Alumni Association Holds Annual Dinner Meeting

For the first time in its long history, the Alumni Association presented an Achievement Award to one of its distinguished sons. This presentation was a highlight of the Association's Annual Business Meeting and Dinner which was held at Williamson's Restaurant, atop the Barclay Building on City Line and Belmont Avenues on Thursday, February 27, 1964.

Doctor Haskell, President of the Association, presented the handsome silver tray and said—

"Somewhat more than 50 years ago, a lanky young man from the far West graduated from Jefferson and became one of its most distinguished alumni. This young man had come to Jefferson for a somewhat different reason than most of us. During his first two years at the University of Oregon Medical School he was impressed by the fact that a number of the textbooks used there were written by faculty members of a Philadelphia school—DaCosta, Hare, Brubaker, Dercum. Why not go to the source, he reasoned, rather than learn second-hand from these men. With this enterprising spirit and to our good fortune, he entered Jefferson for his final two years. This curiosity must have been inherited. Years
before, his father, with two companions had crossed the Cascade mountains, in mid-winter, to see what the valley was like on the other side. His father remained, in what is now the well-known Yakima Valley, brought in his family by team and wagon, and acquired one of the largest ranches in the State, now gone because of the Columbia River dam and atomic energy projects.

"The young graduate served his internship at Jefferson and became chief resident physician for two years, in those days a much sought-after appointment. The first World War saw him in the Navy serving with the Marines in France. This association with the Navy continued and he ultimately became a Captain in the Naval Reserve.

"Upon his return to Jefferson, this young physician, whom you recognize now as Louis Clerf, began to work as an assistant to Doctor Chevalier Jackson and became the most distinguished pupil of an illustrious pioneer in medicine. As Professor of Broncho-esophagology in 1930 and of Laryngology in 1934, he headed a department and clinic that became world-famous and trained many of today's leaders in this specialty.

"Doctor Clerf's achievements in and contributions to his chosen field are far too numerous to list here. So, too, are the many national and foreign societies of which he is a member and in which he has held high office. He has been the recipient of honorary degrees and of such awards as the De Roaldes Gold medal of the American Laryngologic Association—the 8th recipient in its 75 year history. Today, after eight years of retirement, he is a hardworking member of the American Board of Otolaryngology.

"Doctor Clerf's loyalty to Jefferson and his contributions to its welfare are legendary. Among the latter may be mentioned his reorganization of the Annual Alumni Giving Campaign and his chairmanship of the Alumni Division of the 1952 campaign for the Pavilion.

"For his outstanding qualities as a leader, for his deep interest in the young men working with him, for his humility, for his distinguished career as a physician and teacher, and for his devotion to Jefferson, the Executive Committee has selected him as the first recipient of its Annual Alumni Achievement Award. It is a rare privilege and a distinct pleasure to present this emblem of the award—a silver platter suitably engraved—to Louis H. Clerf, 'Mr. Jefferson' as he has been affectionately called."

Dr. Haskell delivers the Alumni Achievement Award presentation speech.

*oto at left shows (from left)*

- Haskell and Dr. Cantarow admiring silver tray presented to Dr. Clerf.
In a delightfully humorous speech, Doctor Clerf expressed his deep appreciation for this recognition and his pleasure at being able to return to the College and be present at the Annual Dinner.

Mr. James M. Large, Chairman of the Board of Trustees, was an honored guest and he told of progress in Jefferson's Building program. He said that for the campaign as a whole, the total now stands at $4,290,000 and that, assuming that the Alumni Division will produce about $1 million, this leaves a balance of $1,710,000 still to be obtained from private sources to reach our $7 million goal. He announced that he had just received assurance of approval of our plans by the General State Authority in Harrisburg and that there is every indication that we will break ground in July, 1964 which will enable us to occupy the Basic Science—Student Commons Building by 1966.

Mr. Large spoke of the dedication and devotion of the Alumni to Jefferson and said this feeling is "... so real and so spontaneous that it permeates a meeting of this kind and makes such a meeting stimulating and pleasant for those of us from the Board of Trustees and the Administration who come as your guests on this occasion."

He congratulated Doctor Haskell on the noteworthy accomplishments of the Association during the past year and congratulated Doctor Fry and Mrs. Mulone on the record total achieved in the 15th Annual Giving Fund Drive. He also spoke of the pleasant and mutually beneficial discussions held with the Alumni Advisory Council on their two visits to the College.

Dean Sodeman then told the guests of progress in other areas of activity in the College. He said that a year ago he had told the guests at the Annual Dinner about our plans for an accelerated program for a group of exceptional students, this program being conducted in conjunction with Penn State. He said he wished to report at this time that we now have 29 active students enrolled in the program and that they are a superb group. Twenty-five of the 29 have an average of 3.36 and each has extra credits, some as high as 27 in advanced studies. He said that we can regard this program as a real success. For 1965 there are 200 good applicants and 100 who are outstanding for this accelerated course. We can, of course, again take only 30.

Dean Sodeman then spoke of the closer contacts which are being developed between Alumni and the students. "Fathers' Day" which was held today was an outstanding success with 62 fathers of second year students and most of the sophomores in attendance. We are now sending the ALUMNI BULLETIN to the parents of all students to keep them informed of activities at the College.
...and the view inside Williamson's.
Next Doctor Sodeman discussed applicants for the freshman class for this coming Fall. He said that the Admissions Committee has processed 2,346 applications, 2,195 from men and 151 from women, as compared with 1,724 a year ago, 70 of which were from women. He feels that the applicants are of a higher quality than in previous years which is encouraging. Of the 43 sons of Alumni who applied, 12 have now been accepted, which is approximately 30 percent. Of the 157 total accepted to date, these 12 men represent seven percent of this total. The Admissions Committee, the Dean said, bends over backwards to admit the sons and daughters of Jefferson Alumni but it should be kept in mind that we want to get the best for Jefferson and must insist that applicants be well qualified.

Finally, Dean Sodeman discussed our continuing education program which is being carried on in conjunction with Pennsylvania State University. These medical seminars are now being conducted in 19 centers and Jefferson faculty members lectured and demonstrated to about 4,000 physicians in 75 seminars in 1962-63. This program is being continually expanded.

"We want every Jefferson Alumnus", said Doctor Sodeman, "to be a Jefferson student all of his life and we want Jefferson to be the grandest of all medical schools."

President Haskell then opened the business portion of the meeting and called on the Secretary and the Treasurer for their reports. Chairmen of the Standing Committees reported and all reports were unanimously accepted. Reports were also given by the Chairmen of the Special Committees and by the Chairman of the Alumni Advisory Council.

The Necrologist, Doctor Thaddeus L. Montgomery, suggested that because of the length of the list of Alumni whose deaths have been reported during the past year, the names not be read but that the list be published in the BULLETIN. A moment of silence was observed in honor of these deceased Alumni and a list of the deaths will be found on page seven of this magazine.

Doctor John B. Montgomery, Chairman of the Nominating Committee stated that three new members have been added to the Executive Committee and that the slate of nominations for new officers is as follows: President-elect, Kenneth E. Fry, '31; Vice Presidents: John H. Hodges '39, Mario A. Castallo '29, Edmund L. Housel '35, Herbert A. Luscombe '40; Treasurer, Frederick B. Wagner, Jr. '41 and Secretary, John N. Lindquist '43. The slate, as presented, was unanimously accepted.

Doctor Haskell escorted the new President, Doctor Cantarow to the podium and, after a few brief remarks, Doctor Cantarow adjourned the meeting.
NECROLOGY
DEATHS REPORTED SINCE LAST ANNUAL BUSINESS MEETING
FEBRUARY 28, 1963

1890—George F. Potteiger, died September 4, 1963
1895—Allan C. Brooks, died September 27, 1963
    Samuel B. Taylor, died March 5, 1963
    Julius Wolfson, died August 8, 1963
1897—John D. Richards, died May 8, 1963
1898—Casper R. Byars, died July 22, 1963
1902—Louis A. Saltzmann, died April 13, 1963
    Otto K. Snyder, died February 3, 1963
*1903—Edmund Eastwood, died December 25, 1953
    Albert L. Henry, date of death unknown
    Augustin P. Munsch, died January 15, 1964
*   Emil Sauer, died October 14, 1958
    John A. Sherger, died October 23, 1963
    Clarence M. Todd, date of death unknown
*   William H. Tomlinson, died December 3, 1946
1904—James Clarence Elder, died December 6, 1963
*1905—Joseph W. Beyer, died October 16, 1958
    Alexander Eisenstadt, died December 3, 1944
*   Hugh E. McCaffrey, died February, 1921
    Lorenzo F. Miliken, died February 2, 1964
*   Charles C. Warner, died January 24, 1955
1906—James W. Tankersley, died July 17, 1963
    Harry E. Stevens, died August 3, 1963
*1907—Wilford W. Bennett, died September 4, 1946
    Harry H. Wanner, died March 8, 1963
    Harry Weiss, died April 15, 1963
1908—Wingate M. Johnson, died September 12, 1963
1909—Clarence R. Farmer, died January 8, 1964
    William F. Jordan, date of death unknown
    Henry B. Lambert, died July 14, 1963
1910—Herman C. Grim, died July 26, 1963
    Paul Livingston, died January 3, 1964
    Clarence W. McConihay, died May 2, 1963
    Raymond L. Pittman, died August 1, 1963
1911—Charles J. Bowen, died April 27, 1963
    Charles G. Boyer, died June 14, 1963
    Emlyn T. Davies, died September 13, 1963
    Charles E. Feddeman, died November 23, 1963
*   Benjamin F. Harris, died August 17, 1952
    Lex W. Hubbard, died November 5, 1962
    Leopold M. Jacobs, died February 19, 1963
    Morris I. Moss, died August 13, 1963
    Thomas Soltz, died October 19, 1962
1912—Gabriel J. Kraus, died December 30, 1963
    Harrison M. Manning, died March 1, 1963
    Leigh F. Robinson, died October 26, 1963
1913—Eliah Kaplan, died December 7, 1963
    Walter R. Krauss, died February 3, 1964
    William D. Rogers, Jr., died March 21, 1963
    Benjamin D. Ruben, died October 21, 1963
1914—Charles H. Sprague, died July 6, 1963
    Floyd Stevens, died February 22, 1963
    Benjamin A. Thaxton, died July 8, 1963
1915—Franklin T. Bower, died May 29, 1963
    George F. Brewster, died February 13, 1964
    Delmont D. Grimm, died April 17, 1963
1916—Lee Westlake Hughes, died January 25, 1964
    George W. Purcell, died October 17, 1962
1917—Charles H. DeWan, died March 13, 1963
    Louis Oliver Meckel, died September 16, 1962
    James M. Odell, died March 15, 1963
1918—George M. Brooks, died September 14, 1963
    Paul A. Epright, died July 24, 1963
*   Felix A. Mapleton, Jr., died May 19, 1946
*   Marcus E. Stites, died April 2, 1937
*   William A. Hill, died October 10, 1963
    Meyer A. Kline, died November 12, 1963
*   Agustin Sanchez-Virgil, died 1950
1920—Kenneth S. Bulger, died October 8, 1963
    Carroll F. Crain, died March 24, 1963
*   Michael A. Hodgson, died January 12, 1954
    Lester P. Martin, died October 28, 1963
    Maurice J. Winston, died May 28, 1963
1921—Charles J. Koerth, died March 15, 1963
    Philip F. Newman, died November 14, 1963
*1922—Vernon L. Eley, died July 17, 1954
1923—Reuben W. Croyle, died February 27, 1963
*   Samuel M. Giambra, died November 7, 1962
1924—Ladislas A. M. Feher, died October 21, 1963
    J. Merrill Gibson, died March 3, 1963
    Harry K. Katz, died January 14, 1964
1925—Eugene H. Stillman, died November 3, 1963
1926—Frank J. Ciliberti, Jr., died July 1, 1963
    Harold I. Goodwin, died January 21, 1963
    Charles M. Murphy, died December 24, 1963
    Leandro M. Tocantins, died March 22, 1963
1927—Joseph F. Dougherty, died May 9, 1963
    John A. Tushim, died April 24, 1963
1928—Forney P. George, died October 21, 1963
    Stephen McIntyre, died November 6, 1963
Alumni Advisory Council Meets

Members of the Alumni Advisory Council are pictured above at their meeting with student representatives. The Council spent two days, January 20 and 21, 1964 at the College and conferred with members of the Administration, the Executive Faculty, the officers of the Alumni Association, several students who are class officers and officers of student organizations and, finally, with the Board of Trustees. Following these conferences, they submitted a report of their findings and recommendations to the Chairman of the Board, Mr. James M. Large.

Pictured above are (left to right) Dr. Bockus, Mr. Alfred Martin (senior student), Dr. De'Troia, Dr. Rumbaugh, Dr. Ruppersberg, Dr. Braceland, and Mr. George Adams, President of the Sophomore Class.
ON the evening of February 27th Dr. Abraham Cantarow, well known to alumni and students alike, was installed as 1964-1965 President of the Alumni Association of Jefferson Medical College.

Dr. Cantarow was following in the family's footsteps when he decided upon a career in medicine; his father, paternal grandfather, three uncles, and an aunt were all doctors. A native of Connecticut, he took his undergraduate training at Trinity College and Tufts College in Boston. While in Boston, he combined his studies with violin lessons at the New England Conservatory of Music, and also found time to become a top-ranking tennis player. In 1920 he came to Jefferson where he was readily seen as a highly capable student and a credit to the institution and the student body. Outgoing President Benjamin Haskell once remarked, "It is pleasant to note that while Connecticut paid the premiums for his early education, Jefferson has been collecting the endowment."

Upon graduating with honors in 1924, Dr. Cantarow was selected Resident Chemist to the Jefferson Hospital. Following this he served as Resident Physician until 1927 and then as Research Fellow in the Department of Diseases of the Chest until 1929.

He began his teaching career in Physical Diagnosis at the Chest Department of the Jefferson Hospital in 1927. In 1930 he became Assistant to Dr. W. H. Jones and taught in the Laboratory of Clinical Medicine, later being placed in charge of teaching in this laboratory. He rose from Assistant Demonstrator in 1927 to Associate Professor of Medicine in 1939. He was appointed Biochemist to the Jefferson Hospital in 1932 and Assistant Physician to the Hospital in 1941. In 1945 he became Professor of Biochemistry and Head of the Department.

The year 1932 marked the publication of his first textbook *Clinical Biochemistry*, now in its sixth edition. In 1954 the first edition of his widely used textbook *Biochemistry* appeared. Published that same year was *Endocrinology*, of which Dr. Cantarow was co-author with Doctors Paschkes and Rakoff. In 1957 he was one of six Americans, among an international group, selected to be delegates to the African Congress on Liver Cancer.

Despite his many activities, he has always devoted considerable time to the Alumni Association. He has served as Class Agent for the Class of 1924 in the Annual Giving Fund Drive and for the past several years has been a member of the Executive Committee of the Alumni Association.

Dr. Cantarow has contributed widely to scientific journals and is a member of the American Physiological Society, American Society for Pharmacology and Experimental Therapeutics, American Association for the Advancement of Science, American Endocrinological Society, Society for Experimental Biology and Medicine, College of Physicians of Philadelphia, Philadelphia Physiological Society, and the Endocrine Society of Philadelphia.

He is married to the former Elizabeth Stern, a graduate in Psychology from the University of Pennsylvania. They live in Philadelphia with their daughter Ellen. Dr. Cantarow, when he has a free moment, enjoys listening to good music, reading biography and history. And whenever he has time to spare, he devotes it to photography.
Fathers of Sophomore Students
Spend a Day
at Jefferson

ON February 27 the Fathers of Sophomore students spent a day at Jefferson, acquainting themselves with the curriculum and schedules of their sons and daughters. This is the first time the College has undertaken such a project but it was an unqualified success and will probably be repeated in future years.

A Committee of the Alumni Association, with Doctor A. E. Rakoff as Chairman, worked with the Administration in arranging the program and the luncheon.

At 9:30 a.m. the Fathers registered in McClellan Hall and were then divided into small groups which were taken on tours of the College and certain areas in the Hospital. Senior students acted as guides and the Fathers visited the Clinical Laboratory, the Physiology Laboratory, the College Library, a private floor in the Foerderer Pavilion, the new Rehabilitation Unit, the Department of Radiology, the Psychiatric Unit, the Heart Station, Barton Division, the Medical Clinic in Curtis Clinic and the Cardesa Foundation.

The tours ended at 12:30 p.m. and at 1:00 p.m. the Dean entertained the Fathers, the Sophomore students, members of the Faculty who are engaged in teaching the second year class, Officers of the Alumni Association and members of the Committee who worked on the program at luncheon in McClellan Hall.

Dean Sodeman welcomed the guests and discussed the curriculum at Jefferson and some of the problems encountered by the students. Doctor Haskell greeted the assemblage on behalf of the Alumni Association and told some of the history of the Association. Mr. George Adams, President of the Sophomore Class, spoke briefly, expressing the students' appreciation for the program.

Doctor Louis H. Clerf, Professor of Laryngology and Broncho-Esophagology, Emeritus, reminisced about his many years of association with Jefferson and told interesting anecdotes about the outstanding and colorful Professors he was privileged to know as a student here. Doctor George J. Willauer discussed Jefferson's expansion program and urged Fathers and students alike to involve themselves actively in the affairs of the College.

Following the luncheon, the Fathers accompanied the students to a Surgery Conference in the Hospital Amphitheatre.

Sixty-two Fathers and most of the second year students attended and, from the comments on the questionnaires which were returned to the Committee, they felt that the day was most interesting and worthwhile.
Registering fathers receive name tags and schedules of events.

Mr. Lentz, Librarian, conducted the fathers through an interesting tour of the library.
Dr. Abraham Rakoff, Chairman of the Fathers' Day Committee, confers with a student guide.

In photo below Dr. John N. Lindquist prepares to take a group of fathers on a tour of the eighth floor of the Curtis Clinic.

Dean Sodeman welcomes the guests at the luncheon in McClellan Hall.
JEFFERSON Medical College holds the distinction of having established the first Department of Ophthalmology in a medical college in this country. Dr. Richard J. Levit, who graduated from Jefferson in the Class of 1848, was Head of the Department from its inception in 1867 up to 1873, with the title of Clinical Lecturer of Ophthalmology. He was succeeded by a long line of eminent American ophthalmologists, among them Dr. William Thomson, who established the first daily eye clinic at Jefferson; Dr. George E. DeSchewinitz, the first Ophthalmologist ever to be elected President of the American Medical Association; and Dr. William M. Sweet, a pioneer in X-ray techniques of localization of intraocular foreign bodies.

In order to meet the ever-increasing demand for Ophthalmologists, particularly those oriented in teaching and investigation, the Department was reorganized in 1962. Dr. Thomas D. Duane was appointed its first full-time Chairman, and individuals trained on the ophthalmic subspecialties have been brought in to supplement the staff.

Dr. Duane brings to Jefferson a unique combination of the clinical experience of a practicing Ophthalmologist and an active career in research. After completing a residency in Ophthalmology at the State Clinic of Iowa in 1947, Dr. Duane earned a Ph.D. in Physiology there. A pioneer in aero-space research, he has done some of the basic work on the mechanics and physiology of black-out. Among his many publications are investigations of the basic pupillary pathways and the relationships between retinal and cerebral circulation. Dr. Duane is currently engaged in an extensive evaluation of research on visual sciences being conducted at this time in the United States. This project, which is under the sponsorship of Research to Prevent Blindness, will be the first comprehensive survey ever made of research in Ophthalmology.

THE present clinical facilities on the fourth floor of the Curtis Clinic Building are now undergoing extensive renovation. When completed the new clinic will contain individual examination areas and specialized diagnostic units such as electroretinography, electromiography, and tonography, along with rooms set aside expressly for the investigation of problems in neuro-ophthalmology and retinal pathology. The clinic will cover a 3500 square foot area.

Dr. Thomas Duane (left) and Dr. William C. Frayer, Associate Professor of Ophthalmology, review the physical plans for the new clinic.
Dr. David Naidoff (center), Assistant Professor of Clinical Ophthalmology, observes one of the residents using the biomicroscope. Dr. Naidoff will supervise the Ocular Motility Section of the Department.

Dr. William T. Hunt (left), Assistant Professor of Ophthalmology, instructs Dr. Louis H. Sweterlitsch, third year Resident, in the techniques of Gonioscopy.

Mr. Donald Weeks, the Department's advisor on electronics, is shown testing equipment.

In photograph above Dr. J. Rudolph Jaeger, Professor of Neurosurgery, demonstrates a new clinical electro-physiologic for determining retinal function.
Dr. William C. Frayer, Associate Professor of Ophthalmology, (far left) who has charge of resident instruction, is shown teaching residents in the operating room.

Dr. William S. Tassman, Assistant in Ophthalmology, demonstrates retinal detection techniques.

Dr. Joseph Waldman (left), Clinical Professor of Ophthalmology, who is in charge of the undergraduate training program, examines a patient with the assistance of staff member Dr. Austin Murray.
With the purchase of recently-developed equipment, the eye operating room is capable of handling any necessary technical procedure. The new ten bed eye unit located on the fifth floor of the hospital offers both patient care and training for practical student nurses.

A three year residency in the Department of Ophthalmology is designed to provide the graduate physician with training in the fundamental principles of clinical ophthalmic practice together with an introduction to methods of ophthalmic research. Practical experience in the clinic, on the wards and in the operating room is supplemented by a comprehensive series of lectures and informal conferences covering both basic and clinical subjects. Opportunity for the study of medical and neurologic diseases and their ocular manifestations is provided by rotations through the departments of Medicine and Neurology. An exchange program, established with the University of Puerto Rico in San Juan, offers two months of surgical experience in San Juan to each senior resident, in exchange for two months of training in neuro-ophthalmology at Jefferson for selected residents from Puerto Rico.

The purpose behind the teaching of Ophthalmology to medical students is two-fold: 1) to indicate where ophthalmic knowledge fits into the general structure of medicine, and, 2) to acquaint students with the instrumentation and diagnostic techniques which will be needed by any practitioner of medicine. The instruction, accomplished in small groups of third year students, consists of twenty-four hours of section work along with 12 formal lectures to the entire third-year class.

In recent years it has become apparent that an awareness of research techniques is essential to both residency and undergraduate training programs. Consequently one phase of the reorganization of the Department has been the establishment of a clinical and laboratory investigative program. Examples of current research activities in the Department are illustrated in the October 1963 issue of the Alumni Bulletin.

The Department of Ophthalmology is a participant this year in a joint study of neurological and sensory disease problems in Pennsylvania being sponsored by the U.S. Public Health Service in conjunction with the Pennsylvania Department of Health and Jefferson Medical College. The aim of this assessment is to designate problem areas in neuro-sensory diseases.
A Million Dollars Looks a Long Way Off

From where your Chairman sits today when this is being written, a million dollars looks a long way off! Eighty alumni to date have contributed or pledged $187,053.00. The average gift, I think, is reasonably good, but don't forget that many alumni have to contribute $5 or $10,000 or more in order to keep this average gift per alumnus at a high level. One hundred eighty-seven thousand dollars is a little under a fifth of our goal of one million dollars of "new money" from our alumni. I state this because alumni on the faculty of the Jefferson Medical College have already pledged or contributed over $253,000. This is a grand total to date of $440,053 pledged or contributed by Jefferson alumni to the Alumni Division of the Building Fund drive toward an overall goal of $1,250,000.

There are some other facts about Jefferson's drive to raise seven million dollars from private sources which some of our alumni may not be aware of, or have forgotten. In the first place, the Trustees of the Jefferson Medical College of Philadelphia have contributed personally, or through the organizations with which they are associated, over $2,000,000 to Jefferson's Building Fund. In addition, the Women's Board has pledged or contributed $270,000 and the non-professional employees of the Jefferson Medical Center have pledged or contributed over $100,000. These fine examples of giving to our institution of those who are devoted to Jefferson, but yet who are not graduates of our Medical College should be an example to all of us who are Alumni.

Another fact which apparently also is not well known, is that the Faculty of the Jefferson Medical College itself has pledged or contributed well over one-half a million dollars to the Building Fund, to be exact $530,000. This also, I think, is a fine example of what those of us who are working and teaching at Jefferson think of our institution and its future.

Finally, that remarkable unsolicited gift of one-half a million dollars from Louis B. and Ida K. Orlowitz is a magnificent example of generous giving on the part of a former patient. The gift was made in memory of Dr. Francis T. Stewart, a Professor of Surgery at Jefferson, who operated upon Mr. Orlowitz in 1913 for acute appendicitis, when Mr. Orlowitz was a patient on the surgical ward of the Jefferson Hospital. The gift was also made in memory of the physicians who treated Mr. Orlowitz during a month's stay in the hospital in 1928 and of what he termed "our hospital." This gift will be used for the construction of a 15-story Louis B. and Ida K. Orlowitz Residence Hall, on the south side of Walnut Street near 11th. This new residence hall for members of the Jefferson family will be located just east of the James R. Martin Student Nurses Residence. The old Stefano Brothers Building, now occupied by Horn and Hardart, will be torn down to make room for this new residence hall.

With gifts like all of those mentioned above as examples, I am convinced that Jefferson Alumni at large will contribute generously and enable us to make our goal of one million dollars by June 1 of this year. Remember that we are now only one-eighth down and we still have seven-eighths to go.

Now for some facts and figures about the Drive itself. First of all, I would like to reiterate that every penny raised by the Alumni Division of the Jefferson Building Fund Drive will be used for Medical College purposes and not a cent will be spent on the hospital or hospital-related functions. To summarize again what the $1,250,000 will be spent for: $500,000 will be used toward the cost of equipping and furnishing the Basic Science-Student Commons Building, which will be known as Jefferson Hall. Parenthetically, we will have some very nice Alumni quarters in Jefferson Hall. Three hundred thousand dollars will be applied to the cost of renovating and equipping the areas in the old College building vacated by the Basic Science Departments. These renovated areas will be used by the clinical departments. Two hundred and fifty thousand dollars will be used toward the cost of acquiring and equipping the existing building in the southwest corner of 10th and Walnut.
The cleared site for the new Jefferson Hall, which extends on the south side of Locust Street from Tenth to Eleventh Streets.

Streets for Jefferson's Medical Library. Finally, $200,000 dollars will be applied toward the cost of purchasing sites and finishing the new structures for residential accommodations for medical students. All of these are very worthwhile goals in the building of the new Jefferson campus.

Next, how have we been conducting the Drive and why haven't many of you received pledge cards? The reasons for the latter is that we have been conducting the Drive in two phases. First, let me say that I, the National Chairman, the Associate Chairmen and the Campaign Committee would like to be able to talk to each of the more than 6,000 Jefferson Alumni about the campaign. Obviously, this is impossible and, similarly, it is impossible to approach every alumnus personally. We therefore decided to conduct the Drive in two phases. First, the alumni who have a record of generous giving to Jefferson Medical College in the past are being approached by similar alumni acting as "Area Chairmen." More than 100 alumni have agreed to serve as "Area Chairmen." Each of them will approach four or five other alumni, explaining the purposes of the Drive and giving a pledge card and a brochure to each.

In the second phase of the Drive every one of Jefferson's alumni who were not approached in the first phase will also receive a pledge card and a brochure describing the Drive. Some "Area Chairmen" engaged in the first phase of the Drive have shown great energy and have asked to be given pledge cards for all the alumni in their town or in the surrounding area. We have, of course, enthusiastically complied with all such requests.

Will all of the alumni who are not personally approached, but who are solicited by mail, please forgive those of us who are conducting the Drive? As I said it is impossible to interview everyone or to arrange to have everyone interviewed. I am sure that each alumnus, whether he has given often, or not at all, to Jefferson in the past will arise to this occasion and help us accomplish our magnificent goal to give our College, for the first time, a campus and green grass. Help us all by returning your pledge cards promptly to the Jefferson Medical College Alumni Division of the Building Fund Drive, 1025 Walnut Street, Philadephia, Pa. 19107.

JOHN H. GIBBON, JR., M.D.
National Chairman
Rewards of Research and Teaching

by Abraham Cantarow, M.D.

The Phi Lambda Kappa Medical Fraternity’s Grand Scientific Award is presented annually for outstanding achievement in Medicine and Medical Sciences. Dr. Cantarow, recipient of the 1963 Award, delivered the following acceptance speech at presentation ceremonies on December 30th, during the Fraternity’s Convention. His speech is reprinted here because we think it will be of interest to all Jefferson Alumni.

—The Editors

NEVER before have I heard so many nice things said about me. They are somewhat disturbingly reminiscent of the eulogy delivered by Voltaire at the funeral of a man for whom he had had little regard in life. He said, “Here lies a loyal friend, a faithful husband, a sturdy patriot, and a gifted writer—provided, of course, he’s really dead.” Well, I’m not really dead—merely overcome by your kindness and generosity. I am deeply grateful to you for having made this evening possible.

It seems to be customary on occasions such as this for the recipient of an award to attempt to justify his selection by explaining what he has done to merit such distinction. Too frequently he succeeds only in convincing his audience that a mistake had been made, at least in permitting him to speak. I felt that any attempt to impress you with my accomplishments would serve merely to demonstrate that those responsible for my selection had exercised poor judgment. It would be showing them poor gratitude, indeed, to expose them to such criticism, and I decided it might be less damaging if, instead of boring you with a presentation of what I believe I have done, I shared with you a few reflections on the rewards of a life of research and teaching, activities which presumably are responsible in some way for my presence here this evening.

UNLIKE virtue, which, being its own reward, may be poor compensation for effort expended, research is of itself enormously rewarding to the investigator. There are few things that can equal the excitement that comes from the uncovering of a hidden truth or the revelation of a previously unrecognized principle. One of the most gratifying things about research is the fact that if the question posed is intelligent and the experiment a good one, the answer will be correct and informative regardless of whether the original working hypothesis proves to be right or wrong. There is a germ of truth in the somewhat cynical definition of basic research as “what you do when you don’t know what you’re doing.” Exploratory research is really a journey on a winding trail into the unknown, starting out, to be sure, with some immediate objective in view, but not knowing where one is eventually going. The person who engages in this type of activity experiences the thrills that were once enjoyed by explorers in breaking out of the confines of the old world. It has been said of Columbus that when he set out he didn’t know where he was going; when he got there he didn’t know where he was; and when he got back he didn’t know where he had been. Nevertheless, he had had one of the most wonderful adventures of all time.
Those of us who were born about the turn of the century have witnessed and participated in more revolutionary and exciting changes in daily living and in thought than any previous generation. For obvious reasons, public attention has been focused on the revolution in the physical sciences that has been in progress since the early 1920's. At that time it was widely held that knowledge of the physical world was essentially complete and that significant progress in that area was about at an end. The devastating effects of the quantum and relativity theories on that belief are now history. These events have tended to overshadow a comparable revolution that has been in progress in the field of biology.

CONSIDER the astounding things that have happened in only one segment of this field during the past 20 years, one in which I have been involved to some degree. In this time we have had the first reasonably conclusive demonstration that the genetic material consists of nucleic acid. The three-dimensional chemical structure of the gene has been delineated, an accomplishment of monumental significance. Establishment of this structure has provided an explanation as to how the gene reproduces. It has been an unprecedented triumph to understand how the inherited information in the gene is stored within the molecule of nucleic acid. The mechanism by which the coded message of each gene is transmitted to the cell has been partially broken. It appears to be the fundamental code of life, virtually universal for all living organisms, and marks the expression in molecular and atomic terms of the fundamental characteristics that have served to distinguish between living organisms and nonliving matter.

This new biology is as yet in an embryonic stage, and the most important advances remain to be made. The day may not be far distant when heredity can be controlled, development altered, species characteristics exchanged, and life created. The potential influences of these forces on the world may be more far-reaching than the discovery of atomic energy.

SCIENCE has given us knowledge and power, but has not yet been able to impart wisdom. Dr. Compton tells the story of his sister, who lived in India, and who was annoyed by endless requests by a native electrician for instructions. Exasperated, she once burst out, "Why don't you use your common sense?" He replied gravely, "Madam, common sense is a gift of God. I merely have a technical education."

This developing new understanding of the nature of life represents to me the most exciting adventure of the modern age, and anyone who participates in it is fortunate, indeed. We have hitherto been concerned much more with what we do than with what we are. The fact is that what we do is determined by what we are. Science has helped us to understand and to master nature. Perhaps future developments in biology will help us to understand and to master ourselves, with tremendous practical consequences for mankind.

THE backbone of research, as of revolutions, is enthusiasm, and enthusiasm is an attribute mainly of youth. It tends to become dampened by the cautious conservatism that derives from experience. It has been said that the forward march of humanity is not led by knee-sprung graybeards, nor is the clarion call of progress ordinarily piped from the withered throat of old age. As stated by Holmes, "Revolutions are not made by men in spectacles, and the first whispers of a new truth are not caught by those who begin to feel the need of an ear-trumpet."

As we grow older, we tend to develop an unfortunate condition called "old-fogeyism." Osler described three characteristic signs of this malady: first, a state of blissful happiness and contentment with things as they are; secondly, a supreme conviction that the condition of other people and other institutions is one of pitiable inferiority; and thirdly, a fear of change, which is both perplexing and appalling. The only effective preventive measure is continual contact with young, bright and receptive minds. To no one is this safeguard more readily available than to a teacher. He usually receives from students in this way at least as much as he gives to them.

All conscientious and successful teachers have sincere respect for the minds of students. It has been pointed out that by the law of probability certain classes are bound to contain students who are more intelligent and have more originality than any of their instructors. It will likely be one of them who will help unravel the mystery of cancer, help stem the deteriorations of aging, help reverse the trend in mental illness. No one can say when, how, or in whom a spark may be kindled that fires the imagination and flames into a brilliant truth.
Almost everyone who has made a significant contribution to knowledge encountered along the way a teacher who stimulated his curiosity and imagination and encouraged him to find things out for himself. Few things are more rewarding than to see young minds awakening through one’s efforts and influence, to stimulate intellectual excitement, and to observe the development of faculties to their full potential. I can testify to the deep pleasure a teacher experiences year after year as he sees the influence of his life on the lives of hundreds of young persons. It is as if he were able to lead of group of eager and earnest companions to a high point and to reveal to them in their fresh enthusiasm the wonders of the scene before them.

At the risk of inviting a diagnosis of old-fogeyism, may I refer briefly to a current trend that I regard as unfortunate. No one can seriously question the beneficial effects of the current enormous emphasis on research activity in medical schools. However, the intense individual and institutional competition for the large sums of money available for these purposes has had certain deleterious consequences. Increasing dependence on grant support for professional reputation, academic salaries, and academic advancement has tended to restrict the teaching activities of staff members, particularly at two levels; (a) department or division heads, and (b) young, unestablished investigators. It is difficult for a senior faculty member, responsible for the reputation of his department, to resist the temptation to accept large research grants, involving responsibility for directing or supervising large groups of workers. Such programs limit the time available for teaching undergraduate and even graduate students, more and more attention being necessarily concentrated on a small number of assistants who can be most helpful in getting the project completed. There are increasing extramural demands on his time, arising directly or indirectly out of these research activities. It has been said that the chief difference between a full-time and a part-time professor is that the part-time professor is away from the institution only part of the time.

As for the young, unestablished, grant-supported investigator, he usually and naturally feels a primary obligation to the research project from which he derives his salary; he recognizes that its continuance depends largely upon his productivity and that this is also the chief basis for academic promotion, despite institutional pronouncements to the contrary and the lip-service given to teaching ability. He is therefore apt to resent any encroachment upon his time and efforts that tend to divert him from what he is led to believe is his main purpose and in his professional interests.

Although all of this may serve to enhance individual and institutional reputations, students and faculty are being increasingly deprived of that intimacy of contact so beneficial to both. Resort is had increasingly to mechanical aids to teaching, in some cases with virtually complete separation of teacher from student. A few years ago, after listening to an extensive discussion of the usefulness of such devices, Dean Thomson, of McGill, said it evoked in his mind a horrible vision of a classroom of the future, in which there was a tape-recorder at the lecturer’s desk delivering a lecture, and 100 tape-recorders at the students’ seats recording the lecture—and not a soul in the room. We are certainly tending to get farther and farther away from Garfield’s concept of an ideal university as “Mark Hopkins sitting on one end of a log and a student on the other.”

I have few illusions about human motivations. A very few may choose a career in research, teaching, or the practice of medicine because of a desire to benefit humanity. The vast majority are motivated by more selfish considerations; they choose a course of action primarily because they believe they will enjoy it more than some other activity. This is certainly true in my case. The intellectual excitement of participation in the adventures of research and the satisfaction that has come from expressions of regard and affection by students have been more than sufficient compensation for my efforts. It somehow doesn’t seem right to be further rewarded in the wonderful manner of this evening for indulging in these purely selfish pursuits. However, right or wrong, it is surely very pleasant. At the end of a life of contemplation, William James believed he had discovered what everyone really wants most, even philosophers; it is praise. I imagine he was right.

An amateur writer once called a publisher and asked, "How long is the average novel nowadays?" The publisher said, "Oh, about 75 to 90 thousand words." The writer said, "Well, then, I've finished." A few weeks ago, when I inquired as to what I should talk about this evening, I was told, "About 15 or 20 minutes." Well, then, I've finished.
PROMOTIONS, NEW APPOINTMENTS, AND RESIGNATIONS

PROMOTIONS

ALLAN JACOB ERSLEV, M.D., from Associate Professor of Medicine to The Thomas Drake Martinez Cardeza Research Professor of Medicine (Hematology).

THEODORE T. TSALTAS, M.D., from Associate Professor of Pathology to Professor of Pathology.

IVAN B. NAGY, M.D., from Assistant Professor of Psychiatry to Associate Professor of Psychiatry.

ELWOOD K. HAMMOND, A.B., M.D., from Associate in Clinical Pediatrics to Assistant Professor in Pediatrics.

HERBERT H. HERSKOVITZ, B.S., M.D., from Associate in Psychiatry to Assistant Professor of Clinical Psychiatry.

JOHN E. MOCK, A.B., M.D., from Associate in Clinical Psychiatry to Assistant Professor of Clinical Psychiatry.

J. CLIFFORD SCOTT, B.S., M.D., from Associate in Psychiatry to Assistant Professor of Clinical Psychiatry.

ARTHUR G. BAKER, B.A., M.D., from Instructor in Medicine to Associate in Clinical Medicine.

HAROLD L. COLBURN, JR., A.B., M.D., from Instructor in Dermatology to Associate in Dermatology.

EDMUND E. EHRLICH, A.B., M.D., from Instructor in Medicine to Associate in Clinical Medicine.

CHARLES H. GREENBAUM, A.B., M.D., from Instructor in Dermatology to Associate in Dermatology.

HERBERT LIPSHUTZ, A.B., M.D., from Instructor in Surgery to Associate in Surgery.

RICHARD C. PUTNAM, A.B., M.D., from Instructor in Medicine to Associate in Clinical Medicine.

GEORGE J. RESNICK, A.B., M.D., from Instructor in Medicine to Associate in Clinical Medicine.

SAMUEL E. RYNES, A.B., M.D., from Instructor in Medicine to Associate in Clinical Medicine.

GEORGE W. TRUITT, M.D., from Instructor in Medicine to Associate in Clinical Medicine.

HERBERT S. BOWMAN, B.A., M.D., from Assistant Professor of Medicine to Visiting Lecturer in Medicine.

WILLIAM D. ALLISON, B.A., M.D., from Assistant in Medicine to Instructor in Medicine.

FRANK J. GILDAY, B.S., M.D., from Assistant in Medicine to Instructor in Medicine.

WALTER GEORGE GUNN, A.B., M.D., from Assistant in Radiology to Instructor in Radiology.

FRANK B. JOHNSTON, B.A., M.D., from Assistant in Medicine to Instructor in Medicine.

LEONARD P. LANG, B.S., M.D., from Assistant in Medicine to Instructor in Medicine.

SEYMOUR WAGNER, B.A., M.D., from Assistant in Otolaryngology to Instructor in Otolaryngology.

APPOINTMENTS

LAWRENCE S. KUBIE, A.B., M.D., Visiting Professor of Psychiatry.

H. LEONARD JONES, JR., A.B., M.D., Associate Professor of Clinical Medicine.

JAMES J. BOYLE, JR., M.D., Assistant Professor of Radiology.

SHELDON F. GOTTLIEB, B.A., M.S., Ph.D., Assistant Professor of Physiology and Assistant Professor of Anesthesiology.

MARJORIE B. BAHNSON, B.S., M.S., Ph.D., Research Associate in Psychiatry.

J. WILLIAM COX, M.D., Ph.D., Associate in Medicine.

EDMUND C. GAULDEN, M.D., Associate in Clinical Medicine.

ORVILLE F. NIELSEN, A.B., M.D., Associate in Medicine.

TERESA P. DOMANSKI, B.S., M.A., M.S.S., Instructor in Psychiatry (Social Service).
Richard G. Drewyer, M.D., Instructor in Medicine.
Leo C. Freeman, M.D., Instructor in Psychiatry.
Jack E. Gitterman, M.D., Instructor in Psychiatry.
Ora M. Jones, Ph.D., Instructor in Psychiatry (Psychology).
Mary A. Judkins, M.S., Instructor in Medicine (Social Service).
Edwin Donald Kaufmann, B.A., M.D., Instructor in Medicine.
Mary Hawley McCauley, Ph.D., Instructor in Psychiatry (Psychology).
Ross B. Moquin, M.D., Instructor in Medicine.
Leonard Sattel, M.D., Instructor in Psychiatry.
Charles M. Tucker, B.S., M.Ed., Ph.D., Instructor in Psychiatry (Psychology) and Instructor in Pediatrics (Psychology).
Leslie Wiener, M.D., Instructor in Medicine.
Richard A. Cautilli, M.D., Assistant in Orthopedic Surgery.
Dorothea D. Glass, M.D., Assistant in Medicine (Physical Medicine and Rehabilitation).
Robert J. Kirschner, B.S., M.D., Assistant in Ophthalmology.
Helen L. Malis, M.D., Assistant in Pediatrics.
Austin P. Murray, A.B., M.D., Assistant in Ophthalmology.
Charles L. Reese, III, M.D., Assistant in Neurology.
Nicoletta Solari, M.S., Assistant in Pediatrics (Social Service).
Anne W. Webb, A.B., M.S., Assistant in Pediatrics (Social Service).
Joe Ed Whetzel, M.D., Assistant in Medicine.
Ali S. Emrani, M.D., Nathan Lewis Hatfield Fellow in Urology 1964-65 (July 1 to July 1).
Constance Biddle, B.A., M.B., Teaching Fellow in Physiology.
Zalmon Pober, B.S., Teaching Fellow in Physiology.

Resignations

Aaron Capper, B.S., M.D., Professor of Clinical Pediatrics.

Daniel L. Gilbert, A.B., M.S., Ph.D., Associate Professor of Physiology.
John L. Wilson, A.B., M.D., Assistant Professor of Clinical Medicine.
Robert P. Waterhouse, B.S., M.D., Associate in Clinical Medicine.
Hugh W. Ashmore, B.S., M.D., Instructor in Pathology.
Jay A. Desjardins, A.B., M.D., Instructor in Medicine.
Craig K. Wallace, A.B., M.D., Instructor in Medicine.
George C. Wang, M.D., M.Sc., Instructor in Medicine.
Raymond S. Alexander, B.A., M.D., Assistant in Obstetrics and Gynecology.
Anthony L. Centrone, B.S., M.S., M.D., Assistant in Obstetrics and Gynecology.
Richard N. Keates, B.A., M.D., Assistant in Ophthalmology.

Deaths

Charles W. Labelle, B.S., M.S., Ph.D., Assistant Professor of Preventive Medicine (Environmental Hygiene).
Jacob Yanoff, B.S., M.D., Instructor in Medicine.

Modification of Titles

Jacob Hoffman, A.B., M.D., from Clinical Professor of Obstetrics and Gynecologic Pathology to Clinical Professor of Obstetrics and Gynecology (Pathology).
Maurice Sones, A.B., B.S., M.D., from Visiting Associate Professor of Medicine to Visiting Lecturer in Medicine.
Dr. Erslev Appointed
To New Post

Dr. Allan J. Erslev has been named The Thomas Drake Martinez Cardeza Research Professor of Medicine (Hematology). The appointment, which also includes the directorship of the Cardeza Foundation Laboratories, was announced recently by Dr. Robert I. Wise, Magee Professor of Medicine and Head of the Department.

A native of Denmark, Dr. Erslev attended the University of Copenhagen for both his premedical and medical education. He came to the United States in 1946, became a Rosenstock Research Fellow at the Sloan-Kettering Institute for Cancer Research in New York City in 1947, and a Damon Runyon Clinical Research Fellow at the Yale School of Medicine in 1950. He became a naturalized citizen in 1949, and the year 1953 saw him serving as a Captain in the U.S. Army Medical Corps. After a Faculty Appointment at the Yale School of Medicine he was made Research Associate at the Thorndike Memorial Laboratory and Assistant Professor at Harvard School of Medicine. In 1959 he was appointed Associate Professor of Medicine in the Department of Medicine at Jefferson and Associate Director of the Cardeza Foundation for Hematologic Research under the late Dr. L. M. Tocantins. Since Dr. Tocantins' death in March, 1963, Dr. Erslev has served as acting director of the Foundation.

In his new capacity, Dr. Erslev will direct a program of teaching, research and patient care in the Foundation's new laboratories at 1015 Sansom Street, which were opened in 1960. The hematologic research undertaken in the Foundation is primarily directed toward coagulation problems, the metabolism of the formed elements of the blood, and bone marrow transplantation. The larger part of Dr. Erslev's personal research is directed to the control of red cell production. The red cell mass, as other organs, is maintained at a constant size, and Dr. Erslev's interest centers on the homeostatic mechanism responsible for keeping the red cell mass at an optimal size. He explains that from studies undertaken here and in other places it appears that the kidney can sense whether the red cell mass is too small or too large, presumably by responding to the oxygen content of the blood. If it is too small, the kidney produces a hormone known as erythropoietin, which increases the rate of red cell production. If too large, the kidney slows down the supply of the hormone. This self-contained oxygenstat, which acts in the same way as a thermostat, provides the body with a feedback mechanism for the maintenance of a normal hemoglobin concentration, and is helpful in compensating for blood loss and acclimatization to high altitude.

Dr. Erslev has contributed widely to scientific journals and is a member of numerous scientific societies, including the American Society for Clinical Investigation, the American College of Physicians, the American Society of Hematology and Sigma Xi.

Dr. Erslev is married to the former Elizabeth Curtis Lewis, who is presently a student at the Graduate Department of Social Work and Social Research of Bryn Mawr College. They have four children—Wendy, 14; Carole 12; Eric, 9; Kim, 7—and make their home at 436 Conestoga Road in Wayne, Pennsylvania.
CHARLES W. LaBELLE
1916 - 1963

CHARLES W. LaBELLE, B.S., M.S., Ph.D., Assistant Professor of Environmental Hygiene in the Department of Preventive Medicine, died November 7, 1963, at the age of forty-seven. He succumbed to an acute respiratory infection of only four days' duration. His wife and two children survive him.

Dr. LaBelle graduated from the University of Rochester in 1945. He became a Research Assistant in the Department of Pharmacology of the Medical School of that University and participated in its Atomic Energy Project. From 1950 to 1954, he worked as Toxicologist in the Medical Laboratories of the Army Chemical Center, Edgewood, Maryland. Since then he had been connected with the Department of Preventive Medicine, Jefferson Medical College, and obtained the degree of Ph.D. in Pharmacology and Toxicology in 1959.

During his career, Dr. LaBelle distinguished himself by his highly original research activities that made him widely known and respected. He was the first to demonstrate the potentiating effect of mixtures of gaseous and particulate air contaminants and, in an extended series of publications, elucidated the synergistic effects of aerosols.

A considerable part of this work was done while he was at Jefferson Medical College where he also executed experimental work, the results of which have furnished new insight into the physiologic mechanisms of lung clearance. In the last two years, he studied the influence of cigarette smoking on these mechanisms.

Last summer, Dr. LaBelle was one of three American toxicologists who attended, by invitation, the Second International Symposium on Threshold Limits, in Paris, France. He was an excellent speaker, and much attention was given to his last presentation (on the therapeutic elimination of inhaled radioactive particles) before the Fourteenth International Congress on Occupational Health, in Madrid, Spain, September 1963.

Dr. LaBelle was a member of the American Industrial Hygiene Association, American Academy of Industrial Hygiene, American Institute of Medical Climatology, and other scientific societies. He has, without doubt, contributed greatly to fundamental knowledge in Environmental Hygiene and Medicine and to the reputation of Jefferson Medical College in this field.

HEINRICH BRIEGER, M.D.
News of College Departments

ADMINISTRATION

Dr. Samuel S. Conly, Jr., Assistant Dean, recently spoke to members of the Geisinger Medical Center staff on the growing need for more physicians in the United States. Dr. Conly said that by 1975 it will be necessary for medical schools to graduate almost 50 per cent more doctors than at present just to keep pace with the expanding population.

Mr. Leo Riordan, Director of Public Relations for Jefferson Hospital and Medical College, has been elected to the Department of Pennsylvania American Legion Division of the Pennsylvania Sports Hall of Fame. The Legion cited him at a luncheon on December 7, 1963, for "more than three decades of devotion to the American Legion's youth programs."

ANATOMY

Dr. Nicholas A. Michels, Professor of Anatomy, Emeritus, presented a paper on "The Variant Blood Supply of the Colon and Rectum" at the opening session of the North Atlantic Annular Meeting of the Quadrangular (N. Y., N. J., Pa., Mass.) Group of Proctologic Surgeons held in Atlantic City, November 7-10, 1963.

Dr. A. W. Sedar, Associate Professor of Anatomy, attended the American Society for Cell Biology meetings in New York City November 6, 7, and 8, where he presented a paper in association with another doctor entitled "The Influence of Calcium on the Junctional Complex between Oxyntic Cells in the Gastric Mucosa." Also attending the conference was Dr. Charles G. Rosa, Associate Professor of Anatomy.

ANESTHESIOLOGY

The Department of Anesthesiology was well represented at the annual meeting of the American Society of Anesthesiologists held at the Palmer House in Chicago, November 2-6, 1963. All three members of the house staff—Doctors Andracchio, DeLong, and Hess—attended the refresher course on the 2nd and 3rd of November. Dr. John Hess presented a paper entitled "Prevention of Epinephrine Induced Arrhythmias Using Adrenergic B-Receptor Blockade" on November 5. Dr. Harold F. Chase, Professor of Clinical Anesthesiology, and Miss Rose Marie Tomaselio, R.N., had a scientific exhibit entitled "Spinal Anesthesia—A Teaching Model", and Dr. Louis J. Hampton, Professor of Anesthesiology and Head of the Department, attended as Director of District #6, State of Pennsylvania.

Dr. W.E.B. Scott, Lecturer in Anesthesia, returned to Downpatrick, Ireland, November 1, 1963. Dr. W.H.F. Boyd of Edinborough gave a lecture entitled "Simpson and Chloroform" on October 10, 1962.

Dr. John Hess, presented a paper entitled "Reflex Hypotension from the Abdominal Wall" at the Residents Program of the New York Postgraduate Assembly in Anesthesia at the New York Hilton Hotel in New York City, December 11-13, 1963.

BIOCHEMISTRY

Dr. Abraham Cantarow (Jeff '24), Professor of Biochemistry and Head of the Department, was recently awarded the Silver Medal of the University of Helsinki in recognition of services rendered that institution.
DERMATOLOGY

Dr. John F. Wilson (Jeff '37), Associate Professor of Dermatology, addressed the Urologic Section of the Academy of Medicine of New Jersey on Thursday, January 16th at the Essex House Hotel, Newark, N. J. Dr. Wilson spoke on "Cutaneous Changes of the Male External Genitalia", a part of his investigational work on "Nonvenereal Diseases of the Genitals." Dr. Wilson is President of the Philadelphia Dermatological Society. He was recently elected to the Executive Committee of the Prisoner's Family Welfare Association of Philadelphia.

Dr. William J. Campbell, former Resident in Dermatology at Jefferson, is presently practicing Dermatology in Harrisburg, Pa.

MEDICINE

Dr. W. Paul Havens, Jr., Professor of Clinical Microbiology and Professor of Medicine, was Visiting Professor at the Volusia Academy of Medicine's Fall meeting November 11-13, 1963, in Daytona Beach, Florida. On November 12th, Dr. Havens spoke before the annual dinner meeting of the Volusia County Medical Society on "Diagnosis and Treatment of Hepatic Diseases."

Dr. Harold L. Israel (Jeff '34), Clinical Professor of Medicine, was moderator of a conference on "Treatment of Drug-Resistant Tuberculosis" held by the State Tuberculosis Hospitals at Mount Alto on October 24, 1963. He spoke on "Diagnostic Clues in Pulmonary Disease" at the annual teaching conference of the State University Downstate Medical Center in Brooklyn, N. Y., on October 30, 1963. On November 26th, Dr. Israel spoke on "Disease of the Bronchi" at St. Joseph's Hospital in Reading, Pa.

Dr. F. William Sunderman, Clinical Professor of Medicine and Director of the Division of Metabolic Research, delivered a lecture entitled "Advances in Diagnosis by Newer Chemical Procedures" and a Clinical Conference, "Pneumonitis and Pulmonary Carcinogenesis" before the Springfield Academy of Medicine on January 14, 1964.

Dr. C. Wilmer Wirts, Professor of Clinical Medicine, presented a paper on the "Evaluation and Management of Hiatal Hernia" at the annual meeting of the American College of Gastroenterology in Washington, D. C., October 21, 1963. He also participated in the postgraduate course of the St. Michaels Hospital in Trenton on October 30, presenting a paper entitled "Management of Pancreatitis." On November 8, 1963, Dr. Wirts participated in the Regional Meeting of the American College of Physicians in Philadelphia and presented with Dr. Franz Goldstein, Assistant Professor of Medicine, "The Evaluation and Management of Postgastrectomy Steatorrhea and Dumping."

Dr. Louis A. Kazal, Associate Professor of Medicine (Research Hematology), attended a conference on the Plasma Proteins and Cellular Elements of the Blood, held at the Protein Foundation on November 25 and 26, 1963, in Cambridge, Mass. The program of the conference was concerned with studies on blood clotting components and the application of immunochemical techniques in protein chemistry. On December 6, 7, and 8, he attended the International Symposium on Hemophilia in Washington, D. C., which was held under the auspices of the Medical Advisory Council of the National Hemophilia Foundation.

On October 25-26, 1963, he attended the 44th meeting of the Association of Clinical Scientists in Washington, D. C., and presented a paper entitled "Coagulation Proteins." The Association, under the directorship of Dr. F. William Sunderman, Sr., sponsored an Applied Seminar on Serum Proteins and Dysproteinemias. The seminar also sponsored demonstrations of clinical laboratory techniques. Participants from Jefferson included Dr. Philip H. Geisler, Assistant Professor of Pathology, who presented the "Determination of the Plasma Fibrinogen Titer"; Dr. William O. Reid, Research Associate in Medicine, "The Determination of the Serial Thrombin Time"; and Dr. Kazal, "Thrombin Time of Plasma."

The Duluth (Minn.) Chapter of the American Academy of General Practice in cooperation with Lederle Laboratories recently sponsored a symposium on medical and surgical problems in adolescents. Speakers included Dr. John H. Killough, Associate Professor of Medicine, and Dr. Joseph J. Rupp, Associate Professor of Clinical Medicine.

Dr. Joseph J. Rupp, also recently spoke on "Recognition of Obesity of Endocrine Origin" at a symposium on the special problems of overweight patients in Peoria,
III, November 14, 1963. From January 12-18, Dr. Rupp attended Family Doctor Week in Colorado Springs, Colo., where he was guest speaker at a symposium on obesity.

DR. EDWIN N. MURRAY, Assistant Professor of Clinical Medicine, has been appointed Heart Sunday Physician Co-chairman for the 1964 Camden (N. J.) County Heart Association fund drive.

DR. ELMER H. FUNK, Jr., Associate in Clinical Medicine, is Chairman of the year-round Diabetes Detection Drive, which was highlighted in the Philadelphia area with Diabetes Detection Week, November 17-23.

DR. EDMUND L. HOUSEL, Associate in Clinical Medicine, has been elected Vice President of the Philadelphia County Medical Society for 1964.

DR. LAIRD JACKSON, Instructor in Medicine, recently spoke at the Sidney Hillman Medical Center on "Sex Chromosomes and Autosomal Patterns."

DR. LUIGI A. PRINCIPATO, Instructor in Medicine, was Guest Speaker at a fat-controlled diet luncheon at Centenary Tabernacle Methodist Church in Camden on January 14. Dr. Principato spoke on medical aspects of a fat-controlled diet at the luncheon, which was sponsored by the Camden (N. J.) County Heart Association.

NEUROLOGY

DR. BERNARD J. ALPERS, Professor of Neurology and Head of the Department, was honored recently on successive nights in recognition of his 25th anniversary in that position. On November 9, 1963, he was honored by his department at Jefferson and by his former residents. More than 100 attended the dinner and many neurologists traveled considerable distances. Eight hold various professorial ranks at medical schools in Virginia, Connecticut, Colorado, Mississippi and Nebraska. On November 10th, Dr. Alpers was feted by the Physicians Committee of the Friends of the Hebrew University, of which he is a founding member.

DR. MARTIN M. MANDEL, Associate in Clinical Neurology, recently returned home from Lima, Peru, where he addressed the First Pan American Congress of Neurology on the subject of dermatomyositis and carcinoma of the ovary. The meeting was attended by a group of international specialists from South America and the United States.

OBSTETRICS AND GYNECOLOGY

DR. LEWIS C. SCHEFFY, Professor of Obstetrics and Gynecology, Emeritus, was voted a life membership in the Philadelphia Division of the American Cancer Society.

DR. GEORGE A. HAHN, Professor of Obstetrics and Gynecology has been appointed a member of the Advisory Committee on Local Arrangements for the Regional Meeting of the American College of Surgeons to be held in Philadelphia March 1965, and an Associate Examiner on the American Board of Obstetrics and Gynecology. He is also North American Chairman of the Pan American Medical Association. He spoke on "The Role of Public and Professional Education in the Control of Cancer" before the Volunteer Service Organization of the American Cancer Society; was a panelist on "Cancer of the Endometrium" at the District III meeting of the American College of Obstetricians and Gynecologists October 11th in Hershey, Pa.; spoke on "Lymphangiography and Its Significance in Gynecology" before the Nassau, New York, Obstetrical and Gynecological Society in Westbury, L. I., on November 18th; and presented a demonstration of "Lymphangiography and its Use in Gynecology" before the Junior Fellows of the
American College of Obstetricians and Gynecologists at Jefferson on December 7th. On January 22, 1964, Dr. Hahn spoke at a seminar on Obstetrics and Gynecology at Ohio Valley General Hospital in Pittsburgh.

**Dr. Warren R. Lang,** Professor of Obstetrics and Gynecology, spoke before the Camden (N. J.) County Medical Society on "Obstetrics and Gynecology in Saigon" on January 8, 1964. On November 14, 1963, he addressed the Cambria County Medical Society at the Sunnehanna Country Club, Johnstown, Pa., on "Vaginal Infections of the Mature and Immature Vagina." At a conference of The American Society of Cytology in Columbus, Ohio, November 7-9, 1963, Dr. Lang was elected Secretary-Treasurer of the Society. He was moderator of the morning session and presented a Round Table Luncheon on "Pregnancy Cytology", Dr. Eftychia Arampatzzi, Research Fellow in Obstetrics and Gynecology, and Dr. Abraham E. Rakoff, Professor of Obstetrics and Gynecology (Endocrinology) presented a paper at the same meeting entitled "Sex Chromatin Satellite Counts in Normal Pregnancy."

**Dr. Abraham E. Rakoff,** also spoke at the Sixth Councilor District of the Ohio State Medical Association's annual Medical Postgraduate Day in Warren, Ohio, on October 23, 1963. On January 22, 1964, he participated in a seminar on Obstetrics and Gynecology at Ohio Valley General Hospital in Pittsburgh.

**Dr. Mario A. Castallo,** Clinical Professor of Obstetrics and Gynecology, attended a Chapter Meeting of the American College of Surgeons at Santa Barbara, Calif., on January 17, 1964. On January 31st, he delivered a paper on "The Efficacy of Tubal Operative Procedures on Recanilization of Fallopian Tubes" at a meeting of the International Association for the Study of Sterility, in Acapulco; and on February 19th, he spoke before the Tucson Medical Center Auxiliary, Tucson, Ariz., on "Excerpts from Woman's Inside Story."

**Dr. Paul A. Bowers,** Assistant Professor of Obstetrics and Gynecology, spoke on "Ectopic Pregnancy" on September 24, 1963, at the Modern Obstetric Course of the Pennsylvania Hospital. On October 11, 1963, he participated in a panel on "Problems of the Urinary Tract" at the American College of Obstetricians and Gynecologists District #3 Meeting in Hershey, Pa. On October 31st, Dr. Bowers spoke in Baltimore, Md., at the Hopkins Club on "Terminal Results of Bleeding in Pregnancy."

**Dr. Alvin F. Goldfarb,** Assistant Professor of Obstetrics and Gynecology, was the main speaker at a postgraduate symposium on Obstetrics and Gynecology, sponsored by the Department of General Osteopathic Practice of Lancaster Osteopathic Hospital on October 24, 1963. Other 1963 speaking engagements included: October 1st, St. Lukes Hospital, Bethlehem, Pa., on "Recent Advances in Gynecology"; October 3rd, Touro Infirmary, New Orleans, on "Selection of a Progestogen in Therapeutics"; October 4th, Deans Hour, Louisiana State Medical School, on "The Role of Cythormonology in Menstrual Dysfunction"; October 7th, St. Mary's Hospital, Evansville, Ind., on "Progestogens in Gynecologic Therapeutics"; October 18th, Sims Society, Jefferson Medical College, on "Ovulation Control—Stimulation and Suppression"; November 27th, West Moreland Hospital, Greensburg, Pa., on "Recent Advances in the Management of Menstrual Dysfunction"; November 30th, Monmouth Medical Center, Long Branch, N. J., on "Advances in Menstrual Physiology"; December 7th, Junior Fellows Meeting of ACOG, Philadelphia, Guest Lectureship on "Ovulation Control—Its Stimulation and Suppression"; and December 9th, First Annual New Physicians Post Graduate Conference, Las Vegas, on "Pituitary Gonadol Suppression in Therapeutics."

**Dr. Leib J. Golub,** Assistant Professor of Obstetrics and Gynecology, is the newly-elected Secretary of the Philadelphia Division of the American Cancer Society.

**Dr. Adolphe T. Gregoire,** Assistant Professor of Obstetrics and Gynecology, was awarded a $38,000 grant from the Department of Health, Education, and Welfare. The grant is for a three year study of the biochemistry of vaginal secretions. The work is to be undertaken with the assistance of W. D. Johnson, M.D., from Wilmington, Del. The experimental material will be obtained from volunteers at the New Castle County Correctional Institution, Wilmington.

**OPHTHALMOLOGY**

**Dr. Thomas D. Duane,** Professor of Ophthalmology and Head of the Department, presented a paper with two associates entitled "Perimetric and Visual Acuity
Changes During Ophthalmodynamometry” at the College of Physicians of Philadelphia Section on Ophthalmology, December 19, 1963. He spoke before the Northampton County Branch, Pennsylvania Association for the Blind on January 15th. He spoke to the group on his research work of the past year.

**OTOLARYNGOLOGY**

**DR. FRED HARBERT**, Professor of Otolaryngology and Head of the Department, spoke before the 12th annual meeting of the Southeastern Pennsylvania Chapter of the American College of Surgeons on October 17, 1963.

**DR. JOSEPH SATALOFF**, Associate Professor of Otolaryngology, presented a paper on the “Relation of Osteosclerosis to Nerve Deafness” at the American Academy of Otolaryngology and Ophthalmology during October in New York. On November 20th he was the guest speaker at the New England Otolaryngological Society in Boston. He discussed occupational deafness. Dr. Sataloff was visiting guest lecturer on January 15th, in the Department of Otology of the Massachusetts Eye and Ear Infirmary. He gave two lectures on the diagnosis of deafness and the treatment of sensorineural hearing impairment.

**DR. ELI B. HALPERN**, Assistant in Otolaryngology, has been appointed to the medical staff of Philadelphia General Hospital as Assistant Attending Physician in Otolaryngology.

**ORTHOPEDIC SURGERY**

**DR. ANTHONY F. DE PALMA**, James Edwards Professor of Orthopedic Surgery and Head of the Department, participated in a panel discussion at the 14th annual Eastern Pennsylvania Premedical Conference of Alpha Epsilon Delta, sponsored by La Salle College and the University of Pennsylvania, on Saturday, November 9.

**DR. JOHN J. GARTLAND**, Assistant Professor of Orthopedic Surgery, participated in the Audio-Visual Program at the meeting of the American Academy of Orthopedic Surgeons held in Chicago, Ill., January 18-23, 1964. He presented his movie, made with Dr. Gerald Callery, “Posterior Tibial Transplant in the Treatment of Recurrent Club Foot”. The movie was accepted for inclusion in the Academy’s permanent film library.

**DR. JOSEPH J. TOLAND**, III, Instructor in Orthopedic Surgery, attended the meeting of the American College of Surgeons on September 11, 1963, and the meeting of the Pennsylvania State Orthopaedic Society in Pittsburgh on October 11, 1963. He attended the American Fracture Association meeting in Miami, Fla., November 8-14. From November 19 to 23, Dr. Toland was at New York University taking a course in the Surgery of Arthritis.

**DR. JAMES M. HUNTER**, Instructor in Orthopedic Surgery, discussed a film, “Functional Anatomy of the Hand”, and presented a talk entitled “The Role of the Therapist in Hand Rehabilitation” before the American Society of Physical Therapists on December 10th at Cooper Hospital. On January 6th he presented a paper entitled “The Early Development and Application of an Artificial Tendon Prosthesis” at a meeting of the Philadelphia Academy of Surgery. He was introduced by Dr. DePalma.

**PEDIATRICS**

**DR. HANS G. KEITEL**, Professor of Pediatrics and Head of the Department, presented an exhibit entitled “Breast Nodules in Infants” before the annual meeting of the American Academy of Pediatrics in Chicago, October 13-16, 1963. The meeting was also attended by Dr. MORTON ROSENBERG, Associate in Pediatrics.

**DR. KEITH HAMMOND**, Assistant Professor of Pediatrics, participated in a Seminar on Medical Education at the annual meeting of the Association of American Medical Colleges, October 29-31, 1963. He also attended
sessions at which his study of “Pediatric Teaching in a Learning Disability Clinic” appeared in the abstracts of proceedings.

PHYSIOLOGY

Dr. June N. Barker, Assistant Professor of Physiology, spoke at the U. S. Army Research Institute, Natick, Mass., January 6, 1964, on “Fetal Cerebral Oxygenation.”

PREVENTIVE MEDICINE

Dr. E. Harold Hinman, Professor of Preventive Medicine and Head of the Department, has been named President-elect of the American Society of Tropical Medicine and Hygiene. Dr. Hinman recently served a month as WHO Consultant in Northern Rhodesia in connection with the Kafue River Basin Survey. This is a four year study being undertaken under the joint auspices of FAO and the Government of Northern Rhodesia. A report “Health Implications of the Kafue River Basin Development with Special Reference to Bilharziasis” was presented in Geneva to the WHO on December 9, 1963.

Dr. C. Earl Albrecht, Professor of Preventive Medicine (Public Health) has been named Chairman of the program committee for the Pennsylvania Health Council’s annual meeting on March 5th and 6th in Bala-Cynwyd.

Dr. Heinrich Brieger, Professor of Preventive Medicine (Occupational Medicine), has been elected a Member of the Committee on Employee Health and Safety of the National Association of Manufacturers.

PSYCHIATRY

Dr. Floyd S. Cornelison, Jr., Professor of Psychiatry and Head of the Department, represented Jefferson at the MEND Symposium on “Organizing Emergency Health Services” held in Dallas, Texas, October 17-18. On October 25th, Dr. Cornelison attended the American Psychiatric Association fall committee meetings, Washington, D. C. He is a member of the Committee on Academic Education and the Committee on Religion and Psychiatry.

Dr. Baldwin L. Keyes, Professor of Psychiatry, Emeritus, lectured on “Classification of Neuroses and Psychoses; Types of Psychiatric Patients Suitable for General Hospitals” at the Northeast Regional Mental Health Conference in Scranton on November 6.

Dr. John E. Davis, Professor of Psychiatry, has been named Chairman of the Subcommittee on Technical Review and Program Design which is an integral part of the Governor’s Mental Health Advisory Planning Committee. He was the keynote speaker at the Second Delaware Mental Hospital Workshop, Wesley College, Dover, Delaware, January 23, 1964. He spoke on “Asylums or Hospitals.” Dr. Davis also served as a delegate from Pennsylvania to the Regional Conference on In-Service Training in a State Mental Health Program at Saratoga Springs, N. Y., from November 19-22, 1963. The Conference was sponsored by the Department of Health, Education, and Welfare of Region II including the States of Delaware, New Jersey, New York, Pennsylvania and the Training Branch of the National Institute of Mental Health.

Dr. Zygmunt A. Piotrowski, Professor of Psychiatry (Psychology), recently delivered a series of lectures at the Universidad Nacional Autónoma de Mexico in Mexico City. His lectures included material on personality and tests in neuropsychiatry (diagnosis, prognosis, and personality description).

Dr. Paul J. Poinsard, Clinical Professor of Psychiatry, acted as Conference Director at the Northeast Regional Mental Health Conference held in Scranton, Pa., November 6.

Dr. Claus B. Bahnson, Associate Professor of Psychiatry (Psychology), attended the Third International Conference on Psychosomatic Aspects of Neoplastic Disease in Cambridge, England, this past July. While there, he delivered two papers which he co-authored: “Cancer as an Alternative to Psychosis: A Theoretical Model of Somatic and Psychologic Regression” and “Denial and Repression of Primitive Impulses and of Disturbing Emotions in Patients with Malignant Neoplasm.” He also attended the Cardio-Vascular Disease Conference in Chicago February 1-2, 1964. The conference was sponsored by the American Heart Association. Dr. Bahnson and Dr. James L. Framo, Instructor in Psychiatry, were recently awarded diplomas from the American Board of Examiners in Professional Psychology, Inc.
DR. WALTER W. BAKER, Associate Professor of Pharmacology and Psychiatry (Neuropharmacology), has been named Senior Scientist in Neuropharmacology at the Eastern Pennsylvania Psychiatric Institute.

DR. IVAN BOZORMENYI-NAGY, Assistant Professor of Psychiatry, presented a paper at the P.I.A.P. Workshop in September entitled "Marital Conflicts in the Psychotherapy of Families of Schizophrenics."

DR. HARRY R. DRAPER, Assistant Professor of Clinical Psychiatry, was the principal speaker at a meeting of the Raleigh (W. Va.) County Medical Society in November. Dr. Draper spoke on "The Recognition and Management of the Depressed Patient in Office Practice."

RADIOLOGY

DR. PHILIP J. HODES, Professor of Radiology and Head of the Department, was guest speaker at a meeting of the newly-formed Junior Auxiliary Kain Moses Group for Cancer Research on December 9. On December 7th, Dr. Hodes addressed a meeting of the California Academy of Medicine in San Francisco on "The Lymphatics—A Third Component of the Vascular System." During the week of January 1st, Dr. Hodes served as Visiting Professor at the University of California, San Francisco Medical Center. He gave several lectures to the staff and area physicians while at the University and participated in the teaching conferences at Moffitt Hospital.

DR. ROY R. GREENING, Professor of Radiology, recently delivered a lecture entitled "Examinations of the Gall Bladder" at the Veterans Administration Hospital in Salem, Virginia.

DR. GERALD D. DODD, Clinical Professor of Radiology, spoke on patterns of spread of breast cancer and its X-ray detection at a symposium on Breast Cancer during the annual meetings of the Radiologic Society of North America in Chicago, November 18-22. During January Dr. Dodd went on a speaking tour to several medical centers in the West. He spoke in Tucson and Phoenix, Arizona, on "Recent Advances in Gastrointestinal Roentgenography" and "Lymphangiography" and in Houston, Texas, on "Fluorodensimetry." On January 27th, he was guest lecturer at a meeting of the Cleveland Radiologic Society in Cleveland, Ohio.

DR. ROBERT O. GORSON, Associate Professor of Radiology (Medical Physics), has been elected to the American Board of Health Physics. He is one of the five board members selected from all over the country. The American Board of Health Physics is a national organization which sets the safety standards for all groups working with radioactive materials both in industry and medicine. Dr. Gorson also is Chairman of the National Committee on Radiation Protection of the American Board of Radiology.

DR. JACK EDEIKEN, Assistant Professor of Radiology, conducted two refresher courses for practicing radiologists at the annual convention of the Radiological Society of North America at its meeting in Chicago, November 18-22.

DR. SOLVE WELIN, Professor of Radiology at Malmo University in Sweden was recently the guest of the Radiology Department at Jefferson. Dr. Welin, an internationally honored figure in the field of cancer diagnosis, was invited to this country as a featured speaker at the Annual Penrose Cancer Conference in Colorado Springs, Colo. While in Philadelphia, Dr. Welin prepared for the symposium and gave several teaching sessions for the staff and residents.

SURGERY

DR. JOHN H. GIBBON, JR., The Samuel D. Gross Professor of Surgery and Head of the Department, was elected President of the College of Physicians of Philadelphia on January 8, 1964. His father, Dr. John H. Gibbon, was President of the College of Physicians from 1928 to 1931; they are the only father and son in the history of the College to hold the office of President. The College was organized in 1787 and granted its charter in 1789. The intervening year, 1788, saw the election of Dr. Gibbon's great-great-grandfather, Dr. John H. Gibbon.

In December Dr. and Mrs. Gibbon spent a week in the Panama Canal Zone. Dr. Gibbon went at the request of Col. Robert J. Kamish, Health Director of the Canal Zone Government, to inspect the surgical services of the Gorgas and the Coco Solo Hospitals. While in the Canal Zone, Dr. and Mrs. Gibbon were taken on a special tour through the Canal. On this trip they were accompanied by many of the health officials and members of the Faculty of the University of Panama, among them Dr. Bernardino Gonzalez-Ruiz, Panama's Minister...
of Labor, Social Welfare and Public Health and Dr. Antonio Gonzalez-Revilla, Dean of the Medical School.

DR. KENNETH E. FRY, Professor of Clinical Surgery, spoke at the third in a series of postgraduate medical seminars January 18, 1964, at Conemaugh Valley Memorial Hospital. The topic of Dr. Fry's talk was "Differential Diagnosis of Abdominal Pain."

DR. THOMAS F. NEALON, JR., Professor of Surgery, was Visiting Professor at the Lovelace Clinic, Albuquerque, New Mexico, December 12-13. While there he spoke on "The Use of Ion Exchange Resins to Correct the Abnormal Electrolyte Concentrations in Bank Blood Prior to Transfusion" and on "Treatment of Bronchogenic Carcinoma". January 27-29 Dr. Nealon attended a meeting of the American College of Surgeons in Baltimore. On February 7 he spoke at the VA Hospital in Trenton, N.J., on "Causalgia". And from February 27th to the 29th he attended a meeting of the New York Trudeau Society in West Point, N.Y., where he participated in a discussion on Chest Trauma.

DR. WALTER F. BALLINGER, Associate Professor of Surgery, has recently been elected to membership in the Society of Clinical Surgery. On December 3rd Dr. Ballinger spoke at the University of Oregon School of Medicine in Portland on "Vagotomy and the Small Intestines," on December 4th he showed a film on "Repair of Small Blood Vessels Using Gelatin Tubes" before the Clinical Session of the AMA in Portland, and on December 10th he spoke on "Anastomosis of Small Blood Vessels" at Grand Rounds, Department of Surgery of the University of Pennsylvania.

DR. RICHARD J. CHODOFF, Instructor in Surgery, spent the month of February at a jungle hospital in Malaya under the auspices of Medico-CARE. Dr. Chodoff was the only surgeon in a large area and working with fairly primitive facilities. Dr. Chodoff planned to visit Hong Kong, Tokyo, and Singapore on the way to Malaya and Thailand, India, Russia, and Denmark on the return trip.

DR. HERBERT LIPSHUTZ, Associate in Surgery (Plastic and Reconstructive), spent the first two months of 1964 in India. He received a special Rehabilitation Research Fellowship from the U. S. Department of Health, Education, and Welfare to conduct rehabilitation research in leprosy at the Christian Medical College in Vellore. This project included work in the "reconstruction" of these patients, under the direction of Dr. Paul W. Brand.

UROLOGY

DR. THEODORE R. FETTER, Nathan Lewis Hatfield Professor of Urology and Head of the Department, has been honored by an invitation to membership in the Societe Internationale D'Urologie and will be formally received into the Society in August 1964 in London, England.

DR. FETTER and a number of his staff members attended and actively participated in the Mid-Atlantic Section Meeting of the American Urological Association, Inc., at the Homestead, Hot Springs, Va., November 13-16. Dr. Fetter is a member of the Executive Committee of the Mid-Atlantic Section. DR. JOSEPH L. WILKERSON, Associate in Urology, was Chairman of the Registration Committee and DR. WILLARD M. DRAKE, JR., Assistant Professor of Urology, was a member of the committee. DR. JULES H. BOGAEV, Assistant Professor of Urology, presented and narrated a film on "Renal Homo-Transplantation". The film was prepared by Drs. Bogaev, Fetter, and PAUL D. ZIMSKIND, Research Associate in Urology. Dr. Zimskind delivered a paper entitled "Experimental Production of Hydronephrosis by the Induction of an Aperistaltic Segment of the Ureter", written by Drs. Zimskind, Fetter, and M. H. F. FRIEDMAN, Professor of Physiology and Head of the Department.

DR. WILLARD M. DRAKE, JR., delivered a paper on "Catheter Care" at the New Jersey Orthopedic Society Meeting, Cooper Hospital, Camden, N. J., during April 1965.

DR. PAUL D. ZIMSKIND participated in the program of the American Academy of Pediatrics, Committee on Urology Meeting, in Chicago, Ill., on October 6, 1963. He read a paper entitled "Observations on Reversal Ureterobesical Reflux".

"Problem of Renal Transplant" was presented by the Departments of Medicine, Surgery and Urology at the September meeting of the Philadelphia Urological Society, September 23, 1963, at the Philadelphia College of Physicians.

The Alumni Association and members of the Faculty extend their sincerest sympathy to Dr. Edmund L. Housel and Dr. Nicholas R. Varano on the deaths of their wives early this month.
ONLY $59,622.17 TO GO!

Only $59,622.17 to go! For three years we have set a goal of $175,000 for our Annual Giving Fund Drive. We have come close—$162,372 last year—but we haven’t hit our target yet.

We think that this is the year. Three months remain in the Drive and if each of you will consider, carefully and seriously, the following points and then act accordingly, we can reach and pass our $175,000 goal.

First, consider what you want Jefferson to be—now and in the future. Are we to be a leader among medical schools? Are we to undertake new ventures—attract top flight faculty and superior students? Are we to explore new frontiers in research? Or—must we settle for less than excellence.

Second, consider realistically Jefferson’s financial resources. Tuition must be raised again next year but it will still not be enough, and each time tuition goes up, we need new funds for scholarships and loans. Endowment income continues to “shrink”, as it were, since dollars do not buy the same amount of materials and services they once did. State aid is, of course, a very important source of income but tuition, endowment revenue and state appropriations still do not provide sufficient income to operate a first-rate, progressive medical school.

The Alumni Annual Giving Fund bridges this gap and is the only source of “venture capital” which enables us to keep pace with the future. It is the major source of unrestricted funds.

Third, consider very seriously what you feel is your personal obligation to Jefferson as one of her sons. Jefferson has earned its place as an outstanding medical college not because of its beautiful buildings or its lovely campus and only in part because of a superior faculty.

Her image has been created because of the caliber of the doctors she has trained. It has been created by you, her Alumni. In turn, you have been acclaimed and have gained respect, affection and material goods because of the medical education you received at Jefferson.

We sincerely believe you owe a debt to your College and that you have a moral obligation to help to secure her future progress. We hope that, having considered the case, you will agree with us and that you will contribute to Jefferson to the utmost of your financial ability.

This is the year to change that “giving pattern”. If you usually write a check for $50.00, make it for $100.00. If you have already sent your “Century Club” gift, give thought to sending another contribution in this new calendar year. “Token giving” is entirely acceptable from those on retirement incomes and from newly-graduated classes, but much more substantial evidences of loyalty and affection should be expected from Alumni in their peak income years.

We need increased gifts and we need “new” gifts from those of you who have not participated in prior Drives.

The total of $115,377.83 reported in the first paragraph was given by only 2,418, or 34.7%, of our Alumni body. If you are among the “unheard from” 65.3%, please take immediate action for, to be really successful, the Drive needs help from every Alumnus.

We are convinced that the “giving potential” of Jefferson graduates is greater even than the goal we have set. Let us prove to Jefferson and to other medical schools that our Alumni stand second to none in support of their Alma Mater.

Send you check to your Class Agent NOW.

KENNETH E. FRY, M.D., Chairman
Annual Giving Fund Committee
Jefferson Forms New Affiliation

The Department of Psychiatry of Jefferson Medical College and the Delaware State Hospital, Farnhurst, Delaware, have formed an affiliation. The announcement was made by the boards of trustees of the two institutions.

The affiliation has a three-fold objective: research in psychiatry, the treatment of the mentally ill, and the education of medical students, psychiatric residents and others interested in human behavior.

Priority will be given to an intensification of a research approach in which Dr. Floyd S. Cornelison, Jr., Professor of Psychiatry and Head of the Department, has been one of the early investigators. The technique involves the taking of sound motion pictures of patients at measured intervals.

"The objective is to study the patient's reactions to his own self-image," Dr. Cornelison states. "This approach has frequently produced promising results, both at Boston University, where it was first used, and at the University of Oklahoma. Recently a pilot program was begun at the Eastern Pennsylvania Psychiatric Institute, where the Department of Psychiatry at Jefferson is now carrying on a research program.

"However, the scope of these studies so far has not been large enough to afford an adequate sample. Delaware State, which has a 1500-bed capacity, offers a sufficient population of voluntary participants to provide a true focus of study of the various aspects of human behavior during mental illness."

Participants in Tragedy

Two Jefferson Alumni played parts in the tragedy which unfolded on November 22, 1963. Dr. James P. Boland, '56, a Resident in Neurosurgery at Parkland Memorial Hospital in Dallas, arrived too late in the emergency room there to assist in the treatment of the late President John Fitzgerald Kennedy, but he did number among the team of doctors who were able to save the life of Texas' Governor John B. Connolly. Dr. Boland also participated in the November 24th treatment of Lee H. Oswald, alleged assassin of the President. Like President Kennedy, Oswald too was beyond assistance.

Dr. John T. English, '58, assisted Sargent Shriver in arranging the funeral of the late President. Mr. Shriver, Director of the Peace Corps and brother-in-law of Mr. Kennedy, drew on advice of the Pentagon, State Department, White House, Military District of Washington, and friends in the planning. Dr. English, Chief Psychiatrist of the Peace Corps, is a personal friend of Mr. Shriver.
MEMBERS of the Jefferson Medical College Faculty Wives Club voted to contribute $500.00 to the Building Fund to be used for the purchase of equipment for the student Commons Building. Mrs. Thaddeus Montgomery presented the money to Dean William A. Sodeman at a recent luncheon meeting of the Club.

The Warwick Hotel will be the site of the Club's annual Spring Luncheon and Fashion Show to be held on Thursday, April 2. Mrs. Herbert Luscombe, President, has announced that Mrs. John J. O'Keefe will be Chairman for the affair, which will feature a fashion show by the Esther Pomerantz Shop. Mrs. C. Wilmer Wirts, Mrs. Sherman Eger, and Mrs. Ralph Carabasi will assist Mrs. O'Keefe.

Alumni Participate in Tumor Day Program

Jefferson Alumni were prominent in the Second Annual Tumor Day Program on "Pelvic Malignancy" at Misericordia Hospital, Wednesday, November 13, 1963. Photo shows (from left) Dr. J. Edward Lynch (Jeff '35), Director of Obstetrics and Gynecology, Misericordia Hospital; Dr. Saul Gusberg, Professor of Obstetrics and Gynecology and Director of the Department, Mount Sinai Hospital, New York; Sister Marie Immaculata, C.R.S.M., Administrator, Misericordia Hospital; Dr. George Hahn, Professor of Obstetrics and Gynecology, Jefferson Medical College; Dr. C. Jules Rominger (Jeff '48), Director of the Department of Radiology and Chairman of the Tumor Program at Misericordia; and Dr. Joseph A. Hesch (Jeff '34), Medical Director, Misericordia Hospital.
Staff Presents Portrait of Dr. McDermott

The Medical Staff of Our Lady of Lourdes Hospital, Camden, N.J., recently presented the hospital with a portrait of Dr. Vincent T. McDermott (Jeff '26), shown at right with Mrs. McDermott. Making the presentation are Sister M. Paracleta, OSF, Administrator, and Dr. James Herron, Staff President.

New Arrivals

THE Alumni Staff is pleased to welcome the addition of two honorary associates, in absentia, and to offer congratulations to the two new mothers. October 24, 1963, heralded the arrival of Kenneth Vincent, who at birth weighed six pounds, ten ounces, and measured 20 inches long. The green-eyed baby boy is the son of Mrs. Joan Schott, a familiar face in the Alumni Office. A month later on November 24th, former BULLETIN Editor Christine Campbell Brown gave birth to a four pound, fifteen ounce baby girl, Kathleen Ann, who measured 19 inches short. The proud mothers report that their children have already become fast friends—they even exchanged foot-printed cards on Valentine's Day!

In memory of Robert M. McClellan, '79 by J. Lawrence Evans, '10; J. Lawrence Evans, Jr., '37; and Robert L. Evans, '52.

In memory of Walter R. Krauss, by Theo W. O'Brien.

† Deceased.
CHAPTER NOTES

OHIO

A get-together is in store for Jefferson Alumni—their wives and guests—who plan to attend the 1964 Annual Meeting of the Ohio State Medical Association, in Columbus from April 28 to May 1. The 13th annual dinner meeting of the Ohio group will be held in the University Club of Columbus, 40 South Third Street, on Thursday, April 30th.

Activities will begin with a “fellowship hour” at 6 o’clock, followed by dinner at 7:30, and “Brief Speeches about Jeff” at 8:30 p.m. Alumni are urged to attend any portion of the program that adapts to their schedule. However, those who plan to attend the dinner are requested to secure reservations in advance, if possible, through: Dr. “Jim” Ruppersberg, 336 East State Street, Columbus, 15. Tickets may also be purchased at the door on April 30th.

CONNECTICUT

THE Connecticut Chapter held its annual Dinner Meeting on November 21, 1963, at the Statler Hilton Hotel in Hartford. Seventy-six alumni and their wives attended, including some from Massachusetts. Dr. Benjamin Haskell, then President of the Alumni Association, and Dr. George Willauer, Past President, brought news of the College and showed a film strip of the proposed building program.

Connecticut Chapter members elected the following officers for the current year: Dr. Gustav W. Anderson, '46, President; Dr. J. Richard Lenehan, '37, President-elect; and Dr. Maurice R. Turcotte, '50, Secretary-Treasurer.

WASHINGTON, D.C.

THE annual formal dinner dance of the Washington, D. C. Chapter of the Jefferson Alumni Association was held Saturday evening, January 18th, at the Army-Navy Town Club. The Chapter was pleased to have with them Dr. and Mrs. John Gibbon and Dr. and Mrs. Benjamin Haskell.

Dr. Haskell and Dr. Gibbon brought the group up to date on the rapidly changing events at Jefferson and plans for the future. Dr. Gibbon showed a series of slides demonstrating the considerable changes in the physical status of Jefferson. He also gave an account of his recent extended tour of Panama. Since this trip preceded the recent upheaval by such a relatively short interval, it was of marked interest to all and resulted in a rather lengthy question period. The group is grateful to Drs. Gibbon and Haskell who interrupted their busy schedules to attend.

Those present at the event included Drs. Richard Bauer, Walter J. Brennan, Frank A. Carroll, Martin Cooperman, Adolph A. Friedman (President), Seymour Goldblatt, Stacey Rollins, Jerome Sandler, James P. Scanlon, William Sheely (Secretary), Arthur Sims (Vice President), Simon C. Weiner (Treasurer), Frederick H. Wilhelm, Jack Woodside, and their wives.

SAN FRANCISCO

THE Clift Hotel in San Francisco was the site of the October 30th Dinner Meeting of the California Chapter. Some 80 people heard guest speaker Dr. John H. Gibbon, Jr., discuss the College’s expansion plans, and viewed slide illustrations of the proposed buildings. Dr. John T. Douglas, '51, and Dr. Clyde C. Greene, '41, organized the affair.

Photo shows Alumni and their wives at the Connecticut Chapter’s Annual Dinner Meeting.
THE Hawaii Chapter had a dinner gathering on December 13, 1963, which was attended by 53 persons. Guests included Dr. and Mrs. Joseph Johnson '63, and Dr. and Mrs. Arnold Hollander '62, who spoke to the group on Jefferson activities. Dr. Johnson is an Intern at Queens Hospital and Dr. Hollander is a Resident at Tripler Army Hospital.

THE Northern New Jersey Chapter of the Jefferson Alumni Association held its annual meeting on February 19, 1964. Despite a bad snowstorm, 24 members attended the meeting held at the Essex Club in Newark, N.J. After a congenial hour of cocktails, hors d’oeuvres and small talk, an excellent dinner was served. Chapter President Dr. Robert Rich then presented the two faculty guests. Dr. Thomas Nealon, Professor of Surgery, gave an informal talk on the Jefferson Building Fund Drive, its goals and its progress. Dr. Benjamin Haskell, Clinical Professor of Surgery (Proctology), delivered a witty talk on activities, problems and their solutions now going on at Jefferson. A brief business meeting followed. New officers who were nominated and elected for a two-year term include: Dr. Roy Forsberg '45, President; Dr. James Flanagan '41, Vice President; and Dr. Frederick C. DeTroia '35, Secretary-Treasurer. An eulogy was then presented for Dr. Lee Hughes who died in January, 1964. The chapter's next meeting will be held in October, 1964.

Dr. Ochsner Speaks on Smoking

"TOBACCO drieth the brain, dimmeth the sight, vitiateth the smell, hurteth the stomach, destroyeth the concoction, disturbeth the humors and spirits, corrupteth the breath, induceth a trembling of the limbs, exciscateth the windpipe and lungs and liver, annoyeth the milt, scorchedeth the heart and causeth the blood to be adjusted," was one of the quotes with which Dr. Alton Ochsner prefaced his speech on "The Increasing Menace of Bronchogenic Cancer." Dr. Ochsner spoke before an estimated 600 doctors and medical students Friday, January 10th at Jefferson. The occasion was the first lecture of the Martin E. Rehfuss Series, which honors Dr. Rehfuss, Professor of Clinical Medicine, Emeritus.

Dr. Ochsner stated, "Bronchogenic cancer, which was extremely rare 30 years ago, has become the most frequent of all cancers. Deaths from bronchogenic cancers rose sharply from 2500 in 1930 to more than 40,000 in 1962. This last figure is approximately the same as the annual number of deaths caused by automobile accidents in the United States."

Dr. Ochsner, former Chairman of the Department of Surgery at Tulane University Medical School, first became convinced of the relationship between cigarette smoking and lung cancer in 1936. He noticed that his lung cancer cases were increasing, and that most of the male patients smoked cigarettes.

He said that a recent report of the American Cancer Society stated, "More than 25 scientific studies in ten countries have shown that the risk of developing lung cancer is directly related to the number of cigarettes smoked.

"These retrospective studies, including our own, have been criticized because it is maintained that there is a certain amount of bias if one starts out with a preselected group, such as patients with bronchogenic cancer. It was because of this that the original study undertaken by the American Cancer Society was started in 1950 at approximately the same time as the study by Doll and Hill for the British Medical Research Council. These studies consisted of interviewing a large number of healthy persons concerning their smoking habits and following them for a number of years to determine what happens to them.

"In the American Cancer Society study reported by Hammond and Horn somewhat less than 200,000 men between the ages of 50 and 70 were interviewed by approximately 22,000 volunteer workers. Each of the men
filled out an elaborate questionnaire concerning his smoking habits, i.e., whether he smoked at all, what he smoked, how much he smoked, and if he had ever discontinued. The men were followed for about six years, during which time, approximately 12,000 died.

"A tremendous difference in the incidence of bronchogenic cancer according to the smoking history was found. Also, the death rate increased with the amount smoked. It was almost like a mileage ticket. One could determine how soon cancer of the lung was going to develop by the amount one smoked. The American Cancer Society Studies further showed that, contrary to previous statements, discontinuance of smoking is of value in preventing bronchogenic cancer, and it was demonstrated that the longer the time elapsed since one discontinued smoking, the less chance there was of developing cancer. These studies demonstrate that precancerous changes, which are caused by smoking, are reversible if one totally abstains from smoking, but there does come a time when the changes are irreversible. Unfortunately, it is impossible for the clinician to determine when that time is reached. The American Cancer Society study further showed that the over-all death rate from all causes was 105 per cent greater among cigarette smokers than among non-smokers. The death rate from coronary heart disease was 115 per cent greater among cigarette smokers than among non-smokers, and the death rate from cancer of the lung was 800 per cent higher among cigarette smokers than among non-smokers." The nearly identical results of the Doll and Hill study offered further proof against cigarettes."

"Many people, however, are disregarding the facts these studies have brought to light on the grounds that the facts are merely "statistical." Dr. Ochsner countered this fallacy, pointing out, "Recently thalidomide, which had been widely used in Europe and less widely in the United States, was withdrawn from the market because there was 'only statistical evidence' that its use caused deformities in the unborn fetus."

If people stopped smoking, he noted, tobacco taxes of $10 billion a year would be lost. He said he believed this loss would be quickly offset by reductions in health care costs, and an end to losses from fires caused by smoking. He suggested strict governmental control of tobacco and still stricter control of cigarette advertising.
Positions Available

GENERAL Practitioner is wanted to take over a practice in a small town adjacent to a city of 100,000 population in Northeastern Pennsylvania. The position is available immediately; the former doctor has left to specialize. There is an eight-room house with a four-room office attached by a breezeway. The practice is busy, varied and growing; 20 minutes drive to several open-staffed hospitals. All the recreational facilities of the Poconos are nearby.

GENERAL Practitioner, Class of S '44, needs an associate in busy practice in New Jersey community, ten miles from Philadelphia. Local hospital privileges, including obstetrics.

Jefferson graduate, Class of '33, is seeking a recent graduate to assist him in a General Practice in Queens, New York. This is an excellent opportunity.

A group with a new hospital and a new clinic building near Oklahoma City, Oklahoma, is swamped with work and desperately in need of four to five new young partners. Excellent opportunity for ambitious young doctors.

OPENING for one or two General Practitioners to take over a small general hospital in a mining area in Cambria County, Pennsylvania. Plenty of work and no investment necessary. Good opportunity for one completing General Practice Residency.

OCLEAN CITY, Maryland, and Berlin, Maryland, (8 miles away) are in desperate need of a General Practitioner since the death of Dr. N. R. Thomas, Jeff '39, on October 19. This is an excellent opportunity with a well-equipped office. Any arrangement which is suitable to the applicant will be set up.

Jefferson Alumnus, Class of '28, is planning to retire very soon and is seeking a physician to take over his very large General Practice in a Philadelphia suburb. No financial investment is required.

A general surgeon, capable of responsibility, willing to do obstetrics and considerable volume of general medicine is needed in a small New Hampshire town. It is a private hospital, 26 bed medical and surgical capacity, and has four OB beds. The average earning in gross receipts for a board certified surgeon from 1957 to 1963 have ranged from $19,000 to $25,000 per year. One other doctor in town is a general practitioner.

A private hospital, 25 minutes from Boston, with a capacity of 30 patients has an opening for a resident Psychiatrist. There will be time to engage in some private practice. Salary is open and dependent upon training and experience. Must be Board Eligible and have a Massachusetts license or the qualifications to secure one promptly.

A small community about 30 miles southeast of Warren, Pennsylvania, is looking for a General Practitioner to take over the practice of a physician who is leaving, due to poor health, for a less-demanding position. He has a relatively new office, well-equipped, with an apartment overhead. Staff privileges are available at hospitals with modern additions about eight miles away.

GENERAL Practitioner for South Jersey shore town is badly needed since the closest physician is four miles away. Year round population of 4,000 (mostly geriatrics). You will draw from a year round population of 10,000 in the surrounding area. During the summer months, the population swells to over 15,000 and the Lewes, Delaware-Cape May ferry, scheduled for operation in the summer of 1964, will increase the potential of the area greatly.

Positions Wanted

Jefferson Alumnus, Class of '56, is interested in locating himself with another partner or group of partners in the practice of General Surgery. Geographical location is of no consequence, if the opportunity is good.

Doctor's office for sale or lease, General Practice location for ten years in Riverside, N. J. Office is fully equipped.
50th Reunion—Class of 1914
Roy Deck, M.D.
1519 Valley Road
Lancaster, Pennsylvania
C. Hayden Phillips
Demunds Road
Dallas, Pennsylvania

There will be a luncheon for members of the Class of 1914 at a center city hotel on Wednesday June 12th. The place will be announced in the May issue of the BULLETIN. There will also be a hospitality suite at the hotel where the dinner will be held.

45th Reunion—Class of 1919
Milton B. Emanuel, M.D.
625 Vine Street
Philadelphia 6, Pennsylvania

What may turn out as the biggest class reunion in 45 years will be held at one of the leading hotels in Philadelphia. To date (January 1964) 22 classmates and their wives will attend on June 10, 1964. Everything will be done to make a gala occasion for our ladies—a theater party is in store for them, while the men attend the Alumni banquet on the 11th. You will hear more by mail.

40th Reunion—Class of 1924
R. K. Y. Dusinberre, M.D.
257 West Ridge Avenue
State College, Pennsylvania

Those celebrating their 40th Anniversary will enjoy a dinner on Wednesday June 10th. The dinner will be held at the Barclay Hotel in Philadelphia.

35th Reunion—Class of 1929
Alfred E. Troncelliti, M.D.
1522 Wynnewood Road
Ardmore, Pennsylvania

The Reunion Chairman is presently formulating plans for an enthusiastic 35th reunion. A letter will follow, but meanwhile, Dr. Troncelliti would like everyone to make plans to attend.

30th Reunion—Class of 1934
James J. Ryan, M.D.
219 Righters Mill Road
Penn Valley
Narbeth, Pa.
Joe H. Coley, M.D.
401 N.W. 14th St.
Oklahoma City 3, Oklahoma
Louis K. Collins, M.D.
Glassboro, N.J.

The Committee is making arrangements for a dinner-dance to be held on June 10, 1964. Full details will be sent to class members very soon.

25th Reunion—Class of 1939
John H. Hodges, M.D.
Jefferson Medical College
1025 Walnut Street
Philadelphia 7, Pennsylvania

Reunion plans for the Class of '39 include a dinner dance in the Mirage Room of the Barclay Hotel on June 10th. There will also be a cocktail party on June 11, preceding the Alumni Banquet.

20th Reunion—Class of J'44
Robert L. Breckenridge, M.D.
748 Baeder Road
Jenkintown, Pennsylvania

The J'44 Class Reunion Committee has completed plans for a wonderful reunion to be held at the Marriott Motor Hotel on June 10th. A dinner dance beginning with cocktails at 6:30 p.m. will highlight the event. For those wishing to relax and have a swim prior to the dinner, a private lounge with a bar and adjacent rooms for changing clothes will be available. Sam Kron will
PLAN ACTIVITIES

represent the Class as speaker for the Class Reunion Day in the Auditorium prior to the Dean’s Luncheon. He will talk about his experience on the ship USS HOPE. Graduation exercises on Friday, June 12th will complete the reunion program.

20th Reunion—Class of S’44
Thomas F. Nealon, Jr., M.D.
Jefferson Medical College
1025 Walnut Street
Philadelphia 7, Pennsylvania

The local members of the Class of 1944-S have had several organizational meetings to plan for their Twentieth Alumni Reunion. The Class Day activities will take place at the Cherry Hill Inn in Cherry Hill, New Jersey. A hospitality room will be set up at noon on Wednesday at Cherry Hill. There will be a cocktail party in the evening followed by dinner. On Alumni Day Dr. David Culp, who is in the Department of Urology at the University of Iowa, will represent the Class on the Clinic Program. There will also be a hospitality room at the hotel prior to the annual Alumni Dinner on June 11th.

15th Reunion—Class of 1949
Gerald Marks, M.D.
255 South 17th Street

Dr. Marks together with reunion committee members Drs. Bob Johnson, Harold Rovner, Roy Newman, Marvin Lindell and Harry Hurley are working on plans for what promises to be a gala time. The Marriott Motel will serve as class reunion headquarters. While there are no official college activities on Tuesday, the early comers may enjoy the facilities of the Philadelphia Athletic Club. Tuesday evening there will be a twi-night double-header between the Phillies and the Pittsburgh Pirates. Wednesday’s schedule includes swimming, golf, and tennis, followed by a cocktail party and dinner dance at the historic Belmont Mansion in Fairmount Park. Thursday there will be a luncheon for the wives on the terrace of the Philadelphia Art Museum followed by a tour of either Fairmount Park Mansions or historical Philadelphia. And Thursday evening the Faculty Wives Club is sponsoring a dinner for the wives, which will coincide with the Alumni Banquet.

16th Reunion—Class of 1948
Norman J. Quinn, Jr., M.D.
231 Forest Avenue
Ambler, Pennsylvania

The Class of ’48 had such a marvelous time at their 15th Reunion that they are having a return engagement this year. The Reunion will be held at the Hotel Hershey in Hershey, Pennsylvania, from May 29th through May 31st. Hershey is a delightful town with many places for shopping and recreation. On Saturday morning the Class of ’48 Annual Golf Tournament will be held (handicaps to 50 acceptable). There are swimming, tennis, riding, and loafing facilities for all. Saturday evening there will be cocktails, followed by a steak dinner and dancing.

10th Reunion—Class of 1954
John R. Patterson, M.D.
460 Irvington Road
Drexel Hill, Pennsylvania

A committee of Charlie Greenbaum, Jack Kelly, and John Patterson have made plans for an informal class picnic for June 9th at Jack Kelly’s farm; a cocktail party and dinner dance on June 10th in the Pennsylvania West Room of the Sheraton; and a cocktail party preceding the Alumni Banquet on June 11th. It is hoped that everyone will plan to be there.

5th Reunion—Class of 1959
Nathaniel P. H. Ching, M.D.
Jefferson Hospital
Eleventh and Walnut Streets
Philadelphia 7, Pennsylvania

Fred Phillips is preparing for a dinner dance for the Class of ’59 on June 10. This gala affair will be held at the newly redecorated Cinelli’s in nearby Merchantville, N.J. Cocktails will precede the dinner to renew old experiences and set the pace for the evening.
CLASS NOTES

1896
Dr. Maurice J. Karpeles, 5517 Greene St., Philadelphia, Pa., recently received front page congratulations from the Philadelphia Inquirer on the occasion of his 89th birthday on January 22, 1964. The article reads, "It's delightful to encounter one who is just entering his 90th year on earth; is benign and good-humored; who still labors everyday on behalf of humanity and enjoys good health, plus one cigar a day after dinner.

"... This remarkable physician came to Germantown in the year of the Spanish-American War, a few years after he had graduated from Jefferson Medical College. His first calls were made on a bicycle.

"No story of this type would be complete without the inevitable: 'To what do you ascribe your longevity, doctor?'

His answer is succinct:
'I have never smoked a cigarette.
'I have never drunk alcoholic beverages.
'I have never tasted coffee.
'When I go to sleep at night, I put all my worries UNDER the bed."

'We at the Alumni Office send along our congratulations too!"

1907
Dr. Nathan Blumberg, 1901 Walnut St., Philadelphia 3, Pa., writes, "As Medical Director of the Home for the Aged, it is my advice to continue at your occupation. Do not lay off, as you will deteriorate promptly."

1908
Dr. Wellington D. Griesemer, 39 Newholland Ave., Shillington, Pa., writes, "I am continuing my work as a Reviewing Physician in the Department of Disability Determination in the Social Security Program. My vacation was a three week jet trip to the Scandinavian countries and parts of Europe."

1909
Dr. Charles Butcher, Heislerville, N. J., writes that he is receiving an award for 50 year continuous attendance at the New Jersey State Prison Farm. He has been working with the Prison since its inception in 1913. He also notes that he is the fourth Butcher to graduate from Jefferson; his great grandfather, his grandfather, and his father were Jefferson alumni.

1910
Dr. Simon C. Brumbaugh, 7335 Central Avenue, Lemon Grove, Calif., is still living in southern California, where his son is in practice with the Lemon Grove Medical Group. Dr. Brumbaugh writes that his health has not been very good for the past few years.

Dr. Thomas J. Howells, 1380 So. 13th, East, Salt Lake City 5, Utah, writes, "I have been retired now for ten years. I spent the last ten years of practice in Public Health and loved it."

Dr. Fred P. Simpson, 1203-14th Avenue, Altoona, Pa., has been on the Staff of Hollidaysburg State Hospital since August 1, 1963, having late afternoon and evening office hours.

Dr. Charles N. Sprinkle, Weaverville, North Carolina, writes that he has been engaged in the general practice of medicine for more than 50 years, and still does a limited practice.

1911
Dr. Edwin C. Boyer, 244 Market St., Johnstown, Pa., has been appointed to substitute for Dr. Frank McNamara, as Class Agent for the Jefferson Giving Fund drive during Dr. McNamara's illness. Dr. Boyer has also been honored by Cambria County and State Medical Societies for 50 years of faithful service to the city and community. He has the distinction of delivering the first set of triplets (Cesarean Method) at Conevalh Valley Hospital of Johnstown, Pa.

Dr. Alfred Dean, Sagola, Michigan, writes, "Two years ago in August I got too familiar with the lawn mower and sacrificed the four small toes on my right foot and badly damaged the big toe. I can still fish and hunt though. My vacation this year is a little virgin buck, and the steaks are very tasty. I motored to North Dakota for Thanksgiving, about 560 miles one way. Ice, snow, and slush made uncomfortable driving a great part of the way. It took a day and a half each way."

Dr. Evans D. Russell, 15 S. Lakeview Drive, Sebring, Fla., writes that "we are getting to be fixtures around here. Diet Funk and Edgar Snowden have stopped here, and was glad to see them."

1912
Dr. R. Grant Barry, 908 W. State Street, Trenton, N. J., writes that he spent an interesting two weeks in November working with a "Board" examining recruits for the N. J. State Troopers Association. "They (the recruits) undergo a grueling 12 weeks training course during which there is a 50% drop-out. It is said to be the toughest in the U. S. Even Marines who have trained at Parris Island have dropped out of this intensive training course."

Dr. Walter P. Hardee, 123 W. Main St., Durham, N. C., writes, "I am enjoying good health and keeping regular office hours. August was the best month that I have had since setting up my office here. Keep cheerful, classmates. John Q. Public will retire me."

Dr. Robert M. Lukens, 141 W. Heather Road, Wildwood Crest, N. J., reporting on his activities says, "I am retired and living a quiet home life. Kept busy with painting (art), garden, music (cello), fishing, and household chores. Two of my portraits (Doctors Chevalier Jackson and Randle C. Rosenberger) are hanging in the Alumni Office. Since retiring, I have painted several portraits of some of the VIP's here in south Jersey."

Dr. James R. St. Clair, 256 20th Ave., N.E., St. Petersburg, Fla., writes to Dr. Kramer as follows:

"I was sorry I couldn't attend the 50th Reunion last year, but I have a situation here that keeps me strictly at home. I haven't worked since March 1935, so my medical activities are confined to my own family. I regret that I couldn't have continued in medicine and used some of
the valuable new drugs. Even if we made a correct diagnosis in my time, there wasn't much we felt confident would help. I am fortunate in being reasonably comfortable. My age is going up—77, and my weight gradually going down—now 110."

1913

MRS. EDNA C. BEEBE, widow of DR. RICHARD C. BEEBE, 432 Savannah Road, Lewes, Delaware, writes, "I am thinking of the Class of 1913 and wish them all well."

DR. SIMON H. ROSENTHAL, Suite 11, Medical Center, 1900 Tate Springs Road, Lynchburg, Va., writes, "Still feeling fine—work everyday and enjoy life—getting along better than I deserve."

1914

DR. GEORGE L. ARMITAGE, JR., 410 S. Chester Road, Swarthmore, Pa., writes, "I retired from practice November 1, 1961. I am having the usual health problems of advanced age, but am enjoying the easy life."

DR. JESSE G. WEBSTER, 45 Main Street, Wellboro, Pa., has a small office practice with no hospital or outside calls, and enjoys good health.

1915

DR. WILLIAM T. BERRY, 44-77 23rd St., Long Island City, N. Y., received the Medal of the American Cancer Society at a dinner-dance December 7, 1963, held at the World’s Fair site in Flushing Meadows. This award has been made only twice previously in the 37-year history of the Queens Division. Dr. Berry became a member of the advisory council of the Queens Cancer Committee more than 30 years ago, later becoming a member of the Board of Directors and of the Executive Committee. He was Secretary for many years and has been Treasurer of the division since 1951. In addition to his work with the Cancer Society, Dr. Berry has served as President of both the Queens and Long Island City Medical Societies, as well as a member of all their important committees. He holds life membership in the Elks and in the Knights of Columbus and is a trustee of the Long Island City Savings Bank.

1916

It is with sorrow that we announce the death of DR. LEE W. HUGHES on January 25, 1964. Dr. Hughes died at Orange Memorial Hospital following a heart attack. An ophthalmologist, Dr. Hughes was a member of the staff of the Newark Eye and Ear Infirmary 40 years and was a member of the staffs at Clara Maass, St. Barnabas and St. James Hospitals many years. Dr. Hughes was also a consultant at the Essex County and East Orange Hospitals, and served as co-agent for the Class of 1916. Dr. Hughes is survived by his wife, Mrs. Jean Morrison Hughes of 521 Center St., South Orange, N. J., and two sons.

DR. I. JAY CARP, 269 S. 19th Street, Philadelphia 3, Pa., was retired as Chief in Urology at Albert Einstein Medical Center and was elevated to Honorary Consultant in Urology there.

DR. JOHN W. GREEN, 732 Morningside Drive, San Antonio 9, Texas, enjoyed having his youngest daughter home for Christmas together with his grandson, who is presently at Stanford University. Dr. Green writes that he plans to retire as of March 31, 1964.

DR. PETER B. MULLIGAN, 314 S. Hoffman Boulevard, Ashland, Pa., was honored recently as the recipient of the annual Kiwanis "Man of the Year" award. This award was the third annual one made by the Ashland chapter of the Club to a citizen who has shown a devotion to duty and whose life has been an inspiration to others. Dr. Mulligan was lauded for his activities in community life as well as his professional life.

DR. JOHN E. NEWHOUSE, 400 Franklin Street, East Pittsburgh, Pa., is waiting for 1966 to roll around for "No. 50." "I am feeling good, but time will tell—slowing up, but not drying up."

DR. ROCCO M. NITTOLE, 660 E. Jersey Street, Elizabeth, N. J., is Senior Attending Surgeon at Elizabeth General Hospital and Alexian Brothers Hospital, and Director of Health, Welfare and Housing of Elizabeth—and has no desire to retire.

1917

DR. HORACE B. ANDERSON, 218 Franklin St., Johnstown, Pa., writes, "I have nothing exciting to report other than I am still practicing internal medicine and playing golf, although, like the 'old gray mare', it is not like it used to be."

DR. LEWIS C. DRUFFNER, 618 Main St., Avoca, Pa., reports that his son, DR. CHARLES R. DRUFFNER, Jeff ’60 (a Fellow at Mayo Clinic in Rochester), and Mrs. Druffner have announced the birth of their first child, a daughter, on November 19, 1963, in Rochester. His other son, DR. LEWIS C., Jr., Jeff ’59, was recently discharged from the U. S. Navy after two years of service and has joined his father in the general practice of medicine. "On November 2, 1963, a testimonial dinner was given me at the Greenwood Motel in Scranton, Pa., following my resignation as Chief of Staff at Taylor Hospital in Taylor, Pa. I was presented with a hand-engraved testimonial and an electric wrist watch."

DR. ALBERT N. REDELIN, 22 W. Catawissa St., Nesquehoning, Pa., writes to his classmates: "I am still doing General Practice with no restrictions, as in previous years. I am also Clinician in the State TB Clinic in this area, and still find time to help in the various Welfare Organizations, am a Little League Baseball booster, and have been active in Rotary for the past 40 years. Wish we could turn the clock back. There is so much to be done and the legs are giving out. Guess my hobby is WORK. Anyway it will be difficult to break away from Medicine after being in General Practice for so many years."

1919

DR. CLARENCE H. BAUMGART, 2682 N. 27th St., Milwaukee, Wisconsin, writes, "Since you heard from me last I was out of circulation for 5½ months for temporary colostomy, resection of colon for diverticulitis and a low grade small tumor removal plus 20 subsequent X-ray treatments for same. I bounced back fairly well."

DR. HARRY S. FIST, 6360 Wilshire Blvd., Los Angeles 48, Calif., and Mrs. Fist drove to San Francisco in October where Dr. Fist discussed "Habits—Obesity" at the Annual Meeting of the American Society of Clinical Hypnosis. From San Francisco they went to Lake Tahoe, returning for the Annual Meeting of the Academy of Psychosomatic Medicine, and then back to Los Angeles.
Dr. Harry W. Weest, Medical Director, Lawrence F. Plick State Hospital, Cresson, Pa., has been promoted to the rank of Brigadier General.

Dr. Gomer T. Williams, 669 Belmont Avenue, Southampton, Pa., writes, "Nothing new under the sun. Everything is about the same, with the exception that I have finally given up doing tonsillectomies. I have been on Ear, Nose, and Throat at Abington Memorial Hospital for many years, and finally decided time to give up so competitors won't say, 'old bugger should give up before something goes wrong.'"

1920

Dr. Louis F. Burkley, Jr., 452 Berwick St., Easton, Pa., writes, "I am still in active practice in my specialty of Obstetrics, although have cut down quite a bit in the amount of work I now do. Being Emeritus Associate in Obstetrics at the Easton Hospital has also relieved me of much extra work at the hospital, and from now on I intend to take it easier. I have seven grandchildren now, the latest grandson born in June 1963 to my son, Dr. Louis Burkley, III ('47), and his wife. Now we have at least two grandsons who will probably be looking forward to being Jefferson men in due time."

Dr. Charles S. Duttenhofer, Churchtown, Pa., reports that he suffered a coronary insufficiency attack in June and was out of practice for two months.

Dr. Lyle G. Ellis, 232 Farmington Ave., Hartford, Conn., gobbled up in one gulp the 110-yard 12th hole at the Farmington (Conn.) Country Club on August 1, 1963, using an eight iron. Dr. Ellis might be justifiably blasé about this accomplishment—it's his third hole-in-one. He scored the first in 1946, and the second one in 1947, both at the Farmington course.

Dr. Willard H. Parsons, 1402 Adams St., Vicksburg, Miss., visited the Far East in 1962 as Consultant in Surgery to the Surgeon General of the U. S. Army, the Department of Defense. At the recent Clinical Congress of Surgeons in San Francisco, Dr. Parsons was re-elected Vice Chairman of the Board of Regents.

Dr. Lewis C. Scheffey, 601 Walnut Lane, Haverford, Pa., and Mrs. Scheffey recently toured the Mediterranean by freighter. Their trip included a month's stay in the isolated land of Afghanistan and a visit to West Germany.

1921

Dr. Lawrence C. Heins, Third and Buckeye, Abilene, Kansas, has retired from medical practice.

Dr. William T. Lemmon, 1509 Sweetbriar Dr., Gladwyne, Pa., is the newly elected President of Doctors Hospital, Philadelphia.

Dr. Louis S. Morgan, 3835 Country Club Road, Long Beach, Calif., writes, "I am going strong in my 42nd year of practice. I have a son who is a doctor in Wichita, Kansas, who has my same name. I also have seven other children, our youngest son being nine years old."

Dr. Leo D. O'Donnell, Mercy Hospital, Pittsburgh, Pa., at the College's request, represented Jefferson at the inauguration of Sister M. Thomas Aquinas as President of Mount Mercy College on January 27, 1964.

Dr. Edgar H. White, 18 North 2nd, East Tremonton, Utah, is still administrator of the small (23 bed) hospital he built in 1927. He has two sons who are oral surgeons, E. Hartley who is practicing in Salt Lake City, and R. Wendell, who is practicing in Tremonton. Both have very good practices. Another son, Hobart J., graduated from Jefferson in 1962 and is presently a resident in Surgery in Sandigo County Hospital.

1923

Dr. George S. Enfield, 1266 E. Cambridge, Phoenix 6, Arizona, recently returned from a ten day trip to Mexico where he attended a meeting of the Medical Society of the United States and Mexico in Guadalajara.

Dr. James F. Hays, International Latex Corp., Playtex Park, Dover, Delaware, writes, "In September 1963 May and I took off for a month in Europe—Spain, Madrid, Toledo, Avida—Flew on to Vienna, Austria, and backtracked to Salzburg, Berchtesgaden (Hitler's place), Innesbruck, Lichenstein, Zurich, Geneva, France, and then home. Saw old friends all along the way and we had a grand time." Dr. Hays underwent surgery shortly after his return home, but is recovering nicely.

Dr. Edward Lebovitz, 323 Jenkins Building, Pittsburgh 22, Pa., writes, "I own a Co-op at 10141 East Bay Harbor Drive, Bay-Harbor, Miami Beach, Fla. Am now enjoying semi-retirement in the winter. I would be happy to have any of you call me. The number is Union 6-2535."

1924

Dr. Charles L. S. Brennen, 14 S. Broadway, Gloucester City, N. J., writes, "I am practicing half time, working Monday, Wednesday, and Friday. My son is in practice with me, taking the bulk of the work and might say he is very successful. I appear to be in good health and am now a grandfather—five times!"

Dr. Aaron Capper, 49 Oak Lane, Encino, Calif., has retired and moved to California, where he has two sons in practice.

Dr. Paul F. Drake, 85 Summit Ave., Phillipsburg, N. J., writes, "I am still in practice in Phillipsburg. However, in January 1963, I retired as Chief of Pediatrics at Warren Hospital after 36 years. I am now Emeritus. Hope to attend the 40th."

Dr. R. K. Y. Dusinberre, 257 West Ridge Ave., State College, Pa., Class Agent for the Class of 1924, sends the following news of his classmates: "THOMAS NALE is retiring as Medical Director of Union Carbide Corporation. EARL PHILLIPS is slowly recovering from a bad case of hepatitis, needs three more months rest. CHARLES BRENNAN is semi-retired and working three days a week with his son. He has five grandchildren. DEVERE RITCHIE is vacationing in Key West now that Castro has chased everyone out of the Isle of Pines."

Dr. Frank E. Levy, The Medical Tower, 255 S. 17th Street, Philadelphia 3, Pa., reports that he is leaving private practice to become full-time Chief of Medicine for the AFL-CIO Hospital.

1925

Dr. John H. Dugger, Episcopal Hospital, Front and Lehigh Ave., Philadelphia 25, Pa., has been named to the
Executive Committee of Episcopal Hospital for the current year. Dr. Dugger is Director of the Department of Obstetrics and Gynecology.

Dr. Herbert T. Kelly, 1830 Delancey Place, Philadelphia 3, Pa., read a paper entitled "The Total Man: Some Guidelines in the Holistic Approach of Prosthodontics" before the American Prosthodontic Society in Atlantic City, N. J., on October 12, 1963. On October 16th, Dr. Kelly read a paper entitled "Medical Aspects of Temporomandibular Joint Disarrangements and Dental Occlusal Disharmonies" before the American Dental Association meeting in Atlantic City.

Dr. Paul Sloane, Presidential Apts. D-108, Madison House, Philadelphia 31, Pa., was recently appointed Associate Professor of Psychiatry at the University of Pennsylvania.

1926

Dr. William B. Barr, 733 Turner St., Allentown, Pa., was honored by the American College of Gastroenterology for 25 years of continuous affiliation with that organization at the group's annual dinner-dance in Washington, D. C. Dr. Barr was presented with a silver certificate signifying the anniversary.

Dr. Gerrit J. Bloemendaal, Ipswich, South Dakota, was honored by over 1000 town and county residents recently by a recognition night. Dr. Bloemendaal has served Ipswich and the surrounding area as physician and surgeon for 35 years. The program, conducted in the Ipswich High School auditorium, centered around a "This is Your Life" theme, reviewing the leading events and individuals in Dr. Bloemendaal's life.

Dr. George C. Griffith, 1136 W. 6th, Los Angeles, Calif., is President of the American College of Cardiology 1963-1964; an honorary alumnus of the University of Southern California School of Medicine; and President of the U.S.C. Support Group.

Dr. Charles Hyman, 6900 Atlantic Ave., Ventnor, N. J., has been named Medical Director of the Atlantic City Hospital, where he serves as Medical Chief. He is also Medical Director of the Atlantic County Hospital for Tubercular Diseases and Consultant in Medicine, Atlantic County Hospital for Mental Diseases.

Dr. Edmund T. Lentz, Capt. MC USNR Ret., Dispensary—NNSY, Portsmouth, Va., is head of the Industrial Medicine Division Dispensary. He was recently granted the shipyard's first Quality Salary Increase under the provisions of Section 702 of the Classification Act as amended by the Federal Salary Reform Act of 1962. The increase resulted from a recommendation made in Dr. Lentz' behalf. Rear Adm. James M. Farrin, Shipyard Commander, in presenting the increase said, "The recommendation clearly indicates that you are performing the most important functions of your position as medical officer in a manner that substantially exceeds normal requirements to such an extent that faster-than-usual salary advancement is merited."

Dr. Herman M. Parris, 740 S. 3rd St., Philadelphia 47, Pa., writes, "Since 1956, I have been in and out of hospitals (several major operations, two severe coronaries, etc.). However, I am glad to tell you I am working, but taking it very easy, two to three hours in my office daily."

Dr. George B. Rush, 520 Franklin Ave., Aliquippa, Pa., was named "Physician of the Year" by the Beaver County Medical Society at its annual dinner-dance on November 16, 1963. Dr. Rush is a member of the Executive Committee of the Aliquippa Hospital staff and served as President of the staff for the first two years of its operation and was active in its original formation. He served as President of the Beaver County Cancer Society for the first two years after its inception in 1956 and has been a member of the Board of Directors since. He was President of the County Medical Society in 1940 and has served as a delegate and committee member of the Pennsylvania Medical Society.

1928

Dr. John Bohlender, 200 Arvin Dr., San Antonio, Texas, writes, "I just returned from a very successful pheasant hunt in Nebraska and brought back my limit of 20 beautiful birds. Our deer season opens the 16th of November and we will be allowed three deer this year in Texas (if we can get them). Early in October, I won the Senior Golf Championship for the state of Texas after four days of strenuous play. It is for golfers 55 and over. Needless to say, Midge and I are enjoying 'retired life' to the fullest."

Dr. Henry A. Davidson, Essex County Hospital, Cedar Grove, N. J., Superintendent and Medical Director of the hospital, discussed "New Treatment Methods in Psychiatry" at the eighth session of a series of lectures for Registered Nurses on November 11, 1963.

Dr. L. C. Hatch, 2184 Ayers Ave., Akron 13, Ohio, writes, "I expect to retire as the Medical Director of the Goodyear Tire and Rubber Co. this spring and will return to the Rocky Mountain area of Idaho, where Mrs. Hatch and I came from. The Lord has been good to us. Our health has been the best and remains so. We spent August of '60 touring Europe and '61 in the Scandinavian countries, and hope to do considerable traveling after retirement."

Dr. Morris M. Mancoll, 285 N. Quaker Lane, West Hartford, Conn., writes, "I had Ben Haskell and George Willauer up here for the Connecticut Alumni Meeting. I took a trip through the Near East recently, and really enjoyed it."

Dr. Herschel S. Murphy, 320 Chestnut St., Roselle, N. J., had an exhibit on the "Treatment of Leg Cramps in Pregnancy" at the Michigan Academy of
General Practice in November. His daughter, Marilyn, is a junior Pre-Med student at Wellesley College. Dr. Murphy was included in Who's Who in America for 1963, and also in Who's Who in the East for 1964.

Dr. Jo Ono, 75 Zaikokucho Azabu, Minato-Ku, Tokyo, Japan, writes that he has been invited to speak at the American Medical Association Convention in San Francisco in June. He hopes to visit Philadelphia when he is in the states.

He has been very busy as Secretary General of the VIII International Congress of Oto-Rhino-Laryngology and is responsible for arranging the meeting which will be held in Tokyo October 24-30, 1965.

Dr. Benjamin E. Pulliam, 4 Robin Hill Rd., Winston-Salem, N. C., writes, "Sorry to be the cow's tail. Would state what we have been doing, but there's not enough space. Had the merriest Christmas ever and all are well. Our daughter Marilyn, who is Mrs. James Adams, was here with her 23-months-old daughter Lisa, and Binni, who is Mrs. William Coats, was here with daughters Stacy and Leslie Alyson. The husbands were here also. Such fun!"

1929
Dr. Lester L. Bartlett, 1737 Holly Lane, Pittsburgh 16, Pa., reports, "Have been back in practice since March 28th, after second operation on popliteal artery. Am doing well at present, but am slowing down and limiting my time in the office. I now have four grandchildren."

Dr. Francis G. Miller, 315 E. Ninth St., Chester, Pa., is recuperating from a severe coronary attack he suffered during September.

1930
Dr. Don B. Weems, 105 E. Mantua Ave., Wenonah, N. J., writes, "I am very well, but my wife, Ada, had a severe coronary pulmonary embolus and cerebral embolus. However, she is doing well now, and has experienced very little after-effect. I now have a second partner, Dr. Vorrie Macom (Jeff '62)."

Dr. Marston T. Woodruff, 4940 Penn St., Philadelphia 24, Pa., writes that his son, Larry, is a second year student at Jefferson.

1931
Dr. Anthony S. Tornay, 2038 Locust St., Philadelphia 3, Pa., has been elected President of the Medical Board at Episcopal Hospital in Philadelphia.

1932
Dr. John B. Claffey, 6306 Woodbine Ave., Philadelphia, Pa., has been elected President of the Medical Staff of Misericordia Hospital. Dr. Claffey is a member of the medical staff of Fitzgerald Mercy Hospital and is physician to St. Charles Borromeo Seminary.

Dr. Samuel R. Deich, 170 Passaic Ave., Passaic, N. J., has been elected Vice President of St. Mary's Hospital medical staff. He has been on the staff of the hospital for 28 years and is Director of the Department of General Practice. He is the medical director at Hayden Newport Chemical Corp., Passaic Division of Revlon Corp., Flintkote Corp., and Eastern Can Co.

Dr. David Gelfand, 1722 Pine St., Philadelphia 3, Pa., served as resource counsel for the Cardiac-in-Industry Seminar held on November 20, 1963, under the auspices of the Susquehanna Valley Heart Association.

Dr. William M. Howell, 710 Medical Arts Building, Scranton, Pa., is the new President of the Lackawanna County Medical Society.

1933
Dr. Robert Kemble, Psychiatrist-Director, Morris County Guidance Center, Court House, Morristown, N. J., was Guest Speaker at the November meeting of the Education Committee of the Den ville (N. J.) College Club.

Dr. Anthony Ruppersberg, Jr., 356 E. State St., Columbus 15, Ohio, was recently elected President of the Obstetrics and Gynecology Department of Grant Hospital in Columbus, Ohio. As Chairman and Co-founder, Dr. Ruppersberg presided over a meeting of the Committee on Maternal Health of the Ohio State Medical Association. The two-day conference, which marked the tenth anniversary of the group, was held at the Granville Inn, Granville, Ohio in January 1964.

1934
Dr. Lucian J. Fronduti, 1043 Manor Road, New Kensington, Pa., writes, "I am looking forward to our 30th reunion and hope all classmates attend. Our son, Robert Lucian, is now in his second year at Jefferson."

Dr. Roscoe P. Kandle, 92 Wilburtha Rd., Trenton 8, N. J., spoke before the annual dinner meeting of the Somerset Valley Visiting Nurse Association on January 28, 1964. Dr. Kandle, who is State Commissioner of Health, discussed "Public Health in New Jersey and in the Soviet Union."

1935
Dr. Herman R. Bull, 630 Road 27, Grand Junction, Colorado, is presently serving as President of the Colorado Medical Society. In 1960 he served as Vice Speaker of the Colorado Medical Society's House of Delegates, and in 1961, as Speaker.

Dr. S. Sprigg Jacob, 1456 Meadowbrook Lane, East Lansing, Mich., reports that he spent an enjoyable evening with Charley Smyth and his family while he was attending the Pediatric Seminar at Estes Park in August.

Dr. R. Marvel Keagy, 1205-14th Ave., Altoona, Pa., is Alternate District Chairman, District III, for the American Academy of Pediatrics.

Dr. Leon T. Kennedy, 2146 Shazron Lane, Charlotte 7, N. C., writes, "Craig Clark, that master politician, who has not written me in 28 years, but who nevertheless engineered my presidency of the Senior Class, and who corresponds with me yearly through his wife, came to visit me and we had a wonderful time."

Dr. Seth D. Revere, Route #1, Chickasha, Okla., writes, "I am senior partner in a clinic group—The Chickasha Clinic. We have a new hospital and a new clinic building and we are swamped with work."

Dr. R. J. Riddle, West State and Porter Way, Sharon, Pa., writes, "It was nice to be back at Jefferson this summer and see some of the old grads. Am feeling better now since DeTuerk and Haskell renovated me. Mrs. Riddle and I just returned from a month's visit to Hawaii. We spent a lovely evening with Gil Halper (Jeff '34) and his wife. Gil is Medical Director of the Dole Foundation."
1936
Dr. D. L. Arey, 129 South Main St., Danville, Va., writes that he has been involved in some fund raising of his own—a YMCA drive (he is a director), a Church drive, school drive, a Wake Forest Drive, and a drive for a building fund for the local life saving crew, of which he is a Medical Adviser.

Dr. Oscar H. Cohen, 115 Church St., Boonton, N. J., was elected President of the Medical Staff of Riverside Hospital in Boonton, is director of Radiation-Chemistry—Boonton, CD-DC, and is a member of the Boonton Board of Health.

Dr. Arthur Koffler, 39 Glenbrook Road, Stamford, Conn., was recently elected President of the Stamford Medical Society during the Society's 71st annual meeting.

Dr. Joseph A. Norris, 601 Walnut St., Easton, Pa., writes, "I went hunting in the Yukon territory this summer and got a mountain sheep, caribou, and a grizzly. I enjoyed wonderful Northern Greyling fishing—lake trout and northern pike."

Dr. James F. O'Neill, 140 Roslyn Ave., Glenside, Pa., has been elected Treasurer of the Philadelphia County Medical Society for the current year.

Dr. Robert T. Wong, 3777 Diamond Head Circle, Honolulu, Hawaii, has been elected President-elect of the Honolulu County Medical Society for the current year.

1937
Dr. Bernard B. Zamostein, 4801 N. 9th St., Philadelphia 41, Pa., has been named President-elect of the Philadelphia Academy of General Practice.

1938
Dr. Paul H. Morton, 1117 Tenth St., Coronado, Calif., is President of the San Diego County Heart Association for the current year; President-elect of the California Society of Internal Medicine; and General Chairman of the California Heart Association Annual Meeting to be held in May, 1964.

1940
Dr. Thomas B. Mervine, 1120 Wyndwood Road, Haddonfield, N. J., was recently elected Secretary of Doctors Hospital, Philadelphia.

1941
Dr. William L. Malley, Buckingham Rd., Pittsburgh 15, Pa., was appointed Chief of Surgical Division of the Pittsburgh Diagnostic Clinic on August 1, 1963.

1942
Dr. Matthew A. Hetrick, 1938 Wood Ave., Colorado Springs, Colo., is just finishing the year as Chief of Staff, Penrose Hospital in Colorado Springs.

Dr. David O. Johnson, 2901 Red River St., Austin 5, Texas, in sending his Annual Giving check to Dr. Davis, enclosed the following note: "I do wish I could help you reach some members of the Class of 1942. We gave Jeff little—she gave us much. Some forget parents and schools and the tendency seems to grow throughout the nation."

"Things go along about the same here. We will add our eighth man to the Austin Anesthesiology Group January 1st. This medical community continues to grow in scope. Our Cardio-vascular surgeon has already brought in an associate, and our Plastic Surgeon is doing the same. We are doing everything. The cross section of practitioners is excellent. Discipline is good, I believe better than in any other city in Texas."

Dr. John S. Liggett, 18 Woodland Rd., Edgeworth, Sewickley, Pa., and Mrs. Liggett recently attended the Pan Pacific Surgical Congress in Honolulu. "Albert Ho, Otolaryngology, and Tom Min, Internal Medicine, practice there and entertained us most royally. Bert Williams and Al Knorr were also there, and we had a delightful reunion."

Dr. John E. McKeigue, 94 Pleasant St., Arlington, Mass., was recently appointed Chief of Otolaryngology at the Mount Auburn Hospital in Cambridge.

Dr. Michael J. Ressetar, 75 Clifton Ave., Clifton, N. J., recently completed a term as President of the Passaic County Mental Health Clinic. Dr. Ressetar is presently serving as President of the Republican Booster Club of Clifton.

Dr. Joseph W. Stayman, Jr., 350 Rowmont Rd., Chestnut Hill, Pa., was elected Director of the Department of Surgery at Chestnut Hill Hospital by the medical staff. The Board of Trustees approved his appointment for a term of four years. Dr. Stayman has been director of the department since 1960.

1943
Dr. Philip G. Derickson, 445 Via Golondrina, Tucson, Arizona, writes, "I am keeping busy this year as President of the Pima County Medical Society. We are in the process of initiating a new Medical College at the University of Arizona, hoping to start the Freshman Class in 1967. The Dean has been appointed and started to work January 21st."

Dr. Edward V. Henson, 1138 Reading Blvd., Wyomissing, Pa., has been appointed Medical Director of the Beryllium Corp., Reading, Pa.

Dr. H. Eugene Hile, 115 Yorkshire Road, Pittsburgh 8, Pa., is currently Secretary of the Pennsylvania State Chapter of the American Academy of Pediatrics and Associate Professor of Pediatrics at the University of Pittsburgh Medical School. Dr. Hile is engaged primarily in the private practice of Pediatrics in Pittsburgh.

Dr. Bernard J. Miller, Andora Road, West of Thomas Rd., Lafayette Hills, Pa., addressed the January 29th meeting of the North Central Branch Society of the Philadelphia County Medical Society on "Recent Advances in the Treatment of Malignant Tumors."

Dr. Bernard S. Rossman, 5 Old Lancaster Road, Bala-Cynwyd, Pa., writes, "My daughter, Sheryl, has been elected Homecoming Queen at Carnegie Tech where she is majoring in Art. My wife, Elaine, has opened a unique Treasure Shoppe in Bala-Cynwyd with all sorts of art objects on consignment. If this keeps up, I'll be able to take it easy."

Dr. Louis E. Zimmer, 55 Beverly Road, W. Orange, N. J., Senior Attending Physician and Assistant Chief in the Department of Medicine at St. Michael's Hospital (Newark, N. J.), has been elected President of the medical staff.

J'44
Dr. Walter J. Filippek, 737 Easton Road, Hellertown, Pa., will serve as President of the Northampton County Medical Society for 1964.
DR. SAMUEL D. KRON, 2108 Spruce St., Philadelphia 3, Pa., is one of 28 physicians and dentists who comprised the initial rotating medical team of the teaching-training hospital ship SS Hope when it left for Guayaquil, Ecuador, on November 20th. He served with the Hope until the end of January, functioning as both teacher and practicing surgeon, lecturing Ecuadorian doctors on American medical procedures and working along with them in actual operations.

From the hundreds of physicians who volunteered their services, he was chosen as one of the two surgeons to staff the mission. Dr. Kron and the other members of this staff augmented the permanent medical corps of more than 80 doctors, nurses, and personnel who will be attached to the former U. S. Navy hospital ship for the duration of the voyage, expected to last 10 months.

The SS Hope is the only government contribution to the otherwise privately supported "Health Opportunities for People Everywhere" program. This people-to-people project, which exists on freely contributed labor, supplies and individual talents, has as its purpose not only treatment of the ill but also training of local personnel, so that they may be better equipped to cope with the specific medical problems of their own region.

The SS Hope has visited Indonesia, South Vietnam, and Peru where more than 4000 major operations have been performed aboard ship.

DR. JAMES B. LEONARD, 323 Jeffords, Clearwater, Fla., was recently installed as President of the Pinellas County unit of the American Cancer Society.

DR. JOHN A. MARTIN, 2037 Crystal Spring Ave., S.W., Roanoke, Va., has been elected Chief of the Medical Staff of Roanoke Memorial Hospitals for the current year. He was also recently named as Chief of Radiology at the Hospitals. Dr. Martin is very active in civic affairs and in 1952 he received the Roanoke Jaycees Key Man Award for his work in health. He is presently serving as Vice-President of the Virginia Medical Society.

S'44

DR. IVAN F. BENNETT, R.R. 18, Box 285, Indianapolis 24, Ind., served as Assistant Professor of Psychiatry at Indiana University School of Medicine from 1958 to 1962, when he was promoted to Associate Professor of Psychiatry. In 1958, Dr. Bennett joined the Lilly Laboratory for Clinical Research, Eli Lilly & Co., Indianapolis, Ind., as a Clinical Investigator, and in 1963, became Senior Physician. In 1957, he became a Fellow of the American Psychiatric Association, in 1962, a Charter Fellow of the American College of Neuropsychopharmacology, and in 1963, a Fellow of the American College of Physicians.

DR. GEORGE M. KIEBLER, 310 Via Lyon, Palos Verdes Estates, Calif., is the newly appointed Chief of Staff at Little Company of Mary Hospital in Torrance, Calif.

DR. THOMAS F. NEALON, JR., 48 Sabine Ave., Wynnewood, Pa., was recently inducted into Alpha Sigma Nu, National Jesuit Honor Society. The criteria for appointment to the Society are scholarship, loyalty and service to the school and the community. Dr. Nealon is Professor of Surgery at Jefferson. He and his wife have four children.

DR. JAMES H. PASS, Olney Sanatorium Clinic, Olney, Ill., is a General and a Thoracic Surgeon, a Diplomate of the American Board of Surgery, and a Member of the Illinois State Board of Directors of the American Cancer Society. He and his wife, Barbara, have three sons—Jim, Jr., 17, Steve, 16, and Dave, 14.

DR. R. F. STINSON, JR., 6809 Jones Valley Drive, Huntsville, Ala., recently moved his office for the practice of Urology from Thomasville, Ga., to 205 St. Clair Ave., S.W., in the Physicians and Surgeons Building in Huntsville.

1945

DR. C. GLENN CLEMENTS, 2009 Minor Ave, E., Seattle 2, Wash., was recently appointed Director of the Children's Division of the Community Psychiatric Clinic.

DR. HERBERT A. LAUGHLIN, 66 S. Portage St., Westfield, N. Y., writes to Dr. Lee as follows: "I am still in general practice in Westfield. I am President of the Chautauqua County Medical Society for 1964 and Treasurer of the 8th District Branch of M.S.S.N.Y. I plan to attend the reunion in June together with my Dad (Van S. Laughlin, Class of '14)."

1946

DR. JOHN BONGIOVANNI, 1208 Belfield Ave., Drexel Hill, Pa., has been appointed Associate Director of the recently opened Child Guidance Center at Fitzgerald Mercy Hospital in Darby. Dr. Bongiovanni was the first one to complete a residency in child psychiatry at the Child Study Center.

DR. GEORGE N. ERIKSEN, 1525 Delaware Ave., Wilmington, Del., writes, "I am now slowly building a surgical practice. There is much less pediatric surgery than I anticipated, but General Surgery and compensation are the mainstay. At the same time, I am utilizing my pediatric experience as Medical Director of the juvenile correction institutions (Youth Services Commission), where I really do adolescent General Practice: Psychiatry, Gynecology, V.D., Surgery, Dermatology, etc."

DR. CHARLES E. HANANN, 4115 Oak Lane, McLean, Virginia, is practicing Proctology in Arlington, Va. In March, 1963, he presented a paper at the Piedmont Proctology Society Meeting in Charlotte, N. C. He and his wife, Nancy, have two children—Cara, 2½, and Matthew, 1.

DR. EARL K. SIPES, 24 N. 18th St., Allentown, Pa., was elected a Fellow of the American College of Surgery in 1939, and a Fellow of the American College of Angiology in 1963.
1947

DR. GAIL G. L. LI, Suite 3, 1523 Kalakau Ave., Honolulu, Hawaii, writes, "I was pleasantly surprised this past November by a call from 'Rip' Yingling who suddenly arrived in Hawaii with his wife for the Pan Pacific Surgical Congress. I hadn't heard from Rip since May 1947, and we had a wonderful week here in Hawaii. I am looking forward to more of you in the 50th State."

DR. LAURANCE A. MOSIER, 10510 Chapman Ave., Garden Grove, Calif., has been re-elected Secretary-Treasurer of the Orange County Medical Association for 1964 and an Alternate Delegate to the California Medical Association.

DR. MARTIN M. MANDEL, Medical Tower, 255 South 17th St., Philadelphia 3, Pa., recently returned from Lima, Peru, where he addressed the First Pan American Congress of Neurology on September 25, 1963, on the subject of "Dermatomyositis and Carcinoma of the Ovary."

DR. CHESTER L. SCHNEIDER, Central Alaskan Missions Inc., P.O. Box 5, Glenallen, Alaska, writes, "We Schneiders are now in our 12th year of active on-the-field medical missionary service in Alaska scheduled for our third furlough from August 1964 to July 1965. We are looking forward to meeting Jefferson friends again as we hope to be situated in New Jersey, but will leave mukluks and snowshoes here for our return."

1948

DR. RALPH LEV, 562 Prospect Ave., Princeton, N. J., recently spoke before the Lackawanna County (Pa.) Medical Society on "The Selection of Patients for Cardiac Surgery."

1949

DR. SHELDON RUDANSKY, 520 Franklin Ave., Garden City, N. Y., was honored this year by being named to "Who's Who in the East," for 1963-1964.

DR. EDGAR C. SWEENEY, 208 Doctors Building, Charlotte, N. C., and an associate are engaged in the practice of Pediatrics. Dr. Sweeney married the former Miss Patricia Lowry of Tampa, Fla., in 1959, and they now have three children—Merrin, Patrick, and Wilson.

Dr. Sweeney also sends along the following news about the Class of '49. Dr. CHARLES T. PACE is a Resident in Ophthalmology at the University of Virginia. Dr. and Mrs. Pace have two sons. Dr. CALVIN C. MITCHENER is practicing Dermatology in Charlotte. The Mitcheners have three children, two boys and a girl.

1951

DR. VICTOR F. GRECO, E-Z Acres, R.D., Drums, Pa., was recently re-elected Chief of Surgery at St. Joseph Hospital.

DR. ROBERT G. HALE, 4004 Fairway Road, Lafayette Hill, Pa., is in family practice in suburban Philadelphia. As President of the Montgomery County Chapter of the American Academy of General Practice, Dr. Hale recently coordinated a career recruiting program in which 15,000 high school pupils were contacted. Approximately 500 of those contacted showed a definite interest in medicine as a career. Dr. and Mrs. Hale have three boys, aged 10, 8, and 3.

DR. BENJAMIN R. PARADEE, 601 Marlton Pike, Erlton, N. J., is doing a well-rounded general practice in partnership with Ed La Voice, Class of '51.

DR. WALTER P. PEETER, JR., 1345 Highland Avenue, Plainfield, N. J., writes, "I have been in our Medical Building for one year, and we are taking in a third partner in our Ob-Gyn practice. The building now has a total of 15 physicians."

1952

DR. WILLIAM R. DAVISON, 9 Elknum Lane, Johnstown, Pa., is Chief of Orthopedics at Conemaugh Valley Memorial Hospital. He spent the month of October with his wife, the former Jean Beard, and his seven-year-old daughter, Debbie, in Jordan through the Orthopedics Overseas, Medico-CARE program.

EDWARD W. DITTO, III, 217 W. Washington St., Hagerstown, Md., writes, "I have continued to be busy in General Practice and Anesthesia. Last spring we bought a 17' fiberglass boat and outboard motor, and spent many relaxing hours water skiing on the Potomac River."

DR. ROBERT C. EYERLY, Geisinger Memorial Hospital, Danville, Pa., has been appointed an Instructor in the Department of General Surgery at Temple University. Dr. Eyerly was the recipient of a clinical fellowship in cancer awarded by the American Cancer Society in 1956, and an American Cancer Society grant awarded in 1960 for the study of the transplant and chemotherapy of spontaneous tumors in hamsters. His investigations have involved the transplant of such tumors to their sites of origin, with subsequent treatment with various chemotherapeutic agents to test treatment possibilities.

DR. JOHN GRASSE, JR., Blooming Glen, Pa., and his family arrived in Philadelphia on December 8, from Nigeria, West Africa. The Grasses returned after serving a three-year missionary term under the Mennonite Board of Missions and Charities, Elkhart, Ind. During his term of service, Dr. Grasse served as medical superintendent of the Abiriba Joint Hospital, Abiriba. In June 1963, he was appointed to the office of Rural Medical Officer of the hospital by the Nigerian Government. This involved supervising five rural health centers. Prior to his Nigerian assignment, Dr. Grasse served five years as Medical Doctor in Puerto Rico.

DR. JOSEPH HODGE, Hodge Clinic, 3 Catawba St., Spartanburg, S. C., writes, "In May 1963, the Jefferson Alumni Association Dinner was planned at Myrtle Beach, South Carolina during the S.C. Medical Association Meeting; and again as Vice President of the South
Dr. FRANCIS J. NASH, 75 Hinckley Rd., Milton, Mass., reports that he passed his Ob-Gyn Boards in May, 1963. May also saw his election as Secretary of the Obstetrics-Gynecology Section of the Massachusetts Medical Society. He also serves as Staff Treasurer at St. Margaret's Hospital.

Dr. WARREN W. NICHOLS, Kay Drive, Haddonfield, N. J., recently spoke before a joint meeting of the Evening Membership, Department of the Contemporary Club of Englewood, the Woman's Club of Teaneck and the Woman's Club of Tenafly. Dr. Nichols spoke on the South Jersey Medical Research Foundation of which he is a Research Associate.

Dr. GERALD TANNENBAUM, 50 E. 78th St., New York, N. Y., Assistant Professor of Psychiatry at the New York Medical College was recently certified by the American Board of Psychiatry and Neurology.

Dr. WILLIAM A. WEST, Kay Drive South, Haddonfield, N. J., writes, "I have been certified by the American Board of Obstetrics and Gynecology and have been promoted to an Associate in Obstetrics at the Cooper Hospital in Camden, N. J."

Dr. JOHN DAVID WOFFORD, 601 E. Harding St., Greenwood, Miss., writes, "In 1958, I finished a Residency in Internal Medicine at the University of Mississippi Medical Center in Jackson, Miss., and went into private practice, located in Jackson. In October of 1962, the call to the small town finally won over and I moved to Greenwood, Miss., and have continued in the private practice of Internal Medicine. I find it much more rewarding here and certainly extremely

The Proof: Dr. and Mrs. McKeon's seven children.
more gratifying. I was certified by the American Board of Internal Medicine in 1960. I have four children, two boys and two girls, aged 11, 9, 7, and 4.”

1955

DR. CARL W. BOYER, JR., 077807, Tripler Army Hospital, APO 438, San Francisco, Calif., writes, “We’re saying Aloha for the last time this year for we are going to return to the mainland this summer. I have been assigned to the Radiation Therapy Section at Walter Reed beginning in July. Much as we have enjoyed the islands for the past three years, we are looking forward to the move.”

DR. WILLIAM T. BRANDFASS, 626 W. 165th St., New York 32, N. Y., is presently in his third year of Orthopedic Surgery Residency at Columbia Presbyterian Hospital. "BART LISSNER, who just finished here in Plastic Surgery, thought he was the oldest living Resident from the Class of 55 until I showed up. Any new challengers?"

DR. S. PAUL Coccia, 35 W. Union Ave., Bound Brook, N. J., reports that he and his family spent a delightful Christmas holiday in Phoenix, Arizona.

DR. WILLIAM T. CONDEFER, 82 Valentine St., Moosic, Pa., reports that he married the former Ceil Reardon of Wilming- ton, Delaware, in March of 1962, and they are now the proud parents of twin daughters—Lisa and Terri. Dr. Condefer is presently in his fourth year of residency in Pathology at Wilkes-Barre General Hospital, and expects to locate in either Pennsylvania or Delaware.

DR. HOWARD CRAVETZ, 1000 66th Ave., Philadelphia 26, Pa., entered a Residency in Anesthesiology last March at Phila- delphia General Hospital, after six and a half years of General Practice.

DR. EUGENE A. CURTIN, 2121 Jefferson Ave., Dunmore, Pa., was recently certified as a diplomate of the American Board of Obstetrics and Gynecology.

DR. JOSEPH A. HEANEY, Barclay Building, Suite 210, City Line and Belmont Ave., Bala-Cynwyd, Pa., recently opened an office for the full time practice of psychiatry at the above address. He is married and has four children.

DR. WILLIAM A. MILLHORN, 4149 Winfield Rd., Columbus 21, Ohio, was certified by the American Board of Internal Medicine on March 29, 1963.

DR. J. WILLIAM RAIFORD, 25 Curry Hill Road, Cobalt Ridge, Levittown, Pa., recently opened an office for the practice of Obstetrics and Gynecology at 49 Pine- wood Drive, Levittown.

DR. PAUL M. SELFON, 1801 Placid St., Philadelphia 15, Pa., had a paper enti- tled “The Treatment of Acute Poison Ivy Dermatitis Among Our Military Field Personnel” in the September 1963 issue of Military Medicine. The article was illustrated by Mort Walker, the creator of the comic strip "Beetle Bailey."

1956

DR. ARLAND A. ADAMS, U. S. Naval Hospital, N.A.S., Pensacola, Fla., recently resigned his Commission in the Navy and is presently associated with another doctor in the practice of Cardiology and Internal Medicine at Atlant- ican, Fla. (about 20 miles south of Cape Kennedy).

DR. WILLIAM D. BACON, 2400 Boyer Ave., East, Seattle, Wash., completed two years of active duty with the U. S. Naval Reserve this year as Chief of the Ophthalmology Department at the U. S. Naval Hospital, Pensacola, Florida. "I plan to begin practicing in the Seattle, Washington, area in the near future and have fallen in love with the beautiful Pacific Northwest."

DR. CARL H. BAILEY, 1801 Oak St., Napa, Calif., has been appointed to serve as Consultant in Otolaryngology on the Napa State Hospital medical staff.

DR. JAMES H. CORWIN, Duval Medical Center, 2000 Jefferson St., Jacksonville, Fla., reports, "I am a Surgical Resident here at Duval Medical Center, in my third year. I have spent a year at Montefiore Hospital and University of Pittsburgh and a year at Gorgas Hospital in the Canal Zone. My residency here is excellent as there is plenty of work and an excellent teaching program. My family is fine and I hope to stay here in Florida after I finish."

DR. PAUL DRUCKER, 12 Woodruff Rd., Metuchen, N. J., writes, "I am very pleased with the way things are going here in Edison. The practice is growing. My partner and I will be moving into our own building in several months. Saw HILL GERSTEN several months ago. He is giving anesthesia in the Lakewood area."

DR. PAUL J. DUGAN, 1443 Tiffany Circle, Roseville, Calif., has joined DR. WILLIAM ANTHONY, Class of ’55, and three other General Practitioners in group practice at the Oakridge Medical Center in Roseville.

DR. PETER B. FISHER, 515 Hermann Professional Building, Houston 25, Texas, was certified by the American Board of Surgery in January 1963, and opened a practice of General Surgery in July 1963.

DR. PAUL E. FRANK, York Road and Summit Ave., Hatboro, Pa., was certified by the American Board of Ophthalmology in June 1962, and is now prac- ticing Ophthalmology in Hatboro.

DR. WILTON R. KANE, Duval Medical Center, 2000 Jefferson St., Jacksonville, Fla., is now practicing in Live Oak, Fla., a town of 4,500. He is board eligible in Surgery, but also does General Practice and Obstetrics. Dr. Kane writes, "Any Jefferson grad is welcome to stop by and take advantage of the hunting this area has to offer.”

DR. JOSEPH L. MAGRATH, 19 Elliott Ave., Bryn Mawr, Pa., has completed his surgery residency and is off to a good start. He has been appointed Attending Surgeon at Delaware County Memorial Hospital and at Haverford State Hospital. "Board Exams loom on the horizon—at least I'll have the comfort of taking them in McClellan Hall.”

DR. CONSTANTINE L. NELIAS, 1806 E. 6th Ave., Beaver Falls, Pa., recently passed his written Internal Medicine Boards. He is presently a Clinical Associate in Rheumatology at the Cleveland Clinic.

DR. THOMAS G. O'BRIEN, Harvard Surgical Service, Boston City Hospital, Bos- ton, Mass., is presently Chief Resident in General Surgery. As of January 1, 1965, he will be Senior Resident in Cardiovascular Surgery at the Children's Hospital Medical Center in Boston. Dr. O'Brien married the former Miss Gail Pierce on May 7, 1960. The O'Briens have a 2½-year-old son, Tom, and a five-week-old daughter, Page.

DR. VINCENT S. OLIVA, 7598 Granada Drive, Buena Park, Calif., writes, "After
seven years with the U. S. Navy, I have entered the civilian practice of Radiology in a four man group in Downey, Calif. Charlotte and I have settled, with our brood of five, in our new home here in Buena Park."

DR. JOSEPH F. SMITH, 250 South 18th Street, Philadelphia 3, Pa., is currently in the private practice of Radiology at the above address in association with two other doctors.

DR. ROBERT B. WEIMAN, 420 Gladstone Ave., Haddonfield, N. J., took a Residency in General Surgery at Temple U. and in Thoracic Surgery at Baylor U., followed by his General and Thoracic Boards in 1962. He is presently in practice in Camden (N. J.) at Cooper Hospital and in Philadelphia at Pennsylvania Hospital. Dr. and Mrs. Weiman have three children, two boys and a girl.

1957

DR. CESARE R. ANTONIACCI, 67 Clinton Ave., Millburn, N. J., writes, "Early in January 1964, I opened my own office for the practice of psychiatry at 19 Prospect St., South Orange, N. J. Since January 1962, I have been associated with a neuropsychiatrist in South Orange. My wife, Ann, and I now have three children—Chris, 14, Mark 5, and Ellen, 2."

DR. ROBERT C. BASTIAN, JR., Rodriguez USAH, Fort Brooke, San Juan, P. R., is currently Chief of the Medical Service there with another 20 months to go.

DR. ALLAN LAZAR, 8310 12th Ave., Silver Spring, Md., writes that he has just separated from the Air Force, Medical Corps, and has no definite plans as to where he will locate as a Pathologist.

DR. GERALD LABRIOLA, 173 Meadow St., Naugatuck, Conn., has been elected Chairman of the Pediatrics Section of the Waterbury Medical Association. He has also been named a Fellow of the American Academy of Pediatrics.

DR. H. WARD S. RICHTER, 46 Columbia St., Wilmington, Mass., writes, "Having completed one year of Residency at Pratt Diagnostic Clinic (Tufts, New England Medical Center), one year on various medical subspecialty services at Harvard Hospital and one year of Gastroenterology at Beth Israel, Boston, I have finally set up practice in Internal Medicine in partnership with another internist."

DR. MARVIN A. SACKNER, 5467 Arlington St., Philadelphia 31, Pa., has been appointed Associate Director of the Cardiopulmonary Laboratory, Mt. Sinai Hospital, Miami Beach, Fla., to begin July 1, 1964. He will be primarily responsible for the pulmonary physiology and expects to do a small amount of cardiac catheterizations.

DR. JOSEPH A. TOFINO, 2332 Chestnut St., Chester, Pa., completed his Residency in Ophthalmology at Graduate Hospital in July 1963, and has opened an office for the practice of Ophthalmology in Chester.

DR. OTTO W. WICKSTROM, JR., Columbus, Ind., writes, "I am finishing a two year tour of duty with the Navy, and plan to open an office for the practice of Orthopedic Surgery in Columbus, Indiana."

DR. DONALD P. YADUSKY, 187th Dispensary, APO 28, N. Y., N. Y., is in Worms, Germany, where he and his family will spend the next year. They plan to return to the states in December, 1964, and hope to settle in the East.

1958

DR. CARL R. BEMILLER, USN Hospital, Portsmouth, Va., writes, "I am in my final year in an Internal Medicine Residency, which has been an outstanding experience. My family status has not changed—a wonderful wife, Patricia, and two sons, Ricky, 8 years and Timmy, 7 years."

DR. JEROME I. COHEN, Ranocas Valley General Hospital, Willingboro, N. J., recently opened an office for the practice of Orthopedic Surgery in Willingboro.

DR. H. G. HOPWOOD, JR., 324 Forest Knoll Rd., Knollwood, Lake Bluff, Ill., presented a paper entitled "Vinblastine in Hodgkins Disease in Pregnancy" at the November meeting of The Chicago Gynecological Society. He was also a panel participant on "The Diagnosis and Management of Abnormal Presentations" at The Annual District VI meeting of The American College of Obstetricians and Gynecologists on November 21, 1963, in Milwaukee, Wisconsin.

DR. PHILIP C. HUGHES, 521 Mt. Vernon Ave., Haddonfield, N. J., is presently in his second year of residency at Wills Eye Hospital in Philadelphia. As of yet, he has no definite plans for the future. Dr. and Mrs. Hughes have four children, two of each gender.

DR. JOHN KUHNS KREIDER, 2015 Old Philadelphia Pike, Lancaster, Pa., has been elected to the medical staff of Lancaster General Hospital.

DR. THOMAS F. MCGARRY, 2730 Clayton St., Phila. 15, Pa., is presently with Hahnemann Medical College and Hospital as Assistant Director of Electrocardiology Section of Cardiovascular Disease, Instructor in Medicine, and Junior Attending in Cardiology.

DR. PAUL M. ROEDGER, 1802 Woodland Rd., Abington, Pa., is Director of Medical Education at Abington Memorial Hospital and reports that he is pleased with the number of applicants from Jefferson this year for internships.

1959

DR. KENNETH MAXWELL BLANC, 721 Conshohocken State Rd., Penn Valley, Pa., was married in June of 1963 to the former Sarah Lee Weiss. He is currently Chief Resident in General Surgery at Einstein Medical Center in Philadelphia and is scheduled to enter the Army in July 1964.

DR. VINCENT P. BLUE, 2 Glenn Terrace, Havertown, Pa., finished his residency in Internal Medicine in June 1963. Dr. Blue has entered private practice in Internal Medicine with two other doctors with offices in Philadelphia, Newtown Square, and Media. He is on the Staffs of Misericordia and Riddle Hospitals and works in the Allergy Clinic at the Graduate Hospital of the University of Pennsylvania.

DR. LEONARD F. GREENBERG, 944 E. Johnson St., Philadelphia, Pa., writes, "I completed my tour of duty in the Army in June 1963, and am continuing my residency in Internal Medicine at the Philadelphia Veterans Administration Hospital. On October 2, 1963, I became a father for the first time. My wife, Grace, gave birth to a 6 lb., 13 oz. daughter, Caroline Martha. We are all doing well, and are looking forward to the Reunion in June."

DR. MARTIN RUBEL, 260 Congressional Lane, Rockville, Md., writes, "I am now finishing two years of research at the
National Institutes of Health in Bethesda, Md., and am looking forward to beginning private practice of Psychiatry in Philadelphia in July 1964."

DR. WALTER M. SHELLY, 810 Seneca St., Bethlehem, Pa., writes, "We returned from the Congo over two months ago where we were doing relief medical work for the past two years. We had a very valuable and interesting experience, seeing and doing many new things. At present I have resumed my surgical residency at St. Lukes Hospital in Bethlehem. Our family now includes three, the last one having arrived four months ago."

DR. LOUIS BUSH SWISHER, JR., 34 Glenwood Rd., Roslyn Harbor, N. Y., is a Staff Anesthesiologist at the U. S. Naval Hospital in St. Albans, N. Y. Dr. Swisher and his wife, the former Lucretia Ventre, have two children, a three-year-old son, Jeff, and a one-year-old daughter, Kara.

DR. JOHN J. TAMASCIA, 1689 Broad St., Bloomfield, N. J., was recently appointed an Assistant Physician in the Department of Medicine at Cooper Hospital.

1960

DR. RUDOLPH W. BEE, 1310 S. 53rd St., Philadelphia 31, Pa., writes, "At the present time I'm specializing in Ophthalmology at the London Institute of Ophthalmology and Moorfields Eye Hospital, here in England. I'm planning to continue my residency in the U. S. in July. As yet I'm still single."

DR. ALFRED J. FINN, JR., 106 Litchfield Rd., Torrington, Conn., was recently discharged from the Army after serving two years, and is now in general practice with two associates.

DR. MILTON LEWIS FRIEDMAN, 5558 Akron St., Philadelphia 49, Pa., is in general practice with an associate, located in the northeast section of Philadelphia.

DR. JOHN P. GALGON, V. A. Hospital, University and Woodland Aves., Philadelphia, Pa., reports, "I recently returned from an Air Force tour of duty in Japan and found that country perfectly enchanting. I also had the good fortune of visiting most of the countries and cities of Southeast Asia, including Manila, Saigon, Bangkok, New Delhi, and the Taj Mahal. Am glad to be back in Philadelphia, though."

DR. TERRY M. GERMAN, 628 Park Ave., Phila. 44, Pa., was discharged from the USAF in November and is presently taking his Residency in Obstetrics and Gynecology at Einstein Medical Center in Philadelphia.

DR. MARVIN E. LAUTT, 2200 Harrison Ave., Eureka, Calif., in bringing his classmates up to date writes, "I spent my internship at Memorial Hospital in Wilmington, Del., and stayed on as Emergency Room Physician until November 1961. From there I went to Hoopa, Calif., to enter an association with a practitioner in town. This proved exciting, but too politically controversial. Have been at Humboldt County Hospital as House Physician since November 1962. I will probably locate near Eureka, Calif., in General Practice. June and I like the country here, and will probably stay permanently. The possibility of a psychiatric residency in several years is kicking around in my head. My sister visited for about two months; she is wandering around, trying to 'find meaning in life.' Know any single, understanding gentlemen?"

DR. DAVID M. LEIVY, 85 Shore View Drive, Yonkers, N. Y., writes, "We returned from Kansas all well and one stronger than when we left. On 21 April 1963 Susan Alison was born, and she is growing nicely as is Sander. Nancy and I enjoyed our two year vacation, but hope to stay in New York until I finish my Residency, this time."

DR. WILLIAM H. MAHOOD, 67 Midvale Lane, Willingsboro, N. J., is presently taking a year of Clinical Residency in Gastroenterology at Graduate Hospital of the University of Pennsylvania.

DR. IRVING MELNICK, 5628 Arlington St., Philadelphia 31, Pa., is a senior Resident in Urology at the Philadelphia General Hospital. In July, 1964, Dr. Melnick plans to associate with two other doctors in Danville, Va., in the practice of Urology.

DR. TERRENCE L. O'ROURKE, AO3123-162 6332nd U.S.A.F. Disp. (PACAF), APO 239, San Francisco, Calif., writes, "I have a Residency in Radiology waiting for me at Geisinger Memorial Hospital in Danville, Pa., when I get out of the service. I'm scheduled to get out in October of 1964, but am trying to get out early so I can start in July."

"I'm getting a little tired of Okinawa, have already been here for 20 months. I have done quite a lot of traveling, have been to Japan quite a few times, also to Hong Kong, Philippines, Taiwan, and Vietnam. I hope to get to Bangkok and possibly Australia, I do enjoy the traveling and sightseeing.

"My family and I have been enjoying good health here. My little daughter is coming along nicely. She's now 14 months old and has been walking and talking for quite a while."

DR. HARVEY W. OSHRIN, 79 Wooland Ave., Daly City, Calif., recently became associated with Dr. CONRAD ZAGORY (Jeff '49) in the general practice of medicine at 4804 Mission St., Suite 204, San Francisco 12, Calif.

DR. HARVEY R. RUTSTEIN, The Mount Sinai Hospital, 100th Street and Fifth Ave., New York 29, N. Y., writes, "Recent personal news includes arrival of second son, birth weight 9 lbs., 5 ounces, on July 18, 1963, named Eric Stephen. First son, Michael David, age 16 months, and wife, Sandy, all trying to get used to Daddy's new routine of working every other night and then some. Quite a contrast to the easy Air Force living. I delivered a paper at the AMA convention in Atlantic City last June to Section on Military Medicine. Most significant factor was week's vacation on the beach at Uncle Sam's expense."

DR. FRANK K. RYKIEL, 200 Lake Drive, Bellmawr, N. J., is now in a medical residency at the Cooper Hospital in Camden, N. J., after serving two years in the U. S. Navy. The Rykiels have two children, Constance Lee and David Frank.

DR. HARVEY D. SILVER, 23 Lakeview Drive, West Orange, N. J., is completing his second year with the Army, stationed at Fort Dix, N. J. After completing his tour of duty, he plans to return to his Residency in Internal Medicine.

DR. LEONARD VINNICK, 7615 A Thorn St., Fort George Meade, Md., writes, "After being drafted out of my Residency in San Francisco, my wife, twin daughters (Deborah and Lyn) and myself were stationed here at Fort Meade. I have been fortunate enough to practice Internal Medicine in the new Kimbrough Army Hospital. After completing my tour
of duty, I plan to finish my Medical Residency at Massachusetts Memorial Hospital in Boston."

1961

Dr. Arthur D. Boxer, Norristown State Hospital, Norristown, Pa., writes, "I am in my second year of Psychiatric Residency at Norristown State Hospital. My wife, Andrea, is studying at Bryn Mawr College Graduate School, working toward her Master's Degree in Social Work. Our son, Louis, now two, is becoming more and more gregarious and expanding his interests."

Dr. Richard A. DiMeo, Ft. Clayton Dispensary, Ft. Clayton, Canal Zone, writes, "As you must know we have been having a little trouble down here. Marie, little Richard, Lisa and I were living in Panama City at the time. We were evacuated after some 30 hours in Panama, and while we were not threatened, I felt we were better off out of there. We left all our belongings behind, but were able to retrieve them undamaged. My family is now safely tucked away in Westfield, N. J.; they were evacuated by the Army. With only four months of active duty remaining, I figured their move was the best one. I'm returning to the states in May and will start a Residency in Radiology at Montefiore Hospital in the Bronx. I'm very anxious to be a civilian again."

Dr. James E. Herlocher, AO-3124255, Headquarters Aerospace, Brooks A.F.B., San Antonio, Texas, is heading a space cabin experiment at the Air Force School of Aerospace Medicine. The experiment will keep four airmen volunteers breathing pure oxygen for 30 days. Dr. Herlocher, a Captain in the A.F., is Chief of the Aerospace Medicine School's sealed environment section and in direct charge of the experiment.

Dr. James A. Lehman, Jr., Lankenau Hospital, Philadelphia, Pa., is presently a second year Resident in General Surgery at Lankenau.

Dr. Howard A. Platt, 205 Kent Road, Wynnewood, Pa., is currently a second year Resident in Neurosurgery at Episcopal Hospital in Philadelphia. Next year Dr. Platt plans to take a year of General Surgical Residency at the Cleveland Clinic.

Dr. John P. Salvo, 562 Forney Loop, Ft. Belvoir, Va., is currently an Army Flight Surgeon for the military district of Washington, stationed at Davison Army Airfield, Fort Belvoir.

Dr. Victor R. Scarano, Mountain Home AFB, Idaho, 83648, writes to Dr. Subin as follows:

"It is always a pleasant occasion at the Scarano household when I receive a letter from you and Jefferson, because of the remembrance of a time that had much to do with the molding of my life. I regret that I have not kept in closer contact with you in the past 2½ years since our graduation.

"You are absolutely correct in saying that the support of Jefferson is an obligation of each one of us. This is especially true in the age of our expanding governmental bureaucracy and creeping socialization, which is presently seeking to gain control of all education. If the Alumni would think of this at the time of the Annual Giving Fund Drive, they would realize the dangers of not contributing. The more the Alumni can give, the less needed from State and Federal government. As you are aware by now, I plan to contribute my small share this year and I hope every year from now on.

"How much do Jeff's graduates owe her? I have come to realize that it is a very great deal. I hope some day that it will be my privilege to make a contribution to her in the field of Medicine. Even though, at this time, I plan to migrate to the University of Alabama for residency training in Surgery, the day will come when I hope to return to Jefferson."

Dr. Robert B. Tesh, Peace Corps, c/o American Consulate, Recife, Pernambuco, Brazil, is presently serving in the U. S. Public Health Service as Peace Corps physician in Recife.

1962

Dr. Robert Edward Farrell, Naval Air Station, Sanford, Fla., entered the Navy in July 1963, and was graduated from the School of Aviation Medicine as a Flight Surgeon.

Dr. Norman A. Goldstein, 6504 N. 10th St., Philadelphia 26, Pa., is now in the U. S. Navy Medical Corps, serving aboard the USS Pine Island. He recently returned from a cruise to Hong Kong, Japan, Formosa, and Okinawa, and will be leaving soon for the Galapagos Islands.

Dr. John William Miller, Jr., 317 Glen Moore Blvd., New Castle, Pa., was recently appointed a Resident in Otolaryngology in the Mayo Foundation at Rochester, Minnesota.

Dr. Robert C. Nuss, 601 Willow Way, Glenolden, Pa., interned at the Navy Hospital in Philadelphia and is presently on a six month cruise aboard the U.S.S. Tidewater. Dr. and Mrs. Nuss have two children—two-year-old Pamela Susan and five-month-old Robin Lynn.

Dr. Herbert Perlman, 2502 B, Mata dor St., Griffiss A.F.B., Rome, N.Y., writes, "I have been assigned to the Obstetrics service here. This area is near the snow belt. Last year there were 150 inches of snow up here, so you can understand why the Obstetrics service is a busy one. Since leaving Jeff, my wife and I have added a son, Daniel, to the family. Presently I plan to return to Philly to take a Residency in either Surgery or Obstetrics, after my tour with the Air Force is over."

Dr. Norman R. Scott, 145 E. Third St., Moorestown, N. J., was recently appointed an Assistant Physician in the Department of Medicine at Cooper Hospital.

Dr. Mario J. Sebastianelli, 176 Constitution Ave., Jessup, Pa., has been commissioned a Lieutenant in the U. S. Navy, stationed at Treasure Island, San Francisco.

Dr. Joseph W. Sokolowski, Jr., MC USN USS Fulton AS-11, FPO, N.Y., N. Y., concluded his internship at the U.S. Naval Hospital in Philadelphia on July 1, 1963. He is presently a Medical Officer on the USS Fulton, a submarine tender, in New London, Conn. He has been accepted for Residency in Internal Medicine at the U. S. Naval Hospital, St. Albans, in July 1964.

Dr. Albert Tawil, 2127 W. Buffalo Ave. (off Armenia), Tampa, Fla., announces the opening of his office for the General Practice of medicine. Dr. Tawil began his practice on December 9, 1963.

1963

Dr. Matthew N. Bouli, Walter Reed General Hospital, Washington, D. C., has applied for Residency in Internal Medicine with the U. S. Army. He lists his first choice as Walter Reed Hospital, where he is presently interning.
Engagements, Weddings and Births

Engagements

1951
Dr. David J. Reinhardt, III, 1303 Delaware Ave., Suite 102, Wilmington, Del., wed the former Miss Joan S. Davis on May 4, 1963.

1957
Dr. Alex J. Krawczun, 148 Barnet Ave., Trenton 10, N. J., will marry Dr. Mary A. Rorro. Dr. Rorro is a graduate of Douglass College and Hahnemann Medical College. She is affiliated with the staffs of St. Francis and Hamilton Hospitals. Dr. Krawczun is on the staff of Helene Fuld and Hamilton Hospitals.

1961
Dr. John P. Keefe, 732 Pine St., Philadelphia, Pa., will wed Miss Beatrice J. Manis of Bryn Mawr, Pa. An April wedding is planned.

1962
Dr. Paul Lee Kornblith, Resident in Neurosurgery, Massachusetts General Hospital, Boston, Mass., will wed Miss Judith Betsy Cedarbaum of Camden, New Jersey.

Dr. Willis Wardner Willard, III, USS Proteus, AS-19, FPO, N.Y., N.Y., will wed Miss Ellen Ruth Glaspey. Miss Glaspey is a graduate of Jefferson Hospital School of Nursing and is a senior at Elizabethtown College.

Weddings

1933
Dr. Thomas J. Leichner, 2211 N. Hancock St., Philadelphia 33, Pa., announces the marriage of his son, Thomas J. Leichner, Jr. who is in his junior year at Jefferson, to the former Miss Dawn Durning in August 1963.

1948
Dr. Curtis H. Swartz, 3385 Fourth Ave., San Diego 3, Calif., was married November 28, 1963, to the former Miss Ilene Eberhardt, a graduate of the University of Denver. Attending the wedding were Bob and Dotty Sturr.

1955
Dr. John A. Nagle, 9 Randall Ave., Stamford, Conn., and the former Miss Mary Catherine Gaffney were married October 26, 1963, in Stamford. Dr. Edward F. Becker (Jeff '55) was best man for Dr. Nagle. Mrs. Nagle is a graduate of Our Lady of Good Counsel, White Plains, N.Y., and holds a master's degree from the graduate school of the University of Bridgeport.

1959
Dr. William Deray Bonatti, 1401 Pennsylvania Ave., Wilmington, Del., married the former Miss Marilyn E. Sullivan on June 8, 1963. Mrs. Bonatti is a graduate of Jefferson Hospital School of Nursing.

Dr. Robert V. Davis, Jr., Lt. (MC) USN, US Naval Station Dispensary, Newport, R.I., was married August 3, 1963, to the former Miss Judith M. Chandler. Mrs. Davis was graduated from Mount Zion Hospital School of Nursing, San Francisco, and served two years in the U.S. Navy Nurse Corps. Among those present at the wedding were Nat Ching and Howard Leister.

Dr. Gerald Alan Perch, Duval Manor Apt. #514, Johnson and Greene Streets, Philadelphia 44, Pa., and the former Miss Merle Elizabeth Greenfield were married on December 24, 1963.

1961
Dr. Kenneth Marshall Given, Department of Medicine, Jefferson Medical College, Philadelphia 7, Pa., and the former Miss Joyce Ethel Scholl were married December 7, 1963. Dr. George G. Given (Jeff '56) was best man for his brother. Mrs. Given is an alumna of the University of Florida.

1962
Dr. Anthony Macri, Misericordia Hospital, 54th and Cedar Ave., Philadelphia 43, Pa., married the
former Miss Jean Elizabeth Little on September 21, 1963. Mrs. Macri is a graduate of the Jefferson Hospital School of Nursing.

DR. JOSEPH W. SOKOLOWSKI, JR., MC USN USS Fulton, AS-11, FPO, New York, N.Y., was married on July 6, 1963, to the former Miss Maureen T. Semtle of Morristown, N.J. His wife is a B.S. nursing graduate of St. Joseph’s College in Emmitsburg, Md.

DR. JOHN W. TOMLINSON, 327 Schoolhouse Lane, Philadelphia 19, Pa., and the former Carole A. Costello were married on June 16, 1962. Mrs. Tomlinson is a graduate of Jefferson Hospital School of Nursing.

Births

1947

DR. GAIL F. L. LI, 1523 Kalakau Ave., Suite 3, Honolulu, Hawaii, and Mrs. Li announce the birth of their fourth child, a daughter named Kathy.

1952
DR. KURT E. LAUER, 5800 Arlington Ave., Riverdale, Bronx 71, N.Y., and Mrs. Lauer announce the birth of a daughter, Susan Ruth, on September 17, 1963. Susan is their second daughter.

1953
DR. ROBERT L. FRANK, Cooper River Plaza, Pennsauken, N.J., and his wife, Renee, announce the arrival of a daughter, Lisa Adele, on December 10, 1963.

1954
DR. FRANK J. BEASLEY, 2401 Barcelona Drive, Fort Lauderdale, Fla., and Mrs. Beasley announce the birth of a son, Steven B., on March 11, 1963. The Beasleys have three other children, all girls.

DR. JOHN J. MIKA, 118 S. White St., Shenandoah, Pa., and his wife, Marlene, welcomed the birth of their fourth child, a daughter named Jessica, on November 26, 1963.

1960

DR. ALFRED J. FINN, JR., 106 Litchfield Rd., Torrington, Conn., and Mrs. Finn announce the birth of their second child, Patrick William, in July 1963.

1961

DR. WILLIAM J. FARRELL, 2nd Medical Battalion, Camp LeJeune, N.C., and Mrs. Farrell announce the birth of their second child on December 22, 1963.

DR. JOSEPH B. HEISTER, III, 111 Welty Drive, New Kensington, Pa., and Mrs. Heister announce the birth of a son, Todd Durbin, on July 20, 1963. The Heisters also have a 3½-year-old daughter, Amy Beth.

DR. WILLIAM D. MCCANN, 322 Bedford Circle, Hancock Field, Syracuse 25, New York, and Mrs. McCann announce the birth of a daughter, Margaret Ellen, in July, 1963. The McCanns also have a four-year-old daughter and a two-year-old son.

1962

DR. FRANCIS B. BOLAND, N.W. Corner of Fairhill and Chelten Ave., Philadelphia 26, Pa., and Mrs. Boland announce the birth of their third child, a son, on October 7, 1963.

DR. NORMAN A. GOLDSTEIN, 6504 N. 10th St., Philadelphia 26, Pa., and his wife, Vickie, announce the birth of a son, Allan David, on September 16, 1963.

DR. HUGO MORI, Resident in Urology, V.A. Hospital, 39th and Woodland Ave., Philadelphia 4, Pa., and Mrs. Mori announce the birth of a daughter, Maria, on September 14, 1963.

DR. ALBERT TAWIL, 2127 W. Buffalo Avenue (off Armenia), Tampa, Fla., and Mrs. Tawil announce the birth of a daughter, Lisa Ann, on January 10, 1964.

RECEPTION
for
JEFFERSON ALUMNI, THEIR WIVES, AND GUESTS
during the AAGP Convention

THE TRAYMORE
Atlantic City, N. J.
$5.00 per person

TUESDAY
APRIL 14, 1964
5:30 p.m. to 7:30 p.m.

Tickets available from Mrs. Mulone in the Alumni Registration Area at the Convention.
The following is the fourth in a series of portraits of "Some Interesting Jefferson Alumni" which was first introduced in the August 1963 issue and will continue to be presented in forthcoming issues of the Alumni Bulletin. This material was compiled and written by Dr. Edward C. Britt, Class of 1933, and appeared in the 1940 Clinic. That same year, it also was published in "The Medical Searchlight." We are deeply indebted to Dr. Britt for his keen interest in Jefferson's historical heritage and for bringing this material to our attention. This month's portrait is of Dr. Daniel Brainard, Class of 1834.

Daniel Brainard, M. D.

After securing his M.D. degree from Jefferson in 1834, Daniel Brainard struck out for Chicago, then little more than an army outpost. Affairs turned badly for him when he first arrived at the future metropolis, and he was described by the Honorable Dean Caton as "wearing pretty seedy clothes riding up to his office on a little Indian pony and nearly out of funds. What would the judge advise him to do? He advised him to sell his pony at a near-by Indian camp, take a little table in his (Caton's) office, and put his shingle by the side of the door."

Three years of work brought no success but in 1838, a canal laborer fractured his femur. He came to Chicago on foot before union occurred, so increasing the inflammation that Brainard decided to operate, finding it necessary to amputate at the hip joint. The patient was well for one month and the wound almost healed.

This created a sensation. Baron Larrey, Napoleon's great surgeon, had only three recoveries in hundreds of cases. Suddenly, a fatal hemorrhage occurred and post-mortem revealed a large bony neoplasm attached to the pelvis. This fatal issue in no way detracted from Brainard's work and his progress was upward and rapid.

He spent the years of 1839-1841 in Paris, at that time the mecca for American medical students, doing postgraduate work. In 1842, he became Professor of Anatomy at St. Louis University and in 1843 he founded the Rush Medical College and became its first Professor of Surgery. He named his college Rush, hoping to secure an endowment from that family, realizing nothing more, however, than a note of thanks.

In 1852, he was made an honorary member of the Surgical Society of Paris, and in 1854, received a gold medal from the AMA for his treatise "Treatment of Ununited Fractures." In 1886, following a lecture to his class on cholera he was stricken with it and died in 48 hours.
CALENDAR OF FUTURE EVENTS

April 14, 1964
Jefferson reception for Alumni, wives, and friends during Annual Convention of the American Academy of General Practice
The Traymore, Atlantic City, New Jersey

June 10, 1964
Dean's Luncheon
McClellan Hall, Jefferson Medical College
Reunion Activities
