A Gross Statue for Jefferson

Seventy-three years ago a bronze statue of Samuel D. Gross was unveiled on the lawn outside the National Library of Medicine in Washington, D. C. The statue was a tribute of the American Surgical Association and the Alumni Association of Jefferson Medical College. The granite base on which the statue was placed was provided by the United States Congress. The sculptor was A. Stirling Calder, already known for his fountain in Philadelphia’s Logan Circle, and as the son of the sculptor of William Penn’s statue atop City Hall. When the statue was dedicated in May of 1897, the presence of its subject was still remembered. The address on the occasion was given by Dr. William W. Keen, colleague and successor to Gross as Professor of Surgery at Jefferson. Jefferson alumni attended that first dedication almost en masse, reserving a train to Washington for the occasion.

The statue returned to Jefferson after considerable efforts and interest on the part of alumni. The forgotten work was brought to the attention of alumni when alumni trustee and Washington resident Dr. Harold L. Stewart commented on its presence to Dr. Norman J. Quinn, Centennial Committee Chairman. The statue’s proper place, Chairman Quinn felt, was at Jefferson, where the subject had focused most of his professional life. Dr. Quinn contacted the Army Institute of Pathology and was invited to Washington to view the bronze. Impressed, Dr. Quinn worked with Colonel Frederick E. Moss, Legal Counsel for the Institute, and Helen R. Purtle, Acting Curator of the Medical Museum. The statue was cleared for transfer to Jefferson with the signature of the Surgeon General. On the day of the alumni centennial celebration, the founder’s statue was dedicated on its new site in front of the Scott Library-Administration Building on the Jefferson campus.
IN THIS ISSUE
The summer Bulletin is the centennial story in pictures. This issue takes a look at the May celebration from the morning clinics, to the Dean's Luncheon, on through the highlights, the concert and the champagne reception, and to the close of the weekend, the annual banquet. The two art acquisitions which the centennial brought to Jefferson, the Gross Statue and the bust of Chevalier Jackson, are detailed. The issue winds up the centennial coverage, which began with the previous Bulletin's treatment of a century of history.

Credits: Cover design: Lou Day. Mr. Day also designed the centennial issue of the Bulletin, published in April. Photography: Sam Nocella, pages 2-22; Anne Guralnik, cover.

Celebrating a Century

It was the warm spring evening of May first when the Alumni Association celebrated its one hundredth anniversary. And much more than weather favored the occasion. Two thousand alumni and their guests were in Philadelphia to hear the London Philharmonic Orchestra play for Jefferson at the Academy of Music, and to toast the centennial at a champagne reception following the concert. The Academy glowed in quiet elegance as alumni climbed its famed steps. The London Philharmonic was waiting to give its debut performance in Philadelphia. As the Academy filled, the sound of voices hushed and the strains of Rachmaninoff, Beethoven and Brahms rose. And so did the response of the audience which followed. Nearby, Jefferson Hall, flowered in yellow and white, flowed with champagne and was filled with guests shortly after the last note of the concert. They mingled in the garden courts, the patios, balconies and the center floor, where the music was for dancing.

There was one suggestion for improvement from the guests: “We should do it more often.” But, after all, a centennial is a centennial.

Above: Formally attired guests arrive at the Academy of Music in time for the 8:30 Concert by the London Philharmonic. The Academy's facade is now lit by gaslight. Left: the handsome chandeliers in the foyer of the newly renovated Academy of Music lend a special glow as alumni and friends gather before the concert.
Above: More alumni arrive at the entrance of the Academy. In the background is City Hall facing South on Broad Street.
Right: The mirrored doorway reflects pleasure of evening's guests. Nearly two thousand alumni and friends were present the evening of May 1, many traveling from as far as California and Florida. One couple came from Hawaii.
Above and below left: As 8:30 approaches the crowd increases.

Above: Dr. George C. Griffith '26, with Mrs. Griffith presents tickets at door. Below: Stubs for May 1 performance.
Dr. Vincent T. McDermott '26, a past President of The Alumni Association, and Mrs. McDermott, greet friends at Academy entrance.

Mr. S. Harry Galfand, Representative from the City of Philadelphia, and Mrs. Galfand are welcomed to the Centennial celebration.

Friends chat in the Academy's Parquet prior to concert time.
Panoramic view of Philadelphia's Academy of Music.
Above: Another view of Academy with the proscenium box on left. Right: Ivan Davis, guest soloist, plays Sergei Rachmaninov Concerto for Piano and Orchestra 2, with Mr. Haitink on podium. This concluded first half of program.
Many special guests were on hand for the celebration. In one proscenium box (above from left) Mrs. Walter A. Annenberg, Mr. Stuart F. Louchheim (hidden), President of the Academy, The Earl of Shaftesbury, President of the London Philharmonic, Mrs. Louchheim, Mrs. Richard C. Bond, Lady Shaftesbury, Mr. Richard C. Bond, President of the Philadelphia Orchestra, and Ambassador to the Court of St. James Mr. Walter A. Annenberg. Sitting in the facing box (below and from left) Dr. and Mrs. Paul J. Poinsard, Governor Raymond P. Shafer and Mr. and Mrs. James M. Large. Dr. and Mrs. Peter A. Herbut are behind Mrs. Poinsard and the Governor. Applause is for the Brahms First Symphony, selection for the second half of the program.
At intermission Dr. Paul J. Poinsard, President of the Alumni Association, presents to the Earl of Shaftesbury, the President of the London Philharmonic, a commemorative medallion struck on the occasion of the Centennial (opposite page).
This oxidized bronze medallion, with the head of Thomas Jefferson on the obverse side and a caduceus and commemorative inscription on the reverse, was issued to celebrate the alumni centennial. The coin is a replica of one issued on another earlier centennial occasion, that of the founding of the College in 1924.

The Jefferson head was designed by John Reich (1768-1833) who came to America from Bavaria on the advice of the chief coiner of the United States Mint. He designed the head for the Jefferson presidential seal. The reverse side of the coin shows the caduceus surrounded by the words “Centennial of the Alumni Association Jefferson Medical College.” A wreath of palm and oak branches, representing peace and strength, borders the inscription.

The new coin was struck by Edwin Frank, President of Aug. C. Frank of Philadelphia. The piece is two inches in diameter and of extra heavy paperweight.

The commemorative medallion is available through the Alumni Association Office. The price is $5.00 including mailing.
Above: Following the conclusion of the concert, guests returned to Jefferson Hall for a champagne reception and dancing. Right: Mrs. Raymond C. Grandon, of New Cumberland, Pa., whose husband was celebrating his 25th reunion, leads first guests up escalator to mezzanine coat check rooms.
More buses arrive at Jeff Hall for the reception. Many guests chose to walk the few short blocks from the Academy to 1020 Locust Street. The red carpeting, which gave an extra touch of glamor to festivities, was on loan from the Rittenhouse Carpet Company of Philadelphia. Below: Inside Jefferson Hall.
Officers of the Association were on hand to greet alumni.
Here, Dr. and Mrs. Paul J. Poinnard.

Mrs. Herbert A. Luscombe and Dr. Luscombe '40 President-elect of the Association, enjoy hosting duties.

Below: Golden candelabra, candlelight and colorful flower arrangements by Pennock's of Philadelphia transformed Jefferson Hall into a handsome setting for the reception. Music was by Leroy Bostic. Opposite page top and bottom: Every available room was in use for the Friday evening party. Opposite page center: Filled champagne glasses await first arrivals from the Academy of Music concert.
Dr. Norman J. Quinn, Jr., '48, chairman of the Planning Committee for the Centennial (left) thanks Dr. and Mrs. Sterling A. Barrett '34, of Waterloo, Iowa, (center) for the handsome bust of Chevalier Jackson, a Centennial gift to the Association. Mrs. Quinn is on right. The Jackson bust, sculptured by Maurine Ligon, will reside in the new Scott Library. (See opposite page).

Dr. John H. Hodges '39, Vice President of the Association (right) chats with Dr. Ralph A. Carabasi, '46.

Dr. Carabasi is greeted next by Dr. John J. Gartland '44S, Secretary of the Association.
The Sculptress on her Subject:  

Chevalier Jackson

by Maurine Ligon

For purposes of clarification and continuity, it is necessary to say that I had two widely different careers, in each of which Dr. Jackson figured prominently. My life included first the study of fine arts in college, then the study and practice of anesthesia (for many years) and finally back to art again. Since the anesthetic interim played such a significant part in my meeting Dr. Jackson, I would cite the following incident.

In the later years of my work as a clinical anesthetist, I devised an instrument for the leak-proof administration of anesthetic gases to patients undergoing laryngectomy, excision of the tongue, etc., in contrast to the then-prevalent use of liquid ether by the open-drop method on a gauze mask held over the opening of the tracheotomy tube in situ. Before clinically applying the device, I had to be sure that the caliber I had chosen for its friction-grip attachment (to both the tracheotomy tube and the expiratory valves) was large enough to meet the physiological respiratory requirements of the patient. For advice I queried my long time friend and former instructor, Dr. Paluel J. Flagg, the eminent New York anesthesiologist and author of text books on anesthesia. In reply Dr. Flagg wrote that the foremost authority in the country on the volumetric exchange of pulmonary gases was Dr. Chevalier Jackson in my own town (I was living in Philadelphia then) and advised me to request an interview with him.

It took a lot of courage (“gall” is a better word!) for me, a nonentity, to presume upon the time of such an illustrious and busy man. But that was before I had met him. Later I discovered that Dr. Jackson was never too busy to receive even the lowest applicant seeking his advice. In my instance he immediately gave me an appointment for the following day.

My first impression of Dr. Chevalier Jackson was of a slightly built, immaculately groomed, elderly man, who rose to greet me with the old world courtliness of a bow as we shook hands. His expression was seriously formal as I thanked him for the appointment and explained its purpose. He remained unmoving, but listened intently with a kindly interest that I felt rather than saw. Despite my awe at his achievements and without sacrifice of his innate formality, as the interview progressed his genuine sincerity put me at ease completely. And suddenly I felt that I had known him all my life. After asking me a few questions, he not only assured me that the caliber of my device was amply sufficient but congratulated me on my “inventiveness” and said if he used inhalation anesthesia in his bronchoscopic work (which I knew he didn’t) that it would be the instrument of his choice. (To conclude this incident, I presented my “invention” to the medical profession gratis. It was accepted immediately and is still widely used.)

The next time I met Dr. Jackson was about eight years later. I had retired from anesthesia completely. Then at middle age, I was making up for my long absence from art by concentrated study at the Pennsylvania Academy of Fine Arts under Walker Hancock, the Graphic Sketch Club under Aurelius Renzetti, and with Harry Rosin as a private pupil in his studio. By that time I was producing sculpture of various types, but primarily portrait heads from life. And finally I had “crashed” the National Academy of Design in New York, where my work was exhibited side by side with that of my former instructors and other nationally known sculptors. Still having much to learn and working against time (at my age!), my intensified effort was actually in preparation for a goal I had not yet even attempted to reach: namely, to do a sculptured bust of Dr. Chevalier Jackson. Having kept myself au courrant with his activities during the intervening years, this great and good man had become a sort of high priest of medicine to me. Consequently, when I occasionally heard his admiring colleagues speak of Dr. Jackson’s integrity and ability with profound respect, yet describe him as being “non-talkative,” “aloof,” and a “loner,” it distressed me. Obviously his well meaning friends had only looked but failed to see him as he really was: a listener rather than a non-talker; meditative instead of aloof; and a crusader lavishly expending his frail physical energy to share his knowledge, in person, with thousands of his fellowmen in many countries—as no “loner” ever could. That was what I wanted to “say” in bronze—the imperishable medium that would outlast his life and mine and continue to project the message for future generations to receive.

Not having the temerity to ask Dr. Jackson to sit for me, I again took my problem to our mutual friend, Dr. Flagg. He speedily solved it by acquainting Dr. Jackson with my current art activities and expressing his own faith in my ability.

The most convenient place for Dr. Jackson was his downtown office, then the Medical Tower Building, 255 South Seventeenth Street in Philadelphia. Being...
an artist himself he knew that I would need both light and space. Accordingly, he arranged for a well lighted, unoccupied storage room adjoining his office to serve as a working studio. My equipment, a forty-five inch high modeling stand on casters and a removable modeling board with armature, and my tools, including a bucket containing two hundred pounds of moist clay, were brought up on the freight elevator and placed there, to remain throughout the creative, viz. the modeling stage of the work.

During the sittings Dr. Jackson, wearing a business suit, sat relaxed in a comfortable leather armchair, placed securely atop packing boxes. This was done in order to raise the chair to the height necessary to bring the level of his eyes, those of the clay work, and my eyes in alignment at all times. Needless to say, Dr. Jackson maintained his usual dignity despite the informality of his surroundings. Later he told me that he was agreeably surprised at my efforts to make him comfortable. He was especially pleased that he had not been required to stand, as he had in his only other experience posing for a sculptor. It touched me very much to realize the extent of his selflessness in agreeing to give me this opportunity while obviously believing it would be a repetition of his former strenuous experience.

At the outset I had suggested that he provide himself with literature or writing material, to fill the vacuum in his busy schedule caused by the time he had so generously allocated to me. This too seemed to please him. It also gave him an idea. He said if I didn't object to the presence of a third person, he could accomplish a great deal for himself at the forthcoming sittings by going through the mail with his secretary and dictating his replies at that time. Thus we became a threesome, Dr. Jackson, Miss Piquenais, and I, each actively absorbed in doing his own work. As mine progressed to the stage of beginning resemblance, Dr. Jackson said: "Miss Ligon, I hope you aren't going to rob me of my wrinkles. I earned them all, you know."

That he had a subtle sense of humor was apparent shortly after the sitting began. During the setting up stage, even though I was modeling freehand, it was necessary to obtain certain caliper measurements to refer to in his absence, for the purpose of true-ing up my work and keeping it in scale. Mathematics not being my forte, I was having difficulty in both reading and recording the fractions of the measurements I had taken. Dr. Jackson observed my predicament and suggested that I take the measurements and that he read and record them for me. I eagerly accepted his assistance, too grateful to be ashamed of needing it! A few minutes later (after he had straightened things out for me and resumed his work with Miss Piquenais he interrupted his own dictation by saying: "Miss Ligon, you are going to become a great artist."

I was astounded and completely bewildered. Knowing full well that he never used flattery, I said as much, asking him why on earth he had said such a thing. He replied, "Because I have never known an artist who was good at mathematics."

It was midway in the series of sittings that I broached the subject of his letting me portray him in his surgical attire rather than his street clothes. "Because it is in your surgical gown, cap and mask that your students and associates remember you best," I said. He became pensive and silent. So I rattled on. "It would be different than the other paintings and sculpture of you, Dr. Jackson. It would say more about you because it would portray your profession as well as yourself." He admitted "It would be different." Apparently the suggestion had jolted him a bit. He didn't seem to be averse to the idea, he just needed a little time to get used to it. Shortly thereafter it was settled. Dr. Jackson, always cooperative, had agreed to wear his usual cap, gown and mask at the next and all remaining sittings.

This necessitated my making radical changes in both my clay work and composition. For example, I had to remove the shirt collar, coat collar, lapels and tie that had already been "roughed in," and prepare the shoulder and chest areas for an entirely different type of apparel. Consequently the next sitting was a most important one. It also included a wholly unexpected incident.

As Dr. Jackson, wearing his "work clothes," as he called them, settled himself in the modeling chair, I noticed at once that his surgical mask was missing. A glance at Miss Piquenais showed that she was holding it in a closed fist held at the level of her chest. When I asked for it, she said: "No, because it will cover his face." I told her it was not to go on his face, but rather to be partially untied and allowed to dangle on his chest. "No, no no!" she exclaimed shrilly. "Dr. Jackson always removes his mask completely after his operations. He never goes around with it hanging around his neck, as others do!" Not until Dr. Jackson himself (obviously amused) intervened in my behalf, did his devoted little French secretary relinquish the controversial mask to me, and with continued disapproval, watch as I tied it around his neck and adjusted it for the pose. But by the end of that sitting she had graciously admitted it was the only way it could be used. So you can see that the sittings were not without conversational interludes in which we all joined.

Other incidents are racing back to me in retrospect, but I have already written too much. However, before I close, you may be interested to know that the far off, pensive expression of Dr. Jackson's eyes in his portrait bust was the one I saw most often as he "thought out" his replies to letters before dictating them to his secretary.
Dinner with the Governor

Prior to the London Philharmonic concert the Alumni Association entertained for the guest of honor, Governor Raymond P. Shafer, and members of the board of trustees. The reception and dinner were given at the Bellevue-Stratford Hotel. A short walk down Broad Street had guests seated at the Academy for the 8:30 o'clock concert.

Above: Governor Raymond P. Shafer (center) is greeted by William W. Bodine (left) and James M. Large at the dinner prior to the concert at the Academy of Music. At left: President Peter A. Herbut welcomes the Governor to the Centennial event.

Mrs. Gustave G. Amsterdam with Mr. Amsterdam (left) joins Mr. Bodine and Mr. Large at Governor's dinner.

Board members Frederic L. Ballard (left) and Brandon Barringer chat at reception.

Dr. and Mrs. Abraham E. Rakoff attend the dinner. He is immediate past President of the Alumni Association.

Mrs. Peter A. Herbut and Dr. Frederic K. Miller, Commissioner of Higher Education of the Commonwealth of Pennsylvania, enjoy pre-dinner festivities.
Dr. Herbert A. Luscombe, President-elect of the Association (left) and Mrs. Luscombe with Mr. Bodine and the Governor.

Mrs. William W. Bodine.

Albert J. Nesbitt, trustee.

The Governor with Alumni President Paul J. Poinsard.

Revelle W. Brown (left), life trustee, with Dean and Mrs. William F. Kellow.

Dr. George J. Willauer, alumni trustee, with guests of the association at the Governor's dinner.
Celebrating a Century: the banquet

Friday, May 1, was the fullest day on the Jefferson calendar in some time: clinic sessions in the morning, the Dean’s Luncheon at one o’clock, and the centennial concert and reception in the evening. Yet Saturday found the alumni back for more. It was the annual banquet, and Jefferson Hall was set to serve dinner for four hundred. In the garden areas the guests mingled during cocktail hour. After dinner there were honors for the selected. The Alumni Achievement Award winners, Dr. Thaddeus L. Montgomery ’20, and Dr. John H. Gibbon ’27, were popular choices, judging by the applause. Two retiring department chairmen, Dr. Anthony F. DePalma ’29, and Dr. Fred Harbert, were presented with gifts from the alumni on the occasion. Mr. James M. Large, retiring Chairman of the Board of Trustees, cited specially by the Association, was presented with an engraved gold clock. Host was President Paul J. Poinsard ’41, who called on each of the members of the class of 1920 to receive fifty year certificates and pins, gifts of the Association and the administration.

It was the official close of centennial weekend for the Alumni Association—and it was as lively as the outset the day before.
The west garden was the gathering point for guests during the cocktail hour.

faculty wives club art show

For the third year the Faculty Wives sponsored an Art Show for all members of the Jefferson family. Students, both nursing and medical, faculty, alumni and members of their families submitted one hundred and nine entries, from thirty-one departments in nine mediums. The show was staged at Jefferson Hall during Centennial activities.

Winners in all categories were:

**Best Work in Exhibit**—Donna Wunsch, Student Nurse '72

**Best Oil**—Mrs. Susan Vizer, Wife of Medical Student
**Honorable Mention**—Mrs. Patricia Lieberman Floyd Cornelison, M.D.

**Best Watercolor**—T. L. Montgomery, M.D. '20
**Honorable Mention**—Mrs. Paul J. Poinsard

**Best Still Life in any medium**—Jacob Walker, M.D. '13

**Best Sculpture**—James Weres, M.D. '32

**Best in Graphics**—Mrs. Pamela Abrams, wife of senior medical student

**Most Popular**—Mrs. Paul J. Poinsard
Retirements

Anthony F. DePalma

The retiring James Edwards Professor of Orthopedic Surgery and Head of the Department is almost a legend at Jefferson. His skills as an orthopedic surgeon have spread his reputation far beyond the medical complex, as have the six books and more than sixty-four articles that he has published. He has won five awards for scientific exhibits from the American Academy of Orthopaedic Surgeons. Dr. DePalma is Editor in Chief of Clinical Orthopaedics and Related Research and a member of the Editorial Board of American Practitioner. He serves as consultant to five hospitals.

Dr. DePalma joined the Jefferson faculty in 1946, having graduated in 1929. Prior to his appointment at Jefferson, he had been Chief Orthopaedic Surgeon at Columbus Hospital, Newark Memorial Hospital and Newton Memorial Hospital in New Jersey, held the same position at the United States Naval Hospital in Philadelphia and was Consultant Orthopedic Surgeon at Valley Forge General Hospital in Phoenixville, Pennsylvania. After four years on the Jefferson faculty, Dr. DePalma was appointed Head of the Department.

Fred Harbert was elected to Jefferson's Chair of Otology in 1950 while he was still a Captain in the United States Navy. Dr. Harbert had earned his professional reputation a few years prior to this, however, when he set up the residency training programs in otorhinolaryngology and ophthalmology at the Naval hospitals in Philadelphia and Bethesda. He continued to administer the programs until 1954, when the Department of Otolaryngology was formed from the Otology and Laryngology departments and Dr. Harbert was appointed Head of the Department.

Besides his numerous professional society memberships and consulting posts in two hospitals, Dr. Harbert was Attending Otorhinolaryngologist in Chief at Thomas Jefferson University Hospital. He has served as Chairman of the Ad Hoc Committee on Otorhinolaryngology to the Veterans Administration, as a member of the Advisory Committees for the Veterans Administration and as Consultant to the School Board, City of Philadelphia.

Dr. Harbert graduated from Wayne University Medical School in 1928 and received the degree of Doctor of Science in Medicine at the University of Pennsylvania in 1942.

Banquet Speakers

Fred Harbert

President Peter A. Herbut

Dean William F. Kellow

Dr. John S. Madara, speaker for class of '45

Dr. DePalma

Dr. Harbert
Thaddeus L. Montgomery has been a major Jefferson figure for fifty years. A 1920 graduate, Dr. Montgomery did his internship here and immediately after that, joined the faculty. Working his way up the professorial ranks, he became Clinical Professor in 1940. That same year he was invited to head the Department of Obstetrics and Gynecology at Temple University School of Medicine. Six years later he returned to Jefferson as Director of the Division of Obstetrics. In 1955, as Professor of Obstetrics and Gynecology, he became Chairman of the Department.

Dr. Montgomery's renown has extended far beyond Jefferson. He earned it first in 1933 when he and Dr. Pascal B. Bland published Text Book of Practical Obstetrics. Its second edition was published two years later. Since then he has written and published numerous papers. Dr. Montgomery has been a Director of the Philadelphia County Medical Society, President of the Obstetrical Society of Philadelphia and of the American Association of Obstetricians and Gynecologists. He is a past Chairman of the Advisory Committee on Obstetric and Gynecologic Examinations for the National Board of Medical Examiners. He has been appointed to serve in government advisory positions many times. Dr. Montgomery is also a past President of the Alumni Association. In 1962 Jefferson awarded him an honorary L.L.D. degree.

Dr. Montgomery is one of the original proponents of conservative, physiologic obstetrics. The propagation of his theories by his thousands of students has made him one of the most significant forces in obstetrics of his time.
It has been seventeen years since John Gibbon's heart-lung machine first was used successfully in supporting open heart surgery on a human being. In the time since, the machine has extended the lives of innumerable humans and has opened a new era in the practice of surgery. Formerly The Samuel D. Gross Professor of Surgery at Jefferson, Dr. Gibbon has been awarded many times for his achievement, by the most distinguished of institutions and with the highest of honors. They include the Lasker Award, the Distinguished Service Award of the International Society of Surgery and the Pennsylvania Medical Society, the Philadelphia Award, and the Strittmatter Award of the Philadelphia County Medical Society. He has been named an honorary Fellow of the Royal College of Surgeons of England and has been given honorary degrees by Princeton University, the University of Pennsylvania, the University of Buffalo, Dickinson College and in June, by Duke University. Dr. Gibbon has served as President of the American Surgical Association, the American Association for Thoracic Surgery, the College of Physicians of Philadelphia, the Heart Association of Southeastern Pennsylvania, the Laennec Society of Philadelphia, the Pennsylvania Association for Thoracic Surgery, and the Philadelphia Academy of Surgery. He has served as Editor of the *Annals of Surgery*.

Dr. Gibbon, class of 1927, represents the fifth generation of physicians in his family. Dr. John H. Gibbon, Sr., was an 1891 graduate of Jefferson and Professor of Surgery at the College, and like his son, served as President of the Alumni Association. Last year Dr. Gibbon, Jr., received an honorary degree from Jefferson. In 1967 he was elected to the American Academy of Arts and Sciences. To the long list of honors he has received, John Gibbon has added the Achievement Award of Jefferson Medical College.
James Mifflin Large has served as Chairman for the last eight of his twenty years on the Board of Trustees. During that time he has directed the administration of the greatest period of growth in Jefferson history. The Large chairmanship has seen a forty million dollar expansion program launched and successfully completed with the construction of five new facilities. The newest of these, the Scott Library-Administration Building, is nearly ready for dedication. Large's tenure also has seen and fostered the evolution of Jefferson Medical College into the keystone of Thomas Jefferson University. The Medical College is now augmented by the College of Allied Health Sciences and the College of Graduate Studies.

Mr. Large has been a most attentive and active chairman, participating in nearly all of the College functions. It seems to be more a matter of interest than of obligation to him, though, as his participation goes beyond the call of duty. At Opening Exercises, for instance, he has made a tradition of presenting awards to the students personally, with some words of congratulations. At the June commencement exercises this year, it was James M. Large who was honored, with words of praise for his role in strengthening the College and the University and with the degree Doctor of Laws. At the annual banquet on May 2, the Alumni Association gave special recognition to the retiring Chairman, who always has maintained close relations with the alumni.

Large is well known in Philadelphia as one of the city's most prominent bankers and citizens. Chairman of the Board of Provident National Bank until a year ago, he continues as a Board member, as he will at Jefferson. He began his forty-two years in banking immediately after graduating from Princeton in 1928. He became President at Tradesmen's National Bank and Trust Company, which became Provident National Bank through merging action. His profound knowledge of the financial world has been called upon by many institutions in the city. He is a director of Philadelphia Saving Fund Society, Fidelity Mutual Life Insurance Company, Commonwealth Land Title Insurance Company, Horn and Hardart Company of New York, Southco, Inc., ESB, Inc., South Chester Tube Company, Chester Tidewater Terminal, Inc., and Dodge Steel Company. He was Co-chairman of the 1956 United Community Campaign.

He has been extremely active in the civic life of the city as well. He is a member of the advisory board of the city's Crime Commission and is on the Board of Directors of the Zoological Society of Philadelphia. He is Vice President and Director of the Pennsylvania Academy of Fine Arts. Moore College of Art, where Mr. Large has served as Chairman of the Board, awarded him the honorary degree Doctor of Humanities.
The 146th Commencement Exercises at the Academy of Music.

"Probably the most socially conscious class of doctors to have graduated" received their degrees from Jefferson Medical College on June 5. The recognition came from the United States Senate Minority Leader Hugh Scott at Commencement Exercises at the Academy of Music, where he was awarded the degree Doctor of Humane Letters. Scott commended the students on their attempts to alleviate social ills and hoped that their concern would not allow them to tolerate injustice—"as too many have done too long."

The students had written to the Senator expressing their belief that the government's top priorities should be health, education and welfare. To symbolize their concern, some of the students wore "New Priorities 1970" buttons on their academic gowns.

Dr. Gonzalo E. Aponte was chosen by the students to administer the Hippocratic Oath. After reciting it, the candidates for the degree Doctor of Medicine walked to the stage to receive their diplomas from Dean William F. Kellow, and the congratulations of President Peter A. Herbut. The commencement was the first for the new Dean of Graduate Studies, Dr. Robert C. Baldridge, who awarded the Doctor of Philosophy and Master of Science degrees from the College of Graduate Studies of Thomas Jefferson University. After the awarding of student degrees, five individuals of outstanding achievement in their fields were granted honorary doctorates.

The class of 1970 is distinguished again in that it is the last of the small classes. Next year the size of the class will reflect Jefferson's increased enrollment in response to the physician shortage. If the trend continues, there will be not only more, but more socially oriented physicians.
The class of 1970.

James M. Large, retiring Chairman of Jefferson's Board of Trustees, receives hood from Dr. Francis J. Sweeney, Jr., at Commencement exercises. William W. Bodine, left, read Doctor of Laws citation.

The Honorable Hugh Scott, speaker at the 146th Commencement, was awarded the degree of Doctor of Humane Letters.

Brandon Barringer, left, presented the degree of Doctor of Science to W. Laurence LePage, right, Chairman of the Board of the Franklin Institute. Dr. Andrew J. Ramsay arranges hood.

Dr. Edward L. Bauer '14, Emeritus Professor of Pediatrics, center, receives congratulations from President Peter A. Herbut, right. Dr. Bauer's citation for the honorary degree of Doctor of Laws was read by Dr. Baldwin L. Keyes '17.

The degree of Doctor of Science was presented to Dr. Michael Heidelberger, second from left, Adjunct Professor of Pathology, New York University School of Medicine, by Dr. Paul H. Maurer, right. Dr. Herbut and Dr. Ramsay assist with ceremony.
third alumni trustee

The election of Dr. Abraham Cantarow '24 to the Board of Trustees renews his forty-six year association with the College. It keeps alumni representation on the Board at three members, as Dr. Cantarow joins Dr. Harold L. Stewart '26 and Dr. George J. Wilmaker '23. Dr. David B. Allman '14, completed his three year term in June 1969.

A distinguished writer, teacher and scientist, Dr. Cantarow served on the Jefferson faculty from the time of his graduation until 1966, when he became Emeritus Professor of Biochemistry. He had been Head of the Department for twenty-one years. Rather than accept a life of leisure at that point, he took the position of Research Planning Officer, Office of the Director, the National Cancer Institute in Bethesda, Maryland. He served as President of the Alumni Association in 1964-65.

new administrators

Mr. Stanley K. Graham has been appointed Vice President for Development at Thomas Jefferson University. In this position Mr. Graham will be responsible for fund raising plans and programs, public relations, alumni relations, and institutional publications at the University. He replaces Mr. N. Ramsay Pennypacker, who left to accept a position at Harbeson, Hough, Livingston and Larson, architects.

Mr. Graham was Director of Information Services at the University of Michigan prior to his Jefferson appointment. He was also Director of Publications and Alumni Records at Michigan. He had spent thirteen years with Ford Motor Company before going to Michigan. At Ford, he was with the advertising and public relations staff. He held positions in the news bureau, and the stockholder relations and educational affairs departments.

Stanley Graham received his Bachelor of Arts degree from Wayne State University in 1949, and his M.A. and M.A.L.S. degrees from the University of Michigan. He and Mrs. Graham have three children.

Harry W. Unruh, formerly Controller, has been appointed Vice President and Treasurer of Thomas Jefferson University.

Mr. Unruh began his career in hospital administration during World War II, when he served as Adjutant, Medical Supply Officer, Medical Registrar, Personnel Officer and Company Commander. When he was recalled for duty in the Korean conflict, Mr. Unruh was Army Liaison Officer with the U. S. Navy. For a year he was Chief of Administrative Services of the Army Hospital at Fort Belvoir, Virginia.

An honors graduate of the Wharton School of the University of Pennsylvania, Mr. Unruh also was graduated from the Army Service School in Hospital Administration.

dr. sodeman honored

Dr. William A. Sodeman, Emeritus Dean and Emeritus Professor of Medicine at Jefferson Medical College, was installed as the new President of the American College of Cardiology at the College's nineteenth annual convocation in New Orleans last spring. Dr. Sodeman has long been recognized as an outstanding teacher, researcher and practitioner. He has been a Board member of the American College of Cardiology since 1965 and is a former Vice President.

Dr. Sodeman received another honor recently. He has become Executive Director of the newly formed Commission on Foreign Medical Graduates. The Commission is supported by leading health organizations in the nation. Its purpose is to improve medical educational standards and levels of practice by assisting in the development of policies concerning the education of foreign medical graduates, to enter these graduates into the educational and medical care systems of this and other countries, and to provide information relative to foreign medical graduates that may be helpful to other countries in their systems of medical education and care.

new affiliations

Thomas Jefferson University has reached a formal affiliation agreement with Methodist Hospital. The affiliation formalizes the cooperative relationship which the two institutions have had for more than twenty years. Under the new agreement, a program of medical education, training and research will be established at Methodist Hospital in the departments of medicine, surgery and obstetrics-gynecology. Medical students at Jefferson will be assigned to Methodist for part of their clinical training.

Each corporation will remain separate and solely responsible for its own management.

Children's Heart Hospital of Philadelphia also became associated with Thomas Jefferson University in March. Under this arrangement Children's Heart Hospital will come under the jurisdiction of Jefferson's Department of Pediatrics. It will keep the same name. Mr. James M. Anderson, President of the Board of Children's, has become a trustee of Jefferson.

linkbuck winners

This year's recipients of the Christian R. and Mary F. Linkbuck Awards for Distinguished Teaching were Dr. Anthony F. DePalma, Professor of Orthopedic Surgery, and Dr. John R. Shea, Assistant Professor of Anatomy. Dr. DePalma was selected by the senior stu-
The New President: thoughts on the office

When he took office as President of the Alumni Association in March, Paul Poinsard was appropriately reflective about the century old organization. One hundred years have made some salient changes in the association’s function, he was saying. “Social upheaval has required educational institutions to become concerned with a broader scope of problems. Consequently, the Alumni Association has emerged from an organization with a primarily social purpose, to one that involves itself in the activities of the institution.” While some alumni organizations are rather perfunctory, the Jefferson Association is a working one, the President pointed out, obviously meaning to keep it that way. One of its important functions, he feels, is providing feedback to the administration from the alumni, primarily through the Executive Committee. Direct communication with the administration is also maintained through three alumni representatives on the Board of Trustees. “I think our communication with the Board is good,” Dr. Poinsard says, and he believes that the administration’s response to the alumni has been satisfactory. “I think we can improve our relationship with the Dean’s Office. There needs to be voting representation from the alumni body to all of the active administrative and policy making committees in the college and hospital. There is something of this in the making,” he revealed, “but we’re still trying for more.”

Dr. Poinsard feels that channeling information from the institution to the alumni is another important responsibility of the Association. “I don’t think that controversial issues at the school should be dodged, but I do think they should be presented to the alumni from both sides of the question. The Executive Committee is not always in a position to speak for the Alumni Association as a whole. Our methods of learning the reactions and thoughts of the majority aren’t well enough refined. We should present facts rather than take a position, unless the consensus of the alumni body is apparent.

The job of communicating with the students is one of Dr. Poinsard’s biggest concerns. Like those of the Alumni Association, the concerns of students are changing. “They’re no longer satisfied with only a clinical medical orientation; they want to understand and contribute where their skills have an impact on social movements.” To establish more definite relations between the alumni and the students, the Executive Committee will invite the student body to elect four representatives to attend its meetings. “On the basis of this liaison we hope the Alumni Association can relate itself more effectively to the students and help them with whatever problems they elect to bring before us.”

Dr. Poinsard is not new to the problems of a president’s position. The 1941 alumnus and Professor of Psychiatry at Jefferson has served as officer in numerous professional organizations. He is now serving as President of the Pennsylvania Psychiatric Society. He is a past President of the Philadelphia Psychiatric Society and has been Chairman of the Commission of Mental Health and Mental Retardation of the Pennsylvania Medical Society and of the Sub-Committee on Mental Health of the Philadelphia County Medical Society. He is a Board member of Pennsylvania Mental Health, Inc. and President of the Medical Club of Philadelphia. Dr. Poinsard has a private practice in psychiatry.

Other new officers include Herbert A. Luscombe ’40, President-elect; John H. Hodges ’39, Paul A. Bowers ’37, Norman J. Quinn, Jr., ’48 and John Y. Templeton III ’41, Vice Presidents; William H. Baltzell ’46, Treasurer; John J. Gartland ’44S, Secretary.
new department heads

The James Edwards Professor of Orthopedic Surgery

Dr. John Gartland, class of 1944S, has been appointed The James Edwards Professor of Orthopedic Surgery and Head of the Department at Jefferson. Dr. Gartland succeeds Dr. Anthony F. DePalma.

At the time of his appointment, Dr. Gartland was Chief of the Department of Orthopedic Surgery at Lankenau Hospital. He was also Associate Professor at Jefferson and Chief of the Lower Extremity Service of the Pennsylvania State Hospital for Crippled Children in Elizabethtown, Pennsylvania. He is presently serving as Secretary of the Alumni Association.

Dr. Gartland served his internship and a portion of his residency in orthopedic surgery at Jefferson. He completed his residency at New York Orthopaedic Hospital, Columbia Presbyterian Medical Center. Board certified in 1952, Dr. Gartland is a member of nine orthopedic organizations. He is a fellow of the American Academy of Orthopaedic Surgeons and a member of its Sub-Committee on Undergraduate Education, a fellow of the American College of Surgeons and a member of the American Orthopaedic Association.

Dr. Gartland is presently engaged in a clinical research project, approved by the Department of Health, Education and Welfare, to evaluate the McKee-Farrar Total Hip Replacement Prosthesis anchored with Methacrylate Bone Cement. He has published more than twenty-five articles and a book, Fundamentals of Orthopaedics. Its second edition is scheduled for March of 1971, and a Spanish edition was published in 1966. He has contributed to numerous texts. A movie, "Posterior Tibial Transplant for Recurrent Club Foot," has been accepted for the American Academy of Orthopaedic Surgery's permanent film library.

Since 1958 Dr. Gartland has been Chairman of the Scientific Research Committee of the Pennsylvania Orthopaedic Society.

Dr. Gartland and his wife live in Wynnewood with their five children.

Dr. Harry S. Goldsmith has been appointed The Samuel D. Gross Professor of Surgery at Jefferson. Dr. Goldsmith comes to the position from the Memorial Hospital for Cancer and Allied Diseases in New York, where he was Attending Surgeon, Chief of Gastric and Mixed Tumor Services and Director of Surgical Education, and Cornell Medical School where he was Assistant Professor of Surgery. He was also Associate Director of Surgical Research at Memorial Sloan-Kettering Cancer Center, which serves the Memorial Hospital for Cancer and Allied Diseases.

Dr. Goldsmith received a bachelor of arts degree from Dartmouth College in 1952 and earned his M.D. from Boston University School of Medicine four years later. He served his internship and residency in surgery at Boston City Hospital, where he was a research fellow. During these years he also taught surgery and anatomy at Boston University School of Medicine. A captain in the Army Medical Corps from 1961 to 1963, he was Chief of Surgery at Seoul Military Hospital and taught at Soodo Medical School. He returned to be staff surgeon at Fort Devens, Massachusetts. Dr. Goldsmith accepted a faculty post at Cornell after completing his military obligation. He also did research at Memorial Sloan-Kettering Cancer Center and in 1966 became Assistant Director of Surgical Research.

Dr. Goldsmith has written more than sixty scientific papers. He is a diplomate of the American Board of Surgery. His professional memberships include the American College of Surgeons, the American Medical Association, the New York Medical Society, the Massachusetts Medical Society, the New York Surgical Society, the New York Gynecological Society, the James Ewing Society and the Society of the Sigma Xi.

Dr. Goldsmith and his wife have three children.
faculty notes

anesthesiology
Dr. Jay Jacoby, Professor of Anesthesiology and Chairman of the Department, was Visiting Professor at the Albert Einstein College of Medicine in New York City during the week of May 11.

medicine
Dr. Robert I. Wise, Magee Professor of Medicine and Chairman of the Department, lectured before the Dallas Southern Clinical Society in Texas, March 16 through 18. He took part in a teaching seminar sponsored by the American College of Physicians in Costa Rica in early April.

Dr. Allen J. Erslev, Professor of Medicine, spoke on "Anemia of Chronic Renal Disorders" to a Symposium on Uremic Toxins organized by the NIH in Monterey, Calif. At the NIH in Bethesda, Md., he lectured on "Renal Control of Red Cell Production" on April 7.

Dr. Franz Goldstein has been promoted to Professor of Medicine. He has been on the faculty since 1957.

Dr. Joseph Medoff has been promoted to Professor of Clinical Medicine at Jefferson.

Dr. Elias Schwartz, Associate in Medicine and Associate Professor of Pediatrics, has received a grant of $78,000 from the NIH for a study, "Heme and Globin Synthesis in Infants and Children."

Dr. Francis J. Sweeney, Jr., Associate Professor of Medicine and Director of Thomas Jefferson University Hospital, was General Chairman for the 51st annual session of the American College of Physicians meeting in Philadelphia April 12-17.

microbiology
Dr. W. Paul Havens, Jr., Clinical Professor of Microbiology and Professor of Medicine, has been awarded the Outstanding Civilian Service Award by the Armed Forces Epidemiological Board. The Bronze Medallion and Citation were given Dr. Havens for his continuous service on the Board's Commission on Viral Infections and the Commission on Liver Diseases from 1947 to 1969.

obstetrics and gynecology
Dr. Roy G. Holly, Professor of Obstetrics and Gynecology and Chairman of the Department, addressed the Sixth World Congress of Gynecology and Obstetrics, which met in New York City in April, on "The Importance of Male Involvement in Prenatal Care—an Educational Program and its Benefits," and led a seminar on "Anemia in Pregnancy."

Dr. George A. Hahn, Professor of Obstetrics and Gynecology, is President-elect of the Philadelphia County Medical Society. He will take office on in January 1971. At the International Congress of Obstetrics and Gynecology and American College of Obstetrics and Gynecology combined meeting in New York City during April, he spoke on "Treatment of Carcinoma of the Endometrium."

Dr. Abraham E. Rakoff, Professor of Obstetrics and Gynecology, spoke at Walter Reed Army Medical Center in Washington, D. C., on "Amenorrhea—Galactorrhea Synchromes" on April 30, on "Hirsutism" on May 21, and on "Hormonology of the Placenta" on June 25. Dr. Rakoff gave three lectures at the ACOG meetings in New York in April, on "Diagnostic procedures," "Ovulation Induction," and "Treatment of the Infertile male—Artificial Insemination."

ophthalmology
Dr. Robb McDonald, Professor of Ophthalmology, as consultant to Lackland Air Force Base, gave a lecture there on "Elevated Lesions of the Posterior Pole" and "Complications of Cataract and Glaucoma Surgery." At Wright-Patterson Air Force Base in Dayton, Ohio, where he is also a consultant, he spoke on "The Use of the Photocoagulator in the Treatment of Disease of the Fundus."

Dr. William T. Hunt, Associate Professor of Ophthalmology, will receive an Award of Merit from the American Academy of Ophthalmology and Otolaryngology in October, 1970 at the Las Vegas meetings.

Dr. Thomas Behrendt, Associate Professor of Ophthalmology, was Visiting Professor at Tufts University Medical Center on March 4. He spoke on "Diabetic Retinopathy."

otolaryngology
Dr. William H. Baltzell has been promoted to Clinical Professor of Otolaryngology.

pharmacology
Dr. Julius M. Coon, Professor of Pharmacology and Chairman of the Department, has become Chairman of the Food Safety Panel of the White House Conference on Food, Nutrition and Health.

pathology
Dr. Gonzalo E. Aponte, Professor of Pathology and Chairman of the Department, spoke on "The Diagnosis of Cancer" at the meeting of the New Jersey Association of Osteopathic Physicians in Atlantic City on May 7.

Dr. Joseph W. Spelman, Visiting Professor of Pathology, has been elected President of the National Association of Medical Examiners for 1970-71.

pediatrics
Dr. Robert L. Brent, Professor of Pediatrics and Chairman of the Department, participated in the Schering Symposium IV on Intrinsinc and Extrinsic Factors in Early Mammalian Development in Venice, Italy. He spoke on "Antibodies and Fetal Development." He lectured on "Antibodies and Malforma-
tions” at a symposium on Congenital Malformation of Mammalia at the Pfizer Clinical Research Center in Amboise, France.

Dr. Herbert C. Mansmann, Jr., Professor of Pediatrics, gave the Dr. Otto Faust Lecture at Albany Medical College on March 19. The subject was “Management of the Child with Bronchial Asthma.”

Dr. Mary Louise Soentgen, Associate Professor of Pediatrics, has taped a presentation for television and radio on “Drug Addiction and its Effect on Newborns,” to be used in the Voice of America program. At the AMA meetings in Chicago on June 25, Dr. Soentgen spoke on “Perinatal Drug Toxicity” and “The Placental Transfer of Drugs.”

Dr. Gerald Fendrick, Assistant Professor of Pediatrics, recently received a grant of $1000 from the NIH, to be used in developing a screening history for pediatrics and studying on a controlled basis the quantitative and qualitative effect on patient care.

preventive medicine
Dr. Willard A. Krehl, Professor of Preventive Medicine and Chairman of the Department, has been appointed by the Commissioner of the Food and Drug Administration to serve on a special committee to evaluate the scientific capabilities of the Food and Drug Administration and to make recommendations.

Dr. Heinrich Brieger, Honorary Professor of Preventive Medicine, has been elected an honorary member of the Permanent Commission and International Association on Occupational Health. Only two Americans have been so honored in the past.

Dr. C. Earl Albrecht, Professor of Preventive Medicine, was the United States representative to the International Circumpolar Health Symposium in Helsinki and Oulu, Finland.

radiology
Dr. Philip J. Hodes, Professor of Radiology and Chairman of the Department, presented a seminar on “The Role of Radiology in Cytogenics” at the University of Miami in April.

Dr. Jack Edeliken, Professor of Radiology, has been appointed a consultant to the Surgeon General of the Air Force as well as an examiner in diagnostic radiology of the American College of Radiology.

Dr. Robert O. Gorson, Professor of Radiology, in February was appointed by the U. S. Public Health Service to the Advisory Committee on Diagnostic X-ray Standards of the Environmental Control Administration.

Dr. Nagalingam Suntharalingam, Associate Professor of Radiology, conducted a two month lecture assignment on medical physics centered at the Bhabha Atomic Research Center, Bombay, India, sponsored by the World Health Organization.

Dr. Corinne Farrell, Instructor in Radiology, lectured on “Thermography in Malignancy” at the 10th International Cancer Congress and served as Visiting Professor at the University of Missouri.

radiation therapy
Dr. Simon Kramer, Professor of Radiology and Chairman of the Department of Radiation Therapy, has been elected President of the American Society of Therapeutic Radiologists.

psychiatry
Dr. Samuel A. Guttmann, Professor of Psychiatry, has been appointed Co-chairman of the Program Committee of the International Psycho-analytical Association for the 27th International Psycho-analytical Congress, to be held in Vienna in the summer of 1971. He was also Co-chairman for the annual joint session of the American Psychiatric Association and the American Psychoanalytic Association held in San Francisco in May.

Dr. Daniel Lieberman, Professor of Psychiatry, is Chairman of the Task Force on Coordination and Continuity of the Mental Health Association of Southeastern Pennsylvania.

Dr. Eli Marcovitz, Clinical Professor of Psychiatry, gave the 17th Annual Freud Memorial Lecture for the Philadelphia Association for Psychoanalysis in Philadelphia on May 15. His topic: “Man in Search of Meaning—Hallucinogenic Agents.”

Dr. J. Clifford Scott, Associate Professor of Clinical Psychiatry is co-author of How You Can Help Your Retarded Child, which has been translated into French and published in Paris.

Dr. Kurt Wolff, Associate Professor of Psychiatry, presented a paper on “The Problem of Death and Dying in the Geriatric Patient” at the 27th Annual Meeting of the American Geriatrics Society in New York City on April 4.

surgery
Dr. Rudolph C. Camishion, Professor of Surgery, presented two of his papers at the annual meeting of the American College of Surgeons, Puerto Rico Chapter, in San Juan during February.

Dr. John Y. Templeton, Professor of Surgery, was moderator of a panel on “What to Do with the Patient with Lung Cancer” during the April meeting of the American College of Physicians in Philadelphia.

Dr. Charles Fineberg, Associate Professor of Clinical Surgery, has been designated Chairman of the Department of Surgery at the Albert Einstein Medical Center in Philadelphia.

urology
Dr. Paul D. Zimskind, Professor of Urology and Head of the Department, was named Associate Editor of Cyclopedea of Medicine, Surgery, Specialties, 1971 edition. He has been invited to membership in the National Urologic Forum.
When Charles Kraatz graduated from Berea College, Kentucky, in 1926, his interests lay closer to a piano, a banjo or the stage than to a vial of botulinum or a classroom. Looking toward becoming a master of English, he went on to graduate school. Somehow along the way, he became a master of science instead. Dr. Kraatz isn't sure exactly how he made the switch, or of the reasons. "I just got interested in medicine," he says. And so piano, banjo and drama were relegated to the relatively minor status of leisure pursuits.

With an assistantship from the University of Cincinnati, Kraatz went delving into zoology and came out with a Ph.D. He did his research in physiology. On the strength of this background, he was appointed a faculty member at the Chicago Medical School in the Department of Pharmacology and Physiology. He was introduced to pharmacology when a vacancy arose in the department. "I just jumped in and learned pharmacology fast," he says. He must have learned it well, because he taught it until he left the Medical School. "I was glad to accept the responsibility, as one should be when one is young and vigorous. When you get older you try to determine whether it is profitable."

Charles Kraatz takes himself very lightly, because old and hesitant are exactly what he isn't. In his casual good humored manner is a youthfulness unaffected by his
sixty years. In his saunter there is a hint of his studied approach to a problem. His wiry gray hair sprouts willfully in all directions. His pleasant unstrained face subdues the seriousness of the horn rimmed glasses. Puffing at a cigar, he often seems preoccupied. At the present time he might be thinking about the pharmacology of the peripheral nervous system, which is the subject of a book on which Dr. Kraatz is working while on academic leave.

Charles Kraatz has been teaching sophomore students for twenty-three years now. In the classroom, the lecture hall or the laboratory, he passes on what he knows of pharmacology (which is considerable) to a highly receptive audience. This particular student-teacher combination ticks, and the class of 1970 proved as much by selecting Dr. Kraatz as subject of the senior class portrait presentation. Most surprised of all by the selection was Dr. Kraatz himself, who had not taught the seniors for two years. The applause and enthusiasm at the May ceremonies revealed a warmth of feeling on the part of the students extraordinary to the occasion. One explanation may be that the Professor of Pharmacology regards the teaching of medical students as “my number one job.”

Part of that job, Dr. Kraatz feels, is making the material as interesting as possible. “I try to reduce their resistance to learning,” he explains. This resistance is a phenomenon peculiar to the current generation of students, Dr. Kraatz believes. “They have to be darned sure they are learning only what they need; otherwise, they are dubious, if not resistant.” An example to which Dr. Kraatz pointed was the curriculum proposed last year by two Penn State students and submitted to the Dean’s Office. What disturbed Dr. Kraatz, who has served on the Admissions Committee and as Acting Dean of Admissions, was that “these students were so apprehensive that they might learn one fact more than they might have to know, and they might learn it a minute before they had to know it.” Dr. Kraatz’ first objection is that no student knows what he is going to need or when he is going to need it. Also, regarding the learning of unnecessary facts, “It’s not facts, it is concepts we are trying to instill. You can’t illuminate a concept with one or two facts usually. You have to surround it. There are valuable interrelationships in what appears to students as superfluous material.”

With the current trend in education toward whittling curricula, the opportunity for student-teacher relationships has been reduced also. “The system here isn’t conducive to it.” For instance, lab hours, “when you could get to know some students,” have been reduced greatly. In pharmacology, the laboratory hours have been cut from seven hours a week for seventeen weeks to fifteen hours a semester. “I don’t know whether the personal contact is important or not,” Dr. Kraatz admits. Though he has many friends among the student body, these are students “who have had the energy to approach me. Unless students make the first move, there is no way to develop personal contact with them.”

Dr. Kraatz often entertains friends at his eight acre home in suburban Philadelphia. He is equally at ease in the role of host or teacher. In fact he is at home in many roles, as gourmet cook, winemaker, homebuilder and actor. After Dr. Kraatz was honored at the Portrait Presentation, he entertained forty guests with a gourmet luncheon, prepared entirely by himself and imported from his home in Springfield to the faculty room at Jefferson. The entree was boeuf bourguignon. If he were entertaining at home, Dr. Kraatz would have served some of his own wine, which he makes from the fruits he grows in his garden. He has two five gallon carboys, and, incidentally, a wine making permit. At his leisure, if he isn’t at home, Dr. Kraatz might be at a rehearsal with the Swarthmore Players, a highly polished drama group in nearby Swarthmore. His last performance was in the group’s spring production, and he hopes his next will be in “South Pacific,” which the group will stage this fall. His preference is comedy. Dr. Kraatz returned recently to drama after a long interlude. During his two years as a graduate student at the University of Kentucky, he was in ten shows—and kept an A average.

Somewhere between his professional life and his leisure, Dr. Kraatz found time, with the help of his late wife and their two daughters, to build a home. With only the foundation and brickwork done for them, the Kraatz family installed electrical systems, put up walls, ceilings and cabinetry. Why such an enormous undertaking? “You know what you have when you do it yourself. You’re sure it’s done right.” At the outset he had no knowledge of carpentry, electrical installation or the like. “I read a good book,” he says quite seriously. He must have read astutely, because the work passed all inspections.

And how does a man find time for a full professional life and develop his personal interest to such an extent? “I keep moving all the time,” is Dr. Kraatz’ answer. “If you keep moving physically, you keep moving mentally—and that keeps you young.”
Dr. Harry A. Smith, 259 S. Franklin St., Wilkes-Barre, Pa., was still in active general psychiatry practice at the age of eighty-two. He adds that he "gets a big kick out of it too."

Dr. James E. VanGilder, Brandywine Springs Nursing Home, 505 Greenbank Rd., Wilmington, Del., has retired after fifty years in practice in Unions-town, Pa.

Dr. R. Grant Barry, 908 W. State St., Trenton, N. J., is still active in his neuropsychiatry practice at the age of eighty-two. He adds that he "gets a big kick out of it too."

Dr. James L. Fisher, 166 Mill Creek Dr., Youngstown, Ohio, still in active general practice at age seventy-four, received a fifty year merit award from the Ohio State Medical Association.

Dr. R. Guy Bashore, 101 Front St., Minersville, Pa., was honored by the local newspaper, the Pottsville, Pa., Republican, for service during fifty years of general practice. Dr. Bashore still practices, but discontinued obstetrical work about five years ago. During his career he delivered 2,751 babies.

Dr. Harry H. Epstein, 5161 Collins Ave., Miami Beach, Fla., reports that his son, Herbert, Jefferson 1960, is practicing surgery in New Jersey.

Dr. Lawrence G. Heins, R. R. #3, Abilene, Kans., has been retired since 1963 and operates an investment company. He is County Commissioner for Dickinson County, Kans.

Dr. Frank H. Krusen, Rehabilitation Institute, Tufts New England Medical Center, 185 Harrison, Boston, Mass., was honored with an award given him by President Nixon in the White House in October. On the seventy-ninth anniversary of the birthday of Dwight D. Eisenhower the White House program observed the General's People-to-People program for international friendship. Dr. Krusen was chosen for his service in the rehabilitation of the handicapped.

Dr. Carl M. Hadley, 291 Fifth St., San Bernardino, Calif., still works every day including Saturday, but only in the office.

Dr. Herman M. Parris, River Park Apts., #1213, 3600 Conshohocken Ave., Philadelphia, reports that he is still disabled from his last coronary attack. His son is pre-med at Northwestern University.

Dr. Lerleen C. Hatch, 7546 Maniopasa Dr., Scottsdale, Ariz., a resident of Arizona for a year now, is enjoying it. "We return to the higher altitudes of northern Utah and Idaho for the summer months when it gets very hot down here."

Dr. Mario A. Castallo, 1621 Spruce St., Philadelphia, as Consulting Editor of the F. A. Davis Publishing Company in Philadelphia, visited the University of Hawaii recently to confer with the Chairman of the Curriculum Committee on a core curriculum agenda using special texts written for this new approach to medical teaching. Dr. Castallo was hosted by classmate Dr. Yen Pui Chang and Mrs. Chang during his visit.

Dr. John R. Kuhn, Jr., 625 Jaccard Pl., Joplin, Mo., has been honored by the Board of Regents of Missouri Southern College. An ardent supporter of the College, Dr. Kuhn will have the next building constructed on campus named for him. The building will be the Health Education headquarters on campus. Dr. Kuhn is Chairman of the Advisory Board to the College for the nursing program.

The 50th reunion class of 1920 met for dinner on Thursday evening, April 30, at the Barclay Hotel. Dr. Thaddeus L. Montgomery and Dr. Martin J. Sokoloff were reunion chairmen. At the clinics the following morning the chairmen collaborated on a talk "Medical Teaching and Medical Personalities at Jeff in 1920."
Dr. Bockus

Dr. Henry L. Bockus '17, has received the Distinguished Service Award of the American Medical Association. Dr. Bockus was presented the Award at the Association's annual meeting in Chicago in June. Only one such award is made each year. Dr. Bockus was chosen by vote of the AMA's House of Delegates over two other candidates.

Dr. Bockus is an internationally known gastroenterologist. He has been on the faculty of the University of Pennsylvania for nearly fifty years and organized the stomach clinic at Graduate Hospital in 1921. He is Emeritus Professor of Medicine at the University, having served as Chairman of the Department of Medicine for eleven years. Dr. Bockus has received numerous awards and citations for his achievements. His ex-students and residents around the world would have formed The Bockus International Society of Gastroenterology, which meets regularly. Many of these students hold chairmanships in departments of gastroenterology in leading medical schools. Dr. Bockus has received honorary memberships or fellowships in more than a dozen foreign medical societies and is an honorary faculty member at three Latin American medical schools.

Three universities have awarded Dr. Bockus honorary doctorates, one of them, Jefferson. *Modern Medicine* chose him for its Distinguished Achievement Award one year, and Jefferson selected him for the Alumni Achievement Award in 1964. He served as one of the first alumni trustees.

Not the least of his successes is Dr. Bockus' past presidency of the World Organization of Gastroenterologists. He is dedicated to the belief that cooperation between medical men from various nations can be a great force for world peace. He was the first Chairman of the Organization and is Chairman of the Board of Care-Medico, an international cooperation group.

1931

Dr. Edward T. Lynch, 748 Livingston Rd., Elizabeth, N. J., had an aneurysm of the aorta in June of 1969. His wife reports that he is doing very well but will not return to practice.

Dr. William J. McMartin, 407 S. 16th, Omaha, Neb., retired this year as Professor and Chairman of the Department of Urology at Creighton University. Dr. McMartin found his career in teaching "interesting and challenging—and busy." He is a past President of the American Urological Association, the Western Association of Railway Surgeons and is listed in Who's Who.

1932

Dr. Jacob Lichstein, 6423 Wilshire Blvd., Los Angeles, Assistant Clinical Professor of Medicine at the School of Medicine, The Center of Health Sciences, Los Angeles, has been included in the first edition of *World's Who in Science*, published by Marquis Who's Who.

Dr. Lewis C. Manges has been elected Vice President of the Medical Staff of Simon H. Barnes Community Hospital. Dr. Manges has been on the staff since he moved to Windsor, N. Y., where the hospital is located, in 1968. He has practiced in New York since 1963.

Dr. Herman F. Meckstroth, Masonic Homes, Elizabethtown, Pa., was appointed Medical Director of the Masonic Homes and Masonic Homes Hospital in October.

1933

Dr. Percy L. Hipple, 118 E. 5th Ave., Roselle, N. J., was honored at a dinner on June 2 at the Echo Hills Country Club in Westfield on the occasion of his retirement from general practice. Dr. Roy T. Forsberg '45, chairman of the event, referred to Dr. Hipple "as the epitome of the family physician—he represents all that Jefferson stands for." Dr. Hipple is planning a new career in Florida with the VA.

1934

Dr. Joseph W. Cooch, 2033 Sherman Ave., Apt. 205, Evanston, Ill., has retired from his position as Health Director of Milford, Conn.

Dr. Roscoe P. Kandle, 4 Van Gogh Court, Trenton, N. J., in February became Medical Director of Blue Cross, the New Jersey Hospital Plan Association. Dr. Kandle is a former State Health Commissioner.

1936

Dr. Marcel S. Sussman, 1919 Chestnut St., Philadelphia, has been named Chief of the Gynecology Department at Physicians and Surgeons Hospital in Philadelphia. He is Associate Professor of Obstetrics and Gynecology at Jefferson.
Dr. Patrick J. Kennedy made arrangements for the reunion for the class of 1930. Members met for cocktails and dinner at the Bellevue-Stratford Hotel on the evening of April 30.

The class of 1940 used the facilities at Jefferson Hall for its thirtieth reunion. Members gathered in the west garden for cocktails with dinner following in the center lounge. Dr. Thomas Mervine was chairman.
1937

Dr. Daniel Silverman, 408 Waring Rd., Elkins Park, Pa., is President-elect of the American Electroencephlographic Society.

1938

Dr. Victor P. Satinsky, Research Associate Professor of Thoracic Surgery, Hahnemann Medical College, 230 N. Broad St., Philadelphia, is participating in a special program at Hahnemann for gifted high school students. A full time academic year honors program allows thirty students to spend their senior year at Hahnemann and still graduate from their high schools.

1939

Dr. Morris Parmet, 40 Dogwood Lane, Princeton, N. J., has been appointed a senior supervisor to advanced fellows in child psychiatry at the Child Guidance Center of Mercer County, Dr. Parmet was Director of Psychiatric Services at Hunterdon Medical Center in Flemington, N. J., for ten years.

Dr. Thurston G. Powell, 82 Windsor Rd., Waban, Mass., has been elected President of the Medical Staff of the Newton Wellesley Hospital, Newton Lower Falls, Mass. Dr. Powell has been on the active staff in medicine for twenty-four years.

1942

Dr. Michael J. Ressetar, 75 Clifton Ave., Clifton, N. J., has been elected Senior Attending and Director of the Allergy Clinic at St. Mary's Hospital in Passaic, N. J.

1943

Dr. Warren R. Lang is now at the Institute of Pathology, Case Western Reserve University, Cleveland, Ohio, taking his final year of training for Boards in anatomic pathology. He spent his first two years at Jefferson's Department of Pathology.

1944

Dr. Raymond A. McCormack, Jr., 433-435 Bellevue Ave., Trenton, N. J., is the recipient of the 1969 Physician's Award of the New Jersey Division of the American Cancer Society. The award is presented to a New Jersey physician annually for outstanding contributions in combating cancer. Dr. McCormack has been active in all phases of the American Cancer Society's program.

Dr. Henry C. Ricks, Jr., 415 E. Pace Ferry Rd., N. E., Atlanta, Ga., has been promoted to Clinical Assistant Professor of Psychiatry at Emory University's Woodruff Medical Center.

Dr. Albert C. Truxal, Route 2, Rupert, Idaho, has moved his family and his practice here from Rexburg, Idaho. Dr. Truxal joined an associate at 645 Fifth St. He had practiced in Rexburg for nearly twenty years and was serving as Chief of Staff at Madison Memorial Hospital at the time he moved.

1944S

Dr. Richard H. Ross, 2313 N. Stuart St., Arlington, Va., in July assumes duties as Director of Personnel and Training Directorate, Office of the Surgeon General, Department of the Army.

Dr. Grant Underwood, 1005 E. Beau St., Washington, Pa., in June completed his term as President of the Pittsburgh Urological Association.

1945

Dr. C. Glenn Clements, 5511 N. E. 182nd St., Seattle, Wash., has been active in developing abortion reform legislation. A measure passed through the state legislature in February. Dr. Clements reports that there will be a referendum regarding it in the fall elections.

Dr. H. William Stewart of Alexandria, Pa., has closed his office to accept a position at J. C. Blair Memorial Hospital as emergency room physician. Dr. Stewart's appointment is the first in the hospital's effort to establish complete emergency service by physicians. He will continue his private practice by appointment at the hospital.

Dr. Arthur A. Sweetser, Jr., 711 W. Broad St., Bethlehem, Pa., opened an office here in October. Previously, he had served as Associate Director of the Health Center at Lehigh University for two years. Before 1967 he had a medicine and surgery practice in Bucks County, Pa.

Dr. Richard C. Tozer, 1447 Oakley, Topeka, Kansas, regrets not being able to attend the 25th Reunion festivities at Jefferson, but sends greetings to "old friends" there. The Tozers also celebrate their 25th anniversary this year.

1946

Dr. Samuel D. Rowley, 32 Banbury Lane, W. Hartford, Conn., left his pediatrics practice in June of 1969 to join the Hartford Health Department as CMIC pediatrician. He is Director of the Rentschler Pediatric Clinic at Hartford Hospital and Director of the Hartford Hospital CMIC Infant Clinic. Dr. Rowley received an M.P.H. degree from Yale in 1969.

Dr. David G. Simons, Box 17211, V. A. Hospital, Houston, Tex., is now Director of the Physiometric Laboratory, Physical Medicine and Rehabilitation at the Houston Veterans Hospital. He is also Program Chief for Research and Education for the V. A. Dr. Simons made headlines in 1957 when he became the first man to pierce the atmosphere at a height of over nineteen miles, rising in a balloon and remaining there for nearly two days.

Dr. Earl K. Sipes, 24 N. 18th St., Allentown, Pa., has been named Chief of Surgery at Sacred Heart Hospital there.

1947

Dr. William C. Herrick, 533 Aldwych Rd., El Cajon, Calif., has been selected President-elect of the San Diego County Medical Society. Dr. Herrick is Chief of Pathology at Grossmont and El Cajon Valley hospitals.

Dr. Lewis E. Jones, 1752 Morris Landers Dr., N. E., Atlanta, Ga., is serving as Chief of Staff at the Atlanta Veterans Administration Hospital. He has been with the hospital since 1954.

Dr. Edward A. Kelly, 4713 State Rd. & Ad-dingham Ave., Drexel Hill, Pa., has a son in Jefferson's freshman class.

1948

Dr. Bent G. Boving, 1001 Overbrook Rd., Baltimore, Md., delivered the G. D. Searle Lecture in reproductive biology at the Medical College of Virginia in January. Dr. Boving's lecture was "Mechanical Interactions of Egg and Uterus." He is with the Department of Embryology at the Carnegie Institution of Washington in Baltimore.

Dr. Eugene P. Hughes, 113 W. Chestnut Hill Ave., Philadelphia, has been appointed Director of Surgery at the Memorial Hospital, Roxborough, and Senior Attending Surgeon at Chestnut Hill Hospital, Philadelphia.

1949

Dr. Sheldon Rudansky, 520 Franklin Ave., Garden City, N. Y., is President of the Brooklyn-Long Island Urologic Society.

Dr. Rudansky.

1950

Dr. Daniel L. Backenstose, 75 Cedar Ave., Hershey, Pa., is Medical Director of the Milton Hershey School for 1,500 orphaned boys. He also is Medical Director of The Alpine, a new large nursing home. He is still in general practice.

Dr. Joseph J. John is now assigned to the Physical Standards Division, USAF Surgeon General's office, at the USAF Military Personnel Center, Randolph AFB, San Antonio, Tex. He holds the rank of Lt. Colonel.
Dr. William B. McNamee, 151 Long Lane, Upper Darby, Pa., has been elected President of the Medical Alumni Association of St. Joseph's College in Philadelphia. This group annually awards the well-known Schaffrey Award to outstanding men in the health sciences.

Dr. Aaron M. Rosenthal, 8825 Kenneth Terr., Skokie, Ill., is President of the Illinois Society of Physical Medicine and Rehabilitation and Treasurer of the Association of Academic Physiatrists.

1951

Dr. Philip J. Escoll, 111 N. 49th St., Philadelphia, has been appointed Chairman of the Board of Directors of the Extension Division of the Philadelphia Psychoanalytic Institute and Society.

Dr. Leonard S. Girsh, #113 E. Church Rd., Philadelphia, recently was appointed to the editorial board of the Annals of Allergy.

Dr. Robert A. McKinley, 813 W. Clinton St., Elmira, N.Y., is continuing to plan a new state mental hospital in Elmira.

Dr. Bruce W. Raffensperger, 400 Bellaire Ave., Fort Washington, Pa., has been appointed Director of the Department of Obstetrics and Gynecology at Chestnut Hill Hospital in Philadelphia.

1952

Dr. Albert L. Babcock, 75 Uplands Dr., West Hartford, Conn., served a voluntary tour of duty with the S. S. HOPE in Tunisia recently. The Tunisia mission was the eighth undertaken by the HOPE in its ten year history. Dr. Babcock practices plastic and reconstructive surgery in Hartford, Conn.

Dr. Wesley W. Bare, 115 Tavistock Lane, Hadonfield, N. J., has been appointed Director of Service and Chief of the Department of Obstetrics and Gynecology at Methodist Hospital in Philadelphia.

Dr. James E. Clark, Chief of Medicine at Crozer-Chester Medical Center, 15th and Upland, Chester, Pa., has resigned his appointment as Associate Professor of Clinical Medicine at Jefferson as a result of the affiliation of Crozer-Chester with Hahnemann Medical College. He has been appointed Professor of Medicine at Hahnemann.

1953

Dr. Leonard Brodsky, 10725 S. W. 72nd Ave., Miami, Fla., has been elected Chairman of the Department of Medicine at Cedars of Lebanon Hospital in Miami.

1954

Dr. Jerome Dersh, 232 N. Fifth St., Reading, Pa., is President of the Reading Eye, Ear, Nose and Throat Society and Editor of the Transactions of the Pennsylvania Academy of Ophthalmology and Otalaryngology. Dr. Michael D. Cefaratti '63, has been associated with Dr. Dersh for nearly three years.

Dr. Thomas A. Hodge, 6872 Hampton Dr., San Jose, Calif., left general surgery to enter a radiology residency at Stanford University from 1966 to 1969. He is now in private practice in San Jose.

1955

Dr. William P. Henderson, 2103 E. Washington, Bloomington, Ill., writes that Bloomington is in need of good ob-gyn men—"Jeff graduates preferred!"

Dr. Andrew J. Kapcar, 612 Knollwood Dr., Mount Airy, N. C., is Regional Pathologist under North Carolina's new medical examiner system.

Dr. Donald G. Miller, 1520 E. Mishawaka Rd., Elkhart, Ind., recently accepted a position on the staff of the Howard Clinic. He is also on the staff of Elkhart General Hospital as an emergency room physician. Dr. Miller previously had a general practice for nine years.

Dr. J. Donald Schultz, R.D. #1 Pierson Dr., Shelburne, Vt., as of April 1 was appointed Assistant Professor in the Department of Community Medicine at the University of Vermont.

Dr. Philip H. Taylor, 2220 Cheltenham Rd., Columbus, Ohio, has been elected to serve as President of the County Medical Society in 1971.

1956

Dr. Ernest R. Griffith, 8338 Northport Dr., Cincinnati, Ohio, in January started a new position as Assistant Professor in the Department of Physical Medicine and Rehabilitation at the University of Cincinnati.

Dr. Joseph A. McCadden, 613 Morris Lane, Wallingford, Pa., is Chief of the Medical Staff of Riddle Memorial Hospital in Media, Pa. His general practice is in Wallingford.

1957

Dr. Alfred O. Heath, Box 233, Charlotte Amalie, St. Thomas, Virgin Islands, has been certified by the American Board of Surgery.

Dr. Stephen J. Kendra, 1963 Virginia Ave., McLean, Va., currently at the Bureau of Medicine and Surgery, Washington, D. C., in the Preventive Medicine Division, is expecting to be assigned as Officer in Charge, U. S. Navy Preventive Medicine Unit #6, Pearl Harbor, Hawaii, this summer.

Dr. Sanford M. Miller, 680 W. End Ave., New York City, is in private anesthesiology practice at Lenox Hill Hospital. He and his wife, Marcia, have two boys.

1958

Dr. Paul E. Berkebile, 252 Cypress Hill Dr., Pittsburgh, Pa., has started an anesthesiology residency at University Health Center Hospitals, University of Pittsburgh.

Dr. Farrell R. Crouse, 61 Laurel Lane, Hammonton, N. J., has been certified by the American Board of Psychiatry and Neurology in Psychiatry. He currently holds the position of Assistant Medical Director of the New Jersey State Hospital at Ancora.

Dr. Norman A. Fogel, 995 North Miami Beach Blvd., North Miami Beach, Fla., has a new office scheduled for the spring of 1971. Family at maximum size," he reports.

Dr. Hilbert E. Oskin has opened a new office for the practice of general psychiatry at 522 N. Neville St., Pittsburgh, Pa.

Dr. Henry E. Seidel, Shore Memorial Hospital, Somers Point, N. J., is serving as President of the Medical Staff at the hospital. He has been on the Shore Memorial staff since 1963.

Dr. Harry D. Snyder, 121 Clayton Rd., Hatboro, Pa., in April opened an office for ophthalmology practice, after completing twelve years in the Navy.

Dr. Robert G. Somers, 3229 Burn Brae Dr., Dresher, Pa., has been appointed a Fellow of the American College of Surgeons and has a busy practice in general surgery at Albert Einstein Medical in Philadelphia.

Dr. Richard R. Vanderbeck, 664 Spring Valley Rd., R. D. #3, Doylestown, Pa., has been appointed Medical Director at Neshaminy Manor Home. Dr. Vanderbeck had been assistant to the former director since 1966. He has been affiliated with Doylestown and Abington Hospitals since 1964 and has a private practice. Dr. Vanderbeck is certified by the American Board of Internal Medicine.

1959

Dr. John J. Coughlin, 65 Sharon St., Providence, R. I., has returned from a tour of duty with the Navy and is practicing obstetrics and gynecology in Providence.
of the American Board of Obstetrics and Gynecology.

Dr. John H. Gould, Main St., Shiloh, N. J., is now a Major in the Army, serving in Seoul, Korea. He is soon to be joined by his family.

Dr. William F. Hook, Box 1818, Bismarck, N. D., is in a private radiology practice in Bismarck.

Dr. John P. Lesniak, 311 Stone Ave., Clarks Summit, Pa., has opened offices for the practice of psychiatry. He recently completed a three year residency at Binghamton, N. Y., State Hospital and the Upstate Medical Center at Syracuse, N. Y.

Dr. Irvin M. Liebman, 2555 Welsh Rd., Apt. 220, Philadelphia, has reopened his dermatology practice after a tour of duty with the Army. He is affiliated with Jefferson University of Pennsylvania and Lower Bucks County hospitals.

Dr. Elliott Perlin, 2717 Weller Rd., Silver Spring, Md., finished his residency in internal medicine at the Bethesda U. S. Naval Hospital last August, and is now taking a fellowship in hematology there.

Dr. Jack C. Sabo, 1014 E. 84th St., Brooklyn, N. Y., is Chief Resident in Thoracic Surgery at the Kings County Hospital in Brooklyn, having completed two years with the Army.

Dr. James L. Snyder is aboard a hospital ship U.S.S. SANCTUARY in Vietnam. When Dr. Snyder wrote in December he had just finished his residency at Bethesda. "I've seen and heard from a few classmates off and on. Dale Sponaugle is at Portsmouth Naval Hospital in Virginia as staff ophthalmologist. Bill Wanger is back in general practice in West Virginia."

Dr. George L. Lasota, 1415 Orthodox St., Philadelphia, has been appointed staff psychiatrist at Friends Hospital in Philadelphia. Dr. Lasota is a member of the faculty of Hahnemann Medical College.

Dr. Herman P. Phillips, 108 Biddle Dr., Marchwood West, Exton, Pa., has been appointed to the medical staff of Paoli Memorial Hospital. His specialty is orthopedics, in which he recently completed a residency at the Veterans Administration Hospital in Philadelphia.

Dr. Robert C. Gallo, 6207 Adelise Rd., Bethesda, Md., has been named head of the recently established Cellular Control Mechanism section of the Human Tumor Cell Biology Branch, Clinical Trials, National Cancer Institute.

Dr. Daniel W. Horner, Jr., 49 Laurel Rd., Wallingford, Conn., has completed two years in the Public Health Service (internal medicine) and is now taking a two year fellowship in cardiology at Yale School of Medicine.

Dr. Charles Markosi, Jr., 271 Prospect St., E. Stroudsburg, Pa., has joined another physician in an orthopedics practice.

Dr. Julio E. Vassalluzzo, 218 Woodbourne Rd., Langhorne, Pa., resigned his position as Medical Director of the Woods Schools Residential and Treatment Center and entered private practice last January.

1964

Dr. Helmut H. Behling, 1486 McAfee St., St. Paul, Minn., is now a third year radiology resident at Veterans Hospital and the University of Minnesota.

Dr. Richard L. Bennett, 611 West Market St., Akron, Ohio, has been in ob-gyn practice for a year now and finds it "very satisfying." He also enjoys his job as Medical Director of Summit County Planned Parenthood.

Dr. Herbert M. Fisher, 4808 Bradford Dr., Annandale, Va., is looking forward to starting private practice in San Francisco as of July.

Dr. Robert C. Friedman has been appointed Associate Radiologist at Woosocket Hospital, Woosocket, R. I. He previously was Instructor in Radiology at Hahmann Medical College in Philadelphia.

Dr. Stephen R. Graves, 13700 Fairhill Rd., Shaker Heights, Ohio, was married to Miss Melda Getlinger in July of '69.

Dr. Charles R. Kelley, 4101 Deborah St., Indianapolis, Ind., plans to stay at Indiana University in the Division of Community Medicine to work on health care delivery methods for the urban population.

Dr. Don B. Knapp, 106th General Hospital, APO San Francisco, is now the ophthalmologist for an Army hospital in Yokohama, Japan. In June 1969 he completed his residency at the Veterans Administration Hospital in Richmond, Va.

Dr. Thomas J. Leavitt, 212-05 41st Ave., Bayside, N. Y., has completed a hematology fellowship at Stanford and is Director of the Pediatric Intensive Care Unit at the Catholic Medical Center of Brooklyn and Queens.

Dr. Raymond J. McGroarty, 8912 26th Ave., E. Stroudsburg, Pa., has joined another physician in an orthopedics practice.

Dr. Julio E. Vassalluzzo, 218 Woodbourne Rd., Langhorne, Pa., resigned his position as Medical Director of the Woods Schools Residential and Treatment Center and entered private practice last January.

1965

Dr. Elmer C. Bigley, Jr., 7838 Thuron St., Philadelphia, recently finished six months of research at the University of Pennsyl-
The class of 1965, celebrating its first reunion, met for dinner at the 2601 restaurant on the Parkway, on Wednesday evening, April 30. Dr. Steven C. Sandler made all arrangements.

1966

Dr. I. Paul Chudnow, 2627 Mimi Cir., Philadelphia, after his service as an Air Force Flight Surgeon, is in his first year of an ob-gyn residency. The father of two now, he is also a licensed private pilot.

Dr. G. Donald Clarke, Jr., 23 E. 65th St., Savannah, Ga., has entered practice with Anesthesia Associates in Savannah after completing a residency at the University of Virginia.

Dr. Joseph R. Hooper, 1843 Holly Dr., Camp Hill, Pa., is taking a surgical residency at Harrisburg Hospital.

Dr. Donald J. Kearney, 6787 Ballinger Ave., San Diego, Calif., is completing his internal medicine residency and will begin a fellowship in cardiology at the Naval Hospital in San Diego.

Dr. Warren D. Lambright, E.P.C. Hospital, Box 5, Addisome, V. R., Ghana, W. Africa, still enjoys the work in a mission hospital, after nearly two years there. "We expanded to 120 beds and with a busy outpatient and surgery schedule this keeps my colleague and me very busy. We are anticipating two fourth year medical students spending three months with us this summer. Their new ideas should help keep us on our toes as well as give them a varied experience in medicine."

Dr. Daniel Lovrinic, 167 W. Mariposa, San Clemente, Calif., returns to Chicago this July to complete his orthopedic residency at Northwestern University.

Dr. Charles H. Klieman in July starts the third year of his general surgery residency at Mount Sinai Hospital of Cleveland, and occasionally seeing an old friend come into town.

Dr. Marvin S. Wetter, 16 Helen Ave., West Orange, N. J., has finished his service with the Navy. In July he starts a residency in urology at Queens General Hospital in New York.

1967

Dr. Allan M. Arbeter, Calle 49B, 78B35, Medellin, Colombia, South America, is doing research on malnourished children at the University of Antioquia. The Arbeters have a baby girl, Rachel.

Dr. Robert A. Block plans to return to Jefferson in September for a residency in obstetrics and gynecology. Dr. Block and his wife, a Jeff School of Nursing graduate, have one daughter.

Dr. Henry P. Donnon, Jr., 1511 B. Ash St., Fort Dix, N. J., recently returned from Vietnam and hopes to be starting a general practice in the Willingboro, N. J. area.

Dr. Charles H. Evans, 1496 Bradley Lane, Warminster, Pa., at his last writing was bound for South Vietnam. There are now two children in the family.

Dr. John R. Freshman, Navcommsta Box 4, FPO San Francisco, is in the Philippines (San Miguel) at a U. S. Navy communications station.

Dr. James J. Holstein has been serving in Vietnam since August 1969. He has received two bronze stars. His address: A Company, 15th Med. Battalion, 1st Cavalry Div., APO San Francisco 96490.

Dr. Charles H. Klieman in July starts the third year of his general surgery residency at Mount Zion Hospital in San Francisco. He did the first two years at Maimonides Hospital in Brooklyn, N. Y.

Dr. David H. Miller, 6640 Sprague St., Philadelphia, is completing his first year of
an ophthalmology residency at Wills Eye Hospital in Philadelphia.

Dr. Carl P. Mulveny, 161 Honeywell Dr., Claymont, Del., has a fellowship in Gastroenterology at the University of Pennsylvania and is a Captain in the Delaware Army National Guard. The Mulvenys have two boys, Jeffrey Scott, January '68, and Daniel Christopher, January '69.

Dr. Morton L. Rubin, Oriolowitl Hall #901, 1000 Walnut St., Philadelphia, was named "Man of the Year" by the Associated Registered Conference Officials for his work in coaching a ninety-five pound football. Dr. Rubin has been coaching for this Police Athletic League for the last eight years.

Dr. Vance R. Stouffer, Jr., 364-H Sixth St., APO Seattle, Wash., is a medical officer with the 1722nd Infantry Brigade stationed at Fort Richardson, Alaska.

Dr. David E. Williams, 3407 Newell St., San Diego, Calif., is currently medical officer of a destroyer squadron homeported in San Diego. He plans a cardiology fellowship and then settling along the coast of Maine.

Dr. Jonathan L. Williams will be back in Philadelphia for a while. In July he started a radiology residency at Temple.

1968

Dr. Joel M. Barish, 7021 Sandpoint Way, N.E., Apt. 405, Seattle, Wash., is a Naval flight surgeon and plans a medicine residency in two years. His wife, Carole, is in her third year at the University of Washington School of Medicine.

Dr. Richard L. Davies, 1719 38th St., Sacramento, Calif., began a tour of duty with the Armed Forces in Vietnam last March.

Dr. Richard J. Flanagan, 918 Bethany Ct., Annapolis, Md., is serving in the Navy, stationed at the U.S. Naval Academy as a C.M.O. The Flanagans now have two children.

Dr. Mark Glasberg, 756 Twenty-seventh St., San Francisco, left Mount Zion Hospital to begin a neurosurgical residency at Georgetown Hospital in Washington, D.C.

Dr. Stephen L. Hershey, 2036 Annette Ave., Akron, Ohio, is doing a residency in orthopedic surgery at Akron General Hospital.

Dr. Gerald A. Hiatt, 177 Kuuhoua Pl., Kailua, Hawaii, is doing a residency in internal medicine at Tripler Army Hospital. The Hiatts have an adopted son, Robert.

Dr. Lawrence V. Hofmann, U.S. Public Health Service, Indian Hospital, Gallup, N. Mex., is enjoying his work with the Indians a great deal. "The reservation and the whole countryside is fascinating." The Hofmanns are parents of Larry, Jr., as of October 1969.

Dr. Garth A. Koniver, 2760 W. Country Club Rd., Philadelphia, in the Berry Plan for four years, is now in a radiology residency at Jefferson.

Dr. James A. Meadowcroft, 208 B Elmwood Ave., Narberth, Pa., is taking an orthopedics residency at Jefferson.

Dr. Robert M. Stein, Boston City Hospital, 818 Harrison Ave., Boston, Mass., began a second year residency in internal medicine in July at Columbia-Presbyterian Medical Center in New York.

Dr. Robert M. Weinberg, 3609 Chevy Chase Lake Dr., Chevy Chase, Md., is presently serving as a Staff Associate at the National Institutes of Health.

Dr. Harold A. Yocom, W-904 Lincoln Pl. #1, Spokane, Wash., is scheduled for the army this summer, having completed a year of surgical residency. He plans an orthopedic residency following the service.

1969

Dr. John A. Clement, 7 E. 14th St., Apt. 17X, New York City, writes to announce his marriage to Dr. Linda Coleman, class of 1969. She will do a residency in radiology at St. Vincent's Hospital in New York. Dr. John Clement starts his residency in internal medicine in July also, and at St. Vincent's.

Dr. Alexander C. Gellman starts a surgical residency at New Jersey College of Medicine this year. July fifth is the date for his wedding to Miss Donna Ann Getto. His address, 130 New Road, Apt. P-8 Parsippany, N. J.

Dr. Jan T. Raynak begins a psychiatry residency at Temple University Hospital in Philadelphia in September.

Seminar in Mexico

In the mid of winter, one hundred forty-eight Jefferson alumni, faculty and their families decided to make a break for the tropics. February seventh was the date, and Philadelphia the starting point for a charter flight to Mexico City. The sightseeing, bullfights and exploring Mayan ruins and just relaxing was interspersed with fifteen hours of teaching. Members of the Jefferson faculty and eight Mexican physicians, the latter from the National Institute of Cardiology, the General Hospital of Central Mexico, the Pediatric Hospital and the National Institute of Nutrition, spoke on a variety of medical topics. From Jefferson, Dr. Peter A. Herbut, President, Dr. Gonzalo E. Aponte, Professor of Pathology and Head of the Department, Dr. Richard A. Chambers, Professor of Neurology and Head of the Department, Dr. Jack Edelken, Professor of Radiology, Dr. Russell W. Schaelder, Professor of Microbiology and Head of the Department, and Dr. John H. Killough, Associate Professor of Medicine and Associate Dean for Continuing Education, were on the program. At the end of a week, with the scientific sessions over, some of the group headed for Puerto Vallarta, others for Merida in the Yucatan, and some remained in Mexico City. Those who explored Yucatan, discovered more than ruins—a close look at that statue revealed it was of none other than 1855 Jefferson graduate, Carlos Finlay.

Next trip takes the alumni to Russia in the spring. April 6 to 27 will see the group in Moscow, Kiev, Leningrad, Yalta, Helsinki, Finland, and Copenhagen, Denmark. Still seats, for those interested.

Alumni and faculty head for Mexico.
Obituary

Ellis J. Chapman, 1906
Died May 16, 1970, in Greenville Hospital, Jersey City, N.J. Dr. Chapman was associated with the Greenville Hospital during his entire medical career. He served as one of its founders, as Medical Director and as President of the Board of Directors. He also served as a President of the Hudson County Medical Society. Surviving are his widow, Lillian, and a daughter.

Harry J. Novack, 1906
Died April 23, 1970, in North Miami Beach Hospital, Florida. Dr. Novack, an internist, practiced for sixty-three years in Philadelphia and Ventnor, N.J., until his retirement last year. He is survived by his wife, Gussie, and two children.

John H. Kinter, 1907
Died March 2, 1970, in his 90th year.

William H. Eister, 1908
Died December 15, 1969, in Sunbury, Pa. Dr. Eister served as consulting anesthesiologist at Sunbury Community Hospital, and as physician at Northumberland County Prison for over thirty years. He was medical examiner for the York Life and Metropolitan Life Insurance Companies. He is survived by his wife, Amelia.

Adna S. Jones, 1908
Died April 6, 1970, at Dundee, N.Y. Dr. Jones was a general practitioner.

Edward J. Dray, 1909
Died March 10, 1969, in New Britain, Conn.

William D. Herbert, 1909
Died June 28, 1967.

J. Lawrence Evans, 1910
Died April 14, 1970 in Englewood Hospital, Englewood, N.J. Dr. Evans served on the staff of North Hudson Hospital in North Bergen, N.J., since 1927. He was Chief of Medicine and Medical Director there. Dr. Evans, active in the Medical Society of New Jersey, was a past President of the Hudson County Medical Society. The Evans family claims three generations of Jefferson graduates and relationships that date back to the founder George McClellan. Surviving Dr. Evans are his three sons, Dr. J. Lawrence Evans, Jr. '37, Dr. Robert L. Evans '52, Dr. Henry C. J. Evans, and eight grandchildren, including Dr. J. Lawrence Evans III '61.

William F. Ryan, 1911
Died April 29, 1970 in Lowell, Mass. Dr. Ryan had been in general practice in Lowell since 1913. He was a past President of the Lowell Medical Association, the Middlesex North District and the Lowell Heart Association. He is survived by two sons and two daughters.

Willard H. Steele, 1911
Died May 1, 1970 in Chattanooga, Tenn. Dr. Steele, a surgeon, was a past President of the Chattanooga-Hamilton County Medical Society. He is survived by a son and daughter.

Charles E. Mullin, 1912
Died April 23, 1970, in Cambridge Springs, Pa. Dr. Mullin, who served as college and school physician in the area, was a past President of the Crawford County Medical Society. He served on the staff of the Meadville City Hospital. His wife survives him.

Nicholas Sanabria, 1912
Died March 12, 1970, in Ciales, P.R., at the age of 84 of cerebral thrombosis.

Newton G. Allebach, 1913
Died January 21, 1970, in Hatfield, Pa. Dr. Allebach, whose office was in Souderton, Pa., served on the staff of Grandview Hospital, Quakertown Hospital and Chestnut Hill Hospital. His wife, Elizabeth, and three daughters survive him.

Howard R. Rarig, 1913
Died March 2, 1970 in Wilkes Barre, Pa. Dr. Rarig is survived by his wife, Mary, and two sons.

Elliott H. Metcalf, 1914
Died February 24, 1970, at home in Rockville, Conn. Dr. Metcalf, a surgeon, received the highest honor ever paid a resident of his home town when the Mayor made official proclamation and declared December 24, 1969. "Dr. Metcalf Appreciation Day." The Board of Trustees at Rockville Hospital where the alumni had served for fifty years joined in the proclamation. Dr. Metcalf is survived by his wife, Emily, and two daughters.

Jacob R. Brobst, 1915
Died March 24, 1970, at Bloomsburg, Pa. Dr. Brobst is survived by his wife, Alyce.

Charles C. Massey, 1923
Died November 1, 1969.

Elliott M. Mendenhall, 1923
Died in Dallas, Tex., no date given. Dr. Mendenhall, who specialized in pulmonary diseases, was Clinical Associate Professor of Internal Medicine at the University of Texas Southwestern Medical School at the time of his death. He was Chairman of the Board of Trustees of the Texas Medical Association and a past President of the Dallas Medical Society, Dallas Southern Clinical Society, Texas Tuberculosis Association and the Texas Chapter of the American College of Chest Physicians.

George G. Rogers, 1924
Died October 17, 1966.

Henry C. Schwartz, 1924
Died March 12, 1970 in Berlin, N.J. Surviving are his wife, Mary, a son and daughter.

John Q. Adams, 1925

Kenneth M. Corrin, 1926
Died February 10, 1970, at Wilmington, Del. Dr. Corrin, a psychiatrist and neurologist, had been on the staff at Jefferson prior to moving to Wilmington. In the past years he has done extensive research in epilepsy. Surviving are his wife, Mary, two sons, Dr. Kenneth M. Corrin, Jr., '61, and Dana S. Corrin, and a daughter, Mrs. Allen Cowan.

Louis C. Jacobs, 1931

Max Pepper, 1931
Died January 27, 1970, in Miami, Fla. Dr. Pepper, an internist, had served as Chief of Staff at Cedars of Lebanon Hospital and as a volunteer faculty member at the University of Miami Medical School. Surviving are his wife, Sadye, a son, Dr. Marshall A. Pepper '59, and a daughter.

Saul Steinberg, 1931
Died April 18, 1970, at Montgomery Hospital, Norristown, Pa. Dr. Steinberg was attending psychiatrist at Sacred Heart Hospital and an Associate in Clinical Neurology at Jefferson.
He is survived by his wife, Louise, and two children.

William P. Shields, 1934
Died January 8, 1970.

William H. S. Rinker, 1936
Died October 25, 1969, suddenly, in Philadelphia.

Thomas W. Howell, 1937
Died March 29, 1970, after a long illness, in Columbus, Ohio. Dr. Howell was commander of the Shaw AFB Hospital from 1960 to 1964. During that time the hospital received a Presidential Unit Citation, first given to an Air Force hospital group. He is survived by his wife, Frances, and his children.

Benjamin B. Langdon, 1938
Died April 4, 1970 in Fayetteville, N. C.

William J. Somerville, 1941
Died April 3, 1970 in Presbyterian Hospital, Philadelphia. Dr. Somerville was Director of the student Health School of Nursing at the hospital and Director of Medical Education. He served as an Instructor in Internal Medicine at the University of Pennsylvania. Surviving is his wife, Josephine, survives him.

Charles F. Strunk, 1942
Died March 19, 1970 at Nazareth Hospital, Philadelphia. Dr. Strunk was on the staffs of Frankford, Nazareth and Abington Hospitals in the Philadelphia area. Surviving are his wife, Roberta, a son and daughter.

Benjamin R. Huddell, 1961
Died March 25, 1970 as the result of injuries from an automobile accident. Dr. Huddell, who was an Instructor in Psychiatry at Jefferson, was a resident of Cherry Hill, N. J. His wife, Josephine, survives him.

Moses Behrend, Faculty
Died November 15, 1969, at home in Philadelphia. Dr. Behrend had served as Instructor of Anatomy at Jefferson from 1941 to 1954 and in 1963 attained the rank of Honorary Associate in Surgery. He was graduated from the University of Pennsylvania School of Medicine in 1899. Among his many honors was the presidency of the Pennsylvania Medical Society and the Philadelphia County Medical Society. Dr. Behrend was the Attending Surgeon of the Jewish Hospital of Philadelphia, now Albert Einstein, Northern Division. He was Consultant Surgeon there from 1953.

J. Parsons Schaeffer, M.D., Ph.D.
Professor of Anatomy, Emeritus

In the fifty-eight years which J. Parsons Schaeffer spent at Jefferson, he became one of the most loved respected figures in Jefferson history. Dr. Schaeffer came to Jefferson as Professor of Anatomy and Head of the Department, and Director of the then new Daniel Baugh Institute of Anatomy. By the time he reached Emeritus rank in 1948, both he and DBI were equally integral parts of Jefferson life.

Dr. Schaeffer distinguished himself as an author, educator and scholar. He received his M.D. degree from the University of Pennsylvania in 1907 and three years later earned a Ph.D. degree at Cornell. In 1913 he was appointed Professor of Anatomy at Yale. Jefferson lured him from this position a year later. While at Jefferson, Dr. Schaeffer became President of numerous local and national professional organizations, including the Philadelphia College of Physicians and the American Association of Anatomists. Recognition came frequently, in the form of honorary degrees and invitations to serve on presidential commissions. In 1931 he was co-winner of the American Medical Association’s Gold Medal for his research on the paranasal sinuses. He is best known outside Jefferson, perhaps, for his research on the nose, the paranasal sinuses, the olfactory organ and the lacrymal apparatus. He also earned his reputation as author and editor of several texts on anatomy.

In 1948 Dr. Schaeffer retired from active teaching and administration. He devoted his energies to writing, editing and activity on the Anatomical Board of Pennsylvania, of which he was a leading influence. He still kept an office at Jefferson, and his many friends among his students and colleagues often stopped in to talk to the Professor whom they never forgot, and who never forgot them. The J. Parsons Schaeffer Alpha Omega Annual Lectureship was conceived to honor the Professor of Anatomy.

At the time of Dr. Schaeffer’s death, on February 2, 1970 a colleague posted the following tribute to him. “Professor Schaeffer’s life has become a vital force in the greatness of Jefferson’s tradition and in the enrichment of the heritage of American medicine.”
AWARDS and PRIZES

Awarded at Class Day Exercises on Thursday, June 4, 1970

The Christian R. and Mary F. Lindback Awards for Distinguished Teaching to ANTHONY F. DePALMA, M.D., Professor of Orthopedic Surgery and JOHN RAYMOND SHEA, JR., B.S. (Biol.), M.Sc., Ph.D., Assistant Professor of Anatomy.

The Charles Labelle Prize. Given by Mrs. LaBelle and family in memory of her husband Charles W. Labelle, Ph.D., Assistant Professor of Preventive Medicine (Environmental Hygiene to an outstanding candidate for the degree of Doctor of Philosophy, to

HUGH JAMES CALLAHAN

The Albert Strickler Memorial Prize. To be given annually by Mrs. Albert Strickler to a Senior Student for the best essay on Cancer, to

ARIS MICHAEL SOPHOCLES, JR.

The Henry M. Phillips Prize. Awarded upon the recommendation of the Professor of Medicine to the graduate, in his opinion, most worthy, to

ROBERT CHARLES KANE

With Honorable Mention of: ARLENE RITTWEILER ANDERSON

The Henry M. Phillips Prize. Awarded upon the recommendation of the Professor of Surgery to the graduate, in his opinion, most worthy, to

MARIE VINCENZA OLIVIERI

With Honorable Mention of: ROBERT CHARLES KANE

Surgery Prize. A Gold Medal, awarded by bequest of Dr. Francis W. Shain, for the best essay on a subject pertaining to the Practice of Surgery to

ARIS MICHAEL SOPHOCLES, JR.

Clinical Surgery Prize. A Gold Medal for general excellence in Clinical Surgery, in memory of Francis Torrens Stewart, Professor of Clinical Surgery, the Jefferson Medical College, 1910-1920, to

JOSEPH WEBSTER STAYMAN, III

With Honorable Mention of: JOHN ANTHONY KLINE

Gynecology Prize. In memory of Professor of Obstetrics and Gynecology, Emeritus, Lewis C. Scheffey, M.D., to be given annually by Mrs. Albert Strickler, to a Senior Student, for the best examination, thesis and general excellence in Gynecology, to

JAMES MARK NEUBECK

Orthopedic Surgery Prize. By Professor Anthony F. DePalma, M.D., for general excellence in Orthopedic Surgery, to

CARL FERDINAND WOLFER

With Honorable Mention of: JAMES NORWELL NUTT

Urology Prize. Given by Mrs. Fetter, in memory of Dr. Theodore R. Fetter, The Nathan Lewis Hatfield Professor of Urology during the Junior and Senior Years, including preparation of reports of in and out patients, examinations and final summary of work in Urology, to

DAVID BIDDLE

The Edward J. Moore Memorial Prize in Pediatrics. Given in memory of Edward J. Moore, M.D., to the Senior Student demonstrating the greatest aptitude in Pediatrics, to

MICHAEL KEVIN FARRELL

The Henry Keller Mohler Memorial Prize. Given by Mr. Jesse Hubschman in memory of his wife, Natalie to honor Henry Keller Mohler, M.D., to the Senior Student manifesting the greatest aptitude and interest in the general field of Therapeutics, to

RICHARD DRAKE DAVENPORT

With Honorable Mention of: RICHARD HOWARD GOODWIN, JR.

The Lowell Ashton Erf Prize. Given by Mrs. Erf in memory of her husband, Lowell Ashton Erf, M.D., to the Senior Student demonstrating seriousness of purpose, aptitude and ability in the field of Medicine, to

MARIE VINCENZA OLIVIERI

With Honorable Mention of: SARAH SUNDBORG LONG
Psychiatry Prize. To the Senior Student writing the best thesis on Psychiatry to
RICHARD ELIOT MARTIN
With Honorable Mention of: BARBARA BLOFSTEIN

S. MacCuen Smith Memorial Prize. A Gold Medal given by Mrs. Stuart Lodge Bullivant in memory of her father to the member of the Senior Class judged most worthy of recognition for ability in the field of Otology, to
CHARLES ROBERT SCHLEIFER
With Honorable Mention of: WILLIAM JOHN LEWIS

The Carroll R. Mullen Memorial Prize in Ophthalmology. This award is given annually to the Senior Student who has received the highest grade in Ophthalmology, to
RICHARD DRAKE DAVENPORT

Obstetrics and Gynecology Prize. In Honor of Professor of Obstetrics and Gynecology, Emeritus, John B. Montgomery, M.D., to be given annually by Mrs. Sarah George Miller, to a Senior Student, for the best examination, thesis and general excellence in Obstetrics and Gynecology during the entire curriculum, to
JOHN WINSLOW CARLTON

The Leandro M. Tocantins Memorial Prize. Given by Mr. and Mrs. Milton Hubschman to the Senior Student manifesting the greatest aptitude and interest in the field of Hematology, to
HOWARD DAVID TOFF

The Baldwin L. Keyes Prize in Psychiatry. In Honor of Professor of Psychiatry, Baldwin L. Keyes, M.D., Sc.D., Emeritus, given annually by Mr. and Mrs. Joseph H. Levit to the Senior Student considered most worthy by the Department of Psychiatry, to
ROBERT JOHN MALOVANY
With Honorable Mention of: MARIE VINCENZA OLIVIERI

William Potter Memorial Prize. The income from a bequest of Mrs. Adaline Potter Wear, offered to encourage excellence in the clinical branches of medicine and awarded to that graduate attaining the highest general average in the final two years of the medical course, to
LARRY STEVEN COHEN

Alumni Prize. By the Alumni Association, a Medal for highest cumulative academic record, to
MARIE VINCENZA OLIVIERI

Louis B. Swisher, Jr. Memorial Prize. Awarded upon the recommendation of the Professor of Anesthesiology to a Senior Student who has shown general excellence in the field of Anesthesiology, to
JUDITH PARKER SCHWARTZ

The Lange Medical Publications Prizes. A gift of four Lange Publications books to each of two outstanding Senior Students, to
CHARLES ALBERT WALTERS and JOSEPH ALBERT COMFORT, JR.

W. B. Saunders Company Prize. Medical Publications to the student who has attained the highest scholastic average for the Senior Year, to
RICHARD HOWARD GOODWIN, JR.

The C. V. Mosby Company Prizes. Awarded to five outstanding graduates.
JAMES ROBERT LaMORGESE, JR.
MARTIN ALAN TOBEBY

RONALD A. LEFF
ARLENE RITTWEILER ANDERSON
JOHN FRANCIS McCORMICK

The Richard W. Foster Prize. A prize to be given to an outstanding student for the purchase of books at the Rittenhouse Book Store, to
WILLIAM EDWARD NOLLER

Upjohn Achievement Award. To be given to a Senior Medical Student who shows outstanding all-around achievement in Clinical proficiency, to
MARIE VINCENZA OLIVIERI

Janet M. Glasgow Memorial Scholarship Award of the American Medical Women’s Association, Inc., awarded to the woman who is first in her class,
MARIE VINCENZA OLIVIERI
MEMBERS OF THE GRADUATING CLASS WITH JEFFERSON RELATIONSHIPS

Tribute

Jefferson Medical College Alumni Association

The City of Philadelphia is pleased to extend this Tribute to the Jefferson Medical College Alumni Association which on May 1, 1970, will celebrate its Centennial Anniversary.

Founded by Doctor Samuel D. Gross, one of the most eminent surgeons of his day, the alumni is proud of the significant contribution the college has made in advancing medical care and training.

More than 22,000 physicians have been trained at Jefferson since it was founded in 1824, and 6,800 today are practicing medicine across the country.

Since 1948, the alumni has contributed in excess of $3 million toward Jefferson's primary mission of training physicians and providing good patient care.

The alumni has played an important part in establishing Philadelphia as one of the world's leading medical centers, and Philadelphia hopes it will continue its service in this direction for the common good.

May 1, 1970
ALUMNI CALENDAR

September 14
Opening Exercises, McClellan Hall

September 15
Reception, Marriott Motor Hotel, Atlanta, Georgia in conjunction with the meetings of the American Society of Clinical Pathologists and the College of American Pathologists

October 7
Reception, Sahara Hotel, Las Vegas, in conjunction with the meetings of the American Academy of Ophthalmology and Otolaryngology

October 13
Reception, Conrad Hilton, Chicago, in conjunction with the meetings of the American College of Surgeons

October 21
Dinner, Jefferson Hall, class agents and reunion chairman

November 4
Formal Dinner, Thomas Jefferson University Founders
