Upcoming Events

November 10, Tuesday
Alumni reception at the meeting of the American Academy of Ophthalmology, New Orleans, LA

December 1, Tuesday
Alumni reception at the meeting of the Radiological Society of North America, Chicago, IL

December 2, Wednesday
Career Day for sophomores

December 3, Thursday
Alumni Executive Committee Meeting

December 4, Friday
Alumni reception at the meeting of the American Medical Association, Hawaii

January 16–24
CME trip to Costa Rica—see page 54

January 20, Wednesday
Reception for freshmen

January 28, Thursday
Alumni Executive Committee Meeting

January 30–February 6
CME and ski trip to Squaw Valley, Lake Tahoe, CA—see page 22

February 2, Tuesday
"State of the University" address at Jefferson

February 5, Friday
Alumni reception at the meeting of the American Academy of Orthopaedic Surgeons, Anaheim, CA

March 12, Friday
Parents Day for sophomores

March 21, Sunday
Alumni reception at the meeting of the American Academy of Dermatology, New Orleans, LA

March 25, Thursday
Alumni Executive Committee Meeting

April 22, Thursday
Alumni Annual Business Meeting

April 23, Friday
Alumni reception at the meeting of the American College of Physicians, New Orleans, LA

May 3, Monday
Alumni reception at the meeting of the American Urological Association, Dallas, TX

May 16, Sunday
Alumni reception at the meeting of the American College of Obstetricians and Gynecologists, Philadelphia, PA

May 16, Sunday
Alumni reception during Digestive Disease Week, Orlando, FL

May 18, Tuesday
Alumni reception at the meeting of the American Psychiatric Association, Washington, DC

Reunion Weekend 1999
June 4, Friday, Alumni Banquet

Annual Giving totals compiled by Joan E. Schott
Time to Celebrate

The Class of '98 kicked off this year's alumni festivities at a Senior Reception hosted by the Alumni Association the evening before graduation. The alumni-to-be and their families met at City Hall in the Mayor's Reception Room. The Hon. Edward G. Rendell attended and spoke highly of Jefferson and its graduates, and urged them not to forget the urban centers. He thanked Jeff students for all that they have done in recent years for the homeless of Philadelphia through JeffHOPE.

The Union League was the site of the annual Alumni Banquet. Many of the alumni were on hand to honor three of their distinguished colleagues with the Alumni Achievement Award (see following pages). The Class of '48 started off the evening with a "Philly Strut" accompanied by a Mummers string band in honor of their 50th reunion.

The Women's Forum, chaired by Nancy S. Czarnecki '65, started off the Saturday festivities with a continental breakfast and panel discussion. Clinic Presentations followed (see in this issue). Joseph S. Gonnella, M.D., Dean and Senior Vice President for Academic Affairs, presided over the Dean's Luncheon. Afterwards, Jay A. Nadel '53, Professor of Medicine and Physiology and Chief of the Division of Pulmonary and Critical Care Medicine at the University of California, San Francisco, gave the Joe Henry Coley, M.D. Lecture. Dr. Nadel was one of this year's Achievement Award winners.

Saturday evening was party time for the 12 reunion classes. The Park Hyatt at the Bellevue was indeed a popular site. The Class of '38, chaired by J. Woodrow Savacool, celebrated their 60th reunion in the Wine Hall. The Conservatory was the choice for the Class of '53, chaired by Robert Poole and committee. The Class of '58, chaired by Peter Amadio Jr. and Herbert G. Hopwood, enjoyed their 40th reunion in the Cliveden Room. Gathering in the Rose Garden to celebrate their 25th was the Class of '73 chaired by Anton P. Kemps. L. Christine Grad, Frances Lindquist Rosenberg, and Kenneth C. Rosenberg joined their

This past spring, the Class of '98 presented the university with the portrait of their admired teacher James S. Studdiford III, M.D., Clinical Assistant Professor of Family Medicine (seen above with his family). At the presentation, students described him as "empathetic, engaging, and supportive." The portrait, painted by Dean M. Larson, incorporates Jefferson colors of blue and black and old-fashioned medical objects from Dr. Studdiford's collection.
Mayor Rendell congratulated and thanked Jeff students at the Senior Reception.

classmates in the Red Room to enjoy their 20th; and the 15th reunion, Class of '83, chaired by Suzanne Holdcraft had their party in the Clover Room.

The Union League was the site for two parties. The 55th reunion chaired by Bernard J. Miller '43 celebrated in the McMichael Room, and the first reunion for the Class of '93 was held in the Meade Room and chaired by Joseph A. Iacono and Sharon B. Mass.

The popular Pyramid Club of the Mellon Bank Building, with spectacular views from the 52nd floor, was the site for the Class of '66, celebrating their 35th and chaired by John M. Fenlin Jr. and Marvin R. Hyett. The William Penn Room was the choice for the 10th reunion of the Class of '88 chaired by John C. Kairys.

The historic College of Physicians of Philadelphia was the site for two classes. The Thomson Room overlooking the medicinal herb garden was the location for '68. Marcia A. Fitzpatrick and James A. Meadowcroft chaired this reunion. Elegant Mitchell Hall was the choice for the Class of '48. Chaired by Norman J. Quinn Jr., the 50th reunion class celebrated with gusto. Paul C. Brucker, M.D., President of Thomas Jefferson University, and his wife were honored guests. Recognition was given to Gordon Liu '48, who travelled the farthest from Honolulu. Edward Scull '48 from Nevis in the West Indies also attended. The class showed their appreciation to Dr. Quinn for his unceasing dedication. Members of the class continued celebrating in Bermuda the next week (see photo).

Reunion Weekend continued with a Farewell Brunch held on Sunday at Jefferson Alumni Hall. All agreed it was a wonderful weekend, promising to return with fellow classmates to once again renew acquaintances.

Honors at Commencement

The Christian R. and Mary F. Lindback Award for Distinguished Teaching in a Clinical Science

Gregory C. Kane '87, Assistant Professor of Medicine

Blockley-Osler/Dean's Teaching Award for Excellence in Teaching of Clinical Medicine (to a faculty member of a Jefferson-affiliated hospital)

Bradley A. George '85, Clinical Professor of Pediatrics

The Leon A. Peris Memorial Award, to a member of the volunteer faculty for excellence in clinical teaching and superior patient care

Nathan M. Smukler '47, Professor of Medicine

The NBI Healthcare Foundation Humanism in Medicine Award, to an outstanding faculty member demonstrating exemplary compassion in doctor/patient relations

Howard H. Weitz '78, Clinical Associate Professor of Medicine

Jeff Relatives in the Class of '98

Among this year's graduating seniors, many are continuing a family tradition:
The Alumni Achievement Awards

Flanagan, Gallo, and Nadel Are Chosen for the Alumni's Highest Honor

At the annual banquet, the Alumni Association presented its highest honor to three physicians whose professional characteristics have elevated them to the first rank, and whose achievements have brought honor to their school.

Joseph C. Flanagan graduated from Jefferson Medical College in 1963 as a member of this year's 35th reunion class, and as a member of the Alpha Omega Alpha Honor Medical Society. After internship at Fitzgerald-Mercy Hospital, he took a residency in ophthalmology at Wills Eye Hospital, followed by a fellowship in Ophthalmic Plastic Surgery at the Manhattan Eye, Ear and Throat Hospital, New York City, and became board certified in 1970.

A noted educator and pioneer in both ophthalmic plastic surgery and in the use of lasers in ophthalmology, he has become widely recognized as a bright star in local and national ophthalmologic circles. He currently serves as Professor of Ophthalmology, Jefferson Medical College of Thomas Jefferson University, Attending Physician and Director, Oculoplastic Department, Wills Eye Hospital, and as Associate Chief, Division of Ophthalmology, Lankenau Hospital.

He is a Fellow of both the American Academy of Ophthalmology and the American College of Surgeons, and a member of 13 other medical and surgical societies. He served as President of the Ophthalmic Club of Philadelphia in 1979, and President of the American Society of Ophthalmic Plastic and Reconstructive Surgery in 1984. He is a former member of the Committee on Admissions, and former Chair of the Parents Day Committee of Jefferson Medical College.

A frequently invited Visiting Professor of Ophthalmology, he has given over 600 scientific presentations in this country and abroad over the last 25 years. He is the author of over 80 scientific articles and 20 book chapters, and is a coauthor of five books. Dr. Flanagan has received many honors during his productive professional career, including: Distinguished Service Award, American Academy of Ophthalmology; Award of Appreciation, U.S. State Department, for service to Beirut bombing victims (1984); Certificate for Distinguished Achievement, Wills Eye Hospital.

Dr. Flanagan and his wife, Cathy, are the parents of two daughters, Catie and Mimi, and a son, Joseph Jr.

Robert C. Gallo graduated from Jefferson Medical College in 1963, a member of this year's 35th reunion class, and a member of the Alpha Omega Alpha Honor Medical Society. His internship and residency in Medicine were taken at the University of Chicago, following which he joined the National Institutes of Health as a clinical associate, Medical Branch, in the National Cancer Institute. He then progressed to become Head, Section on Cellular control Mechanisms, Human
Tumor Cell Biology Branch, National Cancer Institute, and, in 1972, became Chief, Laboratory of Tumor Cell Biology of the National Cancer Institute.

Robert Gallo is universally recognized for his achievements in pioneering the field of human retrovirology. In the area of basic immunology, he is recognized as the discoverer of interleukin-2. In the area of human virology he discovered a human retrovirus shown to cause leukemia, and, along with Dr. Luc Montagnier of the Pasteur Institute in Paris, was a codiscoverer of the HIV virus. In addition, he was able to provide proof that the HIV virus is the cause of AIDS. He and his coworkers then developed the blood test that detects the presence of the HIV virus.

Dr. Gallo is the author of more than 1,000 scientific articles, and in the decade between 1980 and 1990 was the most referenced scientist in the world. He has been awarded 12 honorary doctorates from universities in this country and abroad, and among his numerous awards and medals are the Medal of Honor from the American Cancer Society, and the Albert Lasker Basic Medical and Clinical Research Awards.

Dr. Gallo left the National Institutes of Health in 1995 to become Director, Institute of Human Virology, Medical Biotechnology Center, University of Maryland Biotechnology Institute, Baltimore, where he continues his AIDS research. He is also Professor of Medicine, Microbiology and Immunology at the School of Medicine, University of Maryland, and Head of the Tumor Biology Program, University of Maryland Cancer Center.

Dr. Gallo says, “I am deeply honored by this award and greatly appreciate how kind the Jefferson family has been to me over the years, in my school days preparing me for a future in medical research. My education at Jefferson has always been and will continue to be a solid rock upon which I have built a career that spans more than 30 years, a career that is rooted at Jefferson Medical College.”

**Jay A. Nadel** graduated from Jefferson Medical College in 1953, a member of this year’s 45th reunion class, and a member of the Alpha Omega Alpha Honor Medical Society. He interned at Philadelphia General Hospital, then trained in pulmonary medicine with Dr. Julius Comroe at the University of Pennsylvania. He followed Dr. Comroe to the University of California, San Francisco, becoming his first pulmonary fellow, then becoming Chief of the Pulmonary Function Laboratory at that institution. He is now Chief, Section of Pulmonary and Critical Care Medicine and Professor of Medicine and Physiology, University of California, San Francisco. He also is Director of the Multidisciplinary Research Training Program in Lung Diseases at the Cardiovascular Research Institute of that same institution. In addition to these responsibilities, he also functions as the Director of the National Institutes of Health Multidisciplinary Research Training Program in Pulmonary Diseases.

Dr. Nadel is a research pulmonary biologist whose studies have focused on the understanding of normal regulation of airways, and on the development of new ways to treat such airway diseases as asthma, bronchitis, and cystic fibrosis. The California Air Quality Standards and, ultimately, the United States Air Quality Standards have been based on his studies. Along with many significant research discoveries pertaining to pulmonary medicine, Dr. Nadel has trained approximately 200 pulmonary academicians in his laboratory, most of whom eventually became professors in their own institutions.

Dr. Nadel has published over 300 research articles, and is coauthor of the authoritative *Textbook of Respiratory Medicine*, now being readied for its third edition. He has been a member of the National Institutes of Health Task Force on Research Planning in Environmental Health Sciences, and a member of the National Academy of Sciences Committee on Air Standards, among other important assignments. He has served as President of the American Thoracic Society and, in 1997, was that society’s Trudeau Medal winner.

Dr. Nadel has been the recipient of many honors and honorary degrees from universities, both in this country and abroad.

Dr. Nadel and his wife, Judy, are the parents of daughters Deborah and Eve, and son William.
Internal Lower Eyelid Blepharoplasty

Joseph C. Flanagan ’63

The internal lower eyelid blepharoplasty is an excellent procedure for young individuals who have anteriorly displaced orbital fat and minimal skin redundancy. Where there is excess skin, this procedure can be augmented with CO₂ laser or Erbium YAG resurfacing, or the excision of redundant skin. Some patients are poor candidates for laser resurfacing, including those with highly pigmented skin, previous viral skin infections, previous use of systemic retinoids, and those who lack motivation to camouflage erythema of the lids for several weeks to months. These patients need a safe method for excision of skin redundancy.

If the proper method of skin excision is used, there is minimal risk of eyelid pull down, ectropion, or rounding of the lateral one-third of the lower eyelid. Scarring at the lateral canthal angle can also be avoided.

Eye Refractive Surgery to Eliminate Glasses

Davis G. Durham ’43

Eye refractive surgery has huge market potential since one-third of the population is myopic (approaching 70 percent in parts of China).

Radial keratotomy has now been succeeded by photorefractive keratometry, as well as Lasik or Keratomileisis combined with the laser.

The cost of $1500 per eye is not at present reimbursable, but is not significantly higher than the cost of glasses or contact lenses over the years.

Air Bags and Eye Injuries

Edward A. Jaeger OPH’64

Air bags have been shown to reduce fatalities by 28 percent over seat belts alone in frontal crashes. Hospitalizations have been reduced 24 percent. However, case reports have documented ocular injuries related to air bag inflation.

Fourteen cases of air bag induced ocular injury seen in the Wills Eye Hospital emergency room over a four year period were reviewed. Most recovered but some sustained significant visual morbidity.

The wearing of three-point seat belts is critical to injury prevention with or without air bags. Unrestrained right front passengers, particularly children, are at risk of serious injury in the presence of an air bag.

The Influence of Jefferson Doctors

Clermont S. Powell ’48

Jefferson has been a part of my life since my first hour, which I spent in Jefferson Hospital in 1922. Our family physician the next year in Harrisburg, Pennsylvania was a Jeff graduate, and so was the doctor we went to when we moved to Camp Hill.

When I graduated from Jeff I wasn’t sure what specialty I wanted to pursue, and again it was a Jeffersonian who gave me direction: this time, the pathologist at Presbyterian Hospital in Philadelphia where I did my internship.

I have taught pathology on the volunteer faculty at the University of Washington School of Medicine for 44 years; less than a decade before I came, the school had been founded by a committee chaired by David Metheny, M.D., a Jefferson graduate of 1923.
Health Care for Humans in the Land of Polar Bears

John M. Levinson '53

After closing my private practice, I spent five years as an intermittent ship's surgeon as well as medical director for the largest tour company taking people to the ends of the earth: the polar regions. At times we dealt with life-threatening problems. My frustrations and what I realized were our inadequacies led me to help organize a conference at the premier center for polar studies, the Scott Polar Research Institute in Cambridge, England. Out of this came our book Safe Passage Questioned: Medical Care and Safety for the Polar Tourist, edited by Errol Ger, M.D. and myself and published by Cornell Maritime Press.

Among the many topics we cover are hypothermia and cold injuries. The book includes many illustrations. All royalties from this book go to Aid for International Medicine (in which I am very active) to support medical libraries in the developing world.

Back to the Future: Jeff and the Einstein Healthcare Network

Robert G. Somers '58

Although medical care has changed radically over the 40 years since my class graduated, we keep coming back to the values learned during four years at Jefferson Medical College.

My own area of specialization has witnessed numerous changing paradigms of breast cancer therapy. We have considered radical surgeries, the National Surgical Adjuvant Breast Project, many clinical trials, adjuvant chemotherapy, adjuvant Tamoxifen therapy, and other approaches, each of which has had vocal advocates.

In addition to chairing the Department of Surgery at Albert Einstein Medical Center, which recently became part of the Jefferson Health System.

Medical Care of the Surgical Patient

Howard H. Weitz '78

Patients with heart disease who are undergoing noncardiac or cardiac surgery give us the interesting and important challenge of helping them get through surgery with minimal morbidity. For medical students looking at opportunities for the future, this is a booming business. This year it is estimated that 27 million people are undergoing noncardiac surgery. Of those, eight million will have coronary disease or risk factors for coronary disease. One million will have perioperative cardiac complications increasing the cost of medical care by $20 billion. It is estimated that these numbers will increase considerably in the future.

We believe that it is the job of the anesthesiologist to determine a patient's anesthetic drug. It is our job to identify the patient's risks, help to reverse those risks, and help follow the patient in the postoperative period. As to whether this role is filled by internist, family doctor, cardiologist, or surgeon, I feel it depends on the particular situation to decide which person should be most responsible for the preoperative consultation and the postoperative care.
The Challenges of Outcomes Research

Peter C. Amadio '73

What is outcomes research? It would seem axiomatic that clinicians know the results of treatment, to better determine the optimal care plan for a given patient, and as a basis for comparison with newer therapies. Despite this apparent truism, however, the medical literature only infrequently documents the results of treatment in a way that is either scientifically meaningful or relevant to patients. Although randomized controlled trials are accepted as the gold standard for the study of clinical questions, we lack randomized controlled trials for many common therapies. Yet it is not sufficient to merely compare therapies; the comparison must include clinical parameters of relevance to our patients. This latter chore falls within the domain of outcomes research.

There are many different kinds of results, or outcomes, which clinicians can evaluate in their patients. Clinicians are familiar with the various measurements associated with physical examination, physiological measurements of cardiac output or nerve conduction, blood chemistries, and various medical images. Such data are often called objective, because there is general agreement on how they should be obtained and measured. This is in contrast to what are commonly considered subjective data such as patient reports of symptoms, functional loss or satisfaction, for which, at least traditionally, there has been no consensus on metrics, nor standards for units of measure. In part, this lack of standards has stemmed from the attitude that data provided directly by the patient is somehow more subject to bias and measurement error than that obtained from the patient and then recorded by a clinician, or by a machine.

There are two problems with such assumptions. First, clinicians and even machines are also subject to bias and measurement error. Second, there is a presumption that the things measured by clinicians and machines are the right things to measure, and therefore the only things worth measuring. This presumption is almost certainly wrong. If our goal is to help our patients, we must know what bothers them, what kind of relief they want, and how much they value that relief. We must also be sure we can measure those things with reliable, sensitive, valid and

Aging Gracefully

Patricia M. Curtin '88

There is said to be now an "aging epidemic" in terms of numbers and dollars, that will follow us well into the 21st century (Kane, Essentials of Geriatrics).

The over 65 population (defined as elderly) is the fastest growing segment of our population and will represent 20 percent of the population by the year 2030. In the 21st century, 50 percent of all patients that doctors see will be over 65. The elderly account for one-third of the nation's total health care expenditures and they use hospitals almost four times more than those under 65. The majority of Medicare dollars are spent in the last six months of life. HCFA predicts that if changes in health care are not made, there will be an increase in health care expenses to be equal to 36 percent of the gross national product.

We need to be ready for our aging population—medically, socially, economically, and psychologically. The average 65 year old female can expect to live another 19 years, the average 65 year old male another 15 years, and by age 85 one can expect to live another five years.

We must remember that aging is not a disease, it is a process. Geriatric assessment addresses physical, psychological, and socioeconomic factors that contribute to functional status. We need to examine activities of daily living. We need to encourage more in-home evaluations by ancillary staff and even physicians. We need to offer respite for families caring for elderly relatives and encourage support groups and other forms of care. We also need to address end of life issues such as living wills and durable powers of attorney. We need to educate our residents, students, colleagues, other health care professionals and families on the needs of elderly patients.

Whether we take care of elderly patients in our practice, or not, this aging process will affect us all one day, either through family and friends or through our own aging. #

Hyaluronic Acid in Wound Healing

Joseph A. Iacono '93

The clinical observation that the neonate rarely suffers from wound repair complications is well accepted by pediatric surgeons. Incisional wounds made in the skin of the fetus as well as the neonate rarely show scar complications. These wounds become invisible on gross examination, and microscopically reveal minimal disruption of the organization of dermal collagen fibers. It is suggested that the mechanism for scarless repair involves the components of the extracellular matrix of neonatal and fetal skin. Indeed, the levels of a principle component of the extracellular matrix, hyaluronic acid (HA), are markedly different in adult and fetal tissues. HA is elevated acutely in all wounds, is rapidly degraded in wounds that heal with scar, and remains elevated in wounds that repair without scar. Manipulating the levels of HA can influence the wound repair process in adult and fetal animal models.

While typically effective, repair resulting in a scar can have devastating consequences, as demonstrated by hypertrophic scars, peri-tendon adhesions, and scar contractures. Indeed, scarring and fibrosis are responsible for disease processes seen in all areas of medicine. Maintaining HA levels in wounds promotes fetal-like scarless repair, while removing HA from a fetal wound induces adult-like scarring. Differential binding of HA to cell surface receptors may influence the deposition and organization of the scar in the resulting repair.

There are several specific cell surface receptors for HA, two of which form the basis of our studies: CD44 receptor, and RHAMM (Receptor for HA Mediated Motility), a newly discovered receptor. HA breakdown requires binding to the cell surface, endocytosis, and lysosomal enzyme digestion. Increased binding of HA to CD44 receptor is proposed to enhance the breakdown of HA. RHAMM-HA interaction has been associated with increased fibroblast locomotion. The interaction of HA with CD44 and RHAMM dictates fibroblasts to proliferate, migrate, synthesize, and organize collagen fibers in the healing wound. Our studies have shown that CD44 expression is increased with exogenous addition of HA, while RHAMM receptor expression is unregulated with the addition of hyaluronidase, an enzyme that specifically degrades HA. It is proposed that, as HA is broken down early in repair, RHAMM expression is unregulated which, in turn, promotes fibroblasts at the wound edge to migrate into the healing wound.

Atopic Dermatitis: New Treatments

Lynda Schneider '83

Atopic dermatitis is a common skin condition which affects approximately 10 percent of children. Diagnostic features include pruritus, a chronic or chronically relapsing course, and a personal or family history of atopy (allergic rhinitis, asthma or atopic dermatitis). Acute lesions are characterized by erythema, edema, and vesication. Chronic lesions become eczematous, lichenified, and plaquelike.

The skin distribution varies with age. In infancy the face and extensor surfaces of the arms and legs are most commonly affected. In the older child and adults, the flexor surfaces of the extremities, neck, and upper trunk are commonly involved. Eighty-five percent of patients with atopic dermatitis present within the first five years of life.

Research into the pathogenesis of atopic dermatitis suggests that it is a complex inflammatory process involving the cells of the keratinocytes and Langerhans cells of the skin, cytokines, chemokines, lymphocytes, mast cells, and eosinophils. As with other allergic diseases, this inflammatory infiltrate is orchestrated by a cytokine profile, identified with a TH2 lymphocyte.

The mainstay of therapy for atopic dermatitis is skin hydration, avoidance of irritants, and use of topical steroids. The use of topical steroids is particularly important to calm the inflammation of atopic dermatitis. However, topical steroids are not always effective and can lead to significant topical and potentially systemic side effects. Topical steroids may cause cutaneous atrophy, striae, bruising, and telangiectasia of the skin. High potency topical steroids can potentially lead to systemic absorption and growth suppression in children.

Therefore, an alternative anti-inflammatory agent would be beneficial. Tacrolimus (FK 506, Prograf®) is an immunosuppressive agent which acts on T-cells by suppressing a cytokine transcription. Tacrolimus binds to the cytoplasmic protein FK506 binding protein and its complex in turn inhibits calcineurin which normally dephosphorlates NFAT, a major cytokine transcription factor. Tacrolimus has been found to be safe and effective in an ointment form. A recent phase two study continued on next page.
Atopic dermatitis, from preceding page

multicenter trial of topical Tacrolimus in 180 children ages seven to 16 years with atopic dermatitis revealed highly significant improvement in percent of body surface area affected and total clinical score in the topical Tacrolimus group in comparison to a vehicle placebo group. There were no chronic skin changes and no significant systemic absorption. Application site events including itching and burning were noted in approximately 20 percent of patients but resolved after a few days of therapy. Current phase three multicenter trials involving children two years and older and adults are in progress.

Perhaps even better than the new antiinflammatory agent for atopic dermatitis, a preventive approach may be useful. Research done over the last 10 years suggests that allergens may be major triggers of atopic dermatitis. A number of studies indicate that both inhalant and food allergens can worsen atopic dermatitis. Skin testing, allergen specific IgE and/or patch testing are often positive for the relevant allergens. In addition, allergen avoidance can reduce the symptoms and severity of atopic dermatitis. Aeroallergen triggers of atopic dermatitis include pollens, molds, dust mites, animal danders, and cockroach. The most common food allergens in atopic dermatitis are egg, peanut, cod, milk, soy, and wheat.

Outcomes research, from page 10

responsive tools; otherwise we will never know, with any degree of scientific clarity, whether we have truly achieved the goals that our patients desired.

Fortunately, there are now standard and scientific ways of asking how patients are doing from their point of view. The questions must be crafted carefully, and tested for performance in the target population prior to clinical use, just as any machine, camera, or other device should be tested prior to general use. Interestingly, when this has been done it has been found that the reliability and responsiveness of well designed clinical questionnaires of patient function can actually exceed that of many commonly used imaging, physical, or laboratory tests designed to more “objectively” measure the same capacity. Patients are, in general, at least as reliable in telling us what they can and cannot do as they are in showing us.

Consistency can be assessed in the context of the responses to other inquiries, questions or examinations, as the case may be. And, by allowing the patient to do all the work, outcomes instruments avoid the bias introduced by a human observer.

This is not to denigrate the laboratory tests and examinations that we do, which are critical in understanding the physiological basis for functional impairment and complaints of symptoms, disabilities, or handicaps. These tests are very helpful in telling us where the problem is, and even what kinds of treatment might be effective. They are less helpful, though, when it comes to telling us whether there is a problem worth treating, in terms of how much it is bothering the patient, or what the most appropriate treatment might be, in terms of patient preferences. For most problems, both physical and functional data are important in formulating a treatment plan. To the extent we have focused on the former and ignored the latter, we have not served our patients as well as we could. In a way, outcomes research is nothing more than the scientific study of what has traditionally been called the art of medicine: learning what is troubling our patients most, and how most effectively to address the problem as expressed in the individual before us, rather than in some nameless, generic person with diagnosis X.

To give a specific example, the value of a given health state, or the utility of that state, can be measured. This is done most often by asking patients to compare their current health to some absolute like perfect health or death, and asking them to trade off the disease state for years of healthy life. Here, as one might expect, patients differ considerably; some people value life more than perfect health, other the opposite. But we cannot know unless we ask; no machine can help us. Similarly with symptoms, disabilities, and handicaps: we cannot know what they are, or how much they bother patients, unless we ask.

What challenges does outcomes research present? Basically, there are three: who will define the priorities; whether clinicians can agree on common measures; and whether clinicians will cooperate to use the data for improved care. As to the first, one would hope that physicians would be united behind the motto that has guided my adopted academic home, Mayo Clinic, for nearly a century: “the patient’s interest is the only interest to be considered.” Other priorities, such as financial and societal ones, are also important, but if physicians are to be true to their calling, the Mayo brothers' reiteration of the basic Hippocratic message must be heeded. As to the latter two, the responsibility, to quote the Bard, “is not in our stars, but in ourselves.” Will we, as physicians, put aside interspecialty quarrels? In my own discipline, orthopaedic surgery, the American Academy of Orthopaedic Surgeons has worked in cooperation with other medical specialties, physical therapists, and occupational therapists to develop a series of musculoskeletal functional assessment questionnaires, suitable for adults and children. These instruments should help us gauge more scientifically the impact of musculoskeletal impairment and its treatment on our patients’ lives.

Will we work together in integrated teams to provide more effective service? This may seem a given in this era of integrated delivery systems, but will the care be effective, and informed by clinical outcomes, rather than financial ones? Sadly, the process cycle too often seen is to lead by fear, kill the messenger, fudge the data, and micromanage the result. Outcomes research offers us the possibility instead of evidence-based medicine, where clinical practice is informed by and improved by a continuous analysis of clinical outcomes. Such a process brings the dividends of clinical research directly to the bedside. Are we up to these challenges? Our future, and that of our patients, depends upon our willingness to meet them head on.

Einstein Network, from page 9

Einstein Medical Center, I have had leadership duties as permanent invitee to the Board of Trustees of the medical center, and the sole physician representative on the Executive Committee of the Albert Einstein Healthcare Network. It was also my privilege to cochair the network’s Strategic Planning Committee.

In considering whether to partner with other health care systems, our committees at Einstein discussed a wide variety of characteristics desirable in a partner and narrowed these to what was essential. We then evaluated which health care systems in the Philadelphia area had these characteristics. It was clear that the Jefferson Health System most closely matched our values. This is why Einstein has now joined the Jefferson Health System.

Though specifics of treatment have changed greatly during the last four decades, as exemplified by breast cancer therapy, the values of compassionate patient care and education as the foundations of medicine in the United States, have remained stable at Jefferson Medical College and are the basis for future success.
Alumni are Invited to Compete for Simon Gratz Research Prize

Alumni, including postgraduate alumni, may apply for the Simon Gratz Research Prize from Jefferson Medical College.

Two cash prizes are awarded every three years to one faculty member alumnus and one nonfaculty alumnus. In accordance with the terms of the bequest, awards will be made to those alumni whose work is deemed to have "most furthered the advancement of medical or surgical treatment of disease; or for research work that has been productive of results having real practical value." This work must have been completed within the preceding five-year period. Each award will be in the amount of $20,000.

How to Apply
Application must be accompanied by:
* a completed application form (see below), including a typed abstract;
* the candidate's curriculum vitae;
* a biographical sketch of the nominee (not to exceed three pages);
* a summary and analysis of the candidate's contribution meeting the terms of the bequest (not to exceed five pages); and
* copies/reprints of any relevant publications.

Deadline
Application and supporting documents must be received no later than December 31, 1999.

Selection Procedure
Recipients are chosen by majority vote of the Selection Committee in the winter of each award year. All committee members are required to participate in the selection. The committee's decision will be final. The award recipients will be announced at the spring 2000 Potter Lecture.

For Further Information
Send application and supporting documents to Associate Dean for Scientific Affairs, Jefferson Medical College, Room M-5, 1020 Locust Street, Philadelphia, PA 19107. Questions may be addressed to Chairman, Gratz Prize Committee, at the address above, or phone 215 503 2011.

Application Form for the Simon Gratz Research Prize
Submit 10 copies of this form and supporting documents (see above) to Associate Dean for Scientific Affairs, Jefferson Medical College, Room M-5, 1020 Locust Street, Philadelphia, PA 19107. All materials must be received no later than December 31, 1999.

Abstract: attach a typed abstract of reason for application, limited to 150 words.
OBITUARIES

Ray H. Wharton '24 died April 15, 1998. He practiced general medicine in Parkersburg, WV for many years. After graduate work at Harvard and the Universities of Chicago and Cincinnati, he specialized in internal medicine and cardiology, becoming one of the first cardiologists in the area. He was a delegate to the West Virginia Medical Association and a past President of the Parkersburg Academy of Medicine. He is survived by a daughter.

Harold L. "Red" Stewart '26 died May 30, 1998. Recognized nationally and internationally as a pathologist, educator, and cancer researcher, he began his career as an Assistant Professor of Pathology at Jefferson. He also served in the U.S. Armed Forces in both World Wars. He joined a research group at Harvard in 1939 which soon after moved to Bethesda, MD to become the nucleus of the National Cancer Institute of the National Institutes of Health. He was appointed Chief of Laboratory Pathology at NIH, a position he held until 1969. From 1954 to 1969 he also was Chief of the Department of Pathologic Anatomy of the Clinical Research Center at NIH. Author of over 250 scientific articles, he was the principal investigator for the World Health Organization's Collaborating Center for Research on Tumors in Laboratory Animals. He also held faculty appointments at Georgetown University School of Medicine and the Uniformed Services University of the Health Sciences where friends and former colleagues established the Harold L. Stewart Lectureship. He received Jefferson's Alumni Achievement Award in 1966, served as an alumni member of the Board of Trustees of Thomas Jefferson University, 1969-72, and received the Dean's Medal in 1994. He helped found the Registry of Experimental Tumors, and was a past President of the American Association for Cancer Research. He is survived by a son and a daughter.

John Kemble '33 died February 28, 1998. Board certified in neurology, he practiced as a member of the U.S. Army Medical Corps. Following army retirement, he was Professor of Neurology at the Medical College of Georgia and Chief of Neurology at Milledgeville State Hospital, Augusta, GA. Upon retirement he lived in Southern Shores, NC. He is survived by a son and two daughters.

John Goldcamp '34 died February 17, 1998. Board certified in ophthalmology, he practiced in Youngstown, OH. He held a staff appointment with the Western Reserve Care System, Youngstown, OH. He was a Fellow of the American Academy of Ophthalmology and the American Academy of Otolaryngology. He was a resident of Sun City, AZ and is survived by his wife, Elizabeth, and two sons.

William J. Harker '34 died February 14, 1998. He practiced general medicine in Sharon, PA, and was on staff at the Sharon General Hospital, Sharon, PA. We have no further information at press time.

Robert P. Morehead '36 died January 7, 1998. Board certified in pathology, he joined the faculty of Bowman Gray School of Medicine of Wake Forest University in 1937, and was appointed Professor and Chairman of the Department of Pathology at Bowman Gray in 1946. He was a noted educator, researcher and author in the field of tumor pathology. In 1988 the alumni of Bowman Gray School of Medicine presented him with their Distinguished Faculty Service Award. He is survived by his wife, Dorothy, two sons and a daughter.

C. Nash Herndon Jr. '39 died March 29, 1998. Board certified in internal medicine and medical genetics, he was Professor of Medical Genetics at Bowman Gray School of Medicine of Wake Forest University. He later also served as Senior Associate Dean for Research and Development at Bowman Gray. He was a past Editor of the American Journal of Human Genetics, and a past President of the American Society of Human Genetics. He served on advisory committees for the National Institutes of Health, the National Institute of Child Health and Human Development and the Atomic Energy Commission. He is survived by his wife, Margaret, a son and a daughter.

C. Brinley Bland '42 died July 29, 1998. Board certified in obstetrics and gynecology, he was Chief of Obstetrics-Gynecology at Germantown Hospital, Philadelphia, and an attending physician at Chestnut Hill Hospital, Philadelphia. He was a Fellow of the American College of Surgeons and the American College of Obstetricians and Gynecologists. He is survived by three daughters and two sons.

Louis H. Palmer Jr. '43 died May 11, 1998 in Stuart, FL. He practiced general surgery. We have no further information at press time.

Earl K. Sipes '46 died January 8, 1998. Board certified in general surgery, he served as Chief, Department of Surgery, Sacred Heart Hospital, Allentown, PA. He was a Fellow of the American College of Surgeons, and served as President of the Medical Staff, Sacred Heart Hospital, 1978-1980. He is survived by his wife, Helen.

Laurence A. Mosier '47 died November 8, 1997. Board certified in general surgery, he held staff appointments at St. Joseph Hospital and the Medical Center of Garden Grove, Garden Grove, CA. He was a member of the clinical faculty at the University of California, Irvine. He is survived by his wife, Dolly, three daughters and a son.

Park W. Huntington Jr. '49 died June 14, 1997, it has been ascertained. He was on staff at the Delaware Hospital, Wilmington, DE. We have no further information at press time.

Alvin H. Smith '52 died February 2, 1998. Board certified in ophthalmology, he was Chief of Ophthalmology at St. Mary's Hospital, Philadelphia, and at Warminster General Hospital, Warminster, PA, as well as holding staff appointments at three other hospitals. He was a Fellow of the American College of Surgeons and the American Academy of Ophthalmology. His father and two cousins graduated from Jefferson Medical College. He is survived by his wife, Leonore, two sons and two daughters.

Joseph H. Carter '53 died May 28, 1998. He was an anesthesiologist at Hamot Medical Center, Erie, PA, 1956-1988. He served as President of the Erie County Medical Society, 1981-1982, and President of the Hamot Medical Staff, 1983-1984. He is survived by his wife, Betty, a daughter and three sons.

14 JEFFERSON Medical College Alumni Bulletin October 1998
Richard H. Kastner '56 died April 23, 1998. Board certified in psychiatry and an expert in civil forensics, he practiced in Landover and Clarksburg, MD. He served as Senior Psychiatric Consultant for NASA, the National Institutes of Health, and other Washington, DC agencies. He was a Fellow of the Royal Society of Medicine. He is survived by his wife, Eleonore, a son and twin daughters.

William F. Haines '57 died March 4, 1998. He was a general practitioner and allergist in Malvern, PA. He was on staff at Paoli Memorial Hospital, Paoli, PA. He leaves no immediate survivors.

Walter M. Shelly '59 died March 20, 1998. Board certified in both general surgery and thoracic surgery, he was Chief of Surgery at the Appalachian Regional Medical Center, Hazard, KY. He and his physician wife spent a total of 10 years in medical missionary work in Africa with the African Intercommunion Mission. A Fellow of the American College of Surgeons, he is survived by his physician wife, Elizabeth, two sons and two daughters. Son Mark is Jefferson '86.

Michael C. Venditti '59 died May 14, 1998. He practiced general medicine in Beverly, NJ, and was on staff at Rancocas Hospital, Willingboro, NJ. He is survived by his wife, Marianne, two sons and a daughter.

Francis J. Fanfera '61 died July 7, 1998. Board certified in general surgery, he practiced in Paoli, PA and was Chief of Surgery, Paoli Memorial Hospital. A Fellow of the American College of Surgeons, he later served as Senior Vice President for Medical Affairs for Main Line Health of the Jefferson Health System. He is survived by his wife, Virginia, four daughters and three sons.

Frank M. Quinn '62 died January 17, 1998. Following nine years in the U.S. Army Medical Corps, he became board certified in ophthalmology. He practiced at the Carle Clinic, Urbana, IL. He was a Clinical Assistant Professor of Ophthalmology at the University of Illinois College of Medicine, and a director of the Illinois Association of Ophthalmology. He is survived by his wife, Mary Anne, two daughters and a son.

Kasturi G. Shanker U'76 died September 8, 1997, it has been ascertained. He was a urologist in Roanoke Rapids, N.C. We have no further information at press time.

Faculty

Franz X. Hausberger, former Professor of Anatomy at Jefferson Medical College, died July 6, 1998. He was a noted researcher in physiology and endocrinology and author of many notable scientific publications. Loved by medical students, he was awarded an Honorary Doctor of Science Degree by Thomas Jefferson University in 1978. A modest and self-effacing man of great talents and rare intelligence, he left a lasting impression on all who crossed his path at Jefferson and elsewhere. He is survived by two stepsons.

Richard C. Murray of Patton, PA recently received an honorary degree of Doctor of Humane Letters from St. Francis College in Loretto, PA. This degree was given in appreciation for helping to start a physician's assistant program in 1980 and his 30 years of practice in Patton.

Three generations of Perilsteins have attended Jefferson Medical College. They are: Paul Perilstein '42, son Michael '75, and grandson Philip '01.

James S. D. Eisenhower Jr. of Cape May Court House, NJ retired in February 1998 from family practice.

John A. Martin of Roanoke, VA and William G. Johnson '54 of Venice, FL won first place in a "best ball of a twosome" golf match against the field at the anniversary spring meeting of the Eastern Radiological Society in Southern Pines, NC.

DeArmond Linder of Tucson, AZ says his alter ego as a systems engineer is busy in research and development for a physician practice including computer-based records to "minimize Health Care Financing Administration hassles."

Raymond E. Silk of Bala Cynwyd, PA continues to practice general surgery.

David W. Thomas Jr. of Lock Haven, PA retired two years ago from Penn State Geisinger Health Group as associate in general surgery. He is presently teaching surgery at Lock Haven University's Physician Assistant Masters Program as Clinical Professor. His granddaughter has been accepted to the six-year Penn State/Jefferson accelerated program.

Gerald J. Marks of Narberth, PA recently received the first Distinguished Service Award presented by the Society of American Gastrointestinal Endoscopic Surgeons.

George T. Wolff of Greensboro, NC is semi-retired. He currently teaches the family practice residents two days a week in the program he helped start and spends one day per week teaching third year medical students.

John J. Goodwin of Coopersburg, PA is working in geriatric psychiatry as Chief Psychiatrist at the Gero-Psychiatric Center of New Jersey.

Rachmel Chermer of North Wales, PA, a Clinical Associate Professor of Medicine at Jefferson, has recently reentered the solo practice of endocrinology and metabolic diseases in Willow Grove, PA. Dr. Chermer was recently recognized by the editor of the Annals of Internal Medicine, published by the American College of Physicians, for being among its top 10 percent of literature reviewers for the year 1997.

Edward W. Luczynski Jr. of Williamstown, MA and wife Sally continue to enjoy retirement with all that a college town has to offer. They play
Can You Host a Student Interviewing in Your Area?

Students will be contacting alumni during November, December, and January requesting housing while they are interviewing for residencies. Alumni have found that this is a fun way to catch up on what's happening at Jeff, and to meet physicians-to-be who may soon be practicing in their region. If you would be willing to host a student interviewing in your area, please return the form below to JMC Alumni Office, 1020 Locust Street M-41, Philadelphia, PA 19107.

tennis, golf, and cross country ski along with their volunteer activities.

'58

William W. Clements of Devon, PA is currently teaching family medicine at Bryn Mawr Hospital and at Jefferson. During the summer, he investigates Viking archaeology in Maine.

Joseph T. English of Bronxville, NY, a former President of the American Psychiatric Association, has been appointed Chairman of the Department of Psychiatry and Behavioral Sciences at New York Medical College. A longtime Professor of Psychiatry at Saint Vincent's Hospital and Medical Center in New York City, Dr. English has served as Acting Chairman at NYMC since July. Dr. English is a member of the Institute of Medicine of the National Academy of Sciences and currently serves as the senior delegate of the American Psychiatric Association to the American Medical Association. He is a former President of the New York Health and Hospitals Corporation. At New York Medical College, Dr. English intends to advance research initiatives in geriatrics and schizophrenia, and in collaboration with the college's programs in neurosurgery and neurology, to develop an integrated neurosciences center at affiliated Westchester Medical Center.

'61

William T. Anderson of Somerville, NJ is actively practicing family medicine. "I still enjoy functioning as a traditional physician in my community." He is on the emeritus staff of Somerset Medical Center, Clinical Professor in the Department of Family Practice, Robert Wood Medical Center, UMDNJ, Medical Director of Foothill Acres Nursing Home, and involved in numerous other medicine-related committees.

'62

Henry Gelband of Key Biscayne, FL continues to do medical research. He recently published an article with his son who is on the faculty at the University of Florida School of Medicine.

'63

The Pennsylvania Medical Society has awarded its prestigious 1998 Physician Award for International Voluntary Service to Robert M. Davis of Felton, PA. Dr. Davis, who is a plastic surgeon, in the past 10 years has completed more than 250 surgical procedures in Jamaica, helped develop a surgical center in the Jamaican highlands, and delivered cartons of supplies and clothing for children. He has performed some 200 surgical procedures in small villages in India, taught Indian physicians and nurses modern surgical techniques, and delivered more than $50,000 worth of pharmaceutical and hospital and school supplies to local residents. Dr. Davis is currently the Assistant Chair of the Department of Surgery at York Hospital. He is also a Clinical Associate Professor of Surgery at the Pennsylvania State University College of Medicine.

'64

Peter M. Fahnney of Bethesda, MD recently retired from emergency medicine clinical practice at Suburban Hospital in Bethesda. His second career is coordinating donations of outdated medical equipment and supplies for use in less fortunate Third World countries through Emergency International.

Milton J. Sands of Farmington, CT continues to serve as Chief of Cardiology at the New Britain General Hospital, a moderately sized teaching hospital in central Connecticut. He is an Associate Clinical Professor at Yale University School of Medicine and a Professor of Medicine at the University of Connecticut School of Medicine. He received the 1997 and 1998 Outstanding Teacher Award in the Primary Care Internal Residency Program at the University of Connecticut and the Laureate Award from the Connecticut Chapter of the American College of Physicians for commitment to medical care, teaching, and research.

'66

Charles M. Dickson of Granby, CT retired September 1997. He was the Director of Anesthesiology at Newington Children's Hospital 1986-96 and at the New Connecticut Children's Medical Center in 1996. He was President of the Connecticut Society of Anesthesiology 1994-96.

'69

John and Elizabeth Bussard of Ringoes, NJ are the proud parents of Anne Bussard who is a member of Jeff's Class of '01.

Paul M. Weinberg of Cherry Hill, NJ received from the University of Pennsylvania School of Medicine the 1997-98 Blockley-Osler Award for...
Mitchell M. Greenspan of Chalfont, PA was on hand to present the Ellis Greenspan Memorial Award to Claudia Garner, a registered nurse at Grand View Hospital. This award was established by Dr. Greenspan and family in memory of his father.

Barbara Gibson of Moorestown, NJ is enrolled in a Master's in Public Health program to be completed in December 2000. "I'm not sure yet what I'll do with it; I'm open to all suggestions," she says.

Stephen C. Silver of Media, PA is currently Chief of Colon and Rectal Surgery at Delaware County Memorial Hospital and Assistant Professor of Surgery at Jefferson. Taro Arai '90 has joined him in his practice.

Stephen C. Mory of Erie, PA was recently appointed Chief of Psychiatry at St. Vincent Health Center in Erie.

Thomas J. Nasca of Malvern, PA is President-elect of the Association of Program Directors in Internal Medicine. Dr. Nasca is Associate Dean for Education and Research, Jefferson Health System, Jefferson Medical College.

Margaret M. Dunn of Beavercreek, OH has been appointed Acting Associate Dean for Faculty and Clinical Affairs at Wright State University School of Medicine. Dr. Dunn is a Professor of Surgery at Wright State. She also serves as Associate Program Director of Wright State's Integrated Surgical Residency and Codirector of Surgical Education at Miami Valley Hospital. She has won numerous teaching and research awards, including the Wright State University Academy of Medicine's Award for Excellence in Medical Education and Research. In 1995, she was selected for the Executive Leadership in Academic Medicine fellowship at Hahnemann University in Philadelphia.

Stephen I. Kramer of Winston-Salem, NC has accepted a three-year appointment to the Executive Council of the American Association of Directors of Psychiatry Resident Training and will also serve as Cochair of its Information Committee.

Alfred and Patty Levy of Richardson, TX lost their 12-year-old son, David, in February 1998 due to complications of status seizure. Their daughter, Anna, will be a senior this coming year at the Hockaday School of Dallas. Alf enjoys piloting his Cessna 182 and he still practices family medicine in Gartland, TX.

Dean and Senior Vice President for Academic Affairs Joseph S. Gonnella, M.D. (center) visited in Hawaii with Dr. and Mrs. Henry Yim '56 and Dr. and Mrs. Gregory Yim '88.

Ira U. Smith of Cherry Hill, NJ merged his private practice with South Jersey Pulmonary Associates in Mount Laurel, NJ.

Anthony V. Coletta of Penn Valley, PA has been promoted to Assistant Professor of Surgery at Jefferson. He practices at Bryn Mawr Hospital.

Martin K. Fallor of Rancho Santa Fe, CA has been awarded a J.D. degree from Thomas Jefferson School of Law in San Diego.

Raymond F. Nungesser of Bloomsburg, PA has moved to Virginia Beach to set up his cosmetic surgery practice.

Chuck Bryner from the U.S. Naval Hospital, Rota, Spain, was named the 1998 USAFP Family Physician of the Year at the USAFP Scientific Assembly in Orlando, Florida. He practices the full scope of family practice, from obstetrics and neonatal care to geriatrics. He has shown...
CLASS NOTES

Richard Rybarchyk and family recently migrated to Monroe, WA. He has joined an Air Force buddy in the practice of obstetrics and gynecology.

Eugene R. Viscusi of Bensalem, PA is the Director of Jefferson's Acute Pain Management Service and also the music director and organist at Old St Joseph's Church in Society Hill, Philadelphia. He has been the church's organist since 1976.

Alan J. Cohen of Oakland, CA is at work on psychopharmacological research with a medical use patent pending.

Neil L. DeNunzio and wife Laura of Elizabeth City, NC are delighted with their new bundle of joy, Mallory Lindsey, born March 11, 1997.

Mark P. Downey of Harrisburg, PA has accepted a position as an associate with Central Penn Anesthesiology. He and his wife, Carolyn, adopted their infant son, Peter Vyacheslav, from Russia in October 1997 and the family is doing very well.

Theodore J. Daly of Hicksville, NY is Assistant Professor of Dermatology, Pediatrics, and Pathology at the State University of New York at Stony Brook and the Director of Pediatric Dermatology at Nassau County Medical Center. He recently authored an article on CGRP, a neuropeptide, and its relationship to the etiology of alopecia areata, published in July's issue of the Archives of Dermatology. He is "even more interested" in his son Teddy, daughters Kristin and Cheryl, and wife, Helen. Theodore has been a recurrent guest on Good Day New York, discussing acne vulgaris, accutane, and chemical peels.

Robert D. Wallace of Memphis, TN was recently promoted to Associate Professor of Surgery at the University of Tennessee College of Medicine in Memphis and continues to serve as Chief and Program Director of Plastic and Reconstructive Surgery.

Gary E. Fishbein of Bryn Mawr, PA received his M.P.H. from Allegheny University of the Health Sciences this past spring.

Bernard L. Lopez of Wayne, PA has been promoted to Associate Professor of Surgery (Emergency Medicine) at Jefferson.

Janice H. Dickter of West Chester, PA has received a Jefferson faculty appointment as an Instructor in Pediatrics.

Melissa Brown of Flourtown, PA recently took the GOP by surprise when she announced she was seeking the Republican nomination for the U.S. Congressional seat for Pennsylvania's 13th District. She is particularly interested in health care reform. Dr. Brown is a practicing ophthalmologist.

Teresa C. Carson of Philadelphia, PA has received a Jefferson faculty appointment as an Instructor in Pediatrics.

Jeffrey S. Gosin of Linwood, NJ recently completed a vascular surgical fellowship at UMDNJ-Robert Wood Johnson Medical School (New Brunswick, NJ) and joined his father, Stephen Gosin '62, in the practice of general and vascular surgery.

Andrea R. Bates of Sacramento, CA is Director of Turning Point, a mental health agency, and Program Director for an adult unit in a psychiatric hospital.

Vincenzo Berghella and his wife Paola Luzi, Ph.D. of Philadelphia proudly announce the birth of their first son, Andreas Berghella, on December 1, 1997. Vincenzo has become an Assistant Professor of Obstetrics and Gynecology at Jefferson after completing his fellowship here in 1996.

Ernest L. Rosato of Ardmore, PA has been promoted to Assistant Professor of Surgery at Jefferson.

H. Leon Aussprung of Wilmington, DE is now the Director of Inpatient Pediatric Care at Riddle Memorial Hospital. He will also serve as Director of Pediatric Outpatient Program Development at Riddle, working with community physicians to establish ties with the hospital.

Wayne Bauerle and wife Cheryl recently relocated to Myrtle Beach, SC where Dr. Bauerle is an orthopaedic surgeon. They are proud to announce the birth of their third child, Luke Xavier, on May 22, 1998. Luke joins Wayne Jr. (three) and Sommer (two).

Maria Sophocles Martin of Wayne, PA is relocating to Summit, New Jersey this August where she will join a private practice in obstetrics/gynecology and the staff of Overlook Hospital. She has a son, Alexander, 20 months, and a second son, Thomas, two months. She would love to hear from classmates in the Manhattan area (the2bears@msn.com).

Edgar R. Miller III of Baltimore, MD has been promoted to Assistant Professor of Medicine.
at Johns Hopkins University. He and his wife, Riley, proudly announce the birth of their second child, Anna Riley, on May 19, 1998.

Joseph F. Nasuti of Philadelphia, PA has been appointed Instructor in Pathology, Anatomy, and Cell Biology at Jefferson.

'93 Catherine R. Benedict of Huntingdon Valley, PA has been appointed Instructor in Pathology, Anatomy, and Cell Biology at Jefferson.

Joseph A. Iacono of Palmyra, PA has a second daughter, Lauren, now one year old.

Maureen Stoffa of St. Louis, MO and her husband, Joe Heaney, are proud to announce the birth of their son, John Thomas Heaney, on June 24. Maureen is currently working as an internist with a multispecialty group in St. Louis.

Netra M. Thakur of Philadelphia, PA has been appointed Clinical Assistant Professor of Family Medicine at Jefferson.

'd94 Daniel Rijkin of Merion, PA finished his pediatric residency at the University of Maryland and has completed his first year of three in a pediatric pulmonary fellowship at St. Christopher's Hospital in Philadelphia.

Robert Alan Rosenbaum of Wilmington, DE completed an emergency medicine residency at Medical Center of Delaware in 1997. He is now working for Doctors for Emergency Service as an attending physician at Christiana and Wilmington Hospitals in Delaware.

'95 Laura Kornsgold Brandspiegel of Philadelphia has completed her pediatric residency and will be working with Temple Physicians, Inc.

Margaret G. Delposen of Pittsburgh, PA graduated from St. Margaret Memorial Hospital family practice residency with plans to work in the Community Outreach Program at St. Margaret. She has two children: Christopher, three, and Andrew James, one.

Steven Alan Oberlander of Arlington, MA has become the Chief Resident in Dermatology at Massachusetts General Hospital/Harvard Medical School.

Richard J. Saad and wife Aileen of San Antonio, TX proudly announce the birth of their first child, Alexander Ming-Dao, on May 13, 1998. They are moving to Fort Belvoir, VA where Dr. Saad will practice as a general internist.

'S6 Sunita Dadhich proudly announces her wedding on January 3, 1998 to Gargey M. Patil '95. They are currently living in Wilmington, DE.

'97 William K. Wong Jr. of Alamo Heights, TX finished his transitional internship at Tripler Army Medical Center in Honolulu, Hawaii and began his ophthalmology residency in July 1998 at Brooke Army Medical Center in San Antonio.

Postgraduate Alumni

Burt Cagir CRS'97 of Wynnewood, PA has been promoted to Assistant Professor of Surgery at Jeff.

Franca Cambi N'92 of Philadelphia, PA has been promoted to Associate Professor of Neurology.

Joann C. Cozza PD'91 of Philadelphia, PA has received a Jefferson faculty appointment as an Instructor of Pediatrics.

Theodore A. Christopher EM'86 of Maple Glen, PA has been promoted to Associate Professor of Surgery (Emergency Medicine).

William R. Dubin P'77 of Wynnewood, PA has been appointed Clinical Professor of Psychiatry and Human Behavior at Jeff.

Mary Elizabeth Fontana-Penn AI'95 of Wyndmoore, PA has been appointed Clinical Assistant Professor of Pediatrics at Jefferson, practicing at the duPont Hospital for Children.

Mitchell K. Freedman PM'86, Instructor in Rehabilitation Medicine, has joined the Rothman Institute at Jefferson. Dr. Freedman specializes in physical medicine rehabilitation. The Rothman Institute, directed by Richard Rothman, M.D., Ph.D., ORS'68 is one of the premier centers for orthopaedic surgery. Dr. Freedman recently furthered his postgraduate training with a physical medicine and rehabilitation fellowship in nonsurgical/procedural management of spine disorders in 1997. Dr. Freedman's research on spinal cord injury, rehabilitation, and pain management has been presented nationally and published in such scholarly journals as the Journal of Urology.

Wlodzimierz Grodecki AN'95 of Wayne, PA has been appointed an Assistant Professor of Anesthesiology at Jefferson.

Ying L. Higgins PD'93 of Media, PA has been appointed Instructor in Pediatrics.

David E. McGinnis U'93 of Philadelphia has received a Jefferson faculty appointment as Clinical Assistant Professor of Urology.

Jan Rakin CRN'90 of Philadelphia has been promoted to Clinical Associate Professor of Surgery.

Steven Rosenzweig EM'89 of Philadelphia has been promoted to Clinical Associate Professor of Surgery (Emergency Medicine).

Patrick J. Shenot U'97 of Moorestown, NJ has been appointed Instructor in Urology at Jefferson.
## HOSPITAL APPOINTMENTS Class of ’98

### California

- **Camp Pendleton Naval Hospital–Camp Pendleton**
  - Kristen D. Bauder (Family Practice)
- **Univ. of CA-San Francisco-Fresno**
  - Vicki Harriet Rapaport (Internal Medicine)
  - Douglas Shane Stanley (Internal Medicine)
- **Merrithew Memorial Hospital-Martinez**
  - Jane Louise McCormick (Family Practice)
- **San Diego Naval Medical Center**
  - Jonathan Brett Fugitt (Transitional)
  - Julie Ann Rinner (General Surgery)
  - Gordon Gale Wisbach, III (General Surgery)
- **Univ. of CA-San Diego Medical Ctr.**
  - Joshua B. Hyman (General Surgery)
  - Patty Ann Vitale (Pediatrics)
- **Stanford Health Services-Stanford**
  - William Scott Lock (Obstetrics/Gynecology)
- **Harbor-UCLA Medical Center–Torrance**
  - Brandon Taylor Gintzke (General Surgery)
  - Jill Gruenert Gintzke (Emergency Medicine)

### Colorado

- **Univ. of Colorado Sch. of Med.–Denver**
  - David Matt Melnick (General Surgery)
  - Christian Michael Simpfendorfer (Internal Medicine)

### Connecticut

- **Univ. of Connecticut Hospital–Farmington**
  - Lincoln Fritz-Abboit (Emergency Medicine)
  - Jill Richele Coren (Emergency Medicine)
  - Michelle Andrea Nanda (Family Practice)
  - Krishnan Narasimhan (Family Practice)

J. Wallace Davis, M.D.
Chairman
Alumni Annual Giving Fund
Jefferson Medical College
1020 Locust Street
Philadelphia, PA 19107-6799

Dear Wally:

On behalf of Jefferson Medical College, please accept my sincere appreciation for your outstanding achievements in raising $2,018,160 during the 50th Campaign of the Alumni Annual Giving Fund. Because of your remarkable leadership this campaign raised more than the $2 million dollar goal that was set.

Wally, I want to extend to you my personal thank you for a job “well done.” Your talents are amazing. Jefferson Medical College is the proud recipient of your efforts. Please accept my best wishes.

Sincerely,

Joe

Joseph S. Gonnella, M.D.
difficult each year, albeit pleasurable, on behalf of attitude for your outstanding work as Giving Fund. This year is success, raising over $2 million, is al alumni.

give a resounding "thank you" for all your alma mater. You set the pace

many JMC alumni who made this appreciated by all!

C. Brucker, M.D.

July 13, 1998

J. Wallace Davis, M. D.
Chairman
Alumni Annual Giving Fund
Jefferson Medical College
1020 Locust Street
Philadelphia, PA 19107-6799

Dear Wally:

On behalf of the Board of Trustees, I extend congratulations and thanks to you and your associates on your achievement in raising a record setting $2,018,160 for the 50th Campaign. A terrific 15% increase over last year indicates the continuing interest, devotion, commitment and effort by you and other alumni to Jefferson.

The strong support of the Alumni both professionally and financially is increasingly important in these rapidly changing times for healthcare. The continued efforts and contributions of the Alumni will assure the continued ability of Jefferson to fulfill its mission in the years to come.

Cordially,

Jack Farber

JF:ckm

Tommaso Jefferson University
How You Can Make a Gift

Outright Gifts

**Gifts of Cash**
These offer the donor a direct income tax benefit.

**Gifts of Securities (Stocks and Bonds)**
Appreciated securities should have been held for more than one year by the donor at the time of the gift. Such contributions may be deducted at the securities' fair market value, and there is no capital gains tax on unrealized appreciation. Short-term securities (held for one year or less) are deductible at cost.

**Gifts of Real Property**
Land or buildings should have been held for more than one year by the donor at the time of the gift. They may usually be deducted at fair market value, and there is no capital gains tax on unrealized appreciation. Short-term assets (held for one year or less) are deductible at cost.

Planned Gifts

**Pooled Income Funds**
Pooled funds provide income for the life of the donor or other beneficiaries. Charitable income tax deductions are based on the age of the beneficiary at the time of the gift and the rate of return of the investment fund.

**Gift Annuities**
These provide the donor a fixed income and also income tax benefits.

**Charitable Remainder Trusts**
There are two types: unitrusts pay the donor a specified percentage (at least five percent) of the assets valued annually; annuity trusts pay a fixed amount annually (at least five percent of the initial fair market value). Both afford tax benefits and life income for the donor/beneficiary or other beneficiaries.

**Charitable Lead Trusts**
Lead trusts pay a percentage of trust income to Jefferson for a fixed number of years (or for a term measured by one or more lives), and then return the principal to the donor or pass it to other noncharitable remainder beneficiaries named by the donor. These trusts also provide tax benefits.

**Life Insurance**
A gift would consist of insurance naming Jefferson as the owner and irrevocable beneficiary of the policy. Premium payments are deductible. Donors may also give existing policies to Jefferson and claim a deduction for approximately the cash surrender value.

Other Gifts

**Bequests**
Leaving all or part of an estate to Jefferson is a good option for persons who need to retain full use of their estate during their lifetime, or for persons without heirs.

**Matching Gifts**
Some corporations match all or part of gifts made by their employees or directors to charitable institutions.

The 50th Campaign

J. Wallace Davis '42
Chairman, Annual Giving Fund Committee

Last fall the Annual Giving Committee asked Jefferson alumni, faculty, and friends to celebrate the 50th anniversary of Annual Giving by reaching an unprecedented goal of $2,000,000. I am proud and happy to report that we not only reached the goal but surpassed it, raising $2,018,160 to advance the mission of the Medical College. This remarkable achievement was made possible by the generosity of 4,038 donors—the largest number in the history of Annual Giving—and by the diligence of my associates serving in Annual Giving leadership positions.

Under the chairmanship of Benjamin Bacharach '56, the 680 members of the President's Club took us almost two-thirds of the way toward the goal. They gave $1,304,955 to the campaign which represents an increase of $172,701 over last year. This group is truly Annual Giving's sine qua non, and Jefferson is indebted to them and to their chairman.

Robert L. Brent, M.D., Ph.D. has been the Annual Giving agent for the nongraduate faculty for nine years. Under his leadership, our faculty has been most generous to Jefferson. This year 215 faculty members gave $143,326 to Annual Giving. We are grateful to them and to Dr. Brent for their continuing support.

This is the fifth year that the postgraduate alumni have participated in Annual Giving. During the past five years, our newest group of contributors raised $467,947 for Jefferson. The 50th campaign was their most successful one to date in terms of both donors and dollars. Two hundred twenty PGAs gave $108,371 to this campaign, and we thank them and their Annual Giving agents Francis X. Keeley IM'60 and Lorraine C. King REN'77.

It has been my good fortune as chairman of Annual Giving to work with an outstanding group of class agents. They have been tireless in their efforts to inspire their classmates to be generous to their alma mater with the result that Annual Giving has grown each year, reaching the $2,000,000 milestone. Our gratitude goes to each of them for a job well done. Several classes and their class agents must be singled out for special mention.

The Class of '48 raised an astounding $146,981 in honor of the 50th anniversary of its graduation from Jefferson. No class has ever come close to giving this amount in one year. Class agents Henry R. Liss, George R. Pechstein, and Norman J. Quinn, Jr. planned carefully to make their 50th reunion a memorable one, and their determination sparked an outpouring of support from their classmates. Not only were they first in amounts given but they also came in second in percentage of participation, with 72.5 percent of the class making a gift. The members of this class can take great pride in the fact that, over the last 50 years, they have given $1,083,609 to Jefferson through Annual Giving and other gifts to the College. We congratulate and thank the Class of '48 and its class agents.

The Class of '53, celebrating its 45th reunion, raised $95,822, the second highest amount ever given to Annual Giving by a class in one year. Class agents Joseph J. Armao and Robert Poole conducted an intensive campaign among their classmates which produced amazing results: second place in amount given, second place in number of contributors (96) and first place in percentage of participation with 82.8 percent of the class participating. Over the past 45 years, the Class of '53 has given $1,788,191 to Jefferson through Annual Giving and other gifts to the College. We gratefully acknowledge the exemplary generosity of the members of the Class of '53 and thank their class agents.

The Class of '78 took first place again this year in number of contributors, bettering its own performance of last year. 110 members of the class—almost 50 percent—made a gift to the 50th campaign. We appreciate the support of the Class of '78 and applaud class agent Duncan Salmon for encouraging such a large turnout among his classmates.

The Class of '71, under the leadership of class agents James E. Barone and Terrence S. Carden, Jr., had an excellent year, capturing third place in amount given with $44,444 and third place in number of contributors with 94. This is the fourth year in a row that this class has been in one of the top three spots in both categories. A consistently fine performance is the bedrock of successful Annual Giving campaigns, and so we salute the Class of '71 and its class agents.

Percentage of participation is counted from the 50th reunion class forward. Our aim is to achieve a participation rate of 50 percent or better in each class. This year nine classes reached or exceeded that mark. As previously mentioned, the Class of '53 and the Class of '48 took first and second place respectively in this category. Class agent John R. Patterson's Class of '54 came in third with a 68.1 percent participation rate which is especially noteworthy in a non-reunion year. This is the eighth campaign in a row in which the Class of '54 has held one of the top three places in this category. We thank the Class of '54 for its loyalty and commend its class agent for his admirable powers of persuasion.

It's my pleasure to welcome the members of the Class of '98 to the Alumni Association. I know that they will carry forward the great traditions of Jefferson Medical College and our Alumni Association which were entrusted to us when we were newly graduated. Representing this class will be class agents Richard S. Lee and Cecelia E. Schmalbach. Both have already worked with the Alumni Association on student programs, so I know that we can count on them to roll up their sleeves.

It has been an honor to serve as chairman of Annual Giving through 34 campaigns. The position has allowed me to give back something to my alma mater and to work along side wonderful people for the betterment of this fine medical school. During my time in office, I have witnessed such overwhelming generosity and steadfast loyalty from my fellow Jeffersonians that I can say only a heartfelt thank you for all you have done and all you have given. I know that President Brucker and Dean Gonella join me in expressing thanks. The chairmanship of Annual Giving now passes to my esteemed colleague James W. Fox IV'70. I am certain that he can rely on you to support him as you always supported me. Under his capable leadership, and with your help, Annual Giving will prosper and grow and our beloved Jefferson will be the beneficiary.
Jefferson Medical College gratefully acknowledges the alumni, faculty, widows, and friends who supported its mission by contributing to the 50th Annual Giving Campaign. There were 4,038 donors.

ANNUAL GIVING

President's Club

Members of the President's Club continue to lead the Annual Giving Campaign. During 1997-98, 65 percent of the $2,018,160 was realized by contributions of $1,000 or above. Fellows made cash gifts of $50,000 or above more than one year; the Winged Ox Society, one-time gifts of $10,000 to $49,999; the Jefferson Associates, gifts of $5,000 to $9,999; the Jefferson Society, gifts of $2,500 to $4,999; and Sustaining Members, gifts of $1,000 to $2,499. Those who supported the Medical College through the Annual Giving Program are listed below with deepest appreciation for their generosity and loyalty.

Costa Rica Adventure
January 16–24, 1999
with the Jefferson Medical College Alumni Association

Value Includes:
- Round-trip transfers between airport and hotel, including portage at the airport
- Services of a local English-speaking guide
- 8 nights accommodation in first class hotels in twin-bedded rooms with private bath or shower
- 5 breakfasts (B), 3 continental breakfasts (CB), 3 lunches (L), 4 dinners (D) as per itinerary
- Visit Manuel Antonio National Park
- Visit a banana plantation
- Tortuguero/San Jose flight
- Inside visits as shown
- Hotel tax and service charge

Itinerary:

Jan 16: Miami/San Jose, Costa Rica.
Upon arrival, you will be met and transferred to the Camino Real Hotel.

Jan 17: San Jose/Poas Volcano/Sarchi/Monteverde. An early start after breakfast for there are many activities and sights in store today. Stop at one of the scenic lookouts to observe Poas Volcano, famous for its sporadic geyser-like eruptions of gas and ash. Then, visit the town of Sarchi, for centuries a production center of the hand-painted oxcart. Browse the shop with its displays of various souvenir products. Your final destination is Monteverde, a spectacular “cloud forest,” rich in topical flora and fauna. The forest stretches from the lush fens and mosses that cover the ground up to the darkest canopy formed by the tallest trees. Arrive at the Belmar Hotel in Monteverde in the early evening. (BD)

Jan 18: Monteverde Cloud Forest. Your tour includes a visit to a reserve which, at an altitude over 4,000 feet, supports six distinct ecological communities of plants and animals with over 2,000 plant species and more than 320 species of birds, including the quetzal with its metallic green feathers and golden highlights. (BLD)

Jan 19: Monteverde/Quepos. After breakfast, descend from the verdant foothills of Monteverde to the miles of scenic coastline for Quepos, one on the outskirts of Siquirres for a short visit to a working banana plantation. See the harvesting and processing methods of the fruit, still the leading export of the country. We arrive at Hamburgo Duck to board a motor launch and cruise north along the Tortuguero Canals. This trip along the rivers and canals takes you through densely vegetated areas in search of monkeys, toucans, and egrets, to name just some of the incredible wildlife found in these inland canals. Your ride through winding waterways dotted with floating water hyacinths ends at the Pachira Lodge where you spend the next two nights. (CB/BLD)

Jan 20: Quepos/San Jose. This morning, tour the Manuel Antonio National Park. This is one of the best areas to view migrating marine birds in the country. Squirrel monkeys and three-toed sloths hide among the lush vegetation that grows to the edge of the beaches. This afternoon after lunch, depart for the capital of Costa Rica, San Jose. Balance of day at leisure. Overnight at Camino Real Hotel. (CB)

Jan 21: San Jose/Tortuguero National Park. This morning, head east across the Central Valley to the Caribbean shores. A stop is made

Features:
- San Jose, capital of Costa Rica
- Poas Volcano, famous for geyser-like eruptions
- Monteverde Cloud Forest—visit a reserve supporting six distinct ecological communities and a tropical butterfly farm
- Manuel Antonio National Park—white sand beaches and great bird, monkey, and sloth watching
- Tortuguero National Park on the Caribbean shore—cruise the Tortuguero Canal in search of toucans, egrets, and monkeys amid incredible wildlife viewing in the rain forest

Tour Price:
$1464.00 per person double occupancy
$516.00 per person single occupancy

Included are:
- Round trip airfare in Costa Rica/English-speaking guides/First Class accommodation in San Jose/
- Jungle Lodges with best possible accommodations, all with private bath or shower/5 full breakfasts/3 continental breakfasts/3 lunches/4 dinners/taxes and service charge

Hotels:
San Jose: Camino Real
Monteverde: Belmar Hotel
Manuel Antonio: El Parador
Tortuguero: Pachira Lodge

“Jefferson Has Given Me So Much. I Just Want to Give Something Back.”

Raymond C. Grandon ’45

Giving something back always has been important to Ray and Doris Grandon. An internist who practices in Central Pennsylvania, Ray has served as president of the Pennsylvania Medical Society. He has been involved in numerous voluntary medical and community organizations, as well as on several boards at the state level. Doris was the first Pennsylvania Medical Society Alliance representative to the Pennsylvania Medical Society Board. She continues to be involved in the Alliance and in several health and community activities.

Giving something back to Jefferson has been especially important to the Grandons. Ray is president of the Central Pennsylvania Chapter of the Jefferson Medical College Alumni Association and serves on JMC’s Office of Health Policy Advisory Board. In 1992, Ray and Doris initiated Jefferson’s annual Grandon Lecture in Health Policy.

The Grandons wanted to do more. Ray’s belief in the importance of health policy education grew out of his long involvement with organized medicine at the state and national level, and Doris shared this interest. After consulting with Jefferson, they decided to establish a professorship in health policy.

By establishing a charitable lead trust, the Grandons discovered that they could achieve their goal and endow a fund to support the Grandon Professorship in Health Policy while enjoying significant estate tax benefits that will allow them to pass on more of their assets to their children. Their gift has had the added benefit of encouraging Ray and Doris to focus on their own financial planning goals.

As Ray notes, “Jefferson produces people-oriented physicians, and I am very proud to be part of this tradition. Jefferson has given me so much. I just want to give something back.”

A Jefferson Planned Gift: An Investment in the Future

Charitable lead trusts are just one of several planned giving options that can benefit Jefferson and enhance your financial future. To learn more, call Frederick “Fritz” Ruccius toll-free at 1-877-JEFF GIFT [1-877-533-3443].
