Board of Trustees

Facing new challenges in the '80s, the Trustees comment on their role on the Jefferson Board. The profile includes a statement from Chairman Ballard and a biography of each member.

Bryn Mawr Affiliation

Eleven years ago, Jefferson signed a formal agreement with Bryn Mawr Hospital. JAB looks at Bryn Mawr and the junior clerkship experience.

Jefferson Scene

The appointment of Carl M. Mansfield, M.D., as Chairman of the Department of Radiation Therapy and Nuclear Medicine, leads the Medical College news items.

Annual Meeting

Parting from tradition, the Alumni Association's black tie Annual Meeting and Dinner was joined by spouses and guests for the first time. Four pages of photos spotlight the evening.

"If the Board is to function successfully as a catalyst of University deliberation, it must consist of people of diverse backgrounds..."

Chairman Ballard

Under the by-laws, the Board of Trustees is the governing body of the University. It establishes policies, selects senior officers to carry them out and monitors the officers' performance. The Board, in turn, is accountable to the community for the integrity of the institution.

These formal responsibilities are well known. What may not be so well known is how the Board goes about discharging them. That is what I propose to discuss.

Given a mature and stable institution such as Jefferson, the trustees are rarely called on to establish policy from scratch. Rather, their function is to mediate changes in policy without sacrificing the important values that have been established over the years.

The Jefferson Board does this largely by encouraging, facilitating and focusing deliberation within the University. Regular reporting to the Board affords occasions for senior officers (which includes the deans) to organize their thoughts on matters of importance. Questions at Board meetings stimulate the officers to see their problems in a new light, or to take new external developments into account. Trustees sitting on committees and task forces bring new approaches and insights to the discussions.

In addition to the election of the president, senior officers and department heads by formal Board action, individual trustees serve on search committees for these positions. They bring to the search process extensive experience in sizing up candidates for executive and administrative positions, and their participation assures candidates that the Board will fulfill any representations made during the search interviews.

Jefferson is fortunate in having an exceptionally capable president and exceptionally capable senior officers. Recognizing the strength of these leaders, the Jefferson Board delegates broad authority to them to conduct the University’s business. By the same token, the Board expects and receives full and candid reports of the University’s operations. Our financial reporting is on a par with the best in industry, and our educational and health service statistics are unusually comprehensive.

The Jefferson Board operates with a minimum of standing committees, on the theory that issues deserving debate at the trustee level should normally be debated by the entire Board. The only regular committees are in the areas of finance (including investment), board nominations and development (fund raising).

When there is an issue that can’t be handled satisfactorily by the full Board, we organize task forces, which may include senior officers, members of the faculty, students and others, as well as trustees. Examples are the recently disbanded task force for university planning, a small group concerned with the future of
Children's Heart Hospital, and a broadly based task force on health services. Right now there are questions pending in education and research that may well call for review by similar bodies.

At present, there are approximately two dozen trustees, not including three emeritus trustees. Virtually all of them attend Board meetings regularly. The level and quality of Board participation compares most favorably with other institutions.

If the Board is to function successfully as a catalyst of University deliberation, it must consist of people of diverse backgrounds who are nevertheless able to join in developing a group position. They should have a combination of experience and judgment adding up to wisdom. Articulateness, tact, courtesy and a sense of humor are all helpful; but wisdom is the most helpful of all.

Trustee selection involves the Nominating Committee, the President and the Chairman. Names for consideration come to the committee from various sources. The committee discusses them in relation to the current make-up of the Board. When a consensus is reached, the candidate is invited to visit Jefferson, meet with the Chairman of the Board, the President, the Chairman of the Nominating Committee, and perhaps a few other officers and trustees. If the meeting goes well, the candidate's name is submitted to the trustees for election.

Trustees are not expected to represent constituencies. All of them are viewed as trustees of the entire University. There are no quotas, but one of the responsibilities of the Nominating Committee is to be sure that the Board includes a wide range of viewpoints.

By long standing custom, three trustees are designated by the alumni of Jefferson Medical College, and the President of the Women's Board sits as a trustee during her term in that office.

Board meetings are monthly except in August, and the deliberations generally last an hour and a half. In addition to the trustees, the senior officers, the president of the medical staff, and others having particular knowledge of concern with items on the agenda attend the meetings. The atmosphere is informal, and wide-ranging discussion is encouraged. Matters are not put to a vote until a consensus has been reached, and divided votes are so rare as to be virtually non-existent.

Jefferson can be proud of its ability to recruit able and interested people to serve as trustees. This is due in no small measure to the collegiality that characterizes the University. The trustees, the officers, the deans and the department heads respect one another's opinions and have confidence in one another's loyalty to the University. This makes it a pleasure to serve on the Jefferson Board.

FREDERIC L. BALLARD, ESQ.
Chairman, Board of Trustees

Frederic Ballard joined the Jefferson Board of Trustees in 1965 and was elected Chairman in 1977.

Mr. Ballard is an attorney with the law firm of Ballard, Spahr, Andrews and Ingersoll and is a member of the Philadelphia, Pennsylvania and American Bar Associations. He is also Director of Provident National Bank, Provident Mutual Life Insurance Company and Peirce-Phelps Inc.

A former Trustee and member of the Executive Committee of United Way of Southeastern Pennsylvania, Mr. Ballard is a former member of the Pennsylvania State Board of Public Welfare. He is also former Director of the Greater Philadelphia Movement and former Chairman of the Board of Overseers of the University of Pennsylvania Law School.

A graduate of the University of Pennsylvania and its Law School, Mr. Ballard entered the practice of law in 1942. He served with the United States Navy from 1943 to 1946.

In his free moments, Mr. Ballard enjoys gardening. He and his wife are residents of Philadelphia, and are the parents of three daughters and one son.
WILLIAM P. DAVIS, III

Term Trustee

"In my view, Jefferson should stay on the course which we charted two years ago in the Strategic Plan of 1981. Briefly, this means that the institution should continue to strive for ever-higher quality as an academic health center, but with greater emphasis on research activities. The University's financial stability must be maintained, with any innovations or expansion being governed accordingly."

A member of the Board of Trustees since 1966, William Davis represents over 50 years of experience in the Philadelphia-area financial and business communities.

Mr. Davis is currently a Consultant at Drexel University, having served as Vice President for University Relations. He is also a Director of the Drexel/Debenture Trading Fund, and a member and Secretary of the Civil Service Commission of Lower Merion Township.

The former Vice Chairman and Director of the First Pennsylvania Bank/Corporation, Mr. Davis also is a former Director of Food Fair Inc., Atlantic International Bank and Adela Investment Company.

In the community, he served as General Campaign Chairman of the 1968 United Fund Torch Drive of Philadelphia and as Director of the YMCA of Philadelphia.

JOAN SCOTT

Term Trustee

"A trustee has the responsibility with the administration to analyze Jefferson's past, continually examine the present, and to use this knowledge to plan for its future. He should be mindful of Jefferson's ideas, its standards and its dreams. He should always be aware of how Jefferson can best serve the community in an ever changing society."

A Trustee since 1975, Joan Scott serves on the Board of Directors of Industrial Valley Bank, La Salle College, Colby-Sawyer College, American Oncologic Hospital and the Zoological Garden of Philadelphia.

A graduate of the George School and Colby-Sawyer College, Mrs. Scott is formerly associated with Abington Memorial Hospital, Episcopal Academy, the Print Club, the Visiting Nurse Society of Philadelphia and Montgomery Counties, Jenkintown Day Nursery and the Brandywine River Museum.

ORVILLE H. BULLITT, JR., Ph.D.

Term Trustee

"For many years, Jefferson has maintained a reputation as one of the leading medical institutions of the United States. Today our reputation is growing; at the same time we face ever more complex challenges ranging from ethical and moral questions to issues of quality, methodologies of delivery, and costs of health care. Looking at our efforts, our programs, and the Jeffersonians involved at every level, I am confident that Jefferson will continue to grow."

Orville Bullitt holds a very special link with Jefferson as the great-great-grandson of Samuel D. Gross, M.D. 1828, the renowned Jefferson Professor of Surgery from 1856 to 1882. Chairman of the Board's Nominating Committee, Dr. Bullitt was first elected a Trustee in 1971.

Technical Manager of the Finishes Division of E.I. duPont DeNemours and
Company Inc. in Wilmington, Delaware, Dr. Bullitt is Director of the Penn Virginia Corporation. A 1941 graduate of the University of Pennsylvania, he earned an M.S. in chemistry and a Ph.D. in organic chemistry from the University of Illinois.

After serving as a research assistant at the University of Pennsylvania and the University of Illinois, Dr. Bullitt joined the duPont Company. He has held various positions there since 1945, including chemist, supervisor, research supervisor, research manager, laboratory director, research and development manager, and administrative manager.

Dr. Bullitt is a member of Phi Beta Kappa, Sigma Xi, Delta Psi Social Fraternity and The Philadelphia Club. In his spare time, he enjoys horticulture, trout fishing and travel. He and his wife are the parents of four sons, and are residents of Berwyn.

ALAN K. CAMPBELL, Ph.D.

Term Trustee

"I see the primary job of a Board member to be to provide what support he can in helping the University achieve its goals. Such support can take many forms; aiding in the acquiring of financial resources, participating in the selection of University leaders, providing expert advice when requested, and helping the staff to represent the University to its many and varied constituencies."

Alan Campbell joined the Board of Trustees in February, 1982 with a diversity of professional experience, having pursued successful careers in academia, government and the private sector.

As Executive Vice President for Management and Public Affairs of ARA Service Inc., Dr. Campbell is responsible for the personnel, public affairs, administrative services, real estate and marketing department of the company. He is also a member of ARA's Management Committee and Board of Directors.

Before joining ARA in 1980, Dr. Campbell was Director of the Office of Personnel Management, the central personnel agency for the United States Government, and was appointed by former President Jimmy Carter. Prior to that position he served as Chairman of the Federal Civil Service Commission.

Before entering government, Dr. Campbell was Dean of the Lyndon B. Johnson School of Public Affairs at the University of Texas and Dean of the Maxwell School of Citizenship and Public Affairs at Syracuse University. He was also Chairman of the political science department at Hofstra University and served on the faculties of Syracuse, Columbia and Harvard Universities, the latter from which he received his Ph.D. in political economy and government in 1952.

Dr. Campbell received his undergraduate degree from Whitman College and his M.P.A. (Volker Fellow) from Wayne State University. He is also the recipient of honorary degrees from Whitman College and Ohio State University.

The Trustee is active in professional and civic organizations. He is a member of the American Political Science Association, the American Society of Public Administration, the National Academy of Public Administration Council and the National Municipal League. He is a member and former President of the National Association of School Public Affairs and Administration.

Dr. Campbell serves on the Executive Committee and Board of Governors of the Pennsylvania Economy League, the Research Advisory Committee to the Committee for Economic Development, a Board member and Chairman of the Development Committee of WHYY-TV, a Board member and Chairman of the Finance Committee of Public/Private Ventures and a Board member of the Institute of Public Administration.

The author of numerous books and articles on government and education, Dr. Campbell belongs to Phi Beta Kappa. The Trustee and his wife have two children, and are residents of Wynnewood.

DORRANCE HAMILTON

Term Trustee

"Financing of the new technologies will be the biggest challenge for Trustees in the '80s. With our new hospital built and operational and older buildings renovated, it is now time to look for innovative access to capital for equipment, and this equipment should also be an income producer if we are to succeed in the next decade."

Dorrance Hamilton was re-elected to the Board of Trustees in 1972, having served as the first female Board member from 1969 during her term as President of the Women's Board of Thomas Jefferson University Hospital.

President of the Little House Shop in Havertford, Mrs. Hamilton is a Director of the Campbell Soup Company. She is also a Trustee of the Philadelphia College of Art and Vice President of both the Community Clothes Charity and the Powel House Ladies Committee.

A member of the Acorn Club of Philadelphia and the Colony Club of New York, Mrs. Hamilton spends her spare time with greenhouse horticulture, tennis, golf and needlepoint.

A graduate of Foxcroft School in Middleburg, Virginia, the Trustee and her husband, Samuel, live in Wayne and are the parents of two sons and a daughter.
JOSEPHINE C. MANDEVILLE

Term Trustee

"There is an enthusiastic spirit of dedication, determination and loyalty that exists at Jefferson, which is quite rare and highly contagious. I believe that it is the striving for excellence in providing quality care which will propel Jefferson forward in the '80s. One of the responsibilities of a trustee is to help to provide an atmosphere where academic growth is stimulated, research is fostered, and goals are accomplished and recognized. I feel confident that the objectives set forth in the Strategic Plan will be achieved, and that the '80s will see the continued development of Thomas Jefferson University as an outstanding academic health center."

Josephine C. Mandeville has worked closely with the educational system in New York and Philadelphia.

Elected a Jefferson Trustee in 1979, she is on the Board of Episcopal Academy and Mercy Catholic Medical Center. A Board member of the Connelly Foundation, she is a Founding Member and member of the Board of Governors of The Churchill School in New York. In addition, she is a member of the Board of Directors of the Atlantic City Racing Association.

A past Trustee of Seton College, she is former Vice President of the Board of Trustees of The Montessori School of Westchester, New York, and a Founding Member of the New York Institute for Child Development. She was an educational consultant and therapist for children with learning difficulties for more than 10 years in both New York and Philadelphia.

Currently, Mrs. Mandeville is a Realtor-Associate for Marshall and West Inc., and an insurance broker for Mandeville Associates Inc., Bala Cynwyd, Pennsylvania.

A graduate of Rosemont College, Mrs. Mandeville is a former member of that institution's Alumnae Board. She is also a member of the President's Advisory Council of the College of New Rochelle, from which she received her M.S. in special education in 1976. She pursued graduate studies at Bryn Mawr College and at the Harvard Graduate School of Business, and is currently in the MBA program at Eastern College.

Mrs. Mandeville belongs to The Harvard Club of Philadelphia. In her free time, she breeds and shows Portuguese water dogs, and plays golf. She and her husband live in Haverford and have three children.

HOWARD GITTIS, ESQ.

Term Trustee

"Thomas Jefferson University is a great institution which, like all other institutions in the health care field, is facing turbulent times. In the next several years the University will increasingly feel pressure from various directions to reduce costs, including costs of research and teaching. The trustees as the temporary custodians of the University must endeavor to position the University to enable it to maintain its high standards of research, teaching health care professionals and providing superior medical care to the patients at its hospital."

Since graduation from the University of Pennsylvania in 1958 with a degree in law, Howard Gittis has been active in the Philadelphia legal community.

An attorney with Wolf, Block, Schorr and Solis-Cohen, Mr. Gittis is a member of that firm's Executive Committee. A member of the Philadelphia, Florida and American Bar Associations, he is a permanent member of the Judicial Conferences of the Third Circuit and the American College of Trial Lawyers.

In addition, Mr. Gittis is the 56th Chancellor of the Philadelphia Bar Association and a former member of its Board of Governors. He is a member of the Pennsylvania Bar Association's House of Delegates and the American Law Institute.

Mr. Gittis also received his undergraduate degree from the University of Pennsylvania. He was elected to the Jefferson Board of Trustees in 1980, and is a Trustee of Temple University and of the Federation of Jewish Agencies of Greater Philadelphia.

The attorney is a member of the Board of Directors of FNC Financial Corporation and its wholly owned subsidiary, Provident National Bank. He is also a member of the Board of Directors of MacAndrews and Forbes Group Inc.; After Six Inc.; Harron Communications Corporation; and the Philadelphia Orchestra Association.

In 1971, Mr. Gittis was admitted to the Supreme Court of the United States. He is the former Law Secretary to the Supreme Court of Pennsylvania, a former member of the Board of Directors of the Trial Lawyers Association and former Chairman of the Criminal Law Committee.

A tennis player, the Trustee belongs to the Locust Club and the Philmont Country Club. He is also a member of the Lawyers Club of Philadelphia, The Socialegal Club and Tau Epsilon Phi Fraternity.

Mr. Gittis and his wife have three children and reside in Elkins Park.
ALAN J. DALBY

Term Trustee

"As a new member of the Board of Trustees of Thomas Jefferson University, I bring to the Board the sense of community responsibility of an international corporation in the health care business with headquarters in Philadelphia and my own background as a corporate executive in the area of pharmaceuticals and medicine. I have a great interest in Jefferson, as a university and as a hospital, and I look forward to working with the other Trustees on the issues that Jefferson will face."

A new member of the Jefferson Board, Alan Dalby was elected as Trustee in January. As Executive Vice President of SmithKline Beckman Corporation and President of Smith Kline & French Laboratories, Mr. Dalby has worked closely with the health care community since joining the Corporation in 1958.

In his current position, Mr. Dalby is responsible for the Corporation's animal health and chemicals businesses as well as its pharmaceutical products business.

Mr. Dalby also serves on the SmithKline Beckman Board of Directors and is a Trustee of the SmithKline Foundation.

A chemistry graduate of Paisley College in Scotland, Mr. Dalby is Director of the Pharmaceutical Manufacturers Association and is a member of the St. Andrew's Society.

Mr. Dalby enjoys golf, tennis, skiing and gardening, and is a member of The Union League and the Aronimink Golf Club.

The father of two sons, Mr. Dalby is a resident of Devon.

EDWARD C. DRISCOLL

Term Trustee

"In my view, the Trustees' major challenge in the '80s will be to see that Jefferson is able to adapt to and grow in the rapidly changing climate created by government's active involvement in control and reduce costs in the interrelated fields of health care and medical education."

In his ninth year as a Trustee, Edward Driscoll is Chairman of the Board's Finance Committee. Currently, he is Chairman of the Board and Chief Executive Officer of L.F. Driscoll Company in Bala Cynwyd. Involved in the concerns of other area health institutions, Mr. Driscoll serves on the Board of Trustees of Children's Heart Hospital and as a member of the Advisory Council of Wills Eye Hospital.

Director of the General Building Contractors Association, he is a member of the Chief Executives Organization and an Arbitrator with the American Arbitration Association.

In the community, Mr. Driscoll is a Trustee of International House, a past Director of the Chestnut Hill Community Fund Drive and a former member of the Young Presidents' Organization, of which he is a past Chapter Chairman.

A 1951 graduate of the University of Pennsylvania, Mr. Driscoll served in the United States Navy from 1951 to 1954, finishing as a Lieutenant.

Mr. Driscoll belongs to The Philadelphia Club, the Philadelphia Cricket Club, The Union League, Sunnybrook Golf Club and Seaview Golf Club. Married, he is the father of two sons and a daughter.

THOMAS A. COOPER

Term Trustee

"As a premier health service institution, Jefferson can play a growing role in the decade ahead. There will be considerable changes in technology as well as delivery systems. The successful institution will depend on the combination of creative and committed medical professionals, management professionals and informed trustees. Such a team will be successful if it is open-minded and forward-looking."

Thomas Cooper, President and Director of The Girard Company and Girard Bank, was elected to the Board of Trustees in May, 1982.

Mr. Cooper joined Girard in 1962 and has held numerous positions in the consumer, operations and corporate areas of the bank. Before his election as President in 1980, he served as Vice Chairman of the Board of both The Girard Company and Girard Bank. The
Trustee is credited with being the spearhead behind the dynamic growth of the "GEORGE Automatic Teller" in the Philadelphia area.

Mr. Cooper serves the community in various professional and civic capacities. He is a member of the Board of the Philadelphia Rehabilitation Plan and the Philadelphia Mortgage Plan. He is Chairman of the Southeastern Pennsylvania Chapter of the American Red Cross, and a member of the Board of Directors of Haverford College.

With degrees from Haverford College and Drew University, Mr. Cooper attended the Graduate Management Program of the Wharton School of the University of Pennsylvania and the Management Development Program of the Harvard Business School.

Mr. Cooper and his wife live in the Huntingdon Valley area and are the parents of six children.

"The rugged financial structures of the recent past have resulted in the demise of many venerable institutions long revered for their services to the community. It is the primary responsibility of Jefferson's Trustees to provide such planning policies as will insure that this University, in all its parts, will have the material resources and the personnel to continue to provide superbly trained medical clinicians, excellent medical care and fine research at the cutting edge of its areas of medical interest."

In 50 years of professional service, Gustave Amsterdam and his accomplishments are well known in the Philadelphia business community. Former Chairman of the Board of Bankers Securities Corporation, he is now a Consultant to that firm and a practicing Attorney-at-Law in Philadelphia.

Mr. Amsterdam is at present, or was formerly, associated as an Officer or Director of numerous business concerns, which include Philadelphia Electric Company, First Pennsylvania Bank, Western Savings Fund Society, Bankers Bond & Mortgage Company, Bonwit Teller & Company, Benjamin Franklin Hotel Company, Maison Blanche-New Orleans, Comcast Corporation, Atlantic Theatres Inc., City Stores Company, W. & J. Sloane Company and the Albert M. Greenfield Realty Company.

A 1930 alumnus of the University of Pennsylvania, Mr. Amsterdam graduated from that institution's Law School in 1933 and was a Goven Fellow of the Law School following graduation. He is a member of the American, Federal, Pennsylvania and Philadelphia Bar Associations, and the American Law Institute.

Mr. Amsterdam joined the Jefferson Board in 1962 and currently serves as Vice Chairman. He is also a Life Trustee of the University of Pennsylvania and a member of the Board of Overseers of the University of Pennsylvania Museum and Graduate School of Fine Arts.

An active contributor to the growth of Philadelphia's humane and cultural institutions, the attorney's community positions include Chairman of the Philadelphia Redevelopment Authority for 11 years, Director of the University City Science Center, a member of the Board of Managers of The Franklin Institute, a member of the Board of the Philadelphia Orchestra Association and Academy of Music. He was also involved in United Way, the Federation of Jewish Agencies and the Greater Philadelphia Movement.

Mr. Amsterdam is Director of the Pennsylvania Economy League, a member of the Board of the Philadelphia Partnership, and a co-Chairman and member of the Executive Committee of the Philadelphia Urban Coalition.

The Trustee has also demonstrated concern for improved health sources and education in the Greater Philadelphia area. He is Chairman of the Diagnostic and Rehabilitation Center of Philadelphia and a Director and former President of Research for Better Schools Inc. (a regional educational research laboratory).

Mr. Amsterdam and his wife have one son and four grandchildren. They live in Philadelphia.

GUSTAVE G. AMSTERDAM, ESQ.
Vice Chairman
As a very new member to the Board of Trustees, my first objectives are to listen, learn, and provide support and counsel where appropriate. The quality of the professional management team at Jefferson, supported by a very high caliber Board of Trustees, is an exciting magnet to an outsider. Quality of service, dedication of people, excellent facilities and a stated strategic plan are all in place at Jefferson. This is a magnificent heritage and launching platform to approach the changing dynamics of the next 20 years.

Robert McClements offers the Jefferson Board of Trustees decades of experience from his solid business background. President and Chief Operating Officer of Sun Company Inc., he joined the company 18 years ago as a Plant Manager of one of its subsidiaries.

After graduation from Drexel University in 1952, Mr. McClements entered the business community immediately as a Project Engineer for the Foster Wheeler Corporation. He then joined the Catalytic Construction Company prior to his beginning at Sun.

Elected to the Jefferson Board last October, the Trustee is also Director of the First Pennsylvania Corporation and of the First Pennsylvania Bank.

Mr. McClements is a Trustee of Drexel University and Grove City College, as well as Director of the Pennsylvania Economy League (Eastern Division), the Perjerdel Council and the National Association of Manufacturers, American Petroleum Institute, Greater Philadelphia Partnership, Riverfront Development Corporation and Local Initiatives Support Corporation (LISC) —Philadelphia Policy Board.

He pursued graduate courses at Columbia University and attended Harvard Business School's Advanced Management Program.

He and his wife live in Malvern and have two daughters.
Staff of the Hospital are members of the College Faculty; the College supplies the Faculty of the Graduate School; and much of the teaching in the College of Allied Health Sciences is under the direction of the Medical School Faculty. Each division, in turn, enriches the whole. The basic need of the Medical School is adequate support to enable its Faculty to continue to maintain excellence in teaching, in patient care and in research."

John H. Hodges, M.D. '39, the Ludwig A. Kind Emeritus Professor of Medicine, has spent nearly his entire professional career at Jefferson. Following graduation from the Medical School, he interned at Philadelphia General Hospital, and except for that period and a year in general practice in West Virginia, he has been at Jefferson.

During his tenure at the Medical School, Dr. Hodges served in numerous clinical and administrative capacities. He is a former Attending at the TJU Hospital and the past Director of the Division of General Medicine of the Department of Medicine. He also is past Acting Chairman of the Department of Medicine. From 1944 to 1972, he directed the course Clinical Laboratory Medicine and for 20 years, was Director of the Mohler Physicians Offices.

Popular among the students, Dr. Hodges received yearbook dedications in 1951 and 1962. In addition, he is the recipient of the Christian R. and Mary F. Lindback Award (1966) for distinguished teaching. Past President and Vice President of the Jefferson Alumni Association, Dr. Hodges is a 1935 alumnus of Catholic University of America, from which he received their Alumni Achievement Award in 1966.

Currently, Dr. Hodges serves as a Consultant in Hematology to Lankenau Hospital. He is a former Attending at that medical center and at the Veterans Administration Hospital.

A Diplomate in the American Board of Internal Medicine, Dr. Hodges is a Life Fellow in the American College of Physicians and belongs to a number of other professional medical societies. He serves as an S. Weir Mitchell Associate and Treasurer of the College of Physicians of Philadelphia. A member of the Physician’s Advisory Committee of United Way, Dr. Hodges is active in the Hospital Trustees Association of Pennsylvania.

Past President of the J. Aitkin Meigs Medical Association, the physician belongs to Phi Eta Sigma, Alpha Omega Alpha and Sigma Xi. He is also the author of over 20 scientific articles. The physician’s hobbies include fishing, photography, horticulture and antique gun collecting. He is married to the former Elizabeth Wallace, daughter of the late William A. Wallace, M.D. '20. The couple resides in Wynnewood and has one son.

SAMUEL A. BANKS, Ph.D.
Term Trustee

"The highly competent and creative community of health care professionals provides unusually significant medical services to the Philadelphia area. Of even greater importance, however, is its impact on the near future of medical education and care throughout our nation and our civilization. As a remarkably forward-thinking and wisely managed constellation of institutions, Jefferson will occupy a pivotal position in dealing with the issues and opportunities that will transform medicine in the next 30 years."

The background of Samuel Banks reveals life-long service to the advancement of education. President of Dickinson College since 1975, Dr. Banks received his M.Div. degree in theology from Emory University. His Ph.D. in psychology and religion was earned at the University of Chicago and he received a D.Litt. from the College of Charleston. He completed further post-doctoral studies, including clinical experience, at a number of educational health centers. In 1950, he was ordained a Minister of the United Methodist Church.

Before assuming his post at Dickinson, Dr. Banks was an Adjunct Professor of Behavior Sciences at Pennsylvania State University College of Medicine. Previously, he was Chief of the Division of Social Sciences and Humanities at the University of Florida College of Medicine. At that time, he held faculty appointments in the humanities and religious departments in the College of Arts and Sciences and was a member of the graduate faculty of the University.

Dr. Banks was elected to the Jefferson Board in 1979. He also serves as Trustee to Dickinson College and Bethune-Cookman College. He is a member of the Executive Committee of the Pennsylvania Association of Colleges and Universities. He is also a member of the National Board of Consultants, the National Endowment for the Humanities and the Board of Directors of the Institute on Human Values in Medical Education. Dr. Banks is Chairman of the Board of Directors of the Central Pennsylvania Consortium.

The Trustee has served as President of the Executive Council of the Society for Health and Human Values; President of the District V Mental Health Board (Florida) and as a member of the National Commission of the United Ministries in Higher Education.

In 1978, Dr. Banks received the Liberty Bell Award from the Pennsylvania Bar Association. Over the past two decades, he has conducted several research projects involving the humanities and medicine, has written numerous articles and has contributed to a number of books on the subject.

A member of Phi Beta Kappa and Omicron Delta Kappa, Dr. Banks belongs to The Union League, the University Club of New York and The Players of New York. A resident of Carlisle, Dr. Banks explores magic in his spare time. He and his wife have two children.
WILLIAM W. BODINE, JR.

Life Trustee

"I predict that at the turn of the century, when we speak of Jefferson, we will talk about the quality of the nation's most distinguished medical faculty; we will talk about the quality of the health care services being rendered by the country's or possibly the world's largest and most productive alumni body; and we will talk about the quality of the student bodies of Jefferson's various colleges."

A recognized leader in Philadelphia business, civic and philanthropic endeavors, William Bodine has close ties with Jefferson, having served as President of the Medical College from 1959 to 1966. A Life Trustee, he was elected Chairman of the Board of Trustees of the University in 1970, a post he held for seven years.

Mr. Bodine's tenure at Jefferson was highlighted by a number of accomplishments. He was instrumental in the institution's development and expansion, the success of which Jefferson now enjoys. The Trustee received an Honorary Doctor of Letters from Jefferson in 1967.

Mr. Bodine is currently President of the World Affairs Council of Philadelphia and will become Board Chairman of that organization later this year. Formerly, he was President of Arthur C. Kaufmann and Associates Inc., a management consulting firm.

In the community, Mr. Bodine serves as a member of the Board of Trustees of the Free Library of Philadelphia and as a Trustee of the YMCA Foundation of Philadelphia and Vicinity. He is Chairman of the Board of the University City Science Center.

In addition, he is a Board member of the United Nations Association of the USA, WHYY-TV (Channel 12), the Philadelphia Urban Coalition, the United Way of Southeastern Pennsylvania, the Elwyn Institutes, the Crime Commission of Philadelphia, the Philadelphia Drama Guild, the Smithsonian Institution, the University of Pennsylvania Press and CENTRUM Inc.

A 1942 graduate of Harvard University, Mr. Bodine served the military for 12 years, retiring as a Lieutenant Colonel, General Staff Corps and an aide to General Dwight D. Eisenhower. Among his decorations are the Legion of Merit, Croix de Guerre and the Purple Heart. He also spent six years as Commanding Officer of the 166th Field Artillery Battalion, Pennsylvania National Guard.

The Trustee was the recipient of the American Academy of Achievement's Golden Plate Award in 1974 and was chosen Young Man of the Year in 1965 by the Junior Chamber of Commerce.

Mr. Bodine is a member of the Philadelphia Racquet Club, The Union League, The Philadelphia Club, the Gulph Mills Golf Club and the Harvard Club of Philadelphia. His interests include travel, golf, tennis and international affairs. He and his wife reside in Villanova and have four children.

with interest and care. I hope that the continued improvement in Jefferson's financial portfolio will hold and that its good financial standing will bear fruit for the University."

After graduation from Princeton University, Brandon Barringer entered the financial world and was employed by The Pennsylvania Company for Insurances of Lives and Granting Annuities, rising to Vice President in Charge of Investments.

In 1949 he joined the Curtis Publishing Company and he continued as Treasurer for 15 years. He has served as a special Consultant to the Secretary of State and as a Consultant to the Economic Cooperation Administration Mission to the United Kingdom.

Mr. Barringer is now retired, but continues as Chairman of the Barringer Cater Company and of the Cass County Company. He serves on the governing boards of Lehigh Valley Railroad, the Wellington Fund, the Curtis Publishing Company and the Philadelphia Suburban Transportation Company.

Long interested in education and health care, Mr. Barringer is an Emeritus Trustee of The Franklin Institute and the Academy of Natural Sciences, and Emeritus Manager of the University Museum of the University of Pennsylvania. He is also the former Director of the Philadelphia Division of the American Cancer Society, Community Chest and the Hospital Council of Philadelphia.

The Barringer family has been connected with Jefferson Medical College for seven decades. The Trustee's father, the late Daniel Moreau Barringer, was appointed a Life Trustee in 1901. The current Mr. Barringer joined the Board in 1936 and currently holds the title of Emeritus Trustee. He served as Chairman of the Finance Committee for many years and was particularly instrumental in guiding the financial destiny of Jefferson during its expansion. The Barringer Residence Hall at 10th and Walnut Streets was named in honor of him in 1976.

The Trustee served as Deputy Chief of the Department of Statistical Control in the United States Air Force from 1942 to 1945.

Mr. Barringer belongs to Phi Beta Kappa, the Wilderness Club, and enjoys archaeology and meteoritics. He and his wife each have three daughters and a total of 11 grandchildren. They are residents of Wayne.

BRANDON BARRINGER

Emeritus Trustee

"As an Emeritus Trustee, I follow all Jefferson reports..."
HON. A LEON HIGGINBOTHAM, JR.

Emeritus Trustee

“During the last three decades I have observed Thomas Jefferson University's steady progress in serving the health care needs of all of the region's citizens. Jefferson has expanded its long recognized excellence as a national center for probing the frontiers of medical and health-care research, while at the same time perpetuating its impact in training practicing physicians who bridge the gap from academia to the ill patient.”

As a Judge for the United States Court of Appeals, A. Leon Higginbotham is one of the most respected men in the Philadelphia area. In each of his official Bar Association endorsements, he was one of the youngest persons to be recommended by each respective Judiciary Committee.

Mr. Higginbotham has served as a Judge 13 years on the United States District Court prior to his present position.

A graduate of Antioch College and Yale Law School, Mr. Higginbotham has received honorary degrees from more than 30 institutions of higher learning.

In addition to his judicial responsibilities, Mr. Higginbotham serves as an Adjunct Professor of Sociology at the University of Pennsylvania, where he is also a Life Trustee. He is a Citizen Regent of the Smithsonian Institution and a Trustee of the National Geographic Society. He first joined the Jefferson Board of Trustees in 1965 and now holds the title of Emeritus Trustee.

Mr. Higginbotham was selected as one of the Ten Most Outstanding Young Men in America by the United States Junior Chamber of Commerce. He also received the Arthur S. Flemming Award given to outstanding young men in government. In 1962, the late President Kennedy nominated him for a seven-year term as a Commissioner for the Federal Trade Commission.

Mr. Higginbotham was a partner in the law firm of Norris, Green, Harris and Higginbotham from 1954 to 1962 and is a former Philadelphia Assistant District Attorney. He has served as Special Deputy Attorney General for the Commonwealth of Pennsylvania, as Commissioner of the Pennsylvania Human Relations Commission and as a field examiner-trainee with the National Labor Relations Board.

He is a former member of the Board of Directors and a past President of the Philadelphia Branch of the NAACP. He has also served on the boards of the Antioch College, the Academy of Natural Sciences, the Citizen's Council on City Planning, the World Affairs Council and the Big Brothers of America.

Mr. Higginbotham enjoys tennis in his spare time. He and his wife live in Philadelphia and are the parents of two sons and a daughter.

EDWARD J. DWYER, ESQ.

Term Trustee

“Significant changes are taking place in the field of medical education; the field of health care delivery services, especially in their quality and cost effectiveness; and in the field of medical research and development. Our challenge is to stay on the cutting edge of these changes so Jefferson will continue to excel or lead the way in each of these fields. A trustee's responsibility is to participate in both the short and long-term planning of activities and policy decisions to assure that we have an organization staffed with qualified, talented and dedicated people; and the facilities and finances to meet the challenge.”

A respected name in the Philadelphia business community, Edward Dwyer is the former President and Chairman of the Board of E.S.B. Inc.

Currently, Mr. Dwyer holds Directorships at Armstrong World Industries Inc.; Philadelphia Manufacturers Mutual Insurance Company; Quaker Chemical Corporation and Selas Corporation of America.

He is a former member of the Board of Managers of Germantown Hospital, St. John's College and the Greater Philadelphia Movement.

Mr. Dwyer is active on the governing boards of a number of other professional and community organizations. He is Honorary Vice President and past Chairman of the National Association of Manufacturers. He is also a Trustee, Campaign Chairman and past President of United Way of Southeastern Pennsylvania.

Past President of The Union League of Philadelphia, Mr. Dwyer is a member of the Board of Directors of the Historical Society of Pennsylvania and the Bucks County Historical Society. He is also an honorary member of the Board of Managers of the Franklin Institute.

Mr. Dwyer joined the Jefferson Board in 1973. The following year, he served as Chairman of the Jefferson Sesquicentennial Campaign.

The Trustee earned his baccalaureate degree from St. John's College and an M.M.E. from Johns Hopkins University. He graduated from George Washington University Law School in 1938.

Mr. Dwyer holds membership in The Union League and Huntingdon Valley Country Club. In addition to golf, he likes to fish and read. Mr. and Mrs. Dwyer live in Gwynedd Valley and have two children.
CARL ZENZ, M.D.

Alumni Trustee

"Of important note is the strong and consistent input from the Alumni Trustees during Board deliberations. I have found these meetings to be stimulating in all respects. They cover a broad spectrum of events and future plans, all on behalf of nurturing and contributing to the many strengths of Thomas Jefferson University. The Trustees are an extremely devoted group, dedicated to the best patient care, teaching and research."

A Consultant in Occupational Medicine in Milwaukee, Dr. Zenz is a 1949 graduate of Jefferson Medical College. He received his undergraduate education from the University of Wisconsin and obtained an Sc.D. from the University of Cincinnati.

Certified by the American Board of Preventive Medicine in Occupational Medicine in 1962, Dr. Zenz is currently a Clinical Professor of Preventive Medicine at the Medical College of Wisconsin and an Associate Professor of Preventive Medicine at the University of Illinois, Chicago. On the active or consulting staffs of many Milwaukee-area hospitals, the physician also serves as a Consultant to the State of Wisconsin Division of Health.

Dr. Zenz, who was elected to the Jefferson Board of Trustees by the alumni in 1977, is active in numerous professional organizations. Former President of the American Academy of Occupational Medicine, he is former Vice President of the American College of Preventive Medicine. A Fellow and past President of the American Occupational Medical Association, Dr. Zenz is a member of the Permanent Commission and International Association on Occupational Health, the Society of Occupational and Environmental Health, the Aerospace Medical Association, the Federal Aviation Administration and the New York Academy of Sciences.

Dr. Zenz is former Medical Services Director of Allis-Chalmers Corporation, having also served as Chief Physician of its West Allis plant.

A resident of West Allis, Wisconsin, Dr. Zenz enjoys spending his free time with family, photography, home maintenance and reading. Married, Dr. Zenz is the father of three children, of whom Carl '78 and Sonja '79 are Jefferson graduates.

RICHARD C. BOND

Emeritus Trustee

"I believe the main issues facing the Trustees of Jefferson in the '80s are to see that Jefferson remains, or perhaps even improves, its position as one of the great medical centers of the world. This means helping to raise money, as well as supporting the administration wherever support is needed, to attain this goal."

Richard Bond began his professional and business career in Philadelphia and for many years was the President and Chief Executive Officer of John Wanamaker of Philadelphia until he retired in 1968. He continues to serve as a member of the Board of Trustees of the Wanamaker Estate and as a Consultant for Carter, Hawley Hale.

An Emeritus Trustee, Mr. Bond first joined the Jefferson Board in 1957. He was the Chairman of the College Committee for many years and served on the Hospital Committee and the Finance Committee as well.

A graduate of Swarthmore College and Harvard Business School, Mr. Bond has received honorary degrees from Beaver College, St. Joseph's College, Swarthmore College and Pittsburgh, Temple, Drexel and Thomas Jefferson Universities.

His life and career has been marked by a commitment to his native city. Currently, Mr. Bond is Director of Philadelphia Savings Fund, S.C.M. Corporation, Greater Philadelphia Partner, the Philadelphia Museum of Art and WHYY-TV. He is also a past member of the Board of Trustees of Swarthmore College and a former Elder of the Bryn Mawr Presbyterian Church.

Former President and Chairman of the Board of the Chamber of Commerce, the Trustee is a past co-Chairman of the Pennsylvania/New Jersey/Delaware Commission on Regional Development. Mr. Bond has served as President of the Philadelphia Orchestra Association and is currently Chairman of the Board. He is a former Chairman of the World Affairs Council and Philadelphia '76 Inc. He is also the former Chairman and President of United Way.

The Trustee has been voted by the community many times with awards for achievement and service. These include the William Penn Award of the Chamber of Commerce, the Distinguished Pennsylvania Award, the Golden Slippers Square Club Distinguished Achievement Award, the United Way Citizen Volunteer Award, the Philadelphia Museum of Art Citation, and the Human Relations Award of the National Conference of Christians and Jews.

Married and the father of three children, Mr. Bond is a resident of Bryn Mawr.
CHARLES W. BOWSER, ESQ.

Term Trustee

"Academic and professional excellence fused with a commitment to the highest virtues and best traditions of the Philadelphia area are the essence of what is Thomas Jefferson University. As Chairman of the Search Committee which recommended Carl M. Mansfield, M.D., the first black physician to chair a department at Jefferson, I know that we practice what we believe."

Charles Bowser brings the Board of Trustees an expansive public service record and an expertise in urban affairs. Former Chairman of the Federal Judicial Nomination Commission of Pennsylvania and the Market Holding Company, the attorney is a partner in the law firm of Pechner, Dorfman, Wolfe, Rounick and Cabot.

Former Chairman of the National Association of Urban Coalition Directors, Mr. Bowser is a past member of the Executive and steering committees of the National Urban Coalition. He was also the first Executive Director of the Philadelphia Urban Coalition, and is on the Board of Managers of the Franklin Institute.

His prior service also includes: Chairman of the Citizens Advisory Committee for Quality Education, a lecturer for the Urban Life Center in Columbia, Maryland, and a columnist for both the Philadelphia Inquirer and the Philadelphia Tribune. Mr. Bowser is the author of Rethinking Cities To Make Them Work For Us.

JAMES E. CLARK, M.D.

Alumni Trustee

"From without, and within, Jefferson is a fiscally sound, well administered, stable institution with the vacancy holes being plugged by a succession of talented leaders in key roles. The short and long-term net effect of this, in my view, will be to enhance Jefferson’s current strengths and to build a greater image for research and investigation. I see this happening at both the student and faculty level."

A 1952 graduate of Jefferson, James Clark was elected a Trustee in 1979. The physician is Professor of Medicine at Hahnemann Medical College and Hospital and is Chairman of the Department of Medicine at Crozer-Chester Medical Center.

A graduate of West Virginia University, Dr. Clark completed his internship and residency at Jefferson, and served on the faculty until 1969. Certified by the American Board of Medicine in 1959, the Trustee serves as a consultant to numerous area hospitals and belongs to almost 20 professional societies. Dr. Clark is a Fellow in the American College of Physicians, and is currently serving as Governor of its Eastern Pennsylvania Region.

In addition, the physician is Corporate Medical Director of the Franklin Mint, Director of Health Services at Swarthmore College and is a member of the Board of Governors of the Southeastern Heart Association of Pennsylvania.

He is Vice President of the Pennsylvania Society and is the former Chairman of the Board of Directors of the Kidney Foundation of the Greater Delaware Valley Inc. He also has held the posts of President and Program Chairman of the Greater Philadelphia Chapter of the American Federation for Clinical Research.

Dr. Clark is a member of Sigma Xi, The Union League and the Corinthian Yacht Club. When time permits, he enjoys music, woodworking, sailing, tennis and is a ham radio operator. The physician and his wife, who live in Swarthmore, are parents to seven children.

DONALD E. MEADS

Term Trustee

"The extraordinary pace of change among health care
delivery systems is generally acknowledged. And positioning Thomas Jefferson, a top-tier University, so as to cope with an emerging and dramatically shifting environment is the critical issue now before management and the Board. During the next decade, the Trustees' primary role will be to assist management in this urgent task."

A graduate of Dartmouth College and Harvard Business School, Donald Meads is a leader in the area business world.

Chairman and President of Carver Associates Inc., Mr. Meads is Director of Chicago Milwaukee Corporation; the Chicago Milwaukee Railroad Corporation; CIGNA Corporation; Kaneb Services Inc; Perdue Farms Inc.; The Quaker Oats Company; and The Singer Company.

In addition, he has served in top-level executive positions of other prominent business institutions. These include Chairman and Chief Executive Officer of CertainTeed Corporation; Chairman and Chief Executive Officer of International Basic Economy Corporation; and Executive Vice President and Chief Financial Officer of INA Corporation. He also has held posts as Vice President of Finance of Investors Diversified Services Inc.; and Vice President of Investments of New York Life.

In community affairs, Mr. Meads serves as Chairman of the World Affairs Council of Philadelphia, a Director of the Institute for Medical Research and is Honorary Director of the Marine Corps Scholarship Foundation. A present Trustee and Chairman of the Executive Committee of the Valley Forge Military Academy Foundation, he joined the Jefferson Board in 1976.

He is a member of the National Planning Association and Director of the British North American Committee, both in Washington, D.C.

In New York, Mr. Meads belongs to the Economic Club, the Harvard Club, The Links Club, and the Rockefeller Center Club. In Philadelphia, he is a member of the Peale Club, the Philadelphia Aviation Country Club, the Sunday Breakfast Club and The Union League.

The Trustee served as a pilot in the Marine Corps during World War II, retiring with the rank of Captain. He and his wife have seven children and maintain residences in both East Nantmeal and Philadelphia.

JAMES W. STRATTON

Term Trustee

"I have had the opportunity of serving on the Jefferson Board for 11 years—a span of time that covers three Presidents and two Chairmen. The most impressive feature is the remarkable degree of freedom from politics. Decisions are made as to what serves best the interests of the institution. The reservoir of good will among faculty, alumni, administration and trustees is especially remarkable in contrast to other institutions in today's society. Over this period, Jefferson has faced numerous problems of an unexpected timing and character. Our capability to solve problems rationally is one of Jefferson's greatest strengths."

A native Philadelphian, Mr. Stratton is President of Stratton Management Company. He joined the Jefferson Board of Trustees in 1970.

In addition to his current responsibilities at Stratton, he serves as Director of the Budd Company, Quaker Chemical Corporation and UGI Corporation. He is also President of Stratton Growth Fund, Quaker Cash Reserves, and Energy and Utility Shares.

A member of the Financial Analysts Federation, Mr. Stratton is active in portfolio management and financial consulting.

Past President and Chief Executive Officer of Drexel Firestone Inc., Mr. Stratton has held the titles of Director and President of Drexel and Company; Portfolio Manager of Drexel Investment Fund and Manager of the Drexel Equity Fund. In addition, he is former Vice President and Director of Cooke and Bieler, and a former member of the Greater Philadelphia Movement.

He is a graduate of Pennsylvania State University, where he received a B.S. in Geophysics. He graduated from Harvard Business School with an M.B.A.

A member of The Union League and the Philadelphia Cricket Club, Mr. Stratton likes to spend time with his family, playing tennis, reading and growing Christmas trees. Married and the father of three daughters, Mr. Stratton lives in Blue Bell.

ELOISE BOWERS

Term Trustee

"As President of the Women's Board, my viewpoints on the responsibilities of Trustees may seem myopic. The Women's Board is an integral part of the hospital enterprise—an agent of service to the hospital and its patients. Therefore, my obligation and concentration is to direct the organization towards mak-
ing informed choices for the benefit of the hospital. The varied endeavors of the Women's Board represent its concern and contributions toward keeping Jefferson in the lead for quality patient care in a changing competitive market.”

Married to Paul A. Bowers, M.D. '37, Emeritus Professor of Obstetrics and Gynecology, the Trustee is President of the Thomas Jefferson University Hospital's Women's Board. She is past President of the University's Faculty Wives Club.

Supportive of artistic and historical efforts, Mrs. Bowers is a member of the Athenaeum of Philadelphia, the Historical Society of Pennsylvania, the Cliveden Society, the Victorian Society, the Philadelphia Art Museum Associates and the Friends of Independence National Historic Park.

In the area of health, Mrs. Bowers is past President of the Women's Auxiliary of the Philadelphia County Medical Society and was Director for eight years of the Health Careers Program for Pennsylvania. She has served on the Board of Directors of Planned Parenthood, the Pennsylvania Health Council, the Heart Association Auxiliary and the Pennsylvania Medical Society Auxiliary.

Mrs. Bowers enjoys opera and aerobic dancing, and serves as an interpreter at the Second Bank Historical Portraits Gallery and at Lemon Hill.

Dr. and Mrs. Bowers have three children and reside in Bala-Cynwyd.

GEORGE E. BARTOL, III

Term Trustee

"As a member of Philadelphia's business community, I know Jefferson is respected as an institution which provides excellent medical education to its students and fine care to its patients. I look forward to my association with the Board of Trustees in helping to sustain this reputation and in providing counsel in solving the problems of the future."

Chairman of the Board of Hunt Manufacturing Company, George Bartol began his career with that company, a nationally known Philadelphia producer of office, school and art supplies. He is also President and Trustee of the Hunt Manufacturing Company Foundation, which is dedicated to funding local, civic, charitable and cultural organizations.

Mr. Bartol is extensively involved in the civic activity of Philadelphia. He is Vice President of the Philadelphia Industrial Development Corporation and is a member of the Philadelphia International City Steering Committee.

He is also Director of several professional organizations, including the Old Philadelphia Development Corporation, the Philadelphia Federal Reserve Bank, the Greater Philadelphia Partnership, the Greater Philadelphia International Network, the Greater Philadelphia First Corporation, The Franklin Institute and the Philadelphia Academy of Natural Sciences.

A 1943 graduate of Princeton University, the Trustee joined the Jefferson Board in August.

He is a member of the Mayflower Descendants, the Philadelphia Racquet Club and the Gulph Mills Golf Club. He and his wife have four children and live in Philadelphia.

JAMES M. LARGE

Life Trustee
"In 1968, when I was Chairman of the Board, the Trustees had a vision for Jefferson to seek university status within its own complex. We saw that such an undertaking could lead to creation of a Thomas Jefferson University. We also saw that the backbone of such a University would be its medical school, but that its horizons would be wider and its goals more challenging. I am proud to have been a part of the realization of that vision."

As the former President and Chairman of the Board of Provident National Bank and Provident National Corporation, James Large has held a distinguished place in the community as the head of one of Philadelphia's leading financial institutions.

In addition, Mr. Large is the former Director of not only the Provident Bank and Corporation, but also the Philadelphia Saving Fund Society, E.S.B. Inc., Fidelity Mutual Life Insurance Company, South Chester Tube Company and the Commonwealth Land Title Insurance Company.

A member of the Jefferson Board of Trustees since 1950, he served as Chairman from 1962 to 1970. Mr. Large's other civic titles include former member of the Advisory Board of the Crime Commission of Philadelphia; former Chairman of the United Fund Campaign; past Vice President and Director of the Pennsylvania Academy of Fine Arts; and former Director of the Zoological Society.

A 1928 graduate of Princeton University, the Trustee has received honorary degrees from Jefferson and from the Moore College of Art.

Mr. Large served in the U.S. Navy from 1943 to 1945 and performed duty aboard the U.S.S. Princeton until she was sunk in Leyte Gulf in 1944, during which action he was awarded the Silver Star and the Purple Heart. At the end of World War II, he served aboard the second aircraft carrier Princeton, retiring as a Captain U.S.N.R.

A member of The Philadelphia Club, the Corinthian Yacht Club and the Society of Colonial Wars, Mr. Large enjoys sailing and gunning. Husband of the late Sarah Ellison, Mr. Large is the father of two sons and a daughter, and lives in Villanova.

WILLIAM POTTER WEAR
Life Trustee

"We all recognize that inflation and reduction of government grants are going to make the '80s a troublesome time for medical colleges and hospitals. Thus, the Trustees are also faced with the necessity of having a drive, and it must succeed. While all divisions of the University are important, I hope in years to come that the Trustees will always remember that the Medical College is the keystone of Thomas Jefferson University."

William Potter Wear is the third successive generation of his family to serve on the Jefferson Board of Trustees. The names Wear or Potter have appeared almost continuously on the Board's roster since 1896. A life member, the present Trustee is a member of the Resources Committee and the College Committee.

Mr. Wear is a farmer and animal breeder for Enterprise Farm in Cecilton, Maryland. A 1925 graduate of Yale University, he worked for Drexel and Company from 1927 until 1930, when he joined Cassatt and Company. In 1935, he became publisher of the Jenkintown Times Chronical, remaining until 1960.

A former member of the Advisory Board of Girard Bank, Mr. Wear is a former Director of Vision Inc.; Cambridge Scientific Industries; E.G. Okie Inc.; and the Maryland Angus Association.

In a civic capacity, he served six years as Township Commissioner of Lower Gwynedd Township. He is a former member and Chairman of the Pennsylvania Employment Board and the Department of Public Assistance, and is a past Board member of the Pennsylvania School for the Deaf and the Babies Hospital of Philadelphia. In the campaign for Governor by Hon. Arthur H. James, Mr. Wear served as his Treasurer. Mr. Wear served active duty in the U.S. Navy during World War II, retiring with the rank of Commander. He moved to Maryland in 1961 to pursue his interest in dog and cattle breeding.

A member of the Philadelphia Club, the Racquet Club and the Corinthian Yacht Club, Mr. Wear enjoys sailing in addition to his animal breeding. He and his wife have five children.
The Bryn Mawr Experience

By Renee Tursi

When junior student Michael Rosenblatt spent 12 weeks last fall observing internal medicine away from Jefferson's urban setting, he was participating in one of the Medical College's most important teaching programs—its affiliation with Bryn Mawr Hospital.

Since its formal inception 11 years ago, the affiliation has been, from all standpoints, a success. Third-year students rotate through the hospital in up to three areas: surgery, internal medicine and family medicine. The junior year comprises six clerkships (the remaining areas being pediatrics, psychiatry and ob/gyn), and students select their hospital by lottery. Jefferson graduates on the Bryn Mawr medical staff number 56 and for many junior medical students, the hospital has become a first choice for them as well.

"I definitely want to return," says Rosenblatt, son of Alfred A. Rosenblatt, M.D. '55. "The entire staff here is very friendly and eager to help, and the atmosphere is relaxed and pleasant. The only time I've heard a harsh word was when I didn't ask a question. They are always teaching here."

The affiliation also allows senior Jefferson students to choose Bryn Mawr for electives, with some participation in one-to-one preceptorships. Jefferson residents in surgery, orthopaedics, ENT, ob/gyn and urology are also part of the affiliation with Bryn Mawr. But the third year of medical school is the crucial one. Students are exposed to the range of medical specialties in this year and for the most part, must choose their residency area based on these experiences. Thus, clerkships do more than simply meet the requirements of a curriculum.

Much of the affiliation's success can be attributed to the original agreement drawn up between Jefferson and Bryn Mawr, according to Bryn Mawr's Director of Medical Education, Theodore J. Berry, M.D. '43, who holds the Jefferson title of Clinical Associate Professor of Medicine.

"It took a great deal of time and care to word the agreement so it met the goals and concerns of both groups involved," he recalls. "It was approved literally line by line."

Indeed, the document's preface reads: "Jefferson...shares with Bryn Mawr (the) common goals of patient care, education and research and community services." But the subsequent language emphasizes that each institution is to remain a separate entity responsible for its own affairs.

"Some at Bryn Mawr feared that we would lose autonomy to a big academic center," Dr. Berry says. "But that fear never materialized, in part due to the wording of the agreement. And those who were originally against the idea are now some of the program's hardest workers."

An informal relationship had existed...
between Bryn Mawr and Jefferson prior to 1972. Bryn Mawr's President, Carl I. Bergkvist, who was previously with Methodist Hospital, had worked on a formalized agreement between Jefferson and Methodist. At Bryn Mawr, he supported the idea of bringing Jefferson students to the hospital based on the success of the Methodist affiliation.

"We started with a casual relationship and then decided to come to a definite agreement," Mr. Bergkvist says. "The Board of Directors decided that the affiliation was a vital part of the medical education process. In the ensuing years, we have been convinced it was the right course of action. We are very pleased with the results."

John T. Magee, M.D. '57, Director of the Department of Medicine at Bryn Mawr and Clinical Professor of Medicine at Jefferson, first took students, on informal preceptorships, in 1966.

"A few years later, we approached Jefferson with the affiliation idea and were received warmly," Dr. Magee remembers. "The formal agreement took about three years. The feeling at both Bryn Mawr and Jefferson, largely fostered by the late Dean William F. Kellow, was that we shouldn't rush into a hasty arrangement.

"Our relationship has been singularly harmonious. We arrived at a good agreement in the beginning and everyone has been cooperative."

The affiliation document outlines in detail the requirements of the program. One stipulation is that any physician who participates in the teaching program must hold a Jefferson faculty appointment. Bryn Mawr physicians who do not wish to be involved with students need not hold a Jefferson appointment. Jefferson must also be represented on the Bryn Mawr search committee for a new Department Head if he or she is to run a Jefferson student program. Another requirement is the existence of an Affiliation Committee to handle any situations that may arise and which are not covered by the agreement. To date, the Committee has not been activated for that task.

Communication between the institutions has remained on a department-to-department level, allowing the program to operate smoothly. Dr. Berry remains the touchstone at Bryn Mawr. His Jefferson counterpart is Robert C. Mackowiak, M.D. '64, Clinical Professor of Medicine, Associate Dean and Director of Affiliated Programs and Continuing Education. Dr. Mackowiak travels to Bryn Mawr as often as possible. Also, the Dean visits each affiliated hospital at least once a year.

According to Dr. Mackowiak, meeting curriculum requirements is less difficult than might be expected. There is a core curriculum which Jefferson gives Bryn Mawr to follow. Additional guidelines are demanded by the accreditation boards of each medical division. The departments and individual physicians then build on that framework.

The result has been a symbiotic relationship between the two medical centers.

"Like a good marriage, both sides stand to gain," Dr. Mackowiak says. "Bryn Mawr has a wonderful staff and over 90% of the teaching faculty are volunteer. They are a dedicated group and nothing keeps a medical staff on its toes like bright, young, inquisitive medical students. This atmosphere naturally enhances the quality of patient care. There is also a certain prestige in the health care field of being linked to a medical school.

"From Jefferson's standpoint," he says, "we reap benefits in two main areas. Firstly, the affiliation enables a student to see a more typical form of medicine. Bryn Mawr is a very high quality community hospital. Jefferson is a tertiary care hospital, so that students may derive a myopic view from witnessing only the most complex cases. Secondly, TJUH cannot accommodate our large number of students, so our affiliates allow students maximum clinical exposure."

Dr. Berry agrees with Dr. Mackowiak's assessment of the benefits to each institution. "Jefferson gains an additional supply of teaching beds and faculty, while we achieve a certain significance as a teaching hospital. Jefferson provides us with a viable source of guest speakers and the students offer our staff intellectual stimulation."

Set approximately 15 miles west of Philadelphia, Bryn Mawr Hospital has always provided community care since its opening in the late 1800's. While Philadelphia had large medical centers at that time, no health center existed to meet the needs of the rapidly expand-
the main line of the Pennsylvania Railroad. An Ardmore
physician, George S. Gerhard, M.D.,
founded Bryn Mawr Hospital, which
when it opened in 1893, accommodated
eight private and 12 ward patients.
In a short time, the hospital outgrew
its structure and plans for a new build-
ing were underway. The cornerstone
was laid in 1928 and the following year
ended with almost 3,000 admissions.
The war years were busy ones for the
hospital and the subsequent decades
brought great changes in the form of
new facilities and additional services.
The '60s and '70s saw the comple-
tion of major improvement programs
and at present, Phase I of Bryn Mawr's
latest modernization plan is targeted
for a summer completion date. The
program calls for a new intensive care
unit and a coronary care unit.
With a bed complement of almost
400 and 28 bassinets, Bryn Mawr offers
a full range of services. The hospital
now has the facilities to perform
sophisticated procedures, such as open
heart surgery, and no longer needs to
refer such procedures to other
hospitals.
Other services provided by Bryn
Mawr include a full-body CT scanner,
short procedure and overnight surgery
units, a birthing unit, a neonatal inten-
sive care unit with full-time neonat-
tologist and transport service, a youth
psychotherapy center, family medi-
cine unit, dialysis unit and hospice
program.
The hospital also has four training
programs—a day and night School of
Nursing, Schools of Radiographic Tech-
nology and Respiratory Therapy, and
Medical Technology Program.
Bryn Mawr has over 350 physicians
and residents, and hundreds of employ-
ees and volunteers. Approximately
15,000 patients are admitted each year
and nearly 40,000 seek treatment in
the 24-hour emergency room or in one
of the 28 outpatient clinics.

When a Jefferson third-year student
steps into Bryn Mawr, he or she
becomes a working part of the
hospital's operation, despite their posi-
tion on the "lowest rung" of the med-
ical staff ladder. They wear short
white lab coats and name tags. While
addressed as "Doctor" by staff mem-
bers to maintain the air of profes-
sionalism, students are never repre-
sented falsely to patients.
According to the Bryn Mawr medical
staff, patients cooperate and welcome
students to their consultations. They
like the academic air which accom-
panies a student.

On the surgery rotation at Bryn
Mawr, the four to six junior students
spend one week at Jefferson and 11 at
Bryn Mawr. Their day begins at 6:30
a.m. with rounds, followed either with
time in the operating room (three days
a week) or work with X-ray and labora-
tory data analysis. In addition, they
hear a lecture every afternoon. Each
student is assigned to a service, with
one assigned to Kirkley R. Williams,
M.D., Director of the Department of
Surgery at Bryn Mawr and Clinical
Professor of Surgery at Jefferson.
"The students follow me through the
day and I try to pick out the most
important aspects of general surgery
practice," Dr. Williams says.
"We would like the students to have
an overall feel for surgery, as this may
be their only exposure to the practice
in their early education. We do not
attempt to teach technique, as the skills
of surgery are acquired in a residency
program."

With more time allowed for the

Kirkley R. Williams, M.D., Bryn Mawr's Director of Surgery, examines a patient with
a nurse assistant.

Explaining acid base disorders, John T. Magee, M.D. '57, Bryn Mawr's Director of
Medicine, lectures to Jefferson students.
rotation, Dr. Williams says more areas could be pursued, such as the beginnings of technique. But as the program now stands, compromises must be made.

"When I was in medical school, I had six months of a surgery clerkship," he says. "But there are many more specialties today for the students to cover."

The family medicine clerkship at Bryn Mawr is six weeks and allows up to three juniors at a time to participate. The unit is divided into three two-week rotations, each exploring a specific area of family medicine. Their schedules call for rounds, conferences on broad topics such as diabetes or chest pain and tapes on specific subjects sent by Jefferson.

During their two weeks in the emergency room, the family medicine students examine the patients first and make their recommendations to the resident, attending or ER physician. With approval, they can order lab tests and do some suturing.

During the community medicine phase, the students visit various services in Lower Merion Township. These include the Board of Health, a dog catcher, plumbing inspector, restaurant inspector, rodent control and an abortion clinic, Main Line Family Service and Senior Outreach Program. They also spend a day with a visiting home nurse and a day with a family physician.

The Bryn Mawr family medicine unit, which is in the hospital, begins each day with rounds followed either by time in the pediatric clinic or performing a complete history and physical on a patient. Afternoons are spent seeing patients with a resident and either D. Stratton Woodruff, Jr., M.D., Bryn Mawr's Director of the Family Medicine Unit and Jefferson Clinical Associate Professor of Family Medicine, or Ian M. Ballard, M.D., Bryn Mawr's Associate Director of the Family Medicine Unit and Jefferson Clinical Assistant Professor of Family Medicine.

"We try to give the students a sense of what a primary care physician does on a daily basis and some of the decisions which confront him," Dr. Ballard explains. "We show them ambulatory patients, and what can be done with outpatients to prevent a hospital stay.

"We will ask the student what tests he would like to see done on a particular patient and he may run through a list of 30 tests. We let the student know how much those tests cost and show him or her ways of keeping that cost down."

Each key person in the Family Medicine Center explains his or her duty. For example, the nurses teach the students how to give injections, a skill Dr. Ballard says most physicians do not execute well.

Third-year student Michael H. Bastista says his rotation at Bryn Mawr showed him what a career in family practice involves.

"I learned a real style of practice here," he says. "I had the same schedule as a professional and I enjoyed the exposure to each area, especially the emergency room. Traveling with the visiting nurse was very interesting because I saw what a patient contends with after leaving the hospital. While here in the unit, they even taught us what goes into running an office. Billing and patient record keeping weren't areas I had given much thought to before."

Learning how to interact with a patient is a major goal of the family practice rotation. Students are videotaped during four patient consultations. They then go over the tapes with a faculty assistant to discuss manners and methods of patient interviewing.

Another major aim is to teach the student how to obtain a thorough history and physical on a patient in a relatively short period of time. Third-year Family Practice Resident Gerard F. Klinzing, M.D. '80, says being able to do a history and physical efficiently is vital to a student's career. "It's important to learn quickly why that person is here and how to treat him."

Dr. Klinzing, who completed a Bryn Mawr clerkship during his student days
at Jefferson, hopes the students see him and the other family practice physicians as role models.

"For the student's purposes at this stage, the individual disease or patient is not as important as the process."

The resident says he enjoys working with the juniors and relives his experiences with each new student.

"I understand what they are going through, so I think it helps me relate to them better."

Dr. Klinzing says there is a big difference between students on their first clerkship and those who arrive at Bryn Mawr later in the year.

"There is a noticeable increase in their confidence. But we find a tremen-
clerkship experience is, I do feel separated from Jefferson and a little out of touch. There also seems to be a lack of standardization among the affiliates. 

What I’ve learned on this clerkship and what my friends are experiencing at another hospital is often very different.”

As the son of an alumnus, Rosenblatt senses less closeness with his peers than he thinks his father felt with his classmates.

“Although our class size is bigger, there are students who never spend time at Jefferson and who no longer regard the Medical School as the ‘Mother Institution,’” he says.

Despite these concerns, all three juniors say they would like to return to Bryn Mawr for subsequent clerkships and senior clinical electives.

The evaluation of students can be somewhat of an arbitrary process. The faculty is given the range from “superior” to “unsatisfactory” with which to grade a student’s performance.

Jefferson is working on a more standardized grading system. The current method was developed by Jefferson’s Office of Medical Education in 1976, which collects information on the junior students: student questionnaires on the clerkship, and student performance on internal and external examinations. The Office analyzes all types of information from the hospital in which the clerkship was taken as well as by specialty area. Reports are provided to each department involved and overall reports are made to the Curriculum and Affiliations Committees.

Student questionnaires ask about the clarity of the clerkship goals, the extent to which the goals are achieved, methods used for the students’ clinical skills, extent of patient responsibilities, teaching by attending physicians and residents, and the physical facilities provided.

Performance comparisons in each specialty area are based on the Departmental examination given to all third-year students and the appropriate subtest of Part II of the National Board Examinations. Analysis of variance, adjusted for prior academic differences among students taking the clerkship, is used to identify significant differences in performance.

“If we start with the premise that we are to train a student to achieve a skill and develop an intelligence, we need to know if we’ve reached that goal,” Dr. Berry says. “They can be judged by a gut reaction, an exam or a skills assessment. It is a very difficult process to decide.”

Volunteer faculty member Bonnie Lee Ashby, M.D. ’68, Chief of Service of Infectious Diseases at Bryn Mawr and Clinical Assistant Professor of Medicine at Jefferson, says she bases a major part of her evaluation of a student on whether she thinks the student has potential for the qualities associated with a good physician.

“I ask myself whether I would want the student eventually to treat me or a loved one,” says Dr. Ashby, who completed her residency at Bryn Mawr and enjoys working with students. “I look for a sense of responsibility, kindness, intelligence, an ability to reason and a sense of feeling.”

Dr. Berry says he hopes a student who has finished a rotation at Bryn Mawr will have learned what it is like to practice medicine in a community hospital. “Every hospital has its own personality and while the community here is affluent, people contact the same diseases,” he says.

For Dr. Klinzing, his years at Bryn Mawr as a student and as a resident have afforded him only positive experiences.

“Moving to Bryn Mawr after training at Jefferson was an easy process because the mechanism continued. The transition was smooth, which I attribute to the fact that both institutions must share the same philosophy on medical education and care.”
viewpoint on affiliations...

The role of the non-university hospital in medical education and the nature of the relationship between a medical school and its affiliated hospitals is of vital concern to all faculty. For approximately 18 years, I have been working with Jefferson students, but only in the last nine at Bryn Mawr with students serving clerkships that are part of their core curriculum. Prior to that it was with preceptorships or electives.

How have so many community hospitals become involved in medical education? Probably through a number of factors that were operative from the mid-1960s to the late 1970s. First organized medical education (AAMC, AMA Council on Graduate Medical Education and accrediting agencies) moved in the late '60s to abolish internships in hospitals that were not capable of maintaining the accreditation for at least four residency programs.

This change in graduate education was permitted to a significant degree by the so-called "Millis Report," more properly titled "Report of the Citizens' Commission on Graduate Medical Education." This report was published in 1966, and by 1970 internship and residency experience had been completely merged into one continuum. Those hospitals whose programs survived this change in policy were probably attacked by mild delusions of grandeur.

Then medical schools began to enlarge class size, both to meet the need for more physicians proclaimed by so many authorities, and also to obtain federal funds through capitation. Schools which grew enough to qualify were rewarded. Also, emphasis upon training in primary care reached truly dramatic proportions after the creation of the American Board of Family Practice in 1968. Many community hospitals felt that they might be the best place for such training and many medical educators tacitly supported such a view. For example, directors of training programs in internal medicine began to receive questionnaires asking whether or not their program was designed for primary care internists or for residents who planned to enter subspecialty training.

Many medium sized and large community hospitals had accumulated a critical mass of subspecialists who were anxious to teach medical students without traveling to a university to do so. Having discovered the strengths of good non-university hospitals, they became proselytizers for them. And finally, the recognition that hospitals fortunate enough to have affiliated themselves with medical schools were gobbling up a high percentage of new graduates for their training programs led many institutions to believe that such an arrangement would solve all recruiting problems.

The affiliation business has grown to be a very large one. Currently more than 50 percent of junior and senior teaching of Jefferson students is done at sites other than Thomas Jefferson University Hospital. Some students have gone through the entire year without serving a single clerkship at Jefferson. Jefferson's Department of Medicine alone has affiliation with 10 separate hospitals, sending residents and students to four, junior and senior students to an additional six, and sophomore students to all the above, plus at least three others with whom no formal affiliation agreements exist.

New affiliation agreements are constantly being proposed and evaluated and these figures may change at any time.

What are the benefits of this expanding system? The schools profit by immediate availability of more teaching beds and more faculty at little or no cost. The hospitals benefit at least as much. They gain a significant amount of prestige which is sometimes helpful in recruitment if their training programs are truly sound. The intellectual stimulation that is provided by the presence of students can't be matched when both students and volunteer faculty do their jobs well. And, finally, there are often great opportunities to share facilities and/or personnel of types that might be in short supply.

If there are benefits, there are surely problems. Money is one. The universities find themselves unable to support efforts outside their own campuses in most instances, and, to their credit, emphasized this aspect of affiliation from the earliest days of negotiation.

The system encourages "curriculum shopping" a little more than would seem reasonable. Some students don't always strive to arrange the best of clerkships and all such experiences are not equal. The nature of non-university hospitals makes one of their great strengths a highly effective, pragmatic, problem-oriented approach to patients that is reasonably cost-effective, but what at worst is sometimes a "vocational approach" to the science of medicine.

Finding the middle path is a difficult task for university hospitals and non-university hospitals alike. Surely the major responsibility of all who wish to be involved in the educational process is teaching the student how to learn and how to continue to learn, as well as how to perform specific clinical tasks. University-based faculty members do that well, but by our own admission, some of the rest of us are pretty good too!

The last problem in our present arrangement is an extraordinarily awkward one. It involves the ridiculous confrontation that ensues when a student who is paying $10,800 per year tuition tries to make his wants (or demands) known to a faculty member who is receiving no financial rewards for his efforts. To date, both sides have been remarkably tolerant, but I have certainly seen a few sparks fly.

If and when class sizes are reduced, what will become of the faculty in the affiliated hospitals? If it must occur through a survival of the fittest procedure, some of us will get to stay in business. It is a marvelous experience and I could not be happy without it.

John T. Magee, M.D. '57
Clinical Professor of Medicine
new chairman

Carl M. Mansfield, M.D., has been appointed Professor of Radiation Therapy and Nuclear Medicine and Chairman of the Department. He will replace Simon Kramer, M.D., who will retain his appointment as Professor.

The new Chairman, reflecting on his return to Philadelphia, says he feels like he is coming home. “I look forward with great anticipation to renewing my ties with the Medical College and establishing associations with members of the faculty that I knew in the sixties and seventies.”

Dr. Mansfield returns to his native city after an absence of seven years. He left Jefferson in 1976 to become Professor and Chairman of the Department of Radiation Therapy at the University of Kansas Medical Center, Kansas City, Kansas, and Chairman of the Department of Radiation Therapy, Menorah Medical Center, Kansas City, Missouri. He is a member of the Graduate Faculty in Radiation Biophysics at the College.

An international leader in both research and clinical uses of radiotherapy for cancer, he has made major contributions in the management of breast, central nervous system and uterine malignancies. Among his many leadership positions, he is a member of The Cancer Clinical Investigation Review Committee of the National Cancer Institute, Director-at-Large of the National Board of Directors, American Cancer Society and Examiner of the American Board of Radiology.

Dr. Mansfield is a graduate of Lincoln University and received his M.D. degree from Howard University. He took residencies in radiology at Episcopal Hospital, Philadelphia, and at Jefferson. After duty as Chief of the Department of Radiology at Offut Air Force Base, he held an NIH postdoctoral fellowship in radiation therapy at Jefferson and at Middlesex Hospital in London.

In 1972 Dr. Mansfield spent a sabbatical year at Myerstein Institute of Radiotherapy at Middlesex Hospital and Medical School.

The new Chairman became associated with the Jefferson faculty in 1964, when he was appointed Instructor and Chief of the Division of Nuclear Medicine in the Department of Radiology, and, in the Department of Radiation Therapy and Nuclear Medicine, rising to the rank of full Professor in 1974.

A Diplomate of the American Board of Radiology and of the American Board of Nuclear Medicine, Dr. Mansfield is a member of Sigma Xi and a Fellow of the College of Radiology. The author of 87 papers and several chapters for books in his specialty area, Dr. Mansfield also has written two books: Radiotherapy in the Management of Malignant Diseases and Early Breast Cancer: Its History and Results. In addition, he has made numerous presentations at national and international medical meetings.

He and his wife, Sarah, are the parents of two children.
neurology team

According to Professor of Neurology and Chairman of the Department Robert J. Schwartzman, M.D., the new neurology team at Jefferson is finding the opportunity to develop itself. "With the newcomers and the outstanding base we found here, we expect to establish Jefferson as a major clinical center for neurology," he says. "The fine relationship between neurology and neurosurgery will allow us to build a good combined service to achieve our twin goals: the establishment of an absolutely first-rate training program for residents, student and house staff that accompanies a first-rate clinical department, and the establishment of Thomas Jefferson University as a major center for neurological research."

Ruggero Fariello, M.D., Professor of Neurology, Vice Chairman of the Department and Chief of the Neuropathology Laboratory, is one member of the new team. Dr. Fariello, whose special interest is in epilepsy and movement disorders, will coordinate a large national epilepsy grant.

He and Gregory Golden, Ph.D., Assistant Professor of Research Neurology, are doing basic research on the mechanism of action of an experimental drug for seizure control that is a GABA agonist. These substances are inhibitory transmitters in the brain that block the spread of electrical discharges that cause epilepsy. They may also inhibit abnormal movements in patients with movement disorders. Dr. Fariello has a $250,000 grant from an Italian pharmaceutical company, which will fund this research.

"Dr. Golden is one of only a few researchers who have done brain transplant studies, implanting pieces of fetal brain from rats into the brains of adult rats and getting the transplanted tissue to survive and function," Dr. Schwartzman says. "The whole team is to study the anatomy chemistry and physiology of the transplanted tissue, a very exciting prospect."

The third member is John Bertoni, M.D., Ph.D., Associate Professor of Neurology, who will oversee student and resident activities. He will continue to investigate how stroke, cerebral edema, lead poisoning and metrizamide (an agent commonly used in myelographic procedures) adversely affect important enzymes in the brain.

"These studies, which are basic to our understanding of how brain cells work, will attempt to determine the viability of cells after injury," Dr. Schwartzman says.

Dr. Bertoni has received a Teacher Investigator Development Award of $36,000 per year, and an NIH grant of $23,000 per year.

Overall Director of Laboratories, Dr. Schwartzman's in particular, is Guillermo Alexander, Ph.D., Assistant Professor Neurology. The two will research recovery of function in the brain and spinal cord after trauma.

"We're taking advantage of the principle that every function performed by a certain part of the brain is accompanied by change in the metabolism in that portion of the brain. Therefore, we can map areas of cerebral function by mapping areas of altered cerebral metabolism," Dr. Schwartzman explains.

A $120,000, three-year NIH grant funds their research for the study of glucose metabolism of the spinal cord following injury. Their work also receives support from the Jesse and Susan Oppenheimer Foundation and the Beevill Foundation of Texas in the amount of $50,000. The Beevill funds also permit further inquiry into stroke.

Assisting with student and resident training and in running the neurology section is Patricio F. Reyes, M.D., Assistant Professor of Neurology and Neuropathology. He will be setting up a dementia clinic in collaboration with the Department of Psychiatry. He is currently investigating the fundamental causes of dementia under a $30,000 Veterans Administration grant awarded for this year. He will work with Dr. Alexander and Dr. Schwartzman on the cerebral metabolism and blood flow of his animal model for dementia.

"These men are young, established, enthusiastic and unique in that they all have funding. No one of them had worked or trained at the same insti-
tution prior to their coming together in Texas. They bring with them to Jefferson varying experiences along with their particular areas of expertise to focus on the solution of these difficult problems," Dr. Schwartzman says.

As Chairman he anticipates that the Department will offer the most sophisticated techniques and treatment for stroke, nerve and muscle disease, cancer of the CNS, dementia and epilepsy.

honors

Leah M. Lowenstein, M.D., D.Phil., Dean and Vice President of the Medical College, has been elected to the Governing Council of the Institute of Medicine (IOM) — National Academy of Sciences for a three-year term which began January 1.

Dr. Lowenstein, the only woman dean of a co-educational medical college in the United States, is well-known for her research on the kidney, metabolic disorders and aging.

She is also Secretary of the 20,000-member Section of Medicine of the American Association for the Advancement of Science and Vice President of the Council on the Kidney in Cardiovascular Disease of the American Heart Association.

Frank J. Sweeney, Jr., M.D., '51, Vice President for Health Services and Director of Thomas Jefferson University Hospital, was elected Chairman of the Board of Regents of the American College of Physicians during the national meetings in San Francisco in April. He will serve a one year term but the position is renewable for a maximum of two years.

In his position, Dr. Sweeney will head the 28 member Board of Regents, which functions much like a corporation's Board of Directors, conducting meetings, setting agendas, and making appointments to committees on continuing medical education, membership activities, health and public policy, finance, and administration.

The College, founded in 1915, repre-
resents 54,000 specialists in internal medicine and related nonsurgical specialists and physicians in training. Its prime mission is to upgrade the quality of medical care and educational research in the United States.

Dr. Sweeney has a long association with the College. Prior to this appointment, he served as a Regent, Treasurer, and Chairman of the Finance Committee. From 1969 to 1976 he served as Governor for Eastern Pennsylvania. He became a Fellow in 1964.

Dr. Sweeney has spent his entire professional career, except for a tour of duty in the United States Navy, at Jefferson. Following graduation, he served both his internship and residency in internal medicine at Jefferson and progressed through the faculty ranks to full Professor in 1980. He has served as Director of the hospital since 1967. He received the Christian R. and Mary R. Lindback Award for Distinguished Teaching in 1963.

In addition to the College, Dr. Sweeney is a Fellow of the Infectious Disease Society of America and serves on the Board of Trustees of the Hospital Association of Pennsylvania, the Magee Memorial Hospital, and the Delaware Valley Council. He is also a member of the Board of Commissioners of the Joint Commission on Accreditation of Hospitals and the Board of Health of the City of Philadelphia.

Fertility study

A new technique has helped achieve conception for women whose cervical mucus factor had kept them from conceiving with conventional therapy, including low-dose estrogen and guaifenesin.

This type of infertility, considered one of the most difficult to overcome, yielded to treatment in 56 percent of the women involved in a recent study. Pregnancy was accomplished in an average of 3.2 months with the new method.

These findings appeared in a paper entitled "Improvement of Cervical Factor by High Dose Estrogen and HMG Therapy with Ultrasound Monitoring," presented by Jerome H. Check, M.D., at the Pan American Conference on Fertility and Sterility, Acapulco, Mexico, February 7, 1983.

Dr. Check is Assistant Professor of Obstetrics and Gynecology, Division of Reproductive Endocrinology at Jefferson. Harriet G. Adelson, is co-author of the paper.

The study, involving 34 patients, was the first to use high-dose estrogen simultaneously with human menopausal gonadotropins (HMG) to thin too-thick cervical mucus. When cervical mucus is too thick, sperm cannot move through it to fertilize the egg.

Since high-dose estrogen tends to inhibit ovulation, the HMG was used simultaneously to combat this effect. HMG acts on the ovaries to stimulate the growth of the follicles (eggs) and to bring them to mature size.

Ultrasound monitoring of follicle size enabled researchers to determine when the follicles had reached maturity and, thus, how long to continue administration of the HMG. Eggs that have not reached maturity cannot be fertilized.

Ultrasound monitoring can also reveal whether the ovaries are overstimulated by HMG and estrogen and, therefore, indicates when to stop administering these substances.

The 34 participants in the study were infertile for a minimum of one-and-a-half years, and infertility duration averaged 3.7 years for the group.

While 19 of the 34 women (56 percent) became pregnant with the new treatment, the quality of cervical mucus of all the women improved.

For 28 women that improvement was marked. Post-coital tests of their cervical mucus showed 3 to 5 sperm per high-powered microscope field, with sufficient movement of sperm in a straight line. The remaining six showed fair improvement in sperm quality after intercourse, with numbers below that.

All 34 women in the study achieved ovulation, as determined by pelvic ultrasound and basal body temperature charts.

database

A new database, PDQ (Protocol Data Query), is now available in the Scott Memorial Library at Jefferson. PDQ was developed by the National Cancer Institute so that information regarding current cancer therapies in NCI-supported programs would be accessible to physicians and their patients.

The database contains general descriptions of approximately 700 cancer therapy protocols and includes the name, address and telephone number of the contact oncologists at institutions which are accepting patients into the described protocol.

PDQ is actually a subset of CLINPROT, which contains detailed summaries of more than 3,000 clinical trials of new anticancer agents and treatment modalities. PDQ contains only the active, NCI-supported protocols from CLINPROT.

Spinal Cord Grant

A $290,000 Rehabilitation Services Administration grant from the United States Department of Education will enable the Regional Spinal Cord Injury Center of Delaware Valley to continue serving as one of 17 model centers in the country, according to John F. Ditunno, Jr., M.D., Project Director of the Center, Jefferson Professor of Rehabilitation Medicine and Chairman of the Department.

Over 370 patients have been treated since the center was opened in 1979 under the auspices of the University in affiliation with Thomas Jefferson University Hospital, Elwyn Institutes and Magee Rehabilitation Hospital.
the annual meeting: a new format

On February 24 the Alumni Association held its Annual Meeting and Dinner, but with a new format. A black tie affair, with spouses and guests attending for the first time, marked the changing of officers, the approval of committee reports for the past year, and the awarding of honorary membership in the Association to three members of the faculty. Norman J. Quinn, '48, retiring President, presided.

New officers for 1983-1984 are: President, Burton L. Wellenbach, '44; President-elect, John J. Dowling, '47; Vice-President, David R. Brewer, Jr., '54, Samuel S. Faris, II, '43 Leopold S. Loewenberg, '56, Robert Poole, III, '53; Treasurer, Leon A. Peris, '55; Secretary, Jerome J. Vernick, '62.

The three faculty members cited for Honorary Membership are Carla E. Goepp, M.D., Clinical Associate Professor of Medicine; Albert E. O'Hara, M.D., Professor of Radiology and Clinical Professor of Pediatrics; and Jewell L. Osterholm, M.D., Professor of Neurosurgery and Chairman of the Department.

1906
Robert E. Ellegood, Box 76 A, RD #1, New Castle, De., celebrated his 102nd birthday on February 9. The occasion was noted in a column in the local newspaper. Dr. Ellegood is particularly remembered in the area for guiding Wilmington through the horror of the 1918 flu epidemic.

1920
M. Henry Speck, 26 Market St., Youngstown, Oh., has given Congregation Rodef Sholom of Youngstown its largest single gift for program purposes. The gift creates an endowment fund to preserve religious education at the Temple.

1925
Archibald Morrison, 339 Louella Ave., Wayne, Pa., retired seven years ago. He and his wife have three children, nine grandchildren and three great-grandchildren.

Jesse D. Stark, 965 Fifth Ave., New York, has an active radiology practice and is Director of the X-Ray Department at Prospect Hospital.

1926
Philip B. Davis, 1125 Gatehouse Rd., High Point, N.C., sends regards to all his classmates. Dr. Davis says he has enjoyed these past 15 years of retirement. He spends half his time in High Point and the other half in Delray Beach, Florida.

1927
William F. Fox, 9 N. 4th St., Copley, Pa., writes that his greatest gift in medicine has been his acquaintance with his classmate, the late John J. Gibbon, Jr. "He was a kind man and years later operated on my son for a difficult chest operation."

The development of the heart-lung machine by John H. Gibbon, M.D., was the subject of the 1983 William Potter Lecture at Jefferson on April 6. Hans C. Engell, M.D., Professor of Vascular Surgery at the Rigshospitalet in Copenhagen who worked with Dr. Gibbon as a Rockefeller Research Associate, was this year's lecturer.

1930
Joseph G. Cocke, 422 Laramie Dr., San Antonio, Tx., writes: "We are still enjoying life even though I am fully retired. Our travels are very interesting."

Charles C. Hubbard, 2917 S. Ocean Blvd., Highland Beach, Fl., is now a full-time resident of Florida. He spent three weeks in China last fall.

Richard B. Nicholls, 901 Hampton Blvd., Norfolk, Va., who has been on the staff of the Norfolk General Hospital since 1926, has announced that he will discontinue gynecological surgery. Dr. Nicholls will continue a full-time gynecological office practice and also retain his position on the staff of Norfolk General Hospital as Consultant in Gynecology.

Louis M. Nightingale, 605 S. U.S. Hwy. #1, Juno Beach, Fl., has moved to the Waterford, a care-care retirement center. "Living here is great, with no more lawn care or home maintenance worries! Health is good."

1932
C. Earl Albrecht, Drawer L, Bermuda Run, Advance, N.C., who spends much of his time in his adopted state of Alaska, is embarking on a program to eliminate the "scurvy of alcoholic abuse" there. The May/June 1982 issue of Nutrition Today carried an essay by him.

William B. West, Oneida Heights, Huntingdon, Pa., writes that he is continuing as Medical Director of Consumer's Life Insurance Company in Camp Hill, Pennsylvania. He spent part of the winter months in Hilton Head, South Carolina. Dr. West says he is offering "moral support" to his grandson, who is in Jefferson's freshman class this year. Dr. West still thinks of the nice time he had at his 50th class reunion last year.

1933
Murray Elkins, 4601 Bayberry Ln., Tamarac, Fl., writes that he is still doing office practice three days a week. He is also the physician for Hospice Care of Broward County. Dr. Elkins is enjoying golf and sunny Florida. "Not ready to retire yet!"

Edward Cartman, 7200 3rd Ave., Sykesville, Md., who retired from occupational medicine in 1978, will have his first one-man show of watercolors and pastel portraits this April. He writes that he will attend his 50th this June.

John J. Schaub, 159 Mt. Tam Ct., Martinez, Ca., plans to attend his 50th class reunion at Jefferson in June.

Nicholas F. Vincent, 605 Raintree Rd., Lexington, Ky., continues to serve as a Staff Psychiatrist at Eastern State Hospital in Lexington. He hopes to attend his 50th class reunion in June.

1935
James N. Barroway, 1006 Mark 70 Apts., Cherry Hill, N.J., has retired from his pediatrics practice, which is now being run by his son, Robert P. '64, and associates. Dr. Barroway is currently Medical Consultant to the Camden County Office For Children.

Samuel S. Burden, Benson Manor, Jenkintown, Pa., had a total left hip replacement in November 1981, but still maintains his allergy practice on a semi-retired basis.
William N. Eames, 1871 Pennington Rd., Trenton, N.J., writes that he is still practicing, but is semi-retired.

Charles W. Hoffman, 216 Bordentown Ave., South Amboy, N.J., retired from office in 1981, when his town sponsored a “big bash” in his honor and named a senior citizens’ center after him. Dr. Hoffman is still in occupational medicine and active on the Board of Trustees of South Amboy Memorial Hospital.

1936
James F. Burke, 4 Wiltshire Rd., Philadelphia, is happy to report that his son, James F., Jr. ’66, has been named Clinical Professor of Medicine at Jefferson.

1937
Edward G. Siegfried, 9940 Davies Dr., St. Helen, MI., is now retired.

Carl G. Whitbeck, Rt. #2, Box 177, Hudson, N.Y., writes that he still has fond memories of his 45th Reunion and seeing so many old friends. Dr. Whitbeck had hoped to join the Hawaii Seminar, but his schedule said no.

1938
George R. Wentzel, 915 Line St., Sunbury, Pa., retired from practice this past December. Reports from Robert W. Lamparter ’76 at Geisinger Medical Center say that Dr. Wentzel still attends staff meetings and is in good health.

Howard A. Yost, 1910 River Bend Pkwy., Fremont, Oh., retired from practice this past December.

1939
Nicholas E. Patrick, Longview Ter., Waverly, Pa., is semi-retired, working part-time in emergency medicine.

Henry H. Stroud, 708 Ashford Rd., Wilmington, De., continues to spend two days a week at Alfred I. du Pont Institute. He also spends two days a month with the Foster Care Review for the State of Delaware.

1942
Rinaldo J. Cavalieri, 454 Highland St., Wethersfield, Ct., is Chief of Medicine and Second Chief of Staff at Veterans Hospital in Rocky Hill, Connecticut. He has retired from private practice and has been traveling.

1944J
Raymond A. McCormack, Jr., 125 Buckingham Ave., Trenton, N.J., retired from surgical practice in 1980. Currently, he is President of the Staff and Physician Specialist at Trenton Psychiatric Hospital. Dr. McCormack writes: “I have 10 grandchildren and they are all beautiful. Enjoying a lot of golf.”

1945
Joseph C. Koch, 300 Fox Chapel Rd., Pittsburgh, has been appointed Corporate Medical Director of Consolidated Natural Gas Company in Pittsburgh. Dr. Koch has been associated with U.S. Steel Corporation for 16 years, the last four of which he served as Assistant Medical Director.

1946
William S. Carter, Jr., 71 Twin Brooks Dr., Willow Grove, Pa., continues as Chairman of the Psychiatric Department at Abington Hospital, which has a 23-bed Unit, 17,000 outpatient visits a year, residents in child and adult psychiatry from Hahnemann, and 26 psychiatrists on the Medical Staff.

1947
John J. Gaffney, 310 George St., Throop, Pa., writes that his oldest daughter, Patti, is studying pre-med at the University of Scranton.

Donald H. Mcgee, 533 Country Club Dr., Wilmington, De., writes that daughter, Ann, hopes to enter law school next fall. She is a 1981 graduate of the University of Virginia (Phi Beta Kappa). Daughter, Beth, plans to graduate from U.V.A this spring.

1949
George R. Farrell, P.O. Box 9890, San Diego, has been elected Chief of Staff of Mission Bay Hospital for the second time. He is still active in the Academy of Family Practice and is board-certified and a member of the local Board of Directors. Dr. Farrell retired from the Naval Reserve as Captain.

Gerald Marks, Professor of Surgery, narrated a teaching film titled “Combined Abdominal Transsacral Resection for Rectal Cancer after Full-Dose Radiation Therapy” at the 1982 Clinical Congress of the American College of Surgeons in Chicago. The film was produced at TJUH and will be retained by the American College of Surgeons Library. At the meeting, Dr. Marks also moderated a panel on “Alternates to a Stoma for Ulcerative Colitis.”

1950
George W. O’Brien, 1227 26th St., Sacramento, Ca., met old friends at the Area Alumni Meeting in February, including George A. Winch ’49.

Irwin N. Perr, 14 Liberty Bell Ct., East Brunswick, N.J., Professor of Psychiatry at Rutgers Medical School—UMDNJ and Adjunct Professor of Law, Rutgers Law School-Newark, has been elected Secretary of the American Academy of Forensic Sciences for the 1983-84 year. The AAFS is a multidisciplinary group representing various sciences applied to legal purposes and includes sections on pathology, toxicology, criminalistics, psychiatry, forensic odontology, human anthropology, questioned documents and engineering.

1951
Earl Kanter, 634 Shore Rd., Somers Point, N.J., continues as Department Head and Chairman of Obstetrics and Gynecology at Shore Memorial Hospital in Somers Point. He writes that his daughter, Joy, at 14, has decided she wants to be a “Jeff Person.”

Howard C. Mofenson has been appointed Acting Dean of the Nassau County Medical Center, a clinical campus of the State University of New York at Stony Brook. Awarded the “outstanding faculty teaching award” for 1981-82, he is Professor of Clinical Pediatrics at the Medical School. Dr. Mofenson is Director of Pediatric Pharmacology and Toxicology at the Center, Director of the Long Island Regional Poison Control Center and was appointed to the Toxicology Advisory Board of the Consumer Products Safety Commission in 1982. The Professor has published over 100 articles and chapters in medical texts on pediatric
pharmacology and toxicology, and is certified in pediatrics and medical toxicology. The Mofensons have three children: a daughter a pediatrician, a son a computer engineer, and the youngest daughter an art major.

Bruce W. Raffensperger, 400 Bellaire Ave., Ft. Washington, Pa., is President of the Medical Staff of Chestnut Hill Hospital for 1982-83.

Frank J. Sweeney, Vice President for Health Services and Director of the TJUH, has been elected Chairman of the Board of Regents of the American College of Physicians. (see p. 26)

1952

David M. Barry, Department of Neurosurgery, St. Joseph Hospital, Providence, R.I., spent three months as a Visiting Professor of Neurosurgery at Dartmouth Medical School.

William Stepansky, 2000 Valley Forge Ct., King of Prussia, Pa., writes that his four sons are doing well. Paul is having his book published, From Psychoanalysis To Community Feeling. Alan is a cellist with the Boston Symphony Orchestra. David ‘78 has an internal medicine practice in the Phoenixville, Pennsylvania, area. Robert is "rapidly advancing" as a computer analyst.

1953

Jerome Abrams, 190 Greenbrook Rd., North Plainfield, N.J., spoke to the Department of Obstetrics and Gynecology of the Gorgas Hospital in Panama this past February on colposcopy and cytology in the early diagnosis of premalignant disease of the uterus.

Richard G. Barr is Chairman of the Department of Pediatrics at Crozer-Chester Medical Center in Chester, Pennsylvania, and is Professor of Pediatrics at Hahnemann Medical College. In addition, he has a pediatrics practice. Dr. Barr is the proud father of seven children and two grandchildren. "Looking forward to our 30th class reunion this June!"

Lansing H. Bennett, U.S. Embassy, Tokyo, ALCD APO, San Francisco, is the Medical Officer for the U.S. Embassy in Tokyo, covering South Korea, Philippines, Taiwan and Hong Kong.

Franz Goldstein, 707 Arlington Rd., Narberth, Pa., is proud of his son, Richard '82, who is serving his first year of a surgical residency at Vanderbilt. Dr. Goldstein had a challenging year as President of the American College of Gastroenterology.

John H. Harris, Jr., Professor of Radiology at the University of Texas Medical School at Houston, has been appointed Chairman of the Department of Radiology. He was elected Chairman since the Board of Regents of the American College of Physicians. (see p. 26)

John M. Levinson, 1828 Wawaset St., Wilmington, De., has been elected President of PSRO of Delaware, which is rated one of the top PSROs in the country. Dr. Levinson recently returned from Vietnam (see JAB Winter '83), where he attended an international conference on chemical warfare. He writes that the cost containment in medicine consumes much of his time and interest now.

Desert Delegates

The first meeting of the Saudi Arabian section of the Alumni Association of Jefferson Medical College was held in the Arabian desert on Friday, February 4. My colleague, R. Max Gingrich, M.D. '53 (right) and I are associated with the medical staff of the King Abdulaziz Air Base Hospital in Dhahran in the eastern province of the kingdom. Dr. Gingrich is doing orthopaedic surgery and I am the hospital's anatomic pathologist. His lovely wife, Virda, and my wife, Rita, are here for a prolonged visit. I am sorry to write that we were unable to elect a President of our chapter, as both candidates received one vote for a tie. Perhaps we'll be more successful at future meetings. Best wishes to all at Jefferson and especially to our classmates in '53 and '55.

Joseph P. O'Connell, M.D. '55
Rutgers Medical School. Dr. Rubin is an Examiner for the American Board of Colon and Rectal Surgery.

Joseph W. Simpson, 2391 Hickory Rd., Plymouth Meeting, Pa., passed the third anniversary of his triple by-pass at Jefferson in October 1979. Dr. Simpson remains active as Chief Consulting Physician with the Consolidated Rail Corporation in Philadelphia.

Frederick S. Wilson, 1338 Jericho Rd., Abington, Pa., is working with classmate Robert Doyle in the Clinical Research and Development Department of Wyeth Laboratories.

1954

John W. Goldschmidt has been appointed Vice President and Medical Director of the National Rehabilitation Hospital, a 160-bed hospital proposed for construction on the grounds of the Washington Hospital Center in Washington, D.C., this summer. When the Hospital opens in 1985, it will be the first hospital in the region devoted exclusively to comprehensive medical rehabilitation of the physically disabled. Currently, Dr. Goldschmidt is Associate Medical Director and Director of Research and Education at the Rehabilitation Institute of Chicago.

Joseph B. Green has been appointed Chairman of the Department of Psychiatry and Neurology at Tulane University School of Medicine. He has held this post since January 1982. Prior to this, he was at the Medical College of Georgia.

Stanley R. Kern, 57 N. Wyoming Ave., South Orange, N.J., is currently President of the New Jersey Psychoanalytic Society and Treasurer of the New Jersey Psychiatric Association. Part of his activity is in the area of forensic psychiatry.

1955

J. Philip Nolan, 268 Pepper Rd., Huntingdon Valley, Pa., has been named Director of the Department of Obstetrics and Gynecology at Holy Redeemer Hospital in Meadowbrook. He served as President of the staff from 1975 to 1977. Dr. Nolan's son, John P. Nolan, graduated from Jefferson in 1982 and will begin a residency in orthopaedics shortly.

Leon A. Peris, Clinical Associate Professor of Obstetrics and Gynecology at Jefferson, has been elected President of the Volunteer Faculty.

J. Donald Schultz, RD #1, Box 250, Shelburne, Vt., has been elected President of the Vermont Chapter of the AAFP, after serving as Program Chairman for 1982. "Still very much enjoying my full-time practice as one of a four-physician group serving the students at the University of Vermont. Our three offspring are gradually leaving the nest. My wife and I had a wonderful four weeks in Germany, Austria and Switzerland this past summer—a wonderful experience that helped re-create us and enlarge our horizons."

1956

Thomas G. Doneker, 555 Spring St., Bethlehem, Pa., represented Jefferson at the inauguration April 16 of Peter Likins as the eleventh President of Lehigh University.

Robert J. Maro, Rt. 70 and Covered Bridge Rd., Cherry Hill, N.J., has been elected President of the Camden-Gloucester Academy of Family Physicians. The Maros have five children and five grandchildren, with one on the way.

1957

Norman Berger, 200 N. Union Ave., Havre De Grace, Md., writes that his son is in his freshman year of pre-med at Franklin and Marshall College.

Robert S. Brodstein, 3343 Baker Dr., Ogden, Ut., and his wife, Geri, had an exciting trip to China. Son, David, a senior at the University of Colorado, has been accepted into the 1983 freshman class at Jefferson. Daughter, Diane, is a ski instructor and sophomore at the University of Colorado.

Ronald M. Match, 7 Whitney Ci., Glen Cove, N.Y., is Vice President of the New York State Society for Surgery of the Hand and an active member of the American Society for Surgery of the Hand. At the Jefferson orthopaedic meeting last November, Dr. Match presented "The Management of Complicated Thumb Fractures."

1958

John T. Antolik, 19 West Maiden Ln., Somerdale, N.J., writes that his oldest son, John, is in his second year at Delaware Law School and that his daughter works in his office as a secretary. Dr. Antolik hopes to see all of his classmates at their 25th reunion in June.

Alfred R. DeCato, 3137 Lake Rd. W., Ashtabula, Oh., was elected Chief of Surgery at Ashtabula General Hospital this past December.

George A. Griggs, 6 Oxford Mews, Poquoson, Va., writes that he is enjoying tidewater Virginia and the Chesapeake. He is Chief of the Pulmonary Section of Hampton VA Medical Center and Associate Professor of Medicine at Eastern Virginia Medical School.
Hawaiian Holiday

Although the entire week in Hawaii was deemed an outstanding success, almost all marked the Chinese Banquet on the final Sunday as the highlight. Hosted by the alumni “Islanders” for the “Mainlanders,” the banquet had 140 present: 70 on the Jefferson Postgraduate Seminar and 70 Hawaiian alumni. When it is realized that only 45 reside in the state, it is easy to ascertain participation and interest.

The dinner held at the Oceania, an Aberdeen-type restaurant in Honolulu Harbor, was preceded by a cocktail hour. Host alumni served the banquet delicacies.

Norman J. Quinn, M.D. ’48, President of the Alumni Association, taking the podium, called for rousing thanks to both Robert T. Wong, M.D. ’36, the State Vice President and the event’s organizer, and the hosting Hawaiian alumni. Standing ovations aptly expressed the feelings of the guests. The President also presented Dr. Wong with a Jefferson banner, the only one away from campus. In addition, Dean Leah Lowenstein was introduced to the alumni and she showed a new film on the advances at Jefferson. It was certainly a sparkling evening.

Other highlights of the trip were the stay on Maui, where a luau welcomed guests the first evening. While there, alumni also viewed whales in migratory patterns from a catamaran. On the island of Kauai, many took advantage of the helicopter ride to view the spectacular coast of NaPali and Waimea Canyon. The medical sessions were equally well received, with many area physicians presenting an outlook of medicine on the Islands. Robert C. Mackowiak, M.D. ’64, coordinated this aspect of the program.

Already the Travel Committee is making plans for 1984.

“A hui Kou Kakou” (Until we meet again)

Aloha

Richard J. Hanratty, 6 Lamplight Ln., Rochester, N.Y., has given up his family practice to join the medical department of Eastman Kodak Company.

Jay M. Hughes, 2025 Summerland Ave., Winter Park, Fl., writes that he is greatly looking forward to his 25th class reunion this June. “Let’s make it a good one!”

Anthony T. LeDonne, 26221 Hitching Rail Rd., Laguna Hills, Ca., writes that he loves living in California. His daughter, Marilyn, received a B.S. in nursing last May. Daughter, Rose Marie, is attending pharmacy school at U.S.C. in Los Angeles. Daughter, Diane, and son, Anthony Jr., are both business majors.

Lloyd G. Plummer, Medical Pavilion, 559 Shearer St., Greensburg, Pa., has moved back to Greensburg to practice obstetrics and gynecology. “See you at the 25th class reunion in June!”

1960

Marvin E. Jaffe, 2100 Packard Ave., Huntington Valley, Pa., has been named Clinical Associate Professor of Neurology at Jefferson.

John B. Nevara, 4501 Arista Dr., San Diego, writes that daughter, Cherie, who was born at Jefferson, is now a freshman at the Medical School. The Nevaras enjoyed their visit to Jefferson last fall to attend Opening Exercises, especially meeting the new Dean, Leah M. Lowenstein, M.D., D.Phil.

1961

Peter J. Cera, Jr., 303 Water St., Danville, Pa., is the Associate Director of the Department of Pathology at Geisinger Medical Center.

Francis J. Fanfera, 15 Industrial Blvd., Paoli, Pa., has been re-elected Chairman of the Department of Surgery of Paoli Memorial Hospital.

Steven R. Homel, 2469 East 7000 South, Salt Lake City, Ut., has recently formed the Center for Health Education, a non-profit corporation for research, development and consultation. It provides information, education and training services to a wide spectrum of the Utah community concerned with the health of families, organizations and regions. Dr. Homel maintains a private practice for pediatrics and adolescent health. Over the years he has served as Consultant to agencies in 26 states, including school districts, curriculum development teams and regional planning inter-agency groups. He also served on the President’s Committee on Health Education.

Raymond L. Sphar, Jr., 2475 Virginia Ave., N.W., Washington, D.C., relieved classmate James Vorosmarti as Commanding Officer of the Naval Medical Research Institute in Bethesda, Maryland, at ceremonies in January. Dr. Sphar is a Captain in the United States Navy.

James Vorosmarti, 16 Orchard Way S., Rockville, Md., began a new position as Assistant for Medical Research to the Undersecretary of Defense for Research and Engineering in January and moved to the Pentagon from the Medical Research Institute.

1962

W. Lawrence Drew, 2345 Spanish Trail Rd., Tiburon, Ca., has been active in conducting research on cytomegalovirus. His five children range in age from 5 months to 16 years. Dr. Drew has won the world championship in the Knarr Sailing Class vs. Norway and Denmark.
Norman A. Goldstein, 15 S. Spring Ln., Phoenixville, Pa., is President of the Chester County Medical Society.

Paschal J. LaRuffa, 2300 Yardley Rd., Yardley, Pa., has been elected to the Executive Council of the Society for Adolescent Medicine for a three-year term.

Robert J. Neviser, 14620 Seneca Dr., Germantown, MD., Professor of Orthopaedic Surgery and Director of Orthopaedic Education at George Washington University Medical Center, was not identified as a member of the Cosmos Club in the article in the Winter issue of the JAB. His election was based on his position at George Washington since 1976 as well as a long list of publications. As he writes “since the article suggests the level of recognition one must achieve in order to become a member, I am sure you can appreciate his sense of accomplishment which each of us has upon being elected to membership.” (The Editor is pleased to correct this error and apologizes to Doctor Neviser).

David E. Rosenthal, 1726 Clinton Dr., Wyncote, Pa., spent a week last November in California and saw the family of late classmate Jerry Rosenberg. “His wife, Dot, is happily married, and the kids are doing very well.”

Joseph W. Sokolowski, Jr., 618 Chester Ave., Moorestown, N.J., has been appointed the Representative Council from New Jersey to the American Horsecar Society.

1964

Lawrence Green, 315 Maple Ave., Swarthmore, Pa., is currently Chief of the Division of Neurology at Crozer-Chester Medical Center. As of December, Dr. Green completed his two-year position as President of the Bernard Alpers Society for Clinical Neurology.

Charles W. Nichols, 806 Old Gulph Rd., Bryn Mawr, Pa., has been appointed Deputy Chief of Ophthalmology at the Hospital of the University of Pennsylvania. Dr. Nichols is the 1975 recipient of the Lindback Award for Distinguished Teaching from the University of Pennsylvania.

Richard D. Shapiro, 6177 Sodom-Hutchings Rd., Girard, Oh., just stepped down as a member of the Executive Committee of St. Joseph’s Hospital and is a member of the Board of Trustees of Rodiff Sholom Temple. Dr. Shapiro played an active role in the re-election of Congressman Lyle Williams (R-Ohio). The physician’s daughter is a freshman at Northwestern University.

John P. Whitecar, Jr., Rt. 1, Box 24, Helotes, Tx., is practicing medical oncology in San Antonio and is currently pursuing an M.B.A. at UTSA. Dr. Whitecar and his wife, Kathy, have four “great” children. His oldest, 15, is a champion hunter rider who plans on being a veterinarian.

1965

Nathan B. Hirsch, 5420 S.W. 95th Ter., Miami, and his three-man ob/gyn group practice have opened a new office in South Miami, next door to their hospital.

Bruce D. Hopper, 688 Conestoga Rd., Berwyn, Pa., is practicing obstetrics and gynecology in a four-man group in Bryn Mawr and is “enjoying the baby boom.”

Antonio Ramos-Umpierre, Francia C-3 Garden Ct., Guaynabo, P.R., writes that his son is in his first year of premed at the University of Pennsylvania.

Wayne D. Seipel, Rt. 7, Box 242, Winchester, Va., is enjoying his urology practice in the Shenandoah Valley. He is busy with farming, kayaking the Shenandoah River, hiking the Appalachian Trail, playing racquetball and running all the “10-Ks” he can find. Both of his children are in high school now and his wife, Penny (RN’64), is the “leading farm wife manager and roller-skater in the area!”

Richard P. Wenzel, 1940 Fox Run Ln., Charlottesville, Va., Professor of Internal Medicine at the Medical Center of the University of Virginia and Head of the Hospital’s Epidemiology Department, heads a team of physicians, nurses and technicians that is controlling a new infectious organism that resists penicillin. In recent issues of the Annals of Internal Medicine, Dr. Wenzel and a colleague reported that the Hospital is the first and only one to control convincingly the infectious organism, and explained how it was done.

William B. Wood, 80 Oakwood Dr., Mankato, Mn., writes that his anesthesiology practice continues to grow as does his family, with the birth of his sixth child, Julianne, on October 25, 1982.

1966

James F. Burke, Jr., 246 Wyncoate Rd., Jenkintown, Pa., has been promoted to Clinical Professor of Medicine at Jefferson.

Burton Mass, 657 Oak Shade Ave., Elkins Park, Pa., was recently inducted into the Chapel of the Four Chaplains’ Legion of Honor.

Roger D. Raymond, 6 Bittersweet Ct., Barrington, R.I., reports that he is enjoying the practice of cardiology at Rhode Island Hospital.

Howard Silberman, 433 Kelton Ave., Los Angeles, Associate Professor of Surgery at the University of Southern California in Los Angeles, recently completed a book titled: Parenteral and Enteral Nutrition for the Hospitalized Patient. He is the co-author with Dr. Daniel Eisenberg. The book was published by Appleton-Century-Crofts this past September.

1967

John V. Zeok, 1820 Hunting Ridge Rd., Raleigh, N.C., joined Alvan W. Atkinson ’71 this past year in the practice of cardiac and vascular surgery.

1968

Raphael J. DeHoratus, 667 Sproul Rd., Villanova, Pa., has been named Interim Chairman of the Department of Medicine at Hahnemann University, a position he will hold through June.
Dr. DeHoratius is Professor of Medicine and Director of the Division of Clinical Immunology at Hahnemann. He directs the lupus research laboratory that is funded by the Commonwealth of Pennsylvania and the Lupus Foundation.

Carl J. Pergam, 8565 Cedar St., Omaha, NB., ran his second marathon in Lincoln on May 9, 1982 to celebrate his 40th birthday. His time was 3:41:41.

1969

William G. Chodoff, 1605 S. 8th St., Philadelphia, Clinical Assistant Professor of Pediatrics at Jefferson, has been appointed Medical Director of the Children and Youth Program of Thomas Jefferson University Hospital. The program provides care to mostly inner-city youths up to 20 years old. Dr. Chodoff has been Acting Director of the Program since July 1982.

Michael J. Ginieczki, 620 Shore Rd., Somers Point, N.J., was the 1982 President of Shore Memorial Hospital Medical Staff.

Kenneth L. Wible, 670 Colonial Dr., Morgantown, W.V., is the new Chairman of the West Virginia Chapter of the American Academy of Pediatrics. Dr. Wible, Associate Professor in the WVU School of Medicine, took office for a three-year term at the Academy's recent national convention in New York City. Dr. Wible joined the WVU faculty in 1969 and is Director of the Medical Center's pediatric group practice.

1970

Steven A. Klein, 33 Shepherd Ln., Roslyn, N.Y., is in his third year as Director of Maternal-Fetal Medicine and Chief of Obstetrics at Nassau Hospital in New York. He was board certified in maternal-fetal medicine last year and continues as Assistant Professor of Obstetrics and Gynecology at S.U.N.Y. at Stonybrook. He and his wife, Daniela, have two children, Barak and Alexa.

Barry J. Make, 19 Carlton Rd., Waban, Ma., has been promoted to Associate Professor of Medicine in the Pulmonary Section at Boston University School of Medicine. His second son, Jeremy Simon, was born November 25, 1982.

John T. Martsolf, U.N.D. School of Medicine, Dept. of Pediatrics, 501 Columbia Ave., Grand Forks, N.D., has become board certified as a Clinical Genetist by the American Board of Medical Genetics.

John R. McCloskey, 11 Seaview Dr., Longport, N.J., is an orthopaedic surgeon in Somers Point, New Jersey. He is President-elect of the Shore Memorial Hospital Medical Staff.

Rogers D. McLane, 316 E. Presqueisle St., Philipsburg, Pa., writes that after being back in Pennsylvania since March 1982, he is thoroughly enjoying his new medical practice at Moshannon Valley Medical Group. He is also enjoying the change in climate and topography from Southern Texas, where he had been living for the past five years.

Marie Olivieri Russell, 5 Orchard Ln., Wallingford, Pa., is now in general pediatrics and hematology-oncology practice in Delaware County. The Russells (he is Edward R. Russell '72) are the parents of four children, who range in age from 9 to 1.

Judith P. Schwartz, 7017 Falling Springs Rd., Fort Worth, Tx., is busy working part-time at the Child Study Center in Fort Worth and chauffeuring four active children. Dr. Schwartz is married to Burton W. Schwartz '67.

Nathan O. Thomas, 349 Main St., Meyersdale, Pa., continues in his solo family practice. He is the father of five daughters, ranging in age from 1 to 11.

1971

Alvan W. Atkinson, 3400 Executive Dr., Raleigh, N.C., writes that he is doing great in the practice of cardiac and vascular surgery with his associate, John V. Zeok '67, who joined him this past year.

Richard W. Bagge, 3126 Bransford Rd., Augusta, Ga., recently received board certification in psychiatry.

Robert E. Chandlee, 2099-C Powers Ferry Rd., Marietta, Ga., has been serving as Vice-President of the Atlanta Radiological Society for 1982-83.

George W. Dennish, III, 950 Santa Helena Dr., Solana Beach, Ca., is Director of the Special Care Units at Scripps Memorial Hospital in La Jolla and is Assistant Clinical Professor of Medicine at U.C.S.D. He is also Chief of Medicine at Scripps-Encinitas. Dr. Dennish and his wife, Kathleen, now have three sons who range in age from 19 months to 9 years.

Henry M. Feder, Jr., 5 Carrington Ln., Farmington, Ct., has been promoted to Associate Professor of Pediatrics and Family Medicine at the University of Connecticut.

Lowell E. Kobrin, North Bend Medical Ctr. Inc., 1900 Woodland Dr., Coos Bay, Or., is one of 13 photographers on exhibit at Coos Art Museum. During his medical training, Dr. Kobrin worked considerably in scientific macro- and microphotography. His prints have received numerous awards and have been published widely. Most recently one of Dr. Kobrin's Kodachromes was used to prepare a signed, limited edition graphic poster to commemorate the 1982 Oregon Coast Music Festival.

Barry H. Penchansky, 2444 Butter Rd., Lancaster, Pa., is opening a small private office at his home in addition to working with the South East Lancaster Health Services.

Richard P. Schwimmer, 182 Dover St., Brooklyn, N.Y., is a pediatrician. He and his wife, Helen, an interior designer, have three children: Josh, 10, Sara, 6 and Andrew, 2.

Arthur S. Tischler, 40 Hawthorn Rd., Brookline, Ma., is an Assistant Professor of Pathology at Tufts University Medical School. He says he is writing "lots of papers about adrenals—the glands of mystery and adventure." Last fall, Dr. Tischler was invited to speak at a symposium in London. "I wish more of my classmates would contribute Bulletin notes. I miss the '60s."

1972

William D. Boswell, Jr., 10280 Cheviot Dr., Los Angeles, was recently appointed Vice Chairman of the Department of Radiology at the University of Southern California.

Sanford Fitzig, 243 Post Oak, Wichita, Ks., a urologist, is involved in a building program for the Wichita Clinic, a 77-doctor multispecialty group.

Martin J. Fliegelman, 5340 S. Kenton Ct., Englewood, Co., is busy in his six-man pulmonary practice. "Give us a call if you get out here for skiing."

Bruce L. Gewertz, 5812 S. Harper Ave., Chicago, and his wife, Joanne, are celebrating the birth of their sec-
Reed R. McCurdy, 219 Country Club Ln., Wallingford, Pa., announces the birth of his third child and first daughter, Ann Marshall, on June 14, 1982. She joins brothers, Richie, 6 and Danny, 4.

Sandra Slade Mossbrook, 1099 Berkshire Rd., N.E., Atlanta, is a full-time locum tenens freelance in pediatrics both in Atlanta and abroad. She spent last summer in Wyoming and this past winter in Maine. "I'm also enjoying the restaurant business and have been promoted to Sous-Chef at Theda's Restaurant in Atlanta."

Edward R. Russell, 5 Orchard Ln., Wallingford, Pa., is Chief of Surgery at Sacred Heart Hospital in Chester, Pennsylvania.

Barry P. Skeist, 575 Main St., Roosevelt Island, N.Y., had a visit recently from classmate Sandra S. Mossbrook, who flew up from Atlanta with her husband in their own Beechcraft.

1973

Norman H. Braslow, 269 Barwynne Ln., Wynnewood, Pa., has been promoted to Clinical Assistant Professor of Medicine at Jefferson.

Thomas M. Clemens, Box 182, Mt. Gretna, Pa., is President of his local medical society. His three children are: Ann, 8, Kevin, 6 and Carol, 1.

Jeffrey J. Dekret, 217 S. Bonsall St., Philadelphia, was appointed Director of Psychiatric Inpatient Units at Thomas Jefferson University Hospital in July '82.

Barry Gordon, 4340 Roland Springs Dr., Baltimore, has established a cognitive neurology/neuropsychology clinic at Johns Hopkins to evaluate disorders of memory, language and other higher functions.

Anton P. Kemps, 123 Mountwell, Haddonfield, N.J., is Medical Director of the Camcare Health Corporation in Camden. Dr. Kemps was recently appointed Clinical Assistant Professor of Medicine at Rutgers Medical School. His wife, Tina, and three children (Tonia, Gerrit and Sean) are fine.

Mark S. Pascal, 1349 Mercedes St., Teaneck, N.J., has been appointed Acting Director of the Department of Oncology at Holy Name Hospital in Teaneck.

Cyril M.J. Puhalla, 120 Allen St., Dunmore, Pa., is now practicing in Scranton, Pennsylvania. He is Clinical Director of Adult and Family Services and Clinical Psychopharmacology Division of Scranton MH-MR Center. Dr. Puhalla is also a Consultant Child Psychiatrist and Staff General Psychiatrist of Community Medical Center of Scranton.

1974

Albert L. Blumberg, 37 Stonehenge Ct., Baltimore, is Associate Chief of the Department of Radiation Oncology at the Greater Baltimore Medical Center. He is the proud father of Jenny Ann, who was born in November.

Paul S. Zamostien, 517 Ramblewood Dr., Bryn Mawr, Pa., announces the birth of Jill Alexis, who arrived July 16.

Theresa A. Burt, 700 Ardmore Ave., Ardmore, Pa., is practicing gastroenterology with Bryn Mawr Medical Specialists in Bryn Mawr.

Raymond P. DiPhillips, 1418 Carcaran St., N.W., Washington, D.C., has been named a Junior Attending in Medicine at The Washington Hospital Center.

Linda Cunningham Sundt, 9 Walsh Rd., Lansdowne, Pa., and her husband, Dan, are proud to announce the birth of their son, Adam Daniel, on August 8.

Arnold J. Willis, 513 Tobacco Quay, Olde Towne, Alexandria, Va., has been appointed to the Professional Advisory Board of the National Kidney Foundation. He writes that he and his wife are enjoying life in Washington, D.C.

1975

Gary S. Clark, 28 Crestview Dr., Pittsford, N.Y., and his wife, Janet, are happy to announce the birth of their daughter, Juliane Elizabeth, on December 2. "We are thriving in our relaxed, western New York lifestyle."

James C. Delechanty, 102 Cobb Medical Bldg, Belfast, Me., announces the birth of his third son, Jay Charles, who arrived December 2, 1982.

Eugene P. Hughes, Jr., 210 E. Meade St., Philadelphia, has been named Clinical Assistant Professor of Surgery at Jefferson.

Lawrence M. Hurvitz, 1950 Arlington St., Sarasota, Fl., and his wife, Linda, announce the birth of David Louis, who arrived in September.

Thomas M. Malachesky, RD #1, Box 309, Coudersport, Pa., is now a pathologist at Cole Memorial Hospital.

Phyllis J. Morningstar, P.O. Box 5877, Belleville, Pa., is now Phyllis M. Sikorsky, according to Robert W. Lamparter '76.

Alexander P. Pedicino, 988 Carriage Ln., Huntingdon Valley, Pa., is enjoying his solo family practice at Holy Redeemer Hospital. His wife, Rose, and children, Nicole, 6, Mike, 3 and Matt, 2, are doing well.

Edward S. Schulman has been appointed an Assistant Professor of Medicine at Jefferson.

Michael P. Stewart, 514 Main St., Clark Green, Pa., is practicing general and peripheral vascular surgery in Scranton, Pennsylvania. He is a Diplomat of the American Board of Surgery. His first child, Michael Paul, was born in March 1982.

David O. Thayer, RD 4, Cosmos Heights, Cortland, N.Y., received certification from the American Board of Obstetrics and Gynecology in November 1981. He is in his third year of practice with Ob-Gyn Associates of Cortland. Last July, Dr. Thayer became Medical Director of the Cortland County Family Planning. He is also on the Consulting Staff of the State University College at Cortland in the Sports Medicine Department.

1976

Jonathan B. Belmont, 403 Stonybrook Dr., Norristown, Pa., has joined the medical staff of North Penn Hospital,
It was the blizzard of 1983 and New York was at a standstill—almost. Kicking up a storm of their own were Kathleen M. Kogut, M.D. '77 and friends, who comprise a folk dancing group not easily discouraged from meeting, ill weather or not.

On this particular Sunday night, like every Sunday before, Dr. Kogut sheds her operating gown from Metropolitan Hospital-New York Medical College and heads out to Columbia University to pattern the intricate steps of traditional folk dances from early evening until midnight.

The Attending and Instructor in General Surgery has been dancing since her student days at Jefferson, when she was a participant in the five-year Penn State-Jefferson plan. As a fourth-year student, she literally wandered into folk dancing at the local “Y” just a few blocks from campus.

“I was a pure beginner, but quickly realized how much I enjoyed the dancing,” the Northeast Philadelphia native remembers. “There’s a folk dancing grapevine, so it was easy to venture into other folk dancing groups and teaching sessions while in Philadelphia.”

Upon graduation from the Medical College, Dr. Kogut moved to New York for her residency at St. Vincent’s Hospital. She arrived in the city during the afternoon and by that evening, was folk dancing. And ever since, she’s been dancing every opportunity her medical career allows.

In addition to her Sunday nights at Columbia, the physician belongs to a small all-woman Bulgarian dance troupe which performs regularly. And during the summer, Dr. Kogut can be spotted on Sunday afternoons in Central Park as an eager member of a recreational group that forms somewhat spontaneously around folk dance enthusiast Marvin Tabak, his taped music and park permit.

An article in The New York Times on the park dancers quoted Dr. Kogut as saying the dancing offered a little relief from the “all-encompassing” life style of medicine. She still enjoys the park gatherings, especially the aspect of dancing outside.

“We sometimes have over a hundred dancers in the park and passersby are always joining in,” says Dr. Kogut, who as one of the heartier regulars dances from May until well into November, rain or shine. “New dancers follow behind the line and usually join in after watching for a while. But as the afternoon goes on, the dances become more complex. The unwritten etiquette of folk dancing says you follow behind the line until you know the steps.”

Dr. Kogut is one who knows. At Columbia, dressed in full skirt and traditional soft leather dancing slippers, she falls into step, long straight ponytail in flight behind her. She is urged to lead the line, with the duty of calling each dance’s variations, as each person links with the next by holding onto loose-fitting belts. The music begins and a swirl of lines and circles webs throughout the room behind her as the cat’s cradle of feet proceeds.

A newcomer amidst this group has nowhere to hide. Cowering against the wall is frowned on and the weak of feet are quickly swept into the labyrinth with remarkable patience. By the last note of the dance, the novice has just begun to master the proper sequence of glides, hops and turns only to discover that with the start of the next melody, alas, a new pattern must be learned.

An evening of steps with the fleet Dr. Kogut is decidedly international in flavor. She passes easily from a Swedish Hambo to a Macedonian Zensko Krivoto to a Bulgarian Plovdivska Kopanitsa. Or should the folk tune be Israeli, Rumanian, Yugoslavian, Polish,
Greek, Turkish or Russian, chances are she knows the footwork.

"But I am primarily a Balkan dancer," she says, despite her Polish heritage. "I like the vigorous, unusual rhythms found in the traditional folk melodies of Bulgaria."

When first in New York, Dr. Kogut joined a Yugoslavian dance group under George Tomov, a well-known folk dance leader. "But the group was too big and with a resident's schedule, I couldn't attend regularly. I was on call every other night."

Three years ago she became the fifth member of her current eight-woman Bulgarian troupe, which works out of St. Cyril and Methody, an Eastern Orthodox Church. The dance group's originator is member Liliana Budu, a native Bulgarian who knows the folk dance choreography of her homeland. She is married to a Hungarian pilot stationed in the United States.

"The tradition of dance is very alive in Bulgaria and each town has its own amateur dance ensemble," Dr. Kogut says. "There are traditional women's and men's dances. The distinction in style is that the men's tend to be more athletic."

The dances of Bulgaria can also vary by region or custom, producing a blend of Macedonian and Russian influences. For example, the Lazarki is the traditional dance for the Feast of St. Lazarus, one week before Easter. In one town, the young women bring presents to the housekeepers of the village. The dance represents this ritual.

Demonstrating a Bulgarian dance, Dr. Kogut sweeps a handkerchief from her belt and begins a fury of steps and gestures in sync with the rhythmic music. There are about eight common Bulgarian dance rhythms, she explains, each with a name. The Pravo, for instance, is a ¾ rhythm or "long-long" step, whereas the Pajdushko, a ½ rhythm, is a "short-long" step.

Mastering these rhythms is possibly as difficult as mastering their pronunciation, which is one reason Dr. Kogut is studying the Bulgarian language.

"St. Martin's Church is entirely Bulgarian, so when we dance I want to be able to speak with the people there," she says. Eventually, she hopes to travel to the Balkan country with her dance group.

Her ensemble rehearses on schedule and performs at folk festivals in traditional costumes. They have appeared at New York's One World Festival, outside at Lincoln Center and on the lawn of the White House. Unfortunately, the physician was unable to participate in the latter trip.

They perform with a group of musicians who play traditional instruments such as the kavel, a type of flute, or the violin-like gudukla. The dancers sometimes sing as they perform, but contend it is difficult to do both.

Mixing folk dancing and medicine, however, is a talent Dr. Kogut has achieved. In addition to her teaching and practice at Metropolitan Hospital, she is involved in research on cirrhosis of the liver.

At home, Dr. Kogut lives on Manhattan's East Side with her husband, Robert C. Garrett, M.D. '76, a fellow graduate of the Penn-State/ Jefferson program and a pulmonary specialist at New York Hospital's Cornell Medical Center. The couple owns, or is owned by two rather impudent cats. Their apartment contains the warmth of comfortable surroundings, marked by the objects of their collective occupations and interests.

"I tried folk dancing," Dr. Garrett admits, "but it just isn't right for me. I'd rather spend my time with the chess board."

A handsome wood chess board against the wall attests to his word. Dr. Kogut says she has no talent for the game. But together, the physicians enjoy their new computer, a Christmas gift complete with screen and printer, and cooking. A trip to India last year supplied them with recipes to keep their kitchen filled with the aromas of spices from far-off lands.

The physicians are also avid wine makers, as evidenced by two large jugs, each filled with 10 gallons of bounty from this past year's harvest. They toured wineries for their grapes and hope someday to have their own vineyard.

For now, they will settle for small-scale wine making and chess and of course, folk dancing. So every Sunday Dr. Garrett will pack Dr. Kogut off to Columbia, where she can whisk through an evening of Balkan or Greek or Swedish steps. She also does one traditional American couple dance quite well. They call it Disco.

specializing in ophthalmology.
Dr. Belmont completed his residency at Wills Eye Hospital.

Charles N. Burns, Jr., 31 Butler St., Kingston, Pa., submitted three cases for presentation at the American Urological Association meeting this April in Las Vegas. The titles are: "Results of Evaluation and Reoperation for Failed Peyronie's Disease Surgery," "Classification and Standardization of Urethral Strictures," and "Evaluation and Treatment of Hypospadias Cripples." Dr. Burns has passed the written exam of the Boards. He spent one year with his father, Charles, Sr. '41, and is now on a radiation and reconstructive urology fellowship.

Scott M. Goldman, 1360 Woodland Rd., Rydal, Pa., will be spending the final year of his Jefferson residency in cardiothoracic surgery in Denver doing pediatric heart surgery.

Stewart G. Gottstein-Eidelson is in an orthopaedic residency at Geisinger Medical Center.

Raymond A. Klein, 3611 Perkiomen Ave., Reading, Pa., has a solo practice and recently passed his boards in obstetrics and gynecology.

Kathy T. Kline, ANC-PAT, P.O. Box 7-741, Anchorage, Ak., writes that she is having a wonderful time as the pathologist for the Alaska Area Native Health Service.

Robert W. Lamparter, RD #5, Danville, Pa., wrote the Alumni Office following receipt of the new Directory with news that he now is a pathologist at Sunbury Community Hospital. (Classmate Ivor Lewis also practices there.) He switched from general surgery in 1978 and completed his pathology training at Geisinger Medical Center. Dr. Lamparter passed his boards last December.

Nancy M. Satur, 3264 Rumson Rd., Cleveland Heights, Oh., has finished her dermatology training as Chief Resident at Case Western Reserve University Hospital. She is currently on the faculty part-time. She and her husband are enjoying their son, David Nicholas, who was born in February 1982.

Michael E. Stillabower, 107 Westgate Dr., Wilmington, De., has been named an Instructor of Medicine at Jefferson.

Johannes D. Weltin, 243 Washington Ave., Kingston, N.Y., is pleased to announce the birth of his second child, Rebecca Beth, on August 14, 1982. In
January, Dr. Weltin planned to move into a larger, newly renovated office. He sends regard to all his classmates.

1977

Cynthia B. Altman, 3901 Conshohocken Ave., Philadelphia, Director of Project Management and Strategic Planning for Smith Kline & French Laboratories, was a guest speaker at the American Pharmaceutical Association Academy of Pharmaceutical Sciences 33rd National Meeting in San Diego this past November. She spoke on “Kinetics and the Clinical Therapeutic Ratio.”

Carl A. Barbee, P.O. Box 509, Hailey, Id., writes that he is doing well in Sun Valley with his busy family practice that is continuing to grow. “Tons of snow this year...and the skiing was excellent!”

John D. Bartges, 430 Parkwynn Dr., Lancaster, Pa., and his wife, Hannah, announce the birth of Megan Aimee on October 25, 1982. Megan joins sisters, Kristin, 5, and Lauren, 3.

James F. Burke, 701 Powder Mill Ln., Philadelphia, has been named an Instructor of Medicine at Jefferson.

Thomas J. Campfield, 2094 East 3205 South, Salt Lake City, Ut., and his wife, Deborah, announce the birth of a daughter, Amy Elizabeth, who arrived last September.

Leopoldo E. De Luca, 2626 Woodland Dr., Ft. Dodge, Ia., and his wife, Judy, announce the birth of daughter, Lauren Denise, who arrived in October.

John J. Dulcey, 1501 Susan Dr., Lansdale, Pa., began an internal medicine practice this past January in Sellersville, Pennsylvania, at Grandview Hospital. He and his wife had their first child, Patrick, last July.

Richard A. Flanagan, Jr., 2559 Channing Rd., University Heights, Oh., writes that he and his wife, Debbie (RN’77), greatly enjoyed his fifth class reunion last summer. He has resumed his training in general surgery at the Cleveland Clinic.

Jean A. Halpern, 1206 W. 32nd St., Cheyenne, Wyo., announces the birth of his second child, David, on December 20. “Bill Eggebroten, if you’re there, drop us a line!”

Frank A. Klinger, 512 Benner Rd., Allentown, Pa., has completed his general surgical residency at Buffalo General Hospital and is now at Allentown

“"The Earth Is So Beautiful and I Sob!" "The Earth Is So Beautiful and I Sob!" Created by G. Noble Wagner, this four-foot aluminum and steel sculpture mounted on railroad ties is temporarily installed on the second floor of Alumni Hall.

and Sacred Heart Hospitals for a one-year fellowship in peripheral vascular surgery.

Herbert Patrick, 1106 Surrey Rd., Philadelphia, is completing his second year of a three-year pulmonary fellowship at Temple University Health Services Center. Adam Jeffrey, born September 24, 1982, joins sister, Lisa, 2.

1978

Gregg P. Allen, 646 Clearview Dr., Bethel Park, Pa., is enjoying a full-time emergency room position near Pittsburgh, working with classmate Charles B. Austin, Jr. Dr. Allen presented a paper at the AAFP convention in San Francisco.

Douglas P. Brozell, 8435 Meditteranean Wyo., Sacramento, Ca., is working at Kaiser in Sacramento after finishing his family practice residency. He and his wife, Liz, are celebrating the birth of their son, Alec, who joins Adrian, 2.

Harry L. Chaikin, P.O. Box 129, Brigantine, N.J., is board certified in internal medicine and is on the teaching staff of Atlantic City Medical Center. His wife, Sarah, gave birth to Katherine Renee last August 2.

Eric W. Jahnke, 1521 London CI., Benicia, Ca., writes that his wife, Sue, and son, Eric Vail, 1, are doing well. Dr. Jahnke is enjoying his GI fellowship.

Alfred E. Levy, 221 Rustic Ridge, Garland, Tx., writes that he, his wife, Patti, and their baby daughter, Anna, are doing well and enjoying the Garland community, a suburb of Dallas. Dr. Levy is a partner in a five-man group. They have a 10,000-foot office under construction near the hospital, a project that is keeping him busy.

Joyce King Lombardo and Joseph Lombardo, 4340 Olive Ave., Long Beach, Ca., write that Joyce passed her combined clinical and anatomic pathology boards this past fall and is currently doing a fellowship in surgical pathology at Long Beach Memorial Hospital. Joseph joined a medical group in February. The Lombardos hope to make the reunion activities in June if they can.

Carol A. Love, 419 Sprague Rd., Narberth, Pa., writes that she and classmate Jean G. Riley had a wonderful time on their trip to Jamaica.

Janice Lupu, 124 Keeney St., Evanston, Ill., has been appointed Medical Director of the Medical Clinics at Mercy Hospital in Chicago.

Arthur J. Patterson, Jr., 5022 Friendship Ave., Pittsburgh, writes that he is now “a married man” and is planning to join his father in the practice of general surgery in July.

Paul E. Pilgram, 2250 Cottonwood Cove, Salt Lake City, Ut., writes “Fantastic snow year—call me if you’re in Utah!”

Jeffrey B. Robin, 410 Raymondale Dr., South Pasadena, Ca., writes that he is still “alive and well” at U.S.C.

Kenneth C. Rosenberg, 422 Sabine Ave., Wynnewood, Pa., has been named an Instructor of Medicine at Jefferson.

Craig R. Smolow, 35 Knightsbridge Rd., Great Neck, N.Y., is Chief Medical Resident at Long Island Jewish Hospital and a C.I. Fellow. He is proud to announce the birth of his second child, Erica. Wife, Rhoda, and son, Michael, are fine.

Fred Teichman, 148 Mountain View Rd., Lewisburg, Pa., has a private obstetrics and gynecology practice at Evangelical Community Hospital.

Douglas B. Yingling, 35 Seminary Hill, West Lebanon, N.H., is finishing a year as Chief Resident at Dartmouth. He will be joining his father, Nathaniel D. 47, in general surgery practice this summer in Clearfield, Pennsylvania.
1979

Wilfreta G. Baugh, 5519 Germantown Ave., Philadelphia, announces the opening of her office for the practice of internal medicine at the above address.

Diana Brown, 247 Harrogate Rd., Penn Wynne, Pa., and her husband, Joseph .e, joyfully announce the birth of Adam Alexander, who arrived 7, 1982. Dr. Brown is completing a dermatology residency at the University of Pennsylvania.

David Click, 4808 Lake Haven Dr., Chattanooga, Tn., has begun a private practice of internal medicine. He and his wife announce the birth of Michael, n May 1982. He joins sister, Shoshana, who was born in May 1981.

Douglas R. Hough, 62 Midway Ln., Enotown, N.J., will begin a rheumatology and clinical immunology fellowship at Walter Reed Army Medical Center in July.

net B. Leventhal, 600 N. McClurg Ct., Chicago, will begin a pediatric nephrology fellowship next year.

ise M. Neifeld, 6901 Old York Rd., Philadelphia, has been in practice in the West Oak Lane section of Philadelphia since this past September.

effrey N. Potter, 234 Bosler Ave., Lemoine, Pa., opened a family practice partnership last July with classmate Creston C. Herold, Jr. Dr. Potter has two sons, Craig, 3 and Christopher, 1.

andy J. Silverstine, 3220 S. Tamiami Trail, Sarasota, FL, has a solo internal medicine practice. He and his wife, Jatti, have a daughter, Betsy Kim, 1.

ames W. Vick, 1525 Naudain St., Philadelphia, has joined two physicians in a private family practice in addisonfield, New Jersey.

A Philatelist?

Our Department of Ophthalmology-Wills Eye Hospital librarian tells us she received an inquiry from Czechoslovakia concerning one of Jefferson's most distinguished alumni, Carlos J. Finlay, M.D. 1855. The inquiry wondered if he had ever practiced ophthalmology and collected stamps. References in the letter were to Dr. Finlay's activities in "...stamping out yellow fever..." and the '...stamp of his work..." A negative reply was sent by the librarian.

Rebecca Anne, on June 28, 1982. The Gillespy family resides at 525 Summerlea St., Pittsburgh.

Susan Loken Gorody, 373 Fairville Rd., Chadds Ford, Pa., married Emery J. Gorody in September. Dr. Gorody is a third-year resident in obstetrics and gynecology at Wilmington Medical Center.

Robert G. Hill, 7 Doe Run Ct., Wilmingtont, De., is in his emergency medicine residency at Wilmington Medical Center, following the completion of two years of general surgery in Bethlehem, Pennsylvania.

Angela E. Lin, 5759 Howe St., Pittsburgh, will begin a pediatric cardiology fellowship at UCLA upon completion of her pediatric residency at Children's Hospital in Pittsburgh.

Barbara G. Matthews, 320 E. North Ave., Pittsburgh, will begin her fourth year of an internal medicine residency at Allegheny General Hospital as Chief Resident.

Jane McCall, 105 Hillpine Rd., Columbia, S.C., will begin practice following her emergency room training program in Columbia.

Margaret L. McLaughlin, 467 Commonwealth Ave., Boston, will follow her third year of a medicine residency at the New England Deaconess with a nephrology fellowship at New England Medical Center in Boston.

Raymond F. Nungesser, 1016 Walnut St., Williamsport, Pa., will finish his family practice residency in June and plans to open a private practice in July in Millville, Pennsylvania.

Marianne T. Ritchie, 275 Bryn Mawr Ave., Bryn Mawr, Pa., will begin a gastrointestinal fellowship at Sloan-Kettering in New York upon completion of her internal medicine residency at Lankenau Hospital in Philadelphia.

Albert F. Scariato, Department of Medicine, Cooper Hospital, Camden, N.J., presented a paper at the December annual meeting of the Radiological Society of North America in Chicago. The title of his paper was: "The Effect of T and N Staging on Clearance and Survival in Squamous Cancers of the Oral Cavity and Oropharynx."

Jean F. Spigel, 5450 Covode St., Pittsburgh, will be moving with her husband and classmate, James H., and daughter, Katie, to Albuquerque, New Mexico, after completing her pediatric residency at Children's Hospital in Pittsburgh.

Paul E. Stander, 2615 N. Cramer St., Milwaukee, Wi., will be moving to Phoenix, Arizona, in July to begin a two-year commitment with the National Health Service.

1981

Scott A. Brenman, 1213 Addison Wkwy., Philadelphia, is continuing his general surgery residency at Pennsylvania Hospital and is making plans for plastic surgery training. His wife, Susan, is illustrating several surgical atlases.

Rudolph T. DePersia, Jr., 2 Colony Blvd., Wilmingtont, De., married classmate Dolores A. Siegel on February 12, "in spite of the worst blizzard of the century!"

Jeffrey D. Harner, 140 Townsend Dr., Hummelstown, Pa., married Heather J. Mumma in July. She is an Assistant District Attorney for Lancaster County. Dr. Harner is a radiology resident at Hershey Medical Center. The couple honeymooned in Paris and Brussels.

1982

Alan J. Cohen, 1772 A Jackson St., San Francisco, spent six months doing a psychiatry residency at the San Francisco County Hospital in the jail liaison ward. "Ran into Herb Ochittill T2, a psychiatrist, and saw Mary Gilbert '83 at a UCSF interview. Cheers."
Obituaries

Oram R. Kline, Sr., 1917
Died January 19, 1983 at the age of 91. Dr. Kline was Chief of the eye, ear, nose and throat department at Cooper Hospital in Camden, New Jersey, and served on the staff of Our Lady of Lourdes, Underwood Memorial and Burlington County Memorial Hospitals. Dr. Kline served as President of the Camden County Medical Society. Surviving are his wife, Joy, and his son, Oram R. Kline, Jr. ’45.

Stanley E. Biddle, 1919
Died August 9, 1982 at the age of 88. The retired physician resided in Conshohocken, Pennsylvania. His wife, Helen, survives him.

Ronald C. Moore, 1919
Died January 8, 1983 at the age of 86. Dr. Moore, a resident of Hammonton, New Jersey, was an ophthalmologist who was in private practice in the Philadelphia area. His wife, Theresa, survives him.

William N. Lober, 1920
Died January 9, 1983 at the age of 90. Dr. Lober was a general practitioner in New Holland, Pennsylvania, and was associated with St. Luke’s Hospital in Bethlehem. He is survived by his wife, Mildred, two sons and a daughter.

James O. Nolan, 1921
Died December 7, 1982. Dr. Nolan was a general practitioner prior to his retirement to Kannapolis, North Carolina.

William G. Wilson, 1921
Died October 24, 1982 at the age of 86. The retired physician was a resident of Smithfield, North Carolina.

Marshall R. Metzgar, 1922
Died January 3, 1983 at the age of 86. Dr. Metzgar practiced family medicine in Stroudsburg, Pennsylvania, for 56 years until his retirement in 1980. He was a member of the Stroudsburg School Board for 20 years and served as physician to the county jail for 40 years. The honors from the community which he served include an Honorary Doctor of Laws from Lafayette College where he served on the Board of Trustees, the naming of athletic fields there in his honor, recipient of the Liberty Bell Award from the Monroe County Bar Association, Marshall Metzgar Week held last fall and the Citizen of the Year Award from the Pocono Mountains Chamber of Commerce. Surviving are his wife, two sons and a brother, Thomas I. Metzgar ’28.

Franklin B. Peck, 1923
Died September 22, 1982 at the age of 83. Dr. Peck, formerly of Indianapolis, Indiana, had retired to Tucson, Arizona.

Harry D. Chambers, 1925
Died July 3, 1982 at the age of 83. Dr. Chambers, a pediatrician, was a resident of Huntington, West Virginia.

Harlan F. Haines, 1925
Died October 12, 1982 at the age of 80. Dr. Haines served as Chief of Staff at Delaware County Memorial Hospital in Upper Darby, Pennsylvania, from 1936 until his retirement in 1962, when he moved to Seaford, Delaware. He served on the Board of Upper Darby Senior High School and was a President of the Rotary there. Dr. Haines was a Class Agent at Jefferson. Surviving are his wife, Margaret, and a son, William F. Haines ’57.

Roland K. Charles, Jr., 1926
Died August 24, 1982. Dr. Charles, a general surgeon, resided in Columbia, South Carolina.

Adrian E. Davis, 1926
Died April 23, 1982. Dr. Davis was an orthopaedic surgeon who resided in Akron, Ohio.

Armand J. Miller, 1926
Died February 27, 1983 at the age of 82. Dr. Miller maintained offices on Rising Sun Avenue in Philadelphia and served on the staff of Frankford Hospital. He was Medical Consultant to the Frankford Arsenal until his retirement in 1976.

Thomas G. Reed, 1926
Died December 7, 1982. Dr. Reed, a urologist, was a resident of Charleston, West Virginia.
Arthur N. Foxe, 1927  
Died November 26, 1982. Dr. Foxe, a psychiatrist, was a resident of New York City.

William R. Hawkins, 1927  
Died November 20, 1982 at the age of 81. Dr. Hawkins, a general practitioner, lived in South Fork, Pennsylvania. In 1961 he was cited by the Cambria County Medical Society as the “Practitioner of the Year.” He served as President of the Board of Health there. His wife, Hiawatha, survives him.

William M. Sullivan, 1929  
Died December 5, 1982 at the age of 80. Dr. Sullivan was a member of the Passaic (New Jersey) General Hospital staff. He also was past President of the Passaic County Medical Association and the Board of Education, a Commissioner of the Passaic Department of Public Works and a Director of the New Jersey Bank. Surviving are his wife, Alice, two sons and four daughters.

William T. Rice, 1932  
Died January 23, 1983. Dr. Rice, a radiologist who practiced in Rochester, Pennsylvania for 40 years, was a resident of nearby Beaver. He was a past President of the Pittsburgh Roentgen Society, and Pennsylvania Radiological Society, the Beaver County Medical Society and the Beaver County Cancer Society. Dr. Rice was a Diplomat of the American Board of Radiology and a Fellow of the American College of Radiology. Surviving are his wife, Iva, and three daughters.

Noble F. Crandall, 1933  
Died November 6, 1982. The retired physician was residing in Port Charlotte, Florida.

John F. McMullin, 1934  
Died January 27, 1983 at the age of 73. Dr. McMullin retired from the Navy in 1962 after 26 years of active duty and then assumed the position of Chief Psychiatrist at the Riverside County General Hospital in California. In 1970 he retired to a private practice of psychiatry. He was Associate Professor at Loma Linda School of Medicine. Dr. McMullin was a Diplomate of the American Board of Psychiatry and Neurology and the American Psychiatric Association. His wife, Charlene, two daughters and three sons survive him.

George L. Tunick, 1935  
Died January 28, 1983. Dr. Tunick, an internist, was a resident of Greenwich, Connecticut.

Sidney H. Mirbach, 1937  
Died January 3, 1983 at the age of 70. Dr. Mirbach, a general practitioner, was on the staff at St. Luke’s and Sacred Heart Hospitals in Bethlehem, Pennsylvania. He was a Diplomate of the American Academy of Family Practitioners. Surviving are his wife, Eleanor, a physician son and a daughter.

Melvin M. Berger, 1940  
Died October 1, 1982 at the age of 68. Dr. Berger, who maintained offices in Bethlehem, Pennsylvania, was a member of the American College of Obstetrics and Gynecology, the American College of Surgeons and the Philadelphia Obstetrical Society. His wife, Kathryn, and a daughter survive him.

Charles W. Miller, 1940  
Died August 26, 1982 at the age of 66. Dr. Miller was a general practitioner who resided in Frackville, Pennsylvania.

Richard L. Wagner, 1940  
Died February 11, 1983. Dr. Wagner was a general practitioner in Wheelersburg, Ohio.

Luther L. McCallion, 1942  
Died February 8, 1983 at the age of 67. Dr. McCallion, a family practitioner, maintained offices in the Chestnut Hill and Erdenheim areas of Philadelphia. He served as Medical Director of the Pennsylvania School for the Deaf and was on the staff of Chestnut Hill Hospital. Surviving are two daughters and a son.

George S. Appleby, 1943  
Died August 5, 1982. Dr. Appleby, a general surgeon, was a resident of Martinsburg, West Virginia.

Thomas F. Graham, 1945  
Died December 25, 1982 at the age of 62. Dr. Graham was Chief of Radiology at St. Agnes Medical Center and Wills Eye Hospital in Philadelphia until his 1980 retirement. At the time, he moved to Bradenton, Florida, where he died. Surviving are his wife, Constance, two daughters and three sons.

George A. Carberry, 1946  
Died July 15, 1982. Dr. Carberry was an obstetrician/gynecologist with appointments at Methodist Hospital in Merrillville, Indiana, and Mercy Hospital in Hobart. His wife, JoAnne, and five children survive him.

Paul F. Leicht, 1951  
Died October 17, 1982 at the age of 61. Dr. Leicht, who died in Tucson, Arizona, was a pathologist at Holy Spirit Hospital in Camp Hill, Pennsylvania, and a consultant to the Masonic Homes there. Prior to his training in the specialty, he was a general practitioner. He was a member of the American Society for Clinical Pathologists. Surviving are his wife, Jean, two daughters and a son, John P. Leicht '81.

Henry G. Klinges, Jr., 1955  
Died February 2, 1983 at the age of 61. Dr. Klinges was a general practitioner who maintained offices in the Mayfair section of Philadelphia. He served on the staff of Nazareth and Holy Redeemer Hospitals. Dr. Klinges was a charter member of the American Academy of Family Practice and was a Secretary of both the Pennsylvania and Philadelphia Academies of Family Practice. His wife, Alma, three sons and two daughters survive him.

Jack J. Peril, 1956  
Died February 20, 1983 at the age of 52. Dr. Peril, a specialist in internal medicine, was a member of the staff of West Jersey Hospital in Camden, New Jersey, and was a past President of the West Jersey Medical Society. His wife, Rhoda, survives him.
The Sixth Annual
Eastern Shore Medical Symposium

Jefferson Medical College and the University of Delaware co-sponsor the symposium which is a review of general medicine. All faculty members are from Jefferson.

June 19 to 24, 1983    Rehoboth Beach, Delaware
(for additional information contact Sylvia Brocka 302-738-8151)

The New Biology and its Impact on Cancer

The Philadelphia Cancer Club and the Philadelphia Cooperative Cancer Association jointly sponsor a conference celebrating the Tenth Anniversary of coordinated cancer activities of Philadelphia.

Among the speakers will be:

Dr. Emmanuel Barber    Dr. Louise Strong
University of Toronto    M.D. Anderson Hospital Cancer Center

Dr. Robert C. Gallo, '63
National Institutes of Health

Tuesday, June 7, 1983    1:00 P.M.-5:30 P.M.
McClellan Hall, Jefferson Medical College
Panel Discussion to follow presentations
(no registration, all alumni cordially invited)
