Some Interesting Jefferson Alumni
We have received many queries each year as to the current admissions policy at Jefferson. Alumni whose sons and daughters intend to apply or who have already made application, in particular, need to be informed of the changes which have occurred since their own student days.

On Wednesday, September 7th, 1965, 176 students registered for the first year class at the Jefferson Medical College; 162 were male and 14 were female. Eighteen students were sons of Jefferson Alumni. This class was selected from 2144 applicants. One hundred and fifty matriculated as “regular applicants” and 26 were admitted in the Penn State-Jefferson Five Year Cooperative Program in medicine. Fifty-one members of the class are receiving Scholarships or loans from Jefferson Student Aid Funds; “financial need” was established in each case according to formulae set up by The Student Aid Committee of the Faculty. The amount for the current year is $60,400.

It seems to me most fitting that the Publica­tion Committee of The Alumni Association should be instrumental in bringing to the attention of its members the tremendous problem of Admission to Medical School at this particular time. The Executive Faculty of the Jefferson Medical College has delegated this responsibility to the Committee on Admissions which, at the present time, consists of 12 members; six from the Pre-clinical faculty and six from the Clinical faculty. The evaluation process included 565 personal interviews.

Jefferson does not operate on any quota basis, but it is interesting to note that 106 of the students who entered the first year class were residents of the Commonwealth of Pennsylvania.

The Committee on Admissions has just recently revised the section on “Admission Requirements” for the new catalogue which will be issued in the near future, and the Committee feels that it will be of interest and help to our Alumni body for their future reference.
Admission Requirements

Applicants for admission to the First Year Class should present evidence to the Committee on Admissions that their college work is of such high quality as to assure a continuation of this kind of work in the medical course. All applicants are considered on the basis of individual accomplishment without regard to race, color, sex or religion.

1. All requests for application forms and inquiries regarding dates for the submitting of applications should be addressed to: Registrar's Office, 1025 Walnut Street, Philadelphia, Pennsylvania 19107. Applications may be filed after June 15, 1966 and must be completed by February 15, 1967.

2. Each application must be accompanied by a $15.00 application fee.

3. The minimum entrance requirements are four years of approved high school credits and three years of college work or ninety semester hours. Applicants with a baccalaureate degree are given preference.

The details of paragraph 3 follow:

a. CHEMISTRY. Inorganic: A minimum of eight semester hours. Full college course of at least two hours of lectures or recitations, and four hours of laboratory work a week for one year are required.

b. CHEMISTRY. Organic: A minimum of four semester hours, of which at least two must be laboratory work, is required. Although not required, a course in Qualitative Analysis, Quantitative Analysis and Physical Chemistry are strongly advised.

c. PHYSICS. A course of at least eight semester hours, two of which must be laboratory work, is required.

d. BIOLOGY. A course of two hours of lectures or recitations; and four hours of laboratory work a week for one year, upon the structure, functions, and life history of selected types of animals and plant life, is required. This statement may be satisfied by a course of eight semester hours in either General Biology or Zoology, or by courses of four semester hours each in Zoology and Botany, but not by Botany alone. A course in Comparative Anatomy, Vertebrate Embryology, or Genetics is strongly recommended, although not required.

e. ENGLISH. The usual introductory course of six semester hours of English composition and literature is included in the specified requirements.

f. ADDITIONAL SUBJECTS. In addition to the foregoing specified subjects, credit must be obtained for additional college work. It is recommended that courses in a modern foreign language, Psychology, Philosophy, Economics, and Social Science be included in cases where it is possible to do so.

g. While the above are the official requirements for admission, students are urged to prepare themselves further by giving serious consideration to other educational, cultural, social, and ethical courses offered them in their undergraduate colleges.

h. Each applicant is required to take the Medical College Admission Test, which is authorized by the Association of American Medical Colleges.

i. Letters of recommendation from Professors of Chemistry, Biology and Physics, or the Committee on Recommendations, are required; in some Liberal Arts colleges the Pre-Medical Advisor forwards only one letter for the applicant and this is satisfactory. The Committee on Admissions would like to stress the importance of these letters of recommendation which are held in strict confidence.

(APPLICATIONS WILL NOT BE CONSIDERED BY THE ADMISSIONS COMMITTEE UNTIL THEY ARE COMPLETE.)

Personal interviews at the request of the Committee are required of those to be finally considered. As soon as favorable action is taken a letter of acceptance is sent to the applicant immediately. Applicants who are not favorably acted upon by the Committee on Admissions will be notified as soon as a decision is reached.

A student who has previously attended another medical school and has failed academically or has been dropped for unsatisfactory conduct will not be considered for admission for any class at this Institution.
Additional Information As To Admittance

No candidate will be admitted who has not fully met the entrance requirements by the time of registration.

In addition to the educational requirements, all students must be of good moral character. The Medical profession has for its prime object the service it can render to humanity; reward or financial gain should be a subordinate consideration. In choosing this profession an individual assumes an obligation to conduct himself in accord with its ideals.

All members of the First Year Class are required to have a physical examination at the opening of the session. The examination is compulsory.

The scheduled work begins with the opening of the session. Students are not admitted after the beginning of the laboratory courses.

Admission To Advanced Standing

Students can be accepted for admission to advanced standing in the Third Year Class only, and then only if vacancies have occurred.

Applicants for admission to advanced standing will be required to present original credentials of preliminary education that meet the preliminary requirements enforced against those admitted to the class to which the candidate seeks admission. Credentials from Class-A medical schools will be accepted, insofar as they cover the work of the First and Second Years, provided that the applicant is eligible for promotion in the school in which he has pursued the first two years of the medical course, and provided that he complies with the requirements for promotion in force at the Jefferson Medical College. Only those students who have unconditional standing in the Medical School from which they seek to be transferred will be accepted for admission to advanced standing.

In addition to his pre-medical and medical school credentials, an applicant must present a letter from the Dean of the medical school granting him honorable dismissal and recommending him or her for admission to the Third Year Class in this Institution.

An application fee of $15.00 is required.

Cooperative Five-Year Program In Medicine With The Pennsylvania State University

In a cooperative effort between Jefferson Medical College and the Pennsylvania State University, selected students can earn both the Bachelor of Science and the Doctor of Medicine degrees in five calendar years after graduating from high school. Students in this program spend the first five terms on the University Park Campus and then proceed to Jefferson Medical College. They return to the University Park Campus for two further summer terms and continue with academic work at Jefferson Medical College for four years. In this manner it is possible to complete requirements for both degrees in five calendar years.

Students should be in the highest fifth of their class and have combined Scholastic Aptitude Test scores totaling 1300 or higher.

The initial class began studies at the University Park Campus in the Summer Term, June 17, 1963.

Students interested in this program should make application on the regular admission form obtained by writing to the Dean of Admissions, 109 Willard Building, The Pennsylvania State University, University Park, Pennsylvania.

Screening Procedures

In order to illustrate the screening procedures carried out by our Committee on Admissions, several actual case histories (application folders) are presented from the files of the class of September 1965:

Student F. K., age 21, male, Pennsylvania resident, son of a Jefferson graduate, completed his application in July 1964. Initial evaluation was carried out by the Committee and he was invited to come for a personal interview at the College during August. He had attended an excellent boys preparatory school, attaining a grade average of 82, and was admitted to one of the Ivy League Colleges with an I.Q. of 125 and C.E.E.B. scores of Verbal 615 and Math 675. His scholastic performance for three years in College was a strong "B" average in both the science and non-science courses; his major subject was Political Science and he expected
to receive his A.B. degree in June 1965. The letters of recommendation from his Pre-medical Advisory Committee were excellent, and the scores on the Medical College Admission Test, which he had taken during April 1964, were recorded as: Verbal 625- Quantitative 685- General Information 645- Science 595.

At the personal interview with a Committee member his motivation for the study of medicine was sound and self-inspired; his family had not influenced his choice of profession. During prep school and college his extra-curricular activities were varied; he enjoyed sports, music, reading, belonged to several societies, and was Treasurer of his class. During the summer vacations, he had been counselor in a boys camp for two summers and worked as an orderly in a hospital for one summer. No financial problems were stated on his application blank and this was verified at the interview.

At its next regular meeting the following Wednesday afternoon, the Committee on Admissions carefully evaluated all of the above factors and, on the recommendation of the interviewer, voted to offer Mr. K. a place in the 1965 Freshman class. He was forwarded a formal letter of acceptance on September 15, 1964 (in accordance with the rules of the Association of American Medical Colleges), and within three weeks sent in his favorable reply with a deposit fee of $50.00 to be credited toward the tuition fee, at present time $1300.00 per year.

Student J. L., age 19, male, resident of Philadelphia, an honor student at Central High School, son of a deceased fireman, completed his application during August 1964 for admission to the 1965 Freshman class. He was forwarded a formal letter of acceptance on September 15, 1964 (in accordance with the rules of the Association of American Medical Colleges), and within three weeks sent in his favorable reply with a deposit fee of $50.00 to be credited toward the tuition fee, at present time $1300.00 per year.

Student J. the recommendations from the Pre-medical Advisory Committee were good and her scores on the M.C.A.T., which she had taken during April 1964, were recorded as: Verbal 525- Quantitative 595- General Information 515- and Science 605.

At one of its regular Wednesday meetings the Committee on Admissions evaluated her record and on the strong recommendation of the Regional interviewer, she was offered a place in the September 1965 class. No financial problems were anticipated in her medical education and this was verified by the interviewer.

Student E.B., age 23, male, a resident of New Jersey, son of a Physician, not a Jefferson graduate, had made application for our class entering September 1964 and was not favorably considered because of a “C-” scholastic average at a Jesuit College in Massachusetts, and M.C.A.T. scores averaging below 500. His letters of recommendation from his Pre-medical advisor were “with reservation”. The Committee had not requested a personal interview previously, but due to the strong interest of a Jefferson Alumnus, a colleague of his Father in the local hospital, the applicant and his Father and Mother had been in the office for several conferences regarding his inability to obtain admission to medical school in the fall of 1964; he had applied to sixteen schools throughout the country and had been interviewed by only two.

He had experienced great difficulty in gaining admission to graduate school, but finally did succeed and was taking work as a special student in Biology in one of the Jesuit schools in Pennsylvania during the year 1964-1965. His first semester grades in Biology were three “B’s”, and he had repeated the M.C.A.T. on two occasions with scores averaging slightly above 500. The letters of recommendation from his professors of Biology were recorded as “recommended”.

Mr. B. made reapplication for our September 1965 class during December 1964 and after receiving his grades for the first semester special work, letters of recommendation, and repeat scores on the M.C.A.T., the Committee on Admissions at one of its regular meetings voted to deny him admission to the September 1965 class. Following receipt of his letter of rejection, the Father had little to say, and most of the conversation was carried on by the Mother who was a graduate nurse. The interviewer finally decided to have a private talk with the applicant who admitted that during his high school and college days, he had had no interest whatever in science and felt that the life of a Physician was one of drudgery. He really wanted to go into the “Antique business” and plans had already been made to marry a girl who had already established a small Antique business on the Dupont Boulevard in Delaware. Through the years he had never been able to persuade his domineering Mother that he did not want to follow in the footsteps of his Father, or an older brother, who is also a Physician.

Comments:

1. Jefferson does not seek applicants with specific areas of interest; rather, outstanding basic abilities and motivation, diversity of personality, of talent, and previous study are sought. Intensity and depth of knowledge are important. No particular major field of study is recommended, for who is to say what specific background may be most important for the student in future years. We feel strongly that this phase of the educational process should be in accord with the indoctrination of the school of Liberal Arts from which the applicant comes; Pre-medical Advisors and Counselors are fully aware that scientific knowledge has so mushroomed in the last decade that our Committee is forced to consider each course individually almost without consideration of the grade obtained. The Committee has never stated any particular grade point average for admission; we are fully aware that every grading system is imperfect, and that reports of no two colleges are directly comparable.

2. Since undergraduate scholastic performance is the single most important criterion for predicting success in medical schools, the Committee on Admissions offers this helpful point to those future applicants to the Jefferson Medical College. We will continue to evaluate each student carefully as an individual, and use the test scores (C.E.E.B. and M.C.A.T.) in the same manner as laboratory tests in Clinical Medicine.
Conclusion:

Many factors combine to increase the demands for Physicians, not only in quantity, but also in quality. The physician of the future will be called upon to be a superb technician steeped in quantitative biology, physics, and engineering, to be equally equipped for treatment and prevention of disease, and to be cognizant of the social, economic, and psychologic problems of his patients. While we may be forced to permit him to be a specialist in a narrow area of the body, he has to remain a generalist as far as mind, family, and ethnic background of his patient is concerned.

Joseph Ceithaml, Journal of Medical Education, 1962, focusing his interest on both the intellectual and non-intellectual characteristics, has defined the ideal medical student as "intellectually gifted, physically strong, and emotionally stable—one who is also personable, service oriented, and broadly educated—a person of transparent integrity whose motivation for the study of medicine is both keen and self inspired".

The Committee on Admissions appreciates the many letters of recommendation we receive every year from our loyal Alumni members in support of applicants to the Jefferson Medical College; we especially appreciate the time and effort of those Area and Regional interviewers who have aided the Committee in the evaluation process. It is sincerely hoped that all of the Alumni will continue to assist the Committee on Admissions in the very difficult task of evaluating the many applicants to our medical school and we feel strongly that it is the duty of every Alumnus to help keep the standards of the school at the highest possible level.

Finlay Philatelic Commemoration

Philatelic history of the discovery of the yellow fever vector, commemorating the 50th anniversary of the death of Dr. Carlos J. Finlay (1833-1915). Dr. Finlay graduated from Jefferson in 1855. Depicted on the stamps are the discoverer, Dr. Finlay (3 centavo stamp); Dr. Claudio Delgado, who worked with Finlay (9c); microscope used by Finlay in his research (7c); the Aedes aegypti, vector of the disease (2c); team of U.S. physicians headed by Dr. Walter Reed, verifying Finlay’s discovery (13c); monument to Finlay in Havana, Cuba, where he was born (10c); signature of the scientist (1c).

STUDENT AID AT JEFFERSON

by Samuel S. Conly, Jr.
Associate Dean

The story of financial aid at Jefferson is told most quickly by glancing at the table below. The number of students receiving aid and the amount available to students have increased markedly over the past several years. Along with increases at Jefferson, there have been increases in external sources and amounts. Particular attention is due the AMA-ERF Loan Program which last year provided $4,133,951. in loans to medical students throughout the United States; $42,600. of that total went to Jefferson students alone.

Today, no applicant need shy away from Jefferson for financial reasons alone, and no student, once admitted, need drop out solely for financial reasons. In fact, it is possible for a student with no dependents to receive total support—part supplied by Jefferson, the remainder supplied from external sources. Two sources alone can provide total support: Jefferson up to a total of $2,000 annually and the AMA-ERF up to $1,500 annually.

Financial aid at Jefferson is awarded on the basis of need. Once need is established and favorable action is taken by the Executive Faculty Committee on Scholarships and Student Aid, those students with the highest scholastic averages are awarded scholarships, according to the amount of scholarship money available, and all others receive loans. Most of Jefferson's loan money comes from the new federal Health Professions Student Loan Program; Jefferson must add one-ninth of the total amount received from this source and is responsible for administering the loans and collecting the amounts due. Repayment of these loans can extend over a ten-year period beginning three years after a student graduates. Thus, long-term planning, time and effort are involved in carrying forward the student aid program.

It is felt by many and concurred in by the Executive Committee of the Alumni Association that there is need for merit scholarships (scholarships awarded on the basis of merit without regard to financial need) at Jefferson in order to attract top-caliber students and to compete with those schools which do. In keeping with this feeling and in order to implement it, a new category designated "Scholarship Fund" has been added to the pledge slips which are distributed to Alumni through their Class Agents. Thus, the contributor now has the additional choice when specifying as to how his contribution should be used.

Within the past two years, in answer to a need, an Emergency Small Loan Revolving Fund has been established enabling a student to borrow up to $100 for a two-month period. Such loans are particularly helpful to students whose funds have been temporarily depleted or who have had a sudden added financial burden.

Today, the Jefferson student in financial need has far more aid available to him than did his predecessor, and his financial worries are lessened; there is less necessity to seek jobs and he can give more attention to his studies.

changes and progress noted

Annual Alumni Dinner and Business Meeting

One hundred and ten loyal Alumni and faculty members braved snow and cold to attend the Annual Business Meeting and Dinner of the Alumni Association on Thursday, January 27th at the Holiday Inn.

President Fry presided and greeted the guests warmly. He introduced Dr. Henry L. Bockus who, with Dr. Francis J. Braceland, is an Alumni Trustee on the Board of Directors.

At Dr. Fry’s request, Dr. Bockus spoke briefly about his experiences as a Trustee. He categorized the Board as a “devoted group” who are constantly working for Jefferson’s progress in all areas. He also spoke of the able leadership of President Bodine, Dean Sodeman and Mr. Norwood, Vice President and Treasurer. He said that all Alumni should feel very secure with the affairs of Jefferson in such able hands.

Dr. Fry then opened the business portion of the meeting and the Chairmen of all Standing and Special Committees of the Board reported on their groups’ activities during the year.

Following the committee reports, Dr. Fry called on Dean Sodeman to address the group on behalf of the Administration. Dr. Sodeman’s speech follows.

“1 would like to preface my remarks by a story illustrative of the fine administration of the Alumni Association under Dr. Fry. It seems there was a young boy who had reached the age his parents thought desirable for dancing lessons. For the first lesson his mother dressed him up and gave him several words of advice. The first was that following a dance with a young lady, he should thank her, and secondly, that he should also say something nice. To dancing class he went, where, after preliminary discussions and demonstrations of the old one, two, three step, the instructor announced that sometimes at dances there was ladies’ choice of a partner. They would start this way. A fat, rather unattractive little girl approached our hero and he danced with her. After the rather awkward ordeal was over, he said “thank you,” and, remembering the admonitions of his mother to say something nice, stated “you sweat less than any fat girl I know.” Now Dr. Fry, thank you for your fine administration, for your Administration has caused very little sweat in the Dean’s Office.

“Mr. Large, the Chairman of our Board, asked me to touch upon some of the highlights at the old school during this past year. This must be sketchy, of course, and I can give only certain examples.

“1o begin with, Mr. Large asked me if I would say something about my thoughts on the new structure of our Board of Trustees. You are all familiar with the fact that we now have life trustees, term trustees, and alumni trustees. The change in Board structure I believe has been remarkable, particularly for me. We still have the dedication, industry and long experience of our life members and have been helped immensely by the new trustees as well. Mr. Munns, for example, brings sound advice in areas related to medical education in the field of pharmaceutical activities. Judge Higginbotham and Mr. Fred Ballard can and do evaluate very soundly many of our programs as they have an impact upon the community, the social structure, and public service areas so important to us. Dr. Hagerty, as president of Drexel, adds to the Board sound academic experience at administrative level and to me, as Chief Academic Officer of the Institution, represents as understanding ally in explaining the academic programs I present. Drs. Bockus and Braceland, your alumni representatives, do the
Outgoing President, Dr. Fry (left), hands over the gavel to Dr. Castallo.

Enjoying conversations are (from left) Dr. Elmer J. Elias, Dr. John J. O'Keefe, and Dr. Vincent T. McDermott.

The camera catches two former Association Presidents, Dr. Cantarow (left) and Dr. Haskell.
Assistant Dean Dr. Killough (from left) and Associate Dean Dr. Nye chat with Dr. Marshall C. Rumbaugh.

Dr. John H. Hodges reports on the activities of the Alumni Achievement Award Committee.

Shown deep in conversation are (from left) Dr. Castallo, Dr. Nye, Board of Trustees member Mr. Revelle W. Brown, and Dr. Martin J. Sokoloff.
same, for they are seasoned and experienced academicians and administrators in medical education. They offer further the background in medical knowledge so fundamental in some of our discussions. For the first time we now have three educators on our Jefferson Board active in policy making. We are on more sound ground than ever.

“For President Bodine I would like to make several remarks. You all know the happy news
that we are “over the top” in the development fund drive, with seven and a third million dollars in hand—most helpful and necessary to attract other monies to put us over the forty million mark. Seven million is basic to the attraction of other funds: loans, housing funds, matching governmental funds for our educational structure, and so on. We have already tooled up and are planning for the steps ahead.

Building Progress

“That the Basic Science structure and Student Union is to the third floor now and will be finished for our September 1967 class you already know. This means more research, more students, more budget, more faculty for that time. The twenty-one story Orlowitz Building, a residence for students, house officers, and graduate nurses, programmed on the site of the old bank at Tenth and Walnut, is off the architect’s drawing board, settled as far as financing mechanism is concerned, and we now have a mock-up of some of the facilities set up in the Stephano Building so that everyone can see what the living quarters will be like and so the students and others can see what they’re signing up for. As you all know, Stein Center is finished and functioning. I want to commend Dr. Hodes for this fine job. Currently, we have the Library-Administrative Building in the midst of planning. I have been able through some relationship with the National Library of Medicine, to gain some consultation from them in the non-traditional areas, the new dimensions into which library activity is advancing. We have the best traditional library collection of any school in town. We plan to keep it that way and in the new non-traditional areas as well in the future. We plan to place it in an environment conducive to the best of everything an educational institution should have. Our hospital planning committee has worked long and hard on our new patient tower, that
is new beds to be built on the air rights over the new parking authority garage on 11th Street between Samson and Chestnut Streets. The entire needs of the hospital in its patient care and teaching program have been gone over by this committee from the standpoint of inpatient services and needs for office facilities for our voluntary staff members are immediately adjacent. The importance of bringing our part-time staff, so fundamental to a sound teaching program, in proximity to Jefferson, cannot be over-emphasized.

"So we are well on our way. Dr. Cornelison in Psychiatry is pushing forward on his Institute of Behavior, Dr. Holly has the programming of his Institute of Perinatal Biology already settled and faculty is now functioning in this sphere. For the future we envision housing for this facility as very important. In Ophthalmology and in the Neurosensory area generally, we have extensive planning as well. We are not only on the move—even the move is on the move.

**Administrative Revamp**

"The restructuring of the Administrative Organization, stimulated by a study by Cresap, McCormick and Paget, is well underway. All is going smoothly and well. Mr. Norwood, our new Vice President for Business and our Treasurer, is evolving his group. An institution-wide personnel activity is being established. A new Director of Services is now on the job to carry forward with our electronic data processing and other activities. In the Dean's Office, Dr. Robert Gilbert is doing a tremendous job in backstopping myself, and Drs. Conly and Nye. You all have evidence of the tremendous activities in continuing education under Dr. John Killough and our new Administrative Research Officer, Dr. Menduke, has combined his skills in statistics and grant structuring in heading up this office. Our biggest problems are the new programs and the time they take. This includes money for the teaching program from the Federal Government, Heart Disease, Cancer, Stroke Programs, and so forth. We look forward to a new Development Officer at high level to help backstop these activities.

"Now to our academic structure.

"With us too, now, is Dr. Richard Chambers who heads up the Department of Neurology. Dr. Chambers comes to us from England, Oxford University and St. Thomas Hospital Medical School in London, by way of Boston and Seton Hall. He is, we know, a crack clinical neurologist and a stimulating investigator, the kind of man essential to follow Dr. Alpers. As you know, our Faculty Committees are searching diligently for a new head of Biochemistry to replace Dr. Cantarow when he retires this coming summer and a new head for Pediatrics to replace Dr. Keitel who resigns at the end of this academic year.

**Faculty Retreats**

"One of the most striking, most heart-warming activities at Jefferson is in the ferment in the Faculty relative to our teaching program. We have had two Faculty Retreats and they activated a number of special committees and task forces working on changes in curriculum, graduate school structure, development of a paramedical sciences group or school, basic science teaching to house officers, problems in student attrition, and many other areas. Indeed, the next three to five years at Jefferson will be most exciting ones in our educational history.

"Time does not permit me to go on to other areas. In Medicine, such as in Gastrointestinal disease, and the extensions in the Cardeza activity, in the Renal group, much is going on. Dr. Gordy heading our new Neurosurgical unit is laying sound groundwork for us in this field. Ophthalmology in its extensions, Preventive Medicine with a new look including residency programs in that area, extension of our-patient services into the home, development of the Pedi-care program, programs under the Office of Economic Opportunity—Well, I must stop. I cannot go on with the total list. You have an indication of the great strides we are making. Jefferson is not only truly on the march but is on the double!"

Following Dr. Sodeman's speech, Dr. Fry escorted the new President, Dr. Castallo, to the podium and, after a few brief remarks, Dr. Castallo adjourned the meeting.
Dr. Castallo Installed
As Association President

On the evening of January 27th, Dr. Mario A. Castallo was installed as the 1966-1967 President of the Alumni Association of Jefferson Medical College.

A native of Providence, Rhode Island, Dr. Castallo took his undergraduate training at Holy Cross College, Worcester, Massachusetts, where he received his A.B. degree. He received the honorary degree of Doctor of Science from Holy Cross in 1945. In 1925 he matriculated at Jefferson and after graduation he returned to Providence, serving his internship at St. Joseph’s Hospital there. Following his internship, he took a residency in Obstetrics and Gynecology at New York’s Lying-In Hospital and at Sloane Hospital for Women.

He began his teaching career as an Assistant Demonstrator of Obstetrics at the Jefferson Medical College in September 1933. He rose from Assistant Demonstrator to Associate Professor of Obstetrics and Gynecology in 1947 and in 1952 he was promoted to his present position of Clinical Professor of Obstetrics and Gynecology.

Dr. Castallo has written numerous books and monographs including *Expectantly Yours* on which he collaborated with an associate. It was first published in 1943 and became a magazine serialization in 1944. In 1943 Dr. Castallo’s *Mechanics of Obstetrics*, also written in collaboration with an associate, was published. In 1948 *Woman’s Inside Story*, gynecology for the Laity, was published. The year 1957 marked the publication of his book *Getting Ready for Parenthood*. It was published by the Macmillan Company simultaneously in the United States and Canada. The following year a Spanish edition was published in Barcelona, Buenos Aires and Bogota. And in 1961 the book was chosen by Collier Books as one of a selected list to be published in a paperback edition.

He has been written up in *America’s Young Men, Who’s Who in the East*, and *Who is Important in Medicine*, among others. Dr. Castallo has contributed widely to scientific journals and is a member of numerous societies including the Philadelphia County Medical Society, the Pennsylvania State Medical Society, the Philadelphia Obstetrical Society, the Pan-American Medical Association, the American Association of the History of Medicine, and the American Association for the Advancement of Science.

Despite his many activities, he has always devoted considerable time to the Alumni Association. He has served as Class Agent for the Class of 1929 in the Annual Giving Fund for a number of years, is a member of the Executive Committee and has served as a Vice President of the Association.

The first annual Obstetrics and Gynecology Prize in honor of Dr. Mario A. Castallo was presented to a junior student at the College’s 142nd Opening Exercises this past September. The testimonial award, given for general excellence in clinical obstetrics and gynecology, is based on an endowment given by an admirer of the distinguished obstetrician and gynecologist and will be presented to an undergraduate each year at Opening Exercises.

Dr. and Mrs. Castallo have two children, a daughter, Mary Jo, and a son, Mario, Jr. Whenever he has time to spare, he enjoys golf and fishing—particularly big game fishing.
NECROLOGY
Deaths Reported Since Last Annual Business Meeting
February 25, 1965

1892—Jesse E. Harpel, died January 2, 1966
1896—Benjamin L. Gordon, died March 24, 1965
Augustus J. Korhnaak, died May 22, 1965
1898—George W. Truitt, died June 26, 1965
1900—Alexander A. Brown, died November 23, 1965
George Henry, died March 29, 1965
1901—D. Randall MacCarroll, died December 2, 1965
1902—Samuel M. Beale, Jr., died May 11, 1965
1903—Leslie R. Chamberlain, died May 30, 1965
William M. Edwards, died July 22, 1965
Charles W. Fogarty, died September 17, 1964
Frank J. Heisler, died October 21, 1965
Robert M. Patterson, died March 4, 1965
William B. Washabaugh, died August 6, 1965
1904—Emery A. Rust, died April 10, 1965
1905—Malcolm Z. Gearhart, died October 15, 1965
Ferdinand P. Herff, died March 21, 1965
Morris Reichard, died August 18, 1965
John R. Simpson, died March 10, 1965
1906—Addison D. Davis, died June 8, 1965
Fielding O. Lewis, died May, 1965
1907—James L. Ballou, died January 6, 1966
Shem A. Everett, died January 9, 1966
1908—Earl Axtell, died July 7, 1965
Henry Klinzing, died April 9, 1965
Cheney M. Stinson, died June 18, 1965
Vernon A. Ward, died August 3, 1965
1909—Nathaniel H. Koplin, died March 12, 1965
Francis St. Clair Reilly, died April 22, 1965
George H. Robinson, Jr., died September 11, 1965
1910—John H. McCall, died May 14, 1965
Charles A. Moriarty, died May 7, 1965
Alfred L. Rhoads, died May 14, 1965
David H. Rosenfeld, died December 28, 1965
1911—Jacob F. M. Snyder, died August 28, 1965
1912—Leon Solis-Cohen, died May 6, 1965
Frederick C. Turnbull, died November 2, 1965
1913—Kenneth Tuttle, died June 6, 1965
1914—Leo J. Clancy, died August 1, 1965
1916—Norman M. MacNeill, died June 16, 1965
1917—Abraham I. Baron, died June 28, 1965
Roy S. Clark, died March 1, 1965
Francis B. Eveland, died July 25, 1965
Edward A. Mullen, died January 22, 1966
Albert Wellington Fisher, died September 29, 1965
1918—William R. Cooper, Jr., died September 19, 1965
John McF. Jamison, died November 4, 1965

THOMAS L. WILLIAMS
Associate in Biochemistry
28 May 1904—1 December 1965

He came to us thirty-four years ago. Some six thousand of our students knew him and respected him. His service to the institution was long and beyond means of evaluation. Williams was the indispensable person who knew where everything was located, how it was put together, and how to keep things in order. His was a sense of perfectionism. The hills and the mountains of West Virginia lingered in his colorful speech and in his warm personality. We of the faculty loved this man.

Mr. Williams was a Jefferson tradition.
Architect's sketch of 1902 hospital and college

JEFFERSON'S ARCHITECTURE

Part II

by Edward Teitelman, M.D.
Class of 1963
At the turn of the century Jefferson was in the midst of a construction program that had given it a new college and laboratory building, and would produce a new hospital structure within another eight years. The old medical school building, whose basic substance dated back to 1827 and whose progressive embellishments formed the subject of much of my first article, still stood on Tenth Street, but its end was near.

The required property on Tenth Street on either side of the old buildings had been bought at the time the new medical school was built. In 1902, following several years of further study by the architect and trustees, plans for the hospital were approved and the site cleared. Old Medical Hall was gone. Construction contracts were let in 1903, but strikes and other difficulties held up the work, and the building was not completed until four years later. It formally opened in January of 1908.

James Windrim and Son, who had designed the new college and laboratory building, were the architects; a stipulation in their original contract was that they would design the entire group. They produced a fireproof, seven floor and two basement, steel framed, terra cotta and salmon brick building, covered with pilasters, pediments, piping and posh. The style took the English Renaissance of the medical college some stages further with an effusion of details best classed as Beaux Art Busy. It bulked over the earlier structure, and fussed brightly for attention. Its current exterior state, tamed by modernizations and grime, only suggests the original fulsome effect.

As a working hospital it was remarkable for its day—ventilation was well attended to, and balconies, however limited in size and view, adjoined each of the fourteen wards. A roof garden supplemented these for heliotherapy and more extended rambles. Even all interior corners were rounded and a central vacuum system was installed to facilitate sanitation in the pre hexachlorophene and electric buffer era.

The old hospital was then converted for use as a nurses' residence and school. These teaching facilities were not integrated with the medical college, according to a contemporary account, lest people take Jefferson for co-educational and scandal ensue. The remodeling was apparently limited to the interior—and limited.

Baugh Buys D.B.I.

In 1910 the building of the Pennsylvania Dental College at Eleventh and Clinton Streets became vacant and was purchased by the college for the department of Anatomy. The structure had housed the Oral Branch of the Deaf and Dumb Institution before it moved in 1894. Daniel Baugh, an active and affluent trustee, paid off the mortgage and provided funds for extensive embalming basement to skylight roof alterations. The Windrims were again the architects. The owner of the adjoining house, a Miss Elizabeth Burroughs, brought suit to halt Jefferson's plans, contending that obnoxious odors, noise, and students would probably lower property values. To prevent delay, and possibly to prove her economic contention wrong, Baugh bought her house, and it was annexed onto the college structure. This transition can still be noted both outside and in, just east of the main entrance and stairway. The Daniel Baugh Institute of Anatomy, as it was named with good cause, opened in 1911—guided by some degree of practicality and long tradition, the dissecting room was on the top floor, and the amphitheatre seats were hard.

With the expansion to Clinton Street, pressures on the medical school were more or less abated for a decade and a half. The nursing school, however, was finding its converted quarters increasingly inadequate. By 1922, with the impending demolition of their building for the Thompson Annex, a move was dictated.

A site comprising the properties from 1012 to 1018 Spruce Street was assembled. The plan was to move the nurses temporarily into the houses on the site; when funds were available the houses would be demolished and a new building placed on the property. The structures were somewhat altered for use, and were occupied by 160 nursing students late in 1922. The Hospital Report notes that the girls' first spontaneous action was to string a hammock in the back yard, so pleased were they with their new dorm.

The houses themselves are of more than passing interest, for they represent, except for 1014, a row dating from about 1840 in handsome but simple Greek Revival style. Although their archi-
The architect is not known (William Strickland may have been involved) they represent such handsome examples of their time that they have since been certified as historical by the Philadelphia Historical Commission. The property at 1010 Spruce, also of the same date and design, was added to the nurses’ complex in 1931. The house at 1014 was somewhat unusual and special—it represented one of the fine small town houses by Wilson Eyre, a most creative local architect, active from the 1880’s through the 1930’s. Eyre had several oblique associations with Jefferson, and his home and office (a remodeled row house) still stands across the street at 1003 Spruce. In 1883 Eyre designed “Anglecot,” the Chestnut Hill home of William Potter, later President of Jefferson, and helped enlarge it several times thereafter. Eyre also did several alterations of downtown houses for Dr. George de Schweinitz, Jefferson’s second Professor of Ophthalmology, at the turn of the century. The Mask and Wig Club on Quince Street, scene of many Jefferson affairs, is an 1834 church-turned-stable remodeled for the Club by Eyre in 1894 and 1901. The building is said to have served for a time as a supplementary Jefferson dissecting room in its pre-Wigger days.

The building at 1014 Spruce Street was extensively rebuilt for Rodman Wistar in 1887, and presented only a minimal stylistic relationship to the adjoining buildings. Of brown brick and brownstone, it carried a somewhat medieval flavor. With its striking carved faces, involved brickwork, variety of windows, large relieving arch, and carved dragon holding the house number, it became the focus of the hospital property, and was used as the main entrance for the “temporary Nurses’ Home.”

The Hospital Report of 1924 displayed a sketch of the projected new Nurses’ Home, a bland and rather bulky “colonial” box by J. Fletcher Street, a minor architect of the day. Construction was begun on a six floor wing on the rear of the site, behind the houses—in 1926 two more floors were added to this. With the Depression and World War II, completion of the scheme was postponed, and when action was again considered a new site nearer the hospital was chosen. The nurses moved out in 1957, and the Greek row with the Eyre house in the middle and the eight floor block in the back lay abandoned until recently it was remodeled into apartments, resulting in the almost total destruction of 1014.

The Annex Arrives

Things were not quiet at Tenth and Walnut in the early 1920’s, for the Samuel Guston Thompson Annex was then lifting its terraced top over the rest of Jefferson from Sansom Street. James T. Windrim was the architect for the fifteen floor building,1 some vague Renaissance...

sance details cover the budget inspired structure with thin icing. A new clinical amphitheatre was provided which certainly marked an advance in acoustics and comfort over the prior one. The operating rooms were placed on the fourteenth floor, with the laboratories, likewise high above possible street contamination, on the floor above. More than the 1903 building, this marked the emergence at Jefferson of what may be called the “elevator hospital”—a form that has become the established essential on a downtown site. The color of the brick was in keeping with some yet undiscovered covenant to convert this quarter of the city into a great “salmon” spawning ground, or at least to give that impression.

By the late Twenties, over twenty-five years since the medical college buildings were enlarged, the pressure for larger quarters had again grown great. Horace Trumbauer, a Philadelphia architect with a few good designers and some rich clients, provided the current tall, two-headed structure along Walnut Street for the college and the clinic. Trumbauer, who was

Architect's sketch of Thompson Annex
Architect's sketch of Jefferson Medical College, 1929
been a classical reading of French Renaissance with a Beaux Arts twist, but by the 1920's his men had turned to (among other things) the then advanced "modern", a "vertical style" which sought to express the height of tall buildings with multiple vertical pillars.

Interestingly, the original plan for the college envisioned it clad in "colonial." When it was determined that conversion of the old college building for clinic use would cost more than a new structure, the current combined form was developed—apparently while the college was already under construction.

The architect's sketch for the final design shows the vertical emphasis well. The building's ornament is terra cotta in a stylized Romanesque, but the top of the building is almost Aztec in feeling. Overall, the design is actually somewhat restrained for a time when "jazz" was not unknown in "progressive" building circles.

The clinic portion was undertaken after the college was opened, and was completed in 1931. It was named for Cyrus H. K. Curtis, the publisher, whose philanthropy helped make it possible.

The complex makes an effective mass, but the verticals have been confused by projecting air conditioners. The interiors, utilitarian and spare, have taken alterations somewhat begrudgingly, but generally the buildings function well. Although not "great" structures, and nowhere as advanced architecturally as the nearby Philadelphia Saving Fund Society building (built in 1932 and already an historical landmark), the college-clinic represents one of the significant ways the recent past tried to deal with the meaning and feeling of tall buildings in a new and creative way.

**Buildings that Float**

Jefferson was now complete . . . for another few years. By 1955 the hospital facilities were again outgrown, and the western end of the Walnut Street block was cleared. On this site the 230-bed Percival Foerderer Pavilion was erected after plans by Vincent Kling. Shortly before this commission Kling had established his reputation with the Lankenau Hospital complex on City Line Avenue, and since then has

"Foerderer Pavilion"

"Architect's sketch of Pavilion showing initial Walnut Street treatment."
developed a wide-spread practice of calibre; his recent local work includes the Municipal Services Building (Reyburn Plaza) and the I.B.M. Building at Penn Center.

The Jefferson tower displays competent Kling with several tantalizing bits of genius that make one wish for more. The layout is good but not unique—a long hall, connected somewhat near the center with the old buildings. Elevators, nursing stations and such are grouped at this connection. The exterior is the standard salmon brick, here with strip windows. The first floor is handled to suggest free-standing pillars, the walls between the pillars are recessed and of glass, and the Walnut Street end is completely open, allowing the remaining floors to "float" above. The effect is flawed, however, for the bricks appear to "float" in air without support (they actually rest on hidden steel channels) and one experiences a certain uncertainty about the whole proposition. A recent alteration to the first floor toward Walnut has further confused the articulation of building and ground, and destroyed the former architecturally effective entrance. The most excellent feature, still unchanged, is the upper Walnut Street facade—a solid brick wall with its top floor balconies forming an asymmetrical but balanced composition, delightful to the eye. The photographed facade, it no doubt was the key to the building's winning an American Institute of Architects Gold Metal in 1955.

The plaza which was created at Walnut marked a real advance in humane city and college planning, and was the first opening on a downtown street in many years. It appears to have been something that evolved as designs progressed for the early sketches show a low section of building carried to the Walnut Street pavement line. The plaza not only allows light, air, trees, students and citizens to mix in health proportions, but serves to accent the facades of both the college and the Pavilion.

Essence lost in Transit

In 1959 Jefferson moved across Walnut Street, placing the James Reed Martin Nurses' Residence on the southeast corner at Eleventh, where Dr. Samuel Gross' home once stood. George Ewing and Company were the architects. They carried over several motifs of the Pavilion, but seemed to lose their essence on the way. The building "floats" somewhat at one end, but squats its fire tower down at the other; the top is cluttered, the facade confused, and the ends dull. A small plaza was left at Walnut, which is nice....

After this, the deluge... By the grace of the Redevelopment Authority, and the state, their right of eminent domain, federal funds and low interest bonds, Jefferson will expand to at least several times its current area, providing facilities and services long needed and some yet undiscovered.

The original plan for expansion involved the two blocks between Tenth and Eleventh from Walnut to Spruce Street. Almost all of the current structures would be demolished, but the college was to rehabilitate for its own use the bulk of the Spruce Street houses, a number of which are Greek Revival types or are otherwise of significance. The large double-lot brownstone at 1035 Spruce, built for Edward Roberts about 1840 and later in the Jayne family, represents a rare type in Philadelphia. Eyre's house at 1003 (already mentioned) still retains the excellent gate the architect designed for himself and his neighbor, Dr. Charles Judson, in 1911. It was executed by the famed local ironworker Samuel Yellin.

The current revised plans will have this row restored by others, and move Jefferson both east and west of the old boundaries, between Walnut and Locust Streets. The possibility of extensive construction on Chestnut Street has also been raised. The master planning is by the
Plan #1

Plan #2
large local firm of Harbeson, Hough, Livingston and Larson (conveniently known as H3L2). The group’s past work has been mainly Beaux Arts institutional modern, but their designers are now successfully joining the less pompous mainstream of contemporary architecture. The Rayburn House Office Building in Washington and the over scaled Georgian of Independence Mall have been balanced by more interesting work at the University of Pennsylvania (eg the Library) and for the Philadelphia Housing Authority (West Park Apartments at 46th and Market). The Jefferson plan is rather random, neither monumental nor intimate. It is probable, however, that a much more cohesive campus will emerge with future revisions as the currently necessarily nebulous nature of future needs becomes more concrete.

As part of the general rehabilitation in progress, modernization of the “old hospital” and Annex is proceeding floor by floor, also under H3L2’s direction. The inside results are bright, clean and cool, but the exterior effects of partly closed windows and random ducts are somewhat less smooth . . .

A Modest Landmark to Go

The land directly to the south of the college will be developed for additional nurses’ residences, student and house staff housing and library use. The structure on the corner of Tenth and Walnut, the former Western Savings Fund main office, will be razed. The cornermost section is the work of James Windrim (1887), his son adding the other bay in the same style some years later. It is nicely Romanesque, and though too minor a work to inspire picket lines to protest its demise, it would have made a nice addition to Jefferson’s Windrim collection. Expediencies in its original construction make any conversion to library use excessively expensive. In its place will go the Orlowitz Residence Hall, a multi-use structure by Eshbach, Pullinger, Stevens and Bruder, currently in design.

The Mohler Building, a house turned publishing office taken over by Jeff in 1953, the Horn and Hardart Commissary, several warehouses, and a row of stores share the rest of the block and a similar fate—demolition. The struc-
their reconstruction of an old building at 202 South Hutchinson Street (east of Tenth and south of Walnut) for the Stein Radiation Biology Research Center. A rather pleasant surprise in its hidden location, it displays problems at its articulation with the ground reminiscent of the Martin Nurses' Residence, and thus falls short of full success.

If the architectural history of Jefferson shows only a few moments of brilliance, it also shows little that was simply poor—no mean accomplishment for over 140 years of construction. With the greater part of the future campus not yet assigned, let alone designed, the architectural prognosis for the institution is uncertain. Increased awareness and interest in architecture and planning on the part of those of us who use and/or finance facilities will assure liveable, humane, and possibly more noteworthy buildings in the years ahead. It is to stimulation of such a knowledgeable interest in the present and future, based on a reasonable appreciation of the past, that these articles have been directed.

Jefferson Hall: Basic Science-Student Commons Building

This paper was based, in part, on research supported by a grant from the Penrose Fund of the American Philosophical Society, and an earlier contract with the Philadelphia Historical Commission. It also would not have been possible without the cooperation and interest of Dr. Edward Bauer, and Miss Virginia Fones, secretary to President Bodine.

Footnotes:
1. A heavy eclectic semi-Renaissance style of the period drawing its source from the French academic centers.
2. The medical college retained the amphitheatre, and the area under it was altered in 1911 to house the expanded X-ray department.
3. Now called Hollander House, it was featured in the January 9, 1966 Sunday Bulletin. Unfortunately the Wistar House was wrongly assigned to Frank Furness and there were several other, more minor, errors.
4. Windrim apparently donated his services, but these were terminated at his request before construction was completed, the builders, Stone and Webster, assuming the role of architect after April 1923. The agreement for the 1898-1908 buildings stipulated that half of the architect's commission would be donated back to Jefferson. The Windrims also did a number of minor alterations, plaques, etc. gratis in the intervening years.
5. "Floating" is one of a number of spatial gymnastic tricks possessed by modern architects, and was pioneered by Le Corbusier in the 1930's.
6. In 1900 the trustees suggested that Windrim look into the possibility of leaving some space "to be ornamented with grass, flowers and trees" in designing the new hospital. It is obvious that nothing materialized.
The Return of Intercollegiate "Football" at Jefferson

by Paul Flynn
Class of 1966

The Old and the New

Perhaps some of our readers will recall hearing of the old Jefferson Football Team that tore up the turf around the turn of the century—or perhaps you were there. History books tell of exciting victories over such opponents as Lehigh, Franklin and Marshall, and Rutgers, and of the spirit and pageantry of the annual Jefferson - Medico Chi games. Unfortunately, intercollegiate football at Jefferson became history after 1909.

Although interfraternity football has continued to flourish, it was not until the fall of 1963 that intercollegiate football, in the person of the Jefferson Medical College Rugby Football Club, returned to the College.

The Game of Rugby

For those of you unfamiliar with the sport of rugby football, rugby originated at the Rugby School, England, in 1823, when a young upstart soccer player, wearied of kicking, picked up the ball and ran for the goal.

The game has a long and colorful history, is the national sport in many countries, and has
been played in the States since the 1890's. International matches in Great Britain often draw more than 100,000 spectators. The game requires the utmost in skills and endurance, yet prides itself first and foremost on the sportsmanship of its players, both on and off the playing field.

The game itself is more a players' than a spectators' sport. Each of two teams of 15 players wage friendly combat during two 40-minute periods on a field 110 x 75 yards in dimension. There is a five minute halftime for players to catch their wind. In rugby, there are no substitutions, no time-outs (except for care of an injured player), and padding, as used in American football, is forbidden. Each team is composed of eight linemen and seven backfield men. The game is one of ball control, and the ball may be advanced by running, kicking or passing. However, forward passing and blocking are not permitted. A team may score by carrying the ball across the goal (three points), kicking the “point-after-touchdown” (two points), kicking a penalty kick (similar to a field goal; three points) or by drop-kicking the ball through the goal while the ball is in play (three points).

Rugby in the U.S.A.

Rugby is now played throughout the world. In the U.S., popularity necessitated formation of a governing body, the Eastern Rugby Union, in 1934. Some 60 clubs in cities between Richmond, Virginia, and Hanover, New Hampshire, currently compose the membership in this union. In addition, there are similar unions in the Midwest and on the West Coast. The Jefferson Club is a full member of the Eastern Rugby Union; its president is a vice-president of the Union and a member of its Tours and Disciplinary Committees.

The Jefferson R.F.C.

The Jefferson Club was founded in the fall of 1963 by three Jefferson students with previous experience in the game. Our primary objective was to provide Jefferson students an opportunity for continued participation in a competitive contact sport and maintenance of their physical fitness, which would not detract from their academic endeavors. Our initial efforts were financed by the generous contributions of individual students and faculty members.

We are somewhat special in that Jefferson and the Temple University Medical School R.F.C. are, to our knowledge, the only clubs in the U.S. composed solely or primarily of young doctors and students of medicine. Our record is also unusual in that Jefferson has not had a losing season to date, despite our demanding academic schedule and infrequent practices. Jefferson has played such formidable opponents as Villanova, St. Josephs, U. of Pennsylvania, Lehigh, Penn State, and private clubs from New York, Philadelphia, Pittsburgh, Baltimore and Washington. Jefferson had two players selected as Eastern Rugby Union All-Stars to oppose the All-Stars of Ontario Province, Canada, in 1964. Our immediate past president, Dr. Ward L. Jones '65, is currently
playing and coaching rugby in California. Our current president recently returned from London where he played with the Guy's Hospital Rugby Club.

Finally, we have been fortunate in securing the assistance of Dr. Gerald Marks, of the Department of Surgery, as our Faculty Advisor, and of Dr. M. L. Simenhoff, of the Clinical Research Center, as our coach.

The fall season was one of experimentation, with many disappointments and many exciting highlights. The spring championship season begins in March, and Jefferson's hopes are high. Again, we will be fielding two full teams. For those who remember the Jefferson - Medico Chi rivalry, we invite your attendance at the trophy match between Jefferson and the Temple Medical School R.F.C. on Saturday, April 23, to determine this year's "Medical School Rugby Champions of the U.S.A." Jefferson is current champion, having defeated Temple in last year's trophy match, 21-0.

In conclusion, we would like to express our sincere gratitude to those students, faculty members, alumni and friends who have continued to support our efforts.

Jefferson R.F.C. 1964
PROMOTIONS, NEW APPOINTMENTS AND RESIGNATIONS

PROMOTIONS

ROBERT L. BRECKENRIDGE, A.B., M.D., from Assistant Professor of Pathology to Associate Professor of Pathology.

IOULIOS A. IOSSIFIDES, M.D., from Assistant Professor of Pathology to Associate Professor of Pathology.

DONALD L. CLARK, A.B., M.D., from Associate in Anesthesiology to Assistant Professor of Anesthesiology.

HERBERT E. COHN, B.S., M.D., from Associate in Surgery to Assistant Professor of Surgery.

LAWRENCE C. MCHENRY, JR., B.S., M.D., from Instructor in Neurology to Assistant Professor of Neurology.

LOUIS PIERUCCI, JR., B.S., M.D., from Associate in Surgery to Assistant Professor of Surgery.

SIDNEY WALLACE, B.A., M.D., from Instructor in Radiology to Assistant Professor of Radiology.

EDWARD A. JAEGER, A.B., M.D., from Assistant in Ophthalmology to Associate in Ophthalmology.

Sungzong Kang, B.S., M.S., Research Associate in Pharmacology.

YOSHISATO TANAKA, M.D., D.M.Sc., Research Associate in Otolaryngology.

M. J. VAN DITMARS, M.D., Research Associate in Medicine.

ALBERT LYON CHAPMAN, A.B., M.D., M.P.H., Visiting Lecturer in Preventive Medicine.

CHARLES L. LEEDHAM, B.S., M.D., Visiting Lecturer in Preventive Medicine.

TAKAHIRO HIRANO, M.D., Ph.D., Instructor in Pathology.

ANTONINE COLS MATHIEU, A.B., M.D., Instructor in Anesthesiology.

EIVIND B. THORLING, M.D., Instructor in Medicine.

MARIUS W. ALLEN, B.S., M.D., Assistant in Surgery.

WILLIAM D. JOHNSON, B.A., M.D., Assistant in Obstetrics and Gynecology.

VALIYABARAMBIL KURIAKOSE, B.S., B.D.S., M.S., Research Fellow in Pediatrics (Dentistry).

APPOINTMENTS

SIEGFRIED H. HEYDEN, M.D., Associate Professor of Preventive Medicine (Epidemiology).

HOWARD D. BRONSTEIN, B.S., M.D., Assistant Professor of Medicine.

EDWARD R. BURKA, M.D., Assistant Professor of Medicine.

EDWARD W. MENCHER, B.S., M.D., Assistant Professor of Anesthesiology.

IGNATIUS M. SEGOVIA, B.A., B.S., M.D., Assistant Professor of Anesthesiology.

JOHN DOYLE WALLACE, A.B., Assistant Professor of Radiology (Radiologic Physics).

RESIGNATIONS AND WITHDRAWALS

HANS G. KEITEL, M.D., Professor and Head of the Department of Pediatrics.

ELLIOTT L. MANCALL, B.S., M.D., Associate Professor of Neurology.

JOSEPH ADLESTEIN, A.B., M.D., Associate in Psychiatry.

GLENN S. DICKSON, B.A., M.D., Associate in Clinical Obstetrics and Gynecology.

ARTHUR DRICKMAN, B.A., M.D., Instructor in Pathology.

ANN M. HIRSCHHORN, A.B., M.D., Instructor in Neurology.

Dr. Richard A. Chambers is the recently-appointed Professor and Head of the Department of Neurology. He replaces Dr. Bernard J. Alpers, who resigned the chairmanship in order to devote more time to his practice and writing. In addition to his teaching responsibilities, Dr. Chambers is attending-neurologist-in-chief at Jefferson Hospital.

Dr. Chambers comes to Jefferson from the New Jersey College of Medicine and Dentistry (formerly Seton Hall), where he served as Professor of Neurology. A native of England, Dr. Chambers earned his B.A., B.M. Bch., and M.A. degrees from Oxford University. In 1949 in London he was awarded the M.R.C.P. and in 1959 in Canada, the R.C.P.—Certified Specialist in Neurology. He served with St. Thomas’ Hospital from 1947-49 as a Casualty Officer and as a House Physician. After serving a tour of duty with the R.A.F., he joined the staff of the National Hospital for Nervous Diseases.

From 1951-52, Dr. Chambers was a Research Fellow in Neurology and Neuropathology with the Neurological Unit (Harvard University) Boston City Hospital. He returned to the staff of the National Hospital where he remained until 1956 when he undertook another Research Fellowship in Neurology at Boston City Hospital. From there he went to Toronto General Hospital as an Assistant Physician in Neurology. He also served on the teaching staff of the University of Toronto School of Medicine as a Clinical Teacher in Neurology and as an Associate in Neuropathology. In 1960 he joined the faculty of the Seton Hall College of Medicine as Associate Professor of Neurology and was promoted to full professorship there in 1961.

Dr. Chambers is the author of numerous scientific articles and holds membership in the Canadian Neurological Society, the American Association of Neuropathologists, and the New York Neurological Society. He is also a Fellow of the American Academy of Neurology.
A.M.A. Sponsors
19th Clinical Convention

The 19th Clinical Convention of the American Medical Association was held in Philadelphia November 28 - December 1, 1965. The Convention featured Fireside Conferences, Breakfast Round Tables, Postgraduate Courses, Clinical Workshops, a Scientific Exhibit, and lectures, panels and symposia.

Fireside Conference participants included Dr. Samuel Bellet ('25) who participated in "Arrhythmias." Dr. Samuel C. Stein ('37) moderated a Fireside Conference on "The Place and Use of the Tuberculin Test." Dr. Robert I. Wise, Magee Professor of Medicine and Head of the Department, moderated a Conference on "Antibiotic Treatment of Pneumonias." He also chaired a Session on Gram Negative Bacterial Infections. Among the speakers at the Session was Dr. Francis J. Sweeney, Jr. ('51), Assistant Professor of Medicine, who presented "Antibiotics and Chemotherapeutic Agents in the Treatment of Gram Negative Bacillary Infections."

Scientific Exhibits

Scientific exhibitors included Dr. DeWitt E. DeLawter ('41) and an associate who presented "Aids in Diabetic Management." Dr. George J. Haupt ('48), Assistant Professor of Surgery, and two associates presented an exhibit, "The Prevention and Management of Pulmonary Complications by Percutaneous Polyethylene Tube Tracheotomy." Dr. Frederick Urbach ('46) and two associates presented "Ultraviolet Radiation and Skin Cancer." Dr. J. Rudolph Jaeger, Professor of Neurosurgery, Honorary, presented "Tic Douloureux: Diagnosis, and Treatment by Injection of Hot Water into the Gasserian Ganglion." Dr. Kenneth M. Kron ('52) and an associate presented "The Comprehensive Management of Gout." Dr. Charley J. Smyth ('35) and an associate presented "Gout: Acute and Long-Term Therapy." Dr. John C. Ullery ('32) presented "Enhanced Fetal and Maternal Safety in Obstetrical Analgesia." Dr. Ralph J. Veenema ('45) and two associates presented "Transillumination of the Rat Urinary Bladder: An Aid in the Study of Induced Bladder Carcinoma."

Postgraduate Courses

Speakers during Postgraduate courses and Symposia included Dr. William Abrams ('47) who spoke on "Hypocholesteremic Agents and their Use," and who participated in a panel discussion on "Atherosclerosis and Coronary Artery Disease." Dr. Allan J. Erslev, The Thomas Drake Martinez Cardeza Research Professor of Medicine (Hematology), presented "Myelomatous Disorders and Dysproteinemias." Dr. Roy G. Holly, Professor of Obstetrics and Gynecology, spoke on "Anemia in Pregnancy" and Dr. Alvin F. Goldfarb, Assistant Professor of Obstetrics and Gynecology, spoke on "Uterine Bleeding in the Reproductive Years." Dr. Hans G. Keitel, Professor of Pediatrics and Head of the Department, presented "The Newborn Infant: Avoidance of Metabolic and Nutritional Imbalances." Dr. Anthony F. DePalma ('29), the James Edwards Professor of Orthopedic Surgery and Head of the Department, spoke on "Orthopedic Aspects of Back Pain." Dr. Joseph Sataloff, Professor of Otolaryngology, spoke on "The Role of the General Practitioner in Treating Deafness of the Aging."

Dr. Floyd S. Cornelison, Jr., Professor of Psychiatry and Head of the Department, chaired the Section on Alcoholism. Dr. Cornelison together with Dr. Alfonso Paredes, Associate Professor of Psychiatry, and an associate presented "Response to Self-image Experience in Alcoholism." Dr. Ralph E. Dwork, Visiting Professor of Preventive Medicine, presented "Public Health Aspects of Alcoholism." Dr. Edward J. Berk ('36) took part in a panel discussion on "A Medical-Surgical Review of Gastro-
intestinal Surgery.” Dr. Henry L. Bockus ('17) moderated the panel discussion.

Other participants in the Convention included Dr. Thomas D. Duane, Professor of Ophthalmology and Head of the Department, the Non-Ophthalmologist. Dr. Joseph J. Rupp ('42), Associate Professor of Medicine, participated in a Clinical Workshop on Diabetes. Dr. Joseph W. Stayman, Jr. ('42), Assistant Professor of Clinical Surgery, participated in a color telecast of a Pulmonary Resection. Dr. John Y. Templeton, III ('41) moderated the surgical telecast.

A dinner for Alumni, Wives and Guests was held on November 29th during the Convention at the St. James Hotel. This marked the first time the Alumni Association has sponsored a social function at this Convention. Approximately 40 persons attended. Dr. J. Wallace Davis ('42), Chairman of Annual Giving, reported on the progress of the 18th Drive. Dr. Kenneth E. Fry ('31), Association President, delivered a progress report on affairs at the College during the past year and Dr. Samuel S. Conly, Jr. (S'44), Associate Dean, spoke on student affairs.

American College of Surgeons Holds 51st Clinical Congress

Dr. Willard H. Parsons, Jeff '20, of Vicksburg, Mississippi, was installed as First Vice President of the American College of Surgeons at its 51st Annual Clinical Congress held in Atlantic City, New Jersey, October 18-22.

Among the highlights of the Convention was the color telecasting of surgical procedures from the Hospital of the University of Pennsylvania. Dr. Thomas F. Nealon, Jr. (S'44), Professor of Surgery, performed a Pneumonecctomy and Dr. W. Emory Burnett ('23) performed an Antrectomy and Vagotomy. Dr. William W. L. Glenn ('38) moderated a telecast on a Open Heart Operation. During The Cine Clinic, Dr. Willard H. Parsons was discussor of a movie entitled “Duodenal Diverticula.” Dr. Howard E. Snyder ('27) presided over the Motion Picture Exhibition.

During the forum on Fundamental Surgical Problems, Dr. Oscar Creech, Jr. ('41), and two associates presented “Histochemical Studies of Early Rejection in Allogeneic Rat Hearts” at the section on Transplantation; and Dr. William Glenn ('38) and an Associate presented “Hemograft Inhibition by Competing Protein Antigens in Inbred Mice.” During the section on Tumors, Dr. William T. Lemmon, Jr. ('60) and two associates presented “Lymphatic Stasis by Chlorophyllated Ethiodol.” At the section on Gastrointestinal Problems Dr. Edward D. McLoughlin ('56) and an associate presented “In Vitro Small Bowel Perfusion.” Dr. John Y. Templeton, III ('41), moderated the section on Pulmonary Problems and Hyperbaric Oxygenation.

Dr. Anthony F. DePalma ('29), James Edwards Professor of Orthopedic Surgery and Head of the Department moderated a panel discussion on “Surgical Treatment of Lesions of the Shoulder Joint” during the Orthopedic Surgery Section of the General and Specialty Sessions. And Dr. George A. Hahn, Professor of Obstetrics and Gynecology, moderated a panel discussion on “Lymphangiography in Gynecology” during the Obstetrics and Gynecology section. Dr. Warren R. Lang ('43), Professor of Obstetrics and Gynecology, moderated a section of the Postgraduate Courses on Geriatric Gynecologic Problems. Dr. David A. Culp (S'44) and two associates presented a scientific exhibition entitled “Carcinoma of the Prostate: Why a Combined Therapy.”

On the evening of October 20th the Jefferson Medical College Alumni Association sponsored a reception for Alumni, wives and guests at the Shelburne Hotel, Atlantic City. Approximately 70 doctors and their guests attended the function.
Postgraduate Program in OB-GYN Held

Participants in the American College of Obstetricians and Gynecologists District III Postgraduate Program held October 14-16, 1965, in Pittsburgh, Pennsylvania, included several Jefferson Alumni and faculty members.

Dr. Warren R. Lang ('43), Professor of Obstetrics and Gynecology, was Chairman of the Program which concentrated on "Geriatric Gynecology" and also moderated the October 14th afternoon session of the Program. Dr. John N. Lindquist ('43), Assistant Professor of Clinical Medicine, spoke on "Medical Problems" and Dr. Abraham E. Rakoff ('37), Professor of Obstetrics and Gynecology (Endocrinology) and Professor of Medicine (Endocrinology), spoke on "Endocrine Problems."

During the Friday, October 15th panel session on "Diseases of the Vulva and their Treatment" Dr. John F. Wilson ('37), Associate Professor of Dermatology, spoke on "Common Dermatologic Lesions" and Dr. Frank Lovett, Associate in Clinical Obstetrics and Gynecology, spoke on "Vulva-Vaginal Infection." During the Saturday morning panel on "Ovarian Lesions and their Treatment," Dr. Alvin F. Goldfarb, Assistant Professor of Obstetrics and Gynecology, spoke on "Ovarian Enlargements with Endocrine Effects."

Jefferson and Penn State to Sponsor Symposium

The second Symposium on Recent Advances in Surgery, sponsored by Jefferson in conjunction with Pennsylvania State University, will be held at Tamiment-In-the-Poconos on May 5, 6, and 7, 1966. The program will include sessions on: Pancreas, Liver, and Biliary Tract, Oral Cancer, Burns, The Prevention and Control of Endogenous Infections, and Problems Complicating Operations. It focuses on diseases commonly seen by the practicing surgeon and the subjects have been chosen primarily on the basis of their practical importance. Newer developments in diagnosis and/or treatment will be discussed by outstanding authorities who have substantial personal clinical experience with these conditions.

Doctor John H. Gibbon, Jr. is the honorary Chairman and Dr. Thomas F. Nealon, Jr. is Academic Chairman.

The session held last year was highly successful and there is every reason to feel that this will be also. Information can be obtained by writing Dr. John Killough at Jefferson.

Mr. Smathers Appointed Director of Personnel

Mr. H. Drue Smathers has been appointed Director of Personnel for The Jefferson Medical College and Medical Center, according to a recent announcement by Mr. George M. Norwood, Jr., Vice President for Business-Finance.

Mr. Smathers' responsibilities include organizing and administering a centralized personnel office and coordinating its activities with those of other organizational units. It is proposed that the personnel office will provide the full range of personnel services for the entire Medical Center, including recruitment, position definition and classification, performance evaluation, and training and information programs for non-academic employees; and master record files for all employees.
News of College Departments

DEAN'S OFFICE

DR. WILLIAM A. SODEMAN, Dean and Vice President for Medical Affairs, attended the Medical Administrative Group meeting at the Upstate Medical Center in Syracuse, New York, October 2 and 3. The group consists of Vice Presidents for Medical Affairs in the medical schools in the United States. Discussions at the meeting involved matters in Medical School Administration, in health center administration, and related factors. On November 27th Dr. Sode­man represented the medical schools of Phila­delphia at the dedication of the Philadelphia County Medical Society's new building. The ex­ercises were held in the Van Pelt Auditorium, Philadelphia Museum of Art.

ANATOMY

DR. ALBERT W. SEDAR, Associate Professor of Anatomy, presented a paper entitled “Electron Micro­scope Observation on the Localization of the Succinic Dehydrogenase System in Bacillus Subtilis using Tetrani­tro-blue Tetrazolium” at the meetings of the American Society for Cell Biology held November 10-12, 1965, in Philadelphia. The paper was co­authored by DR. RONALD M. BURDE (Jeff '64) who worked with Dr. Sedar while he was a stu­dent and intern at Jefferson.

MEDICINE

DR. ROBERT I. WISE, Magee Professor of Medicine and Head of the Department, was Nu Sigma Nu Visiting Professor of Medicine at his alma mater, The University of Texas School of Medicine in Galveston, from January 20-22, 1966. A reception and dinner was given in his honor by the Nu Sigma Nu Fraternity on Thursday evening, January 20. While at the medical school, Dr. Wise presented two lectures entitled “Epidemiology of Hospital Infections” and “Methods of Selecting Anti-infective Agents in Therapy.”

DR. ALLAN J. ERSLEY, The Thomas Drake Martinez Cardeza Research Professor of Medi­cine (Hematology), was Chairman of the Com­mittee on Meeting and Hotel Rooms for the Eighth Annual Meeting of the American Society of Hematology held during December at the Hotel Sheraton in Philadelphia. DR. THOMAS GABUZDA, Assistant Professor of Medicine, also presented a paper at the meeting entitled, “The Nonhemoglobin Iron Incorporation Protein of Human Bone Marrow: Its Relation to Ferri­tin.” DR. FARID I. HAURANI, Assistant Profes­sor of Medicine, presented a paper entitled, “Primary Defective Iron Reutilization: A New Syndrome Response to Testosterone Therapy.”

DR. C. WILMER WIRTS, Professor of Clinical Medicine, participated in the annual Pennsylvania State Medical Meeting in Atlantic City in September and presented “Management of Gall­bladder Disease.” On December 7 and 9, 1965, he presented “Pancreatic Dysfunction” over sta­tion WHUY as part of the Continuing Educa­tion Program of the Pennsylvania Hospital.

DR. LOUIS A. KAZAL, Associate Professor of Medicine (Research Hematology), attended the recent meeting of the Association of Clinical Scientists in Washington, D.C., November 11-13. The meeting was an Applied Seminar on the Clinical Pathology of Infancy at which Dr. Kazal presented a paper entitled, “Congenital Disorders of Hemostasis and Coagulation.”

DR. JOHN H. KILLOUGH, Associate Professor of Medicine, and Dr. ROBERT H. SCHWAB, As­sistant in Medicine, presented a paper entitled “The Phonocardiographic Differentiation of Pulmonic and Aortic Insufficiency” at a meeting of the American College of Surgeons and the same paper has been published in the September 1965 issue of the official journal of the American Heart Association.

DR. DAVID W. KRAMER, Associate Professor of Medicine, Honorary, honorary member of
the Brazilian College of Angiology, is on the editorial board of Angiopathos, the official journal of the American College of Angiology. Dr. Kramer has also been honored with a citation from the American College of Angiology.

DR. EDMUND L. HOUSEL, Assistant Professor of Clinical Medicine, was installed as President of the Philadelphia County Medical Society on January 19, 1966.

DR. HOWARD C. LEOPOLD, Assistant Professor of Clinical Medicine, attended the International Congress of Pediatrics Allergy Program which was held in Tokyo, Japan, November 7-13. He also visited Chulelongkorn Hospital, Bangkok, Thailand, and made rounds with Dr. Sirisambandh, Chief of the Division of Respiratory Diseases, advising on the treatment of a number of asthmatic patients. Also, Dr. Leopold helped plan for the initiation of the preparation of allergy extracts so that allergy studies could be introduced into this institution where none had been done previously. A paper entitled “Transfer of Immediate Hypersensitivity by Lymphocytes from Blood of Ragweed-Sensitive Patients” by Dr. Samuel E. Rynes, Associate in Clinical Medicine; Dr. Leopold; and Dr. Charles F. Milon, Instructor in Medicine, was presented at the annual meeting of the American Academy of Allergy in New York on February 23. Dr. Leopold was recently elected a Fellow of the Philadelphia College of Physicians.

DR. JOHN N. LINDQUIST, Assistant Professor of Clinical Medicine, spoke on “Your Role in the Patient-Doctor Relationship” at a one-day Seminar for Medical Assistants on October 30th in Bethlehem, Pennsylvania.

DR. JOHN W. GOLDSCHMIDT, Associate in Medicine (Physical Medicine), was the principal speaker at an orientation session of the $1.5 million Institute of Physical Medicine and Rehabilitation of Allies Services for the Handicapped, Inc., Scranton, Pennsylvania. The session was held the latter part of September. He presented a paper entitled “Rehabilitation: A Significant Example of Teamwork Among Representatives of the Health Sciences” at the 72nd Annual Meeting of the Association of Military Surgeons in Washington, D.C., on November 16. He also participated in the discussions of the Fifth Princeton Conference on Cerebrovascular Disease on January 5-7, 1966.

OBSTETRICS AND GYNECOLOGY

DR. ROY G. HOLLY, Professor of Obstetrics and Gynecology and Head of the Department, presented the Roden memorial lecture of the University of Missouri School of Medicine on November 9. Dr. Holly spent the week on the campus participating in activities of the Department of Obstetrics and Gynecology and working with resident physicians and students.

DR. GEORGE A. HAHN, Professor of Obstetrics and Gynecology, was discussion leader at the combined meeting of representatives of the National Division of the American Cancer Society and the Philadelphia Division of the American Cancer Society which was held on October 18. The subject of the meeting was Evaluation and Coordination of Public Education Programs. On October 26th he was official discussant for three papers at the U.S.N. Hospital in Philadelphia during the 14th Annual Armed Forces Seminar on Obstetrics and Gynecology at the 4th Annual Armed Forces Chapter of the American College of Obstetricians and Gynecologists. On November 14th he attended the Annual Meeting of the Pennsylvania Cancer Coordinating Committee. On December 2nd he presented the guest lecture—“Radical Surgery in Gynecology”—at the Pennsylvania Hospital. On December 9th he was moderator for the panel on “Cancer of the Endometrium” at the Hahnemann Medical College Symposium on Gynecologic Cancer. On January 10th he presented the guest lecture—“Treatment of Carcinoma of the Endometrium”—at the Margaret Hague Hospital, Jersey City, New Jersey. On January 7th he attended the reception for the Staff of the S.S. HOPE in the Concourse of the Philadelphia National Bank, Philadelphia. On January 15th, Dr. Hahn flew to Panama to join the S.S. HOPE for about two months service aboard the HOPE. The HOPE will be docked in Corinto, Nicaragua which is on the Pacific Coast. In addition to his service aboard the HOPE, he will also be involved in the diagnosis and care of patients in hospitals in Managua, Chenango and Leon in Nicaragua. As part of his responsibilities, he will teach at the Medical School of the National University in Leon.
DR. WARREN R. LANG, Professor of Obstetrics and Gynecology, was Chairman of the Postgraduate Program on Geriatric Gynecology preceding the District III meeting of the American College of Obstetricians and Gynecologists at the Pittsburgh Hilton Hotel, Pittsburgh, October 13. He also moderated one of the sessions. At the annual meeting of the American Society for Colposcopy and Colpomicroscopy held in New York, November 6-7, Dr. Lang spoke on “Pathognomic Signs of Trichomonas Vaginalis by Colposcopy” and served as Chairman of one of the sessions. He also delivered the Presidential Address, entitled “Diagnosis and Treatment of Cervical Carcinoma in the 19th Century.” Dr. Lang is President of the Society. On January 19th Dr. Lang was Guest Lecturer at Newark City Hospital. He spoke on “Adolescent Menstrual Disorders.”

DR. ABRAHAM E. RAKOFF, Professor of Obstetrics and Gynecology (Endocrinology) and Professor of Medicine (Endocrinology), chaired a scientific session during the 13th annual scientific meeting of the American Society of Cytology, November 3-6, in New York. Also participating in the meeting was DR. LANG who directed a Workshop on Evaluation of the Uterine Cervix with Special Attention to Colposcopy and Colpomicroscopy. DR. LEON A. PERIS, Instructor in Obstetrics and Gynecology, served as a faculty member during the Workshop. Dr. Lang moderated a round table on Hormonocytology and served as a panelist on “Ask the Experts.”

DR. ALVIN F. GOLDFARB, Assistant Professor of Obstetrics and Gynecology, spoke on “The Selection of a Progestin” at Haverford Hospital. On September 23rd he spoke on “Induction of Ovulation” at Newark Hospital. On October 16th he spoke on “Ovarian Lesions and their Treatment” at the District III, ACOG Meeting, Pittsburgh, Pa. October 19-21, he attended the 19th Annual Scientific Assembly of the Louisiana Academy of General Practice where he spoke on “Diagnosis of Menstrual Abnormalities” and “Treatment of Menstrual Abnormalities.” October 28-30, he participated in the Pacific Coast Fertility Society Meeting where he presented the Ayerst Lecture on “Cytologic Diagnosis of Ovulatory Function.” In addition, he participated in two panel discussions and delivered talks on “Tubal Surgery” and “Induction of Ovulation.”

ORTHOPEDIC SURGERY

DR. JOHN J. GARTLAND, Assistant Professor of Orthopedic Surgery, has been appointed an Associate Editor of the Journal of Bone and Joint Surgery, the official orthopaedic journal of the English-speaking world. On November 6th Dr. Gartland spoke at the Annual Out-of-Town meeting of the Philadelphia Orthopaedic Club at Allentown, Pa. On November 13th he discussed “The Jefferson Fracture” before the combined meeting of the New York and Philadelphia Regional Committees on Trauma at the Cornell Medical Center, New York City.

DR. JAMES M. HUNTER, Instructor in Orthopedic Surgery, was panel moderator at the 2nd Annual Hand Symposium sponsored by the Philadelphia Hand Group at Lankenau Hospital on November 13. November 29 - December 2, he participated in a Symposium on the Management of the Child Amputee at Northwestern University in Chicago.

OTOLARYNGOLOGY

DR. JOSEPH SATALOFF, Professor of Otolaryngology, served as Associate Director of the 2nd Annual Postgraduate Workshop in Otolaryngology, January 9-15, 1966, at University Hospital, Kingston and Ocho Rios, Jamaica.

PATHOLOGY

DR. THEODORE T. TSALTAS, Professor of Pathology, appeared on KYW-TV (Channel 3) on November 28th on the program “Who Shall Live?”

DR. GONZALO E. APONTE, Associate Professor of Pathology, presented a paper on “Glycogen Storage Diseases” at a symposium on the Clinical Pathology of Infancy, held at the Washington Medical Center, Washington, D.C., November 11-14. On November 15 and 16, he attended the biannual meeting of the Educational Council for Foreign Medical Graduates of the National Board of Medical Examiners. On Decem-

39
ber 5, he was speaker at a meeting of the Pasteur Society. On December 6, he spoke at the Veterans’ Administration Hospital in East Orange, New Jersey, on “Tumor-Host Interrelationships.” On December 8, he participated in a symposium on Autoimmune Diseases, sponsored by the Hare Medical Society.

PEDIATRICS

Dr. Hans G. Keitel, Professor of Pediatrics and Head of the Department, and Dr. Mary L. Soentgen, Instructor in Pediatrics, presented the results of recent studies in infant nutrition at an international symposium on Premature Infant Feeding held in Florida during December. Dr. Keitel also presented a review of Premature Infant Feeding for the meeting of the A.M.A. during December. On February 12, Dr. Keitel spoke on “Courtroom Pediatrics—iatrogenic Childhood Disorders; the Psychological and Physiological Aspects of Childhood Traumatic Injuries” at a symposium on Medicine and Law, sponsored by the Pittsburgh Institute of Legal Medicine in Allentown.

Dr. E. Keith Hammond, Assistant Professor of Pediatrics, on February 1st assumed his new duties as Director of Medical Education at Babies’ Hospital Unit of United Hospitals of Newark, New Jersey. His duties also involve the Pediatric training program at Newark City Hospital.

Dr. Soentgen was elected a member of the American Academy of Pediatrics in October, 1965.

PHYSIOLOGY

Members of the Department of Physiology presented three papers at the Fall Meeting of the American Physiological Society held at the University of California in Los Angeles during August. Dr. M. H. F. Friedman, Professor of Physiology and Head of the Department, spoke on “Depression of Insulin Effects of Radioactive Iodine Concentrations by the Stomach.”

Dr. Eugene Aserinsky, Associate Professor of Physiology, discussed experiments on “Brain Wave Patterns During the Rapid Eye Movement Period of Sleep.” A paper was given on “Effects of Metabolic Acidosis on Susceptibility of Mice to Oxygen Toxicity” by Dr. Sheldon Gottlieb, Assistant Professor of Anesthesiology and Physiology.

Dr. M. H. F Friedman participated in the joint meetings of the Canadian and American Gastroenterological Societies held in Montreal during May 1965. On August 3rd he visited the U.S. Army Medical Research Laboratories at Natick, Massachusetts, to discuss experiments on the influence of diet on the damaging effects of total body irradiation. For a two week period beginning October 12, he was Visiting Professor of Physiology at the University of Alabama Medical Center, Birmingham, Alabama.

Dr. Domenic A. DeBias, Associate Professor of Physiology, presented a paper on “Thyroid-Adrenal Relationship in Altitude Tolerance” at the International Symposium on Environmental Physiology in Kyoto, Japan, September 13-17. He was also a participant in the 23rd International Congress of Physiological Sciences in Tokyo, September 1-9.

Dr. Eugene Aserinsky was chairman of the section of the Study of Sleep at the recent meeting in Washington of the American Psychophysiological Society.

Dr. Donald Doemling, Assistant Professor of Physiology, participated in the 1st International Conference on Lymph and the Lymphatic System at New Orleans, La., December 12-14.

Dr. Sheldon Gottlieb was Guest Lecturer at the University of Scranton and at Bethany College, West Virginia, during October.

PREVENTIVE MEDICINE

Dr. E. Harold Himmel, Professor of Preventive Medicine and Head of the Department, attended the Meeting of the Association of Professors of Preventive
Medicine and the Annual Meetings of the Public Health Association in Chicago, October 17th to 22nd. October 30th through November 2nd, he participated in the Annual Meeting of the Association of American Medical Colleges in Philadelphia as Jefferson's liaison representative in the Section on International Medical Education. November 3rd to 5th, he attended the Annual Meeting of the American Society of Tropical Medicine and Hygiene in New Orleans, Louisiana, and delivered the Presidential Address on "How Much Control of Communicable Disease?". A Symposium on Career Planning and Financing was held for medical students and house officers in Philadelphia under the sponsorship of the Student American Medical Association and the Philadelphia County Medical Society, with support from Lederle Laboratories. Dr. Hinman is Chairman of the SAMA Subcommittee of the Philadelphia County Medical Society.

DR. HEINRICH BRIEGER, Professor of Preventive Medicine (Occupational Medicine), participated in the Second International Symposium on Inhaled Particles and Vapours, Cambridge, England, September 28th to October 1, 1965, and presented a paper on "Silicotic Bronchiolitis Obliterans". He also spoke at the Symposium on Air Pollution, Drexel Institute of Technology, November 4th on "Medical Aspects of Air Pollution" and at the Symposium on Engineering in the Practice of Medicine, sponsored by Hahnemann Medical College, November 8th, on "Threshold Limit Values: Determination and Application." Dr. Brieger was invited to the Inaugural Meeting of the Division of Environmental Medicine, New York Academy of Sciences, November 3.

DR. C. EARL ALBRECHT, Professor of Preventive Medicine (Public Health), attended the Annual Meeting of the Pennsylvania Medical Society in Atlantic City, N.J., September 21-23, where charts were presented as a scientific exhibit on the Neurological and Sensory Disease Study. He participated in the National Health Forum Conference on Community Health Services in Philadelphia, September 29 - October 2. He presented an address on "Public Health Implications of a Neurological and Sensory Disease Study" at the Annual Meeting of the American Public Health Association, Chicago, Illinois, October 18. He spoke on "Allied Youth for Health—Alcoholism" at the International Allied Youth Convention, Washington, D.C., December 28-29.

DR. HYMAN MENDUKE, Professor of Preventive Medicine (Biostatistics) presented a series of six lectures in biostatistics at the Saturday morning meetings of Clinical Research Methodology held by the Department of Surgery of the Woman's Medical College of Pennsylvania.

PSYCHIATRY

DR. FLOYD S. CORNELISON, JR., Professor of Psychiatry and Head of the Department, spoke on "Studies of Self-Image Experience with Mentally Ill Patients" at the annual meeting of the National Association for Mental Health in New York, November 19.

DR. LAWRENCE S. KUBIE, Visiting Professor of Psychiatry, presented lectures and seminars at the University of Pittsburgh School of Medicine, September 30-October 4, and at the Baylor University School of Medicine and the University of Texas, November 3-9. December 3rd through the 6th he attended the midwinter meetings of the Association for Research in Nervous and Mental Disease and the American Psychoanalytic Association, both in New York City. At the latter, Dr. Kubie read a paper, "Relationship of Psychotic Disorganization to the Neurotic Process."

DR. ZYGMUNT A. PIOTROWSKI, Professor of Psychiatry (Psychology), participated in a Workshop on Projective Techniques held in Montreal, Canada, at the Alan Memorial Institute of Psychiatry of McGill University, October 29-30.

DR. ROBERT C. PRALL, Professor of Psychiatry (Child Psychiatry), was recently elected Secretary of the American Academy of Child Psychiatry.

DR. ROBERT WAELEDER, Professor of Psychiatry (Psychoanalysis), spoke on "The Concept of Justice and the Quest for a Perfectly Just Society" at the 28th Judicial Conference of the U.S. in Atlantic City, September 9. On December 5th he chaired a panel on The Reaction to Social Catastrophe during the Plenary Session
of the American Psychoanalytic Association meeting in New York.

DR. PAUL J. POINSARD, Clinical Professor of Psychiatry, served as Board Member and professional consultant to a discussion group at a meeting of Pennsylvania Mental Health, Inc., at Camp Hill, Pa., during September. He served as a member of Council at a meeting of the Pennsylvania Psychiatric Society in Atlantic City, also during September.

DR. CLAUS B. BAHNSON, Associate Professor of Psychiatry (Psychology), has been elected a member of the Medical Advisory Board of the Delaware Valley Chapter of the National Hemophilia Association. He was selected by the NIH to participate in a Workshop on Stress and Heart Disease sponsored by the Heart Disease Control Program, U.S.P.H.S. In August he was elected a life member of the New York Academy of Sciences.

DR. WALTER W. BAKER, Associate Professor of Pharmacology and Psychiatry (Neuropharmacology), presented “A Neuropharmacologic Analysis of Local Regulatory Mechanisms in Hippocampus” at the University of Maryland Psychiatric Institute, Baltimore, November 12. On December 10th he was discussant on the problem of “Drug-Induced Movement Disorders” at a meeting of the Philadelphia Neurological Society.

DR. IVAN BOSZORMENYI-NAGY, Associate Professor of Psychiatry, attended the Executive Council and Annual Conference of the American Academy of Psychotherapists in Washington, D.C., October 14-16. He was elected to be a regular member of the Group for the Advancement of Psychiatry (GAP) Committee on the Family on November 12. Upon invitation by Sidney Altman, Director, Dr. Nagy gave a seminar on Aspects of Family Therapy to the professional staff of the Montgomery County Mental Health Clinic in Norristown, December 1. Following an invitation by Dr. Bartram Ruttenberg, Dr. Nagy gave a demonstration of family therapy on December 7th and a seminar discussion on December 14th for the professional staff of the Child Study Center. On January 7th he gave a seminar on Applications of Family Therapy to the staff of the Association for Jewish Children. Dr. Nagy was co-author of the volume: Psychotherapy for the Whole Family: Case Histories, Techniques, and Concepts of Family Therapy of Schizophrenia in the Home and Clinic by Alfred S. Friedman et al, Springer, New York, 1965. He wrote two chapters of the book.

DR. GERALD R. CLARK, Associate Professor of Clinical Psychiatry, presented a paper, “Staffing the New Mental Health Programs” at the Annual Meeting of the National Association of Private Psychiatric Hospitals, New Orleans, La., January 15-19. He has been selected to serve as Chairman of the Publications Committee of the National Association of Private Psychiatric Hospitals. He will serve as Program Director for a Graduate Course in Mental Retardation April 18-20. This Course, which was planned primarily by members of the Department of Psychiatry staff, will be open to professional personnel interested in Mental Retardation. Lectures and demonstrations will be given by nationally known and international authorities in the areas of Child Psychiatry, Neuro-Pediatrics, Clinical Psychology, Social Science, Administration, Community Services, Vocational Training, Rehabilitation, Genetic Counselling and Research.

DR. ABRAHAM FREEDMAN, Associate Professor of Clinical Psychiatry, spoke on “Regression of the Ego” during a panel on Regression at a scientific meeting of the Philadelphia Association for Psychoanalysis during December. He is currently teaching a course on Compulsive-Obessive Neurosis at the Institute of the Philadelphia Association of Psychoanalysis.

DR. WARREN J. MUHLFELDER, Assistant Professor of Clinical Psychiatry, participated in a Research Workshop at a meeting of the Academy of Psychoanalysis which met in New York, December 3-5.

DR. J. CLIFFORD SCOTT, Assistant Professor of Clinical Psychiatry, spoke on “Dynamic Considerations of Staff Organization and Supervision in a Residential Treatment Center” at the annual meeting of the National Association

DR. DORIS WILLIG, Associate in Psychiatry, spoke on “Child Psychiatry in the U.S.” in India during a trip around the world this past spring. In December 1965 she spoke on “Juvenile Delinquency” before a neighborhood group.

DR. WERNER K. WELZ, Associate in Clinical Psychiatry, has been appointed “Principal Investigator” in Philadelphia of the “Veterans Administration Cooperative Studies in Out-Patient Psychiatry” for the new project “Characteristics of Newly Admitted Mental Hygiene Clinic Cases.”

DR. JAMES L. FRAMO, Instructor in Psychiatry, participated in Tape Committee meeting and Annual Conference of the American Academy of Psychotherapists in Washington, D.C., on October 14-17. He spoke on “Some Dimensions on Family Therapy” before the medical staff at Norristown State Hospital on November 17. On December 21st he spoke on “Some Issues in Family Therapy” to the staff of Child Study Center of the Institute of Pennsylvania Hospital.

DR. IRWIN N. HASSENFELD, Instructor in Psychiatry, spoke on “Alienation: A Problem for Psychiatry” before the medical staff of EPPI on November 29.

DR. LEON R. ROBINSON, Instructor in Psychiatry, participated in the State Hospital Clinical Directors Conference held at Western Pennsylvania Institute and Clinic, Pittsburgh, Pa., October 7-8.

DR. NORMAN D. WEINER, Instructor in Psychiatry, presented a paper, “On Bibliomania” at a meeting of the Philadelphia Association for Psychoanalysis on January 7.

RADIOLOGY

DR. PHILIP J. HODES, Professor of Radiology and Head of the Department, spoke on “The Impact of Electronics in Medicine” before SAMA on October 23. He addressed the Downstate Medical Association, New York, N.Y., on November 14th on the subject of “Medicare Problems in Teaching Hospitals.” He was guest lecturer at a meeting of the International College of Surgeons in Las Vegas, Nevada, November 21-24. Dr. Hodes was elected Editor-in-Chief of Atlas of Tumor Radiology which is to be published under the sponsorship of the American College of Radiology by Yearbook Publishers, Inc.

DR. ROY R. GREENING, Professor of Radiology, spoke at a Tri-State Conference in Boise, Idaho, on “Some Uses of Arteriography in Detecting Various Neoplasms,” Clinical Applications of Lymphangiography,” and “Mediastinal Tumors.” At the Scientific Assembly in Washington, D.C., Dr. Greening offered a refresher course on “Essentials of Chest Film Interpretation.” He spoke on “Angiography in Pulmonary Problems” at the meeting the American College of Chest Physicians, November 27.

DR. SIMON KRAMER, Professor of Radiology, visited The French National Cancer Institute in Villejuif (Seine), September 2-3. He spoke on “The Value of Combined Chemotherapy and Radiotherapy in the Treatment of Advanced Head and Neck Cancer” before the British Institute of Radiology on September 17th in London. September 22-28, he attended the International Congress of Radiology meeting in Rome, Italy. He addressed the Congress on the topic, “Massive Head and Neck Cancer treated by Synchronous Chemotherapy and Radiotherapy” and presided at one of the sessions on Uterine Cancer.

DR. GERARD DODD, Clinical Professor of Radiology, lectured at the 14th Annual Medical Seminar, Bluefield Sanitarium, Bluefield, West Virginia, on the topic, “Mammography.” On November 19th he addressed the New England Roentgen Ray Society in Boston on “An Evalu-
ation of Remote Control Cine Fluoroscopy in the Examination of the Upper Gastrointestinal Tract." On November 22nd he participated in a panel discussion on "Cholecystography."

DR. SIDNEY WALLACE, Assistant Professor of Radiology, addressed the staff of the Philadelphia Naval Hospital on the topic of "Lymphangiography" on October 7.

DR. GARY SHABER, Resident in Radiology, delivered a lecture, "An Introduction to the Biological Effects of Irradiation" at the Engineers Club on October 26, 1965. This lecture was part of an over-all program dealing with radiation biology and physics given to the Delaware Valley Society of Health Physicists.

SURGERY

Dr. John H. Gibbon, Jr., The Samuel D. Gross Professor of Surgery and Head of the Department, is the 1966 recipient of the Roswell Park Medal of the Buffalo, New York, Surgical Society. The medal honors the memory of the Buffalo surgeon for whom Roswell Park Memorial Institute is named.

The medal, given for "achievement in the science and art of surgery" and "invaluable services to the medical profession and to humanity" was presented to Dr. Gibbon at a dinner on February 8th in the Statler Hilton, Buffalo. After receiving the honor, Dr. Gibbon addressed the audience on "The Compleat Surgeon." He was awarded an Honorary Fellowship in the American College of Cardiology in Chicago, on February 5. He presented a paper on "Left Recurrent Nerve Palsy Associated with Mitral Valvular Disease" at the annual meeting of the Southern Surgical Society on December 8, 1965, in Hot Springs, Va.; this paper was discussed by DR. RUDOLPH C. CAMISHION, Associate Professor of Surgery.

DR. THOMAS F. NEALON, JR., Professor of Surgery, has been re-elected Secretary of the Philadelphia Academy of Surgery. He was also recently elected a Councillor of the Philadelphia College of Physicians. Dr. Nealon addressed a regional meeting of the American College of Surgeons on February 22nd in Puerto Rico on "Carcinoma of the Esophagus." He has been appointed Chairman of the Committee on Cancer of the Jefferson Medical College Hospital.

DR. RUDOLPH C. CAMISHION spoke at the Hahnmann Medical College Symposium on Engineering in Medicine held during November. He spoke on "Hydrodynamics of the Extracorporeal Circuit."

DR. DONALD C. GEIST, Assistant Professor of Clinical Surgery, is the new editor of Philadelphia Medicine.

UROLOGY

DR. JULES H. BOGAEV, Assistant Professor of Urology, attended the meeting of the Urologic Association of Pennsylvania, held on January 16th in Harrisburg. Dr. Bogaev attended as a delegate from the Philadelphia Urological Society.

Dr. Gordy Named Head of Neurosurgery

The appointment of DR. PHILIP D. GORDY as Professor of Surgery (Neurosurgery) and head of that division in the Department of Surgery has been announced by Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department. Dr. Gordy comes to Jefferson from the University of Oregon Medical School, where he held the position of Professor of Neurosurgery. He is a founding member and a past president of the Congress of Neurological Surgeons and has been a delegate from that organization to the World Federation of Neurological Societies.

Dr. Gordy Named Head of Neurosurgery
Weimanns Resign from Pediatric Speech Clinic

The Pediatric Speech Clinic at Jefferson Hospital was organized by Doctor M. L. Weimann and his wife, Ruth, in 1937. Dr. Weimann, Jefferson '26, became interested in this field of work while taking graduate Pediatric training at Columbia Postgraduate School of Medicine.

His interest led to discussions with Dr. Edward Bauer, then Professor of Pediatrics, Dr. Baldwin Keyes, Professor of Psychiatry, and Dr. Warren B. Davis, Sr., Professor of Otolaryngology, and resulted in the formation of the first Speech Clinic at Jefferson. The Clinic was organized under the Psycho-Pediatric division of Pediatrics.

Following this, Dr. and Mrs. Weimann, the latter a graduate of the University of Pennsylvania, Class of '27, with a B.S. in Education and a major in Psychology, traveled to Columbia Postgraduate Hospital. For a period of two years, they worked in the Speech Clinic there every week-end learning the techniques of speech therapy under the head of the department, Dr. Stuerke.

During the years that followed, this work became Dr. Weimann's hobby and Mrs. Weimann's vocation. She also became the first Speech Therapist in the division of Physical Medicine under Doctors Schmidt and Furey.

It is conservatively estimated that during the past 28 years Dr. and Mrs. Weimann have contributed at least 15,000 hours of voluntary service to Jefferson and have had over 25,000 patient visits for speech rehabilitation.

In the past few years the Philadelphia School System has become increasingly aware of the speech problem and has incorporated more speech training in the school program. The State of Pennsylvania has established centers for cleft palate rehabilitation and speech training. Both of these factors lightened the load at our Jefferson Pediatric Speech Clinic.

After careful deliberation Dr. and Mrs. Weimann decided that it was time to allow someone else to continue their work. Thus, they resigned from the Pediatric Speech Clinic, effective at the end of the calendar year 1965. The Weimanns number among their "cured patients" carpenters, engineers, teachers, salesmen, lawyers, priests, nurses and even speech therapists.

Dr. John W. Goldschmidt, Associate in Medicine (Physical Medicine) and head of the Rehabilitation Center, has agreed to have his Speech Therapists accept the patients previously under the care of Dr. and Mrs. Weimann in the Pediatric Speech Clinic.

William F. Kelly Dies

Jeffersonians were grieved to learn of the death of William F. Kelly on November 6, 1965. Mr. Kelly, a member of the Board of Trustees, had been an active participant and advisor in the functionings of The Jefferson Medical College and Medical Center.

Mr. Kelly was president of The First Pennsylvania Banking and Trust Company in Philadelphia and was a nationally recognized authority in the fields of consumer credit and loans to small business.

Mr. Kelly was born in West Philadelphia and entered banking as a clerk with the old Continental Equitable Title and Trust Company. At night he studied law at Temple University and received his degree in 1932. When the Continental was absorbed by The Pennsylvania Company, he rose steadily in positions of responsibility and became president of The First Pennsylvania Banking and Trust Company in 1955. He had been a director since 1953.

In addition to his earned degree in law, he held honorary LL.D. degrees from LaSalle College and Villanova University, and a D.C.S. degree from St. Joseph's College.
Faculty Changes

Dr. John A. Koltes, Associate Professor of Clinical Psychiatry, for reasons of health is no longer in charge of the Inpatient Service at Jefferson Hospital. He does, however, continue as Co-coordinator with Dr. Paul J. Poinsard, Clinical Professor of Psychiatry, of the third year course in Psychiatry. Dr. Koltes lectures and is engaged in research.

Dr. Howard L. Field, Assistant Professor of Clinical Psychiatry, has been appointed Physician-in-charge of the Inpatient Service at Jefferson Hospital and Director of Clinical Services.

Dr. Keyes Awarded Citation of Merit

Dr. Baldwin L. Keyes (Jeff '17) was recently awarded the Malvern Institute’s Citation of Merit in recognition of his leadership and courage in furthering the treatment of persons with problems in human behavior. The award was presented to Dr. Keyes at the Nineteenth Anniversary Meeting Citation Dinner of the Institute on October 28, 1965, at the Treadway Inn, St. Davids, Pennsylvania.

Dr. Keyes, Professor of Psychiatry, Emeritus at Jefferson, is the twelfth physician to be so honored by the Malvern Institute and the third Jefferson Alumnus. Dr. Thomas K. Rathmell (Jeff '31) received the award in 1959 and Dr. Francis J. Braceland (Jeff '31) received the award in 1961.

Dr. Keyes has been an Honorary Consultant to the Institute practically since its inception in 1946. He is a diplomate, National Boards of Psychiatry and Neurology, a fellow of numerous medical and psychiatric associations, and a member of twelve societies, including the Governor’s Advisory Council for Mental Health of Pennsylvania. He is also a past president of the Jefferson Medical College Alumni Association and a member of its Executive Committee.

Jefferson Receives Sears-Roebuck Grant

Jefferson Medical College is one of 13 colleges and universities in the Greater Philadelphia area to receive an unrestricted grant distributed by The Sears-Roebuck Foundation under a continuing program of aid to privately supported colleges and universities.

Mr. Reginald J. Doherty, local representative of the Foundation, has presented a check for $10,000 to the Jefferson Medical College and Medical Center to be used toward Jefferson's $41,000,000 development program.

Mr. Doherty stated that 52 participating colleges and universities in Pennsylvania shared in grants totaling $105,000. Altogether, more than 600 colleges and universities from coast to coast will receive Foundation grants. They are unrestricted to allow the schools to allocate their funds according to their greatest needs.
Dr. Georges to Direct State Medicare Program

The appointment of Dr. Thomas W. Georges, Jr., Jeff '55, as Assistant to the Secretary of Public Welfare for Medical Affairs to direct State participation in the expanded Medicare program, has been announced by Secretary of Public Welfare Arlin M. Adams. Mr. Adams set January 1 as the target date for beginning medical aid for indigent persons under 65. He described the initial phase covering welfare patients as broader than the program which will give medical assistance to persons over 65 under Social Security after July.

Dr. Georges will carry the responsibility for directing all activities in the statewide program of medical care and health services being expanded under the 1965 Medicare Amendments to the Social Security Act. Pennsylvania is one of five states and Puerto Rico to take immediate advantage of Medicare. Dr. Georges states that one of his first concerns in his new post will be certification of hospitals to participate in the program. Dr. Georges says that he foresees no problems for hospitals since Pennsylvania has high standards of medical care. “There are more advantages than problems,” he stated. “We have a favorable physician-patient ratio. There are six medical schools in Pennsylvania—and some states have none.”

Dr. Georges is an Assistant Professor at Temple University School of Medicine, Philadelphia, where he participated in the planning, programming and administration of the academic and clinical programs of the University’s Department of Community Medicine. He was previously associated with the Office of Economic Opportunity, as a consultant to the Community Action program and Operation Headstart. From 1958 to 1964, he served as a Public Health physician with the Philadelphia Department of Health. Before that time he was on the staff of the Columbia Medical Center, Philadelphia.

Returning Alumni Preliminary Registration for Complete Physical Examinations Accepted Now

Physical examinations will be conducted on June 7, 1966, in the Curtis Clinic.
Send reservation care of:
DR. JOHN N. LINDQUIST, Alumni Office
The 1965 Stritch Medal of Loyola University's Stritch School of Medicine was awarded to Dr. Francis J. Braceland (Jeff '31) on November 23rd at the Annual Award Dinner in Chicago. The presentation was one of the highlights of the $250-per-plate dinner, outstanding social-philanthropic event of its kind in the country, which provides much of the budget at the Stritch School of Medicine.

The medal, in honor of the late Samuel Cardinal Stritch, archbishop of Chicago, was presented to Dr. Braceland for his "dedication to medicine as a physician and educator, service to the nation as a distinguished medical officer and leadership in fostering a close relationship between religion and psychiatry."

A Clinical Professor of Psychiatry at Yale University and former Dean of the Loyola Medical School, Dr. Braceland has been associated with the Institute of Living, Hartford, Connecticut, since 1951. Prior to that he was Professor of Psychiatry at the University of Minnesota Graduate School and consulting Psychiatrist, Mayo Clinic. He also had a distinguished Naval career, retiring as a Rear Admiral in 1962.

Dr. Braceland is the editor of the *American Journal of Psychiatry* and is a former president of the American Psychiatric Association, the Association for Research in Nervous and Mental Disease and the American Board of Psychiatry and Neurology. Eleven institutions of higher learning have bestowed upon him honorary degrees and he has been named a Knight Commander in the Order of St. Gregory.

Connecticut

**Chapter Note**

The annual dinner meeting of the Connecticut Chapter of the Jefferson Medical College Alumni Association was held on November 10, 1965, at the Hotel America in Hartford.

Eighty-two people were on hand, including 23 guests. Dr. J. Richard Lenehan ('37) took office as President for a two-year term, succeeding Dr. Gustav W. Anderson ('46). Dr. Maxwell E. Hagedorn ('45) was named President-elect, and Dr. Maurice R. Turcotte ('50) was reappointed Secretary-Treasurer.

Dr. Francis J. Braceland ('30) introduced Dr. Kenneth E. Fry, Association President, and Mrs. Fry. Dr. Fry reported on the progress at the College over the past year.

Maurice R. Turcotte, M.D.
Only $61,510 to Go!

I was delighted to report at the annual Business Meeting of the Alumni Association that we had achieved 64.67% of our goal and that our total on January 27th was $129,384.

I am even more delighted to state in this report that as of February 15th we have achieved 69.2% of our goal with a total of $138,490.

With four months remaining in the campaign, our success seems assured and our $200,000 goal should be reached and surpassed without difficulty.

We owe our present affluent situation to several groups. First, the Reunion Class Agents have been doing an outstanding job. They have been asking for—and receiving—greatly increased contributions from their classmates and they have been urging participation by their non-contributors.

The second group to whom much credit should be given are the parents of our sophomore, junior and senior classes who have responded so generously to the appeals of the two fathers who are co-chairmen for the group, Mr. Samuel F. Hinkle and Mr. William J. Harrer.

Our non-graduate faculty have continued their strong support of Jefferson through our Annual Giving Drives and we are very grateful to them.

As is illustrated by the accompanying graph, as Jefferson's needs have increased, Alumni support has kept pace. We are very proud of our record and it has been noted and discussed by other Colleges, both undergraduate and professional schools.

Our Alumni have been most understanding with regard to the concurrent Building Fund and our Annual Giving Drive. Many who could afford to do so have contributed to both, realizing that even while monies were needed for expansion, the operation of the College must be continued. And the cost of operating the College increases each year.

Annual Giving funds have enabled the Administration to maintain a first rate faculty as well as a physical plant which attracts top students from throughout the country.

Annual Giving monies have helped us to attain an outstanding research program which is becoming more important each year.

Jefferson Alumni who support our Annual Drives have much to be proud of and we urge each of you to join us in this mutual and worthwhile endeavor.

J. WALLACE DAVIS, M.D.
Chairman
Annual Giving Fund Committee

*Inclusion in Class Total of gifts and bequests by Widows and Friends of Jefferson. The complete list will be published in the Annual Giving Fund Report at the end of the Drive.
A, B, C, Indicate leading classes in three categories.
50th Reunion—Class of 1916

ARTHUR R. GAINES, M.D.
2601 Benjamin Franklin Parkway
Apartment 528
Philadelphia, Pennsylvania

Plans are underway for a luncheon for members of the Class of 1916, probably to be held on Thursday, June 9th, the date of the Alumni Annual Dinner Meeting.

45th Reunion—Class of 1921

WILLIAM T. LEMMON, M.D.
1509 Sweetbriar Drive
Gladwyne, Pennsylvania

Plans are now being formulated for a cocktail party and dinner dance to be held at the Bellevue Stratford Hotel on Wednesday, June 8.

40th Reunion—Class of 1926

THEODORE R. FETTER, M.D.
255 South 17th Street
Philadelphia, Pennsylvania

The Class of 1926 will hold their 40th Reunion June 7-9. Luncheons will be arranged and the Class will also have the privilege of attending the Dean’s Luncheon on Wednesday, June 8th. There will be banquets in the evenings with the ladies and the class members and their wives will meet at the home of Dr. and Mrs. Fetter for dinner and entertainment. There will also be a dinner at one of the center city clubs, which will also include the Ladies. Final details have not been settled, but a meeting has been arranged with the Committee for finalization of the plans. After this meeting, all the members of the Class will be notified as to full details.

35th Reunion—Class of 1931

DENNIS R. GILLEN, M.D.
4581 Kings Highway
Brooklyn, New York

Reunion plans for the Class of 1931 include a Class Luncheon to be held at the Union League on the afternoon of Wednesday, June 8th and a dinner dance to be held that evening at the Barclay Hotel.

30th Reunion—Class of 1936

NICHOLAS R. VARANO, M.D.
2501 Parkway
Philadelphia, Pennsylvania

PATRICK J. DEVERS, M.D.
169 Cedarbrook Road
Ardmore, Pennsylvania

Tentative plans for reunion activities for the Class of 1936 include a luncheon, but neither the date nor place have yet been settled. There will definitely be an outing and dinner dance on Wednesday, June 8. Classmates will be notified when the plans are finalized.

25th Reunion—Class of 1941

FREDERICK B. WAGNER, JR., M.D.
800 Chauncey Road
Penn Valley
Narbeth, Pennsylvania

On Class Reunion Day, June 8th, Mario Troncelliti will represent our Class with a talk in the auditorium. There will be a Dean’s Luncheon at noontime. At 7:00 o’clock that evening we shall hold our informal dinner dance at the Marriott Motor Hotel. On June 9th there will be a stag luncheon at the Union League and that evening a cocktail party for classmates.
and their wives preceding the Alumni Banquet. The headquarters for the out-of-town classmates will be the Marriott Motor Hotel, City Line Avenue. For the entertainment of the wives, there will be a dinner dance, cocktail party and Faculty Wives' Banquet during the general Alumni Banquet.

20th Reunion—Class of 1946

WILLIAM H. BALTZELL, M.D.
208 Rex Avenue
Philadelphia, Pennsylvania

JOHN R. GRIFFITH, M.D.
1015 Chestnut Street
Philadelphia, Pennsylvania

Tentative arrangements have been made for a dinner dance for the Class of 1946 to be held at the Philadelphia Racquet Club, 215 South 16th Street, Philadelphia, on Wednesday evening, June 8. There will be a cocktail party for class members and their wives at the Benjamin Franklin Hotel on Thursday, June 9th, preceding the Annual Alumni Banquet.

15th Reunion—Class of 1951

FRANK J. Sweeney, JR., M.D.
Jefferson Medical College
Philadelphia, Pennsylvania

VINCENT J. McPEAK, JR., M.D.
8014 Burholme Avenue
Philadelphia, Pennsylvania

Tentative plans for reunion activities for the Class of 1951 include a dinner dance on the evening of June 8th, a cocktail party prior to the Annual Alumni Banquet on June 9th and a golf outing.

10th Reunion—Class of 1956

LEOPOLD S. LOWENBERG, M.D.
2031 Locust Street
Philadelphia, Pennsylvania

Tentative plans call for a dinner dance at the Holiday Inn on Wednesday evening, June 8. More definite plans will be formulated in the near future and class members will be informed.

18th Reunion—Class of 1948

NORMAN J. QUINN, JR., M.D.
1218 Valley Road
Villanova, Pennsylvania

Our annual reunion of the Class of 1948 this year will be held at SKYTOP, Skytop, Pennsylvania, on June 17th to 19th, which will be a long week-end and at the very best time of the year. This year some of the Classmates have suggested a brief and informal academic program. We are in the process of working out details.

5th Reunion—Class of 1961

DAVID K. SUBIN, M.D.
Jefferson Medical College
Philadelphia, Pennsylvania

FRANCIS J. FANFERRA, M.D.
21 E. Marthart Avenue
Havertown, Pennsylvania

JAMES A. WALSH, M.D.
859 Old Lancaster Road
Bryn Mawr, Pennsylvania

Plans are underway for a dinner dance to be held on Wednesday evening June 8th. Additional details will be forthcoming.
1907
Dr. Paul R. Wentz, 132 W. Main St., New Holland, Pa., writes, "There are only a few of us left. I retired in 1962 and am in fair health."

DR. PAUL R. WENTZ, 132 W. Main St., New Holland, Pa., writes, "I retired in 1962 and am in fair health."

1908
DR. C. CLARK LEYDI C, SR., 1202 Carlisle St., Natrona Heights, Pa., sends news via Mrs. Leydic who wrote to Class Agent Dr. Rumbaugh, "I regret to tell you that Clark is in the hospital and has been there for six months. His sight is about gone and he has been in a wheelchair for three years."

1909
MRS. BARKER, widow of Dr. Christopher S. Barker, writes that their older son, Christopher, Jr., is retired as a Rear Admiral of the Navy and their younger son, Charles T., is a dentist. Both sons are living in New Bern, N.C., near Mrs. Barker.

1910
Dr. Thomas J. Howells, 1380 S. 13th, East, Salt Lake City, Utah, writes, "After 35 years of General Practice and one heart attack, I took up Public Health, and became the General Practitioner to a city of 150,000 people. I loved it. Jefferson has grown so that a graduate of 1910 would be lost there. It is a great school."

1912
Dr. R. Grant Barry, 908 W. State St., Trenton, N.J., writes, "Am still in private practice and shooting for 79, not golf either. Had a birthday recently and we celebrated our 51st anniversary.

1913
Dr. Frank S. Bonnell, Box 318, Fairfield, Iowa, writes, "A little tired and retired, however I sit in the park and feed the squirrels."

1914
Dr. George A. Brown, Water Valley, Miss., writes, "I am glad to say that I am enjoying good health and working every day. We have a new Hill-Burton hospital here. I hope to continue working until May 1966. I expect to retire then and enjoy life. This is fisherman's paradise. Plenty of crappie, bream and bass. There are lots of quail and fine shooting."

Dr. Howard R. Rarig, 300 Martz St., Berwick, Pa., is ambulatory, convalescing from a spinal stroke December 1. We wish him a speedy recovery.

Dr. Charles L. Haines, Sr., 2725 N. Fair Oaks Ave., Altadena, Calif., writes, "I am still practicing and enjoy it, although I now take a little more time off for hunting and fishing. I have just returned from our annual trip to Montana. Mrs. Haines and our daughter Jeanne were parked in a modern motel at Ennis, Montana. They fished the Madison and browsed about the old Gold Rush towns and museums. My son-in-law and I took a pack trip into the Madison range for ten days. We came out with a two week growth of gray whiskers, two deer each, and an elk between us. Also as the result of being in the saddle four to six hours a day, and having a tender bottom, I developed the text book picture of saddle blisters."

Dr. Elliott H. Metcalf, 50 Elm St., Rockville, Conn., writes, "I
am still able to get around. Got my share of pheasants this fall.”

DR. KARL B. PACE, Greenville, N.C., writes, “I have been partly retired since 1954. I am still doing some practice on a limited scale. I would like to hear from some of the boys in our Class. We have two sons who also graduated from Jefferson.”

DR. JESSE G. WEBSTER, 45 Main St., Wellsboro, Pa., reports that he has a small office practice and is generally enjoying good health.

1916
DR. AULEY MCR. CROUCH, 520 Dock St., Wilmington, N.C., writes, “I have been an invalid for 19 years now, but I still have a good appetite. I’m terribly weak and I cannot walk more than a block.”

DR. PEYTON R. GREAVES, 126 N. Congress St., Jackson, Miss., writes, “The days are hardly long enough for me to practice medicine, operate my plantation, and raise beagles to hunt rabbits for me.”

DR. JOHN W. GREEN, 732 Morningside Dr., San Antonio, Texas, writes, “Last March 8th Mrs. Green and I left by jet for Singapore to visit my daughter and son-in-law. We stopped at Honolulu, Tokyo, Hong Kong and Bangkok and spent five weeks in Singapore and environs. We are both enjoying pretty good health.”

DR. SIDNEY C. LEVINE, 759 11th Ave., Apt. 3-D, Paterson, N.J., writes, “I retired seven years ago. I now get around slowly and hope to be able to get to the 50th reunion.”

DR. EDWIN G. READE, P.O. Box 226, Watertown, Conn., writes, “I have given up private practice and am actively at work as school physician at a boy’s school—The Taft School, Watertown. This is interesting work and being thrown together with young people gives one young ideas whether he is able to carry them out or not. I have been blessed with good health, good practice and fine memories of happy medical school days at Jefferson.”

1918
MRS. CHARLES LEASUM, widow of Dr. Charles Leasum, 1415 Rosslyn Drive, Palmetto, Fla., has received a certificate from President Lyndon Johnson honoring the memory of her husband who survived the Bataan Death March during World War II to help his fellow Americans.

Class Agent DR. REYNOLD S. GRIFFITH reports that Classmate DR. WILLIAM RUSSELL COOPER passed away on September 19. Dr. Cooper had served for 40 years as medical inspector for the Pittsburgh Public Schools.

1919
DR. RALPH D. GREEN, 2712 S. Norton, Sioux Falls, S. Dak., writes that he has retired.

1920
DR. CLYDE L. MATTAS, 883 Taylor Ave., Scranton, Pa., writes that he was forced to give up his practice September 4, 1964, because of post encephalitic fibrosis, cerebral atrophy frontal lobe, cause undetermined, poly arthritis, and benign hypertension.

DR. ELLWOOD C. WEISE, 144 Golden Hill St., Bridgeport, Conn., is currently serving as Chairman of the Committee on National Legislation of the Council of the Connecticut State Medical Association, and a member of the board of directors of COMPAC. Dr. Weise is a past president of both organizations.

1921
DR. D. LEON GAMETTE, 727 W. 7th St., Los Angeles, Calif., is presently serving as District Surgeon for the California and Nevada District Union Pacific Railroad Hospital Association. Dr. Gamett has retired from private practice.

DR. HOWARD G. LAFFERTY, R.D. #1, Box 167, Mercer, Pa., writes, “I am semi-retired. I devote four hours daily, five days a week as Medical Director of Mercer County Home and Hospital in Mercer.”

DR. LEO D. O’DONNELL, Mercy Hosp., Pittsburgh, Pa., is on the Emeritus Staff at Mercy Hospital and is Emeritus Associate Professor of Surgery at the University of Pittsburgh.

1923
DR. HARVEY R. BAUMAN, Rt. 1, Coopersburg, Pa., writes, “We are still working in Allentown Community Hospital five days a week as staff doctors. Keeps us occupied.”

DR. JOHN M. BREWSTER, 311 Hilldale Rd., Villanova, Pa., writes, “I retired as Medical Director of the Pennsylvania Railroad in 1964. I am now the Medical Officer for the Valley Forge Military Academy and Junior College. I have volunteered to serve in South Vietnam as a General Surgeon in care of the civilian population for two months next summer.”

1924
DR. VICTOR J. BALUTA, 215 N. Shamokin St., Shamokin, Pa., reports that his three daughters are married, one to a dentist, one to a District Manager of the Pennsylvania Power and Light Company, and the other to an attorney in Silver Spring, Md.

DR. PAUL F. DRAKE, 85 Summit Ave., Phillipsburg, N.J., was in Warren Hospital for surgery the entire month of July and the first week in August. He was in again
recently for ten days with lobar pneumonia, but is doing very well now.

DR. FRANCIS G. TORNEY, 116 Hazleton Hwy, So., Mountaintop, Pa., writes, “I am doing mostly industrial work now. I have about 1500 people under my care. I am enjoying excellent health and had a good season at golf (78-85).”

1925
DR. ARCHIBALD MORRISON, 339 Louella Ave., Wayne, Pa., reports that he has been in General Practice for 40 years. Dr. and Mrs. Morrison have been married for 40 years and have three children—two sons and a daughter—and five grandchildren. Dr. Morrison is President of the Board of Health of Radnor Township.

1926
DR. RALPH L. DRAKE, 3333 E. Central, Wichita, Kansas, writes to Class Agent Dr. McDermott, “I had been looking forward to the 1966 reunion, and know that it will be a most cheerful one. However, since we are going to Greece in April and May, I am certain that I will not be able to make another trip East.”

DR. NEAL R. MOORE, 704 N. Jackson St., Bay City, Mich., writes to Class Agent Dr. McDermott, “I have responded to the lashing of your whip by doubling my contribution for the year. Now, if all the rest of the regular givers would do the same, we'd have it made, with lots to spare, and don’t tell me they can’t. I left private practice this year for full time employment as health director for the new chronic disease hospital.”

DR. ARTHUR J. REDLAND, 1229 Jack Drive, Kerrville, Texas, writes, “Our son completed a three year tour of duty with the Army in November 1964. Our daughter is completing her first year in the Peace Corps stationed in Nigeria.”

DR. HARRY L. STEWART, 119 S. Adams St., Rockville, Md., spoke at the Annual Awards Dinner of the Clearfield (Pa.) County Cancer Society on October 1. He spoke on “Cancer in African Natives.” Dr. Stewart is Chief of the Pathological Anatomy Division of the National Institutes of Health Clinical Center in Washington.

DR. ALVORD L. STONE, 106 Hillsboro Ave., Tampa, Fla., writes, “My son Jim is here in Tampa with a group of Pathologists and is kept busy. He hopes to attend his tenth in 1966 and will probably take me along.”

1927
DR. JAMES H. TATE, 2911 Peach St., Erie, Pa., reports that he hopes to be at the reunion in June.

DR. JAMES H. WALL, 121 Westchester Ave., White Plains, N.Y., has been appointed a psychiatric consultant to the psychiatric staff of The Silver Hill Foundation in Connecticut. Dr. Wall was formerly medical director of the New York Hospital, Westchester Division, White Plains, New York.

DR. JOHN F. BARR, Medical Arts Building, 1302 So. Main, Ottawa, Kansas, is practicing medicine with two partners.

1928
DR. NORMAN R. BENNER, 516 Market St., Johnsonburg, Pa., writes to Class Agent Dr. Elias, “Our only other M.D. in town was called in for his physical exam for Uncle Sam and once more Johnsonburg may be faced with Old Benner alone—not a pleasant thought and not one I will be able to take at my age. Have curtailed as much as possible but am still forced to see too many patients per day without enough time off for pleasure or recreation. I am afraid I represent a dying breed of G. P.’s and there appears no relief in sight. Perhaps you could find a dissatisfied G.P. that is looking for fertile fields. Send him on please.

“Son Norman still doing well at Allied and happy in his work and in his new home.”

DR. JOHN F. BOHLENDER, 200 Arvin Dr., San Antonio, Texas, won his golf club championship in May and early in October came in third in the Texas State Seniors after five days of hard play. Dr. Bohlender reports that he is enjoying ‘retired life to the fullest.’

DR. EUGENE L. HEDDE, 211 S. 3rd St., Logansport, Ind., writes to Class Agent Dr. Elias, “We have just returned from a three week tour of England, Ireland and Scotland. We visited the famous Edinburgh and London medical
spas and think the U.S. is offering daily just as much, if not more, in the way of instructions and treatment. We met many old friends such as Big Ben, Windsor Castle, Runnymead and the Battle of Hastings, Robinhood's Nottingham, the moors of England where the hounds of the Baskerville bayed, and peat bogs of Ireland, and the crags and castles of Scotland. Quite a review of the past and present.”

DR. DAVID A. JOHNSTON, 205 State St., Harrisburg, Pa., is President of the Hospital Staff of Harrisburg Hospital. Dr. Johnston and his family have moved into a new home in Willsville, Pa., “a beautiful area with lots of room.”

DR. GEORGE L. MCCARTHY, 506 Union Ave., Paterson, N.J., writes, “Am still working and happy—thanks be to God.”

DR. JO ONO, 15 Zaimokucho Azabu, Minato-Ku, Tokyo, Japan, reports that 1965 was the culmination of the four years of preparation for the International Congress of Otorhinolaryngology, of which he was Secretary General. As he reported at the Opening Ceremony, the correspondence he exchanged with the doctors all over the world during the four years numbered 22,000 letters. There were 1,500 doctors and their families from 60 countries and including the Japanese participating members, there were 4,286 in attendance.

DR. EN SHUI TAI, E. Mt. Kirk Ave. and Longacre Rd., Norristown, Pa., writes to Class Agent Dr. Elias that his daughter Amy took her Physical Therapy State Boards in October and is now working at Fairfax Hospital, Fairfax, Va.

1929
DR. JOHN M. ADAMS, Memorial Hospital, Winchester, Va., spent two months in Vietnam this past fall as part of the second group of physicians organized under a special medical program called Project Vietnam. Dr. Adams was assigned to one of four teams that administer aid in rural South Vietnam to civilians injured in the war or suffering from natural ailments. Project Vietnam is a cooperative medical effort of America’s inter-voluntary agencies for the people of South Vietnam, with the assistance of the American Medical Association and the Agency for International Development.

DR. YEN PUI CHANG, 1481 S. King St., Honolulu, Hawaii, writes that his three children are presently at school on the mainland.

DR. EURLFYN JONES, 2515 Market St., Camp Hill, Pa., writes, “I spent four weeks recently at Point Barrow, Nome, Alaska. It’s a good place for frontier medicine if anyone can control a sled with six huskies to furnish the power. No roads, only mud and snow.”

DR. JAMES WARD, 1909 Ravenwood Way, N.E., Atlanta, Ga., writes, “This year has been like a Merry-Go-Round for us. We have put over 25,000 miles on our car and I have spent many hours in planes besides. We have spent 160 nights out of the last 365 away from home. In spite of all this moving around, we are still in the same old place. As our cook in Liberia used to say when he left, but was coming back soon, ‘I go-come.’ It seems that all year we have Go-come! Anyway we are happy to be still stationed in Atlanta. We love all our trips, but we still love to get home. Our longest and most pleasant trip was one that combined business with pleasure. It covered six weeks and took us through 15 states. We had a delightful five days in San Francisco. My wife Anita rode the cable cars and ‘sight saw’ while I attended the American Hospital Association meeting. We also had a chance to visit Disneyland. It was our first visit there and we highly recommend it to all who get to the West Coast.”

1930
DR. GERALD A. BEATTY, 1003 Delaware Ave., Wilmington, Del., retired president of the Delaware Medical Society, was recently awarded the Distinguished Service Award of the Delaware Medical Society. He is the tenth recipient of this coveted award.

1931
DR. REGINALD C. EDSON, 39 Robin Rd., West Hartford, Conn., is Deputy Commissioner of Health for the State of Connecticut.

DR. CLARK G. GRAZIER, 516 Beaver Rd., Glenside, Pa., writes, “I am still in charge of the Emergency Service of Chestnut Hill Hospital and have been so since I was retired from the U.S.N. after 30 years of active duty. Best to all my classmates.”
1932
DR. FRANCIS P. BOLAND, 1033 Electric St., Scranton, Pa., was recently re-elected as President of the Staff of Mercy Hospital.

DR. HOWARD C. LEOPOLD, 4623 York Rd., Philadelphia, Pa., attended the International Pediatric Allergy Conference on November 6th and the International Pediatric Congress November 7-13, in Tokyo. Dr. Leopold has been appointed Consultant in Allergy to the Philadelphia V. A. Hospital and the Betty Bacharach Home in Longport, N.J.

1936
DR. OSCAR H. COHEN, 115 Church St., Boonton, N.J., writes “I was elected Vice President of the Boonton (N.J.) Board of Health and Treasurer of the Radiological Society of New Jersey and was re-elected President of the Medical Staff of Riverside Hospital, Boonton, N.J. I made an emergency trip to Seattle, Washington, where my daughter, a student at the University of Washington, had an emergency appendectomy, and enjoyed dinner with John Clancy, ’36, who is doing OB-GYN. I also met Clermont Powell, ’45, who is Pathologist at Doctors Hospital in Seattle.”

1933
MRS. HAZEL I. LODER, Box 103, Leesport, Pa., widow of DR. EARL S. LODER, writes that their son John is in his sophomore year at Jefferson and their son Richard is in his junior year at Syracuse University.

1937
DR. JOSEPH A. RALSTON, 1748 Youngstown Rd., Warren, Ohio, recently assumed the post of plant physician for the Brainard Strapping Division of Sharon Steel Corp. in Warren.

1939
DR. ARTHUR I. SIMS, 3215 Columbia Pike, Arlington, Va., is Clinical Associate Professor of Pediatrics at Georgetown University Medical School; Associate Cardiologist, Children’s Hospital, Washington, D.C.; and is in the private practice of Pediatrics in Arlington, Va. He is also serving as Assistant Director of the Rheumatic Fever Control Program for the District of Columbia Health Department and is President of the Washington, D.C., Chapter of the Jefferson Alumni Association.

1940
DR. ROGER B. THOMAS, 8 Vining Lane, Wilmington, Del., writes that his eldest son graduated from John Hopkins Medical School this past year and his other son is a pre-law student at Dickinson College, Carlisle, Pa.

1942
DR. RINALDO J. CAVALIERI, 709 Main St., Newington, Conn., writes, “I have one son: Jefferson Cavalieri. Jeff is two years old and hasn’t chosen a career yet.”

DR. ROBERT H. MCCARTER, 82 Marlboro St., Boston, Mass., recently completed a two year resi-
Dr. Vernon R. Phillips, 2515 Market St., Camp Hill, Pa., wrote to Class Agent Dr. Davis in November, "Two weeks ago my daughter-in-law and son presented us with our second grandson. My son is a Biology Instructor at Valley Forge Military Academy."

Dr. Michael J. Ressetar, 75 Clifton Ave., Clifton, N.J., writes, "I was named Chairman of the St. Mary's Hospital (Passaic, N.J.) Medical Staff Building Committee. We pledged $200,000 and are over $210,000 in a very successful drive."

Dr. Jay L. Smith, Jr., 109½ Fifth St., Spencer, No. Carolina, reports that his son David Simmons Smith is currently a senior student at Bowman Gray Medical School.

1944
Dr. Bernard L. Braveman, 515 Sinclair, McKeesport, Pa., writes that he is scheduled to lecture on cataract surgery this winter in Jamaica and Trinidad.

1944-S
Dr. Ray H. Flory, Hill St., Milroy, Pa., reports that his daughter, Virginia, has been accepted as a member of the Class of 1966 at Jeff.

1945
Dr. Harry W. Fullerton, Jr., 86 Shell Rd., Carney's Point, N.J., writes, "I'm still a South Jersey G.P. and enjoying it. We have three teen-age children: Joyce, 19, at Marietta College, Ohio; Karen, 15, in high school; and Wayne, 13, in junior high school."

Dr. John C. Sanner, 146 S. Main St., Scranton, Pa., has been named Chief of Staff of Community Medical Center in Scranton. Dr. Sanner has been active at the Medical Center since 1954 and is immediate past president of the medical staff.

Dr. John F. Suerman, 21 Mohawk Ave., Sparta, N.J., writes, "We're up to eight children now. One of our twin boys is in the Air Force Academy and the other is at West Point. I'm a country doctor now in the small town of Sparta, the ice box of New Jersey."

1946
Dr. Charles W. Korbonits, 322 North High St., West Chester, Pa., was made a fellow of the American College of Surgeons on October 21. Dr. Korbonits is now in his twelfth year of practice in West Chester. His eldest son, Charles Williams, Jr., is a freshman at Lafayette College, Easton. Dr. Korbonits reports that his wife and three other children are well and enjoying life in Chester County.

Dr. David G. Simons, 11011 Hunters Park Dr., Houston, Texas, has been named Chief of Veterans Administration Research in Physical Medicine and Rehabilitation. Dr. Simons, who won acclaim in 1957 for setting a manned balloon altitude record, is the new director of the Physiometrics Research Laboratory of the VA Hospital in Houston.

1947
Dr. Lewis E. Jones, 1752 Morris Landers Dr., N.E., Atlanta, Ga., was elected to Fellowship in the American College of Physicians in April 1964 during the annual meeting of the College in Atlantic City, N.J.

Dr. Chester L. Schneider, Central Alaskan Missions, Inc., Box 5, Glennallen, Alaska, moved out of Ventnor, New Jersey, on July 3. They spent time with both their families and then visited friends in Washington, D.C., Statesville, N.C., Ary, Ky., Georgetown, Ky., Chicago, and southwest Minnesota. On leaving Minnesota, "eight days of driving, three flat tires and barrels of strangling dust later, we reached Glenallen." Both Dr. and Mrs. Schneider agree that while they had a marvelous time on their home leave, they are happy to be back at work in Alaska.

1948
Dr. Donald G. Birrell, 828 12th St., Oakmont, Pa., writes, "Pat and I were very sorry that we couldn't make it last year, but we'll make a big effort to get to Skytop in June."

Dr. Donald M. Blatchey, 225 Professional Bldg., Greensburg, Pa., writes, "Worst and best racing season yet! In six races, did not finish three. In the three I finished, I was in the top four. Busy as ever with the practice of Dermatology."

Dr. Donald M. Feigley, 32 S. 10th St., Quakertown, Pa., reports that his oldest son is a freshman at Gettysbury College. "I hope he'll be at Jeff four years from now."

Dr. William F. Hughes, The Willows, Westport, Conn., reports that he is still practicing General Surgery in Westport. Dr. and Mrs. Hughes have six children.

Dr. Richard W. Skinner, 315 Walnut St., Hollidaysburg, Pa., spoke at the November meeting of the Altoona Hospital registered nurses. Dr. Skinner is an Anesthesiologist at Altoona Hospital.

1949
Dr. Frank E. Gilbertson, 55 Union St., Red Bank, N.J., spent December and January in Vietnam ministering to the medical
needs of the South Vietnamese. Dr. Gilbertson, who is on the surgical staff at Riverview Hospital in Red Bank and Monmouth Medical Center in Long Branch, is the first New Jersey physician to take part in the volunteer program "Project Viet Nam."

1951

DR. DOUGLAS F. BRADY, 448 Ridge Ave., New Kensington, Pa., was recently inducted into the American College of Surgeons. He is on the staff of Allegheny Valley Hospital, Tarentum, Pa., and Citizens General Hospital, New Kensington. Dr. Brady reports that his wife Marlene and their two sons, Jim, 7, and John, 8, are prospering.

DR. JOSEPH L. FARR, 592 St. Claire St., Palo Alto, Calif., spoke before a meeting of the West Virginia Nurses Association on October 7 in Wheeling, W. Va. Dr. Farr spoke on "Newer Concepts and Advances in the Treatment of Urological Diseases."

DR. NICHOLAS P. KITRINOS, 14 Longfellow Rd., Melrose, Mass., is a Commander in the U. S. Navy. He was certified by the American Board of Neurological Surgery in 1961 and a member of the Harvey Cushing Society. He has been at the Naval Hospital, Chelsea, Mass., since 1962. Dr. Kitrinos is also affiliated with the Boston University School of Medicine where he is Assistant Clinical Professor of Surgery.

DR. ROBERT A. MCKINLEY, 121 Westchester Ave., White Plains, N.Y., left for South Vietnam on January 4th as a volunteer with Project Vietnam. As to why he volunteered, Dr. McKinley said, "I feel that the military effort in Vietnam will be in vain without concerted personal efforts by those qualified to help these people. Medical help is particularly useful since it is less open to misinterpretation, and it is personal." He will minister to civilians injured in the war or suffering from natural ailments and will serve a minimum of two months without pay.

DR. JESSE L. WOFFORD, 208 Med. Arts Building, Jackson, Miss., has four children ranging in age from six to twelve.

1952

DR. WILLIAM LYNCH, 1441 Chapel St., New Haven, Conn., spoke on "Changing Attitudes in Psychiatry" before a meeting of St. Mary's guild in Milford, Conn., October 11. Dr. Lynch is Clinical Director of Psychiatry at St. Raphael's Hospital, New Haven.

DR. CARL F. BRANDFASS, JR., University of Massachusetts, Amherst, Mass., writes, "I gave up my general practice in Cuyahoga Falls, Ohio, after ten years, and I'm now a staff physician at the University of Massachusetts."

DR. ROY H. HAND, 1042 Kipling Rd., Jenkintown, Pa., reports that he is doing general surgery at Abington Memorial Hospital.

DR. HARMON E. HOLVERSON, 107 W. 2nd St., Emmett, Idaho, writes, "We have adopted a little girl so now we have two children—Jeff, 9, and Holly, 3. I just completed a year's term as President of the Idaho Academy of General Practice and am beginning a two year stint as a delegate from Idaho."

DR. HENRY A. KANE, 1142 Morris Rd., Wynnewood, Pa., is Chief of the Pediatric Cardiac Clinic at Jeff. Dr. and Mrs. Kane have two children: David, 20 months, and Douglas, 8 months.

DR. HAROLD J. REINHARD, Warren State Hosp., Warren, Pa., writes, "I have been at Warren State Hospital for 11 years and am currently Clinical Director. I do some private practice of Psychiatry and am consultant for the local Family Service. I recently completed a term as President of the local unit of the Pennsylvania Division of the American Cancer Society. We have six children."

DR. STANLEY S. SCHNEIDER, 17302 Osborne St., Northridge, Calif., reports, "Mark, 16, Carol, 14, Susan, 10, Elisa, 7, all are fine and enjoying the glories of Los Angeles smog and 11 inches of November rain."

DR. JOSEPH W. SIMPSON, 2391 Hickory Rd., Plymouth Meeting, Pa., writes, "Since my return to the States (after a period of three years spent in Sumatra, Indonesia, as a physician with the Caltex Pacific Oil Company) late in December 1961, and particularly so since May 1962, I have been a full-time physician with the Medical Department of the Du Pont Company's Experimental Station located in Wilmington, Delaware."

DR. RICHARD O. STADER, 167 Hawes Lane, Chambersburg, Pa., is practicing Orthopedic Surgery in Chambersburg. Dr. Stader writes that he and his wife and their four children are all well and are pleased with their move back to Pennsylvania from South Carolina.

1955

DR. ROBERT D. CORDIER, 120 Ascot Dr. Suite B. Roseville, Calif., retired from the U.S. Navy, August 1964, and has been in the practice of General Surgery since that time. Dr. Anthony ('55) and Dr. Dugan ('56) are also practicing in Roseville.

DR. HARRY CRAVETZ, 1000 66th Ave., Philadelphia, Pa., writes to Class Agent Dr. Senior, "After seven years of General Practice, I found myself too deeply involved with too many people's problems, with the notable exception of my own. My boys needed
Dr. Francis J. Curran, 93 Wamsutta Rd., Attleboro, Mass., writes, "I have organized an Inhalation Therapy Service in our hospital in keeping with the concept of projecting Anesthesia out of the OR and into Respiratory Therapy."

Dr. William T. Holland, 899 Grove St., Meadville, Pa., writes, "I recently entered practice again, this time in Ophthalmology, after a three year residency at Cleveland Clinic. Hap and the kids are fine. Hap and I spent the month of July in Port de Paix, Haiti, doing surgery and conducting clinics there under the auspices of FOCUS, INC."

Dr. Arthur B. Lissner, 6227 McPherson, St. Louis, Mo., writes, "I passed my boards in Plastic Surgery in May. We now have seven children—Lee, 10, Amy, 9, Chris, 7, Ken, 5, Cindy, 3, Jenny, 2, and Kathy, 6 months. No new additions expected. Next year, I'd like to get a dog instead."

Dr. William A. Lista, 4200 State Rd., Drexel Hill, Pa., has been out of the Navy for two years and has been in the private practice of Internal Medicine since September 1963. In June 1965 Dr. Lista became associated with Dr. Joseph Gambescia, Professor of Medicine at Hahnemann Medical College. Dr. and Mrs. Lista have two children, Anthony, 5½, and Leslie, 3½.

1956

Dr. Vincent C. Andracchio, Parkview Hospital, Rocky Mount, N.C., is practicing Anesthesiology in Rocky Mount. The Andracchios have three daughters, Lisa, 4, Sylvia, 2, and Marie, 6 months.

Dr. Albert Arouh, 223 Livingston Ave., New Brunswick, N.J., is working as full-time hospital radiologist at Cooper Hospital in Camden.

Dr. Charles L. S. Brennan, 529 Somerset St., Gloucester City, N.J., wrote to Class Agent Dr. Bonacci in November that he had been called in for his Draft physical in October and was waiting to be classified.

Dr. Albert G. Danishanko, 174 Scott St., Wilkes-Barre, Pa., is in General Practice in Wilkes-Barre. Dr. and Mrs. Danishanko have four children, one daughter and three sons. Dr. Danishanko reports that he is looking forward to the 10th reunion of the Class of '56.

Dr. John B. Davies, 89 Loomis Dr., W. Hartford, Conn., sends news via his wife, who writes to Class Agent Dr. Bonacci, "I too have continued to be impressed by the percentage of participation of the Class of '56 in giving to Jefferson. In comparing it to our undergraduate college's per cent, the college comes out way behind. I've been brought up to believe that one has an obligation to contribute to a school upon graduation, because anyone who thinks he paid his way through is very much mistaken; and monies from Alumni are sorely needed to make up the difference. John is now in his third year of a psychiatric residency."

Dr. Antonio Ramos-Barroso, 16 Betances St., P.O. Box 133, Bayamon, Puerto Rico, writes "After five years in General Practice, I am returning to the U.S.A. mainland for a three year residency in OB-GYN in July 1966. I expect to attend the 10th reunion of our Class in June '66. Harry Schwartz vacationed in Puerto Rico last spring and we had a most enjoyable time together."

Dr. Edwin L. Rothfield, 1162 S. Orange Ave., South Orange, N. J., presented an exhibit "Telemetric Monitoring of the EKG in Myocardial Infarction" at the AMA Convention in New York City in June, 1965.

Dr. Henry H. L. Yin, 45-939 Kamehameha Highway, Kaneohe, Oahu, Hawaii, has been in the practice of Pediatrics for five years. Dr. and Mrs. Yin have three children; two boys, Greg and Chad, and one girl, Robyn Liz. Dr. Kim writes that he plans to be at the 10th reunion of the Class of '56 in June.

Dr. James G. Zangrilli, 201 So. Hills Medical Building, 1815 Brownsville Rd., Pittsburgh, Pa., has been practicing the specialty of Urology in Pittsburgh since January 1, 1965. Dr. Zangrilli reports that they have added another son to their family.

1957

Dr. Richard A. Bedford, 2998 Welsh Rd., Phila., Pa., has been in general practice for six years. Dr. and Mrs. Bedford have two sons, age 5 and 4.

Dr. Norman Berger, 200 N. Union Ave., Havre de Grace, Md., in practicing Obstetrics and Gynecology in Havre de Grace.

Dr. T. Clark Corson, III, R.D. #1, Catawissa, Pa., writes, "I'm practicing Obstetrics and Gynecology in Bloomsburg and Shamokin, Pa. On June 23, 1965 Nick Spock, who does general practice, and I made local history when we successfully delivered triplets via..."
repeat Caesarean section. The infants ranged in weight from 4 lb. 10 oz. to 5 lb. 11 oz.; all survived and did well."

Dr. Ronald M. Match, 99 Forest Ave., Glen Cove, N.Y., has been in the private practice of Orthopaedic Surgery since July 1965. Dr. Match was in Santo Domingo for the month of May 1965 with the U.S. Navy, servicing the injured natives of the Dominican Republic.

Dr. Norman S. Sherwood, 444 Community Drive, Manhasset, N.Y., writes, "I am now associated with the Brooklyn-Cumberland Medical Center, providing the urological support for their Chronic Hemodialysis Center."

1958
Dr. George E. Hudock, Jr., 149 Dana Street, Wilkes-Barre, Pa., Chief of Pathology at Wyoming Valley Hospital has been named a fellow of the American Society of Clinical Pathologists.

1959
Dr. Murray S. Caplan, 9321 Laramie Rd., Philadelphia, Pa., is practicing Psychiatry in Northeast Philadelphia. Dr. and Mrs. Caplan have three children.

Dr. Paul I. Nelson, 100 Paulison Ave., Passaic, N.J., is practicing the specialty of Dermatology. He recently was certified as a Diplomat of the Board of Dermatology.

Dr. Colby R. Parks, Box 760 Fredericksburg Hosp., Fredericksburg, Texas, has joined the staff of the Fredericksburg Hospital and Clinic in Fredericksburg.

1960
Dr. David Blecker, 137 Farmington Rd., Utica, N.Y., writes, "I am in the private practice of Pediatrics at 3 Parkside Court, Utica, N.Y. My family and I are gradually getting adjusted to the life of private practice and the colder weather here."

Dr. Fred C. Cristofori, Medical School, Department of Internal Medicine, University of Minnesota, Minneapolis, Minn., is a NIH trainee in metabolic diseases at the University of Minnesota Hospitals. Dr. Cristofori reports, "This is a great place!"

Dr. Charles R. Druffner, 1019 Main St., Avoca, Pa., has joined Dr. Mario N. Fabi, Scranton Life Building, Scranton, in the practice of internal medicine. Dr. Druffner recently completed three years of advanced study in internal medicine at the Mayo Clinic in Rochester, Minn.

Dr. Neil R. Feins, 425 E. 51st St., New York, N.Y., writes, "My wife, son and I will be going to Columbus, Ohio, in July 1966, where I will go on in surgery studying with H. William Clatworthy at the Children's Hospital."

Dr. Alfred J. Finn, Jr., 106 Litchfield Dr., Torrington, Conn., is in General Practice in Torrington where he recently opened their new medical clinic. Dr. and Mrs. Finn have four children: Michael, 4, Patrick, 2, Virginia, 1, and a new baby daughter.

Dr. Joseph M. Gagliardi, Jr., 389 S. Main St., Seymour, Conn., writes, "I passed Part I of my Orthopaedic Boards in May. I have set up an office for the private practice of Orthopaedic Surgery in Seymour. I have privileges at Griffin Hospital. I am attending Clinics at this Hospital and also at Yale, New Haven."

Dr. David Green, 2543 Burgener Blvd., San Diego, Calif., reports, "Toby and I have two children. Jo Ellen is 3½ and Daniel is 1½. My tour of duty with the Navy will be completed in July 1966. I am presently stationed at U.S. Naval Hospital, San Diego."

Dr. John M. Hess, 1249 Adams St., Fairborn, Ohio, represented Wright Patterson AFB in the USAF—AFLC ski races at Snow Basin, Utah, March 1965. "No prizes, but it was lots of fun." Dr. Hess presented a paper "The First Derivative of Left Ventricular Pressure in Abdominal Reflex Hypotension" at the 13th annual meeting of the Air Force Clinical Surgeons, Wilford Hall Hospital, San Antonio, Texas. Dr. Hess writes that he played tennis all summer and reports on his children, "JJ's in first grade, David is in nursery school, and Brian is under mother's feet."

Dr. Howard E. Hock, 261 Ridgewood Ave., Glen Ridge, N.J., entered the private practice of Otolaryngology on July 1, 1965. Dr. and Mrs. Hock have three children, aged 6, 4, and 1.

Dr. Charles T. Kelso, 1620 E. 21st St., Denver 5, Colorado, is a third year resident in Pathology at Presbyterian Hospital.

Dr. William Mahood, 4-A Boatner Dr., Eglin A.F.B., Fla., hopes to complete his tour of duty with the U.S. Air Force in July of 1966.

Dr. William Mancoll, c/o 285 N. Quaker Lane, West Hartford, Conn., writes, "I enjoyed the Reunion last June, but unfortunately I couldn't stay in Philadelphia as long as I had wished. The Army has sent me to Ascom City which is near Incheon and 19 miles from Seoul. I'm the only ENT specialist in Korea and am working hard. I'm going to try and see as much of the Far East as I can, exclusive of South Vietnam."

Dr. Harvey W. Oshrin, 1315 West Palm Ave., Redlands, Calif., writes, "I have left my general practice in San Francisco as of 1 July in order to move 500 miles
south of Redlands to take a residency in Psychiatry supported by a grant from the National Institutes of Mental Health. The residency at Patton State Hospital has proved to exceed my most optimistic expectations. It is most interesting, challenging and gratifying. The change in my way of life occasioned by working only a 40-hour week has permitted me to enjoy this area of boundless recreational opportunity as well as my wife and two children. Although we are only 60 miles east of Los Angeles, our San Bernardino Valley boasts of Loma Linda University Medical School which insures the highest standards of the influence of academic medicine out here. We are all very happy with the move and change in career direction."

DR. LEONARD J. THOMPKINS, 100 Old York Rd., Elkins Park, Pa., writes, "My wife, two sons and myself have recently moved into a new house in Melrose Park, Pa., and are enjoying it thoroughly. I am currently practicing Dermatology and have just become a diplomate of the American Board of Dermatology.

DR. LEONARD J. THOMPKINS, 100 Walnut St., Jenkintown, Penna., writes, "I finished my residency with Dr. Herbut in Pathology in June 1965. Since then I have been Pathologist at St. Alban's Naval Hospital, Long Island, courtesy of the U.S. Navy. I went to St. Louis, Mo., in September to take my boards and I passed both the anatomic and clinical parts."

DR. LEONARD V. VINNICK, 3 Willowbrae Dr., West Peabody, Mass., writes, "I'm presently doing research at Harvard in diabetes. We are moving to Northwestern University Medical School in July 1966, where I will continue in research."

DR. ARNOLD H. WEINSTEIN, 131 E. Live Oak, Apt. 14, San Gabriel, Calif., is working with the Alhambra Medical Clinic. He reports that his practice is small but growing.

DR. ROBERT A. WEISS, 1111 Glen St., Killeen, Texas, is practicing Internal Medicine at Ft. Hood, Texas, which is 70 miles north of Austin and 120 miles south of Dallas. Dr. Weiss reports that he is enjoying his tour of duty with the Army, having completed three years of training for his boards in Internal Medicine.

1961

DR. JOSEPH D. AVELLINO, 2206 S. Broad St., Philadelphia, Pa., is engaged in the general practice of medicine. Dr. and Mrs. Avellino have one son.

DR. JAY S. BARNHART, JR., 3 Maulden Ave., North East, Md., has been engaged in General Practice for 3 1/2 years in North East, Md.

DR. JAMES A. BRECHT, Shipley Farm, Providence Rd., Secane, Pa., completed his residency in Psychiatry at Institute of Pennsylvania Hospital in June 1965. He is presently on the staff of Philadelphia Naval Hospital and has received a research grant to study Families with Autistic Children.

DR. SAMUEL B. CHYATTE, Assistant Professor of Physical Medicine, Emory University, Atlanta, Ga., writes, "I've been named Acting Director of Training of the Emory University School of Medicine Rehabilitation Research and Training Center. I'm enjoying the South and find the people here much more cordial. I was recently in Philadelphia for the meeting of the Association of American Medical Colleges and talked with Dr. Frank Krusen ('21) at Temple University Rehabilitation Center and Dr. John Goldschmidt of Jeff's Rehabilitation Center."

DR. ROBERT R. CONTE, Morrow Dr., Pittsburgh, Pa., is presently in his second year of OB-GYN residency at Magee Womens Hospital in Pittsburgh. He recently completed his military obligations with the U.S. Army stationed at Fort Lewis, Washington. Dr. and Mrs. Conte are the parents of four children: Gary, 5, Lisa, 4, Greg, 2, and Lori, 2 months.

DR. KENNETH M. CORRIN, JR., 3103 Wilmont Dr., Wilmington, Del., is practicing Cardiology in Wilmington following completion of his medical residency at P.G.H., July 1965. Dr. Corrin reports that he and his family have moved into a new home.

DR. LEWIS H. DENNIS, 3207-22 University Blvd., W., Kensington, Md., writes, "I am presently Research Hematologist, Walter Reed Army Medical Center, Washington, D.C. I'm serving my tour of duty under the Berry Plan after having completed a residency in Internal Medicine and serving an American Cancer Society Fellowship in Hematology at Hahnemann Medical College and Hospital. I spoke on 'Chemotherapy of Hematologic Malignancies during Pregnancy' at the Hahnemann Symposium on Cancer Chemotherapy in Philadelphia, November 22-24, 1965."

DR. FRANCIS J. FANFERA, 21 E. Marthart Ave., Havertown, Pa., writes to Class Agent Dr. Subin, "I hope we have a good turnout for the reunion. I fear many of us will be drafted come July 1. I take my physical exam soon and only hope I'm allowed to complete my residency."

DR. JOSEPH B. HEISTER, III, 111 Welsey Dr., New Kensington, Pa., reports that the Heister children Amy Beth, 5, and Todd, 2 1/2, are growing fast and busier than ever.

DR. JOHN P. KEEFE, 6901 Valley Ave., E-3, Philadelphia, Pa., will complete his residency in Obstetrics and Gynecology at Jefferson.
in June 1966 and plans to practice in the Cleveland, Ohio area.

DR. JOHN E. KILFEATHER, 2304 Florida St., Arlington, Va., is currently Chief Medical Resident at the new 710 bed Washington, D.C., V.A. Hospital. Dr. Kilfeather is married and the father of four children.

DR. WILLIAM D. MCCANN, 143 E. James St., Lancaster, Pa., finished a three year tour of duty in the U.S.A.F. in June 1965. In July he began a one-year General Practice residency at the Lancaster General Hospital. After completing his residency, he hopes to settle in the Lancaster area.

DR. ARTHUR N. MEYER, 920 South 46th St., Philadelphia, Pa., completed his residency at Philadelphia V.A. Hospital and is presently a Clinical Fellow in Hematology at Hahnemann Medical College under Dr. Isadore Brodsky.

DR. RICHARD T. PADULA, 460 Irvington Rd., Drexel Hill, Pa., is presently a fourth year resident in Surgery at Jefferson. Dr. and Mrs. Padula have two children—Marta Anne, 5, and Richard William, 3.

DR. GERALD M. POLIN, Judge Baker Children’s Hospital, Boston, Mass., writes, “I’m completing my work in Child Psychiatry here and next year, should my temporary orders hold, I’ll be at Bethesda for my two years of service duty.”

DR. THOMAS C. REEF, 1523 8th St., Cuyahoga Falls, Ohio, writes, “I’m a third year resident in Orthopedic Surgery at Akron City Hospital, Akron, Ohio. As of yet, I have made no commitments for July 1966 when I finish here. My wife Sue and I have two daughters, Karen, age 5, in kindergarten and Laura, age 3.”

DR. WALTER D. STEVENSON, 3603 Hawthorne St., Dallas, Tex., writes, “I am currently finishing my last year as Chief Surgical Resident at the Dallas V. A. Hospital and will enter the U. S. Army this July.”

1963

DR. RICHARD U. DELP, U.S. Army Dispensary, Indiantown Gap Military Reservation, Indiantown, Pa., was recently reassigned to Indiantown after serving a year’s duty at Kimbrough Army Hospital, Ft. Meade, Md. Dr. and Mrs. Delp have one son, Timothy James, aged 1½.

DR. ROBERT R. THOMPSON, Akron City Hospital, 525 E. Market St., Akron, Ohio, is presently taking his internship at Akron City Hospital. Next year he plans to be in the Public Health Service and hopes to be assigned to Alaska. He has been taking flying lessons in his spare (?) time.

DR. STANFORD B. TRACHTENBERG, 1916 Beverly Glen Blvd., Los Angeles, Calif., is presently stationed at U.C.L.A. in the Public Health Service.

DR. STANLEY J. YODER, Alaska Native Health Center, Annette Island, Alaska, is serving at the U.S. Coast Guard Air Station at Annette Island. Dr. Yoder reports that his duties include frequent search and rescue missions in southeastern Alaska.

DR. PAUL E. ROSENBERG, 2627 W. Girard Ave., Philadelphia, Pa., is currently a resident in Dermatology at Jefferson.

1965

DR. ALBERT A. DUBIN, MacNeal Memorial Hosp., 3249 S. Oak Park Ave., Berwyn, Ill., writes, “I have accepted a three year residency in Ophthalmology at Evanston Hospital, Evanston, Ill., an affiliate of Northwestern Medical School. After my residency, I plan to be in the Navy for two years.”

DR. J. DENNIS STEEN, Geisinger Medical Center, Danville, Pa., reports that he is enjoying his mixed medical internship and is anticipating entering the U.S. Navy in July 1966.

DR. ROBERT R. THOMPSON, Akron City Hospital, 525 E. Market St., Akron, Ohio, is presently taking his internship at Akron City Hospital. Next year he plans to be in the Public Health Service and hopes to be assigned to Alaska. He has been taking flying lessons in his spare (?) time.
Due to the large influx of Class News Notes, we were unable to include them all in this issue. The remainder will be published in the Spring Issue of the BULLETIN.

ENGAGEMENTS
1960 Dr. Harvey David Silver to Maureen Elaine Seiler.
1965 Dr. Harvey Philip Schlein to Barbara Gottlieb.

WEDDINGS
1964 Dr. James M. Delaplane to Mary Ann Gansz, November 27, 1965.
Dr. Ronald Joseph Horvath to Maureen Kathleen Mullen.

1965 Dr. Elmer C. Bigley, Jr. to Elizabeth Ann Fidure, October 16, 1965.

BIRTHS
1948 Daughter, Anne Elizabeth, to Dr. and Mrs. Curtis H. Swartz, January 5, 1966.
1951 Son, Joseph H., to Dr. and Mrs. Earl Kanter, January 1, 1965.
1956 Daughter, Simone Marie, to Dr. and Mrs. Frederick V. Baldi, August 2, 1965.
1957 Son, to Dr. and Mrs. Norman Berger, December 17, 1964.
Daughter, Tamara Adele, to Dr. and Mrs. Bronson J. McNierney, October 15, 1965.

1960 Daughter, Sheila Mary, to Dr. and Mrs. Alfred J. Finn, Jr.
Son, Joshua Seth, to Dr. and Mrs. Harold J. Kobb, June 20, 1965.
Daughter, Allison Marie, to Dr. and Mrs. John P. Keefe, July 4, 1965.

1961 Son, Richard, to Dr. and Mrs. Gerald M. Polin, September 10, 1965.
Daughter, Carolyn, to Dr. and Mrs. Robert B. Tesh, November 3, 1965.
Son, Richard Stefan, to Dr. and Mrs. James Vorosmarti, Jr., October 29, 1965.
Son, Robert William Thomas, to Dr. and Mrs. William A. Wimsatt, April 23, 1965.

1965 Son, Stanley, Jr., III, to Dr. and Mrs. Stanley J. Sutula, Jr.

Calendar of Future Events

April 19, 1966 RECEPTION FOR JEFFERSON ALUMNI, WIVES AND GUESTS
Green Room, New York Hilton Hotel
during meeting of American College of Physicians
6:00 p.m. to 7:30 p.m.

June 9, 1966 ANNUAL ALUMNI BANQUET
6:00 p.m. Benjamin Franklin Hotel

June 10, 1966 COMMENCEMENT

June 29, 1966 RECEPTION FOR JEFFERSON ALUMNI, WIVES AND GUESTS DURING AMA CONVENTION
Palmer House, Chicago
Alumni Placement Bureau

Positions Available

An opportunity exists for new physicians in northwestern New Jersey, near the Delaware Water Gap area. A new recreational water facility and a new interstate highway will result in a very substantial population growth in the area. Presently the area of approximately 100 square miles has only one general practitioner.

A general practitioner is looking for a partner in a college town forty miles outside Philadelphia. Excellent opportunity.

There is a need for young doctors in Lehigh County, Pennsylvania, who would like to live in a rural community. The hours are long but rewarding.

There is a serious need for a general practitioner to assist a Jefferson graduate, Class of 1962, in western New York state.

There is an urgent need for full-time physicians to staff the emergency room of a hospital near Camden, New Jersey, which has 185 beds. Applicants must be eligible for a New Jersey license. A minimum guarantee is offered.

The Lexington Clinic, Lexington, Kentucky, has attractive openings for an orthopedic surgeon, hematologist and endocrinologist. Located in the “blue grass” area of Kentucky, the Clinic was organized in 1918. It draws from an area of about 400,000 people. Clinic physicians are on a salaried basis with many fringe benefits. Travel expenses for anyone interested will be paid for the applicant and his wife for an interview.

There is an excellent opening for a surgeon in Shenandoah, Pennsylvania, as a result of the retirement of two older surgeons. This is a non-competitive field with 12,000 local population and 20,000 surrounding. Both of the men who are retiring are Jefferson graduates.

Excellent opportunity exists for an ENT specialist to take over an active practice, which is being relinquished due to illness. The practice, located in Bloomington, Illinois, offers a great deal of surgery and excellent medical associations.

There is a need for one or more physicians to establish their practice in the Palmer, Massachusetts, area.

Letters to the Editor

Accelerated Program

Dear Sir:

I have just read in the ALUMNI BULLETIN of the accelerated Penn State - Jefferson program. I am proud that Jefferson should be the school to experiment with such far-seeing programs in training the doctor of the future.

William H. O'Brien, M.D.
Class of '60

Thursday Afternoon in September

Dear Sir:

It was hot and miserable and sticky. I had opened the top button of my shirt, had pulled my necktie open. The neighborhood had a little missing—Jefferson was bigger. There was a little more green in the area. However, something was different.

I walked down Tenth Street slowly, trying to find the difference. The old store where I first
bought my white coats so proudly, looked the same. Student nurses as they walked by at the change of the shift had the same familiar cap. The freshly starched bibs rustled with the same sound. And yet there was a difference.

As I stood on the corner of Tenth and Spruce I thought I had it. The sounds were different. I remember many hot September nights listening to the clank of the trolleys at the Spruce Street crossing, there were trolleys on all the streets at that time and the sound of the trolley hitting the crossing at a fairly decent speed was ear shattering. But as I stood and thought, I realized that this was not the solution and so I walked on.

On another corner I stood and watched and waited and listened. The odors of the Greek pastry were the same. The bakery smells were heavy. The electric trucks were gone; that was it! The big Curtis trucks were not lumbering down the street. The silent Horn and Hardart trucks were not slipping quietly around the corner. But no, something else was different.

Deep in thought I walked down Walnut Street and absentmindedly stood in front of 1025. I looked through the glass doors several times, trying to decide what it was that was really different. Suddenly the answer came rather forcefully. As a group of students tumbled down the steps and out the door, I looked at their young faces, and the reflection of mine in the glass, and for the first time I realized what was the difference—20 years.

John D. Paul, Jr., M.D.
Class of ’49

(We welcome all contributions to this column, but must reserve the right to edit. Please address correspondence to: Editor, Alumni Association, 1025 Walnut St., Phila. 19107.)

Alumni are invited to present names
of candidates
for
The Alumni Achievement Award—1966

Your proposal should include the suggested candidate’s name, year of graduation from Jefferson, past accomplishments, present activities, titles and positions held. You may state the personal qualifications of the Alumnus and the reason, or reasons, you believe he should receive the Achievement Award for 1966.

All proposals must be received no later than April 25, 1966.
Address all correspondence to:
JOHN H. HODGES, M.D.
c/o Alumni Office
Jefferson Medical College
Philadelphia, Pennsylvania 19107

Presentation of the Award will be made June 9, 1966, at the Annual Alumni Banquet.
Past recipients: DR. LOUIS H. CLERF
DR. HENRY L. BOCKUS
PERCIVAL E. FOERDERER
Some Interesting Jefferson Alumni

The following is the twelfth in a series of portraits of "Some Interesting Jefferson Alumni" which was introduced in the August, 1963, issue and will continue to be presented in future issues of the ALUMNI BULLETIN. This material was compiled and written by Dr. Edward C. Britt, Class of 1933, and appeared in the 1940 CLINIC. That same year it was also published in "The Medical Searchlight." We are deeply indebted to Dr. Britt for his keen interest in Jefferson's historical heritage and for bringing this material to our attention. This month's portrait is of Dr. Levi Cooper Lane.

Levi Cooper Lane, M.D., F.R.C.S.

Let us return to California where we left Beverly Cole in the throes of a controversy, to consider the career of another great pioneer in the medical history of that state—Levi Cooper Lane (1830-1902) M.D., 1851; F.R.C.S.—who was born in Ohio. He interned at the New York State Hospital, where for a time he was associated with Thomas A. Emmet. He remained there four years then entered the Navy for a similar period, taking post-graduate courses in Europe during furloughs from the service. In 1861 he was called to the Chair of Physiology in the Medical Department of the University of the Pacific, founded by his Uncle, Elias Samuel Cooper in 1858. At the death of Dr. Cooper in 1862, Dr. Lane helped maintain the school, occupying the Chair of Anatomy. In 1864, when Dr. H. H. Toland founded the Toland Medical College, eventually to become, in 1873, the Medical Department of the University of California, (Beverly Cole, M.D. 1849, was successively Dean of the Pacific, Toland and California Medical Schools) and erected a large brick building near the city and county hospital, the old school was forced to close. Dr. Lane thereupon occupied the Chair of Anatomy in the newly formed college.

In 1870 a group from Toland revived the Medical College of the Pacific and Dr. Lane became Professor of Surgery. In 1882 he formed a new school to be known as Cooper Medical College in honor of his Uncle, and presented it with a new, large brick building. In 1889 he erected another portion of the college building, containing laboratories and a large auditorium known as Lane Hall. In 1894 he erected the Lane Hospital as an adjunct to the School. Just before his death in 1902, he presented to negotiations which led to the establishment in 1908 of Cooper Medical College as the Stanford University School of Medicine.

He performed the first Vaginal Hysterectomy in America, unaware it had been done some years before in France and allowed to become forgotten. He devised surgical improvements for Harelip and originated an operation for Microcephalus.

His name is preserved in the College he founded by the Lane Lectures and the Lane Library, one of the country's most magnificent. A portrait of Dr. Lane (see photo) painted in 1899 by Toby Rosenthal, a well known San Francisco artist, hangs in the library that bears his name. Upon each Stanford Medical Diploma is inscribed, "Founded as Cooper Medical College by Levi Cooper Lane."

Most of the material contained herein was obtained through the kind offices of Dr. Robert H. Alway, former Dean, and Dr. Robert J. Glaser, Dean, Stanford University School of Medicine.
OFFICERS AND EXECUTIVE COMMITTEE FOR 1966-1967

OFFICERS

President: MARIO A. CASTALLO, '29
President-Elect: VINCENT T. MCDERMOTT, '26
Vice President: WILLIAM T. HUNT, JR., '27
