that Dr. J. Parsons Schaeffer would soon reach his 85th birthday, the Ohio Chapter members voted a unanimous resolution to direct Dr. Ramsay to carry their congratulations and best wishes to their former, distinguished Professor of Anatomy.

With the announcement of the next annual dinner-meeting date—Thursday, April 30, 1964—in Columbus, Ohio, the meeting was duly adjourned.

*Anthony Ruppersberg, Jr., M.D.*

**Florida Alumni Meet in May**

The annual meeting of the Florida Alumni Chapter was held in May in conjunction with the Florida Medical Association meeting at The Diplomat, East and West, in Hollywood-By-The-Sea, Florida.

At the meeting, officers for the coming year were elected. Dr. John Schwabb of Hollywood will be 1963-64 President, with Dr. Albert H. Wilkinson, Jr., of Jacksonville as Secretary. Next year's annual meeting and dinner was scheduled for May 1964 at The Diplomat.

At this year's banquet, there was a good representation of both younger and older graduates. Because of illness in the family, Dr. Louis H. Clerf, Class of 1912, was unable to attend. Many others wrote letters expressing their continued affection for Jefferson and their disappointment that they could not be present. Among those sending their best wishes were Dr. E. W. Ford, '91, Dr. Theodore J. Marshall, '56, Dr. J. Roy St. Claire, '12, Dr. L. M. Rankin, '21, Dr. Albert Tawil, '62, Dr. Arland A. Adams, '56, and Dr. Charles E. Brenn, '16.

Dr. Samuel S. Conly, Jr., Assistant Dean, represented Jefferson at the Banquet and was the principal speaker of the evening.

**Northeastern Pennsylvania Chapter Meets**

The 48th annual meeting of the Northeastern Pennsylvania Chapter of the Jefferson Alumni Association was held at Fox Hill Country Club, West Pittston, Pa., on May 29, 1963. Dr. Park M. Horton, President, presided over the business meeting. Minutes of the previous meeting were read by the Secretary-Treasurer, Dr. James J. Grace.

The primary business of the meeting was the election of officers for the coming year. A committee consisting of Dr. Jacob Hyman, Dr. Raymond C. Davis and Dr. Joseph A. Lentini nominated Dr. John Gill for President and Dr. Charles Burns for Secretary-Treasurer. Both were unanimously elected.

Two guests, Drs. Berdi and Wulff, who are faculty members of the University of Scranton, were introduced by Dr. Walter Larkin. Guest speakers for the evening were Dr. Robert B. Nye, Associate Dean, and Dr. Thomas F. Nealon, Jr., Professor of Surgery, both of whom described the recent progress and development at Jefferson. Dr. Marshall C. Rumbaugh, Chairman of the Alumni Advisory Council, then described the Council's work.

*James J. Grace, M.D.*
50th REUNION—CLASS OF 1913

On Wednesday, June 12, 1963 the ten speakers at the Class Day Clinics presented very interesting data on their chosen subjects, with Dr. Francis E. Weatherby, Col. (M.C.), U.S.A. (Ret.), representing the Class of 1913. Dr. Weatherby spoke on "The Legal Responsibility of a Psychiatrist."

Thereafter, 17 of the 39 members of the original class of 131 met at a luncheon in the Tecumseh Room at the Bellevue-Stratford Hotel. Dr. Walter R. Krauss, Secretary-Treasurer of the Class of '13 reunions for the past fifty years, read the names of classmates who had died since 1958, followed by a minute of silence in their honor. Dr. Krauss has been responsible for most of the reunions since 1913, and Dr. John B. Flick has been active in reunion planning since our graduation. Both deserve a vote of thanks for their interest.

At the luncheon, classmates compared interesting events in their lives, as well as discussing current medical and hospital conditions.

Letters of greetings and regrets were read from Drs. Karl D. Figley, Elijah Kaplan, J. W. Thompson, Charles T. Vernon and F. S. Bonnell. Letters of greetings and support for the Annual Alumni Giving Fund were read from Mrs. Richard C. Beebe, Mrs. William V. Marshall and Mrs. Raymond T. Wayland. Mrs. Rarig and Mrs. Downs joined the group later in the afternoon. We all enjoyed a delicious luncheon and an afternoon of reminiscing.

On Thursday, members of the Class attended the Alumni Day Clinic which proved most interesting. Our thanks to Dean Sodeman for his fine luncheon and Open House at the College.

At 6:00 p.m. that evening, members of the Class met in their suite at the Bellevue to prepare for the Alumni Banquet in the Ballroom of the Hotel. Present at the annual dinner were Doctors Allebach, Goetz, Grove, Hurff, Keith, Krauss, Livingood, O'Brien, Quinn, Rarig, Richards, Rosenthal, Walker and Weatherby.

Mesdames Keith, Rarig, Rosenthal and O'Brien meanwhile enjoyed the ladies' festivities in the Burgundy Room of the Hotel.

Congratulations for the success of the reunion go to those who contributed funds, letters and attendance; also many thanks to Mrs. Joseph J. Mulone and her staff, and for the fine work of Dr. Krauss and Dr. John E. Livingood.

We wish all of you "Old Timers" good health, and hope to see you in June of 1964 at another Class Day Reunion luncheon.

Theo W. O'Brien, Chairman

Present at the Class of 1913 luncheon were (l. to r., standing) Doctors Freed, Goetz, Hurff, Weatherby, Walker, Richards, Wright, Rosenthal, Downs, Keith and Rarig; (seated) Doctors Quinn, Krauss, O'Brien, Livingood, Flick and Grove
45th REUNION—CLASS OF 1918

Like most Class Reunions, the 45th, of the Class 1918, was difficult to get started, but after it got rolling it was a huge success.

Nineteen of the surviving fifty-three members were present. The men spent their time touring the hospital, college and other points of interest in Philadelphia.

On Tuesday, June 11, they attended clinics which were given by members of the faculty. On June 12, more clinics were presented by members of the reunion classes. Dr. Herbert James represented the Class of 1918 and discussed the modern trends in medicine. Following this, we attended the Dean's Luncheon in the College and had an opportunity to meet the President of the Board of Trustees, the Dean and other members of the faculty.

On the evening of June 12, we gathered at the Union League Club with our wives, a total of 35 attending. Dr. J. Parsons Schaeffer and his wife were the guests of honor. Following dinner, some prolonged bull-sessions were held in the rooms of Dr. Fisher and Dr. Kelley at the Bellevue.

Everyone had an enjoyable time and they all agreed to return, if possible, in 1968. Those present at the reunion were Doctors Brewer, Milligan, Myers, Charlie Fox, Fort, Mason, Jimmie Fisher, Barreras, Vaughn, Perlman, Hawfield, Kelley, Rosenblatt, Dorasavage, McDaniel, Herb James, Leach, Bethune and Griffith.

REYNOLD S. GRIFFITH, Chairman

40th REUNION—CLASS OF 1923

Members of the Class of 1923 with their wives met informally at the Sheraton Hotel on Tuesday, June 11. After all of the various scheduled reunion week activities, the group met to discuss their various family and professional activities. Class members from out of town visited the college and hospital.

On Wednesday evening, the men and their wives enjoyed a dinner-dance at the Sheraton. On Thursday, some of the members of the Class attended the Dean's Luncheon while others went shopping.

All agreed that it was a most relaxing and enjoyable reunion.

WALTER J. LARKIN, Chairman

35th REUNION—CLASS OF 1928

The activities for the Class of '28's reunion opened June 10, 1963, with the presence of about 20 or 25
Present at the Class of 1928’s dinner-dance were (l. to r., seated) Mesdames Murphy, Elias, Hneleski, Tourish, Tiracchia and Nelson; (standing) Doctors Herschel Murphy, Elmer Elias, I. S. Hneleski, William J. Tourish, Joseph Tiracchia, Joseph de los Reyes, David Johnston and Guy Nelson

guests at the Hospitality Room at The Barclay Hotel, at which all functions were scheduled.

On Tuesday, June 11, a cocktail party was held from 4:00 to 7:00 p.m. This was followed by a buffet supper with a total of 65 in attendance, including some of our past teachers. We were honored with the presence of Dr. J. Parsons Schaeffer and Mrs. Schaeffer, Dr. Edward Bauer and Mrs. Bauer, Dr. John T. Farrell, Jr. and Dr. Marshall C. Rumbaugh, Chairman of the Alumni Advisory Council.

Following the buffet supper, short speeches were given by Doctors Rumbaugh, Schaeffer and Bauer; talks also were presented by Dr. Joseph M. de los Reyes and Dr. David A. Johnston, members of the Alumni Advisory Council. After the function, the group adjourned to the Hospitality Room for socializing.

On June 12, a stag luncheon was held in the Parisian Room of The Barclay with a total of 37 members of the Class attending. From 7:00 to 8:00 p.m. that evening there was a social hour, followed by a dinner-dance. Sixty-eight classmates and wives enjoyed the delightful music provided by Gus Schwartz.

Dr. de los Reyes represented the Class at the Reunion Day Clinic Activities.

It was the consensus of opinion that the 35th Reunion of the Class of 1928 was a very pleasant success.

I. S. Hneleski, Chairman

30th REUNION—CLASS OF 1933

Thirty-two men attended the 30th Reunion Dinner held at the Barclay Hotel on June 12. The food was good and all seemed to have a fine time reminiscing with each other. Members of the Class of ’33 who attended were Doctors Sol Bobes, Jesse Bond, Ed Britt, Dick Chodoff, Ed Custer, John Davis, Alex Denbo, Dave Detar, Frazier Elliott, Phil Gilbert, Rudy Glocke, Jack Gordon, Arnold Goldberger, Francis Hamilton, Bob Kemble, Jack Kirshner, Joe Kniseley, Tom Leichner, Lee Miller, Ed Murray, Lee Prince, Dave Pewterbaugh, Jim Ruppersberg, Ted Schlossbach, Charlie Schwartz, George Schwartz, Anthony Sellitto, Charlie Semisch, Marshall Shields, Sam Stein, Jim Wong and Mat Zakresky.

It was with sadness that it had to be announced that Franklin Dye had passed away just before he could attend our Reunion Dinner.

Frazier Elliott, the President of the Senior Class of the time of graduation thirty years ago, was toastmaster for this dinner.

Ten members of the Class also attended the
Alumni Banquet on June 13. They were Doctors Bond, Britt, Detar, Glocker, Prince, Wong, Steele, Elkins, Gadomski and Kemble.

The money which was left over from the amount paid for the 30th Reunion was deposited to the account of the Alumni Giving Fund.

LEON N. PRINCE, Chairman

25th REUNION—CLASS OF 1938

A good time was had by all!!

The most important event of our reunion was the class gift of $6,920.00 to the Annual Alumni Giving Fund. At the Alumni Banquet, it was announced that we were first! (At the end of the Drive, our Class ranked second in amount. The percentage of
participation also was high.

Although all our Classmates could not be here for reunion activities, their feelings and affections were expressed. Special thanks is due John DeTuerk with an able and last minute assistance from Al Biele and Jerry Chamovitz.

Some fifty members of the Class participated in all or part of our activities. Our speakers, Leo Wachtel and Vic Satinsky, were well received.

Much time was given to conversation and recollection. A most enjoyable time at our dinner-dance will always be recalled. Under the leadership of Vic Satinsky, we sat around the dance floor and exchanged recollections and stories of the difficult, worrisome, hilarious and enjoyable times we had as students. We roared for over an hour.

We missed all who were not there. We asked about everyone! We expressed our deepest feelings for those of the Class of '38 who have already gone.

SOLOMON KEESAL AND JACOB S. WIENER,
Co-Chairmen

20th REUNION—CLASS OF 1943

The Class of '43 held its 20th Reunion at Walbers-on-the-Delaware, Essington, Pennsylvania, on June 12. Over thirty Class members and their wives attended. In the afternoon, several of the more venturesome were taken for sea-plane rides from the adjacent Philadelphia sea-plane base by the writer in his plane.

That evening, the group attended a cocktail party followed by dinner.

All those present were delighted with the Reunion, and were only sorry that the number was not larger.

Plan now to make the 25th Reunion in 1968 a big one!!

GERALD E. CALLERY, Chairman

15th REUNION—CLASS OF 1948

The Class of 1948 celebrated their 15th Reunion at Seaview Country Club on June 12 and 13. Thirty classmates and their wives were present. Activities started at noon on the 12th, when classmates started to arrive and luncheon was served in the main dining-room. Following the luncheon, some of the men went off to play golf while several others played tennis or swam in the indoor heated pool. A few of the wives took shopping trips over to Smithville Village.

Seven to eight o'clock that evening was cocktail hour, and eight to midnight was dinner and dancing
to a live orchestra. Fifty-nine people attended the affair. After dinner, some of the night owls retired to the bar and grill to continue their reminiscing.

The following morning, those who were able played golf or swam. Most of the classmates and wives departed after lunch on the 13th.

Dr. McCormack came in from Seattle; Dr. Logan arrived from Florida. As far as the golfing tournament went, Dr. J. B. Atkinson took the trophy for Low Net and Al Fingo took the other trophy for Low Gross.

The reunion was so successful and the golfing so good, it was decided that probably next year another tournament will be held with a dinner party.

JOHN B. ATKINSON, NORMAN J. QUINN
AND CHARLES G. STEINMETZ, III, Co-Chairmen

10th REUNION—CLASS OF 1953

A dinner-dance was held for members of the Class of 1953 and their wives on Wednesday evening, June 12, in the Spruce Room of the Drake Hotel. Members of the Class participated in the Clinic programs, attended the Dean's Luncheon and the Alumni Banquet, and, in general, had a thoroughly enjoyable 10th Reunion.

JOSEPH J. ARMARO, NORTON HERING AND
JAMES M. HUNTER, Co-Chairmen

5th REUNION—CLASS OF 1958

A cocktail party and dinner was held for members of the Class of 1958 and their wives on June 12 at the Benjamin Franklin Hotel. The delicious dinner featured wine served with the meal and favors for the ladies. Between reunion activities, classmates met in their reunion headquarters in the Benjamin Franklin to catch up on the news over the past five years. Everyone who attended reported a very successful first reunion.

JEROME L. SANDLER AND LEON P. SCICCHITANO,
Co-Chairmen

16th REUNION—CLASS OF 1947

The Class of 1947 held its 16th Reunion at the home of Dr. Leonard "Pat" Rosen on May 11, 1963. The affair consisted of a dance and buffet supper which was arranged by our gracious hosts, Ruth and "Pat" Rosen. Dr. Benjamin Haskell, President of Jefferson Medical College Alumni Association, was our guest of honor along with Mrs. Haskell.

Sid and Marion Lerner brought a carload of amusing gifts for all who attended, and "Pat" Rosen displayed his old medical school talents by playing the violin—"Jack Benny" style. A memorable evening was spent by all who attended.

MARTIN M. MANDEL, Chairman
Positions Available

PRACTICE for sale. Fully-equipped office in Villas, New Jersey (on Delaware Bay near Cape May). Only physician in area. Year-round practice; greatly increased in summer months. Open staff hospital nearby. Very reasonable.

MEMBER of the Class of 1913 is looking for a young associate for his practice in Shinglehouse, Pennsylvania, where he has lived and practiced for fifty years.

JEFFERSON graduate, Class of 1941, is looking for a recent graduate in general surgery who would be interested in practicing in the Pittsburgh area. The work includes private general surgery, attendance at the Pittsburgh Diagnostic Clinic, and coverage of the Richland Medical Center, a group practice in the suburbs. All work would be done at the Western Pennsylvania Hospital, which includes participation in an approved four-year training program in general surgery.

JEFFERSON Alumnus, Class of 1951, is looking for another graduate to join him and another physician in a suburban Philadelphia general practice.

JEFFERSON graduate, Class of 1911, is seeking young doctor to gradually take over his general practice in Norristown, Pennsylvania. He will provide office rental, heat, light, telephone, maid service, etc. For the first year or two, until new associate completely takes over, present physician will take afternoon hours and will share evening hours. After this time, he will be available to handle a patient or two now and then when his successor wants time off. Eventually, he can work new physician into an industrial job which pays $3600 a year for approximately eight hours work a week, plus bonuses.

GROUP of radiologists in New Brunswick, N. J., are interested in obtaining the services of an associate radiologist who is trained in general radiology as well as in isotope and cobalt therapy. Group maintains practice both in private office and hospital, with a new X-ray department equipped to do all routine radiography.

Also maintains fully organized school of X-ray technology under the supervision of a full-time director, and a constructed cobalt therapy room with necessary equipment scheduled for installation within a year or so. Financial remuneration will be on the basis of a starting salary leading to a partnership.

TRIO of radiologists (one is Jefferson graduate, Class of 1947) in Iowa are seeking an associate. Applicant should be 35 years old or younger with medical school training in the field and certification by the American Board of Radiology. Financial arrangements are generous and open to discussion. Work involves covering five hospitals and private office with some driving involved. The city, with a population of 38,000, is located in the southeastern quarter of Iowa, approximately 300 miles from Chicago and Minneapolis, and 90 miles from both Iowa City and Des Moines.

OWN in northeastern New York State (near Plattsburg) is looking for a physician. The town has a population of 3900, a centralized school, good churches and two hospitals ten miles away. A home, with adequate office space, is available for rent or purchase. Physician would make not less than $20,000 for the first year.

RETIRING physician in El Paso, Texas wishes to locate a doctor to take over a good practice. Offers a fine opportunity for a young man beginning his practice or someone who wishes to locate in that area.

Positions Wanted

INTERNIST, age 45, desires full-time position with insurance company or in administrative medicine.
1902

Dr. Samuel M. Beale, Main Street, Sandwich, Mass., was honored with a fifty-year membership badge at the 182nd annual meeting of the Massachusetts Medical Society on May 20. He is an honorary member of the medical staff of Cape Cod Hospital, where he served on the original staff. He is a consultant at Barnstable County Hospital where he has been a trustee since 1918. His hometown of Sandwich has honored Dr. Beale by naming a street after him in recognition of his many years of service to his community. Dr. Beale has a son, Dr. James S. Beale, a surgeon, who resides in Florida, and a daughter, Elizabeth, who is a missionary in Bolivia, South America.

Dr. Charles E. G. Shannon, 9 Park Street, Waterville, Maine, was one of fourteen Maine physicians honored in June at the annual dinner of the Maine Medical Association. The doctors were honored for fifty years or more service to their communities. Dr. Shannon was one of three recipients of sixty-year pins. A retired Ophthalmologist, he practiced for 45 years in Philadelphia before moving to Maine in 1949.

1905

Mrs. Joseph A. Biello, Garden Court Plaza, Philadelphia 43, Pa., has very kindly sent us the following biography of her husband, Dr. Joseph A. Biello, Class of 1905, who died April 20, 1962.

Dr. Biello, a Captain in the United States Navy Medical Corps, entered the Navy in 1907. During World War I, he served as Senior Medical Officer on the U.S.S. Agamemnon. He was Chief Surgeon aboard the hospital ship Mercy from 1923-25, and held the same position at Norfolk Naval Hospital until 1928. Dr. Biello was assigned to the post of Surgeon to the American Legation in Peiping, China, and to the Legation Guard. He also served as an Instructor in Military and General Surgery at the Peking Union Medical College, and worked with the Rockefeller Foundation in China from 1928-30. From 1930-33, he served as Chief of Surgery at New York Naval Hospital.

Dr. Biello then attended the Naval War College, graduating in 1936. He was assigned as Fleet Surgeon with the U. S. Fleet for the next four years. From 1940-43, he commanded the Naval Hospital in Newport, Rhode Island, and then assumed the duties of District Medical Officer of the 4th Naval District, Philadelphia. Before his retirement in 1946, he established the Special Naval Hospital in Arrowhead Springs, San Bernardino, California.

Dr. Biello received many honors, including the American Defense Service Medal, The World War Victory Medal, and a special commendation ribbon and pennant for outstanding service as Medical Officer in Command of the United States Naval Hospital in Newport, Rhode Island, as District Medical Officer of the 4th Naval District in Philadelphia, and as Medical Officer in Command of the U. S. Special Hospital in San Bernardino, California. He was a Fellow of the American Medical Association and the American College of Surgeons, a member of the Association of Military Surgeons, and Military Order of World Wars.

1908

Dr. John B. Laughrey, Third Street, Sutersville, Pa., had an audience with Pope John XXIII shortly before the late Pontiff’s death. Dr. Laughrey’s audience came near the end of a European trip which included the Jefferson Postgraduate Medical Seminar in Madrid, Spain, and a side-trip to Rome. During the first part of April, before going to Spain, Dr. Laughrey attended the American Academy of General Practice Convention in Chicago and lectures in Mexico City; he also visited Texas and Acapulco.

1912

Dr. Joseph Aaronoff, 1721 Sixth Street, So., St. Petersburg 1, Fla., who lost his wife last year, and also suffered a broken leg, is now living in an apartment. He has his meals with the people who own the apartment, and reports that he gets the best of care.

Dr. Enrique G. Matta, El Semil, Villalba, Puerto Rico, has received excellent reviews for his book, The American, recently published. The novel deals with the struggle between the old and the new rule of law in Puerto Rico in the early part of the century. Dr. Matta’s interest in the early phases of politics in his country is based on his own participation in the political scene. For many years, he practiced as a Municipal doctor, devoting himself to the care of...
the poor. In 1924, as a protest against the Sugar Cane Corporation, he entered politics and was elected mayor of his village. Four years later, he was elected to the Puerto Rican Senate, and, while a Senator, became a Trustee of the University of Puerto Rico. Since 1944, Dr. Matta has been retired from the practice of medicine and has devoted himself to a lifelong ambition—writing.

1913

Two graduates of the Class of 1913 recently were honored with fifty-year awards from the Pennsylvania Medical Society. The awards, which were presented at a meeting of the Dauphin (Pa.) County Medical Society, were "in recognition of fifty years of medical service faithfully performed to the community in the traditional ideals of the medical profession." The award winners were Dr. Gustav A. Dapp, 1827 North 3rd Street, Harrisburg, Pa., and Dr. Louis W. Wright, 414 North 2nd Street, Harrisburg, Pa. Both physicians opened their respective practices in Harrisburg in 1914.

Dr. John B. Flick, 819 Black Rock Road, Gladwyne, Pa., reports he retired as Secretary-Treasurer of the American Board of Surgery on February 1, 1963, a position he held from July 1952.

Dr. William E. Grove, 347 Lincoln Street, Johnstown, Pa., recently received a fifty-year medical service award from the Cambria (Pa.) County Medical Society at a dinner in his honor. A former President of the County Society, Dr. Grove serves on the active consulting staff of Memorial Hospital, Johnstown, and still maintains his practice at the above address.

Dr. Eliah Kaplan, 225 North Mercer Street, New Castle, Pa., is recovering nicely from a coronary attack last spring.

Dr. Louis W. Wright, 414 North Second Street, Harrisburg, Pa., writes that he had an enjoyable month of April 1963 traveling in Israel, Greece, Yugoslavia and Switzerland.

1915

Dr. Frederick W. Dershimer, Box 64, Manahawkin, N.J., informs us that he is retired and would be pleased to have his friends drop in to visit when they are on their way to the shore points. He lives a mile East of the Manahawkin exit from the Garden State Parkway on Route 72. His home is the fifth house on the first hard road off Route 72 on lake side before reaching Route 9.

1917

Dr. Joseph Harrison Wyatt, 135 Clinton Avenue, Newark, N.J., was cited for his forty years of service to West Hudson Hospital, New Jersey, on June 19 at a dinner in his honor. The dinner was attended by members of the hospital's Board of Governors and Hospital Association, medical staff, volunteers and co-workers. Dr. Wyatt served as attending Radiologist at the institution. He has also served in a similar capacity at St. James Hospital, Newark, Irvington General Hospital and Soho Isolation Hospital, and has been a radio-therapist at Beth Israel Hospital, Newark.

1919

Dr. Basil T. Owens, 377 Franklin Avenue, Aliquippa, Pa., was one of three physicians honored recently by a testimonial dinner sponsored by the Women's Division of Aliquippa Area Chamber of Commerce. Chosen General Practitioner of the Year in 1960 by the Beaver (Pa.) County Medical Association, Dr. Owens serves on the staffs of Rochester and Aliquippa Hospitals.

1920

Dr. Edward W. Ditto, Jr., 215 West Washington Street, Hagerstown, Md., was elected 2nd Vice-President of the Medical and Chirurgical Faculty of Maryland at the 165th annual meeting of the Faculty in Baltimore on May 3. He is a member of the staff of the Washington (Md.) County Hospital, and has served as President of the Washington County Medical Society. Dr. and Mrs. Ditto have three children—two sons and a daughter. One son, Dr. Edward W. Ditto, III (Class of 1932), also is in general practice in Hagerstown.

1924

Dr. Earl S. Phillips, 74-14th Street, Wheeling, W. Va., who is Vice-President of the Jefferson Alumni Association for his state, writes concerning his son and nephew: "Our son, Fred (Dr. Frederic A. Phillips), who graduated in '39, is at Jefferson serving a residency in Pediatrics, so I still have a personal interest in Jeff. My nephew, Edward (Dr. Edward S. Phillips), who graduated in '38, has returned from the Jeff overseas tour (Jefferson Post-graduate Medical Seminar in Madrid, Spain)."

1925

Dr. Abraham Cohen, Suite 1001-02, Spruce Street Medical Building, 269 South 19th Street, Philadelphia, Pa., spoke at a meeting of the Dauphin (Pa.) County Medical Society in June. His subject was "Newer Aspects in the Treatment of Arthritis." Dr. Cohen, Chief of the Arthritis Clinic at Philadelphia General Hospital, also is a Consultant in Rheumatology at the Veterans Administration Hospital in Philadelphia, Chief of the Arthritis Clinic of the Philadelphia Police and Fire Department, and a Diplomat of the American Board of Internal Medicine.
Dr. Hugh Robertson, 232 Spruce Tree Road, Radnor, Pa., was one of the physicians interviewed by The Saturday Evening Post for its recent article (June 15, 1963) entitled "The American Doctor—Death of a Legend in an Era of Miracles." In the article, Dr. Robertson compares the American doctor’s economic attitudes to those of the Amish, a Pennsylvania religious sect. Dr. Robertson, who is Publication Committee Chairman for the Jefferson Alumni Association, edits the weekly magazine of the Philadelphia County Medical Society, Philadelphia Medicine.

Dr. Rodney L. Stedge, 208 West Packer Avenue, Sayre, Pa., was one of three men honored at a testimonial dinner given by the medical staff and Board of Trustees of Robert Packer Hospital. The dinner, which was held June 14, paid tribute to the men for their outstanding scientific and humanitarian contributions. Dr. Stedge joined the staff of the hospital as Assistant in Obstetrics in 1928. He was made Chief of the Department of Obstetrics in 1937, a position he held until 1957.

1926

Dr. Paschal F. Lucchesi, Albert Einstein Medical Center, Northern Division, Tabor and York Roads, Philadelphia 41, Pa., was elected Vice-President of the Hospital Association of Pennsylvania during the group’s recent annual meeting in Atlantic City, New Jersey. Dr. Lucchesi is Executive Vice-President and Medical Director of the Albert Einstein Medical Center.

1927

Dr. Frank L. Bryant, 4421 Creswell Road, Shreveport, La., was elected President of the Louisiana-Mississippi Ophthalmological and Otolaryngological Society at its 25th annual meeting at Edgewater Gulf, Mississippi, recently.

1928

Dr. Charles Levy, 1401 Pennsylvania Avenue, Wilmington 6, Del., attended the "Father’s Weekend" at Mount Holyoke College in Massachusetts in May. He was the guest of his daughter, who graduated in June with the Class of 1963.

Dr. Joseph M. de los Reyes, 2010 Wilshire Boulevard, Los Angeles 57, Calif., was Chairman of the Twenty-Eighth Annual Congress of the International College of Surgeons, held April 20-27 in Los Angeles. Surgeons from many countries attended the Congress. Among those present were Dr. Marshall C. Rumbaugh (Class of 1908) and Mrs. Rumbaugh, who stayed at the Ambassador Hotel in Los Angeles.

Dr. Rumbaugh writes concerning Dr. de los Reyes’ handling of the Congress: “Every procedure of the Congress was executed with promptness and efficiency. The planning and the vast amount of committee work for all the departments was proof of the capable leadership of the Chairman. He looked quite well, although he had been ill following an extended Pacific Tour of the Asiatic countries during the early part of the year with a group of the International College of Surgeons, who visited hospitals and colleges in many cities in Asia.”

1929

Dr. Lester L. Bartlett, 1737 Holly Lane, Pittsburgh 16, Pa., underwent surgery on November 15, 1962 and again on March 5, 1963 for clots in his left iliac artery and left anterior tibial artery, respectively. He is now back to work but writes that “on hills and walking too fast, still have some claudication.”

In a letter to Dr. Bartlett, Dr. Mario A. Castallo, Class Agent for 1929, wrote, “You are a living example of the fantastic surgery that can be accomplished today, which, of course, was unheard of when we graduated from school.” He then congratulated Dr. Bartlett on his “spunk and Jeffersonian stick-toitiveness.”

1930

Mrs. Charles A. Cravotta, 1157 Windermere Drive, Pittsburgh 18, Pa., has notified us that her husband, Dr. Charles A. Cravotta, a member of the Class of 1930, passed away on February 20, 1963. The cause of death was cerebral vascular accident.

Dr. Frederick H. Kramer, Danville State Hospital, Danville, Pa., spoke recently to a group of Mount Carmel (Pa.) Lions Club members. Dr. Kramer, who is Clinical Director at the Danville State Hospital, noted the progress made in treatment of the mentally disturbed.

Dr. Sylvester E. Lentz, 104 South 3rd Street, Lehighton, Pa., writes that his twin sons are graduates of Jefferson, Classes 1960 (Dr. Conrad L. Lentz) and 1961 (Dr. Ronald Jay Lentz). Both are now in the U. S. Navy, with Ronald serving as a Flight Surgeon. (See Class Notes for 1961.)

Dr. Joseph F. Ricchiuti, 307 West Market Street, Pottsville, Pa., reports that his daughter, Kathleen, is teaching retarded children in Silver Spring, Maryland. His son, Joe, is entering his senior year at Notre Dame University and hopes to enter medical school in 1964.

1931

Dr. Edward Gipstein, 175 Parkway, New London, Conn., was featured in a recent article entitled "The American Doctor—Death of a Legend in an Era of Miracles," which appeared in the June 15, 1963 issue of The Saturday Evening Post. In the article, Dr. Gipstein helped explore the problem of the modern doctor’s dilemma—that is, the desire to be both an efficient scientist and a time-devoting friend to his patients—and gave his views on the physician’s changing image.

Dr. George W. Paschal, Jr., 1110 Wake Forest Road, Raleigh, N.C., was awarded the Honorary Degree of Doctor of Science by Wake Forest College in June. He was cited for “a career in medicine that has brought him honor in both civilian and military life.”

1932

Dr. L. Emmitt Brown, Jr., Batavia Veterans Hospital, Batavia, N.Y., recently closed his practice in Akron, Ohio, to accept a position with the medical staff at Batavia’s Veterans’ Hospital.

Dr. David Gelfand, 1722 Pine Street, Philadelphia 3, Pa., recently was named Physician of the Year by the President’s Committee on Employment of the Handicapped. A cardiologist at Philadelphia General and Kensington (Phila.) Hospitals, Dr. Gelfand was nominated for the award by the Pennsylvania Governor’s Committee on Employment of the Handicapped, which named him Pennsylvania’s Physician of the Year (see Class Notes for 1932, December 1962 Alumni BULLETIN). In July, Dr. Gelfand represented the International Society for Rehabilitation of the Disabled and the American Heart Associa-
tion at the World Health Organization meeting in Geneva, Switzerland.

Dr. William T. Rice, 262 Connecticut Avenue, Rochester, Pa., was honored by his election as a Fellow of the American College of Radiology during the past year. There are only 600 Fellows in the organization.

1934

Dr. Joseph A. Hesch, Misericordia Hospital, 54th Street and Cedar Avenue, Philadelphia 43, Pa., who is Director of Pediatrics at the Hospital, was in charge of a series of classes for expectant parents held at Misericordia in the Spring. Open to the public, the classes were begun in 1938 and are held in series of five sessions on consecutive Thursday evenings.

Dr. Edward Hoberman, 72 East Church Street, Lock Haven, Pa., presently is a member of the Board of Trustees of Lock Haven State College.

Dr. Harold L. Israel, 304 South 19th Street, Philadelphia 3, Pa., reports that his son, Daniel, a 1963 graduate of Amherst, will enter Jefferson in September. Dr. Israel is Clinical Professor of Medicine in Jefferson's Department of Medicine.

Dr. Ovid F. Pomerleau, 129 Silver Street, Waterville, Me., has been elected President of the medical staff of the Sisters Hospitals in Waterville.

1935

Dr. George B. Craddock, 1500 Langhorne Road, Lynchburg, Va., recently was appointed a member of the State Board of Medical Examiners. A Diplomate of the American Board of Internal Medicine and a Fellow of the American College of Physicians, Dr. Craddock also is a past-President of the Virginia Society of Internal Medicine and of the Lynchburg Academy of Medicine. Dr. and Mrs. Craddock have three children—George B., Jr., Theodore Jack and Alice Ashley.

Dr. Jean G. N. Cushing, 4 East 33rd Street, Baltimore 18, Md., writes concerning his family: "Mary, my wife, . . . had a massive coronary occlusion last October and spent a couple of months in the ICU living in an O2 tent as though it were a pup tent. The resultant infarct took most of the posterior wall and the left lateral wall muscle out of commission. She is home now, but has been told that she will never again practice her beloved medicine . . . Her greatest disappointment [was] not being allowed to attend our son's Commencement from Michigan State University.

"Kerry (now 22) [received] his B.S. in Police Administration and Criminology at MSU on June 10th. [The following] week he received his Army commission, and in July he and his wife of two years headed for Fort Sill, Oklahoma. . . . Incidentally, I think that Kerry was the first Freshman ever to be elected to the ROTC honorary society, Scabbard and Blade. His sister probably will graduate from Towson High School in June 1964 and thence to art school; last Sunday she had the first showing of some of her rather versatile art work.

"Unlike the cobbler's children, our two have not been neglected from the medical side. Ten years ago this month, Kerry was resting in an iron lung with bulbar polio, and now has no evidence of weakness at any point. Eight years ago, Jill (our daughter) spent a year in the hospital with Perthes' Disease and now shows very little evidence of that at present. . . . even a heathen like me has a lot to thank the good God for at this time."

Dr. R. Marvel Keagy, 1205—14th Avenue, Altoona, Pa., is one of two candidates nominated by the American Academy of Pediatrics for Alternate District Chairman for District III. If elected, he will take office at the time of the Annual Business Meeting in October, and will serve for a term of three years.

1936

Dr. Richard R. Cameron, Superintendent, Newberry State Hospital, Newberry, Mich., addressed the annual meeting of the Upper Peninsula Child Guidance Clinic, Inc., in Marquette, Michigan, recently.

Dr. Samuel J. Fortunato, 3 Fairview Terrace, Maplewood, N.J., is Attending Physician in Obstetrics at three New Jersey hospitals—Presbyterian, Newark, City, and St. James Hospitals.

Dr. John P. Manges, Professional Arts Building, Chambersburg, Pa., writes that he has been in the private practice of Radiology since July 1958. He has served as County Coroner since 1960 and recently won the nomination for a second term unopposed.

Dr. Manuel M. Pearson, 111 North 49th Street, Philadelphia 39, Pa., was guest speaker during a scientific program for members of the Berks (Pa.) county Medical Society, recently. He spoke on "The Emotional and Marital Problems of the Physician and His Wife." Dr. Pearson is Chief of Psychiatric Service at the Reading (Pa.) Hospital.

1937

Dr. Russell E. Allyn, 803 North Second Street, Harrisburg, Pa., spoke on "Oral Cancer" at a recent meeting of the Harrisburg Dental Society. Current President of the Harrisburg Academy of Medicine, Dr. Douglass also is a surgical staff member and Tumor Clinic Director at Harrisburg Polyclinic Hospital and Consulting Surgeon to the Masonic Homes in Elizabethtown, Pennsylvania. He serves as Vice-President of the Medical Bureau of Harrisburg.

Dr. James B. Goyne, Station A, Trenton, N.J., has been appointed Medical Director and Chief Executive Officer of the State Hospital of Trenton. After a nation-wide search for someone to fill this vacated position, the hospital's Board of Managers announced Dr. Goyne as their choice. He has been associated with Institutional Psychiatry at the Hospital since 1954, and is a member of the courtesy staff in Psychiatry at Mercer Hospital, Trenton.

Dr. Peter J. Iannuzzi, 746 Main Street, Niagara Falls, N.Y., delivered the commencement address at Niagara University's 106th Commencement Convocation on June 9. Dr. Iannuzzi, who recently was elected a member of the Niagara Falls Board of Education, has been associated with the affairs of the University for a number of years and served as co-Chairman of the professional committee of the University's Development Fund Campaign. At one time, he served as a member of the Niagara faculty and has been University Physician for the last seventeen years. He was awarded an Honorary Doctor of Science degree by the University in 1958.
1938

Dr. William W. L. Glenn, 333 Cedar Street, New Haven, Conn., was the main speaker at the annual meeting of the New Haven Heart Association on June 24. Dr. Glenn, Professor of Surgery at the Yale University School of Medicine, discussed "The Organization of the Cardio-Vascular Surgical Council."

Dr. Leonard K. Supple, 50 Fishkill Avenue, Beacon, N.Y., is a senior member of a three-man medical group working with a surgeon and a general practitioner. He reports that the city of Beacon is constructing a new medical center, approximately 80 x 50 feet in size with two floors, which will have facilities for the care of patients including X-ray, laboratory, emergency minor surgery, consultation and examining rooms, and business offices.

Dr. Supple and his associates work at Butterfield Hospital in Cold Spring, New York, Highland Hospital, Beacon, and St. Francis and Vassar Brothers Hospitals in Poughkeepsie, New York. As soon as a new bridge spans the river between Newburgh and Beacon, the physicians expect to do quite a bit of work at St. Luke's Hospital, Newburgh.

Dr. Harry B. Underwood, Davis Hospital, Statesville, N.C., is Senior Surgeon at the Hospital. He serves as a Lieutenant Colonel in the active reserve of the U. S. Army. One of his sons attends Davidson College and the other Wake Forest College; both are entering their senior years. Dr. Underwood, who was elected County Coroner in November 1962, is Director of the North Carolina Chapter of the American Cancer Society and a Deacon of the First Presbyterian Church.

1941

Dr. Louis C. Blaum, 244 Scott Street, Wilkes-Barre, Pa., practices surgery in that city. He writes that he has his Boards, F.A.C.S., and five children—"the eldest being a junior in high school, and for Jim (Dr. James D., '41) Garnet's information, one of the best passers, running quarterbacks in the East."

Dr. Randall A. Nishijima, 1024 Piikoi Street, Honolulu 14, Hawaii, reports that he is quite active in medical activities, in particular as Secretary of the Hawaii Medical Association this year. He recently went through a laminectomy and fusion for a disc.

Dr. Joseph L. Nosal, Santa Rita Clinic, Chino Mines Division, Kennecott Copper Corporation, Silver City, N.M., recently received an appointment as physician for the Clinic. Prior to this current post, Dr. Nosal was staff surgeon at the St. Aloisius Hospital, Harvey, North Dakota.

1942

Dr. Thomas E. Bowman, Jr., 3028 Market Street, Camp Hill, Pa., was appointed Associate Surgeon on the staff of Polyclinic Hospital, Harrisburg, Pennsylvania, in May of this year. In March, he received the appointment as Associate Surgeon on the staff of the newly opened Holy Spirit Hospital in Camp Hill.

1943

Dr. Theodore J. Berry, 331 East Lancaster Avenue, Wynnewood, Pa., reports that his book, The Hand As A Mirror Of Systemic Disease, was released in June by F. A. Davis and Company, Philadelphia. Dr. Berry was elected a Fellow of the American College of Physicians in November 1962.

Dr. William Goodin, 2430 East Sixth Street, Tucson, Ariz., is in partnership with three other physicians in a group practice of Internal Medicine and Rheumatology.

Dr. John P. McCormatty, 1817 Fuller Street, Philadelphia, Pa., moderated a panel discussion on "Abdominal Pain in Infancy and Childhood," recently. The discussion took place at Holy Redeemer Hospital, Meadowbrook, Pennsylvania, as part of a Staff Scientific Meeting.

Dr. John F. Mcginty, 46 Amesbury Street, Lawrence, Mass., is serving as President of the medical staff of the Bon Secours Hospital, Methuen, Massachusetts, for the next two years.

Dr. William R. O'Brien, 111 North 49th Street, Philadelphia 39, Pa., recently was elected Secretary-Treasurer of the medical staff of The Institute of Pennsylvania Hospital in Philadelphia. Dr. O'Brien heads the Department of Psychiatry in the Benjamin Franklin Clinic of Pennsylvania Hospital, and is a member of the Philadelphia Psychoanalytic Society.

Dr. Andrew C. Ruoff, III, 287 Boulevard, Pompton Plains, N.J., is serving as 1963 Chairman of the Committee on Trauma of the American College of Surgeons for New Jersey. He reports that these duties keep him rather active. His children are growing rapidly, and his son, Jeff, will be entering the Freshman Class at Dartmouth in the Fall.

Dr. Willard Wyant Washburn, Boiling Springs, N.C., recently was named Advisor to the Community Health Division of the United States Public Health Service, Department of Health, Education and Welfare, Washington, D.C. Dr. Washburn, who has maintained a general practice of medicine and surgery in Boiling Springs since 1946, is Administrator and Chief of Staff of Royster Memorial Hospital in that city. He is President of the Cleveland (N.C.) County Medical Society, Chairman of the Rural Health Committee of the American Medical Association, and a member of the North Carolina State Medical Society, Southern Medical Association, and American Committee of the World Medical Association.

In 1958-59, Dr. Washburn and his wife, Emily, took a year's leave of absence from practice and visited twenty countries in Africa, Asia and Europe.
They worked three months as a physician-nurse team in a hospital in Ogbomosho, Nigeria under the auspices of the Baptist Foreign Mission Board. They also made a study of basic health conditions in underdeveloped countries, with special emphasis on problems related to Rural Health. Dr. and Mrs. Washburn have three sons—David, eighteen, Paul, sixteen, and Philip, eleven years old.

J'944

Dr. Page Acree, 6809 Goodwood Avenue, Baton Rouge, La., was chosen President of the Louisiana Heart Association in April. Elected at the Association's 14th annual meeting, Dr. Acree is the first Surgeon to head the group. He serves as Assistant Professor of Clinical Surgery at the Tulane University School of Medicine.

Dr. Frank J. Gilday, Jr., 1903 Delaware Avenue, Wilmington, Del., still returns to Jefferson every Wednesday to work in the asthma clinic.

Dr. Paul J. Lenahan, 1404 Surrey Lane, Philadelphia 51, Pa., has been certified a Diplomate of the American Board of Obstetrics and Gynecology. Dr. Lenahan is a staff member of Misericordia Hospital and Fitzgerald-Mercy Hospital in Philadelphia. He also is Chief of Obstetrics at St. Vincent's Hospital for Women and Children, Philadelphia, and serves as an Instructor in Obstetrics and Gynecology at the University of Pennsylvania Graduate School of Medicine.

Dr. Robert J. Revelli, Shoshone Building, Box 70, Wallace, Idaho, owns the Triple R Ranch at Hayden Lake, Idaho. It is a 2000-acre ranch for Red Angus cattle. Dr. Revelli, his wife, Dorcas, and daughter, Ruth, live in Wallace where he maintains a general practice.

Dr. James T. S. Wong, King Kalakaua Building, 1415 Kalakaua Avenue, Honolulu, Hawaii, lives with his wife and daughter in Honolulu where he practices Obstetrics and Gynecology. Dr. Wong is a former Jefferson Ob-Gyn Resident.

S'944

Dr. Charles L. Liggett, 1015 Polly, Baytown, Texas, was elected mayor of Baytown in April. A gynecologist, Dr. Liggett serves on local, county and state medical committees, and is a past-President of the East Harris (Texas) County Medical Society. He also is active in civic work, as a Rotarian and as a member of the Baytown Chamber of Commerce and Trinity Episcopal Church.

Dr. Richard H. Ross, Col., U. S. AMEDS Combat Development Agency, Fort Sam Houston, Texas, was gradu-ated from the United States Army War College at Carlisle Barracks, Pennsylvania, on June 17. The purpose of the ten-month course of study at the Army’s senior educational facility is to prepare selected officers for future assignments to top staff and command positions in the armed forces.

1945

Dr. Roy T. Forsberg, 4 Breeze Knoll Drive, Westfield, N.J., spoke at the annual dinner meeting of the Everyman’s Bible Class, Elizabeth, New Jersey, recently. He is Chairman of the stewardship committee of the New Jersey Synod of the Lutheran Church in America, and Secretary of the Union (N.J.) County Medical Society.

Dr. Albert A. Mazzeo, 280 Liberty Street, Newburgh, N.Y., is a general practitioner and serves on the staff of St. Luke’s Hospital, Newburgh. Dr. Mazzeo is also a City Health Officer.

1946

Dr. Clifford A. Baldwin, Jr., 522 Maple, Wilmette, Ill., is Chairman of the Department of Anesthesiology at Evanston Hospital, Evanston, Illinois. He also serves as Assistant Professor of Surgery (Anesthesiology) at Northwestern University School of Medicine.

Dr. Vito L. Coppa, 224 Thayer Street, Providence, R.I., recently was inducted as a Fellow of the American College of Obstetricians and Gynecologists. He is a member of the American Medical Association, the Rhode Island Medical Society and the New England Obstetric and Gynecologic Society.

Dr. Howard G. Shaub, 463 East Market Street, Marietta, Pa., was appointed Director of Laboratories and the School of Medical Technology at Altoona (Pa.) Hospital early this year. Dr. Shaub served with the United States Air Force and then maintained a private practice until 1951. That year, he began a residency in Pathology. Following his residency, he accepted a position as Assistant Pathologist at the Armed Forces Institute of Pathology. In 1956, he was appointed Director of Laboratories at St. Joseph’s Hospital, Lancaster, Pennsylvania, where he served until taking additional study as a research fellow in legal medicine at the University of Maryland Medical School in 1960-61. Upon completion of this work, he continued as Assistant Professor in Forensic Pathology at the University of Maryland, and lectured on that subject in the Department of Public Health Administration at the Johns Hopkins University. Until his appointment by Altoona Hospital, he was Assistant Medical Examiner of the State of Maryland.

1947

Dr. J. Henry S. Foushee, Jr., 706 South Fulton Street, Salisbury, N.C., has been promoted to Associate Professor of Pathology at the Bowman Gray School of Medicine, Winston-Salem, N.C. He has been a member of the medical school faculty since 1954. Dr. Foushee held a faculty appointment at Duke University School of Medicine before joining the faculty of the Bowman Gray School of Medicine. His most recent research involves tumor immunology.

Dr. Samuel Victor King, Box 54, Cresco, Pa., recently opened a practice
of Orthopedic Surgery in Altoona, Pennsylvania. He served in the Army Medical Corps for several years until this year, when he resigned with the rank of Major.

DR. MARTIN M. MANDEL, Class Agent for 1947 and Associate in Clinical Neurology at Jefferson, has written this tribute to the late Dr. HERBERT KRAMER, Class of '47 and Instructor in Medicine:

"Dr. Kramer's death is a tremendous loss to the community and to Jefferson. Herb was one of the brightest young physicians who in future years could have attained a prominent place in Internal Medicine at Jefferson. He was in demand by his patients as well as by physicians for consultations. He was a tireless worker who could be seen making his rounds, writing detailed progress notes, and discussing the rare or unusual cases he had diagnosed. If one was able to listen to these impromptu talks, he would have the benefit of a symposium of modern medical therapy. In addition, one would become aware of his humor and deep chuckling laughter.

"Herb was born in Passaic, New Jersey on August 22, 1923, and came to Philadelphia to attend the University of Pennsylvania. He graduated in the Class of 1944 and then entered the Jefferson Medical College. At that time we were involved in World War II, and our first memories of Herb were that of an Army Specialized Training student at Jefferson. He soon distinguished himself by obtaining the highest academic award at the end of his Freshman year. He won the Freshman prize in Anatomy and also had the highest average in the first year of class. During the second year Herb continued to excel by attaining the highest average at the end of the sophomore year. His academic achievements persisted throughout the third and fourth years. Upon graduation, he had the honor of winning over half the prizes which were given to the Class of 1947. These included the highly coveted prize of medicine and surgery as well as awards for achieving the highest average during the four years of the entire medical curriculum.

"He was a member of the Phi Lambda Kappa Medical Fraternity and the Alpha Omega Alpha Fraternity. He married Blanche Edeiken while he was still a medical student, and they had two children, Frederic and Gail.

"Following his graduation, Herb interned at the Jefferson Hospital. This was followed by a research fellowship in Pulmonary Physiology at the University of Pennsylvania. His training was interrupted by a two-year tour of duty in the United States Army where he served as captain and also had the privilege of being a cardiologist on the Army post. After completing his residency in medicine he became certified by the American Board of Internal Medicine. He became an instructor in medicine at Jefferson Medical College and served as consultant in medicine to the General Electric Company's Space and Missile Program.

"Death occurred suddenly on April 21, 1963, as a result of a myocardial infarction. Herb will be remembered by us for his kindness and understanding of human nature. He always was available for advice and help both in the field of medicine as well as for many personal matters. His primary loves were medicine and Jefferson, and these seemed to occupy most of his life. To his family he was a wonderful father, and, in spite of pressures of his work, he always was able to give time and guidance to his wife and two children. Two weeks before his death, he spoke to me of the day when his son might enter Jefferson and continue the tradition of medicine in his family. He also spoke about the great future and development of the Jefferson Medical Center and was proud to be associated with it. We will always remember Herb as a loyal Jefferson man with a sincere, devoted interest in medicine. May his memory live in the annals of Jefferson medicine."

DR. ANDREW J. WEHLER, formerly of Chilonga Mission, P. O. Mpika, Northern Rhodesia, Africa, returned to this country with his family in late July, and is looking forward to seeing many of his classmates. He writes, "Our African bubble has burst because when I wasn't looking that thing called rheumatic fever sneaked up behind me and laid me low. I haven't been able to do any work to speak of for the past three months. So far there has been no detectable cardiac damage but I'm strongly advised to get out of this country and out of this work, and so we will come home and hope to find work less strenuous than this. Naturally, after three years of this we are stone broke, but we are very happy and would do it again without a qualm."

1948

DR. CHARLES W. ANDERSON, 711 Medical Tower, Norfolk 7, Va., writes: "I still have the two boys. My father died this month (April) so I am more of a medical administrator than I was, but all goes well in the new Medical Tower. You may have seen our picture in MEDICAL ECONOMICS, when they wrote the article on how non-university affiliated hospitals could get a house staff. This year we were the only such hospital in the Commonwealth to get 12 (100%) interns. It is of interest that this is a cooperative venture. You can imagine the fun of getting eighty doctors pulling in the same direction at once. I do some VC work in the city clinic, and I am now a Visiting Lecturer in Dermatology at the Medical College of Virginia in Richmond.

DR. SIDNEY R. CABLE, 2047 Ridge Road, West, Rochester 15, N.Y., recently spent several months in the Congo, where he served under the Congo Protestant Relief Agency's "Operation Doctor." For four months, Dr. Cable did clinic work, teaching, administrative functions and some general surgery in the area of Vanga.

DR. MILLARD N. CROLL, 74 St. Davids Avenue, St. Davids, Pa., is Director of Radiation Therapy and Assistant Professor of Radiology at the Hahnemann Medical College and Hospital.

DR. GEORGE B. HECKLER, 2625 Longwood Drive, Foulkwoods, Wilmington 3, Del., was appointed Director of the Department of Medicine of Delaware Hospital, Wilmington, in 1962.

DR. RICHARD M. LANDIS, 653 West Chestnut Street, Lancaster, Pa., reports that he and his wife have three girls and a boy. He is active in general practice with an emphasis on medicine, and is a part-time medical officer for the Pennsylvania Railroad. As Commander of a medical company in the Pennsylvania Army National Guard's 28th Infantry division, Dr. Landis was unable to attend his Class' 15th Reunion in June. From June 1-15, he was with the Division at Camp A. P. Hill in Virginia.

DR. DAVID S. MASLAND, R. D. #6, Carlisle, Pa., is 1963 Professional Divi-
sion Chairman for the Carlisle United Community Fund campaign. He has practiced in Carlisle since 1955, and in 1954-55 served as an Instructor in Medicine at Jefferson.

**Dr. Ernest G. Shander**, 1107 Richmond Street, Scranton, Pa., became Chief of Anesthesiology and Head of the Department of Moses Taylor Hospital in Scranton on January 1, 1963. He reports that the hospital is in the process of adding 55 new private beds in a new two-wing addition.

**Dr. Ellis L. Silberman**, Department of Radiology, Cedars of Lebanon Hospital, Los Angeles 29, Calif., is Associate Radiologist in the Department. He resides at 4048 Sapphire Drive, Encino, California.

**Dr. Raymond E. Silk**, 601 West Moya-mensing Avenue, Philadelphia 48, Pa., has been named General Chairman of the 1963 National Convention of Phi Lambda Kappa, national medical fraternity, to be held in Philadelphia in December 1963.

**1950**

**Dr. George L. Donahue**, Suite 32 Professional Building, 35 East Elizabeth Avenue, Bethlehem, Pa., addressed the Bangor (Pa.) Woman’s Club recently. He spoke on “False Aspects of Medical Advertising,” advising the group to be aware of this problem and suggesting that the Federal Food and Drug Act be supported.

**1951**

**Dr. Charles R. Huffman**, Waynesburg Hospital, Waynesburg, Pa., has been elected to the Board of Trustees of Waynesburg College.

**Dr. Leonard Sattel**, Department of Psychiatry, Jefferson Hospital, Philadelphia 7, Pa., recently spoke on “Emotional Stress and Illness” at the Calvary United Church of Christ, Philadelphia.

**Dr. James K. Stringfield**, Brown Avenue, Waynesville, N.C., maintains a general practice in Waynesville. He has three children—Jimmy, eleven, John, nine, and Dan, four years old.

**1954**

**Dr. Charles H. Greenbaum**, 6810 Castor Avenue, Philadelphia 49, Pa., writes that his practice and teaching continue to grow. His family remains stationary with two boys and a girl.

**Dr. Thomas A. Hodge**, Kaiser Permanente Hospital, 1425 South Main Street, Walnut Creek, Calif., has been appointed to the associate staff of Presbyterian Medical Center, San Francisco. He still serves with the Permanente Medical Group, and plans to marry Miss Lois Francis in the Fall.

**Dr. John P. Lauricella**, 220 Fulton Terrace, Cliffside Park, N.J., spoke to the Study Group of the local Parent-Teacher Association, recently. His topic was “Wisdom to Lead,” explaining sex education for children.

**Dr. Henry W. Pletcher**, II, 52 Grant Avenue, Poughkeepsie, N.Y., has been made a Diplomate of the American Board of Obstetricians and Gynecologists. Dr. Pletcher is an assisting attending obstetrician and gynecologist at Vassar and St. Francis Hospitals in Poughkeep-sie.

**Dr. John E. Rawls**, Box 368, Inverness, Miss., maintains a general practice in Inverness. He has three daughters, ages eight, five, and three years.

**1955**

**Dr. Robert E. Berry**, United Mission Hospital, Shanta Bhawan, Kathmandu, Nepal, was mentioned in news items all over the world recently. He was the physician who treated the two American climbers for frostbitten toes after their conquest of Mount Everest. Dr. Berry and his wife, Margaret, arrived in Nepal in April, 1962, as missionaries for the Methodist Church. He is a native of Lansdowne, Pennsylvania.

**Dr. James A. Singleton**, Doctors Park, 701 North Walnut Street, Springfield, Ill., is in his second year of a three-man partnership in Obstetrics and Gynecology. He and his wife, Mary Anne, have three sons—James, John and Pat.

**1956**

**Dr. John B. Davies**, 89 Loomis Drive, West Hartford 7, Conn., closed his Moscow, Pennsylvania, office at the end of May to accept a residency in Psychiatry at the Institute of Living, Hartford, Connecticut. The residency was made possible through a grant from the National Institute of Mental Health. He and his family—wife Rebecca and daughter Emily, two years old—will live in Connecticut for approximately the next three years.

**Dr. Sheldon G. Gilgore**, Director of Metabolic Research, Charles Pfizer Laboratories, 230 Brighton Road, Clifton, N.J., recently resigned from Jefferson’s Department of Medicine to begin the above new position. He held the post of Instructor in Medicine at Jefferson.

**Dr. J. Harold Housman**, Shirati Hospital, Tarime, Tanganyika, East Africa, has returned to his missionary work after spending a year at the Lancaster (Pa.) General Hospital brushing up on new medical techniques. Dr. Housman’s wife, Miriam, also a missionary for the Mennonite Church, and their two children,
Pierre and Ina Sue, returned to East Africa with the physician in June.

**Postscript on the Housmans:** Their third child, Heidi Jean, was born on July 28.

**Dr. Donald G. Levitt**, 10412 Rockville Pike, Bethesda, Md., recently started his position as Medical Officer with the Food and Drug Administration, Bureau of Medicine, in Washington, D.C. He also will maintain a private practice. Dr. Levitt and his wife, Geraldine, have two children—Jeffrey, seven, and Keith, five years old.

**Dr. Edward D. McLaughlin**, 810 Terwood Road, Drexel Hill, Pa., recently received the 12th annual award of Americus Council, Knights of Columbus, of Chester, Pennsylvania. He was honored at the group's annual Communion Breakfast at Sacred Heart Hospital, Chester. The award was made to Dr. McLaughlin for his discovery of an anti-cancer substance in the blood, reported to the 48th Annual Congress of the American College of Surgeons in Atlantic City, New Jersey, last October. He has resumed a four-year residency at Jefferson after two years with the National Institutes of Health, Bethesda, Maryland, where he made the discovery known as MF-10, and identified as the McLaughlin Faction.

**1957**

**Dr. Donald P. Elliott**, 875 Eudora, Denver 20, Colo., started as Chief Resident in Surgery at the University of Colorado School of Medicine in July. He recently completed a Research Fellowship in Surgery at Boston Children’s Hospital in Massachusetts. With him in Denver are his wife, Freda, and children—Julie, Cindy and Tom.

**Dr. Stephen J. Herceg**, 430 Gladstone Avenue, S.E., Grand Rapids 6, Mich., has completed general surgery training at Harrisburg (Pa.) Hospital, and started training in Plastic and Reconstructive Surgery in Grand Rapids on July 1, 1963.

**Dr. Howard S. Richter**, 46 Columbia Street, Wilmington, Mass., has been appointed to the staffs of Winchester Hospital and Choate Memorial Hospital in Massachusetts. In May he was named a Fellow of the Massachusetts Medical Society. Dr. Richter, who has been doing part-time practice in Wilmington for almost two years, is an Assistant in Medicine at Harvard Medical School. He and his wife, who is a free-lance medical editor, have a son, Michael, four years old, and a daughter, Ronni, one year.

**Dr. Lucius F. Sink**, 108 North Cassidy, Columbus 9, Ohio, received the degree of Master of Medical Science from Ohio State University on June 7, 1963.

**1958**

**Dr. Malcolm L. Cowen**, 408 Silver Rock Road, Rockville, Md., is in his first year of a Pathology Residency at Bethesda Naval Hospital in Maryland. He and his wife have two children—four and two years old—and are expecting a third addition to the family sometime this Fall.

**Dr. John A. Craig**, 358 Pilottown Road, Lewes, Del., has been awarded the Obstetrical Society of Philadelphia Annual Prize for the best scientific paper written by a resident. Dr. Craig recently completed his residency in Obstetrics and Gynecology at Misericordia Hospital, Philadelphia. The prize-winning paper, entitled “Blood Volume Studies in Normal Pregnancy, Toxemia, and Gynecologic Complications,” was read at the annual meeting of the Society at the College of Physicians, Philadelphia, May 2, 1963, at which time the prize was awarded.

Dr. Craig's paper was based on blood volume studies of a large number of patients at Misericordia Hospital, using a
recently developed electronic device for measuring blood volume by means of radioactive isotopes.

In July, Dr. Craig became head of the new Maternity Department of the Beebe Clinic in Lewes, Delaware.

Dr. John L. Dunn, 5 Rivercrest, Lyme Road, Hanover, N.H., completed a residency in Pathology at Mary Hitchcock Memorial Hospital, Hanover, on July 1. He has been appointed an associate member of the Hitchcock Clinic, Assistant Pathologist of the Hospital, and Clinical Assistant in Pathology at Dartmouth Medical School. Dr. Dunn is a member of the Grafton (N.H.) County Medical Society, and holds junior memberships in the College of American Pathologists and the American Society of Clinical Pathologists. He and his wife, Dianne, have three sons and a daughter.

Dr. George E. Hudock, Jr., 2737 Green Street, Harrisburg, Pa., has been selected as full-time Pathologist for both Berwick (Pa.) and Bloomsburg (Pa.) Hospitals. He is a member of the American Society of Clinical Pathologists, the College of American Pathologists and the Pennsylvania Association of Clinical Pathology.

Dr. James W. Montague, Wilson Street, Blossburg, Pa., left the United States Air Force in June, and is now House Officer at Williamsport (Pa.) Hospital. In January 1964, he will open a general practice in Blossburg.

1959

Dr. Siama A. Adibi, 31 Massachusetts Avenue, Boston 15, Mass., completed his medical residency in June. He had served as a rotating resident at Lahey Clinic, Joslin Clinic and New England Deaconess Hospital. In July, he began his position in the Department of Nutrition, Food Science and Technology at Massachusetts Institute of Technology. He also serves as an Assistant in Medicine at Harvard University Medical School and on the medical staff of Peter Bent Brigham Hospital. On June 15, Dr. Adibi married the former Miss Joan Wells Foedisch.

Dr. Samuel J. Barr, Brevard Medical Center, Route 50, Indian River City, Fla., writes that he completed his residency in Obstetrics and Gynecology at the University of Pittsburgh this summer, and has established his practice near Cape Canaveral.

Dr. Patrick J. Ferraro, 3300 Tudor Street, Philadelphia 36, Pa., presently is serving a Surgical Residency at the Veterans Administration Hospital in Philadelphia.

Dr. James H. Frank, 4105 Spruce Street, (C-3), Philadelphia 4, Pa., is continuing a residency in Pathology at the Hospital of the University of Pennsylvania. His wife is working full-time as a Research Assistant at the same hospital.

Dr. David M. Harnish, Veterans Administration Hospital, University and Woodland Avenues, Philadelphia 4, Pa., is a Surgical Resident at the VA Hospital, after serving the first part of his residency at Methodist-Episcopal Hospital in Philadelphia. He has one child, Marie, who is over a year old.

Dr. James A. McCallum, 1310-27th Street, Anacortes, Wash., is in practice with another physician in Anacortes. Writing for her husband, Mrs. McCallum says, "Anacortes was one of the All-American Cities last year and is a scenic, progressive small town. "Three of our children, Kristen, nine, Karen, seven, and Blair, six, are in school, and the fourth, Brian, two, is into anything he can find. "We have a new hospital, also, which takes care of patients from here and by helicopter (in emergencies) from the surrounding islands."

Dr. Ramon B. Molina, 543 Maple Avenue, Phoenixville, Pa., has opened his office at 955 East Susquehanna Street, Allentown, Pennsylvania, for the practice of general medicine. Dr. Molina also serves on the staff of Valley Forge General Hospital, Phoenixville.

Dr. Albert C. Price, 5068 Brillo Street, San Diego, Calif., recently completed his second year of a Pediatric Residency at the United States Naval Hospital in San Diego. He and his wife have three daughters—Ruth Kathryn, three years, Kimberly Elizabeth, two years, and Patricia Ann, one year old. Dr. Price reports that a "boy is on the way."

1960

Dr. Gordon R. Cohen, c/o Mount Zion Hospital, 1600 Divisadero Street, San Francisco, Calif., moved to the West Coast in July for his third year of a residency in Psychiatry sponsored by the United States Public Health Service. In June of 1960, he married the former Joan Rose, and their family now includes "two lovely children"—Joshua Daniel, age two, and Rachel Lee, less than a year old. Both children were born in Lexington, Kentucky, where Dr. Cohen was stationed with the Public Health Service for the first two years of his residency.

Dr. Karl F. Finnin, 1304 Dearborn Avenue, Oregon 16, Ohio, is engaged in general practice in Toledo, Ohio.

Dr. Vincent T. McDermott, Jr., 1-A Sunnybrook Road, Sterling Arms Apartments, Stratford, N.J., started a residency in Cardiology at Hahnemann Medical College, Philadelphia, in July.

Dr. Dean D. Mergenthaler, 1003—14th Terrace, Miami 36, Fla., has had a busy year travelling back and forth to Havana, Cuba. A physician with the United States Public Health Service in Miami, Dr. Mergenthaler was active in the processing of prisoners released from Fidel Castro's jails. He made at least five trips to the Havana airstrip where the processing took place. Last Christmas he, with Red Cross nurses, processed the entire 1,113 men who were returned from Cuba at that time. Dr. Mergenthaler worked with Attorney James B. Donovan and Fidel Castro during all of these trips.

Dr. Harvey W. Oshrin, 79 Woodland Avenue, Daly City, Calif., writes concerning his activities: "On July 19, 1965, I terminated my tour of duty as a United States Public Health Service Officer in which capacity I have served these past two years to satisfy my military obligation. The experience was not particularly rewarding from a professional point of view, but the opportunity to remain in the 'Golden State' (California) was well worth the deficiencies of service life, which has served to crystallize my opinions and impressions of socialized medicine in action."

"[I have returned] to San Francisco to be associated in the general practice of medicine with Dr. Conrad Zagory, Class of 1949, whom I met while an intern at St. Luke's Hospital where I shall be a member of the attending staff..."

"During these past two years our family has increased by a son, Andrew Paul, born March 1, 1963. Our other child, Nancy Elizabeth, was born June
24, 1961 at St. Luke's Hospital in San Francisco. Mrs. Oshrin, the former Nelda Ackerman, was a student nurse at the Jefferson Medical College Hospital School of Nursing where we met."

1961

Dr. Stephen L. Defelice, Department of Endocrinology, Jefferson Medical College, Philadelphia 7, Pa., is a Fellow in Endocrinology at Jefferson.

Dr. Ronald J. Lentz, Lt., United States Navy, Attack Squadron 112, Lemoore, Calif., received his emblem as a Flight Surgeon at the Naval School of Aviation Medicine, Pensacola, Florida, recently.

Dr. Robert W. Solt, Department of Surgery, Jefferson Medical College, Philadelphia 7, Pa., is a resident in General Surgery at his Alma Mater.

Dr. Raymond L. Sphar, Jr., Lt., MC, United States Navy, Submarine Medical School, New London, Conn., writes concerning his recent and future activities: "Since January 1963, I have been on active duty with the Navy and am presently assigned as medical officer for a squadron of eight destroyers operating out of Newport, R.I.

"While serving with these ships, I have had the opportunity of several cruises, the first to the Caribbean in February and March, and, more recently, on special assignment to a ship requiring medical evaluation of new equipment, affording me the opportunity of engaging in some research.

"When in-port at Newport, aside from my squadron duties, I work in the outpatient clinic of the Naval Hospital there. Thus, in the past six months I have been able to practice medicine both afloat and ashore and to engage in a period of interesting research.

"In August, I am scheduled to commence training in submarine medicine, a course requiring a year of study in Washington, D.C., New London, Conn., and at a nuclear reactor site. This training will qualify me for assignment to a nuclear submarine, a prospect for which I hold great enthusiasm."

1962

Dr. William Landon Dennison, Jr., United States Naval Hospital, Chelsea, Mass., writes that following his internship he will be going to submarine medical school with the United States Navy in New London, Connecticut.

Dr. Joseph Honigman, 44 Bliss Mine Road, Middletown, R.I., writes that his current duties are as Squadron Medical Officer of Destroyer Escort Squadron Ten, homeported in Newport, Rhode Island. His plans include a four-month cruise to South America as part of a good will voyage under the Alliance for Progress program. He reports that his wife, Wendy, and baby, Andye Bonnie, are doing fine.

Dr. Harold T. Oesau, Jr., Resident Surgeon, Bridgeport Hospital, 267 Grant Street, Bridgeport, Conn., recently completed his internship at Cooper Hospital, Camden, New Jersey.

Dr. John M. Stirna, Jr., R.D. #2, Narrowsburg, N.Y., has established his practice at a recently completed medical clinic in Narrowsburg. The clinic, built by the Delaware Medical Foundation, Inc., is the third of its kind to be erected in the state of New York. Their purpose is to assist smaller communities throughout the United States in securing the services of medical doctors. The new clinic serves as a medical center for some 700 persons from Narrowsburg, and 5000 persons from surrounding areas. Dr. Stirna moved to Narrowsburg following his internship at Scranton (Pa.) State Hospital.

Engagements, Weddings and Births

Engagements

1920

Dr. Lewis C. Scheffey, 601 Walnut Lane, Haverford, Pa., and Mrs. Scheffey have announced the engagement of their daughter, Cornelia Anne, to Mr. Michael St. John of Weston, Massachusetts. Miss Scheffey, whose father is Professor of Obstetrics and Gynecology, Emeritus, at Jefferson, was graduated from Westtown Friends School and with honors in 1961 from Wellesley College. Last year, she taught at the International High School in Kabul, Afghanistan. Mr. St. John, an alumnus of Westtown Friends, was graduated with honors in 1961 from Harvard. He taught under a Fulbright grant at Lucknow (India) University.

1955

Dr. John A. Nagle, 9 Randall Avenue, Stamford, Conn., will marry Miss Mary Catherine Gaffney in the Fall. Miss Gaffney was graduated from Lauralton Hall Academy, Milford, Connecticut, and the College of Our Lady of Good Counsel, White Plains, New York. She holds a Master's Degree from the graduate school of the University of Bridgeport, and is a teacher with the Bridgeport (Conn.) school system. Following his residency in Internal Medicine at Cornell University Medical Center and Jefferson, Dr. Nagle is practicing in Stamford.
Weddings

1947

DR. JOHN J. MCKEOWN, JR., Oakwynn House, Wynnewood, Pa., and the former Kathleen A. Frank were married on April 27, in Narberth, Pennsylvania. Mrs. McKeown was graduated from Ursuline Academy, Wilmington, Delaware, and Duchesne Residence School; she also attended Maryville College, St. Louis, Missouri. Dr. McKeown is Assistant Professor of Clinical Surgery at Jefferson. Members of the wedding party included DR. JOHN B. ATKINSON, Class of 1948 and Assistant Professor of Clinical Medicine; DR. GEORGE J. HAUP, '48, Associate in Surgery; DR. FRANK J. SWEENEY, JR., '51, Associate in Medicine; and DR. P. VICTOR SENCINDIVER, '52, Instructor in Surgery.

1952

DR. JOHN F. SANABRIA, Box 1667, Hato Rey, San Juan Station, Puerto Rico, married the former Idida Perez on November 22, 1962.

1953

DR. WILLIAM E. DELANEY, III, Jefferson Hospital, 10th and Sansom Streets, Philadelphia 7, Pa., was married in July to the former Marjorie Mecke of Narberth, Pennsylvania. Mrs. Delaney is a graduate of the Shipley School. Dr. Delaney is Assistant Professor of Pathology at Jefferson.

1956

DR. JAMES P. BOLAND, Resident in Thoracic Surgery, University of Texas, Southwestern Medical School, Dallas, Texas, took as his bride the former Kathryn Ann Watts on May 18 in Dallas. Mrs. Boland is a graduate of Ursuline Academy, attended Loretto Heights College, Kingston on Thames, England, and was graduated from Marymount College. She is President of the Dallas Junior Symphony League.

1957

DR. MARTIN G. BLECHMAN, 280 Prospect Avenue, Hackensack, N. J., married the former Charlotte Sokol on June 2, 1963.

1958

DR. DEAN D. MONACO, P. O. Box 189, Jackson Heights, 72, N. Y., and the former Cynthia Anne Silz were married in June. Mrs. Monaco, a native of Glendale, New York, attended Adelphi College. Dr. Monaco is a New York Medical College Fellow in Endocrinology.

DR. RICHARD R. VANDERBEEK, c/o 148 Highwood Avenue, Tenafly, N. J., was married on May 4 in Wyncoite, Pennsylvania. His bride, the former Bernice Elizabeth Ferguson, was graduated from St. Basil Academy and the Abington Hospital School of Nursing. Among the ushers were two other members of the Class of 1958—DR. PAUL M. ROEDIGER and DR. JOHN E. THOMAS.

1959

DR. WILLIAM DERAY BONATTI, Colby College, Waterville, Maine, and the former Marilyn Elizabeth Sullivan were wed on June 8 in Philadelphia. Members of the wedding party included DR. AUSTIN P. MURRAY, Class of 1958, and DR. LOUIS H. SWETERLITSCH, JR., Class of 1960. Mrs. Bonatti is a recent graduate of the Jefferson School of Nursing. Dr. Bonatti will return to Jefferson in September and will be connected with the Department of Ophthalmology.

1960

DR. JOHN T. MURRAY, 1 West Main Street, Girardville, Pa., was married May 18 in Bala Cynwyd, Pennsylvania. His bride is the former Nancy L. Mahoney, a graduate of Mater Misericordia Academy and Rosemont (Pa.) College.

1961

DR. SAMUEL KRAIN, Department of Radiology, Jefferson Medical College, Philadelphia 7, Pa., took as his bride the former Joyce Hollin of Philadelphia in July. The new Mrs. Krain was graduated from Temple University and now teaches in Philadelphia.

1962

DR. RICHARD M. LEAVITT, Resident in Ophthalmology, Newark Eye and Ear Hospital, 77 Central Avenue, Newark 2, N. J., married the former Judith Bernice Kline on May 12. Mrs. Leavitt received her Bachelor of Science degree in nursing from the University of Pennsylvania.

DR. HOBART J. WHITE, San Diego County General Hospital, North End of Front Street, San Diego 3, Calif., and the former Dian Andersen were wed on May 3 in San Diego. Dr. White started a residency in Surgery in July.

1963

DR. MATTHEW NICK BOULIS,
Walter Reed General Hospital (United States Army), Washington, D. C., married the former Irene Anthousa Georgian on Sunday, June 16, in Pittsburgh, Pennsylvania. Mrs. Boulis is a graduate of Penn Hall in Chambersburg, Pennsylvania, and Chatham College, Pittsburgh. Prior to her marriage, she was a teacher in the Johnstown (Pa.) School District.

Dr. Richard Ulysses Delp, Harrisburg Polyclinic Hospital, 3rd and Radnor Streets, Harrisburg, Pa., was married on June 15 in Wilmington, Delaware. His bride is the former Mary Margaret Reardon, a graduate of Ursuline Academy and St. Francis Hospital School of Nursing. Dr. Rudolph J. Preletz, Jr., Class of 1963, served as the couple’s best man, with two other members of the class—Dr. Thomas E. Klump and Dr. B. Hoagland Rosania—as ushers.

Dr. Daniel Jerome Thomas, Jefferson Medical College Hospital, 11th and Walnut Streets, Philadelphia 7, Pa., and the former Elizabeth Ann Eads became man and wife on June 15. Mrs. Thomas was graduated from Melrose Academy, Philadelphia, and Newton College in Boston. She is the daughter of the late Dr. John Trimble Eads, Class of 1926. Dr. Thomas’ father, Dr. James Anthony Thomas, is also a Jefferson graduate, Class of 1928.

Dr. Maurice John Ward, Jr., Memorial Hospital, 2801 Atlantic Avenue, Long Beach 6, Calif., married the former Marie Patricia McGarrity of Wynnewood, Pennsylvania, on June 1. The couple honeymooned in Canada.

**Births**

**1949**

Dr. Robert E. T. Stark, 333 North Thomas Road Medical Building, Phoenix, Ariz., writes that his wife delivered a daughter, Maria Theresa, on May 3, 1963. Their family now numbers eleven, with five boys and four girls.

**1950**

Dr. Daniel L. Backenstose, 75 Cedar Avenue, Hershey, Pa., and his wife welcomed the birth of a son, Jonathan Hall, on December 10, 1962.

**1951**

Dr. Larrimore J. Starer, 224 MacDade Boulevard, Milmont Park, Pa., and his wife welcomed the birth of their fourth daughter on December 27, 1962. Their one son is named Andy.

**1952**

Dr. George C. Godfrey, 112 Glenside Avenue, Linwood, N. J., and his wife announced the birth of their first child, a girl named Cherly Lynne, on May 3, 1963. Dr. Godfrey was appointed a Chief of Surgery at the Shore Memorial Hospital, Somers Point, New Jersey, at the beginning of this year.

**1954**

Dr. Harris Lavine, 101 Broadway, Richmond, Calif., became the father of a second girl when Mrs. Lavine delivered Adrienne Marie on March 23, 1963. Their first child is about one-and-a-half years old.

Dr. Francis J. Nash, 10 Cape Cod Lane, Milton 87, Mass., and Mrs. Nash welcomed the arrival of Patrick Harold, their fifth boy, on January 1, 1963. Dr. Nash has been certified by the American Board of Obstetrics and Gynecology.

**1956**

Dr. Theodore J. Marshall, 1750 North Palifox Street, Pensacola, Fla., and Mrs. Marshall were delighted with the arrival of their third son, Lawrence Theodore, on September 25, 1962.

Dr. Charles J. Stahl, III, Chief of Laboratory Service, United States Naval Hospital, Guam, Mariana Islands, writes that his wife, Ellen, gave birth to their third child, a six pound, five ounce girl named Kim Alison, on April 5, 1963. Until the beginning of August, Dr. Stahl served as Fellow in Forensic Pathology at the Armed Forces Institute of Pathology, Washington, D. C. He will be stationed in Guam for the next two years.

**1959**

Dr. Joseph A. Besecker, 731 Glenwood Street, Annapolis, Md., writes that he is the father of identical twin daughters, Kristin and Karla, born May 10, 1963. Dr. and Mrs. Besecker have three other children—Joseph (Jeb), now six, Eric, four, and Suzanne, two years old. Mrs. Besecker is the former Helen Marie Fetsko, a member of Jefferson Hospital’s School of Nursing, Class of 1954. The Beseckers are enjoying the traditions of Annapolis and the Naval Academy, and report that several other Jefferson Alumni are stationed there, including Dr. H. Donald Knox, ’57, Dr. Richard R. Brock, ’58, and Dr. William F. Wolfe, ’57.

Dr. Douglas Thomas Corwin, Akron City Hospital, 525 East Market Street, Akron, Ohio, and Mrs.
Corwin announced the birth of a daughter, Nancy, on March 9, 1963.

1960

DR. GEORGE ROBERT CONSTABLE, Resident in Internal Medicine, Lankenau Hospital, City Line and Lancaster Avenues, Philadelphia 51, Pa., and Mrs. Constable announced the birth of a son, Robert Scott, on April 24, 1963. Robert has an older sister, Kathy. Dr. Constable recently completed his Army service and returned to the Philadelphia area at the beginning of August.

DR. CHARLES T. KELSO, 1620 East 21st Avenue, Denver 5, Colo., and Mrs. Kelso welcomed the birth of their second son, Curtis Wilson, on May 4. Dr. Kelso completed a tour of duty as medical officer with the United States Coast Guard on July 11, and immediately began a residency in Clinical Pathology at Presbyterian Hospital, Denver.

1961

DR. FREDERIC T. HUFFNAGLE, 43 West Patterson Avenue, Columbus 2, Ohio, writes that Milford James Huffnagle, II, arrived on April 13, 1963. Dr. and Mrs. Huffnagle have two daughters, ages three and two. Dr. Huffnagle is serving a residency in Orthopedic Surgery at Riverside Methodist Hospital.

1962

DR. ARNOLD I. HOLLANDER, Tripler General Hospital, APO 438, San Francisco, Calif., and his wife, Carol, announced the birth of their second son, Robert Bruce, on May 7, 1963. Their latest arrival was born at William Beaumont General Hospital. Dr. Hollander is serving a residency in Internal Medicine at Tripler General Hospital, Honolulu, Hawaii, with the United States Army.

Some Interesting Jefferson Alumni

The following is the introduction to and the first in a series of portraits of "Some Interesting Jefferson Alumni" which will continue to be presented in forthcoming issues of the Bulletin. This material was compiled and written by Dr. Edward C. Britt, Class of 1933, and appeared in the 1940 Clinic. That same year, it also was published in "The Medical Searchlight." We are deeply indebted to Dr. Britt for his keen interest in Jefferson's historical heritage and for bringing this material to our attention. This month's portrait, which follows Dr. Britt's original introduction, is of Dr. Anson Jones, Class of 1827.

ONE cannot remain long associated with the Jefferson Medical College without becoming acquainted with the life and works of her fourth and greatest Professor of Surgery, Samuel D. Gross, LL.D., Cambridge, Edinburgh, Pennsylvania, D.C.L., Oxford, who has been immortalized by Thomas Eakins' masterpiece "The Gross Clinic," and in whose memory a monument has been erected in Washington, D. C.; of J. Marion Sims, one of the founders of Gynecology, who devised the Sims Speculum, described Sims Position, was the first to operate successfully upon vesico-vaginal fistula, established the Women's Hospital in New York, and in whose memory a monument has been dedicated in that city; of S. Weir Mitchell, one of the greatest neurologists yet produced in this country, the first to describe Erythromelalgia, and the author of "Hugh Wynne" and "The Red City"; of J. H. Brinton, one of the founders of the Army Medical Museum, later Professor of Surgery at Jefferson; of Jonathan Letterman, Medical Director of The Army of the Potomac, for whom the army hospital in San Francisco is named; of W. W. Keen, one of America's first brain surgeons, Honorary Fellow of the Royal College of Surgeons, recipient of the LL.D. of Brown, Northwestern, Yale, Toronto and Edinburgh; of Oscar H. Allis, who devised the Allis Forceps, Dissector and Inhaler, and who described Allis' Sign in fractures
of the neck of the femur; of J. Chalmers DaCosta, one of the greatest surgical teachers of his era; of Chevalier Jackson, the founder of Bronchoscopy; of Arthur Dare, originator of the hemoglobinometer which bears his name; recently of Victor Heiser, author of "An American Doctor's Odyssey," and many others whom space does not permit to mention fully; such as J. M. DaCosta, LL.D., Pennsylvania, whose ideas on respiratory percussion were adopted by Friedrich and whose views on typhus were accepted by Jaccoud. As a matter of interest, one might mention, also, Edward R. Squibb, founder of the chemical company.

Among other great figures who have been connected with Jefferson and who were graduated from other institutions was George McClellan, M.D., University of Pennsylvania, who founded our college in 1825. He was a grandnephew of General McClellan of George Washington's Army and the father of General George McClellan, the Civil War hero, who stopped Lee's northward thrust at Antietam. It was while retiring exhausted from this battle that General Lettermen, seeking refuge in the home of Miss Mary Lee, met this young lady who afterwards became his wife.

No doubt most of the facts just enumerated are more or less well known and we will pass on to consider a body of men who have made history in various parts of the world, but whose names, and undeservedly so, have become obscured in relation to those of the great figures who remained in closer association with their Alma Mater.

Anson Jones, M.D.

Anson Jones (1798-1858), the "Architect of Annexation," was born in Great Barrington, Massachusetts. He was graduated from Jefferson in 1827 and practiced in Philadelphia for five years with little success. Becoming discouraged, he drifted into New Orleans where he acquired the habits of drinking and gambling. Following a severe illness, he wandered into Brazoria, Texas.

This marked the turning point of his career, as a trained physician was just what the local citizens needed and wanted. He soon became busy, established and respected. In 1836, he served as physician to Houston's little army and left his medicines to fight as a private soldier in the decisive engagement at San Jacinto. With the defeat of the Mexicans and the organization of Texas as an independent State, he served successively as Minister to Washington and Secretary of State, and in 1844, became the last President of the Republic of Texas. The closing lines of his address surrendering his authority to the Governor-Elect of the new State are especially beautiful.

Dr. Jones then returned to his plantation, "Barrington," on the Brazos, so called in honor of his birthplace. He never lost interest in medicine and practiced in his community when the affairs of state permitted. In 1858, in a fit of temporary depression, he committed suicide in the Old Capital Hotel in Houston.
LIBRARY NOTES

THE PATHOPHYSIOLOGY AND TREATMENT OF BODY FLUID DISTURBANCES—Hans G. Keitel, M.D. Appleton-Century-Crofts (Division of Meredith Publishing Company), Publisher. (Dr. Keitel is Professor of Pediatrics and Head of the Department.)

EVALUATION OF THYROID AND PARATHYROID FUNCTIONS (Proceedings of the Third Applied Seminar of the Association of Clinical Scientists) —Edited by F. William Sunderman, M.D., and F. William Sunderman, Jr., M.D. J. B. Lippincott Company, Publisher. (Dr. Sunderman is Clinical Professor of Medicine and Director of the Division of Metabolic Research, and Dr. Sunderman, Jr. is Instructor in Medicine.)

ADVANCES IN CARDIOPULMONARY DISEASES—Edited by Andrew L. Banyai, M.D., and Burgess L. Gordon, M.D. Year Book Medical Publishers, Inc., Publisher. (Dr. Gordon is Visiting Professor of Medicine.)

CALENDAR OF FUTURE EVENTS

September 9, 1963
OPENING EXERCISES
McClellan Hall
Jefferson Medical College

October 10, 1963
DINNER FOR ALUMNI, WIVES AND GUESTS
during Pennsylvania Medical Society’s Annual Meeting
Duquesne Club
Pittsburgh, Pa.

October 30, 1963
DINNER FOR ALUMNI, WIVES AND GUESTS
during Annual Meeting of American College of Surgeons
Clift Hotel
San Francisco
**OFFICERS AND EXECUTIVE COMMITTEE FOR 1963-1964**

**OFFICERS**

President: Benjamin Haskell, '23  
President-elect: Abraham Cantarow, '24  
1st Vice President: John H. Hodges, '39  
2nd Vice President: Kenneth E. Fry, '31  
3rd Vice President: Paul A. Bowers, '37  
4th Vice President: Hammel P. Shippes, '26  
Treasurer: Herbert A. Luscombe, '40  
Secretary: J. N. Lindquist, '43  
Executive Secretary: Mrs. J. J. Mulone

**ALUMNI ADVISORY COUNCIL**

David B. Allman, '14  
George L. Fockus, '17  
Francis J. Braceland, '30  
Donald B. Davidson, '52  
Joseph M. de los Reyes, '28  
Frederick C. DeTroia, '35  
David A. Johnston, '28  
Marshall C. Rumbaugh, '08  
Anthony Ruppensberg, Jr., '33

**EXECUTIVE COMMITTEE**

David M. Farell, '28  
John T. Farrell, Jr., '22  
Eugene S. Felderman, '49  
Theodore B. Pettor, '26  
C. Calvin Fox, '18  
Kenneth E. Fry, '31  
Elmer H. Funk, '40  
John J. Gartland, '44  
John H. Gibbons, Jr., '27  
Samuel P. Glick, '37  
Warren P. Goldberg, '22  
John W. Goldschmidt, '54  
Leib Golin, '30  
John R. Griffith, '46  
Reynold S. Griffin, '18  
Benjamin Haskell, '23  
George J. Haupt, '48  
John H. Hodges, '39  
Edmund L. House, '35  
William T. Hunt, Jr., '27  
Robert G. Johnson, '49  
Felix E. Karpinski, Jr., '18  
Kelvin A. Kasper, '26  
Baldwin L. Keyes, '17  
Harry J. Knowles, '42  
John A. Koltes, Jr., '47  
David J. Laph, '47  
Warren R. Lang, '43  
Robert C. Laning, '48  
James H. Lee, Jr., '45  
William T. Lemmon, '21  
Sidney S. Lerner, '47  
Daniel W. Lewis, '44  
Fielding O. Lewis, '06  
Marvin M. Lindell, '49  
John N. Lindquist, '43  
John E. Livingood, '47  
Leopold S. Loewenberg, '56  
Joseph P. Long, '39  
Herbert A. Luscombe, '40  
Vincent T. McDermott, '26  
John J. McKeown, Jr., '47  
Martin T. Mandel, '47  
W. Bosley Manges, '44  
Gerald Marks, '49  
Joseph Medoff, '39  
Louis Merves, '37  
Thomas B. Mervine, '40  
Roy W. Mohler, '21  
John B. Montgomery, '26  
Thaddeus L. Montgomery, '20  
John A. Murray, '31  
Thomas F. Nealon, Jr., '44  
Guy M. Nelson, '28  
Robert B. Nye, '27  
John J. O'Keefe, '37  
Leonard W. Parkhurst, '36  
John R. Patterson, '54  
W. Harvey Perkins, '17  
Edward Podgorski, '54  
Paul J. Poindset, '41

**STATE AND SERVICE VICE-PRESIDENTS**

Alabama—Thomas B. Patton, '41  
Alaska—Chester L. Schneider, '47  
Arizona—Blair W. Saylor, '40  
Arkansas—Charles M. Wallis, '18  
California—Clyde C. Greene, Jr., '41  
Colorado—Heman R. Bull, '35  
Connecticut—Morris M. Mancoll, '28  
Delaware—A. Gerald Lessie, '40  
District of Columbia—Adolph Friedman, '43  
Florida—John Chleboden, '32  
Georgia—Albert S. Johnson, Jr., '41  
Hawaii—Albert K. H. Toy, '42  
Idaho—Darrell C. Stoddard, '50  
Illinois—Walter S. Wiggins, '41  
Indiana—Charles P. Abell, '35  
Iowa—Fred H. Beaumont, '28  
Kansas—John F. Bell, '47  
Kentucky—Stuart P. Hemphill, '31  
Louisiana—Frank L. Bryant, '27  
Maine—Frederick C. Emery, '42  
Maryland—Wyllys Royce Hodges, '31  
Massachusetts—Eugene W. Beauchamp, '25  
Michigan—Joseph W. Eschbach, '28  
Minnesota—David A. Boyd, '30  
Mississippi—Noel C. Womack, '47

Missouri—Rollin H. Smith, '31  
Montana—Philip A. Smith, '43  
Nebraska—Stanley F. Nabity, '49  
Nevada—Charles J. Kilduff, '45  
New Hampshire—Philip M. L. Forsberg, '36  
New Jersey—Lee W. Hughes, '16  
New Mexico—Roland V. Seligman, '40  
New York—Frederick C. Fried, '13  
North Carolina—George W. Paschal, Jr., '31  
North Dakota—Neil S. Williams, '49  
Ohio—Anthony Ruppensberg, '35  
Oklahoma—Joe H. Coley, '42  
Oregon—Howard E. Carruth, '10  
Pennsylvania—John E. Livingood, '13  
Rhode Island—Henri E. Gauthier, '23  
South Carolina—Joseph Hodge, '52  
South Dakota—Wayne A. Geib, '39  
Tennessee—David B. Karr, '30  
Texas—Truman N. Morris, '27  
Utah—James W. Webster, S '44  
Vermont—George J. Kavin, '31  
Virginia—Walter J. Brennan, '44  
Washington—Warren S. Shepherd, '38  
West Virginia—Earl S. Phillips, '24  
Wisconsin—Peter V. Hulick, '36  
Wyoming—Theodore L. Holman, '45  
U. S. Air Force—R. Howard Lackay, '38  
U. S. Army—Howard M. Snyder, '05  
U. S. Navy—William T. Lineberry, '45  
U. S. Public Health Service—Herbert C. Rogers, '17  
Veterans Administration—Robert T. Findlay, '25  
Africa—Alexander J. Orenstein, '05  
Australia—Frederick C. Turnbull, '12  
Bolivia—Heriberto Mercado, '20  
Canal Zone—I. Robert Berger, '36  
China—Chin Wen Low, '18  
Costa Rica—Albert Oreamuno, '29  
Haiti—Wilmer M. Rutt, '60  
Honduras—Angel A. Ulloa, '26  
India—Lowell D. Mann, '57  
Indonesia—Samuel L. Stover, '39  
Japan—Jo Ono, '22  
Lebanon—Frank J. Zukowski, '42  
Mexico—Pastor Molina-Castilla, '18  
Netherlands West Indies—John N. Bonbous, '31  
Nicaragua—Buenaventura Rappaccioni, '26  
Peru—Rodrigo Franco-Guerra, '26  
Puerto Rico—Antonio Navas, '20  
Sweden—Gerhard H. Fromm, '53  
Thailand—Pyn Noyes Muangman, '26

Leon N. Prince, '33  
F. Johnson Putney, '34  
Norman J. Quinn, Jr., '48
